Letter of Transmittal

May 29, 2013

The Honourable Dustin Duncan Minister of Health Province of Saskatchewan

Dear Mr. Duncan:

The Sunrise Regional Health Authority is pleased to provide you and the residents of the health region with its 2012-2013 Annual Report.

The report provides the Board approved audited financial statements of the region for the year ended March 31, 2013. The report also outlines the region's activities and accomplishments for the period. We are pleased in this report to provide indicators of our performance taken from our "Balanced Scorecard". The "Balanced Scorecard" is monitored throughout the year by the Sunrise Regional Health Authority to measure progress in achieving goals set out in our "2012-2017 Strategic Plan". Our Strategic Plan aligns with the Province of Saskatchewan – Ministry of Health goals of transforming health care and improving access to a health system that provides Better Health, Better Care, Better Teams and Better Value to individuals in our region and throughout the province.

Respectfully submitted,

Lawrence Chomos, Chairperson Sunrise Regional Health Authority

Suann Laurent, President & CEO Sunrise Health Region

S. Lament

Who We Are

Sunrise Health Region is one of 13 health regions in the Province of Saskatchewan, guided by specific directions in the Accountability Document for the prudent and ethical use of public funds. The mission of the Sunrise Health Region is to improve the health and well-being of individuals and communities through leadership, collaboration and the provision of high quality health services.

The Sunrise Regional Health Authority is the legal name of the region and is used in reference to the Board. Sunrise Health Region is used in reference to the geographic region, employees, programs and services.

In support of this mission, our board, management, staff, volunteers and physicians strive to abide by the values of:

Collaboration...

We act as one united team providing the best care possible

Courage...

We act courageously in relentless pursuit of safety and excellence

Compassionate and Caring...

We listen to customers and then act and deliver services with compassion, care and respect

Creativity...

We strive for innovation

Commitment...

We commit to integrity, honesty and accountability

The mission and values of the health region are devoted to achieving our long-term vision: *Working together... for healthy people in healthy communities*.

The Sunrise Regional Health Authority provides staff with direction in the form of board-approved strategic goals, which mirror the Ministry of Health's strategic deployment initiative, focusing on making improvements to the health of the population, individual care and financial sustainability in the context of value.

In 2012-13 the strategic goals of Sunrise Health Region were:

Goal #1 – **Better Health**

Goal #2 – **Better Care**

Goal #3 – **Better Teams**

Goal #4 – **Better Value**

Annual Report Overview

Staff members from throughout the health region support development of our strategic priorities and add to our strategic breakthrough initiatives and performance measures. Strategic priorities guide the development of annual operational plans (A3's) for all portfolios. Performance targets and metrics further align our departments and programs. The Board received monitoring reports throughout the year to track strategic execution. Visibility wall walks were held weekly, and started every board meeting and Physician Advisory Committee meeting to evaluate whether we were on target and to develop course correction where required.

Accountability Document

Each year the Saskatchewan Ministry of Health issues a health-region-specific "Accountability Document", which provides provincial direction, performance expectations, and the accountability framework that regional health authorities (RHAs) follow for the upcoming fiscal year.

Provincial Strategic Priorities for the Healthcare System

In 2012-13 the Ministry of Health foundational elements focused on:

- Client and Family Centred Care
- > Continuous Improvement
- ➤ Think and Act as One System

In March of 2012, the Ministry of Health unveiled a new Health Plan for 2012-13. Information about Strategic Planning for the Saskatchewan health care system and the Ministry of Health Plan for 2012-13 is available on the government website: www.health.gov.sk.ca/strategic-direction.

Strategic Plan 2012-2017

In 2012, Sunrise Regional Health Authority revised strategic policies and the 2012-2017 Strategic Plan.

Annual Report Basis for Preparation

This annual report is a legislated requirement of Sunrise Regional Health Authority containing general information about Sunrise Health Region, intended only for informational purposes. The "Balanced Scorecard" is a reporting tool used by the Sunrise Regional Health Authority to track alignment and course correction towards the targets set out in the health region's "2012-2017 Strategic Plan" and in the Ministry of Health "Saskatchewan Health Plan". The indicators in this 2012-13 Annual Report are taken from these tools and are the most recent available to the health region when the report was prepared.

Our People and Services

In 2012-13, the Sunrise Health Region provided health services to the residents of 49 cities, towns and villages, 28 rural municipalities, and three First Nations in east central Saskatchewan – approximately 57,678 Saskatchewan residents in total.

As of March 31, 2013, the health region employed 2,930 staff members who provide and support health care through community-based services and within our 22 facilities. The region's head offices are located in the city of Yorkton, which is the largest and the most central community in the region and is the location of the regional health centre.

In 2013 the health region distributed the second issue of the Report to the Community, an easy reference guide providing residents with valuable statistics and information on accessing services offered by the region. Featured items in the Report to the Community included the medication reconciliation initiative,

tobacco reduction strategy, colorectal cancer screening program, physician and nurse practitioner recruitment, falls prevention program, clinical care programs for patients pre and post-surgery, and more.

Services provided throughout the health region population include a comprehensive range of health prevention/promotion, acute, supportive and rehabilitative services, located in institutions, communities and people's homes. Below is a sampling of service volumes provided by Sunrise Health Region in 2012-13:

- 27,584 immunizations were provided (employee and public immunizations and influenza vaccine)
- 443 early visiting program "maternal/newborn" initial home visits in 2012 (all communities)
- 1,070 premises inspections by public health inspection
- 245 plumbing inspections (urban and rural) and 47 rural private sewage system inspections
- 187 animal bites followed up by public health; 36 required vaccine
- 3,014 students in 23 schools participated in fluoride mouth rinse programs (95% participation rate)
- 95% completion rate for inspecting licensed facilities
- 28,022 hours of home care nursing service
- 102,819 hours of home care support, personal care and "meals on wheels"
- 30,936 outpatient physiotherapy, occupational therapy and speech language therapy visits
- 14,517 inpatient physiotherapy, occupational therapy and speech language therapy visits
- 980,490 square meters of health care facilities cleaned and maintained each day
- Nearly 3.2 million pounds of laundry were washed, dried and folded in 2012-13
- 2,905 surgeries were performed
- 67,840 emergency room visits occurred in 2012-13
- 41,316 x-ray exams and 7,024 mammography exams
- 6,657 emergency response calls
- 12,121 mental health visits, excluding psychiatry and addictions
- 699 newborns were delivered

Surgical Cases

	2009-10	2010-11	2011-12	2012-13
Actual Surgeries performed	3,674	3,980	3,154	2,905
Provincial Target for Sunrise	3,750	3,785	3,985	3,300

The primary reason that Sunrise Health Region could not achieve the provincial target was that the target number was greater than the number of persons in the health region awaiting surgery. The wait lists for surgery in the health region was cleared.

Sample Volumes and Costs

Service	2010-11 Volumes	2011-12 Volumes	2012-13 Volumes	2012-13 Cost per service	2012-13 Total annual cost
Hemodialysis Patients	442	446	427	\$5,383.26	\$2,298,652*
ER Visits (YRHC only)	29,687	24,511	23,748	\$144.73	\$3,437,119*
CT Scans	6,443	6,278	4,713**	\$219.69	\$1,035,393*

^{*} Rounded to the nearest one-hundredth

^{**} The CT exam volume this year is 4713, which is lower than last report due to a change in the way the exams are calculated. The patient volume was similar for the last two years: 3914 in 2012-13and 4007 in 2011-12. The Provincial target for the region was 3,750.

Our Health Partners

Health Care partnerships with the following health care organizations greatly assist Sunrise Health Region in addressing its goals.

Affiliated Health Care Organizations:

St. Paul Lutheran Home, Melville; St. Peter's Hospital, Melville; St. Anthony's Hospital, Esterhazy Affiliated with Sunrise Regional Health Authority are three faith-based facilities. St. Paul Lutheran Home is a 128-bed long-term care facility; St. Anthony's is a 22-bed hospital; and St. Peter's is a 30-bed hospital. (St. Paul and St. Peter's are located together with the Saul Cohen Centre and community-based services in Melville, as part of the Melville District Health Centre). The Regional Health Services Act defines the financial and operational relationship of health regions and affiliates. Governed by its own Board of Directors, each affiliate appoints a facility administrator to oversee the facility's staff and management team. The three affiliates and Sunrise Health Region have a very close, and almost completely integrated, management team. The affiliates have chosen a relationship whereby they follow all policies and procedures of the region (that do not infringe upon the faith-based mandates of the organizations); human resource, finance and operational support services are fully integrated. The Sunrise Health Region and its affiliate partners produce a consolidated financial statement each year.

Emergency Medical Services

Sunrise Health Region provides emergency medical services, ambulance services, and first responder services to communities in the health region by a combination of contract ambulance services and region-owned services. The ambulance services in the region are:

Privately contracted:

Canora Ambulance Care
Crestvue Ambulance Services (Yorkton and area)
Duck Mountain Ambulance Care (Kamsack, Norquay and area)
Shamrock Ambulance Service (Foam Lake and area)
Preeceville Ambulance Service

RHA owned and operated:

Esterhazy Emergency Medical Service Ituna Emergency Medical Service Langenburg Emergency Medical Service Melville Emergency Medical Service

KidsFirst

KidsFirst is an early childhood development program, intended to provide vulnerable children with the best possible start in life, and to encourage nurturing and supportive well-functioning families and communities. KidsFirst provides home visiting services, early learning and child care spaces, mental health and addiction counseling, and other supports to families in need. Sunrise Health Region provides KidsFirst with financial, payroll and information technology services for a fee and is the accountable partner.

The Health Foundation

The Health Foundation is an independent community organization, managed by a volunteer board, and receives no government funding. The Health Foundation works in partnership with donors, the community, healthcare providers and government to raise and invest funds in capital and educational initiatives that will enhance healthcare services in east central Saskatchewan. Sunrise Health Region President & CEO and a Sunrise Regional Health Authority board member sit on The Health Foundation board.

Society for the Involvement of Good Neighbours (SIGN)

SIGN is a private non-profit corporation located in Yorkton in partnership with local agencies and organizations to develop and deliver needed services to area residents. Sunrise Health Region contracts with SIGN for services, with an annual service agreement that sets out the budget and terms and conditions of the services provided.

First Nations

On-reserve health services are a federal jurisdiction. The Sunrise Health Region Medical Health Officer connects at the provincial level with the Medical Health Officer for First Nations and Inuit Health. Sunrise Health Region and Key, Keeseekoose and Cote First Nations continued our contract agreements to provide Home Care services on reserve. In 2011, work began with the Yorkton Tribal Council to support outreach services from the Women's Wellness Centre to Key, Cote and Keeseekoose First Nations. In consultation with the communities, clinics began in February, 2013 focused on offering services to support the health and wellbeing of women in the communities. Clinic services focus in women's reproductive and gynecological health and include pap smears, breast exams, sexually transmitted infections testing, treatment and counseling, birth control, bone health, mental health, pregnancy testing, menopause education and support and prenatal care.

Governance and Transparency

As authorized by *the Regional Health Authorities Act*, the provincial government appoints to each region a governance body and names a chairperson and vice chairperson. The "Sunrise Regional Health Authority" (RHA) governs Sunrise Health Region, which is the formal title. Often this governance body is referred to as the "Board" or the "board members". Ministry of Health appointments to Sunrise Regional Health Authority occurred in 2012.

During the period of this annual report, the Sunrise Regional Health Authority members were:

Lawrence Chomos, Chairperson, of Esterhazy; has served from March 2007 to present Don Rae, Vice Chairperson, of Yorkton; has served from April 2011 to present Janet Hill of Yorkton; has served from April 2002 to present Dr. Walter Streelasky of Melville; has served from May 2006 to present Doris Kopelchuk of Canora; has served from February 2009 to present Dave Schappert of Langenburg; has served from February 2009 to present Shirley Wolfe-Keller of Invermay; has served from May 2012 to present Murray Dalton of Preeceville; has served from May 2012 to present Gordon Gendur of Yorkton; has served from May 2012 to present

The RHAs in Saskatchewan each have representation on the provincial Governance Committee, which plans board education events. The Governance Committee developed a provincial governance manual used by the health regions as a resource of best practices in healthcare governance.

