- a. Identify tool – This tool allows the user to identify features 
 - i. Zoom into the map to the disposition that you would like information on
 - ii. Click the “” then click the disposition, this will bring up the “identify features” pop up

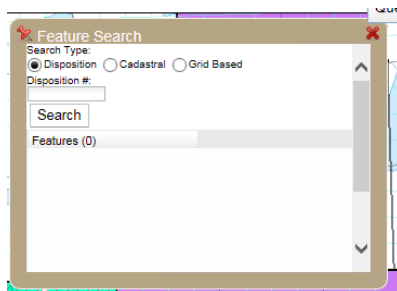

1. This will display the disposition number.

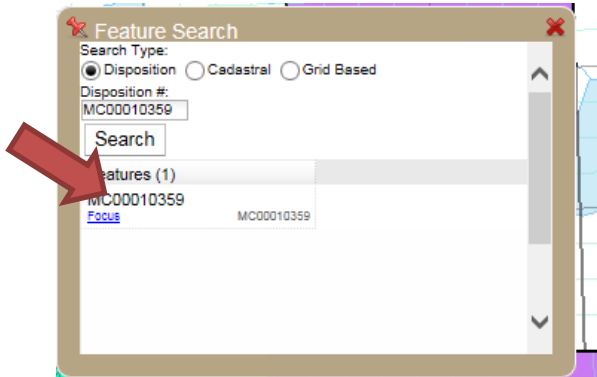

2. Click anywhere inside the box with the disposition number to display:
 - a. Number
 - b. Owner
 - c. Effective date
 - d. Good standing date
 - e. Work awaiting approval
 - f. Status

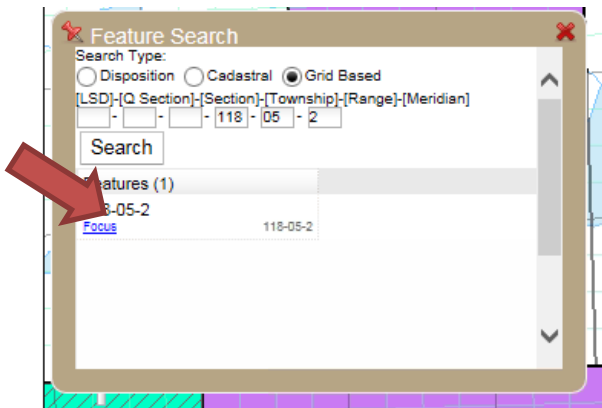

- b. Query tool  – this allows the user to find a disposition on the map. This can be done in 2 ways:

- i. Enter the disposition number, and click “search” when the feature comes up you can click on [Focus](#) to zoom to the disposition.

- ii. After clicking on “Grid Based”, enter the land location you are interested in then click search and when the feature comes up with [Focus](#). You can click on [Focus](#) and it will zoom to your request.

2. Selection Tools

Selection Tools:

- i.  Point – This will select/highlight the LSD selected
- ii.  Freehand Polygon – This allows you to easily select large areas of land. Click inside the first mineral disposition parcel you want, then drag the line and click to add additional points along the boundary of the polygon. Finish off your polygon by double clicking your last point. All mineral disposition parcels inside the polygon or intersected by its boundary will be selected.
- iii.  Deselect Point – this will deselect any LSD you clicked on in your previous selection

- iv.  Deselect Polygon – This allows you to easily deselect larger areas of your previously selected polygon.

