

Cancer Surgery Nephrectomy (Removal of a portion or all of a kidney)

Actual Patient Waits for Procedures Performed (01APR2022 to 30SEP2022)

Area of Service	Patients completed	Within 3 weeks	4-6 weeks	7 weeks-3 months	4 - 6 months	Longer than 6 months	Patients Waiting on 30SEP2022
03 Saskatoon	47	21%	55%	23%	0%	0%	11
06 Regina	26	23%	38%	19%	15%	0%	7
Other smaller areas	< 5	Data suppressed	because < 20	procedures	performed.		< 5
99 All SK hospitals	77	22%	49%	22%	5%	0%	19

* Fewer than five cases performed in the following area(s): South West

† 90% of cases were performed within 54 days (7.7 weeks).

Notes:

- ◆ This procedure is performed by urologists.
- ◆ Cancer surgery data is based on procedures performed in hospital operating rooms. 88% of all nephrectomies performed in operating rooms over this time period were categorized as cancer surgeries. Only cancer surgeries are included in this table.
- ◆ 27% of nephrectomies reported here were categorized with a surgeon priority of three weeks. The remainder have a surgeon priority of six weeks or three months. Emergency procedures are excluded. Some further work has to be done to ensure that the cancer categories are being consistently interpreted.
- ◆ Time periods where patients specify that they are unavailable for surgery are subtracted from the wait time.
- ◆ Postponed cases are included, regardless of whether the reason for postponement is patient or system related.
- ◆ The results are based on the Oct 23, 2022 refresh of the Saskatchewan Surgical Patient Registry data mart and are subject to minor changes as data is added or corrected.