Communication with the Minister of Health and Deputy Minister of Health occurs through a variety of methods including face-to-face meetings. The Board Chairperson and Chief Executive Officer represent Sunrise Health Region at these meetings several times a year.

The Sunrise Regional Health Authority approved the 2012-2017 Strategic Plan in May, 2012. This Plan aligns with the Province of Saskatchewan's priorities for health care planning. Saskatchewan has initiated a collaborative method of strategy deployment in 2011-2012 with the goal for all health regions to focus and finish breakthrough strategies with the potential to positively affect health outcomes. This method of strategy deployment empowers all health care employees and physicians to work together on system-wide solutions.

Public Transparency

The dates, times and locations of all public RHA meetings are listed on the health region's website. Members of the public and area journalists are welcome to attend and observe the meetings. Members of the public can also contact the region and request to be included on the meeting agenda and make presentations to the RHA. All decisions of the RHA must be made during meetings open to the public.

Once approved, the RHA posts minutes of its meetings on the web site. The minutes are public documents, as are the strategic plan and this annual report. Hard copies of the above can be obtained at the region's administrative office in Yorkton. Subsequent to all RHA meetings, the Region distributes, to staff and to all local media outlets, a newsletter summarizing the meeting's highlights. The targeted timeframe for distribution of the *BoardBrief* is 72 hours after each meeting's completion.

Community Health Advisory Committees Three new geographically based Community Health Advisory Committees were created in November 2011 with terms until September 30, 2014. At least three meetings occur per year, including one plenary meeting.

The purpose of these committees is to provide the Sunrise Regional Health Authority with community input and advice respecting the provision of health services. CHACs provide advice to the RHA in the areas of program and service development and delivery, health issues, needs and priorities, access to health services, and promotion of health. CHAC members are members of the public appointed by the Regional Health Authority. Prospective members may be self-recommended or by existing CHAC members, community groups or individuals, and are expected to complete a declaration of interest.

CHAC Committee Membership:

Area 1: Patricia Kachman, Chairperson (Hyas), Marlene Wunder, Vice Chairperson (Foam Lake), Hazel Arnie (Preeceville), Steve Bruce (Foam Lake), Thom Carnahan (Canora), Audrey Horkoff (Kamsack), Kenny Kaban (Foam Lake), Michael Kaminski (Invermay), Debra Nabess (Kamsack), Linda Osachoff (Canora), Caitlin Thomsen (Kamsack), Andrea Verigin (Kamsack)

Area 2: Earl Hughes, Chairperson (Yorkton), Peter Hay, Vice Chairperson (Yorkton), Marie Demetrow (Yorkton), Minnie Kuspira (Yorkton), Barbara Lang (Yorkton), Nicholas Lastiwka (Theodore), Juanita Polegi (Jedburgh), Vi Schappert (Yorkton), Ella Sernowski (Yorkton), Carol Tamblyn (Yorkton), Murray Williams (Yorkton)

Area 3: Dwight Herperger, Chairperson (Esterhazy), Monica Roussin, Vice Chairperson (Round Lake), Beatrice Boychuk (Ituna), Judith Brown (Tantallon), Mildred Danylko (Calder), Carol Fairbank (Melville), Debra Fuhr (Langenburg), Ann Kendel (Langenburg), Dorothy McRae (Langenburg), Elfriede Piller (Neudorf), Mark Stoll (Melville), Ruth Swanson (Churchbridge), Louise Thompson (Duff), Jessie Wade (Churchbridge)

In addition to the Community Health Advisory Committees, the health region also has public/external participants on the Regional Palliative Care Committee, Regional Spiritual Care Committee, Regional Ethics Committee and Home Care Quality Improvement Committee. There are also public/external participants on several of the health region's accreditation teams and emergency planning committees.

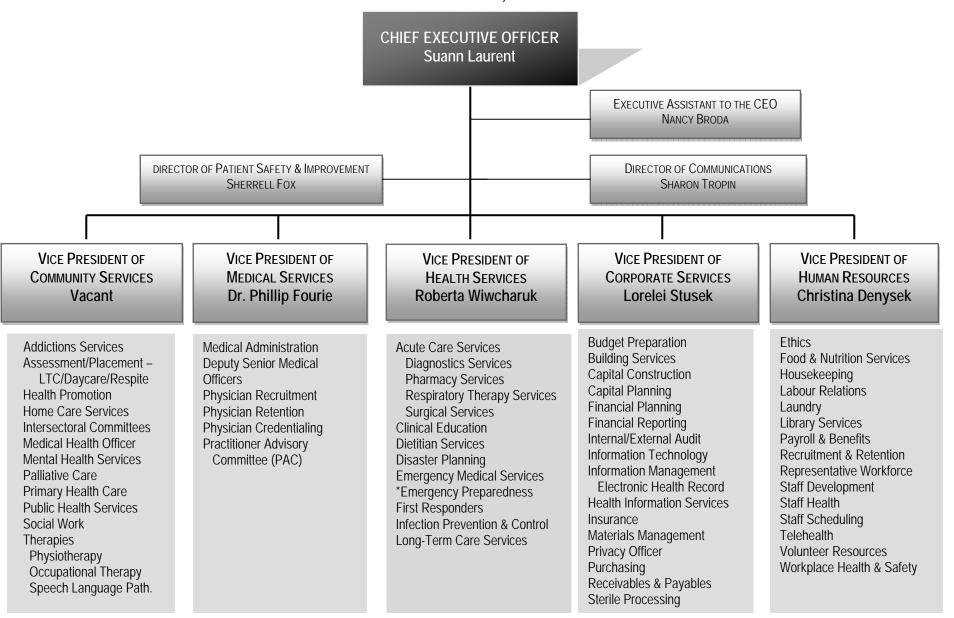

Client and Family Centred Care Steering Committee

The region is focused on advancing the philosophy of client and family centred care and has recruited clients and family members to participate in a Client and Family Centred Care Committee. The intent of the committee is to lead, encourage and support the spread of client and family centred care throughout the region in all departments, services and levels of the organization. The committee also identifies client and family centred care priorities for the region (in alignment with the Ministry of Health Patient and Family Centred Care framework) and develops action plans. Recruitment efforts are continuing for client and family advisors for the Steering Group, ad-hoc working groups and representation on existing committees. Currently, we have 16 client and family representatives in our region.

EXECUTIVE LEADERSHIP ORGANIZATIONAL CHART

As of March 31, 2013

Our Region

Demographics and Other Factors

In 2012, Sunrise Health Region had a total covered population of 57,678, a decrease of 435 people from what was reported in 2011. The source for this information is the Saskatchewan Ministry of Health 2012 Covered Population document. Covered Population is based on eligibility for health insurance benefits in Saskatchewan. If a person resides in a rural municipality, picks up their mail in a village, town or city, and only provides the Ministry of Health with a correspondence address, that person will be assigned the residence code for the village, town, or city, rather than for the rural municipality. The full document is available on the Ministry of Health website http://population.health.gov.sk.ca/.

Covered Population Statistics	2012	% of Total Pop
Yorkton	18,427	32%
Melville	5,031	8.6%
Esterhazy	3,025	5.2%
Canora	2,763	4.7%
Kamsack	2,232	3.98%
Foam Lake	1,560	2.7%
Preeceville	1,480	2.6%
Langenburg	1,409	2.4%
	35,927	62.29%
69 smaller towns, villages,		
hamlets and RMs	20,007	34.69%
Key, Cote, Keeseekoose First		
Nations	1,744	3.02%
TOTAL	57,678	100%

A key characteristic of the health region's population continues to be a population significantly older than the provincial average; its population can be appropriately described as the *oldest* in the province. Of the health region's population 21.2% are over age 65 (provincially, 14.4%).

Other population characteristics from Statistics Canada 2011 data: the total aboriginal population in Sunrise Health Region as 8.5%, the long-term unemployment rate is 2.3%, and 50.4% of the population are post secondary graduates (includes certificates, diplomas and degrees).

As of March 31, 2013 Sunrise Health Region employed 2,930 people or 5% of the region's population. 415 employees (14.1%) will be eligible for retirement by December 31, 2013.

Health Status and Outcome Indicators

** Please refer to source documents for details on the indicators, the sources for their calculations and methodology. Source data for Statistics Canada can be found at www.statcan.gc.ca

Infant Mortality

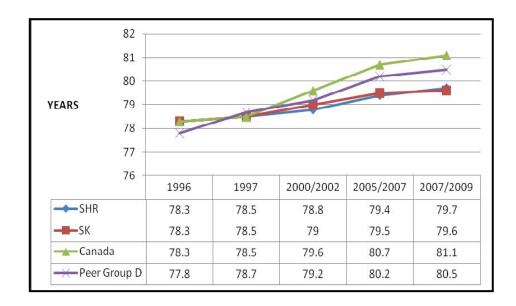

According to the Saskatchewan Prevention Institute, through the 1990s and into the early 2000s, infant mortality rates in Saskatchewan fell close to the national average. However, after dropping to a historic low in 2001, from 2001-2005 the infant mortality rates have been increasing.

For Sunrise Health region, the same source indicates that, after an increase from 4.5 per 1,000 in 2001-2005 to 7.4 per 1,000 in 2006, the infant mortality rate dropped to 3.5 per 1,000 in 2007. During the same period the provincial rates were 6.3, 6.3 and 5.9 per 1,000. (Saskatchewan Prevention Institute, 2010)

Life Expectancy

The figure below shows that in Sunrise Health Region, life expectancy at birth increased steadily from 78.3 years in 1996 to 79.7 years during the period 2007/2009. However, this increase has been below the average increase experienced in similar health regions, Saskatchewan and Canada. Further analysis has shown that since 2000, the difference in life expectancy at birth between Sunrise Health Region and Canada has been statistically significant. Compared to Saskatchewan, the difference was not statistically significant during both periods. Compared to similar health regions, the difference was statistically significant only during the periods 2005/2007 and 2007/2009.

Life expectancy at birth in Sunrise Health Region, Saskatchewan, Canada and Peer Group D health regions (Source of data: Statistics Canada, CANSIM tables 102-0018, 102-0218 and 102-4307)

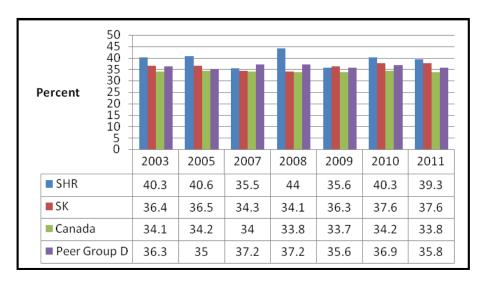

Overweight, Obesity and Physical Activity

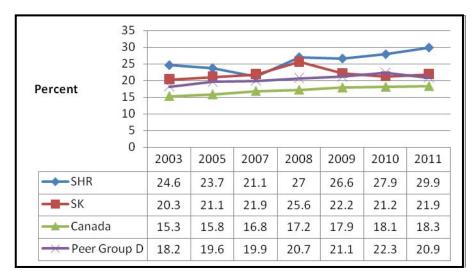

In Sunrise Health Region, the prevalence rate of self-reported overweight remained between 35.5% and 40.6% and did not show any significant change from 2003 to 2011 as the isolated increase noted in 2008 was not sustained. It is important to note, however, that the Sunrise Health Region rates have been greater than those in similar health regions, Saskatchewan and Canada

Prevalence rate of self-reported overweight in adults (18 years and above) in Sunrise Health Region, Peer Group D health regions, Saskatchewan and Canada from 2003 to 2011 (Source of data: Statistics Canada, Canadian Community Health Survey, CANSIM table 105-0501)

In 2003, 24.6% of Sunrise Health Region residents self-reported as obese, and this proportion increased to 27.9% in 2010. Although obesity rates have been increasing in all geographical entities considered in the analysis, they are much greater in Sunrise Health Region compared to similar health regions, Saskatchewan and Canada.

