Letter of Transmittal

December 20, 2022

Alison O'Leary
Assistant Deputy Minister
Program Operations Branch
Infrastructure Canada
1100 - 180 Kent Street
OTTAWA ON K1P 0B6

Dear Alison O'Leary:

On behalf of the Government of Saskatchewan's Ministry of Government Relations, I am pleased to provide the Annual Report for the Administrative Agreement on the Federal Canada Community-Building Fund (formerly Gas Tax Fund) for the period of April 1, 2021 to March 31, 2022.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sheldon Green', written in a cursive style.

Sheldon Green
Assistant Deputy Minister
Municipal Relations

Overview

The Ministry of Government Relations (the ministry) prepares the Canada Community-Building Fund (CCBF)¹ Annual Report, which is then submitted to Infrastructure Canada as part of the Administrative Agreement (the agreement) on the Federal Gas Tax Fund's² required reporting obligations. This report covers the activities of the program from April 1, 2021 to March 31, 2022. It is distributed to the members of the CCBF Oversight Committee members and is available on our website at [saskatchewan.ca](https://www.saskatchewan.ca).

Since 2005, municipalities in Saskatchewan have benefited from the CCBF program. Municipalities received federal funding for environmentally-sustainable infrastructure investments under the original agreement (from 2005 to 2014). As part of the New Building Canada Plan, the governments of Saskatchewan and Canada signed an agreement in 2014 to extend the CCBF for another 10 years, from 2014-15 to 2023-24.

The program supports three outcomes:

- Investing in community infrastructure;
- Providing municipalities with access to a predictable source of funding; and
- Supporting and encouraging long-term municipal planning and asset management.

Saskatchewan received
\$608,945,816
in CCBF funding
from 2014-15 to 2021-22

Program funding is indexed at two per cent annually, applied in \$100 million increments. Over the first five years of the agreement, Saskatchewan's allocation was \$292.7 million, based on 2011 Statistics Canada Census figures. For 2019-20 to 2023-24, Saskatchewan's allocation is \$324.2 million based on 2016 Census data. In 2021-22, Saskatchewan's allocation increased to \$65.4 million from 2020-21, when it was \$62.5 million.

The federal government provided legacy funding of \$1.2 million in 2016-17 and a temporary top-up in the form of a one-time transfer of \$61.9 million to supplement the 2018-19 allocation.

On March 25, 2021, the federal government introduced Bill C-25, providing supplemental funding of \$2.2 billion, to address short-term infrastructure priorities in municipalities and First Nations communities. These funds flowed through the federal CCBF program. Saskatchewan's allocation of \$62.5 million doubled Canada's commitment under the program for 2020-21. It was distributed to municipalities in Saskatchewan in 2021-22. The ministry is not responsible for administering the CCBF program for First Nations communities in Saskatchewan.

In 2022-23 Saskatchewan will make payments that bring the total amount of funding to municipalities since the program's inception to more than \$1 billion.

Municipalities select how best to direct funds to meet local needs. Under the agreement, 2,607 projects were approved, supporting the national objectives of increased productivity and economic growth, clean environment, and strong cities and communities. (See Figure 1).

¹ As of June 29, 2021, the Gas Tax Fund has been renamed the Canada Community-Building Fund.

² The agreement is available on the Government of Saskatchewan [website](#) and the Government of Canada [website](#).

Figure 1: Comparison of Approved Projects Meeting Primary National Objectives

Program Delivery

Overall Administration

The ministry administers the CCBF program in Saskatchewan on behalf of the Government of Canada. Saskatchewan's federally approved business case is for Canada to fund 100 per cent of the costs to administer the program, up to 1.4 per cent of the estimated 10-year base transfer, to a maximum of \$8.5 million. Administration costs include activities such as the preparation and administration of municipal agreements, disbursement of funds, communications, reporting, and audit and evaluation requirements, as outlined in the agreement. To date, administration costs total \$4,603,700, which averages to \$575,462 per year.

In 2021, because of the name change from Gas Tax Fund to Canada Community-Building Fund, a rebranding exercise was completed to update the website, systems and documentation related to the program.

On December 9 and 16, 2021 and January 27, 2022, the federal government hosted virtual CCBF workshops through Microsoft Teams. Topics of discussion included:

- Federal infrastructure data programs;
- First Nations Infrastructure Fund;
- Program renewal and critical timeline;
- Preliminary findings of the evaluation of the CCBF; and
- Outcome reporting on CCBF projects.

In February 2022, the ministry completed an early engagement questionnaire about the potential CCBF agreement renewal.

Municipal Allocations

All Saskatchewan municipalities are eligible to participate in the CCBF. Under the agreement, the entire allocation, excluding administration costs, flows to municipalities on a per capita basis. The estimated allocations for municipalities, along with their legacy and top-up allocation amounts, are on the ministry's website at [saskatchewan.ca](https://www.saskatchewan.ca).

**\$125,989,238 was
transferred to
municipalities in
2021-22**

Beginning in 2019-20, allocations are based on 2016 Census data. Municipalities can pool, bank and borrow against this funding, providing them with significant financial flexibility.

Typically, the Government of Canada transfers the annual allocation in two equal payments in July and February, and the Government of Saskatchewan makes payment to the municipalities in August and March. However, in 2020-21 and 2021-22, the federal government transferred the full amount in June to help communities in their role to safely restart the economy from the effects of the COVID-19 pandemic as quickly as possible. The ministry made a single accelerated payment of instalment 1 and 2, and the top-up to municipalities in August.

To receive funding, a municipality must:

- Enter into a Municipal Gas Tax Fund Agreement, including any amendments;

- Submit an Infrastructure Investment Plan for each project; and
- Adhere to Saskatchewan’s Municipal Compliance Strategy.

Weyburn Recreation and Cultural Centre (Photo Courtesy: City of Weyburn)

Municipal Gas Tax Fund Agreement (MGTFAs)

The MGTFAs sets out the roles and responsibilities of Saskatchewan and the municipality for administering the CCBF under the agreement.

In 2014, the Northern Saskatchewan Administration District, the Saskatchewan portion of Flin Flon, and 762 municipalities participated in the program. However, due to removals for non-compliance and municipal dissolutions, only 740 MGTFAs remained at the end of the first five years.

In 2019-20, with the rollout of the last five years of the program, non-participating and removed municipalities could re-enter the program.

Of the 776 eligible recipients, 762 MGTFAs were signed, including three from municipalities that did not participate in the first five years and four from previously removed municipalities. Fourteen other municipalities chose not to participate. (See Table 1.) Funds totalling \$485,305, originally allocated to those 14 municipalities, became part of unallocated funds under the agreement, to be distributed to participating municipalities on a per capita basis.

Seven municipalities were removed from the program due to non-compliance, bringing the total active signed MGTfAs to 755. These non-compliant municipalities forfeited \$616,540 in allocated funding.

Table 1: Participating Recipients 2019-20 to 2023-24

Municipality Type	Total No.	Signed MGTfAs	Percentage
Cities	16	16	100.0
Towns	147	146	99.3
Villages	250	239	95.6
Resort Villages	41	40	97.5

Infrastructure Investment Plans

Municipalities must submit an Infrastructure Investment Plan (IIP) for each project that will receive funding under the CCBF. There are 19 eligible investment categories under which municipalities can submit IIPs, including:

Eligible Investments Categories (effective April 1, 2005 unless otherwise indicated)		
Broadband Connectivity*	Drinking Water	Short-line Rail
Brownfield Redevelopment*	Highways*	Short-sea Shipping
Capacity Building	Local Roads and Bridges	Solid Waste
Community Energy Systems	Public Transit	Sport Infrastructure*
Cultural Infrastructure*	Recreational Infrastructure*	Tourism Infrastructure*
Disaster Mitigation*	Regional and Local Airports*	Wastewater
Fire Halls**		

*Category effective April 1, 2014

**New category announced on March 25, 2021; effective April 1, 2021

During 2021-22, 268 IIPs were submitted to the ministry (see Table 2). Twenty-seven municipalities took advantage of the expanded category list, with 29 projects submitted under the new categories. Of those, recreational infrastructure remains the most popular new category with 19 IIPs submitted. Overall, local roads and bridges are the most common investment category for municipalities, with 46.3 per cent of the IIPs submitted under that category.

Table 2: IIPs Submitted in 2021-22 by Investment Category

Investment Category	No. of IIPs
Local Roads and Bridges	124
Drinking Water	54
Wastewater	32
Recreational Infrastructure	19
Community Energy Systems	16
Capacity Building	9
Solid Waste	3
Tourism Infrastructure	3
Sport Infrastructure	3
Disaster Mitigation	2
Highways	1
Broadband Connectivity	1
Fire Halls	1
Total	268

268 IIPs Submitted
in 2021-22
Urban – 171 (63.8%)
Rural – 94 (35.1%)
North and Other – 3 (1.1%)

In 2021-22, 281 IIPs were approved for 187 municipalities. This includes IIPs carried forward for prior years and brings the total IIPs approved to 2,607 since 2014. In aggregate, since 2005, 6,354 IIPs were submitted with 5,069 approved IIPs (23 of which were closed due to non-compliance). Eighty-seven IIPs remain to be processed, and 1,198 IIPs have been withdrawn or denied – typically due to a decision to

use the CCBF funding for another project, the project is receiving other funding, an incomplete project when the municipality was removed, or the project being deemed ineligible.

Figure 2 shows the 5,069 approved IIPs by investment category and the relative allocation under the program from 2005 to 2022.

Figure 2: Number of Approved IIPs as of March 31, 2022

Some municipalities choose to apply additional funding to a previously approved IIP by requesting an increase to the CCBF allocation for that project. In 2021-22, 323 IIPs were reassessed and approved for additional CCBF funding of more than \$17 million.

As previously noted, there was an influx of IIPs in 2020-21 due to the requirement in the MGTF for municipalities to submit an IIP by April 30, 2020 that uses some or all of their 2019-24 funding

allocations. Over the next year, the ministry will advise municipalities to submit IIPs to use their full allocations as the deadline of December 31, 2024 to expend program funds draws near.

To assist municipalities, the ministry developed a Municipal Summary which provides a recap of a municipality's CCBF activities from the inception of the original program in 2005 to date, including funding received, projects approved, expenditure reported, and allocation available. The Municipal Summary, distributed to each participating municipality in September 2021, was well received.

Replacement of two steel culverts (Photo Courtesy: Rural Municipality of Arborfield No. 456)

Municipal Compliance Strategy

The Municipal Compliance Strategy (strategy), available on [saskatchewan.ca](https://www.saskatchewan.ca), was implemented in 2010 by the Oversight Committee with the intent to:

- Ensure fair treatment to all municipalities;
- Ensure an appropriate level of accountability;
- Provide municipalities sufficient time to understand the terms and conditions; and
- Mitigate any unnecessary risk to the CCBF.

Municipalities are required to comply with several significant terms and conditions as outlined in their MGTFA. Under the strategy, if a municipality fails to comply with these requirements, their semi-annual payment is withheld until they become compliant. If a municipality's non-compliance results in three consecutive payments being withheld, the municipality may be removed from the program and required to repay all or a portion of previously transferred CCBF payments.

The ministry made a single accelerated payment of installment 1 and 2 in August 2020, so there was no March 2021 payment for the compliance strategy to align with. The next payment for 2021-22 installment 1 was made in August 2021.

During 2021-22, 138 municipalities were sent compliance letters before the August 2021 payment. In 2021-22, six municipalities were removed for non-compliance and forfeited their allocations. This brings the total to seven municipalities removed from the last half of the renewed agreement.

In 2021-22, the ministry received \$17,051 as repayments from removed municipalities. This is shown on the audited financial report table as Refunded to Saskatchewan under Ultimate Recipients in Aggregate, and forms part of the Refund to Vote under Saskatchewan in Aggregate.

Replacement of 180 metres of sewer line, two manholes and 12 connections (Photo Courtesy: Town of Hague)

Other Funds Available for Distribution

In addition to the municipal allocations, other amounts may become available for distribution. This includes:

- Interest earnings on CCBF funds held by the province;
- Unspent funds from the original agreement; and
- Unallocated funds from the current agreement consisting of:
 - Money allocated but not distributed to non-participating or removed municipalities;
 - Money refunded due to non-compliance or overpayment; and
 - Rounding adjustments from when funds are allocated to municipalities.

Interest earned by the province during 2021-22 was \$57,356, bringing the cumulative total under the renewed program to \$926,874. In addition, there is approximately \$2.4 million of unspent funds comprised of surplus administrative funds from the original agreement; allocated amounts primarily related to non-participating or removed municipalities; and outstanding repayments and/or

overpayments from ultimate recipients. In accordance with the terms of the amended agreement, these funds can be used for eligible projects that may include capacity building efforts of the municipal associations. All options for distributing interest earnings and unspent funds are determined by the Oversight Committee.

Unallocated funds from the current agreement are allocated to municipalities on a per capita basis, except for money refunded for non-compliance, which is allocated as determined by the Oversight Committee. These funds are expected to be distributed in 2022 and 2023.

Heavy Haul Road (Photo Courtesy: Rural Municipality of Elmsthorpe No. 100)

Municipal Annual Expenditure Reports

Municipalities with active CCBF projects are required to submit a Municipal Annual Expenditure Report (MAER) each calendar year. The MAER is due to the ministry annually by March 31 and requires municipalities to provide information on:

- Interest earned;
- Project expenditures claimed;
- Project completion status, including actual or estimated completion date; and
- Any revision to estimated project costs.

For 2021, 625 municipalities had active projects and were sent a MAER to complete. At the time of an external compliance audit, reviews were completed on 1,033 projects. Of those, 763 projects have reported expenditures of \$104,457,907.04 (see Table 3) with 291 projects reporting no expenditures in the current year. A listing of all 1,033 projects is in Appendix A.

Table 3: Municipal Spending in 2021 by Investment Category

Investment Category	No. of Projects ¹	CCBF Spending in 2021
Local Roads and Bridges	355	\$52,770,370.29
Drinking Water	151	\$34,790,502.63
Wastewater	85	\$7,213,702.64
Community Energy Systems	48	\$1,448,888.98
Recreational Infrastructure	44	\$5,507,744.94
Capacity Building	33	\$557,795.30
Solid Waste	24	\$1,337,089.40
Tourism Infrastructure	8	\$41,399.01
Sport Infrastructure	7	\$311,965.87
Cultural Infrastructure	4	\$82,953.86
Highways	2	\$174,814.20
Disaster Mitigation	1	\$210,079.92
Broadband Connectivity	1	\$10,600.00
Total	763	\$104,457,907.04

¹Only includes projects for which CCBF spending was incurred in 2021; does not include those projects with \$0 expended in 2021 but remain outstanding due to project not being complete.

