Statement from the Minister

*The Honourable
Gene Makowsky*

*Minister of Parks, Culture and
Sport*

I am pleased to present the Parks, Culture and Sport Plan for 2018-19.

Government Direction and Budget for 2018-19 is focused on keeping Saskatchewan On Track by controlling spending, delivering high quality services for Saskatchewan people, keeping our economy strong, and returning to balance in 2019-20.

The Ministry of Parks, Culture and Sport is committed to contributing to the high quality of life in Saskatchewan. This will be achieved through funding and support for the heritage, culture, sport and recreation sectors, as well as investment in infrastructure and offering high quality visitor services and programs within Saskatchewan's provincial parks and at the Royal Saskatchewan Museum (RSM).

Programs, including a new equipped camping program called 'Camp Easy', will launch in 2018 to enable younger generations, newcomers and those new to camping to enjoy the many benefits provincial parks have to offer. New markets will be reached through these programs and through an enhanced social media and marketing strategy for Saskatchewan parks.

As a step toward improving accessibility for people experiencing disabilities, beach wheelchairs were introduced in provincial parks at the beginning of the 2017 season. Following a surge of positive feedback and demand, the number of beach wheelchairs available for use doubled to ten by August. The beach wheelchairs are free for park visitors and can be made available in any provincial park.

With a return to base capital funding for provincial parks in 2018-19, the Ministry will make progress in the areas of public facing facilities, roads and water infrastructure. We will provide new, high-quality facilities that support current and future visitor needs, and we will continue to work towards making the parks accessible for all visitors.

Three major projects were undertaken at the RSM in 2017-18 including a new elevator, a new fully accessible washroom and WiFi for improved accessibility and visitor experiences. 2017-18 visitation at the RSM was on par with the surge in visitation experienced in 2016-17 despite construction for much of the year; new exhibits, educational and entertaining events and a growing social media following contribute to the strong visitation trend. This May, a new temporary exhibit entitled ZOOM will open and is sure to draw citizens and tourists alike.

Our ministry will maintain the amount of funds available to communities to increase quality of life through sport, culture and recreation; the Ministry looks forward to co-hosting the first ever national forum on the Framework for Recreation in Canada from May 8-10, 2018; and, we are committed to increasing awareness and appreciation for our province's heritage.

Our progress will be reported on in the 2018-19 annual report.