Figure 33: Prevalence rate of self-reported obesity in adults (18 years and above) in Sunrise Health Region, Saskatchewan, Peer Group D health regions and Canada from 2003 to 2011 (Source of data: Statistics Canada, Canadian Community Health Survey, CANSIM table 105-0501)

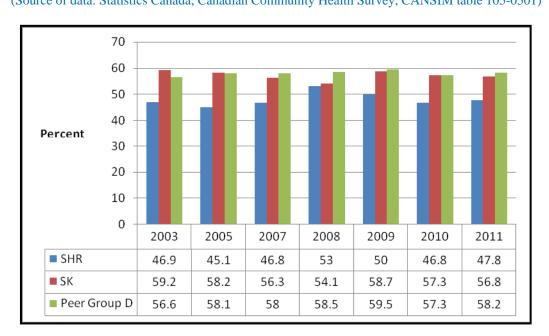

Self-reported Health Status

Over the eight year period from 2003 to 2011, less than half of Sunrise Health Region residents rated their health as very good or excellent and this proportion progressively increased from 2003 to 2008. Since then, it started a sustained downward trend to revert back to its value of 2003. During the same period, the proportion of Sunrise Health Region residents who rated their health as very good or excellent was lesser than Saskatchewan and Peer Group D health regions as depicted in the figure below. Meanwhile, this proportion did not record any significant change for Saskatchewan and Peer Group D health regions.

Proportion of population 12 years and above that rated their health as very good or excellent in Sunrise Health Region,
Saskatchewan and Peer Group D health regions from 2003 to 2011
(Source of data: Statistics Canada, Canadian Community Health Survey, CANSIM table 105-0501)

The following table provides the proportion of residents who self reported as current smokers (daily or occasional) or living with a selected chronic condition. (Source: Statistics Canada, CANSIM table 105-0501)

	Sunrise Health Region	Saskatchewan	Canada
Current smoker	21.7%	23.8%	19.9%
Arthritis	25.5%	18.4%	17%
Diabetes	11.4% (*)	5.7%	6.1%
High blood pressure	29.6%	18.3%	17.6%

^(*) Statistics Canada advises to use this figure with caution due to sample issues. The value for 2010 was 6.1%.

Major Events & Mitigated Risks

Strategy Deployment and Lean – The Ministry of Health and health regions are in the second year of a profound shift in the way health system strategic planning and strategy deployment moves forward with a renewed commitment to better health, better care, better and value and better teams in Saskatchewan's health system. Strategy in Saskatchewan is focused on "acting as one" and using Lean strategies to eliminate waste in the health system to increase value for the people we serve. Lean is a patient-first approach that puts the needs and values of patients and families at the forefront and uses proven methods to continuously improve the health system. It is unique in that it engages and empowers employees to generate and implement innovative solutions, and to fundamentally improve the patient experience on an ongoing basis. Early results are promising and show these efforts to be improving patient experience and outcomes, enhancing staff morale and engagement, increasing system productivity, and freeing-up provider time for patient care and improved service delivery.

Twenty-six region employees are in various stages of Lean Leader Certification, consisting of approximately 75 days of training. Some of the Lean methodologies used include mistake proofing, value stream mapping and rapid process improvement workshops. These Lean methodologies will drive continuous improvement in our region and our province for the people we serve.

Accreditation – A team from Accreditation Canada presented their preliminary findings at the end of the November 19–23, 2012 survey of the health region. The verbal report was presented to members of the board, staff and physicians and a formal written report followed. The survey team was highly complementary of continuous improvement progress witnessed in the region noting a fifty percent improvement since last accredited, three years ago.

Primary Health Care Innovation Site announced for Yorkton and Foam Lake – On May 8, 2012, the Government of Saskatchewan announced eight Primary Health Care innovation sites in the province, including approval of a proposal submitted by Sunrise Health Region and its community partners in Yorkton and Foam Lake. Each innovation site in the province has a slightly different focus. Health regions will follow the progress of each site looking for best practices to apply in their own region. Initially, the Yorkton/Foam Lake Primary Health Care innovation site will focus on patients with chronic conditions, such as diabetes and cardiovascular disease. At the clinic in Yorkton and the satellite in Foam Lake, patients will experience a variety of services including individual and shared medical visits with a team of health experts. Patients will learn how to manage their chronic condition from the team members and from the experiences of other patients with similar chronic conditions. A 3P event was held in July 2012 for the prototype Primary Health Care – Chronic Disease Management clinic. A needs assessment was competed and reviewed by the community of Foam Lake. This preparation work will continue in 2013 and the primary health care prototype will be a valuable addition to services offered in the region.

U of S Partnership – In April, 2012 the University of Saskatchewan – College of Nursing and Sunrise Health Region entered into a partnership to facilitate graduate nursing education opportunities in the region and to enhance professional nursing practice. Dr. Karen Semchuk was jointly appointed by the U of S and the region as the Director of Professional Practice and works onsite with the region to provide leadership in clinical education and professional practice while continuing to teach for the University of Saskatchewan.

Colorectal Cancer Screening Program – In January 2013, the health region further supported chronic disease management by implementing a Colorectal Cancer Screening program, allowing residents over the age of 50 in the region to have the opportunity for regular screening and early detection.

Service Interruptions in health facilities – In August 2012, the region received notification that due to lack of physician availability Canora Hospital would be without emergency on-call and inpatient services for an extended length of time. The interruption in services lasted until January 11, 2013 when three new physicians arrived to practice in Canora. Due to lack of physician availability, Preeceville and District Health Centre has experienced a large volume of temporary service interruptions affecting emergency services and on several occasions, both emergency and inpatient services. The region continues recruitment efforts in Preeceville.

Attendance Management – In 2011-12, Sunrise Health Region had the highest rates of sick time and wage driven premiums in the province. One of the greatest successes this year is the complete turnaround in this area. Sunrise is now the second best performer in the province. Key to this turnaround was employee commitment, the STEP (Strategies Toward Enhanced Performance) attendance management initiative, and recruitment.

In 2011-12, the health region paid 92.12 hours in sick time per full-time equivalent, at a cost to the health system of over 5.6 million dollars. To the end of March, 2013, annual paid sick time hours were 72.37 per full-time equivalent (a full-time equivalent is employee paid time equal to 1,950 hours a year).

Statistical monitoring walls are located in all facilities and provide information related to the STEP initiative such as absence call-in procedures and information about attendance management and modified duties supports which are available to employees. The STEP walls provide a location for managers and front-line employees to view and discuss regional and department statistics and suggestions to further reduce injury rates and improve employee health.

Invermay Health Centre – On January 17, 2013, staff at Invermay Health Centre noticed that the floor was sloping in the west corner of the west wing. Bracing was put into place, the long-term care residents were moved from the west wing to another part of the building, and the wing was sealed off. Experts in air quality testing and structural engineering were called. Tests indicated presence of mould. Equipment was installed to improve the air quality until the source of the problem is identified and corrected.

Long-term care residents and staff were relocated to facilities within the region in Canora, Yorkton and Foam Lake. On April 2, 2013, it was announced that the Government of Saskatchewan – Ministry of Health has committed \$2.8 million to address the structural problems, with repairs expected to be completed by October, 2013.

Tobacco Reduction Strategy – In 2012 the region approved a tobacco reduction strategy. The action plan is a two-pronged approach to eliminate tobacco use on health facility grounds by July 1, 2013 and for ongoing reduction of tobacco consumption in the community. Education and tobacco cessation tools are being implemented to assist employees and patients with tobacco addition to cope while staying in health facilities and on health region property. The new policy allows for individual exceptions for residents in long-term care facilities, for ceremonial use and when patients (due to their medical condition) are unable to utilize cessation tools.

Physician Recruitment – Ten new physicians arrived in the region in 2012-13. Physician recruitment continues to be a priority area of focus for the health region. The region continues to recruit for family physician vacancies in Preeceville and in Yorkton for specialists in internal medicine, anesthesiology and radiology.

Sunrise Regional Health Authority Chairperson – Greg Kobylka, Chairperson of the Sunrise Regional Health Authority, resigned his position effective September 1, 2012 due to increased commitments outside of his role as Board Chairperson. Serving on the Sunrise Regional Health Authority Board of Directors since November, 2004, Kobylka was involved in a many advancements and initiatives in Sunrise Health Region.

Lawrence Chomos of Esterhazy was appointed, by the Ministry of Health, as the Chairperson for Sunrise Regional Health Authority Board of Directors on December 12, 2012; Don Rae of Yorkton was appointed to the position of Vice Chairperson.

2012-13 Budget Rollout – Sunrise Health Region approved a balanced budget of \$208,674,511 for the period of April 1, 2012 to March 31, 2013. Priorities within the budget included attendance management, strengthening primary health care, building continuous improvement system capacity, improving surgical access, implementing shared services, and further advancing client safety and satisfaction. For the past three years, the health region achieved balanced budgets at year-end.

Progress in 2012-2013

The Regional Health Services Act defines the relationship between Sunrise Health Region, the Minister of Health, and the Ministry of Health. The "Strategic Visibility Wall" and "Balanced Scorecard" are reporting tools used by the Sunrise Regional Health Authority to track alignment with the targets set out in the health region's "2012-2017 Strategic Plan" and in the Ministry of Health Plan 2012-13. The Strategic Visibility Wall is located in the Mental Health Auditorium of Yorkton Regional Health Centre. A "Wall Walk" is held once each week that is open to anyone who wishes to attend and during which the executive leadership describe the strategies the region is working on and progress towards the targets. A link to the "Balanced Scorecard" indicator report is provided on the home page of the public website www.sunrisehealthregion.sk.ca. The indicators in this 2012-13 Annual Report are from these monitoring processes.

The health region's strategic focus is described by four "Betters", upon which objectives, plans and actions were built.

Strategy: Better Health

Improve population health through health promotion, protection and disease prevention, and collaborating with communities and different government organizations to close the health disparity gap.

Provincial 5 year Improvement Targets:

- By 2017, there will be a 50% improvement in health status by focusing on prevention and management of the 6 highest impact chronic diseases (Diabetes, CAD, COPD, Depression, Congestive Heart Failure, Asthma)
- By 2017, at risk populations (all age groups) will achieve better health through access to evidence based interventions, services and/or supports.

Hoshin/ Breakthrough Initiative:

 Strengthen client-centred Primary Health Care by improving connectivity, access and chronic disease management.

Projects

1. Primary Health Care Redesign – Chronic Disease Management

Target	Status
By March 31, 2013, SHR will develop a prototype PHC-Chronic Disease Management clinic in Yorkton with a satellite clinic in Foam Lake.	
By March 31, 2013, a Colorectal Cancer Screening Program will be implemented in SHR.	Partially Achieved

Results:

Prototype PHC-Chronic Disease Management Clinic - A physician-developed clinic with supports from Chronic Disease management Programming by Health Region staff was proposed, using a multidisciplinary team based approach to health care delivery and supporting patient care

delivery by directing patients to the most appropriate care provider for their health related concerns. In July 2012 a 3P (Production, Proparation, Process) event was held in Yorkton.

Following the 3P there were changes in direction for the proposed clinic development and focus shifted to supporting patient care delivery by utilizing shared medical visits for patients with diabetes. Monthly basis shared medical visits were held for four groups of patients with each group being seen once every three months. Team members included a physician, exercise therapist, mental health nurse, diabetes nurse educator, dietitian, and nurse practitioner.

Foam Lake is connected to the Primary Health Care Innovation Model in Yorkton. Starting in February 2013 a Community Health Advisory Committee began work with community stakeholders prioritizing actions for moving forward.