Municipalities report \$0 expenditures if:

- The project has not yet started;
- No eligible expenditures were incurred for the reporting period; or
- All CCBF funding has been reported on the project, but the project is not substantially complete. A project is considered complete if it is both ready for use and no further CCBF funding will be used towards it.

Where there are no related expenditures claimed for the year, municipalities are required to provide a detailed explanation as to why no work was completed on a project.

At the end of Appendix A, 29 projects reporting for 2020 are listed that were submitted after the audit verification of the 2020 financial information. These projects were audited as part of the current period's financial information. Table 4 summarizes the 29 projects with expenditures or expenditure adjustments.

Table 4: 2020 Expenditures Reported Subsequent to 2020 External Audit

Investment Category	No. of Projects ¹	CCBF Spending in 2021
Local Roads and Bridges	18	\$826,030.37
Community Energy Systems	3	\$159,647.78
Drinking Water	3	\$44,242.74
Recreational Infrastructure	1	\$600.50
Wastewater	2	(\$11,091.98) ²
Capacity Building	1	\$11,437.50
Solid Waste	1	\$505.00
Total	29	\$1,031,371.91
Interest Reported		(\$2,883.38)
Grand Total		\$1,028,488.53

¹Only includes projects for which CCBF spending was incurred in 2020; does not include those projects with \$0 expended in 2020 but remain outstanding due to project not being complete.

²Adjustment to correct allowed eligible expenditures.

Following the deadline for the 2021 external compliance audit by KPMG LLP, 53 MAERs were received to be audited. They will be reported as a prior-year adjustment on next year's annual report. Twenty-four MAERs remain outstanding. No MAERs were adjusted after the external audit was completed upon requests from the municipalities.

Outcome Reporting

As part of the reporting requirements under the agreement, the Government of Saskatchewan is required to periodically report on outcomes to the Government of Canada, and to make this report publicly available. The next outcomes report is due by March 31, 2023. (*Outcomes Report 2018* is available on [saskatchewan.ca](https://www.saskatchewan.ca)).

An outcomes report provides information in aggregate on the degree to which investments are supporting the progress in Saskatchewan towards achieving the following benefits:

- Beneficial impacts on communities of completed eligible projects;
- Enhanced impact of CCBF as a predictable source of funding including incrementality; and
- Progress made on improving municipal planning and asset management.

Municipalities help the provincial government prepare these reports by giving information to the ministry, as required in their MGTFA. This includes submitting outcome reports on projects they report as complete on their MAER.

To help municipalities identify potential benefits and outcomes for their respective projects, municipalities must identify on their IIP that the project can support at least one outcome, and the IIP is assessed based on this.

A total of 367 outcomes report forms were sent to 248 municipalities that reported their projects as completed between January 1 and December 31, 2020. Table 5 identifies the national objective supported by the completed projects.

Table 5: National Objectives Supported by Outcome Reporting

Primary National Objective	Project Category	No. of Projects
Productivity and Economic Growth	Local Roads and Bridges	186
	Regional and Local Airports	3
Clean Environment	Drinking Water	66
	Wastewater	37
	Community Energy Systems	30
	Solid Waste	4
Strong Cities and Communities	Recreational Infrastructure	22
	Capacity Building	13
	Sport Infrastructure	3
	Cultural Infrastructure	2
	Tourism Infrastructure	1
Total No. of Forms Sent		367

It is anticipated in 2022-23 there will be a significant increase in the number of outcome reports as the number of projects increased due to the rollout of the last five years of the program and municipalities are working to complete their projects prior to the end of the current program in 2024.

In 2019-20, an outcomes working group, comprised of representatives from the provinces and territories and Infrastructure Canada, was established to create standardized performance measures for reporting nationally on project outcomes. Saskatchewan is a member of this group, which held four virtual meetings during 2021-22 to discuss standardizing assets under the CCBF.

Oversight Committee

The Oversight Committee (OC) monitors the overall implementation of the agreement. The OC serves as the principal forum to address and resolve issues arising from the implementation of the agreement. Membership consists of federal, provincial and municipal members.

The Asset Management Subcommittee (AMS) is made up of membership from Canada, Saskatchewan, the three municipal associations, the two administrative associations and the city managers, for a total of eight members. Responsibilities of the AMS include:

- Developing and determining a baseline against which to measure progress of ultimate recipients in making progress towards developing and/or implementing an Asset Management Plan;
- Developing a tiered approach to the establishment of asset management planning goals;

- Developing and implementing a performance measurement strategy, including guidelines for the preparation of periodic outcomes reports on progress towards development and/or implementing an Asset Management Plan; and
- Providing advice to the OC on asset management matters, as requested.

The five members of the Communications Subcommittee include representatives from Canada, Saskatchewan, and the municipal associations. The mandate of the Communications Subcommittee is to:

- Provide communications advice to the OC;
- Propose, implement, and evaluate the joint communications approach specifically for Saskatchewan; and
- Deliver an annual communications report to the OC.

Re-alignment of Battleford Trail and Central Avenue Intersection (Photo Courtesy: City of Swift Current)

Asset Management

Under the terms of their MGTFAs, municipalities are required to make progress towards developing and/or implementing an asset management plan, and to continue to work towards achieving the asset management goals as approved by the Oversight Committee Co-chairs. The AMS was established to help achieve this requirement. They established a baseline against which to measure progress and developed a tiered approach for asset management planning measures and targets.

The approach encourages municipalities to work through the entire asset management process for between one to four asset classes depending on the municipality's size and supports doing all classes long term. The approach breaks the asset management process into small and more achievable tasks to

re-inforce the message that asset management should not be too complex, time-consuming or overwhelming to implement.

Building on the targets and measures to date, the measure established for June 30, 2020 was for municipalities to identify the funding gap between the current and desired asset condition for completed asset classes. The next target is June 30, 2022, when municipalities are required to report back to their council on monitoring and improving their asset management plan moving forward.

In accordance with the tiers, targets and measures document established by the AMS, municipalities report to the ministry on their progress in implementing their asset management plan.

- In 2016, municipalities completed the baseline survey.
- In 2017, municipalities completed a short questionnaire to check-in on progress made since the baseline survey.
- In 2018, municipalities completed a comprehensive questionnaire providing detailed information on the status of their asset management planning. 96.7 per cent (717 of the 734 municipalities responding) of responders had begun to develop or implement asset management.

The next reporting is scheduled for fall 2022. It is anticipated the results from this questionnaire will indicate that municipal progress in asset management planning may have been hampered by the challenges associated with the COVID-19 pandemic. The survey results will help inform the AMS. While Canada has indicated its intent to renew the CCBF program beyond 2023-24, program parameters and transition measures have not yet been determined. Municipalities are encouraged to keep progressing towards implementing and developing their asset management plan.

Municipalities are required to complete and submit asset management reports to comply with the terms and conditions of their MGTFA. These reports assist the Government of Saskatchewan when reporting to the Government of Canada on the progress that municipalities have made in improving municipal planning and asset management. Saskatchewan's next report is due to the federal government by March 31, 2023.

Since 2014, municipalities have allocated close to \$3.7 million under the capacity-building category of the CCBF to support 88 asset management projects.

Municipalities continue to use asset management resources on the website, with the *Asset Management-Getting Started Guide* being downloaded 853 times in 2021, *Asset Management: Making Progress (Guide to GTF Agreement Requirements)* downloaded 496 times, and *Asset Management: Making Progress Fact Sheet* downloaded 580 times.

Communications

Program staff have ongoing communication with municipalities to help them meet the program's required goals. The ministry's website provides information about the CCBF including agreements, funding allocation tables, forms, reports and compliance information.

Communication opportunities, such as signs, events or announcements, help people recognize federal CCBF investments in communities.

Canada has signage guidelines in place for design, content and installation of projects funded by the CCBF. In general, a sign for a project funded by the CCBF is required:

- When the CCBF contribution is more than \$100,000;
- Where there is visible construction; and
- Where an installed sign is visible to the public.

Signage can be a physical sign, installed outdoors or placed in a lobby or community gathering place, or a digital sign, such as on the project website or on social media. In 2021-22, 13 physical and four digital signs were installed across the province.

Production on two instructional videos was completed in 2020, posted to the ministry's YouTube Channel. Additionally, between April 1, 2021 and March 31, 2022 there were 4,870 unique page views of the Canada Community-Building Fund pages on saskatchewan.ca. This was a decrease of 17 per cent from the 5,874 views in 2020.

Financial Report

Compliance

An independent audit for the year ending 2021-22 was completed by KPMG LLP for the purpose of expressing opinions on the Financial Report Table and its preparation in compliance with the criteria established by the terms and conditions described in the agreement. The audit confirms that the ministry has fulfilled the terms and conditions set out in the agreement. The Independent Auditor's Report begins on page 22 of this report.

Financial Report Highlights

The Financial Report Table on page 26 shows the receipts and disbursements of the CCBF for the 2021-22 reporting period and cumulative data under the CCBF for Saskatchewan and the ultimate recipients (primarily municipalities). Ultimate recipients report on a calendar year, in this case, 2021.

Saskatchewan:

- Saskatchewan received \$127,986,914 from the Government of Canada for the fiscal year ending on March 31, 2022.
- \$125,989,238 was transferred to recipients in 2021-22.
- Administrative costs decreased from \$721,376 in 2020-21 to \$603,674 in 2021-22. Administrative costs in 2020-21 were higher than normal due to the influx of IIP's. Administrative costs are less than one per cent of the regular transfer received from Canada in 2021-22.

Administrative Costs	2021-22	2020-21
Personal services	\$508,046	\$594,451
Contractual services	\$26,222	\$27,528
Advertising	\$0	\$15,209
Travel and business	\$0	\$0
Supplies and services	\$69,406	\$84,188
TOTAL	\$603,674	\$721,376

- Interest earnings increased by more than 56 per cent from \$36,712 in 2020-21 to \$57,356 this fiscal year.
- The province has received \$25,427 in refunds from municipalities for 2021-22.

Ultimate Recipients:

- During the 2021 calendar year, recipients received CCBF allocations totaling \$125,502,416.
- On their 2021 MAERs, \$104,457,907 in spending was reported on eligible projects, as shown in Appendix A.
- The opening balance includes an adjustment of -\$1,028,489 which is:
 - Interest earned and expenditure amounts reported on eligible projects in 2020, and submitted after the audit verification of the 2020 financial information; and

- Removal of expenditures reported by ultimate recipients in prior years that they were not qualified to retain due to non-compliance.
- These amounts are part of the 2021 audit verification process; expenditure amounts are listed at the end of Appendix A.
- Interest earnings reported by municipalities decreased from \$519,727 to \$290,486.

INDEPENDENT AUDITORS' REPORT

To Saskatchewan Ministry of Government Relations

Opinion

We have audited the Financial Report Table – Administrative Agreement on the Canada Community-Building Fund (formerly named the Federal Gas Tax Fund) of the Saskatchewan Ministry of Government Relations ("the Ministry") for the year ended March 31, 2022, and notes, comprising other explanatory information (together "the Annual Statement").

In our opinion, the accompanying Annual Statement for the year ended March 31, 2022, of the Ministry is prepared, in all material respects, in accordance with the financial reporting provisions in the Canada-Saskatchewan Administrative Agreement on the Federal Gas Tax Fund, between Infrastructure, Communities and Intergovernmental Affairs Canada and Saskatchewan Ministry of Government Relations, dated May 29, 2014 as amended on August 27, 2019 ("the Agreement").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Annual Statement section of our auditors' report. We are independent of the Ministry in accordance with the ethical requirements that are relevant to our audit of the Annual Statement in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 to the Annual Statement, which describes the basis of accounting. The Annual Statement is prepared to assist the Ministry to meet the requirements of the Agreement. As a result, the Annual Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Other Matter – Restriction on Use and Distribution

Our report is intended solely for Saskatchewan Ministry of Government Relations and Infrastructure, Communities and Intergovernmental Affairs Canada and should not be used by other parties.

Responsibilities of Management and Those Charged With Governance for the Annual Statement

Management is responsible for the preparation and fair presentation of the Annual Statement in accordance with the financial reporting provisions in the Agreement for March 31, 2022, and for such internal control as management determines is necessary to enable the preparation of an Annual Statement that is free from material misstatement, whether due to fraud or error.

KPMG LLP is a Canadian limited liability partnership and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity. KPMG Canada provides services to KPMG LLP.

Those charged with governance are responsible for overseeing the Ministry's financial reporting process.

Auditors' Responsibilities for the Audit of the Annual Statement

Our objectives are to obtain reasonable assurance about whether the Annual Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Annual Statement.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Annual Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ministry's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure, and content of the Annual Statement, including the disclosures, and whether the Annual Statement represents the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

SASKATCHEWAN MINISTRY OF GOVERNMENT RELATIONS

Notes to the Financial Report Table
Administrative Agreement on the Federal Gas Tax Fund

Year ended March 31, 2022

1. Scope of the Administrative Agreement on the Federal Gas Tax Fund

On May 29, 2014, the Saskatchewan Ministry of Government Relations ("Saskatchewan") and Infrastructure, Communities, and Intergovernmental Affairs Canada ("Canada") executed the Canada-Saskatchewan Administrative Agreement on the Federal Gas Tax Fund (the "Agreement"), effective April 1, 2014. The Agreement was subsequently amended on August 27, 2019.

The Agreement provides a joint framework for the transfer of funds from Canada to Saskatchewan for administration and subsequent allocation to help communities build and revitalize their public infrastructure that supports national objectives of productivity and economic growth, a clean environment and strong cities and communities.

The Agreement further provides that Saskatchewan agrees to pay funding to ultimate recipients solely for eligible projects, as described in Schedule B of the Agreement, and solely for the purpose of paying eligible expenditures as described in Schedule C of the Agreement and that funding may be used for the purpose of paying all administration costs of Saskatchewan, as provided for in the Agreement.

2. Interest earned

The annual allocation provided by Canada to Saskatchewan is held by Saskatchewan pending future payments in accordance with the Agreement. Saskatchewan has an arrangement with the Saskatchewan Ministry of Finance respecting the receipt, disbursement and amounts held for future payments to municipalities.

Saskatchewan has calculated interest earned using the Province of Saskatchewan's thirty day borrowing rate. Interest earned on amounts held by Saskatchewan shall be used only for the purposes of eligible projects which may include capacity building efforts of the municipal associations were established as ultimate recipients.

SASKATCHEWAN MINISTRY OF GOVERNMENT RELATIONS

Notes to the Financial Report Table
Administrative Agreement on the Federal Gas Tax Fund

Year ended March 31, 2022

3. Administrative costs

Under the terms of the Agreement, the annual allocation has been used to pay for administrative costs incurred by Saskatchewan. All administrative costs incurred during the year ending March 31, 2022, are in accordance with a business case, dated March 11, 2015, approved by Canada.

