2018 In Review

Introduction

Saskatchewan's economy continued to grow in 2018. Following relatively strong economic growth in 2017 of 2.3 per cent, Saskatchewan's real GDP at basic prices grew by 1.6 per cent in 2018.

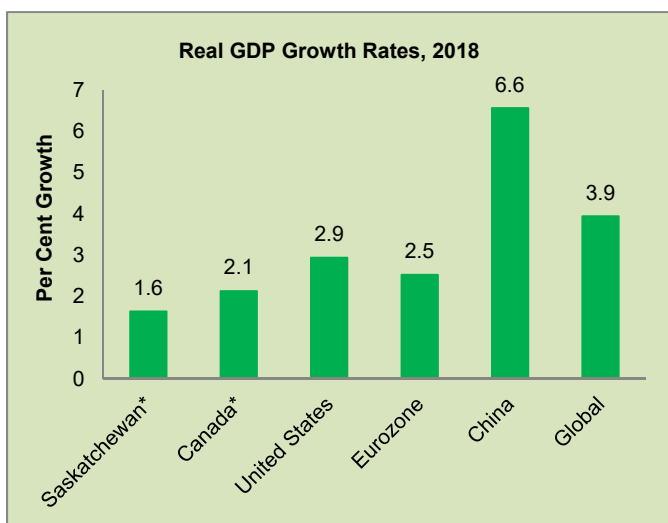

Canadian Economic Growth

Canada's real GDP growth at basic prices declined by 1.1 percentage points from the 2017 rate of 3.2 per cent to 2.1 per cent in 2018. The 2018 growth rate, however, was still above the 10-year average of 1.8 per cent.

Global Economic Growth

According to the International Monetary Fund (IMF), the global economy grew by 3.9 per cent in 2018 after growing by 3.8 per cent in 2017. The 2018 growth rate was above the 10-year average of 3.4 per cent.

The United States economy grew by 2.3 per cent in 2017 and 2.9 per cent in 2018. Both years exceeded the 10-year average of 1.7 per cent.

Sources: International Monetary Fund (IMF), January 2019 World Economic Outlook (WEO)

* Statistics Canada, Tables: 36-10-0402-01, 37-10-0434-03

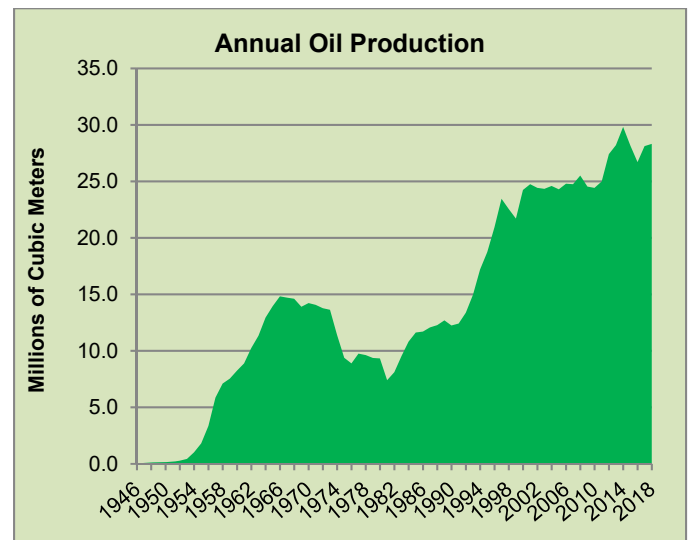

Over the last two years, the Eurozone economy expanded by 2.7 per cent in 2017 and 2.5 per cent in 2018. Economic growth in 2018 was well above its 10-year average of 1.1 per cent.

China's economy grew by 6.6 per cent in 2018 following growth of 6.9 per cent in 2017. While these growth rates are higher than in many other countries, both were lower than China's 10-year average of 7.9 per cent.

Oil & Natural Gas

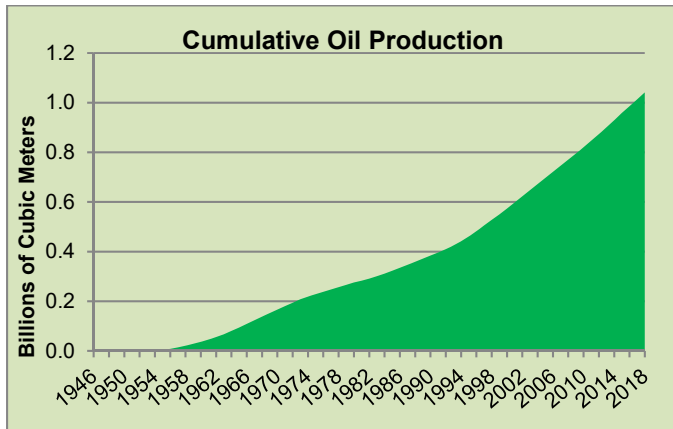

In 2018, Saskatchewan was the third-largest natural gas producing province in Canada with production of 5.2 billion cubic meters, a decrease of 0.1 billion cubic meters from 2017.