In March 2013, a Rapid Process Improvement Workshop was completed with a primary focus on Diabetes Education. During this event a team of health care professionals and clients set into motion changes to improve access and delivery of the diabetes education process.

Future direction: Co-locating a team to support patient care delivery with a multidisciplinary team based approach was identified as crucial and a proposal has been submitted to the Ministry of Health to exploring opportunities for funding of space to support the Innovation Model. A Nurse Practitioner position opening is being posted to support the Yorkton Innovation Project and provide interim part-time support to Foam Lake until a successful candidate is recruited to Foam Lake. Work continues on the business plan and work plan to move forward in 2013-14 with the Primary Health Care Innovation Clinic in Yorkton with support to Foam Lake.

Colorectal Cancer Screening Program - Sunrise Health Region became part of the Saskatchewan Cancer Agency Colorectal Cancer Screening program in January, 2013. Through this program, residents have access to colorectal cancer screening with an easy to use home test.

Colorectal cancer is the second most commonly diagnosed cancer in Saskatchewan, accounting for approximately 14% of new cancer cases and it is the second leading cause of cancer deaths. Between 1998 and 2007, there was a 21% increase reported in the number of new colorectal cancer cases in Saskatchewan. However, the disease is over 90% preventable and easily treated when diagnosed in the early stages.

The program uses a Fecal Immunochemical Test (FIT) which looks for blood in the stool that is not visible to the naked eye. The kit also includes a lab requisition form, pre-paid return envelope and information on patient rights to privacy.

Test kits are delivered to eligible residents aged 50-74. Once the in-home test is completed, the sample is mailed to the Provincial Laboratory for analysis in the postage-paid envelope supplied. Participants will receive a letter back from the Screening Program for Colorectal Cancer reporting the results of the FIT test.

Since the screening program for Colorectal Cancer launched in 2009 over 130,000 Saskatchewan residents have been invited to participate in the screening program.

2. Clinical Practice Redesign

Ta	ırget	Status
•	By March 31, 2013, Clinical Practice Redesign will be implemented in SHR in two primary health care sites, one physician clinic and one diagnostic imaging site.	Achieved

Clinical Practice RedesignTM is a provincial initiative focused on improving the patient experience in the continuum of care. A continuum of care is a concept involving an integrated system of care that guides and tracks a patient over time through a comprehensive array of health services. It's about improving processes and communication within, and between, practices to optimize the patient experience.

Results: Saskatchewan health regions, in partnership with the Health Quality Council of Saskatchewan, trained coaches throughout the province to provide customized, on-site support for patients and health care providers.

In Sunrise Health Region, two part-time coaches were hired to work with four sites identified in the needs assessment process: a physician clinic (Dr. Roodt, Yorkton), two primary health care clinics (Womens's Wellness Centre and Norquay Health Centre) and a medical imaging site (Yorkton Regional Health Centre). This work has included:

- building relationships with health care providers,
- improving office processes and communications within and between other health care providers and services, and
- improving access to services, therefore reducing backlogs

All sites have experienced a variety of improvements in utilizing this new way of working. They continue to be engaged in finding new opportunities to provide their patients with better health, better care and better value through the commitment towards working as better teams.

3. Primary Health Care - Electronic Medical Record

Ta	arget	Status
•	By March 31, 2013, we will develop a PHC - Electronic Medical Record pilot, linking primary health sites to participating physician clinics and other health care providers.	Achieved

In moving forward with the Primary Health Care Innovation Model, the need to work towards a single patient record and ability to share information to support patient care delivery was identified.

<u>Results:</u> Groundwork was laid in 2012-13 and OptimedTM software will be utilized for the pilot project in Sunrise Health Region. In February 2013, the Primary Health Care Solution Business Manager position was posted. This position will focus on technology linking primary health care sites to physician clinics and other health providers. In March 2013 the position was filled.

Future direction: Project requirements and agreements are being finalized and will be approved in 2013-14.

4. Tobacco Reduction Strategy

T	arget	Status
•	By March 31, 2013, 85% of target staff (i.e. Registered Nurses, Physicians,	
	Pharmacists and Respiratory Therapists) will be trained in engaging clients in smoking cessation.	
•	By July 1, 2013, SHR premises and grounds will be smoke free as per policy.	Partially Achieved

The Tobacco Reduction Strategy is focused on having an environment, which protects clients, staff and the public from second-hand tobacco usage, gives support for clients, staff and physicians who wish to stop using tobacco products and respecting the ceremonial use of tobacco within First Nations healing ceremonies in health facilities.

<u>Results:</u> A detailed Communication Plan was developed and implemented, including news releases and advertisements targeted at the general public, and information updates to staff in professional practice newsletters and articles in the Connection employee newsletter.

Detailed information about the on-line Partnership to Assist with Cessation of Tobacco (PACT) training modules for health professionals was distributed to support engagement and education with patients/residents/clients about the Smoking Policy, availability of Nicotine Replacement Therapy while in hospital and information on resources available to assist with cessation attempts.

As of March 31, 2013 the first analysis of staff completion rates revealed 43% of targeted staff had submitted certificates indicating completion of the on-line PACT training. Reasons for not meeting the original target included: delay in launching of the on-line training program, lack of access to computer workstations, some workstations not being equipped with sound cards & speakers and difficulty in creating/finding time during regular work shifts.

Medical Health Officer Dr. Nsungu established a multi-sectoral advisory committee to serve as forum for information sharing and dialogue on action that may be taken individually and collectively by community-based health and human service organizations in the region in attempting to educate and inform about the addicting nature of commercial tobacco products, and encouraging healthier lifestyle choices.

All premises and grounds in the region will be tobacco free effective July 1, 2013.

Balanced Scorecard Report:					Target
Better Health	2009-10	2010-11	2011-12	2012-13	2012-13
					p=SK
Hospital Standardized Mortality Ratio (HSMR)	70	67	74	n/a	< Reported 2011-12 (p)
Immunization rate for 2 year-old children	80.5%	79%	81.5	n/a	82%
HPV immunization rate for grade 6	61.0%	76.0%	n/a	n/a	63%
% of LTC residents who receive flu vaccine	91.6%	90.1%	77.0%	81.40%	85%
% of health workforce who receive flu vaccine	41.7%	38.46%	42.19%	n/a	60%
· · · · · · · · · · · · · · · · · · ·	·	·		·	

Strategy: Better Care

In partnership with clients and families, improve the individual's experience, achieve timely access and continuously improve healthcare safety.

Provincial 5 year Improvement Targets:

- By March 2017, all people have access to appropriate, safe and timely surgical and specialty care as defined by the improvement targets.
- By March 31, 2017, no patient will wait for care in the Emergency Department.
- By 2017, establish a culture of safety with a shared ownership for the elimination of defects (uncorrected errors).

Hoshins/ Breakthrough Initiatives:

- Transform the patient experience through sooner, safer, smarter surgical care.
- Safety Culture: focus on patient and staff safety.

Projects

1. SHN (Safer Healthcare Now) Bundle: Preventing Surgical Site Infections

Target	Status
• By March 31, 2013, 100% Safer Healthcare Now (SHN) bundle compliance in colorectal and C-section surgical cases.	
	Partially Achieved

<u>Results:</u> Working with the Safer Healthcare Now! Surgical Infection Bundle, the region focused on implementing the bundle components for Colorectal and Caesarian sections related to the indicators of what causes infections. One hundred % compliance was achieved in four out of the six main indicators; the six indicators are infection rate, hair removal, temperature control, prophylactic antibiotics, skin preparation and glucose control.

Improvements have been made in temperature monitoring throughout the surgical procedure and blood sugar monitoring after surgery. By closely monitoring these factors, health care providers are better equipped to act quickly if an issue arises that may contribute to infection. Staff members also contact patients post-surgery to check on their healing progress, allow questions to be asked and follow-up with post-care options if required.

The remaining two, temperature control and prophylactic antibiotics, will take more time to achieve as they are more complex and require changes within the fundamental operations of the surgical system.

Future direction: Work continues on the surgical system changes needed to achieve 100% compliance on the two indicators of success not achieved in 2012-13. The focus in the upcoming year is implementation of the Surgical Infection Bundle and monitoring compliance for all general, obstetrical and gynecological surgeries.

2. Discharge Planning

Ta	arget	Status
•	By March 31, 2013, implement a systematic approach with a focus on discharge planning upon admission. (provincial D Minus system implementation)	Achieved

The "D Minus" system for discharge planning involves having everything in place for a patient prior to discharge.

Results:

The Medicine and Surgical Units in Yorkton Regional Health Centre began the "D minus" system to plan for discharge with a "tentative date of discharge" identified on admission. A visual system was implemented to track patient status at a glance.

Yorkton Regional Health Centre has implemented "interdisciplinary daily discharge rounds" on medicine and surgery, which includes physicians, nurses, home care, therapies, dietitians, social workers, etc. in creating a care plan for patients prior to discharge. When patient needs are identified, staff members assist in setting up appropriate services that are required after discharge such as therapy, home care, etc. allowing patient to return home safely. By working with the team of health providers, the process allows everyone to have knowledge of the discharge plan.

A value stream map of the process was created in early 2013, with representation from Health Services and Home Care departments in reviewing current practices in acute care discharge planning.

3. Medication Reconciliation on Admission and Discharge

Ta	arget	Status
•	By March 31, 2013, 100% of facilities/programs will audit medication reconciliation on admission and discharge.	Achieved

Medication Reconciliation is a strategic breakthrough project designed to prevent medication errors. The first step in the process includes obtaining a complete and accurate list of medications. Patient interviews are a critical step in Medication Reconciliation. When the interview is conducted by a health care provider, it provides the opportunity to review all current medications and verify dosages and usage instructions, especially if there have been recent changes. This helps ensure the safety of the patient and the appropriate use of the medications.

According to research, medication errors are the most common patient safety error in hospital settings. More than 40% of errors are attributed to improper reconciliation - ensuring that the most up-to-date information on medication names, dosages and ways to administer are recorded. (Source: Safer Healthcare Now! Medication Reconciliation in Acute Care, 2011)

Results:

Presently medication reconciliation is occurring at all six acute care sites, all thirteen long-term care facilities and all ten Home Care sites within the region. Medication reconciliation has also been initiated on discharge to three of six sites in various phases to community and long-term care within the region. Plans for medication reconciliation audits on discharge are still being developed at a provincial level.

4. Rural Pathway Initiative

Ta	arget	Status
•	By March 31, 2013, 30% of SHR clients receiving hip, knee and spine surgery will be seen through surgical pathways.	Achieved

An integral part of the Saskatchewan Surgical Initiative - the commitment to provide sooner, safer, smarter surgical care, Clinical Care Pathways use best practices to streamline each step in a patient's journey. Sunrise Health Region has been working to implement care aspects for clients undergoing hip or knee replacement surgeries through the Clinical Care Pathways of pre-surgery education and early intensive rehabilitation post-surgery.

Results: Targets for training staff and physicians in the spinal pathway were met. The spinal clinic was implemented in September, 2012 and has led to a decrease in wait list for spine referrals by 75% as of March 31, 2013, exceeding the set target by 25%.

The hip and knee pathway incorporating patient education sessions via Telehealth was implemented province-wide in March, 2013. We are on target regionally and provincially; next steps include introducing six new pathways over the next three years.

5. SHN (Safer Healthcare Now) Bundle: Falls Prevention

Ta	arget	Status
•	By March 31, 2013, 100% implementation of the Safer Healthcare Now (SHN) Falls Prevention bundle in LTC, Home Care and one Acute Care pilot site. By March 31, 2013 there will be a 5% reduction in the number of LTC	Achieved
	residents in SHR that experience a fall.	

The Falls Prevention program, focuses on high-risk individuals and how to minimize their risk of injury within all facilities in the health region.

