

Community Living Service Delivery

Clinical Prevention Services

Who We Are:

Clinical Prevention Services is a multi-disciplinary team with a range of clinical areas of practice for individuals with non-crisis, high and complex physical, and/or behavioural needs.

Who We Serve:

Adults who have intellectual disabilities, and who experience complex behavioural and/or physical challenges that impact their ability to live and/or participate safely in their homes and in their communities.

Supports Provided Include:

- Strengths-based, person-centred and socially inclusive approaches to promote and improve safety, wellbeing, and skill development.
- Referral-based provincial outreach to clients who require individualized assessment.
- Direct clinical assessment and services within the scope of behavioural support, occupational therapy, physiotherapy, and recreation/community inclusion.
- Consultation and training for support providers to build capacity in the areas of bio-psycho-social wellness.
- Edie Montgrand Centre, – Moose Jaw, SK.- Individual and group therapy-based programs.

For general information or inquiries, please contact:

Bev Lamb

Manager, Clinical Prevention Services
306-513-8562

John Bell

Coordinator, Edie Montgrand Centre
306-694-3027

Note: Occupational and Physiotherapy services provided are not intended to duplicate or take the place of services that are available to Saskatchewan citizens through the Saskatchewan Health Authority, or other services they may be accessing (i.e., private practices, etc.).

These CLSD MDO services are targeted to individuals who are unable to be served through typical means, due to complexity of their situation or limitations of resources locally that impact the individual's ability to achieve their outcomes.

Program Development Consultant (PDC)

Key Responsibilities:

- » Clinical assessment and person-centred support to individuals in the areas of behavioural support and other psychosocial approaches.
- » Direct support to families and Approved Private Service Homes who support individuals with complex behavioural needs.
- » Consulting, developing and providing training for Third Party Service Providers, building capacity to support positive, proactive behavioural strategies and achieve person-centred outcomes.