4. Reporting of ultimate recipient financial information

Schedule D of the Agreement states that in the case of ultimate recipients with a year end other than March 31, the Annual Report may include information in respect of eligible projects related to that ultimate recipient to the year end of that ultimate recipient. All municipalities in Saskatchewan have a December 31 year end. As a result, the Financial Report Table reports amounts held by municipalities to be expended on eligible costs and amounts expended by municipalities on eligible costs as at and for the year ending December 31, 2021.

The amount transferred to ultimate recipients is reconciled as follows:

	Annual April 1, 2021 – March 31, 2022
Ultimate Recipients – Received from Saskatchewan January 1 to December 31, 2021	\$ 125,502,416
Less: amounts transferred to Ultimate Recipients, January 1 to March 31, 2021	(486,101)
Add: amounts transferred to Ultimate Recipients, January 1 to March 31, 2022	972,923
Total transferred to Ultimate Recipients, April 1, 2021 to March 31, 2022	\$ 125,989,238
	Annual April 1, 2020 – March 31, 2021
Ultimate Recipients – Received from Saskatchewan January 1 to December 31, 2020	\$ 91,897,191
Less: amounts transferred to Ultimate Recipients, January 1 to March 31, 2020	(31,640,908)
Add: amounts transferred to Ultimate Recipients, January 1 to March 31, 2021	486,101
Total transferred to Ultimate Recipients, April 1, 2020 to March 31, 2021	\$ 60,742,384

SASKATCHEWAN MINISTRY OF GOVERNMENT RELATIONS

Notes to the Financial Report Table
Administrative Agreement on the Federal Gas Tax Fund

Year ended March 31, 2022

5. Adjustments relating to prior year

Adjustments relating to prior year reflect the net effect of:

1. interest earned and amounts spent by ultimate recipients in 2020 and submitted to Saskatchewan subsequent to the audit verification of the 2020 financial information; and
2. removal of expenditures reported by ultimate recipients in prior years that they were not qualified to retain due to non-compliance.

These amounts are audited as part of the current period financial information and have been included in the ending cumulative balance of "Spent on eligible projects", and "Interest earned" as disclosed in note 7 below.

6. Refund to Vote and Refunded to Saskatchewan

Transfers are provided to ultimate recipients in advance which can result in ultimate recipients having to repay amounts that they are not qualified to retain due to non-compliance or insufficient eligible expenditures. Amounts are recorded when repayments are received from the ultimate recipient.

7. Ultimate recipients in aggregate – additional information

The cumulative balances are derived as follows:

	Spent on eligible projects	Interest earned
Opening cumulative balance	\$ (389,256,658)	\$ 2,284,891
Adjustments relating to prior year (note 5)	(1,028,489)	2,883
Prior year interest netted against expenditure	(2,883)	-
Current year	(104,457,907)	290,486
Closing cumulative balance	\$ (494,745,937)	\$ 2,578,260

8. Subsequent events

- No subsequent events were noted that require disclosure or an adjustment to the financial statements.

Appendix A: Canada Community-Building Fund Project List

CCBF Municipal Annual Expenditure Reports Submitted for 2021

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1	2021-005382	Abbey, Village of	Install Two Pumps at Lift Station	The lift station had been operating with one pump, so the emergency siren would go off periodically. Two new pumps were installed to replace the single pump to keep up with the wastewater flow. If one pump fails, then the second pump engages to prevent waste overflow.	Wastewater	\$16,922.52	\$16,922.52	Yes
2	2021-005383	Abbey, Village of	Upgrade Electrical at Two Lift Stations	Upgrade electrical systems at two lift stations to allow use of a mobile generator for backup power in case of a power grid failure. The generator will keep lift stations from overflowing. Also, one breaker box needs to be moved to upgrade electrical to code.	Wastewater	\$19,819.95	\$3,498.00	No
3	2021-005874	Aberdeen, Town of	Implement Utility Reading and Billing Network	Purchase and implement a data management utility remote reading and billing system including belt-clip reader, field mobile device, office computer, gateway hardware, radio transmitter and software.	Drinking Water	\$65,000.00	\$5,133.03	No
4	2021-005875	Aberdeen, Town of	Upgrade Five to Ten Manholes	Upgrade five to ten concrete manholes by replacing their bases and upgrading the walls.	Wastewater	\$40,810.00	\$40,810.00	Yes
5	2021-005876	Aberdeen, Town of	Extend Two and Replace One Drainage Swale	Extend two concrete swales on Blake Crescent by 10.1 m x 6.1 m x 15.24 cm each. Replace the swale on 4th Avenue by excavating and removing the damaged swale, applying gravel and geo for base, and reapplying a 10.1 m x 6.1 m x 15.24 cm concrete swale.	Wastewater	\$30,000.00	\$13,250.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
6	2021-006056	Aberdeen, Town of	Replace 14 Curb Stops and Water Lines	Replace 14 curb stops, five main corporation stops, five saddles on the main line, and approximately 17.7 m of water lines. Located on Rupert Street, Blake Crescent, Main Street, 5th Avenue, 6th Avenue and five locations on 4th Avenue.	Drinking Water	\$70,614.45	\$70,614.45	Yes
7	2021-005335	Abernethy No. 186, RM of	Upgrade Sintaluta Bridge at SW 01-19A-11-W2	Upgrade the bridge embankment using 210 cu m of clay for structural filling, 130 cu m of riprap and geotextile fabric for armoring, as well as cap and pile treatment.	Local Roads and Bridges	\$45,712.50	\$22,856.25	No
8	2021-005333	Abernethy No. 186, RM of	Decommission Nuisance Grounds	Complete a soil assessment, site survey, groundwater assessment, hydrogeological assessment and hire a drilling contractor to help complete phase II of decommissioning the municipal nuisance grounds. Costs include labour as well as the listed assessments.	Solid Waste	\$25,150.00	\$0.00	No
9	2021-005479	Air Ronge, Northern Village of	Upgrade Heritage Park	Upgrade Heritage Park by adding various play structures, constructing a 1,450 sq m parking lot (with eight curb stops installed along the side), adding permanent cook stations and picnic tables to the picnic areas, and completing necessary landscaping including tree clearing, grading to ensure adequate drainage, removal of old dirt road and planting new grass.	Recreational Infrastructure	\$520,000.00	\$98,404.33	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
10	1920-004931	Albertville, Village of	Reconstruct 1.4 km of Road on Unity Street and St. James Avenue	Resurface 600 m of road on Unity Street East to West and 800 m of road on St. James Avenue South. Resurfacing includes 7.62 cm of base gravel topped with oil. The roads are approximately 6.4 m wide. The pre-existing top will be removed and ground to re-shape the crown of the road.	Local Roads and Bridges	\$90,456.05	\$17,040.91	Yes
11	1516-003411	Albertville, Village of	Renovate Community Centre	Close in all unnecessary exterior windows, insulate and install 29-gauge high tensile steel siding on complete building to accommodate a four-season facility.	Recreational Infrastructure	\$44,687.74	\$0.00	No
12	2021-005460	Alida, Village of	Reconstruct Renault Avenue Between Centre Street and West 2nd Street	Reconstructing the road consists of excavating to a 0.6 m depth. Double-weave geotextile will be installed, filled with pit run at 10-15 per cent overage and compacted, and then 320 m mixture of clay and sand will be applied to reshape the road.	Local Roads and Bridges	\$60,000.00	\$0.00	No
13	2021-006126	Alvena, Village of	Uncover, Upgrade and Extend Seven Manholes	Expose and raise seven manholes leading to lagoon that were buried under the farmland.	Wastewater	\$29,643.63	\$16,911.93	No
14	1920-004824	Annaheim, Village of	LeRoy REACT Landfill Site Capital Portion	Construction of a new regional landfill site located at SW 31-35-21-W2 with a design life capacity of over 65 years. This landfill will replace the previous landfill which was at capacity. The new landfill measures 0.323 sq km, including a scale/processing area, engineered garbage cells, two run-off ponds, one leachate pond, and 12.19 m tall netting installed around cells 1 and 2 for litter containment.	Solid Waste	\$32,550.00	\$32,550.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
15	2021-005368	Antelope Park No. 322, RM of	Reconstruction of 30 km of Highway 317	Approximate 30 km of Highway 317 running through the RM is being reconstructed/rehabilitated to an appropriate grid road standard. There are a number of areas that need to be reconstructed due to the road being worn down to the base, while other areas will need minor construction work. Work is being administered by the municipality with the Ministry of Highways and Infrastructure funding a portion.	Highways	\$4,946,609.00	\$57,280.50	No
16	2021-005122	Arborfield No. 456, RM of	Replace Two Steel Culverts at SE 01-46-12-W2	Replace the existing culvert with two corrugated steel culverts measuring 2,500 mm x 25 m to extend the estimated useful life of the asset and enhance the flood mitigation program. This replacement will increase water flow capacity, reduce flooding and erosion. This road is used by ratepayers and the general population living in the area.	Local Roads and Bridges	\$211,051.25	\$136,510.80	Yes
17	2021-005674	Archerwill, Village of	Construct Local Campground and Road	On the south side of town, west of Highway 35, a 121.9 m x 7.3 m gravel access road will be constructed along the north side of the bush. New campsites will be created by cutting into the bush to remove trees, have clay and gravel put down and the ground levelled to create three to six camping sites. This new campground will be available for tourists to stay during summer and act as a tourist attraction for the community.	Tourism Infrastructure	\$23,450.19	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
18	2021-005675	Archerwill, Village of	Install New Water Meter and Curb Stops	Install a water meter at the car wash and install curbs throughout the municipality to allow the village to isolate areas with issues so water does not need to be turned off to the whole village. Ten to 15 curb stops will be installed with this project, with more being installed at a later date.	Drinking Water	\$27,000.00	\$0.00	No
19	2021-005307	Arcola, Town of	Rehabilitate Water Main on Souris Avenue from Carlyle Street to Moose Street	The rehabilitation of 300 m of water main on Souris Avenue will include cleaning and then relining the existing pipeline with CPP (cured in place pipes) from Carlyle Street to Moose Street. This new technology offers many advantages such as reduced costs in comparison to the traditional open cut method, short construction times, minimal excavations, and reduced disruptions to residents. The main objective of the project is to reduce water main breaks.	Drinking Water	\$400,000.00	\$0.00	No
20	2021-005260	Argyle No. 1, RM of	Replace Seven Mile Bridge	Replace 7 Mile bridge with a 15 m x 8.5 m clear span bridge to widen the road to accommodate larger vehicles and increase capacity.	Local Roads and Bridges	\$294,044.00	\$123,268.50	Yes
21	1920-004838	Arm River No. 252, RM of	Reconstruct and Clay Cap 3.2 km of Grid 747	Reconstruct and clay cap 3.2 km of road on a primary grid by adding clay material to correct the side slopes and narrow the road top to the primary grid standard width and slope. It will include sub-cutting unsuitable material and adding geotextile prior to the addition of suitable clay material to the design grade height. The aging drainage infrastructure will be replaced with new corrugated steel pipes. The road top will have gravel incorporated into the top 75 mm prior to the placement of road gravel.	Local Roads and Bridges	\$268,684.30	\$0.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
22	2021-005797	Arran, Village of	Move Water Treatment Plant to Well Site	Relocate water treatment plant from current location (old school) into a sea-can that is closer to the well location.	Drinking Water	\$25,000.00	\$0.00	No