Saskatchewan produced 28.3 million cubic meters (178.3 million barrels) of oil in 2018, an increase of 0.2 million cubic meters (1.3 million barrels) from the previous year.

Source: Saskatchewan Ministry of Energy and Resources

On a cumulative basis, Saskatchewan’s lifetime oil production reached 1.04 billion cubic meters (6.5 billion barrels) in 2018.

Source: Saskatchewan Ministry of Energy and Resources

A total of 2,553 new oil and gas wells were drilled in 2018, up 23 wells from the 2,530 wells drilled in 2017, but below the record 4,195 wells drilled in 2003.

In 2018, an average well was drilled a total distance of 2,127 meters, compared to 1,991 meters in 2017 and 764 meters in 2003. The increase in average distance drilled was due to the combination of drilling into deeper pools, the increased use of horizontal drilling, and improvements in horizontal oil well drilling and completion techniques.

Potash

Potash production increased from 12.6 million tonnes in 2017, to 13.8 million tonnes in 2018. Potash was Saskatchewan’s second-largest mineral export with \$5.7 billion in sales in 2018, up \$0.9 billion from \$4.8 billion in 2017.

The United States, Brazil, China and India accounted for 80 per cent of Saskatchewan’s potash exports.

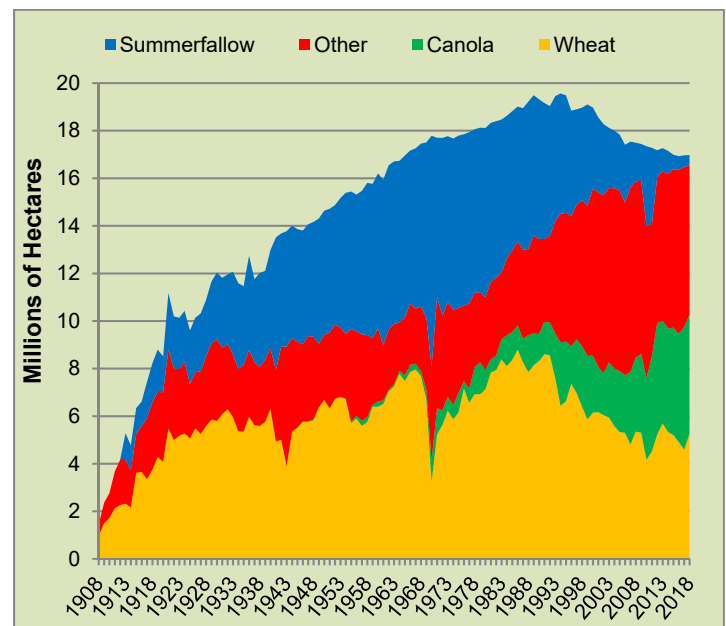

Agriculture

Wheat yields across Saskatchewan averaged 2,784 kg/hectare, slightly above the 10-year average of 2,728 kg/hectare. Wheat yield in 2017 was 2,800 kg/hectare.

In 2018, Canola yields averaged 2,205 kg/hectare, up from 2,200 kg/hectare in 2017 and above the 10-year average of 1,971 kg/hectare.

China was Saskatchewan’s top export market for grains and oil seeds with a value of \$2.5 billion in 2018, up from \$2.0 billion in 2017.

Total crop production was 34.6 million tonnes in 2018, up from 34.0 million tonnes in 2017 and above the 10-year average of 31.2 million tonnes. This was despite the long-term downward trend in total land use which peaked in 1994 at 19.6 million hectares and declined to 17.0 million hectares in 2018. The use of summerfallow continued its downward trend reaching 0.4 million hectares in 2018, the lowest level on record.

Employment & Income

Saskatchewan’s economy added 2,400 new jobs in 2018, primarily in services industries. Saskatchewan’s unemployment rate dropped slightly from 6.3 per cent in 2017 to 6.1 per cent in 2018. The labour force increased by 1,700 to 607,300 people.

Average weekly earnings in Saskatchewan went up 0.5 per cent in 2018 to \$1,014 per week, slightly above Canada’s average weekly earnings of \$1,001.

The mining, oil and gas sector continued to offer the highest average wages in the province at \$1,963 per week.

