

Agricultural Demonstration Practices and Technologies (ADOPT)

Funding for these ADOPT projects was approved by the Minister on February 5, 2018.

Producer Groups and Approved Projects	Approved Funding
Carrot River Valley Watershed Association	7,638
Demonstration of Nitrogen Stabilizers for Increased Fertilizer Use Efficiency	7,638
Conservation Learning Centre	12,200
Demonstration of Soybean Varieties for observation in the region	5,400
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
District No. 26 ADD Board	28,630
Demonstrating the effect of companion crops on forage establishment	13,230
Demonstrating the effect of fall cutting date on forage legumes	15,400
Indian Head Agricultural Research Foundation (IHARF)	37,590
Implementing herbicide layering techniques to improve weed control in peas	7,290
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
Oats: Busting Bins and Making the Grade with Agronomy Basics!	8,125
Seeding Rate and Row Spacing Effects on Faba bean Establishment, Competitiveness, Maturity and Yield	8,125
Seed-Placed Phosphorus Fertilizer Forms and Penicillium bilaii Effects on Canola Emergence, P-Uptake and Yield	7,250
Irrigation Crop Diversification Corporation (ICDC)	34,032
Corn Varieties for Silage Demonstration	3,622
Demonstration of Conventional Hemp as an Irrigated Crop	5,911
Demonstration of Narrow vs. Wide Row Dry Bean Production	9,161
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
Irrigated Corn Variety Demonstration for Grain Production	3,624
Nitrogen response demonstration for Irrigated Quinoa	4,914
Northeast Agriculture Research Foundation (NARF)	16,145
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
Production management strategies to improve field pea root health	9,345
Saskatchewan Wheat Development Commission	38,000
Increasing Wheat Protein with a Post Emergent Application of UAN	38,000

Saskatchewan Barley Development Commission	34,400
Malt versus Feed Barley Management	34,400
Saskatchewan Beekeepers Development Commission	12,751
Demonstration of different spring mite treatment products for Honey bees in Saskatchewan	12,751
Saskatchewan Flax Development Commission	29,000
Seed Treatment and Foliar Fungicide Options for Flax	29,000
Saskatchewan Forage Council	42,409
Delaying the stage of maturity at swathing to increase winter grazing days for swath grazed barley	26,435
Targeted high stock density grazing demonstration.	15,974
Saskatchewan Fruit Growers Association (SFGA)	28,889
Demonstration of Advanced University of Saskatchewan Dwarfing Apple and Pear Rootstock Selections	9,689
Effect of Apogee (Prohexadione calcium) on Raspberry, Strawberry, Saskatoon berry, and Sour Cherry	9,547
Haskap Fertilizer and Irrigation Management under Photo-selective Netting	9,653
Saskatchewan Mustard Development Commission	8,400
Demonstrating Nitrogen Fertilizer Responses in Yellow and Brown Mustard	8,400
Saskatchewan Oat Development Commission	35,995
Improving Oat Yields with Intensive Agronomy	8,125
Managing Fertilizer use to Optimize Yield and Quality of Oat	11,050
Oat Vigor Improves with Larger Seed Size	16,820
Saskatchewan Pulse Growers	22,500
Control of glyphosate resistant Canola in glyphosate resistant Soybeans	22,500
Saskatchewan Sunflower Committee (SSC)	17,000
Demonstration of a New Early Season Sunflower Hybrid, (Honeycomb NS) and the appropriate plant density for this new hybrid	17,000
Saskatchewan Vegetable Growers Association	43,224
Comparison of drip versus overhead irrigation for crops susceptible to fungal diseases	8,500
Comparison of the Effectiveness of Drip versus Overhead Irrigation	9,975
Demonstration of Baby Carrot Varieties	8,473
Demonstration of Cultural, Bio and Chemical Control Options for the Management of Sclerotinia in Cabbage	16,276

South East Research Farm (SERF)	13,900
The Hat Trick Intercrop	6,800
Weed control in dryland narrow-row dry bean production	7,100
Western Applied Research Corporation	23,985
Implementing herbicide layering techniques to improve weed control in peas	7,640
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
Production management strategies to improve field pea root health	9,545
Wheatland Conservation Area Inc. (WCA)	6,800
Input Contributions to Spring Wheat Yield Components, Grain Quality and Profits	6,800
Grand Total	493,488