23	1920-005023	Asquith, Town of	Video Sewer Inspections on 4,450 m of Sewer Line	The video sewer inspection will determine the condition of the sewer mains, providing information on which sewer lines may need to be replaced and which may only require some repairs/maintenance and will inform the asset management plan. This inspection will also include flushing a section of the lines at a time before sending camera down. The total length of the sewer main in town is 4,450 m.	Capacity Building	\$24,687.50	\$24,687.50	Yes
24	2021-005664	Asquith, Town of	Fire Hall - Phase 2 - Energy Efficiency	The fire hall addition is being done in phases, with the energy efficiency being phase 2 and includes in-floor heating, boiler system, and poured cement floor. This will reduce energy use and overall operational costs. Fire hall is 367.7 sq m.	Community Energy Systems	\$600,000.00	\$0.00	No
25	1920-005000	Assiniboia, Town of	Upgrade Storm Drainage Systems	Storm system from the mid-1960s is unable to handle recent snow melt and rain events. This project will increase capacity of outfalls at 1st Avenue and 2nd Street West and at 1st Avenue and 1st Street East; upsize mains on 2nd Avenue East, 4th Street East, 3rd Avenue East, and Assiniboia Avenue to 450 mm; and, upsize main in Centre Street alley between 3rd and 4th Avenue East to 375 mm. New installations will include a 600 mm trunk in Centre Street, a new 900 mm outfall north of 1st Avenue and new catch basins at Empire Place, 5th Avenue East, 1st Avenue and 2nd Street West.	Wastewater	\$1,838,040.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
26	2021-005223	Avonlea, Village of	Complete Landfill Decommission and Build Transfer Station	Environmental site assessment of the current 90 m x 90 m landfill to determine the level of effort required to close and decommission the landfill including, drilling test holes, groundwater monitoring and sampling. Once assessment is complete a transfer station feasibility study and preliminary design will be completed, site closure and decommissioning plan will be developed. Once approval to decommission is received, a detailed 900 to 1,600 sq m transfer station design will be completed, tendered and constructed.	Solid Waste	\$1,511,400.00	\$0.00	No
27	2021-005388	Aylsham, Village of	Construct Guardrail for Culvert Crossing	A guardrail is required to be constructed to address safety requirements in an area where culverts have replaced a bridge at the north end of Main Street and 2nd Avenue. The guardrail measures 7.62 m of W-Beam, 15.24 m straight spanning each side of the crossing with 3.81 m wings transitioning to 71.12 cm buried ends.	Local Roads and Bridges	\$8,576.72	\$4,400.00	Yes
28	2021-006108	Baildon No. 131, RM of	Skyline Bridge Upgrade Phase 2 at ENE 17-15-25-W2	Install preservative (Cobra) rods to piles, band piles, install three new pile caps and shim piles, install plywood on backing planks, install 17 m of wood railing, wing rails, 15 m of wheel guard and seven new sets of posts and spacers.	Local Roads and Bridges	\$25,000.00	\$8,453.50	No
29	2021-006109	Baildon No. 131, RM of	Upgrade Baildon Bridge at SW 29-15-25-W2	Install preservatives (Cobra) rods in pile caps, six pile clamps and shim five piles, plywood to backing planks, two pile clamps on wing walls, 5 m of wood railing, 5 m of wheel guard and five complete sets of posts and spacers.	Local Roads and Bridges	\$26,000.00	\$11,448.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
30	2122-006147	Baldon No. 131, RM of	Replace South Boundary Woodbox Culvert with Three 16 m Steel Culverts	Replace a woodbox culvert that is structurally compromised with three 1,200 mm x 3.5 mm x 16 m steel corrugated culverts including excavating and removing woodbox structure, leveling bed for new culvert, installing new culvert, backfilling, installing geo-tech and riprap at inlet and outlet.	Local Roads and Bridges	\$83,309.64	\$83,309.64	Yes
31	2122-006159	Baldon No. 131, RM of	Upgrade Sparrow Bridge at NE 36-15-26-W2	Upgrade Sparrow Bridge by constructing temporary coffer dam, installing geotextile, replacing clay to provide 4:1 slope, and adding riprap to stop erosion to maintain the safety of the bridge.	Local Roads and Bridges	\$69,133.20	\$69,133.20	Yes
32	2021-005992	Balcarres, Town of	Upgrade Rink Lighting	Upgrade rink lighting to LED lighting to reduce overall energy usage.	Community Energy Systems	\$37,630.00	\$37,630.00	Yes
33	2021-006042	Balcarres, Town of	Repave 107 m of Main Street	The existing pavement was removed, and clay/gravel base was applied, formed, shaped and packed. 5.08 cm of cold mix asphalt will be applied on top of the base for a total distance of 107 m.	Local Roads and Bridges	\$18,032.35	\$18,032.35	Yes
34	2122-006286	Balcarres, Town of	Chip Seal Main Street from 507 Railway Avenue to 131 Main Street	Apply liquid asphalt to existing pavement then apply a layer of 1 cm crushed gravel (chips). The gravel is compacted and embedded into the asphalt. The chip seal will cover an area of 4,193 sq m.	Local Roads and Bridges	\$31,787.65	\$31,787.65	Yes
35	2021-006041	Balcarres, Town of	Repave 229 m of Lily Street	The existing pavement was ground and utilized as a base. 5.08 cm of cold mix asphalt will be applied on top of base for a total distance of 229 m.	Local Roads and Bridges	\$15,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
36	2122-006218	Balgonie, Town of	Walking Pathway Illumination 2021	Installation of power and 10 path lights on a recently constructed pathway along Highway 364. Three lights will illuminate the Town sign and four will be placed on existing poles. Costs include material and labor to install concrete piles. Costs for the Town sign lighting will be paid by the municipality.	Local Roads and Bridges	\$74,561.06	\$70,321.06	Yes
37	2021-005701	Bangor, Village of	Raise Village Hall Floor to One Height	Build up the middle of the village hall floor with 38 mm x 140 mm planks as there are currently two different heights in the main area. The entire floor will be sheeted tongue and groove with 19.05 mm oriented strand board and new vinyl plank flooring installed over an area of 288 sq m. These upgrades will ensure the area is accessible.	Recreational Infrastructure	\$30,125.00	\$0.00	No
38	2122-006291	Barrier Valley No. 397, RM of	Reclaim 1 km of Road 143W (Algrove Road)	Reclaim 1 km x 7.62 m of road. The existing pavement will be excavated, ground and used as a base. Stabilizer product will be milled into the road as a clay cap replacement.	Local Roads and Bridges	\$100,000.00	\$0.00	No
39	2021-005482	Battle River No. 438, RM of	Repave 6.38 km of Old Highway 4	Repave the remaining 6.38 km of the old Highway 4.	Local Roads and Bridges	\$1,186,400.00	\$74,115.74	No
40	2122-006137	Battleford, Town of	Construct a 665 m Walking Path on 15th Street	Construct new 665 m walking path by excavating 200 mm below grade, compacting sub-grade, installing geotextile, adding 150 mm of base aggregate to a width of 2.43 m, applying 50 mm of hot mix for width of 2.13 m, shaping with three per cent crown and adding 50 mm x 300 mm of topsoil to both sides of path.	Local Roads and Bridges	\$87,574.06	\$81,574.06	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
41	2122-006138	Battleford, Town of	Construct 320 m of Sidewalk on 1st Avenue and 2nd Avenue	New construction of 190 m of sidewalk on 2nd Avenue from 17th Street to 19th Street and 130 m on 1st Avenue from 22nd Street to 23rd Street.	Local Roads and Bridges	\$134,832.32	\$128,592.32	Yes
42	2122-006139	Battleford, Town of	Pave 175 m of 1st Avenue and Curb 120 m of Riverbend Place	Construct 175 m of new road along 1st Avenue between Campbell Innis Way and Battle Springs Drive, paved with 65 mm asphalt and a rolled curb and gutter, and construct 120 m of curbs on Riverbend Place.	Local Roads and Bridges	\$226,262.44	\$209,222.44	Yes
43	2122-006290	Battleford, Town of	Upgrade Water Treatment Plant SCADA System	Upgrade the water treatment plant SCADA system as the three PLC racks in the water plant are obsolete and no longer supported. Costs for the project include software and hardware upgrades.	Drinking Water	\$191,592.49	\$190,445.49	Yes
44	2122-006292	Battleford, Town of	Install Generator in Water Treatment Plant	Install an additional new generator for the water treatment plant to improve capacity and increase the volume of water treated. Includes generator, conduit and mobilization.	Drinking Water	\$160,350.00	\$159,350.00	Yes
45	2122-006343	Battleford, Town of	Upgrade 161 m of 3rd Avenue from 36th Street to Westbend	Remove old asphalt and curbs, excavate subgrade, replace curbs with rolled concrete, curb and gutter, replace 250 mm sub-base, replace 15 mm base, adjust manholes as required, replace 65 mm asphalt surface, apply tack coat and fog coats and finish with landscaping. Total length of road being upgraded is 161 m.	Local Roads and Bridges	\$102,000.00	\$0.00	No
46	2122-006344	Battleford, Town of	Construct New Sidewalk on 2nd Avenue	Construct a new 225 m x 2 m concrete sidewalk. Sub-base preparation, gutter patching and landscaping will be required and a total of six accessibility ramps will be constructed with the new sidewalk.	Local Roads and Bridges	\$145,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
47	2122-006345	Battleford, Town of	Pave 302 m of 5th Avenue West from Hwy 40 to Telegraph Road	Pave 302 m of road from Highway 40 to Telegraph Road. Construct rolled concrete curbs and gutters, shape, and compact existing base, apply tack coat, replace 65 mm asphalt, apply fog coat and finish with landscaping. Manholes and valves may require adjustment during construction.	Local Roads and Bridges	\$307,000.00	\$0.00	No
48	2122-006346	Battleford, Town of	Upgrade 637.7 m of Central Avenue from 15th Street to Campbell Innis Way	Strip 637.7 m x 8 m of road, apply tack coat and leveling course, apply 35 mm asphalt overlay and finish with a fog coat.	Local Roads and Bridges	\$150,000.00	\$0.00	No
49	2122-006347	Battleford, Town of	Replace Road on 200 Block of 23rd Street	Replace 219.82 m of road. Remove old asphalt, excavate subgrade, replace curbing with rolled concrete curb and gutter, replace 250 mm sub-base, replace 15 mm base, apply tack coat, replace 75 mm asphalt, apply fog coat, incorporate attached parking lot, and widen the road by 2 m.	Local Roads and Bridges	\$434,100.00	\$0.00	No
50	2021-005504	Beatty, Village of	Construct 172 m of New Ditching on South Side on 1st Street	Construct 172 m of new ditching on south side of 1st Street, including three 12.3 m culverts to allow the drainage of water.	Wastewater	\$6,467.87	\$6,467.87	Yes
51	2021-006094	Beatty, Village of	Installation of Seven Curb Stops	The Village plans to install seven new curb stops to residential water lines throughout the Village.	Drinking Water	\$7,000.00	\$757.90	No
52	2021-005928	Beaver Flat, Resort Village of	Pave Streets within the Resort Village	Pave 17,500 sq m of roads with 40 mm thick hot mix asphalt.	Local Roads and Bridges	\$279,300.89	\$29,796.81	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
53	2021-005981	Beaver River No. 622, RM of	Clay Cap Hieber Road	Clay cap included scarifying the existing road surface and removing all rocks from the surface. All soft/wet areas sub cut below existing surface and replaced with competent fill. Subgrade was bladed smooth, and a layer of clay material was placed over existing road in layers and spread evenly by a grader, then compacted. When complete, existing rock was re-spread along with new aggregate material. These actions stabilize the grade and improve the general quality of the road. Approximately 1.0 km abutting SW 31-60-25-W3.	Local Roads and Bridges	\$17,133.69	\$17,133.69	Yes
54	2021-005982	Beaver River No. 622, RM of	Clay Cap Kohl/Eshelman Road	Clay cap included scarifying the existing road surface and removing all rocks from the surface. All soft/wet areas sub cut below existing surface and replaced with competent fill. Subgrade was bladed smooth, and a layer of clay material was placed over existing road in layers and spread evenly by a grader, then compacted. When complete, existing rock was re-spread along with new aggregate material. These actions stabilize the grade and improve the general quality of the road. Approximately 1.0 km Township Road 625.	Local Roads and Bridges	\$23,377.49	\$23,377.49	Yes