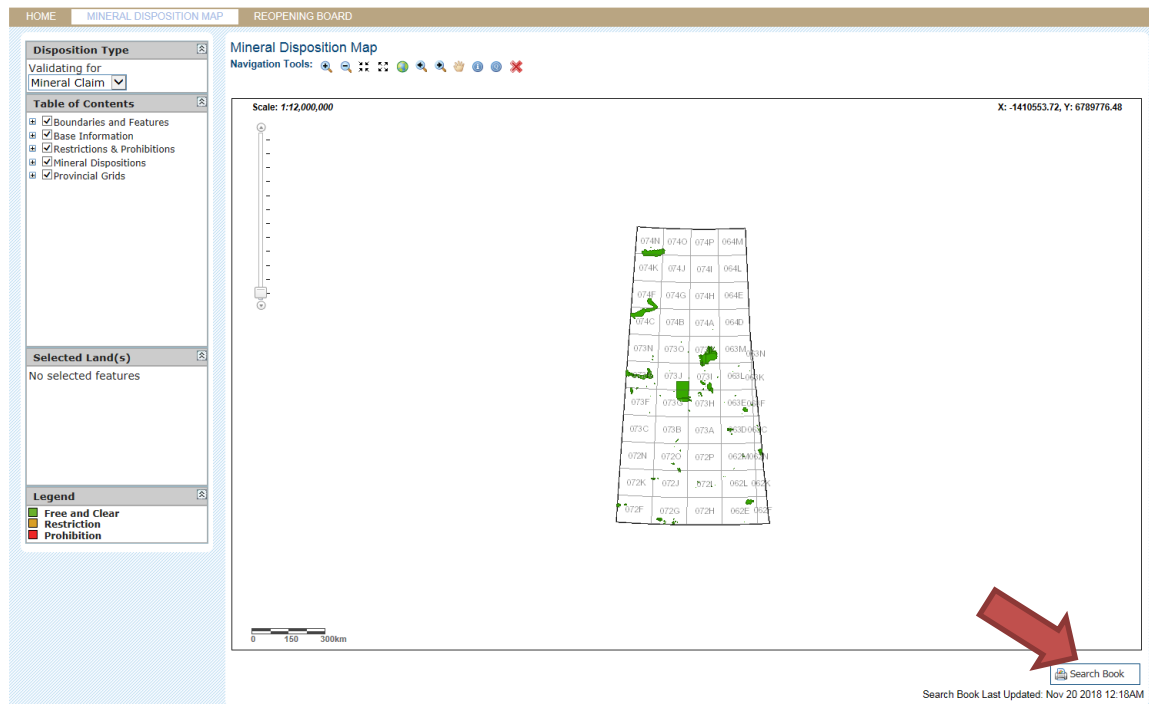

3. Legend

 5. Land claims
 6. Manual restrictions
- c. Prohibitions
 - i. Not available for staking

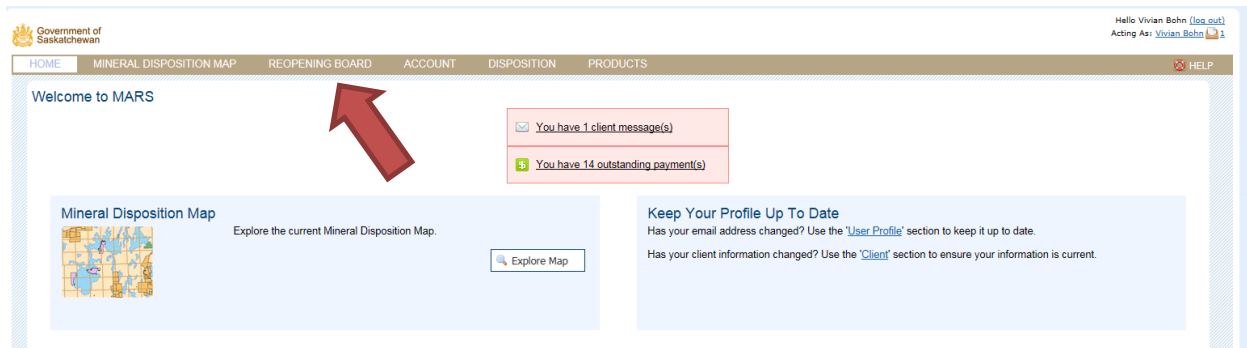

4. Search book button

- a. This is updated nightly
- b. It is available in multiple formats, including csv, MS Excel and pdf
 - i. For use in a spreadsheet, best results will be achieved with the csv format
- c. It gives you most of the information that you would receive from a search abstract on any particular disposition, except that it covers all mineral dispositions in the province.

