

Cancer Surgery Resection of Bladder (Removal of part of bladder)

Actual Patient Waits for Procedures Performed (01JUL2021 to 31DEC2021)

Area of Service	Patients completed	Within 3 weeks	4-6 weeks	7 weeks-3 months	4 - 6 months	Longer than 6 months	Patients Waiting on 31DEC2021
03 Saskatoon	143	85%	14%	1%	0%	0%	14
04 South West	18	Data suppressed	because < 20	procedures	performed.		< 5
06 Regina	137	66%	32%	1%	0%	0%	23
99 All SK hospitals	298	75%	23%	2%	0%	0%	40

† 90% of cases were performed within 28 days (4.0 weeks).

Notes:

- ◆ This procedure is performed by urologists.
- ◆ Cancer surgery data is based on procedures performed in hospital operating rooms. 83% of all bladder resections performed in operating rooms over this time period were categorized as cancer surgeries. Only cancer surgeries are included in this table.
- ◆ 87% of bladder resections reported here were categorized with a surgeon priority of three weeks. The remainder have a surgeon priority of six weeks or three months. Emergency procedures are excluded. Some further work has to be done to ensure that the cancer categories are being consistently interpreted.
- ◆ Time periods where patients specify that they are unavailable for surgery are subtracted from the wait time.
- ◆ Postponed cases are included, regardless of whether the reason for postponement is patient or system related.
- ◆ The results are based on the Jan 23, 2022 refresh of the Saskatchewan Surgical Patient Registry data mart and are subject to minor changes as data is added or corrected.