66	2021-005581	Bienfait, Town of	Repave 178 m of Municipal Roads	The contractor would remove and dispose of old material, hole prep, tack oil and do paving. These works would increase the length of service life for these municipal roads. Work to be completed: 4.5 m x 4.5 m for 5 cm thick on Aldridge Street; a minimum of 2.5 cm on top of existing asphalt for an area of 1.5 m x 149 m adjacent to the curb on the south side of Bradley Avenue; and repave 2 cm of asphalt on Walsh Street for an area of 10 m x 24 m.	Local Roads and Bridges	\$41,934.66	\$41,934.66	Yes
67	2122-006148	Big Arm No. 251, RM of	Upgrade 1.6 km of Range Road 2262	Rehabilitate RRG 2262. Add clay material to correct the side slopes and narrow the road top to Primary Grid Standard width and slope. Includes sub-cutting unsuitable material and add geotextile prior to addition of clay to the design grade height. Replace aged drainage infrastructure with new corrugated steel pipes. Road top will have gravel incorporated to depth of 75 mm prior to placement of road gravel.	Local Roads and Bridges	\$70,000.00	\$0.00	No
68	1920-005056	Big River, Town of	Lay 8,500 tonnes of Asphalt on 6,300 sq m of Road	The Town of Big River laid approximately 8,500 tonnes of asphalt on the streets and avenues throughout the town. The road improvements included preparing site for laying 6,300 sq m of asphalt, mixing and spreading of the asphalt and approximately 10,000 sq m of milling. The project also entailed raising all manholes to grade and extension of valves prior to the asphalt being laid. Several culverts were installed, and ditches landscaped to allow for adequate drainage.	Local Roads and Bridges	\$1,122,768.82	\$414,188.05	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
69	2021-005829	Big Shell, Resort Village of	Reconstruct 210 m of Loon Drive	Rebuild 210 m of Loon Drive by excavating the road to base and then recap with clay and place road gravel (266 cu m) on top of base to prevent road from washing away.	Local Roads and Bridges	\$8,288.20	\$8,288.20	Yes
70	1920-005070	Big Stick No. 141, RM of	Upgrade 9.1 km of Royal Edward and Hutterite Road	Reconstruct 1.6 km of Hutterite Road by widening the surface to 9.2 m. Add 300 mm clay cap to 7.5 km of Royal Edward Road and construct crown with a four per cent cross slope to prevent flooding in the low spots. Install 29 steel culverts.	Local Roads and Bridges	\$470,107.34	\$59,713.00	Yes
71	1920-004730	Biggar No. 347, RM of	Upgrade 3.2 km of Whiteshore Oban Grid	Improve existing road from a summer road to an all-weather road by raising road 1 m, widening from 22 m to 33 m, correcting the crown, and gravelling.	Local Roads and Bridges	\$306,675.29	\$194,574.12	Yes
72	1920-004684	Biggar, Town of	Expansion of a Class II Non-hazardous Landfill at NE 32-35-14-W3	Expansion of landfill by adding a new cell to increase capacity and decrease greenhouse gas emissions. This is phase 1 of 3 and the new cell will have a waste footprint of 0.32 hectares.	Solid Waste	\$708,000.00	\$0.00	No
73	1920-004901	Birch Hills No. 460, RM of	Upgrade 99 Shop Lights to LED	Upgrade 99 lighting units in the RM shop to LED for energy and cost efficiency.	Community Energy Systems	\$8,527.75	\$7,138.04	Yes
74	2021-005098	Birch Hills No. 460, RM of	Upgrade Birch Hills Fire Hall Roof	Upgrade fire hall roof with new metal and insulation to promote energy efficiency as less heat will be lost through the roof. The Rural Municipality of Birch Hills and the Town of Birch Hills jointly own the fire department. This project is for 50 per cent of the costs.	Community Energy Systems	\$42,811.28	\$12,939.95	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
75	2021-006071	Birch Hills No. 460, RM of	Install Generator at Brancepeth Water Plant	Purchase and install a generator for the water plant located in the Hamlet of Brancepeth. This will help prevent water pressure loss in the event of a power outage. Pressure loss may compromise the water quality.	Drinking Water	\$8,132.00	\$8,132.00	Yes
76	2021-006111	Birch Hills No. 460, RM of	Upgrade Two Energy Efficient Furnaces in Municipal Office	Replace two furnaces in the RM office with upgraded highly efficient furnaces to increase the energy efficiency of the building.	Community Energy Systems	\$7,137.79	\$7,137.79	Yes
77	2122-006160	Birch Hills No. 460, RM of	Upgrade Hagen Water Plant Electrical System	Upgrade the electrical wiring in the Hamlet of Hagen water plant to increase the useful life. This includes labour and materials needed to rewire the water plant including light fixtures, plugs, pump wiring and wiring to the generator for power outages, as well as moving the electrical service underground.	Drinking Water	\$19,117.41	\$19,117.41	Yes
78	2122-006307	Birch Hills No. 460, RM of	Upgrade 15 Windows in RM Office Building	Upgrade 15 windows in RM office building with new energy efficient windows. The replacement of these windows with new triple-paned Energy Star Certified windows will result in the reduction in loss of energy as well as a reduction in utility costs and emissions.	Community Energy Systems	\$10,480.47	\$10,480.47	Yes
79	1819-004471	Birch Hills No. 460, RM of	Develop Official Community Plan and Zoning Bylaw in Support of Asset Management	Develop an Official Community Plan and update the Zoning Bylaw to work in conjunction with the asset management plan by determining locations where infrastructure demands are greater or lesser. Identifying the levels of service for potential infrastructure development areas.	Capacity Building	\$32,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
80	1920-004761	Birch Hills, Town of	Development of New Multi-Use Facility	Renovations to a vacant 455.2 sq m building to house the Senior Citizen Recreation Club, Wapiti Regional Library and Birch Hills Lions Club including new floor plan, upgrades to electrical, heating and plumbing. The upgrades include energy saving methods and accessibility standards.	Recreational Infrastructure	\$472,873.23	\$20,959.74	Yes
81	2021-005177	Bird's Point, Resort Village of	Repave 470 m of 1st Avenue West	Excavate existing pavement and then shape and repave 470 m of 1st Avenue West keeping the 6.6 m road top with 60 mm of asphalt.	Local Roads and Bridges	\$52,639.60	\$22,885.80	Yes
82	2021-005178	Bird's Point, Resort Village of	Repave 1,100 m of Currie Avenue	Excavate existing pavement and then shape and repave 1,100 m of Currie Avenue (from #66 - #82), keeping a 6.6 m road top with 60 mm of pavement.	Local Roads and Bridges	\$44,520.00	\$44,520.00	Yes
83	2021-005955	Bjorkdale No. 426, RM of	Replace Three Bridges with Culverts	Replace three bridges at SW 14-45-10-W2, NE 09-45-10-W2 and SW 13-45-10-W2 with culverts. All three bridges are in very poor condition and have been restricted to three tonnes as per engineer's recommendations. Galvanized steel pipes will be installed at each site with the following dimensions: one bridge 1,800 mm x 2 mm x 9 m x 2 culverts and two bridges 1,800 mm x 2 mm x 16 m culvert each.	Local Roads and Bridges	\$214,655.28	\$214,655.28	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
84	2021-005668	Bladworth, Village of	Upgrade 65 m of 4th Street	Upgrade 65 m x 5 m of road on 4th Street between 6th and 7th Street by increasing the street elevation to 50 cm and grading to each driveway at a 4 to 1 slope, with the resulting road being graveled. An area on 9th Street also had the elevation increased to ensure appropriate water run-off after rain. This road work was completed after work was done to the village's water and wastewater systems.	Local Roads and Bridges	\$9,874.07	\$7,624.07	Yes
85	2021-005527	Blaine Lake, Town of	Construct New Water Treatment Plant	The town is undertaking the construction of a Reverse Osmosis Water Treatment Plant including the water plant building and the drilling of two new wells. This project is partially funded by the New Building Canada Fund.	Drinking Water	\$778,582.82	\$214,995.15	No
86	2021-005929	Blucher No. 343, RM of	Upgrade 7.24 km of Grid Road South of Highway 763	Surveying, pulling up the road, clay capping, culvert installation, and incorporating aggregate into a 7.24 km-stretch of grid road south of Highway 763.	Local Roads and Bridges	\$700,000.00	\$659,254.14	No
87	2021-005312	Bone Creek No. 108, RM of	Construct New Clearing the Path Corridor at S 05-10-16-W3	Construct 8 km grid road with 8.6 m top to provide heavy haul clearing the path corridor. 29 culverts were placed (26 x 500 mm, 2 x 900 mm, and 1 x 800 mm).	Local Roads and Bridges	\$563,376.09	\$166,176.90	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
88	2021-006075	Borden, Village of	Upgrade 110 m Water Main Loop, Main Valves and Curb Stops	Install a new water main line between Shepard and Main Streets running under 1st Avenue to provide more options to isolate areas in the event of a breakage and to better maintain pressure throughout the system. Install approximately 110 m of new 150 mm PVC water main, three new 150 mm main valves, including valve boxes and rods for the surface, and saddles to attach the new line to the old lines on both ends. At the west dig site on 1st Avenue upgrade a storm water catch basin and six curb stops.	Drinking Water	\$44,576.45	\$3,516.54	No
89	2021-006076	Borden, Village of	Well Site PLC Upgrade	Well site programmable logic controllers (PLCs) are no longer supported and an upgrade to the latest hardware is recommended. Replacements for the existing PLCs are difficult to procure and costly. We would replace the existing Twido PLCs with M221 PLCs at both (2) well sites, update electrical drawings, convert the existing well site programs and receive remote commissioning support from an automation engineer.	Drinking Water	\$8,798.00	\$0.00	No
90	2122-006171	Borden, Village of	Upgrade SCADA System at Water Treatment Plant	Upgrade SCADA system including hardware and software. A backup hard drive will be installed which would provide a restoring method if computer hardware failed.	Drinking Water	\$19,760.01	\$0.00	No
91	1112-002174	Bracken, Village of	Water Treatment Plant Upgrade	Upgrade to the water treatment plant including rewiring of the plant to bring it up to fire code as well as installing up-to-date equipment in the plant and dugout.	Drinking Water	\$10,000.00	\$2,931.35	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
92	1819-004544	Bracken, Village of	Develop an Asset Management Plan	Development and implementation of infrastructure management, including asset management plans, for the infrastructure of the Village of Bracken. Priority will be to complete the water network. Includes training and software.	Capacity Building	\$5,000.00	\$0.00	No
93	1213-002668	Bratt's Lake No. 129, RM of	Bridge Replacement with Large Dimension Culverts	Replace a wooden bridge on a municipal road with large diameter culverts. <i>(Reversal of expenditure previously allowed as the IIP is now withdrawn).</i>	Local Roads and Bridges	\$0.00	(\$7,329.72)	N/A
94	1920-004813	Bredenbury, Town of	Upgrade Energy Efficiency of Fire Hall	Retrofitting existing building to new fire hall, includes upgrading to energy efficient doors, windows, lighting and furnace.	Community Energy Systems	\$225,299.27	\$63,103.57	Yes
95	2021-005573	Bredenbury, Town of	Install Back-up Generator at Water Treatment Plant	Install a stand-by automatic start-up generator at the water treatment plant so that when the power goes off the distribution pump continues to function.	Drinking Water	\$54,747.86	\$54,747.86	Yes
96	2021-005575	Bredenbury, Town of	Install Weeping Tile at Community Hall	Install weeping tile at Bredenbury Community Hall to prevent water seeping into it annually. The hall measures 9.75 m x 30.48 m.	Recreational Infrastructure	\$17,755.00	\$7,755.00	Yes
97	2021-005576	Bredenbury, Town of	Install Two Hot Water Tanks at Bredenbury Rink	Install two on-demand hot water tanks at the Bredenbury rink to save energy and provide hot water for users of the facility and ice flooding.	Recreational Infrastructure	\$9,618.55	\$9,618.55	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
98	2021-005736	Briercrest, Village of	Upgrade Municipal Shop Energy Efficiency	To upgrade the maintenance shop to become more energy efficient by insulating the walls with R-24 batt, replace the old overhead door to an insulated 3.7 m x 2.7 m overhead door, replace the four incandescent light bulbs with new LED energy efficient lights which help with the reduction of the overall energy costs by two per cent each month.	Community Energy Systems	\$15,291.04	\$15,291.04	Yes
99	2021-005737	Briercrest, Village of	Upgrade Railway Avenue	Upgrade includes trenching and installing 122 m of 10.2 cm weeping tile on Railway Avenue from 135 Railway to First Street and along the half block of First Street to sewer line. Also, place 11.8 m of radon rock, 12.8 m of pea gravel on top of the weeping tile to help filter sediment and help with drainage. Then 27 m of gravel was added to give a base to the road to extend service life approximately ten years.	Local Roads and Bridges	\$4,599.98	\$4,599.98	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
100	2122-006271	Briercrest, Village of	Upgrade Water Pump and Backup Generator at Water Treatment Plant	Upgrade the conventional centrifugal water pump in the waterworks building to a submersible pump controlled by a frequency drive, to allow the consistent flow of water to the reservoirs. This helps with the water supply to the residents and truck fill at a more constant flow and maintains a more consistent water pressure. Upgrade the conventional portable generator to a 6,500-watt inverter generator. This will help to protect the delicate electrical components on the frequency drive for the submersible pumps, which will help supply drinking water to the residents when there is a power outage without causing loss of pressure which could affect the water quality.	Drinking Water	\$20,967.00	\$12,776.80	No
101	2021-005884	Britannia No. 502, RM of	Repave 9.6 km of Township Road 514	Repave 9.6 km of Township Road 514 from Range Road 3264 to Range Road 3254. Construct sub-base and base using 9,100 tonnes of type 33 base course and 20,600 tonnes of hot mix asphalt.	Local Roads and Bridges	\$1,885,443.79	\$897,957.45	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
102	2021-005604	Broadview, Town of	Repave Multiple Municipal Roads	Repave 5 cm hot mix pavement overtop asphalt from the 1980s. Work includes repair of failures in existing surfaces, cold plane along gutters, manhole and valve adjustments to grade, level dips with hot mix asphalt, and recap 5 cm hot mix asphalt pavement. Locations include Morley Street, Calgary Street and Edmonton Street for 152 m by 9 m each, east of North and South Front Street for 76 m by 9 m, North Front Street from Qu'Appelle Road to 10th Avenue for 276 m by 9 m and 10th Avenue from North Front Street to museum for 157 m by 9 m. This overlay will prevent further breakdown of the existing pavement averting ripping up and disposing of the old pavement and laying all new pavement. Greenhouse gas emissions reductions by reducing maintenance.	Local Roads and Bridges	\$175,635.00	\$175,635.00	Yes
103	2021-005844	Brock No. 64, RM of	Restore 12.1 km of Correction Line - Township Road 70	Resurface 12.1 km of Correction Line Road by removing all rock, repacking (possibly adding) clay, and restoring surface gravel.	Local Roads and Bridges	\$150,000.00	\$0.00	No
104	2021-005082	Brock, Village of	Upgrade Community Hall	Upgrades include replacing flat roof with peaked roof, insulating roof, replace and insulate interior ceiling, insulate, and replace interior outside walls, updated wiring, LED lights, new flooring, and doors on 785 sq m building.	Recreational Infrastructure	\$53,580.78	\$53,580.78	Yes