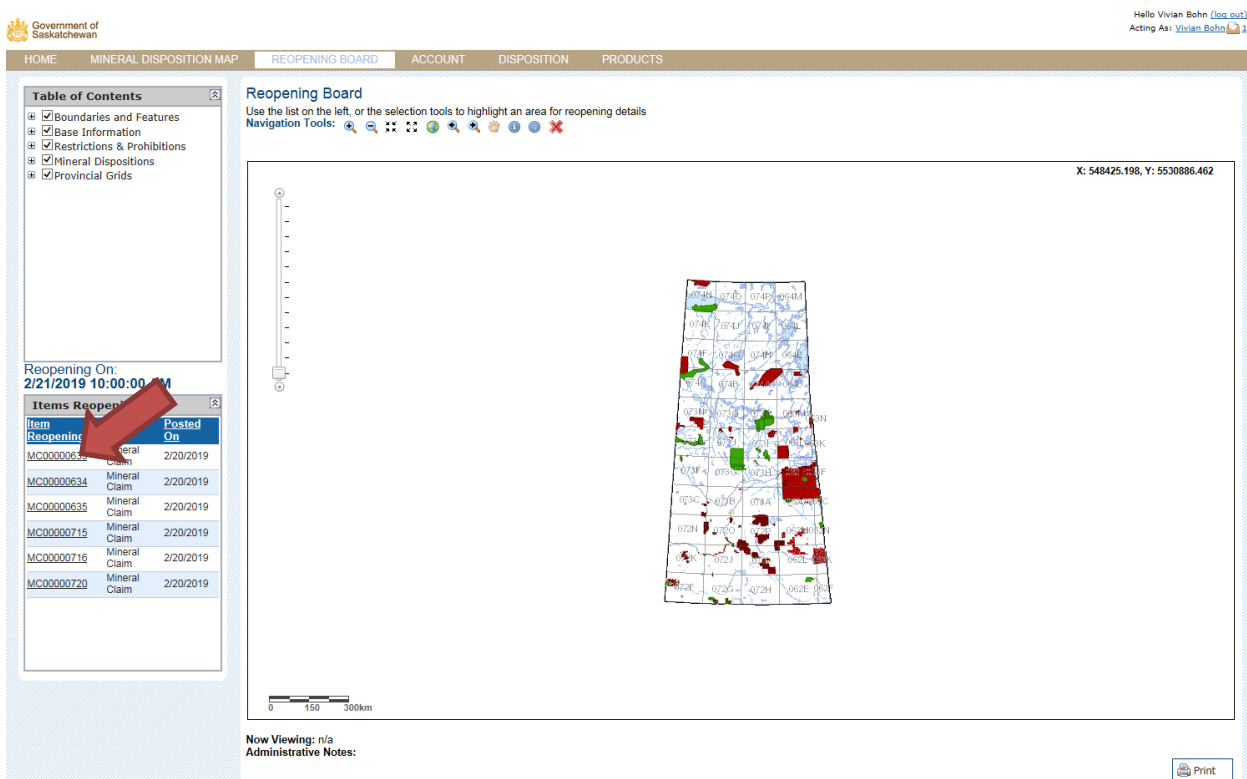

NOTE: This is a large file and may take a few minutes to display.