Results: The program has been implemented in long-term care, home care and a pilot project in the Yorkton Regional Health Centre. Success has been achieved in increasing the focus on falls prevention within the region and consistent application of the program throughout. The understanding of why clients are falling has increased with interventions to prevent falls being put in place and reviewed. The next step is to complete the roll out to acute care, focus on interventions and work towards the goal of zero injuries from falls by 2017.

Balanced Scorecard Report:	2012-13	2012-13	2012-13	2012-13	2012-13	Target

Strategy: Better Teams

Build safe, supportive and quality workplaces that support client and family-centred care and collaborative practices, and develop a highly skilled, professional and diverse workforce that has a sufficient number and mix of service providers.

Provincial 5 year Improvement Targets:

• By March 31, 2017, increase staff and physician engagement scores to 80%.

Hoshin/ Breakthrough Initiative:

Safety Culture: focus on patient and staff safety.

Projects

1. Safety Management System

Т	arget	Status
•	By March 31, 2013, Sunrise Health Region will have completed and begun to implement a system wide employee safety management system plan.	Achieved

Results: This target was achieved through the application of the safety management audit assessment tool in two sites in the region; Yorkton Regional Health Centre and Centennial Special Care Home in Esterhazy. The region had previously completed complementary worksafe audits at three sites; Yorkton and District Nursing Home, Melville Health Care complex and the Yorkton Regional Health Centre. In follow up to the audits, improvement plans were developed with ongoing work in progress in the next fiscal year to move improvements forward. Successfully meeting this target positions the Sunrise Health Region for success in 2013-2014.

Additionally, through implementation of preventative strategies, the Sunrise Health Region experienced 284 isolated incidents in 2012-2013 compared to 319 in the previous year. This represents an 11% decrease. The region is continuing to focus on staff safety as a strategic priority for 2013-2014.

2. Attendance Management

Target	Status
Sunrise Health Region will meet provincial attendance management targets by March 31, 2013.	Partially Achieved

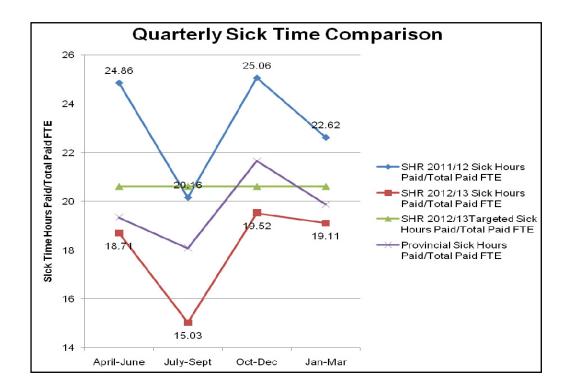

Sunrise Health Region was experiencing poor employee attendance which was negatively impacting the workplace and consuming unnecessary resources (fiscal and human), potentially impacting the region's current level of service delivery. The accountability agreement identified expected savings be recaptured through reductions in sick time and wage driven premiums. The primary cause of wage driven premiums was sick time replacement.

The region had continuously fallen short of meeting the provincial targets. Sunrise Health Region committed to reducing workplace injury to support a healthy, productive and positive workforce. In addition, a safer workplace contributes to enhanced patient safety.

Results: The organization implemented "Strategies To Enhance Performance" (S.T.E.P.) to address sick time and wage driven premiums. Sunrise Health Region exceeded the sick target with a 22% reduction which saw the region move from 92.62 sick hours paid/total paid FTE in 2011/12 to 72.37 in 2012/13.

Although the region fell slightly short of the target for wage driven premiums, we did experience a 24% reduction and saw the region move from 60.26 WDP hours paid/total paid FTE in 2011/12 to 45.56 in 2012/13.

3. Front Line Management Capacity

Та	rget	Status
•	By April 1, 2013, wage-driven premiums are at or below the provincial target	
•	By October 31, 2013, 0% of Front Line Managers' time is spent performing in-scope duties.	Achieved
•	By October 31, 2013, service reductions resulting from shortages of front-line staff are eliminated.	

Front Line Management is key to the success of the organization. A high performing management team leads and manages processes, people and change in order to be successful in providing high quality, safe, health care services. Managers require tools, supports, competencies and an environment to succeed. The Manager's role has become increasingly complex, creating challenges and frustrations related to amount of work, supports and needed proficiencies/competencies.

Several themes have emerged over time regarding the types of activities that divert first line managers from managing performance, leading continuous improvement, and supporting client care. However, objective data had not been collected to support the qualitative feedback from managers. Numerous reviews and reports, including, accreditation reports, administrative reviews, employee opinion and engagement surveys, had noted deficiencies in front line management capacity and indicated a need to make improvements.

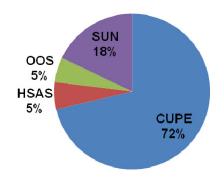

Results:

The region embarked on a collaborative project model with four fellow south regions to collect and analyze data. Emerging themes included activities related to staff scheduling, human resource processes, namely hiring, and daily work such as emails/phone calls/meetings. In response, the region continues to support and move forward with the provincial Gateway Online employee information system, aggressively recruit new staff to alleviate many of the challenges within scheduling and explore additional reporting and informational processes as supports. Initiatives will continue into 2013-2014.

Sunrise Health Region actively recruits in all areas.

As of March 31, 2013, the number of employees by union affiliation was:

- Canadian Union of Public Employees (CUPE) 2,090
- Health Sciences Association of Saskatchewan (HSAS)
 165
- Out of Scope/non-union (OOS) 152
- Saskatchewan Union of Nurses (SUN) 523
- All employees **2,930**

The Canadian Union of Public Employees (CUPE) is the largest union in Sunrise Health Region. Sunrise Health Region does not have any employees represented by the unions SGEU, SEIU or RWDSU.

Balanced Scorecard Report:	2012-13	2012-13	2012-13	2012-13	2012-13	Target

Strategy: Better Value

Achieve best value for money, improve transparency and accountability, and strategically invest in facilities, equipment and information infrastructure.

Provincial 5 year Improvement Targets:

- By March 31, 2017, as part of a multi-year budget strategy, the health system will bend the cost curve by lowering the status quo growth by 1.5%.
- By March 31, 2017, all IT, equipment and infrastructure will be coordinated through provincial planning process to ensure provincial strategic priorities are met.

Hoshins/ Breakthrough Initiatives:

- Deploy a Continuous Improvement System (Lean).
- Identify and provide services collectively through a Shared Services organization.

Projects

1. Continuous Improvement System - Capacity Building

Ta	arget	Status
•	By March 31, 2012, 100% of the Executive Leadership Team and 35% of the Patient Safety and Improvement Unit staff will be enrolled in Lean certification training.	Achieved

Lean is a patient-centred approach in identifying and eliminating all non-value-added activities and reducing waste within an organization. The Government of Saskatchewan - Ministry of Health has outlined ongoing commitment to using Lean to improve health care for Saskatchewan patients, their families and health care providers. Saskatchewan is the first province in Canada to start implementing Lean across the entire provincial health system.

Health Care providers, physicians, leaders and staff are now participating in training sessions and focused quality improvement projects to ensure that continuous improvement is embedded in Saskatchewan's health system.

Results: A target was set for 100% enrollment of the Executive Leadership Team and 35% of the Patient Safety and Improvement unit staff in Lean Leader certification training by March 31, 2013. The target was surpassed with 26 participants enrolled in the first two waves of Lean Leader Certification in 2012-13, including 100% of the Executive Leadership team, 75% of the Patient Safety & Improvement team and 15 additional regional directors/managers. The Lean certification process will increase our organization's capacity to use the methods and tools of lean to improve our system and create more value-add for our patients and families. Participants are expected to complete the certification process over 12-18 months. In the last quarter of 2012-13, Sunrise started to deliver a one-day workshop on Kaizen Basics/Lean 101 training to help staff understand basic Lean/Kaizen concepts, methods and tools.

Future direction: Kaizen Basics/Lean 101 training provides a foundation for common language and understanding of Lean across the region and will be mandatory for all 2,600 active staff to complete over the next 18 months.

2. Lean Initiatives

Та	rget	Status
•	By December 2012, 100% completion of existing Lean projects (Food	
	Services value stream, Hiring Process value stream, Surgical value stream	
	and Lab value stream).	
•	By May 15, 2013, development of a sequencing plan for the seven Lean	Achieved
	expressions of interest received in February, 2012.	Admicved
•	By March, 2013, surgical wait times not to exceed 6 months	

Lean is a patient-centred approach in identifying and eliminating all non-value-added activities and reducing waste within an organization.

<u>Results:</u> Implementation plans were targeted for completion by December 31, 2012 in the following value streams:

- Surgical Value Stream
- Hiring Process Value Stream
- YRHC Food Services Value Stream
- Regional Lab Value Stream

The implementation plans for the Surgical Value Stream, the Hiring Process Value Stream and the YRHC Food Services Value Stream were completed by their target dates of December 31, 2012

In the Regional Lab Value Stream; 16 of 22 projects in the implementation plans were completed by December 31, 2012; two more were completed by January 31, 2013; another two were completed by February 28, 2013 and two remain incomplete with work continuing. Both projects will be completed upon installation of equipment.

3. Releasing Time to Care™

Т	arget	Status
•	By March 31, 2013, completion of Releasing time to Care TM (RTC) foundational modules and one process module for three units at Yorkton Regional Health Centre.	Ashisayad
•	By March 31, 2013, implementation of RTC in Mental Health and completion of three foundational modules and one process module.	Achieved

<u>Results:</u> Target was to have three Foundational Modules (Knowing How We Are Doing, Well Organized Ward, Patient Status at a Glance) and one of the eight Process Modules completed in the following three units:

- Yorkton Regional Health Centre Inpatient Surgical unit
- Yorkton Regional Health Centre Medicine/Pediatrics unit
- Yorkton Regional Health Centre Medicine unit
- Mental Health Pine Unit

Targets for completion of three foundational modules and one process module were achieved on all four units by March 31, 2013.

4. CIS - IT and IM Plan

Target	Status
• As part of the Continuous Improvement System (CIS) there will be an Information Technology and Information Management Plan and implementation in alignment with Breakthrough Initiatives and Strategy Deployment	Achieved

Results: An eHealth Strategy Steering Committee was established to develop a policy, procedures, request form, guiding principles and a scoring mechanism for prioritization. A total of 28 projects were submitted for the 2012-2013 fiscal year with ten projects currently in progress and five recurring projects performed on a regular basis. The eHealth Strategy Steering Committee prioritized the remaining projects based on the information submitted and projects were presented to the Information Systems Committee for discussion and projected timelines. A Milestone Chart monitors progress on this project.

The Information Technology / Information Management Master Project Plan has been developed and will be presented to the Sunrise Regional Health Authority Board in May, 2013. Implementation of the plan will occur later in 2013.

5. CIS – Building Infrastructure Plan

Target	Status
• By March 31, 2013, as part of the Continuous Improvement System, building services will be involved in early planning of infrastructure needed to support projects; with 0% change orders in capital infrastructure plans.	Achieved

Results: A Capital Infrastructure Committee was established to develop policy, procedures, request form, guiding principles and a scoring mechanism for prioritization to meet regional changing demands, the deployment of capital management plans / VFA funding, excessive waste, adjacencies, workflow and processes in the system, and incorporate building services into the planning process. A total of thirty-two projects were submitted for the 2013-2014 fiscal year.

The Capital Infrastructure Committee prioritized the thirty-two projects based on the information submitted. Completion of projects are based on need, funding and available resources. Several projects have been completed with others currently in progress. A Milestone Chart is utilized to monitor progress and the Regional Project Plan is updated on a quarterly basis.