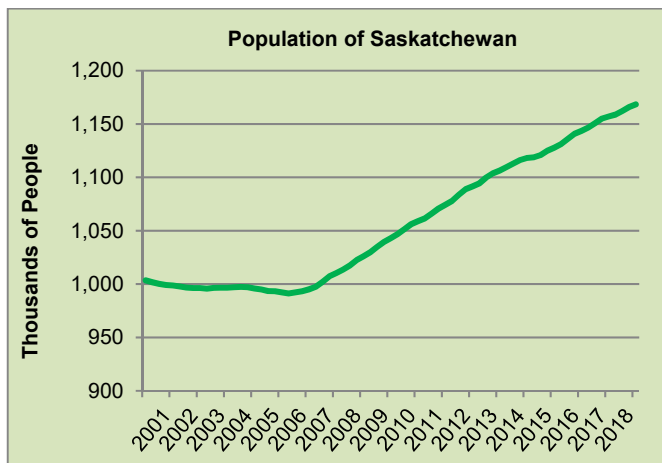

Investment

New capital investment in 2018 was \$15.4 billion, down \$0.3 billion from 2017 and slightly under the 10-year average of \$15.8 billion. New capital investment in the mining, oil and gas sector decreased by \$171 million compared to 2017.

Between 2017 and 2018, housing starts fell by 26.4 per cent while investment in non-residential building construction fell by 9.6 per cent. The value of building permits was down 16.1 per cent during the same period.

Population

During 2018, the Saskatchewan population increased by 11,459 persons to a record high of 1.168 million. In 2018, there were 15,821 births and 9,683 deaths in the province, slightly above the 10-year averages of 15,048 births and 9,339 deaths. Additionally, in 2018, there were 5,321 more people that moved to Saskatchewan than left. Combined, the natural increase and net migration resulted in total population increase of 11,459 persons over the year.

Source: Statistics Canada, Table 17-10-0009-01

Retail Trade

Retail trade was \$19.5 billion in 2018, down from \$19.6 billion in 2017, but above the 10-year average of \$17.7 billion. On a per capita basis, retail trade declined between 2017 and 2018 by \$224 per person to \$16,788.

Motor vehicles and parts remained the largest share of retail trade at 26.6 per cent or \$5.2 billion, but down from \$5.6 billion in 2017.

Vehicles

Over the last 10 years, the light trucks segment has increased significantly by 34.1 per cent to 633,141 registrations in 2018. This increase has primarily been caused by the increased popularity of SUVs in recent years. SUVs are perceived to offer a broader range of capabilities that suit conditions in Saskatchewan.

Even though demand for gasoline cars remained dominant in 2018, electric vehicles registrations rose by 80.7 per cent from 44 in 2017 to 80 in 2018.

Utilities

Saskatchewan's electricity consumption increased from 25,068 GWh in 2017 to 25,715 GWh in 2018, exceeding the 10-year average of 22,964 GWh.

For the first time, natural gas became Saskatchewan's largest source of power generation. Natural gas has continued to grow in importance, increasing from 19 per cent of total electricity supplied in 2008 to 41 per cent in 2018.

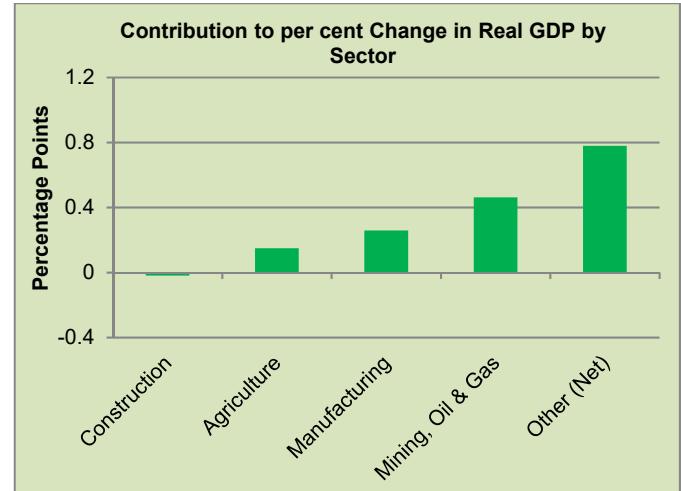

Conclusion

Saskatchewan's economy and population continued to grow in 2018.

Saskatchewan's real GDP at basic prices grew by 1.6 per cent in 2018, following relatively strong economic growth in 2017 of 2.3 per cent.

While capital investment was weak in 2018, Saskatchewan's population increased by 11,459 persons reaching more than 1.16 million.

Moreover, Saskatchewan's economy added 2,400 new jobs in 2018, and Saskatchewan's unemployment rate dropped slightly from 6.3 per cent in 2017 to 6.1 per cent in 2018.