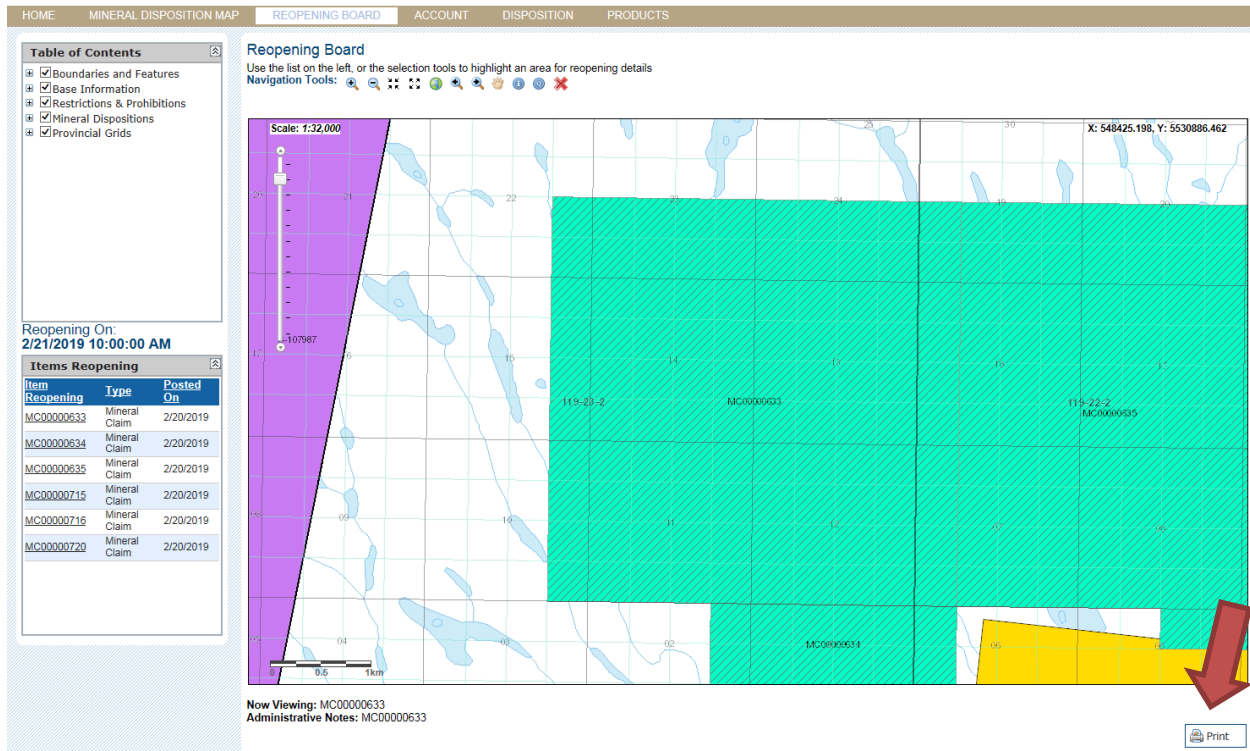

REOPENING BOARD

- From the home page or once you have signed in, click on the “Reopening Board” tab