105	1920-004781	Broderick, Village of	Upgrade Fill Station	Upgrade the drinking water fill station at the water treatment plant to accept electronic fobs instead of coins. Includes fill station hardware package, fob reader and fobs.	Drinking Water	\$3,666.22	\$3,666.22	Yes
106	2021-005648	Brokenshell No. 68, RM of	Replace Bridge at ESE 20-08-17-W2 with Large Culverts	Remove a single span 6 m bridge at ESE 20-08-17-W2 and replace with three 20 m x 2,400 mm x 2.8 mm culverts.	Local Roads and Bridges	\$43,323.43	\$0.00	No
107	2021-005366	Brownlee, Village of	Retrofit Village Office Building	Install new wrap and vinyl siding, aluminum soffit and fascia, and one rear steel energy efficient door on the village office building to improve energy efficiency and reduce costs.	Community Energy Systems	\$10,309.56	\$10,309.56	Yes
108	1617-004097	Brownlee, Village of	Install Sidewalk Entry to Senior Citizens Hall	Install new sidewalk to Senior Citizens Centre as the existing sidewalk and curb is very rough in front of the building and we would like to establish a clean line from the street to the entry way of the building.	Local Roads and Bridges	\$10,000.00	\$0.00	No
109	1920-005020	Bruno, Town of	Install New Water Treatment Plant Distribution Pump with Variable Frequency Device	To ensure no disruption of service and avoid any issues with drinking water supply, including boil water advisories, the town has replaced an old pump with a 10 HP distribution pump and motor. A variable frequency device has also been installed to conserve energy during lower or higher demand times.	Drinking Water	\$57,809.02	\$57,809.02	Yes
110	1920-005021	Bruno, Town of	Replace Hall Furnace with High Efficiency Furnace	The community hall furnace was replaced with a high efficiency furnace to reduce energy consumption.	Community Energy Systems	\$8,022.08	\$8,022.08	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
111	1920-005027	Bruno, Town of	Replace Furnace, Water Heater, and Install Radiant Heater in Archery Range	The archery range furnace will be replaced with a high efficiency furnace. The water heater has also been replaced with a new electric heater. As well, a new radiant tube heater was installed in the range. These appliances are more energy efficient than the appliances they replaced.	Community Energy Systems	\$9,858.00	\$9,858.00	Yes
112	2021-005496	Bruno, Town of	Replace Library Roof	Replace the flat tar-paper roof with a tin roof, adding some slope for rain and snow to run off. Roof measures 14.6 m x 9.8 m. This upgrade will improve the energy efficiency of the building.	Community Energy Systems	\$17,636.79	\$17,636.79	Yes
113	2021-005900	Bruno, Town of	Replace Rink Basement Furnace with High Efficiency Furnace	Replace basement rink furnace with a high efficiency furnace to reduce energy consumption.	Community Energy Systems	\$5,088.00	\$5,088.00	Yes
114	2021-005901	Bruno, Town of	Upgrades to Bulk Water System at Water Treatment Plant	Upgrades to the bulk water system will include piping and valve replacement, replacement of current deteriorating copper pipes to stainless steel, new slow close valve to stop water hammering and damage to pipes and system, coin system to be replaced with electronic system in order to ensure consistent supply and accurate metering to reduce waste.	Drinking Water	\$10,697.46	\$10,697.46	Yes
115	2122-006319	Bruno, Town of	Construct Dog Park	Construct a new 3,120 sq m off leash dog park with 224 m of chain link fencing, seating, and a garbage receptacle (cemented in place) with grass or clover used as a ground cover. This eliminates the need for weed control, maintenance and creates a new service (park).	Recreational Infrastructure	\$17,315.07	\$17,315.07	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
116	2122-006320	Bruno, Town of	Upgrade Lift Station at NE 09-38-25-W2	Upgrades to sanitary sewer lift station including new lagoon valve, pump trail system, natural gas heating (previously electric) and upgrades to building resulting in a more reliable system, increased safety and less energy used in heating and running pumps.	Wastewater	\$104,564.00	\$13,352.96	No
117	0708-001169	Buchanan No. 304, RM of	Upgrade Four Bridges	Upgrade four existing bridges within the municipality at ESE 19-32-04-W2; NNW 19-32-04-W2; NNW 35-31-04-W2; NNE 24-31-04-W2.	Local Roads and Bridges	\$100,474.20	\$23,760.20	No
118	2021-005263	Buchanan No. 304, RM of	Upgrade Office Window and Door for Energy Efficiency	Upgrade front office window and door for energy efficiency.	Community Energy Systems	\$3,594.64	\$3,594.64	Yes
119	2122-006177	Buchanan No. 304, RM of	Upgrade 1.6 km of Road and Install Two Culverts at W 31-33-05-W2	Buildup 1.6 km of road at W 31-33-05-W2 by 0.6 m. Install two culverts measuring approximately 400 mm x 15 m and 500 m x 15 m with two- to four-metre extensions added to existing culverts along this road.	Local Roads and Bridges	\$84,190.50	\$84,190.50	Yes
120	2021-005262	Buchanan No. 304, RM of	Upgrade 1 km of Tiny Grid at W of NW 24-31-05-W2	Rebuild 1 km of the Tiny Grid by building up the road another 0.6 m, reshaping crown, and replacing an 800 mm x 20 m steel culvert to service truck traffic to and from area farms.	Local Roads and Bridges	\$60,000.00	\$0.00	No
121	2021-005264	Buchanan No. 304, RM of	Upgrade Well Pumps and Accessories	Replace well pump and accessories so that well can function again.	Drinking Water	\$2,500.00	\$0.00	No
122	2122-006176	Buchanan No. 304, RM of	Upgrade Overhead Shop Doors	Upgrade overhead shop doors with T-175 insulated doors with openers to save energy.	Community Energy Systems	\$16,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
123	2021-005232	Buchanan, Village of	Replace 12 Curb Stops and 2 Water Hydrants	Replace twelve curb stops and two water hydrants to improve the water distribution system.	Drinking Water	\$36,000.00	\$8,567.45	No
124	2021-006034	Buchanan, Village of	Highway 5 Ditching Project	The ditch running along Highway 5 was swaled 76.2 m - 91.4 m to aid water run-off. At the north end of Central Avenue, a 13.7 m x 400 mm culvert was installed. A 9.1 m x 400 mm culvert was installed at the cemetery entrance and a 10.7 m x 400 mm culvert installed on 2nd Avenue East.	Wastewater	\$15,539.30	\$15,539.30	Yes
125	1819-004534	Buckland No. 491, RM of	Complete an Asset Management Plan	Hire contractor to complete asset management plan by assisting in preparation and input of asset information into asset management software, working with municipal foreman, council and agencies as required, and documentation of operations and maintenance programs for each asset class. Information input includes maintenance and repair costs of assets and initial review and condition rating and useful life assigned to individual assets. Project also includes training of permanent staff and provide updates to Council.	Capacity Building	\$45,000.00	\$45,000.00	Yes
126	2021-005483	Buckland No. 491, RM of	Replace Buckland Bridge at NE 03-49-27-W2	Replacement of the existing 30.4 m treated timber bridge with a new precast concrete and steel bridge. The scope of the project will include the dismantling and disposal of the existing structure, the installation of a new steel and/or concrete substructure and the construction of the bridge approaches.	Local Roads and Bridges	\$2,067,408.48	\$433,300.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
127	1920-004627	Buckland No. 491, RM of	Gobeil Road Bridge Replacement	Replace a bridge on one of main north/south feeder roads to avoid a road closure. The bridge replacement will be a three-span 18.29 m long bridge with a 7.32 m wide deck. Located at ENE 28-50-25-W2.	Local Roads and Bridges	\$550,000.00	\$0.00	No
128	2021-005653	Buena Vista, Village of	Repave 6th Street	Repave 287 m of 6th Street which consisted of lowering the grade of the south section of 6th Street, shaping, and compacting all of 6th Street and supplying and placing 80 mm of hot mix surface the entire length starting from the south end of 6th Street ending at Buena Beach parking lot.	Local Roads and Bridges	\$135,229.50	\$77,583.72	Yes
129	2021-005654	Buena Vista, Village of	Replace Water Meters and Gate Valves	Replace 300 non-functional water meters with an automated meter reading system equipped with radio frequency. This will provide accurate water consumption readings. Replace approximately 25 gate valves throughout the village to ensure ability to limit the area being impacted by water service disruption.	Drinking Water	\$268,233.68	\$180,271.68	Yes
130	2021-005919	Buffalo No. 409, RM of	Clay Cap 0.8 km of Grid Road 656 at NE 15-41-17-W3	Clay cap approximately 0.8 km of Grid Road 656. Approximate quantity of material required from borrow pits is 3,822 cu m. The project includes clay capping, stripping, grabbing, and reclaiming borrow pits; grading and finishing road; and cutting and finishing slopes.	Local Roads and Bridges	\$36,998.81	\$36,998.81	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
131	2021-005920	Buffalo No. 409, RM of	Clay Cap 1.6 km of Grid Road 656 at E 34-41-17-W3	Clay cap approximately 1.6 km of Grid Road 656. Approximate quantity of material required from borrow pits is 11,468 cu m. The project includes clay capping; stripping, grabbing, and reclaiming borrow pits; grading and finishing road and cutting and finishing slopes.	Local Roads and Bridges	\$110,957.60	\$110,957.60	Yes
132	2021-005921	Buffalo No. 409, RM of	Clay Cap 1.6 km of Grid Road 656 at E 27-41-17-W3 and Portion NE 22-41-17-W3	Clay cap approximately 1.6 km Grid Road 656. Approximate quantity of material required from borrow pits is 11,468 cu m. The project includes clay capping; stripping, grabbing, and reclaiming borrow pits; grading and finishing road and cutting and finishing slopes.	Local Roads and Bridges	\$110,956.54	\$110,956.54	Yes
133	2021-005754	Cadillac, Village of	Install 52 to 57 Curb Stops	Install curb stops at each property in the municipality. Approximately 57 curb stops will be required in total, with approximately 52 properties currently missing individual curb stops for effective isolated water shut-off. Costs include freight, curb stops, service box and rods, liners and labour.	Drinking Water	\$50,245.90	\$4,586.40	No
134	2021-005782	Calder No. 241, RM of	Asset Management Development	Hire an outside contractor to complete tangible capital asset register including completing the road network and the culvert inventory and finalizing the full asset registry.	Capacity Building	\$50,000.00	\$3,433.25	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
135	1819-004504	Calder No. 241, RM of	Upgrade 12 km of Municipal Back Road	Upgrade back access roads to secondary road standards to accommodate larger equipment. Work includes addressing ditch slope issues and top width to 7 m where needed, building up roads, clay capping and graveling where necessary, and clearing road allowances. One 1,200 mm x 15 m steel culvert and two 450 mm x 15 m steel culverts to be installed.	Local Roads and Bridges	\$35,000.00	\$0.00	No
136	2021-005397	Calder, Village of	Install Seven Curb Stops	Install curb stops in seven locations in the village to facilitate water shut offs. When the water infrastructure was added to the village, no curb stops were installed. This makes it impossible to control the shutdown of sections of the village for infrastructure repair without shutting down the water plant itself, causing a boil water advisory to be issued for the community.	Drinking Water	\$28,000.00	\$0.00	No
137	2021-005851	Cana No. 214, RM of	Clay Cap 1.6 km of Otthon Road	Place a 30 cm clay cap on Otthon Road (Township Road 244) from Range Road 2055 to Range Road 2054 for a total distance of 1.6 km and reduce road width from 8.23 m to 7.5 m. Includes replacement of culvert, addition of clay and gravel.	Local Roads and Bridges	\$100,607.66	\$100,607.66	Yes
138	1920-005068	Cana No. 214, RM of	Upgrade CTP Primary Weight Range Road 2062	Approximately 5.6 km of the CTP Primary Weight Road will be mulched down and 1,500 sq m of new material hauled to rebuild. Three deteriorating spots will be clay capped with 2,300 sq m of clay. This renewal is anticipated to extend the useful life of the road 10-15 years and significantly reduce maintenance costs.	Local Roads and Bridges	\$12,351.60	\$0.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
139	2021-005313	Canaan No. 225, RM of	Construct New Road to Meadow Bay Estates	Construct a new road to access a new subdivision. The road is 2.7 km x 8.0 m. Construction will include excavation and grading to create new road structure. Multiple culverts of various sizes, 400 mm, 500 mm, and 600 mm, for a total of 193 m will be placed at six different locations.	Local Roads and Bridges	\$285,870.66	\$60,874.20	Yes
140	1920-004768	Candle Lake, Resort Village of	Candle Lake Trail Signs	Ensuring safety of three high traffic intersections, especially along the walking trails, by installing solar powered cross walk lights and signage.	Local Roads and Bridges	\$60,000.00	\$13,864.38	No
141	1920-004769	Candle Lake, Resort Village of	Upgrade Candle Lake Community Hall Phase 3	Numerous improvements for the Seniors Hall located on the upper floor of the Community Hall including upgrading flooring on 235 sq m, enclose bar area, upgrade electrical throughout, install four sinks in kitchen to meet health codes, upgrade cabinets and counters, install janitor closet, and make two bathrooms handicap accessible.	Recreational Infrastructure	\$200,000.00	\$10,989.15	No
142	1920-004770	Candle Lake, Resort Village of	Upgrade and Repave 1,450 m of Roadway	Remove road top, apply Geotech fabric, rebuild and pave to correct crown, with Lakeview Drive (870 m) being widened. Roads impacted: Fairway Drive (330 m), Main Street (150 m) and Simon Lahne Drive (100 m).	Local Roads and Bridges	\$300,000.00	\$87,692.87	Yes
143	1920-004771	Candle Lake, Resort Village of	Construct a 120 m Trail Along Highway 265	Construct a 120 m x 1.5 m gravel trail along Highway 265 between Marina Drive and Handerson Place/Main Street to enable pedestrian traffic to be rerouted off the highway which is currently the only available route.	Local Roads and Bridges	\$70,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
144	2021-005225	Canora, Town of	Rebuild Two Electric Pumps at Water Treatment Plant and Reservoir	The project involves the rebuilding of a 1050 USGPM electric backwash pump at the water treatment plant and a 360 USGPM electric distribution pump at the reservoir. These pumps will provide for alternating pump usage to preserve the lifespan and mitigate service disruptions.	Drinking Water	\$69,384.00	\$55,994.00	Yes
145	2021-005227	Canora, Town of	Upgrade Water Treatment Plant Effluent Processing System	The project will include the installation of a system to treat the backwash effluent that is produced from rinsing the filters at the water treatment plant before the waste product is released into the environment. The equipment will remove chlorine and dissolved solids from the backwash discharge. The raw effluent is currently discharged into a natural drainage location without any processing and its release in this untreated form no longer complies with environmental standards.	Wastewater	\$350,000.00	\$300,000.00	Yes
146	2122-006223	Canora, Town of	Construct New Aquatic Park	Construct a new aquatic park to include lane swimming pool, leisure swim area, zero-depth entrance, change room, washroom, office and maintenance building, parking lot, spectator seating and viewing area, and surrounding grounds.	Recreational Infrastructure	\$2,065,000.00	\$104,062.00	No
147	2021-006100	Canwood No. 494, RM of	Apply Soil Stabilizer to 5 km of Victoire Grid Road at 01,12,13-52-08-W3	Reconstruct road top by incorporating MG30, soil stabilizer to about 5 km of clearing the path road to strengthen the road surface and extend the life of the road.	Local Roads and Bridges	\$373,556.51	\$189,934.51	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
148	2021-005083	Canwood No. 494, RM of	Conversion of Hilldrop Bridge to Two 20 m x 3600 mm Culverts	Replace the Hilldrop Bridge with two 20 m x 3,600 mm corrugated steel culverts on Range Road 3051, which is a heavy haul road with high amounts of traffic. This main corridor provides access from northern communities to the city centers for employment, healthcare and the necessities of life.	Local Roads and Bridges	\$400,000.00	\$0.00	No
149	2021-005669	Canwood, Village of	Reline 87.8 m Sewer Line Between Manholes 25 to 26	Reline 87.8 m of deteriorated sewer line between Manhole 25 to Manhole 26 with a no-dig trenchless technology. This will allow for better unobstructed movement of wastewater, while restricting the entrance of groundwater to the sewer system, reducing the potential environmental impact to surrounding areas.	Wastewater	\$53,205.85	\$53,205.85	Yes
