

In order for producers to be eligible to receive reimbursement for equipment purchases, a Saskatchewan Veterinary Medical Association licensed veterinarian must authorize this report. The producer must submit this report with the Rebate Application Form.

Only one valid Biosecurity/Animal Welfare Equipment Recommendation Report per livestock facility per legal land location. Multiple applications with the same legal land location will be considered a shared facility and subject to the maximum program rebate of \$2,500 or \$15,000, depending on the application stream. This report is valid for up to two years from the Date of Assessment below.

<b>Comments: Provide additional pages as required</b>					

By completing this report under the Canadian Agricultural Partnership (CAP) Assurance System Producer Program, I:

1. Certify that the information provided is complete and correct;
2. Certify that I am a licensed veterinarian with the Saskatchewan Veterinary Medical Association;
3. Have been on site to assess the farm as indicated;
4. Am an arm's-length third party to the operation being assessed; and
5. Certify that the assessed location is an existing livestock facility with permanent infrastructure necessary for confining and handling livestock.
