## **THE FUEL TAX AND ROAD USE CHARGE ACT**

### **ROAD USE CHARGE ON ELECTRIC VEHICLES**

This bulletin has been prepared to help you understand the road use charge and your obligations under *The Fuel Tax and Road Use Charge Act*. It is a general guide and not a substitute for the legislation.

*Changes to this notice are indicated by a (l) in the margins.*

The contents of this bulletin are presented under the following sections:

- A. [General Information](#)
- B. [Definitions](#)
- C. [Registration](#)

#### **A. GENERAL INFORMATION**

The road use charge is an annual charge on Class LV electric vehicles registered in Saskatchewan. Saskatchewan Government Insurance (SGI) collects the charge at the time of registration. In the event of a shortened registration period, SGI will prorate the charge or provide refunds as required.

Tax Rates:

- Prior to June 1, 2025: \$150
- June 1, 2025 to December 31, 2026: \$300
- Effective January 1, 2027, the road use charge will be indexed annually to the national rate of inflation.

#### **B. DEFINITIONS**

An electric vehicle is defined as a battery electric vehicle that:

- Is powered solely by an electric motor drawing current from a rechargeable energy storage system, for which the recharge energy can be drawn from a source that is not on-board the vehicle; and

- Does not have an on-board combustion engine-generator system as a means of providing electrical energy.

### **C. REGISTRATION**

The road use charge is administered by Saskatchewan Government Insurance (SGI) at the time of registration.

Depending on the length of a vehicle's registration term, the charge may be prorated. If a vehicle is registered using AutoPay, it will be prorated and included in the monthly withdrawal amounts. If a vehicle is registered for less than a year, the charge will be prorated based on the length of the term.