6. Implement Shared Services Plan

Target	Status
By March 31, 2015, achieve the region's share of \$100M accumulated total savings through Shared Services initiatives.	Achieved

Results: The provincial target for savings through Shared Services for 2012-2013 was \$7 million with cumulative savings of \$32 million from 2010 to 2013. Sunrise Health Region was charged with the target to achieve \$184,000 in savings for 2012-2013 through participating in the 3sHealth Share Services procurement initiatives.

Provincially, the savings realized for 2012-2013 were \$8.5 million (\$33.8 million cumulative) with the Sunrise Health Region achieving savings of \$315,000 during 2012-2013.

Some of the savings generated were:

\$87,682
\$10,724
\$41,324
\$32,857
\$ 9,692
\$20,960
\$ 9,721

A provincial target of 65% was set for the percentage of goods and services purchased provincially. Provincially this target was not achieved; the percentage of goods and services purchased provincially was 50%. In addition, a provincial target of 20% was set for the percentage of goods and services purchased through New West Partnership; this target was achieved.

YTD Variance as % of Budget	0.46%	1.04%	0.56%	0.35%	0.35%	≥ 0 %

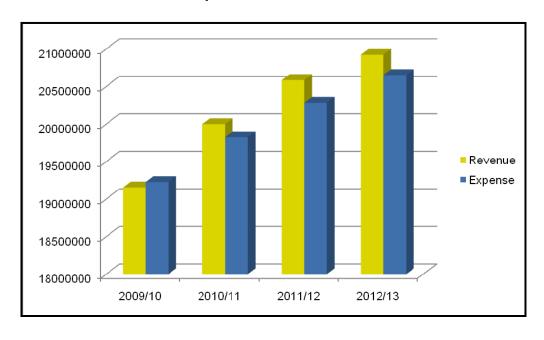

Financial Overview

The health region budgeted for revenue of \$208,674,511 with actual revenue of \$209,228,262. Operating expenditures of \$206,663,661 were budgeted in 2012-13 with actual expenditures of \$206,521,300. Throughout the year, Sunrise Health Region managers reviewed monthly variance reports to monitor compliance with their program/department budget.

Sunrise Health Region contained costs and performed well with a year-end surplus of \$2,706,962 of which: \$453,520 is general operational surplus, \$2,253,442 held for mortgages, repayment of the Energy & Facility Renewal Project loans, replacement reserves and other interfund transfers. The provincial accounting practice is that funds held for mortgage and loan repayment appear as a combined number in the operational surplus.

	2012-13
Excess of revenue over expenses	\$2,706,962
Net increase in operational fund balance	\$453,520
Surplus as a percentage of operational fund balance	+0.22

Year End Financial Comparisons

Business Continuity Plans

Sunrise Health Region has plans in place for continuance of health services in the event of a major disaster, emergency, pandemic, labour disruption, and illness outbreak or service interruption.

The Illness Outbreak Response and Communication Plan standardized illness outbreak responses and guides staff when the Medical Health Officer declares significant illness outbreaks.

The Essential Services Plans are in place to ensure the public is protected from danger to life, health and safety during periods of job action.

Future Outlook and Emerging Issues

In 2012-13, a new method of strategy deployment propelled advancement of the health system. "Hoshin Kanri" is the method of Lean planning and management being used to identify provincial and regional priorities and to engage all staff and physicians in dialogue and activities to achieve those priorities. Major progress was made in all hoshin areas with particularly impressive success to lessen surgical wait times, and reduce sick time and wage driven premiums; areas that the health region had struggled with for many years. The health region expects the momentum of rapid progress to continue in 2013-14 as more staff and physicians become engaged in hoshin kanri and lean transformation.

The priority hoshin improvements for 2013-14 are:

- strengthening patient centred primary health care by improving connectivity and access in innovation sites;
- reducing emergency room waits and improving patient flow;
- reducing surgical wait times to less than three months
- increasing staff and physician engagement
- enhancing a culture of patient and staff safety

Workforce supply is growing in prominence with recruitment pressures and pending retirements. Growth of the labour hungry mining sector has increased wages offered for some classifications considered difficult to recruit, such as management and power engineers. Fourteen percent of Sunrise Health Region employees are eligible for retirement by December 31, 2014. The health region will attempt to mitigate these issues and is partnering with the University of Saskatchewan and Parkland Community College, to prepare for our future workforce needs. A larger range of education and practicum opportunities will be offered in Yorkton in 2013-14 for student nurses and physicians. The health region looks forward to expansion of Parkland Community College and more local education for tradespersons who are needed to build and maintain health system infrastructure.

Infrastructure risk is a concern for the health region. In January 2013, the health region experienced a major structural failure at Invermay Health Centre caused by building age and water damage. Twenty-five residents are temporarily relocated at other facilities in the region. Repairs will be completed in 2013 at a cost of \$2.8 million. Cracked wooden beams in the dining room at Canora Gateway Lodge will be repaired in 2013. Ongoing infrastructure problems due to aged buildings in Canora, Esterhazy and Yorkton, and space constraints for services in Yorkton continue to place these three facilities at the top of infrastructure construction needs. In 2012, conceptual plans were prepared and sent to the Ministry of Health. Communities have begun fundraising for the local portion in advance of a provincial decision. To keep the facilities and equipment in good order the preventative/predictive maintenance program in the region, currently a manual system, will be upgraded to a comprehensive electronic system in 2013-14.

There are and will always be challenges in health care and this will not stop the Sunrise Health Region from continuing our pursuit of excellence as we work together for healthy people in healthy communities.

The region was surveyed by Accreditation Canada in November 2012 and accreditation status was confirmed for all Sunrise Health Region facilities. The health region won two of eight "Pursuing Excellence Awards" at the Saskatchewan Health Quality Summit for the Sunrise Health Region oncology pharmacy program and for information technology advancements. Sunrise Health Region presented a variety of initiatives at the request of national and international health care symposiums throughout the year. The health region also achieved its third consecutive balanced budget in 2012-13.

Management Report

May 29, 2013

Sunrise Health Region Report of Management

The accompanying financial statements are the responsibility of management and are approved by the Sunrise Regional Health Authority. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles and the Financial Reporting Guide issued by the Ministry of Health for the Province of Saskatchewan and, of necessity, includes amounts based on estimates and judgments. The financial information presented in the annual report is consistent with the financial statements.

Management maintains appropriate systems of internal control, including policies and procedures, which provide reasonable assurance that the region's assets is safeguarded and the financial records are relevant and reliable.

The Authority is responsible for reviewing the financial statements and overseeing management's performance in financial reporting. The Authority meets with management and the external auditors to discuss and review financial matters. The Authority approves the financial statements and the annual report.

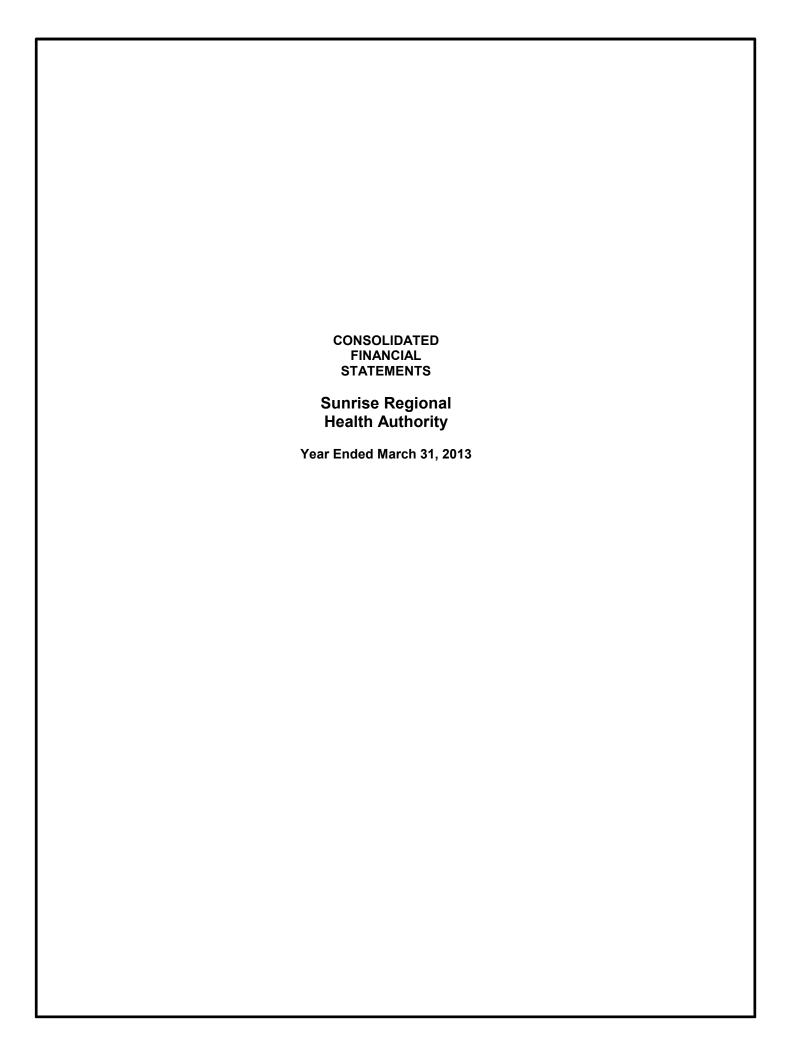

The appointed auditor conducts an independent audit of the financial statements and has full and open access to the Regional Health Authority. The auditor's report expresses an opinion on the fairness of the financial statements prepared by management.

Independent Auditors' Report

To the Board of Directors
Sunrise Regional Health Authority

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Sunrise Regional Health Authority, which comprise the Consolidated Statement of Financial Position as at March 31, 2013, March 31, 2012, and April 1, 2011, and the Consolidated Statements of Operations, Changes in Fund Balances and Cash Flows for the years ended March 31, 2013 and March 31, 2012, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Sunrise Regional Health Authority as at March 31, 2013, March 31, 2012, and April 1, 2011 and its financial performance and its cash flows for the years ended March 31, 2013 and March 31, 2012, in accordance with Canadian public sector accounting standards.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

1. Legislative Authority

The Sunrise Regional Health Authority (RHA) operates under *The Regional Health Services Act* (The Act) and is responsible for the planning, organization, delivery, and evaluation of health services it is to provide within the geographic area known as the Sunrise Health Region, under Section 27 of The Act. The Sunrise RHA is a non-profit organization and is not subject to income and property taxes from the federal, provincial, and municipal levels of government. The RHA is a registered charity under the *Income Tax Act* of Canada.

2. Significant Accounting Policies

These consolidated financial statements have been prepared in accordance with Canadian public sector accounting (PSA) standards, issued by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants (CICA). The RHA has adopted the standards for government not-for-profit organizations, set forth at PSA Handbook section PS 4200 to PS 4270. As these are the RHA's first consolidated financial statements prepared in accordance with PSA standards, Section PS 2125, First-time Adoption by Government Organizations, has been applied. The RHA has also chosen to early adopt Section PS 3450, Financial Instruments, as further explained in note 19.

The RHA's consolidated financial statements were previously prepared in accordance with Canadian generally accepted accounting principles (Canadian GAAP), as set forth in Part V of the CICA Handbook. The impact of the transition from Canadian GAAP to public sector accounting standards is described in note 19.

(a) Health care organizations

(i) The RHA has agreements with and grants funding to the following prescribed health care organizations and third parties to provide health services:

Society for Involvement of Good Neighbours Inc.

Yorkton Mental Health Drop In Centre

Note 9(b)(i) provides disclosure of payments to HCO'S and third parties.

(ii) The RHA has joint service management agreements with all three of its affiliates; St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville. The purpose of the agreements is to share management, contract human resources and finance services to the affiliates.

As a result, the financial statements of St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville are consolidated with the financial statements of the RHA. Transactions and interorganizational balances between the RHA and St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville are eliminated.