150	2021-005188	Carievale, Village of	Upgrade Water Treatment Plant Building	Upgrade water treatment plant building in preparation for new reverse osmosis system installation. Includes addition of a cement pad, access door, two valves and a storage tank.	Drinking Water	\$14,824.00	\$14,685.75	Yes
151	2021-005659	Carlyle, Town of	Replace Railway Avenue Bridge with Three Culverts	The existing failing bridge structure will be removed and replaced with three 18 m x 1,260 mm diameter corrugated steel pipe culverts embedded by 200 mm into the creek bed.	Local Roads and Bridges	\$339,238.25	\$339,238.25	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
152	2021-005660	Carlyle, Town of	Rebuild Carlyle Avenue East	Rebuild 149 m by 9 m of Carlyle Avenue East. Work includes grading, digging out and hauling away 0.6 m of clay road top, placing Geotech fabric, fill and compacting. 206 linear meters of asphalt curb will be removed and replaced with concrete curbing. 7.62 cm of hot mix asphalt will be placed on 152 m x 9 m of road from 5th Street East to Manor Bay.	Local Roads and Bridges	\$98,543.96	\$98,543.96	Yes
153	2021-005661	Carlyle, Town of	Widen 7th Street East by 3.05 m	7th Street East was widened by 3.05 m (to make the road 9.1 m wide) for 307.85 m in length. This widening will allow for two lane traffic.	Local Roads and Bridges	\$29,680.00	\$29,680.00	Yes
154	2021-006101	Carmichael No. 109, RM of	Replace Bridge on Grid 633 with Culverts at NE 33-11-21-W3	Replace single span 6 m x 8.5 m bridge with two 1,800 mm x 3.5 mm x 24 m steel culverts.	Local Roads and Bridges	\$46,245.85	\$46,245.85	Yes
155	1920-004911	Carnduff, Town of	Install a 185 m Secondary Water Line	Provide a 185 m second water line leading into town utilizing 250 mm HDPE DR 11 pipe. A second water line will ensure residents have access to clean drinking water in case there is a main water line break.	Drinking Water	\$341,699.00	\$104,307.68	No
156	2021-005277	Caronport, Village of	Replace Two Hydrants	Replace two fire hydrants to conduct unidirectional flushing of the water mains to provide clean drinking water to residents.	Drinking Water	\$9,560.02	\$2,981.66	Yes
157	2021-005278	Caronport, Village of	Purchase and Install 134 Water Meters	Purchase and install 134 new water meters at the properties that do not have a meter installed within the Village of Caronport.	Drinking Water	\$66,116.55	\$47,508.67	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
158	1213-002390	Caronport, Village of	Upgrade Village Drainage Phase 1 and 2	Design and construct phase 1 and 2 (of 3) of a drainage system to protect the village from flooding during run off or flooding events. This will be accomplished through the construction of drainage ditches and installation of culverts at various locations throughout the village.	Wastewater	\$374,351.38	\$0.00	Yes
159	2021-005296	Caronport, Village of	Construct Three Asphalt Pathways	Construction of three walking paths to provide connectivity within the community. Comprises an area of approximately 797.16 sq m, paved with 50 mm asphalt surface which includes applying a tack oil coat and an asphalt mat.	Local Roads and Bridges	\$34,256.25	\$0.00	No
160	2021-005197	Chaplin No. 164, RM of	Clay Cap 2.4 km of Range Road 3050	Reconstruct and clay cap 2.4 km of road between SE 01-18-05-W3, NE 36-18-05-W3, SE 36-18-05-W3 and SW 06-18-04-W3, NW 31-18-04-W3, SW 31-18-04-W3 on Range Road 3050. The project includes building up 2.4 km of road by applying 30.5 cm to 45.7 cm of clay on top and then graveling the completed surface.	Local Roads and Bridges	\$68,982.15	\$50,690.25	Yes
161	1718-004247	Chaplin, Village of	Decommission Landfill	Decommission landfill including a hydrogeological study, development of decommissioning plan (topographical survey, engineering), and actual decommissioning including covering, packing and shaping with positive surface drainage.	Solid Waste	\$55,222.00	\$5,233.50	No
162	2021-005169	Chaplin, Village of	Upgrade Well Pump and Replace 1,077 m of Water Line	Replace well pump, surrounding water lines, and fittings and replace 1,077 m of the pipeline with 150 mm HDPE DR17 from the well to the water plant.	Drinking Water	\$139,068.87	\$105,827.14	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
163	2021-005843	Chester No. 125, RM of	Reconstruct 3.22 km of Road at S 04 and 05-15-07-W2	Reconstruct 3.22 km of road to primary grid standards. Add 0.3 m clay lift to the top of road. Finished road top will be 8.6 m wide with 4:1 side slope.	Local Roads and Bridges	\$180,359.00	\$125,311.00	Yes
164	2021-005988	Chitek Lake, Resort Village of	Water Treatment Plant Upgrades	Water treatment plant upgrade including media replacement, water filter replacement, back washing system replacement and labour.	Drinking Water	\$35,519.71	\$35,519.71	Yes
165	2021-005990	Chitek Lake, Resort Village of	Install 36 LED Lights in Chitek Lake Community Hall	Install 36 LED lights on ceiling in Community Hall to increase energy efficiency and attract more events / bookings.	Community Energy Systems	\$5,032.50	\$5,032.50	Yes
166	2021-005991	Chitek Lake, Resort Village of	Purchase of Two Septic Trucks	Purchase of two used septic trucks to maintain septic service.	Wastewater	\$14,383.34	\$14,383.34	Yes
167	2021-005171	Choiceland, Town of	Conduct Environmental Site Assessment of the Landfill	Conduct an environmental site assessment for the closed municipal landfill.	Solid Waste	\$36,409.98	\$6,630.27	Yes
168	2021-005673	Choiceland, Town of	Install Back-up Generator System in the Well House	Install back-up generator for the main town well and the municipal water distribution system. Costs include purchase and installation of the generator as well the concrete pad, gas fitters and transfer switches.	Drinking Water	\$31,000.00	\$26,024.06	No
169	2122-006158	Choiceland, Town of	Install Water Services for New Subdivision	Extend water services from the west end of Railway Avenue to the north end of 5th Street West to provide service to a current homeowner as well as future development by installing 975 m of 50 mm CSA poly pipe, four curb stops and two flushing hydrants.	Drinking Water	\$27,000.00	\$24,687.21	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
170	2021-005580	Chorney Beach, Resort Village of	Flood Proofing Phase 2	Upgrade and reinforce existing retaining walls on Lakeshore Drive and placing large rock in areas that no retaining wall was completed in case the water raises again to protect water system and septic tanks.	Wastewater	\$25,000.00	\$2,795.05	No
171	1920-004763	Christopher Lake, Village of	Construct 1 km of Trail on Ridgeway Road	Construct 1 km x 2 m walking trail along the highway from 2nd Avenue to Ridgeway Road and Ridgeway Road to Southridge Drive. The trail will promote healthy living and improved access to health, social and cultural infrastructure: school, curling rink, churches, day care and downtown. The trail will be constructed of base gravel, clay, and pavement or recycled material.	Local Roads and Bridges	\$125,613.00	\$23,302.08	No
172	1920-005052	Churchbridge No. 211, RM of	Upgrade and Clay Cap 6.9 km of Road ENE 32 and N 33, 34, 35, 36-22-30-W1	Upgrade and reconstruct 6.9 km of municipal road by clay capping the road 30.48 cm. The dangerous curve in the road was minimized by widening the curve, having the slopes of the hills changed to reduce the angle of the curve thereby making the curve more gradual. This upgrade will provide better sight distance.	Local Roads and Bridges	\$489,296.21	\$398,966.99	Yes
173	2122-006167	Churchbridge, Town of	Upgrade Windows and Install LED Lighting at Community Centre	Replace three windows in the dining room of the Community Centre and install LED lighting in the main hall. These upgrades will improve the energy efficiency of the overall building.	Community Energy Systems	\$15,564.50	\$15,564.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
174	2122-006168	Churchbridge, Town of	Replace Lighting in Churchbridge Public Library	The old fluorescent lighting at the Churchbridge Public Library will be replaced with LED lighting, and additional LED lighting will be installed in areas of the building that are poorly lit. This will increase usability of the facility and improve energy efficiency. Both bulbs and ballasts will be replaced.	Community Energy Systems	\$4,777.00	\$2,777.00	Yes
175	2122-006166	Churchbridge, Town of	Expand Cedar Crescent Sewer Infrastructure	Cedar Crescent is being expanded to the east and will require new sewer infrastructure to service the new lots being developed. Includes installation of two manholes and 370 m x 200 mm SDR35 PVC piping.	Wastewater	\$94,100.00	\$0.00	No
176	2122-006180	Churchbridge, Town of	Expand Cedar Crescent Water Service	Install water service to the new lots being developed along Cedar Crescent. The project includes supply and installation of 309 m x 150 mm C900 waterline, 3/4 series 200 water line from main to property line, 10 curb stops with box and rods, and 10 new water main connections. Labor and excavation are included in the project cost.	Drinking Water	\$35,441.08	\$0.00	No
177	2021-005164	Clayton No. 333, RM of	Develop Official Community Plan	In support of asset management, hire a contractor to complete our Official Community Plan which will complete our planned long term asset growth and commitment to community.	Capacity Building	\$30,000.00	\$7,000.00	No
178	2021-005165	Clayton No. 333, RM of	Purchase and Install Asset Management Software	Purchase and implement asset management software into the municipality's financial tools to assist with asset management. Staff training for utilizing this asset management software will also be completed.	Capacity Building	\$8,362.40	\$7,939.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
179	2021-005166	Clayton No. 333, RM of	Develop an Asset Management Plan	Hire consultant to assist with the development of an asset management plan which consists of itemizing all the municipality's assets including condition and useful life. Have staff attend asset management training sessions to aid with development of new asset management plan. Costs for the project will include staff training.	Capacity Building	\$45,467.40	\$40,000.00	No
180	2021-005087	Climax, Village of	Replace 20 Curb Stops	Replace 20 curb stops throughout the village to ensure there are functioning curb stops allowing for turn-off as required.	Drinking Water	\$20,000.00	\$0.00	No
181	2021-006081	Clinworth No. 230, RM of	Replace Railway Crossing Planks at Nine Locations	Replace planks at nine rail crossings within the municipality. Nine crossings with 14 planks each will be replaced.	Local Roads and Bridges	\$25,000.00	\$17,117.05	No
182	2021-005690	Clinworth No. 230, RM of	Upgrade the Office Heating System	Upgrade the heating system in the municipal office by installing an energy efficient furnace and an air exchanger to create better air flow.	Community Energy Systems	\$15,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
183	2021-005291	Coalfields No. 4, RM of	Standalone Study - Geotechnical Investigation of Grid 605 to Determine Upgrades	Complete a geotechnical investigation that will provide results of a site specific (8.3 km located north of Highway 18 near Town of Bienfait) subsurface soils investigation and potential surfacing designs to upgrade Grid 605. The scope of work for the project entailed the following: to define the existing roadway structure, the subsurface soil stratigraphy and engineering properties of the soils; to comment on possible excavation and construction problems related to roadway reconstruction with reference to groundwater conditions; to provide recommendations for excavation and backfill.	Local Roads and Bridges	\$16,399.20	\$16,399.20	Yes
184	2021-005205	Cochin, Resort Village of	Two New Public Washrooms on Public Beach	Purchasing two new accessible washrooms which will have a toilet and sink, and connection costs for water to the washrooms including hookup and main lines. As a resort area, the community needs good, clean washrooms for residents and visitors using the beaches and parks.	Tourism Infrastructure	\$7,087.86	\$7,087.86	Yes
185	2021-006079	Coderre, Village of	Replace Half of 20 m x 21 m Rink Roof	Replace half of 20 m x 21 m rink roof by removing existing roof panels, installing 75 pieces of 5 m strapping, 260 sq m of tin roofing, a new ridge cap and gable trim.	Sport Infrastructure	\$10,176.00	\$5,864.00	Yes
186	2122-006285	Coderre, Village of	Upgrade Asphalt on Centre Avenue	Place 5.08 cm thick asphalt on six areas of Centre Avenue.	Local Roads and Bridges	\$11,230.96	\$11,230.96	Yes
187	2021-005804	Codette, Village of	Reconstructing 602 m of Centre Street	Reconstruct 602 m x 16 m of Centre Street by roto-mixing existing asphalt, reshaping crown, compacting existing material and applying a dust suppressant.	Local Roads and Bridges	\$41,536.10	\$41,536.10	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
188	2021-005345	Codette, Village of	Deepen and Alter Existing Constructed Ditch at the Playground	Deepen 100 m drainage ditch along the east side of parcel#133450770 (west of Rupert Crescent) to maximum of 5 m depth, 1 m width and a 6:1 slope grade to hold the volume of water going through it rather than it spreading at the playground and construct new 150 m ditch going west to Railway Avenue to keep the water contained and running to the west ditch. The proposed new ditch will run north along parcel 133450769 and 133450770 and will not exceed 5 m depth, approximately 1 m width with 6:1 slope grade.	Wastewater	\$1,405.00	\$0.00	No
189	1920-005001	Coleville, Village of	Improve Storm Drainage on Prince Street	Prince Street drainage between Highway 307 and First Avenue was completed to improve storm water drainage along this main access/truck route. Ditches were constructed along both sides to a depth of 1.52 m and widened up to 3.66 m. One 400 mm culvert and four 600 mm culverts were required for this project.	Wastewater	\$87,827.94	\$87,827.94	Yes
190	1920-005002	Coleville, Village of	Improve Drainage on Third Avenue between Main Street and Princess Street	Third Avenue drainage construction between Main Street and Princess Street was completed to improve storm water drainage along the street. Ditch improvements including deepening ditches to a depth of 0.91 m in certain areas, reshaping to 0.91 - 1.23 m width in certain areas, and constructing a 45.72 m long x 0.3 m deep swale to carry the water to an existing dugout. Seventeen culverts were also reset and cleaned as part of this project.	Wastewater	\$32,705.13	\$32,705.13	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
191	1920-005005	Colonsay No. 342, RM of	Upgrade 0.64 km of Schatz Road at ESE 27-34-28-W2	Mill 0.8 m of road top on 0.64 km of road, mix with 107 cu m of gravel, shape crown, pack and grade.	Local Roads and Bridges	\$9,677.15	\$9,677.15	Yes
192	1920-005006	Colonsay No. 342, RM of	Upgrade 0.64 km of Moldenhauer Road at ESE 10-34-28-W2	Mill 0.8 m of road top on 0.64 km of road, mix with 107 cu m of gravel, shape crown, pack and grade.	Local Roads and Bridges	\$9,677.15	\$9,677.15	Yes
193	1920-005007	Colonsay No. 342, RM of	Upgrade 0.64 km of John Folk Road at SSE 14-34-28-W2	Reconstruct 0.8 m of road top on 0.64 km of road, mix with 153 cu m of gravel, shape crown, pack and gravel.	Local Roads and Bridges	\$11,230.75	\$11,230.75	Yes
194	1920-005008	Colonsay No. 342, RM of	Upgrade 0.5 km of Bukurak Road at SSE 18-36-28-W2	Reconstruct 0.8 m of road top on 0.5 km of road, mix with 92 cu m of gravel, shape crown, pack and gravel.	Local Roads and Bridges	\$8,893.15	\$8,893.15	Yes
195	1920-005037	Colonsay, Town of	Construct and Pave Prairie View Crescent Road	Excavate, reshape and pave Prairie View Crescent, a road in a relatively new subdivision in Colonsay. Approximately 2,900 sq m area was constructed (geotextile, 150 mm subgrade, 150 mm subbase and 150 mm base), primed, and paved with 65 mm of hot mix asphalt. Four manholes and three water valves were adjusted during this construction.	Local Roads and Bridges	\$260,420.60	\$251,417.17	Yes
196	2021-005484	Connaught No. 457, RM of	Upgrade Derbowka Bridge at E 13-48-16-W2	Upgrade bridge to include removal and installation of new piles, installation of backing planks, superstructure, adding preservative to stringers, armor embankment, geotextile, riprap and replacing rotten floorboards, to keep the road open and extend the life of the bridge.	Local Roads and Bridges	\$285,917.75	\$254,392.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