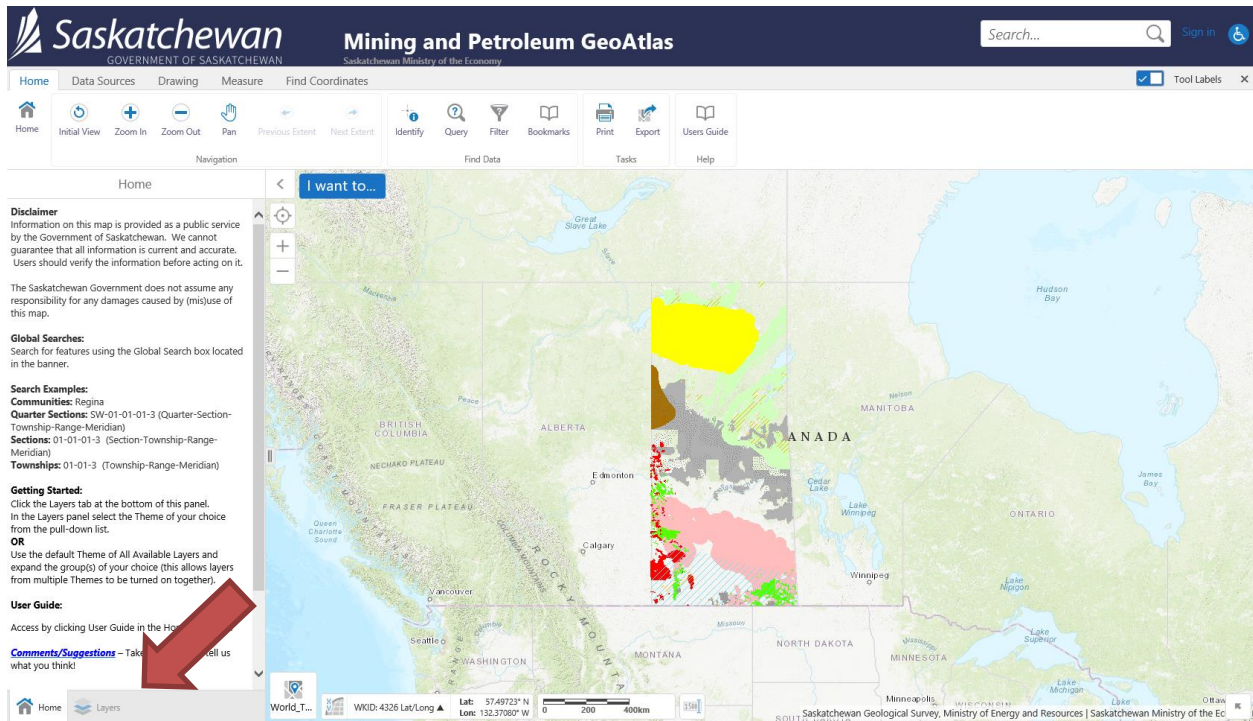

- Clicking directly on any of the underscored dispositions will zoom you to the disposition on the map

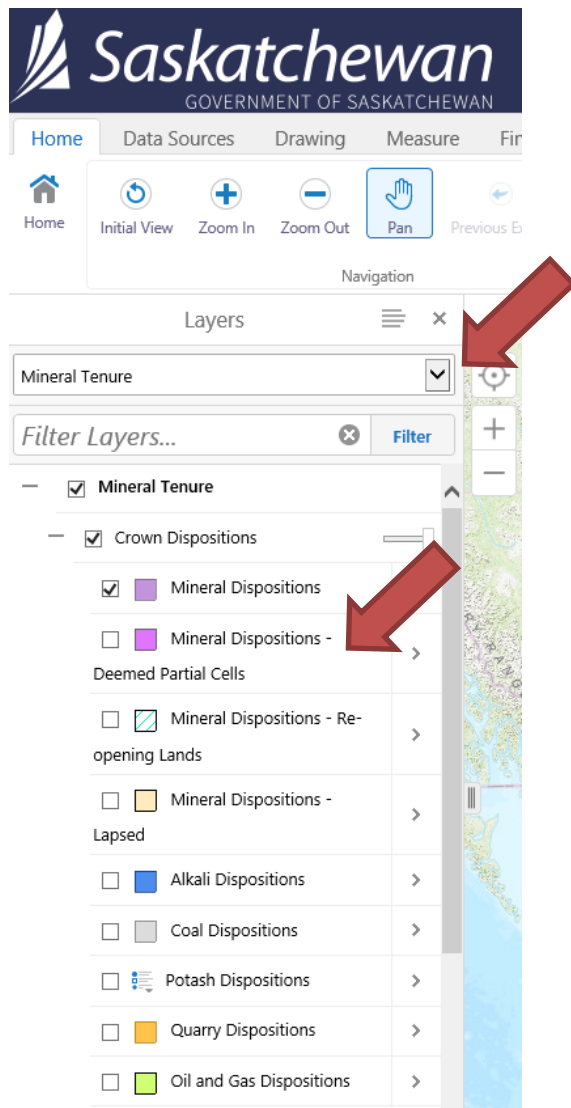

- The lapsed dispositions on the reopening board will show up as a hatched turquoise colour
- These dispositions will disappear from the map on the morning of the reopening
 - KEEP TRACK OF THE LAND LOCATION THAT YOU ARE INTERESTED IN STAKING
 - You can print the list of the dispositions being reopened. LAND LOCATIONS ARE NOT LISTED
 - Dispositions to be reopened will continue to be displayed on the Mining and Petroleum GeoAtlas during the day of reopening

21. Send in the digital copy of your assessment work to The MARS Administrator.
22. THIS MUST BE RECEIVED BEFORE THE earliest IN GOOD STANDING TO DATE for the dispositions in the MAW

TIPS

- If you have your MAW saved as a draft, you can locate it by clicking on the disposition tab on the left hand side "assessment work search" enter in the MAW number