Note 9(b)(ii) provides supplementary information regarding the financial position, results of operations and cash flows of the consolidated affiliates.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

2. Significant Accounting Policies - continued

- (a) Health care organization continued
 - (iii) The Health Foundation of East Central Saskatchewan Inc., St. Peter's Hospital Foundation (Melville) Inc. and St. Anthony's Hospital Foundation Inc. (the Foundations) are incorporated under *The Non-Profit Corporations Act* and are registered charities under *The Income Tax Act of Canada*.

Under the Foundations' Articles of Incorporation, the RHA or the respective affiliates have an economic interest in the Foundations.

These consolidated financial statements do not include the financial activities of the Foundations. Alternatively, note 9(b)(iii) provides supplementary information of the Foundations.

(b) Fund accounting

The accounts of the RHA are maintained in accordance with the restricted fund method of accounting for contributions. For financial reporting purposes, accounts with similar characteristics have been combined into the following major funds:

(i) Operating fund

The operating fund reflects the primary operations of the RHA including revenues received for provision of health services from Saskatchewan Health - General Revenue Fund, and billings to patients, clients, the federal government and other agencies for patient and client services. Other revenue consists of donations, recoveries and ancillary revenue. Expenses are for the delivery of health services.

(ii) Capital fund

The capital fund is a restricted fund that reflects the equity of the RHA in capital assets after taking into consideration any associated long-term debt. The capital fund includes revenues received from Saskatchewan Health - General Revenue Fund designated for construction of capital projects and/or the acquisition of capital assets. The capital fund also includes donations designated for capital purposes by the contributor. Expenses consist primarily of interest on long-term mortgages and amortization of capital assets.

(iii) Community trust and endowment fund

Community trust

The community trust fund is a restricted fund that reflects community-generated assets transferred to the RHA in accordance with the pre-amalgamation agreements signed with the amalgamating health corporations. The assets include cash and investments initially accumulated by the health corporations in the district from donations or municipal tax levies. These assets are accounted for separately and use of the assets is subject to restrictions set out in pre-amalgamation agreements between the RHA and the health corporations.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

2. Significant Accounting Policies - continued

(b) Fund accounting - continued

(iii) Community trust and endowment fund - continued

Endowment fund

Under the terms of the will of the late Dr. Borys Tolczynski, the RHA administers an endowment fund. The interest from this fund is to be used for education and training expenditures which benefit the health district. Unexpended interest each year is added to the endowment principal. The RHA cannot encroach upon the original endowment bequest of \$201,771 plus unexpended interest except in special circumstances.

(c) Revenue

Unrestricted revenues are recognized as revenue in the operating fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Restricted revenues related to general operations are recorded as deferred and recognized as revenue of the operating fund in the year in which the related expenses are incurred. All other restricted revenues are recognized as revenue of the appropriate restricted fund in the year.

(d) Capital assets

Capital assets are recorded at cost. Normal maintenance and repairs are expensed as incurred. Capital assets with a life exceeding one year are amortized on a straight-line basis over their estimated useful lives as follows:

Buildings and service equipment 2% to 4% Land improvements 4% to 10% Equipment 4% to 25%

Donated capital assets are recorded at their fair value at the date of contribution (if fair value can be reasonably determined).

(e) Asset retirement obligations

Asset retirement obligations are legal obligations associated with the retirement of tangible long-lived assets. Asset retirement obligations are recorded when they are incurred if a reasonable estimate of fair value can be determined. Accretion (interest) expense is the increase in the obligation due to the passage of time. The associated retirement costs are capitalized as part of the carrying amount of the asset and amortized over the asset's remaining useful life.

(f) Inventories

Inventories consist of general stores, pharmacy, laboratory, linen and other. All inventories are held at the lower of cost and net realizable value. Cost is determined on an average-cost basis.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

Significant Accounting Policies - continued

(g) Employee future benefits

i) Pension plan:

Employees of the RHA participate in several multi-employer defined benefit pension plans or a defined contribution plan. The RHA follows defined contribution plan accounting for its participation in the plans. Accordingly, the RHA expenses all contributions it is required to make in the year.

ii) Accumulated sick leave benefit liability:

The RHA provides sick leave benefits for employees that accumulate but do not vest. The RHA recognizes a liability and an expense for sick leave in the period in which employees render services in return for the benefits. The liability and expense is developed using an actuarial cost method.

(h) Measurement uncertainty

These consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. In the preparation of consolidated financial statements, management makes various estimates and assumptions in determining the reported amounts of assets and liabilities, revenues and expenses and in the disclosure of commitments and contingencies. Changes in estimates and assumptions will occur based on the passage of time and the occurrence of certain future events. The changes will be reported in earnings in the period in which they become known.

(i) Financial instruments

The RHA has classified its financial instruments into one of the following categories: fair value or cost or amortized cost.

All financial instruments are measured at fair value upon initial recognition. The fair value of a financial instrument is the amount at which the financial instrument could be exchanged in an arm's length transaction between knowledgeable and willing parties under no compulsion to act. The following financial instruments are subsequently measured at cost or amortized cost:

- accounts receivable
- short-term and long-term investments
- accounts payable, accrued salaries and vacation payable
- mortgages payable

As at March 31, 2013, the RHA does not have any material outstanding contracts or financial instruments with embedded derivatives. Financial assets are categorized as level 1 in the fair value hierarchy.

All financial assets are assessed for impairment on an annual basis. When a decline is determined to be other than temporary, the amount of the loss is reported in the statement of operations.

(j) Replacement reserves

The RHA is required to maintain certain replacement reserves as a condition of receiving subsidy assistance from Saskatchewan Housing Corporation. Schedule 4 shows the changes in these reserve balances during the year.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

3. Capital Assets

		March 31, 2013		2012
	Cost	Accumulated Amortization	Net Book Value	Net Book Value

	\$ 169,785,267	\$ 88,823,459	\$ 80,961,808	\$ 85,641,304

4. Commitments

(a) Capital asset acquisitions

At March 31, 2013, commitments for acquisition of capital assets were \$542,916 (2012 - \$639,588).

(b) Supplier payments

At March 31, 2013, commitments for outstanding purchase orders were \$1,959,658 (2012 - \$3,088,496).

(c) Operating leases

Minimum annual payments under operating leases on property and equipment over the next five years are as follows:

2014	747,872
2015	1,236,517
2016	1,006,627
2017	586,497
2018	388,542
Total minimum lease payments	\$ 3,966,055

(d) Asset retirement obligations

The RHA has not recorded a liability for an asset retirement obligation.

(e) Contracted health service organizations

The RHA continues to contract on an ongoing basis with private health service operators to provide health services in the RHA similar to those provided in the year ending March 31, 2013. Note 9(b) provides supplementary information on health care organizations.

8. Patient and Resident Trust Accounts

The RHA administers funds held in trust for patients and residents utilizing the RHA's facilities. The total cash held in trust as at March 31, 2013 was \$220,397 (2012 - \$219,739). These amounts are not reflected in the consolidated financial statements.

9. Related Parties

These consolidated financial statements include transactions with related parties. The RHA is related to all Saskatchewan crown agencies such as ministries, corporations, boards and commissions under the common control of the government of Saskatchewan. The RHA is also related to non-crown enterprises that the government jointly controls or significantly influences. In addition, the RHA is related to other non-government organizations by virtue of its economic interest in these organizations.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

9. Related Parties - continued

(a) Related-party transactions

Transactions with these related parties are in the normal course of operations. Amounts due to or from and the recorded amounts of the transactions resulting from these transactions are included in the consolidated financial statements and the table below. They are recorded at the standard rates charged by those organizations and are settled on normal trade terms.

^{*} Indicates that employee portion is included in the above expense

In addition, the RHA pays provincial sales tax to the Saskatchewan Ministry of Finance on all its taxable purchases. Taxes paid are recorded as part of the cost of those purchases.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

9. Related Parties - continued

- (b) Health-care organizations
 - (i) Prescribed health care organizations and third parties

The RHA has also entered into agreements with prescribed health care organizations (HCO's) and third parties to provide health services.

These organizations receive operating funding from the RHA on a monthly basis in accordance with budget amounts approved annually. During the year, the RHA provided the following amounts to prescribed HCO's and third parties:

	2013	2012
Yorkton Mental Health Drop In Centre	158,669	138,863
Society for Involvement of Good Neighbours Inc.	317,108	289,321
	\$ 475,777	\$ 428,184

(ii) Affiliates with joint service management agreements

The Act makes the RHA responsible for the delivery of health services in its region including the health services provided by privately owned affiliates. The Act requires affiliates to conduct their affairs and activities in a manner that is consistent with, and that reflects, the health goals and objectives established by the RHA. Further, the RHA provides most of the affiliate's funding. Accordingly, the RHA has the ability to affect the strategic operating, investing and financing activities of the affiliates.

The RHA consolidated financial statements include the accounts of St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville based on the joint service management agreement held with each of the three organizations. The following information, which combines the operating fund and capital fund, is supplementary to those statements.

(iii) Fundraising foundations

Fundraising efforts are undertaken through the non-profit business corporations known as The Health Foundation of East Central Saskatchewan Inc., St. Peter's Hospital Foundation (Melville) Inc. and St. Anthony's Hospital Foundation Inc. (the Foundations). The RHA or the respective affiliates have an economic interest in the Foundations. The Foundations have the following year-ends:

10. Comparative Information

Certain balances for comparative purposes have been reclassified to conform with the current year's presentation.

11. Employee Future Benefits

(a) Pension Plan

Employees of the RHA participate in one of the following pension plans:

- Saskatchewan Healthcare Employees' Pension Plan (SHEPP) This is jointly governed by a board of eight trustees. Four of the trustees are appointed by the Health Shared Services Saskatchewan (3sHealth) (a related party), and four of the trustees are appointed by Saskatchewan's health care unions (CUPE, SUN, SEIU, SGEU, RWDSU, and HSAS). SHEPP is a multi-employer defined benefit plan, which came into effect December 31, 2002. (Prior to December 31, 2002, this plan was formerly the SAHO Retirement Plan and governed by the SAHO Board of Directors).
- 2. Public Service Superannuation Plan (PSSP) (a related party) this is also a defined benefit plan and is the responsibility of the Province of Saskatchewan.
- 3. Public Employees' Pension Plan (PEPP) (a related party) this is a defined contribution plan and is the responsibility of the Province of Saskatchewan.

The RHA's financial obligation to these plans is limited to making the required payments to these plans according to their applicable agreements. Pension expense is included in Compensation - benefits in schedule 1 and is equal to the RHA contributions amount below.

		2013		2012	
	SHEPP1	PSSP	PEPP	Total	Total
Number of active members	2.384	3	31	2.418	2,411
Member contribution rate,	2,304	3	31	2,410	2,411
percentage of salary	7.70-10.0%*	7.00-8.00%*	5.00-7.00%*		
RHA contribution rate, percentage of salary	8.62-11.20%*	28.63-32.72%*	6.00-7.00%*		
Member contributions RHA contributions	8,464,183 9,479,868	4,242 23,330	144,756 136,869	8,613,181 9,640,067	8,567,572 9,600,247

In addition to the above plans, the RHA has one employee in the Evangelical Lutheran Church in Canada pension plan whose member contributions were \$3,237 with RHA contributions of \$6,096.

^{*}Contribution rate varies based on employee group.

^{1.} Active members include all employees of the RHA, including those on leave of absence as of March 31, 2013. Inactive members are transferred to SHEPP and not reported by the RHA, their plans are transferred to SHEPP and managed directly by them.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

11. Employee Future Benefits - continued

(b) Accumulated sick leave benefit liability:

The cost of the accrued benefit obligations related to sick leave entitlement earned by employees is actuarially determined using the projected benefit method prorated on service and management's best estimate of inflation, discount rate, employee demographics and sick leave usage of active employees. The RHA has completed an actuarial valuation as of March 31, 2013. Key assumptions used as inputs into the actuarial calculation are as follows:

	2013	2012
Discount rate Earnings increase	2.50% 0-2%	2.75% 0-2%
Accrued benefit obligation, beginning of year Cost for the year Benefits paid during the year	6,728,000 995,700 (1,082,900)	6,845,600 954,600 (1,072,200)
Accrued benefit obligation, end of year	\$ 6,640,800	\$ 6,728,000

12. Budget

The RHA Board approved the 2012-2013 budget plan on May 30, 2012.

