

International Baccalaureate Course Inventory

The International Baccalaureate (IB) Diploma Program is designed for students ages 16-19 (grades 11 and 12) who are academically motivated and desire the rigorous curriculum as a preparation for post-secondary study. The IB program offers four high quality international education programs to more than one million students in more than 146 countries.

Students who complete an IB diploma will also achieve a Saskatchewan high school diploma. They can choose courses from:

- studies in language and literature;
- language acquisition;
- individuals and societies;
- sciences; mathematics; and
- arts.

Most subjects may be taken at either standard level (SL) or higher level (HL). Both SL and HL courses are meant to span two years of the Diploma Program. Standard Level courses are recommended to have at least 150 hours of instructional time and HL courses are recommended to have at least 240 instructional hours.

For more information on the IB program, www.ibo.org.