SUBMITTING REALLOCATION OF WORK CREDITS

1. Upon the review of your MAW, the assessment work geologist may disallow a portion of the credits requested. When this happens you must reallocate the reduced credit to the existing grouping of claims in your MAW. The Mineral Tenure Regulations section 67 part (1) and part (2) covers this topic.
2. The holder will receive an email that the expenditures have been reduced. You only have 10 days to make the necessary corrections.
3. In MARS you will want to go into your MAW.
4. The top right hand side has "Reallocate Expenditure List"
5. Adjust your credits as needed and click "Submit"

ADDING DEFICIENCY DEPOSITS

1. Sign into MARS
2. Click on the “DISPOSITION” tab
3. On the left hand side of the page, go into the “disposition list” and select the disposition.
The deficiency deposit required is the difference between the available credits, if any, and the work requirement.
4. When the disposition displays, on the left hand side Click on the “work credits” tab choose “make a deficiency deposit”

5. Enter the “Amount” you wish to pay
 - a. DON’T Choose Payment, it is NON REFUNDABLE

6. Select your payment option from the drop down (credit card is not accepted for deposits)
 - a. Cash
 - b. Check
 - c. EFT
 - d. Direct deposit

- What you will actually receive is a Search Abstract that has been certified correct at the time it is generated.
- You will be billed \$50.00 per disposition for this service but if you generate the abstract yourself you will not be charged
- See SEARCH ABSTRACT in this booklet to generate them yourself

EXAMINE PAPER RECORDS

- Clients can view paper records and documents pertaining to a legacy disposition for \$100.00 per disposition file
- A request needs to be submitted to MARS@gov.sk.ca with a list of the legacy dispositions that you wish to examine.
- These requests can take some time as we need to retrieve the files from storage
- The current holder has to give permission to the requesting client to view their disposition files
- In the case of Lapsed dispositions there is no wait time to view the files.

INSTRUMENT REGISTRY

- *The Crown Minerals Act* governs the registry under sections 27.3(h), 27.32, 27.33 and 27.34
- Instruments that are included in the registry include:
 - Notice of security
 - Notice of Security Interest
 - Debenture Pledge Agreement
 - Net Smelter Returns
 - Discharge of Incentive Liens
 - Discharge of Debenture
 - Notice of Royalty Interest
 - Power of Attorney
 - Purchase Agreements
 - Etc.
 - Filing of a document in the Instrument Register is not a legal requirement and is done without guaranty and for informational purpose only. The Ministry cannot be held responsible for the absence of such instrument at a later date.
- These are documents that are not available through the MARS database
- The instruments in the registry are never deleted or removed, but a letter of discharge maybe registered against any of them at any time.
- To get information from the registry, send a request to MARS@gov.sk.ca with a list of the dispositions you wish to have searched.
- There is no fee for this service

RECREATIONAL GOLD PANNING AND PLACER MINING

- Recreational gold panning is allowed in Saskatchewan; however, there are no specific regulations for recreational gold panning or placer mining in the province. *The Mineral Tenure Registry Regulations* are applicable to any Crown mineral rights issued for the exploration and production of gold by any means, including placer mining.
- Using a pan to test the presence of gold can be done without authorization where Crown mineral rights have not been already issued to somebody else. Mineral rights belong to the Crown, except where they are the property of a third party, who would authorize the exploration.
- Only the surface land owner can grant surface access rights. Anyone wishing to conduct gold panning must be aware of who owns the land and obtain permission from that person or entity to access the land.
- All recreational gold panning must be done with a gold pan. Sluice boxes, rocker boxes, concentrators, jigs, trammels, screens and dredges of any size or design are prohibited. No equipment, including hand shovels, can be used to move material to be panned.
- The use of any equipment other than a simple pan requires a mineral claim. If mineral exploration activity goes beyond recreational panning, please use MARS to obtain proper mineral claims or leases, or to check the availability of land for mineral exploration.
- You may also contact the MARS Help Desk for information about obtaining a mineral claim or a mineral lease. Please provide the land description (i.e., legal subdivision, section, township, range and meridian).
- No damage is to be inflicted to the bed, bank or boundary of any water body or water course. If you have questions regarding gold panning in Saskatchewan, please contact one of the following Ministry of Environment offices:
 - La Ronge - LaRongeExploration@gov.sk.ca
 - Meadow Lake - MeadowLakeExploration@gov.sk.ca