13. Financial Instruments

(a) Significant terms and conditions

There are no significant terms and conditions related to financial instruments classified as current assets or current liabilities that may affect the amount, timing and certainty of future cash flows. Significant terms and conditions for the other financial instruments are disclosed separately in these consolidated financial statements.

(b) Financial risk management

The RHA has exposure to the following risk from its use of financial instruments: Credit risk, market risk and liquidity risk.

The Chairperson ensures that the RHA has identified its major risks and ensures that management monitors and controls them. The Chairperson oversees the RHA's systems and practices of internal control, and ensures that these controls contribute to the assessment and mitigation of risk.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

Financial Instruments - continued

(c) Credit risk

The RHA is exposed to credit risk from the potential non-payment of accounts receivable. The majority of the RHA's receivables are from Saskatchewan Health - General Revenue Fund, Saskatchewan Workers' Compensation Board, health insurance companies or other Provinces. The RHA is also exposed to credit risk from cash, short-term investments and investments.

The carrying amount of financial assets represents the maximum credit exposure as follows:

	2013	3	2012
Cash and short-term investments Accounts receivable	6,584	,365	6,711,119
Ministry of Health - General Revenue Fund Other	309 1,727	,334 .777	408,468 3,009,555
Investments	,	,047	 501,711
	\$ 8,872	,523	\$ 10,630,853

The RHA manages its credit risk surrounding cash and short-term investments and investments by dealing solely with reputable banks and financial institutions, and utilizing an investment policy to guide their investment decisions. The RHA invests surplus funds to earn investment income with the objective of maintaining safety of principal and providing adequate liquidity to meet cash flow requirements.

(d) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates or interest rates will affect the RHA's income or the value of its holdings of financial instruments. The objective of market risk management is to control market risk exposures within acceptable parameters while optimizing return on investment.

(i) Foreign exchange risk:

The RHA operates within Canada, but in the normal course of operations is party to transactions denominated in foreign currencies. Foreign exchange risk arises from transactions denominated in a currency other than the Canadian dollar, which is the functional currency of the RHA. The RHA believes that it is not subject to significant foreign exchange risk from its financial instruments.

(ii) Interest rate risk:

Interest rate risk is the risk that the fair value of future cash flows or a financial instrument will fluctuate because of changes in the market interest rates.

Financial assets and financial liabilities with variable interest rates expose the RHA to cash flow interest rate risk. The RHA's investments include guaranteed investment certificates and long-term bonds bearing interest at coupon rates. The RHA's mortgages payable outstanding as at March 31, 2013 and 2012 have fixed interest rates.

Although management monitors exposure to interest rate fluctuations, it does not employ any interest rate management policies to counteract interest rate fluctuations.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

Financial Instruments - continued

(e) Liquidity risk:

Liquidity risk is the risk that the RHA will not be able to meet its financial obligations as they become due.

The RHA manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing and financing activities.

At March 31, the RHA has a cash balance of \$6,884,365 (2012 - \$6,711,119).

(f) Fair value

The carrying amounts of these financial instruments approximate fair value due to their immediate or short-term nature:

- cash and short-term investments
- accounts receivable
- accounts payable
- accrued salaries and vacation payable

The fair value of mortgages payable and long-term debt before the repayment required within one year is \$17,770,512 (2012 - \$18,973,725) and is determined using discounted cash flow analysis based on current incremental borrowing rates for similar borrowing arrangements, net of mortgage subsidies.

Fair value is best evidenced by an independent quoted market price for the same instrument in an active market. An active market is one where quoted prices are readily available, representing regularly occurring transactions. Accordingly, the determination of fair value requires judgment and is based on market information where available and appropriate. Fair value measurements are categorized into levels within a fair value hierarchy based on the nature of the inputs used in the valuation.

Level 1 – Where quoted prices are readily available from an active market.

Level 2 – Valuation model not using quoted prices, but still using predominantly ovservable market inputs, such as market interest rates.

Level 3 – Where valuation is base on unobservable inputs. There were no items measured at fair value using level 3 in 2012 or 2013.

(g) Operating line-of-credit

The RHA has an approved operating line-of-credit of \$15,750,000 (2012 - \$15,750,000) with interest charged at a rate of prime less 0.75%, which is renegotiated annually. The line-of-credit is secured by an assignment of grants and revenues of the RHA. Total interest paid on the line-of-credit in 2013 was \$287,009 (2012 - \$257,019). The line-of-credit was approved by the Minister on October 7, 1998.

The affiliates also have operating lines-of-credit with limits totalling \$650,000 (2012 - \$650,000). These lines-of-credit are secured by an assignment of grants and revenues from the RHA. Total interest paid on these lines-of-credit in 2013 was \$438 (2012 - \$177).

Notes to Consolidated Financial Statements For the year ended March 31, 2013

14. Interfund Transfers

Each year the RHA transfers amounts between its funds for various purposes. These include funding capital asset purchases and reassigning fund balances to support certain activities.

				2013						2012			
•		Operating Fund			Community Trust and Endowment Funds		Operating Fund		Capital Fund		Tru ng Capital End		ommunity Frust and Indowment Funds

2042

15. Volunteer Services

The operations of the RHA utilize services of many volunteers. Because of the difficulty in determining the fair market value of these donated services, the value of these donated services is not recognized in the consolidated financial statements.

16. Community-Generated Funds

Under the terms of the pre-amalgamation agreement, the RHA has agreed to hold community-generated assets in trust. The board established a separate fund for the assets of each trust. Health corporations formerly held these assets before amalgamating with the board. The assets are interest-bearing with the interest credited to the trust balance. The board presently administers \$64,327 (2012 - \$63,544) under these agreements.

Following is the status of the trust funds at March 31, 2013:

Each trust fund has a "trust advisory committee" which is appointed by the various towns, villages, hamlets and rural municipalities served by the pre-amalgamation agency. The trust funds are for the benefit of the ratepayers of the various municipalities and shall be used for health-related purposes. The committees have the power to establish rules and procedures and the majority decision of the committees shall be binding upon the RHA with respect to any use of the trust fund.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

17. Energy Renewal Project

Energy performance contracting is a unique program that allows the RHA to implement facility improvements, reduce energy costs, improve health and comfort conditions while contributing to the province's environmental objectives. SaskPower Energy Solutions performed extensive research to establish a baseline of annual cost savings they guarantee as part of this project. The project is expected to provide utility cost savings that will pay for the cost and financing of this project within an established time frame. Any additional savings are calculated and verified by methods established in the contract and are applied to the loan. Sunrise RHA entered into a guaranteed energy performance savings contract with SaskPower Energy Solutions Company.

The total cost of the energy performance contracts is \$14,724,459 plus GST. The construction costs have been financed through term debt facilities which are disclosed in note 5.

Results of the energy renewal project since its inception are:

	2013	2012	Prior	Total
Estimated utility savings Interest costs	\$ 1,057,252 503,250	\$ 1,057,252 538,072	\$ 1,616,766 957,352	\$ 2,674,018 1,495,404

18. Pay for Performance

Effective April 1, 2011, a pay for performance compensation plan was introduced. Amounts over 90% of base salary are considered 'lump-sum performance adjustments'. Senior employees are eligible to earn lump-sum performance adjustments up to 110% of their base salary. During the year, senior employees are paid 90% of current base salary and lump-sum performance adjustments related to the previous fiscal year. Performance adjustments for the 2011-12 fiscal period of \$180,169 were paid out in the 2012-13 fiscal year. At March 31, 2013 lump-sum performance adjustments relating to 2012-13 have not been determined as information required to assess senior managements' performance is not yet available.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

19. Transition to Public Sector Accounting Standards

Adoption of public sector accounting framework

As stated in Note 2, these are the RHA's first consolidated financial statements prepared in accordance with Canadian public sector accounting standards. The accounting policies set out in Note 2 have been applied consistently in preparing the consolidated financial statements for the year ended March 31, 2013, the comparative information presented in these consolidated financial statements and the opening statement of financial position as at April 1, 2011 (the RHAs date of transition to public sector accounting standards).

(a) Financial instruments

Effective April 1, 2012 the RHA adopted the PSA standards for Financial Instruments (PSA Handbook Section PS 3450). Section PS 3450 establishes standards on how to account for and report all types of financial instruments, including derivatives. Section PS 3450 has been applied prospectively, in accordance with the transitional provisions of the Section.

Upon adoption of Section PS 3450, the RHA was required to assign its financial instruments to one of two measurement categories: Fair value; or cost or amortized cost. Cash is classified in the fair value category. The RHA's other financial assets and financial liabilities are measured at cost or amortized cost. Carrying amounts are in each instance disclosed in the Statement of Financial Position.

The adoption of Section PS 3450 had no impact on the recognition and measurement of financial instruments reported in these consolidated financial statements. There were additional item related to presentation and disclosure of financial instruments that have been added to Note 13 as a result of the adoption of this standard.

(b) Employee future benefits

The RHA made an adjustment to the 2011 consolidated financial statements with respect to the accounting for employee future benefits. Specifically, this adjustment related to accounting policy differences under public sector accounting standards with respect to the determination of the obligation for accumulated sick leave.

In aggregate, the resulting increase to the liability for employee future benefits at April 1, 2011 was \$6,845,600. Employee future benefit expense for the year ended March 31, 2012 decreased by \$117,600.

Notes to Consolidated Financial Statements For the year ended March 31, 2013

19. Transition to Public Sector Accounting Standards - continued

The impact of these restatements on the comparative figures is as follows:

Summary of Adjustments

(c) Fund balances:

The following table summarizes the impact of the transition to PSA standards on the RHA's fund balances:

Fund balances as at April 1, 2011:

Fund balances, as previously reported 45,522,755
Adjustment to employee future benefits liability (6,845,600)

Fund balances, as currently reported \$ 38,677,155

Fund balances as at March 31, 2012:

Fund balances, as previously reported 41,685,773
Adjustment to employee future benefits liability (6,728,000)

Fund balances, as currently reported \$ 34,957,773

(d) Excess (deficiency) of revenues over expenses - operating fund:

As a result of the retrospective application of PSA standards, the RHA recorded the following adjustment to excess (deficiency) of revenues over expenses for the year ended March 31, 2012:

Excess (deficiency) of revenues over expenses for the year ended March 31, 2012:

Excess (deficiency) of revenues over expenses, as previously reported
Adjustment to employee future benefits expense
3,005,741
117,600

Excess (deficiency) of revenues over expenses, as currently reported \$ 3,123,341

The carrying amounts of the long-term investments approximate fair value.

^{*} Restricted investments consist of:

• Community-generated funds transferred to the RHA and held in the Community Trust Fund (Schedule 3);

Replacement reserves maintained under mortgage agreements with Saskatchewan Housing Corporation (an agency of the Ministry of Social Services) (SHC) held in the Capital Fund (Schedule 4); and

[•] Endowment Fund (Schedule 3).

⁽¹⁾ Salaries include regular base pay, overtime, honoraria, sick leave, vacation leave, and merit or performance pay, lump-sum payments, and any other direct cash remuneration. Senior employee salaries were paid 90% of base salary. Senior employees are eligible to earn up to 110% of their base salary. Performance adjustments have not been determined for the year ended March 31, 2012 and will be paid out in the 2012-13 fiscal year. Refer to note 19 for further details.

⁽²⁾ Benefits and Allowances include the employer's share of amounts paid for the employees' benefits and allowances that are taxable to the employee. This includes taxable professional development, education for personal interest, non-accountable relocation benefits and personal use of automobile, cell phone, computer, etc., as well as any other taxable benefits.