197	2021-005346	Conquest, Village of	Asset Management Group Learning - GIS	Training for GIS asset mapping which will digitize asset information into a GIS format. Collect field data. Deliverables include GIS mapping of all infrastructure in the asset management plan.	Capacity Building	\$24,190.00	\$4,838.00	Yes
198	2021-005347	Conquest, Village of	Purchase Asset Management Software	Purchase asset management software to improve accuracy in maintaining data for all types of assets including transportation, water and sewer, buildings and other.	Capacity Building	\$5,289.40	\$5,289.40	Yes
199	2021-005434	Conquest, Village of	Upgrade Lighting in Water Treatment Plant, Fire Hall, and Municipal Office	Upgrade lighting in the water treatment plant, fire hall and office, which will involve upgrading the current fluorescent lighting system to LED lighting, including three 1.2 m light strips and fifteen 2.5 m light strips reducing overall energy consumption by an estimated ten per cent per month.	Community Energy Systems	\$4,632.42	\$4,632.42	Yes
200	2021-005113	Consul, Village of	Upgrade Water Treatment Plant and Well Pumps and Electrical	The water treatment plant needed several pumps replaced to keep water supply to the residents and businesses. Also upgraded the wiring for the pumps to help with life of the pumps. Have two wells and are going to install pitless adapters and sump pumps. This will help reduce the number of water advisories.	Drinking Water	\$10,468.88	\$10,468.88	Yes
201	1516-003673	Coronach, Town of	Construct Raw Water Wells and Lines	Construct two to three new water wells and lines to tie into the existing main water supply line to the water treatment plant. The wells would be approximately 1/3 km apart, with the tie into the main line within 1/3 km, providing new sources of clean water.	Drinking Water	\$300,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
202	2021-005622	Coronach, Town of	Install Ventilation System in West Lift Station	A small addition to the West Lift Station will need to be built to accommodate a fresh air system and as per the Water Security Agency (WSA) instructions, this air ventilation system must have engineering approval. The new room is currently estimated to measure 3 m x 3.7 m but may need to be adjusted based on the generator unit in place.	Wastewater	\$48,000.00	\$0.00	No
203	2122-006161	Coteau No. 255, RM of	Upgrade Birsay Water Plant	Replace siding, door, and pipes inside the water treatment plant. Purchase and install two 8.3 cu m tanks for water storage.	Drinking Water	\$29,900.03	\$29,900.03	Yes
204	2122-006333	Coteau No. 255, RM of	Replace Boon Bridge at SE 10-24-08-W3 with Three Culverts	Replace Boon bridge with three 1,500 mm x 3.5 mm x 20 m CSP culverts.	Local Roads and Bridges	\$61,851.00	\$53,761.50	Yes
205	2122-006179	Coulee No. 136, RM of	Upgrade Office Building Energy Efficiency	Replace eight windows, back door, basement door and add siding with insulation on exterior.	Community Energy Systems	\$65,000.00	\$0.00	No
206	2021-005485	Craik No. 222, RM of	Upgrade 8 km of Road at S 04, 05, 06-24-28-W2	8 km of road will be widened by at least 0.91 m on each side (1.83 m total). A large hill will be leveled to provide better sight lines for vehicle safety. Five culverts will be replaced.	Local Roads and Bridges	\$162,979.47	\$112,639.95	Yes
207	1920-004957	Craven, Village of	Purchase and Install 140 Water Meters	Install water meters with remote reading systems into approximately 140 homes to effectively monitor and charge for water usage.	Drinking Water	\$150,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
208	1920-005058	Creelman, Village of	Install an Ultra-Violet Disinfection System to the Water Treatment Plant	Install an ultra-violet disinfection system to enhance the ability of the plant to eradicate the water from all bacteria and viruses. This addition will aid in the quest to achieve quality potable water to each residence and business in the village.	Drinking Water	\$41,062.55	\$41,062.55	Yes
209	1920-004720	Creighton, Northern Town of	Repave 383 m of Main Street, Elander Street and First Street West	Prepare and repave 262 m of 1st Street West, 106 m Elander Street, and 15 m cross walk on Main Street with 60 mm to 75 mm of asphalt.	Local Roads and Bridges	\$130,795.52	\$130,795.52	Yes
210	1920-004721	Creighton, Northern Town of	Repave 1,584 m of Streets at 12 Locations	Prepare, pave and/or repave 1,584 m of streets with a 60 mm overlay in twelve locations to upgrade locations after sub-surface upgrades and general deterioration. Locations include Green Street (two areas), Fourth Avenue, Heritage Manor, Elander Avenue, Broderick Avenue, Bereskin Avenue, Queen Street, Blanchard Street, Lamb Street, and Creighton Avenue (two areas).	Local Roads and Bridges	\$437,032.72	\$429,060.82	Yes
211	2021-005881	Cupar No. 218, RM of	Clay Cap 2.82 km of Tower Road	The municipality will add a 20.32 cm clay cap to 2.82 km of Tower Road.	Local Roads and Bridges	\$163,065.10	\$163,065.10	Yes
212	2021-006007	Cupar No. 218, RM of	Upgrade Lighting in the Municipal Shop	Remove nine existing light fixtures and replace with new energy efficient LED high-bays.	Community Energy Systems	\$3,233.00	\$3,233.00	Yes
213	2021-006019	Cupar No. 218, RM of	Clay Cap and Widen Driving Surface on the Road East of 27 and 34-24-16-W2	This road is a main artery for heavy truck traffic. The driving surface narrowed due to erosion from flooding. A length of 3.2 km of road will be clay capped and the driving surface widened from 6.7 m to 8.5 m.	Local Roads and Bridges	\$169,064.70	\$169,064.70	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
214	2021-005592	Cupar, Town of	Upgrade Six Water Main Shut-Off Valves	Install six water main isolation valves so that select maintenance work can take place without disrupting water service to the entire community. Location: Three on Lansdowne Street, one on Grey Street, one on Stanley Street and one on Aberdeen Street.	Drinking Water	\$54,000.00	\$0.00	No
215	2021-006044	Cut Knife No. 439, RM of	Resurface 9.7 km of Grid Road	Mulch the top 20.3 cm of road surface and work in pit-run gravel to harden the road surface. Total length road to be worked on is 9.7 km.	Local Roads and Bridges	\$288,882.40	\$156,001.80	Yes
216	2021-006013	Dalmeny, Town of	Construct a Spray and Play Park	Construct a spray park while repurposing the abandoned sanitary sewer station to a bathroom/change room area in Prairie Park. The spray park will be 200 sq m, with multiple spray features, supply and collection piping within the vicinity of the spray pad, and a full water recycle/reuse system for water conservation. Water, sanitary sewer and power will be installed. The spray park will be fully accessible to all users. Soft and hard landscaping will also be completed.	Recreational Infrastructure	\$659,852.00	\$203,897.00	No
217	1516-003752	Dalmeny, Town of	Construct Storm Water Retention Pond	Construct storm water retention pond for industrial area to accommodate surface drainage created by storm activity.	Wastewater	\$1,420,200.00	\$0.00	No
218	2021-005932	Davidson, Town of	Rebuild Approximately 212 m of Second Street	Approximately 212 metres of Second Street will be excavated and rebuilt. Approximately 5.08 cm of new asphalt will be laid over the entire two blocks from Ottawa Street to Toronto Street.	Local Roads and Bridges	\$123,225.98	\$123,225.98	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
219	1718-004295	Debden, Village of	Development of Asset Management Plan	Hire an engineering firm to work with council to progress further on asset management plan. Will help to develop a plan for transportation, water and sewer networks including discussion on growth, financial projection, and developing a capital works plan.	Capacity Building	\$25,000.00	\$116.28	No
220	1516-003781	Debden, Village of	Water Treatment Plant Rewiring and Switch Upgrade	Replace outdated wiring and upgrade the float system and mercury switches in the water treatment plant to provide cleaner water.	Drinking Water	\$10,655.51	\$0.00	Yes
221	1920-004959	Debden, Village of	Replace and Resurface 192 m of Sidewalk on Main Street	Replace and resurface 192 m of sidewalk on Main Street between 1st Avenue and 3rd Avenue. Sidewalks that need replacement will have the concrete removed and then replaced with a vapor lock mixture to prevent freeze thaw deterioration.	Local Roads and Bridges	\$79,852.90	\$0.00	No
222	2021-005630	Deer Forks No. 232, RM of	Upgrade 3.2 km of Grid 635	Upgrade 3.2 km of Clearing the Path corridor on grid 635 to a primary heavy weight standard. Expand right of way from 30.48 m to 45.72 m and install culverts (approximately 231 m).	Local Roads and Bridges	\$564,525.32	\$90,913.05	Yes
223	2122-006252	Delisle, Town of	Reconstruct 500 Block of Main Street	Excavate the existing decaying pavement and base on 500 Block of Main Street, then lay down a new gravel base underneath with new asphalt on top. Install new cement gutters on either side of the street and a storm drain at the 5th Avenue intersection. The objective is to create a new driving surface that drains properly.	Local Roads and Bridges	\$510,000.19	\$441,762.30	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
224	1920-004745	Denare Beach, Northern Village of	Upgrade Denare Beach Tennis, Basketball, and Pickle Ball Courts	Upgrade existing court by removing old pavement, grading for proper drainage and court specifications, applying a proper base to prevent shifting, pave to about 100 mm thickness, resurface with synthetic material and top with proper lines for three activities.	Recreational Infrastructure	\$50,000.00	\$0.00	No
225	1920-004746	Denare Beach, Northern Village of	Pave 1,500 m of Roadway on Welsh Crescent, Hogan Drive and Bayview Place	Paving of approximately 1,500 m of street at depth of 75 mm after water and sewer line replacement.	Local Roads and Bridges	\$250,000.00	\$0.00	No
226	1920-004747	Denare Beach, Northern Village of	Rebuild Almost 3 km of Mosher Road	Rebuild approximately 3 km of Mosher Road between Highway 167 intersection and Mosher Drive intersection by removing old road down to base, rebuilding and paving at 75 mm thickness.	Local Roads and Bridges	\$150,000.00	\$0.00	No
227	2021-006105	Denholm, Village of	Upgrade Electrical at Water Pumphouse	Expand electrical system in the pumphouse so that there is enough electrical power to handle new and upgraded equipment and more pumps.	Drinking Water	\$7,761.78	\$7,761.78	Yes
228	2021-005731	Denzil, Village of	Complete Roof Upgrade on Community Skating Rink	Complete the metal installation over the existing asphalt shingled roof of the 2,051 sq m building. One half of the building has the metal cladding complete, and the remaining portion involves strapping the existing roof with spruce 1 x 4's and installing 4,705 m of low rib metal over top of the shingles.	Recreational Infrastructure	\$51,784.00	\$45,838.19	No
229	1516-003625	Dinsmore, Village of	Construct Dinsmore Truck Fill	Addition of a truck fill extension on the water treatment plant, including a coin operated box to control the flow of water, and to allow rural residents access to clean drinking water.	Drinking Water	\$25,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
230	2021-005279	Disley, Village of	Replace Two Pumps at Water Treatment Plant	Supply and install two new pumps to replace inoperable distribution pumps at the water treatment plant. Costs include labor for removal of the old pumps, installation of new pumps, new pressure switch and pipe modifications on the main distribution header.	Drinking Water	\$9,196.14	\$7,673.81	No
231	2021-005655	District of Katepwa, Resort Village of	Upgrade 2.91 km of Road Throughout District	Roads with existing pavement will be excavated, pavement ground up and then utilized as the base. The roads without pavement will receive clay and gravel compacted with the street base and will be reshaped, and a new 40 to 50 mm layer of asphalt and concrete overlay. Total paving project spans 2.91 km.	Local Roads and Bridges	\$451,082.63	\$140,268.58	Yes
232	2021-005693	District of Lakeland No. 521, RM of	Realign 1 km of Neis Drive	Road will be realigned to move portions that are currently on private property, incorporate drainage, remove existing curves, and widen the road at the same time. One existing culvert was replaced with a 400 mm x 12 m and one 400 mm x 12 m new culvert was installed.	Local Roads and Bridges	\$157,000.00	\$0.00	No
233	2021-005233	Doddsland, Village of	Replace and Upgrade Arena Brine Pumps and Tank	Replacing and upgrading the arena pumps and tank will allow the plant to run more efficiently and allow the community members to enjoy the facility for years to come. This project will involve replacing the brine tank and two pumps as well as the piping leading from the tank to the pumps.	Sport Infrastructure	\$20,276.31	\$20,276.31	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
234	2021-005505	Dodsland, Village of	Drill New 143.9 m Deep Well	The project entailed drilling a new well that is 143.9 m deep and 17.78 cm in diameter with a 17.78 cm plastic casing. The well required stainless steel screening and sand packed with grout running from the sand pack to the surface.	Drinking Water	\$63,152.67	\$63,152.67	Yes
235	2122-006284	Dodsland, Village of	Replace and Reroute Sewer Line	Replace a 39.6 m x 15.24 cm portion of PVC sewer line located at 4th Avenue and Main Street and reroute the flow of wastewater from the lift station on Main Street to gravity feed out to the lagoon. This will take pressure off the lift station and increase the life of the pumps in the lift station.	Wastewater	\$15,050.59	\$15,050.59	Yes
236	2021-005373	Dore Lake, Northern Hamlet of	Upgrade Community Wharf	Upgrade the community wharf. Supply and place 15 to 30 cm of riprap rock along the sides of the dock ramp as well as crushed 1.9 cm gravel along the sides and top of the ramp.	Tourism Infrastructure	\$11,660.00	\$11,660.00	Yes
237	2021-005305	Douglas No. 436, RM of	Upgrade Richard Community Hall	Upgrade Richard Community Hall to improve energy efficiency and increase usage. The following will be retrofitted: two energy efficient furnaces, an energy efficient water heater, 127 m of LED lighting strips, two double and two single doors, six windows and bathroom fixtures will be replaced.	Recreational Infrastructure	\$50,200.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
238	2122-006238	Drake, Village of	Replace and Upgrade Culvert on Railway Avenue	Replace the existing culvert to extend the estimated useful life of the asset and to enhance the flood mitigation program. The existing culvert is deteriorating, slowing the natural flow of water which causes build up. This replacement will increase water flow capacity, reduce flooding and erosion. New corrugated steel culvert will measure approximately 16.8 m x 61 cm. Costs include gravel hauling, placing loads, geotextile, riprap and ground cover.	Wastewater	\$8,000.00	\$0.00	No
239	2122-006239	Drake, Village of	Upgrade 101.5 m of Sidewalks throughout Village	Replace approximately 101.5 m of deteriorating concrete sidewalks. Sidewalks will be widened to 1.2 m from 0.9 m to accommodate wheelchairs and corners will have slopes installed for accessibility.	Local Roads and Bridges	\$14,045.94	\$0.00	No
240	2122-006289	Drake, Village of	Replace and Upgrade 139 m of Sidewalks throughout Village	Approximately 139 m x 1.2 m of sidewalk on Howard Street and Francis Street will be upgraded and made wheelchair accessible with slopes at five locations within the village. These upgrades will increase estimated service life of the sidewalks as well as make them accessible to more residents.	Local Roads and Bridges	\$19,191.90	\$0.00	No
241	2021-005951	Drinkwater, Village of	Install 38 Water Meters	Install 38 new water meters that can be read from outside of homes.	Drinking Water	\$18,105.61	\$18,105.61	Yes
242	1920-004734	Dubuc, Village of	Install Six Curb Stops	Install shut off valves at six locations in the village to allow control of water flow.	Drinking Water	\$7,000.00	\$1,118.30	No
243	2122-006207	Dubuc, Village of	Install Water Line, Curb Stops and Sewer Line to New Homes	Trench and install 105 m of 32 mm PVC water line, three curb stops, one hydrant and 81 m of 38 mm sewer line to two new residences.	Drinking Water	\$9,253.80	\$3,628.80	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
244	2122-006208	Dubuc, Village of	Upgrade Water Treatment Plant Electrical	Upgrade all electrical in water treatment plant, including installation of 200-amp service, relocate variable frequency drivers, install LED lighting, re-wire unit heaters, water heater and compressor, remove and replace all wiring and conduit to have electrical brought up to code.	Drinking Water	\$11,198.09	\$6,671.82	Yes
245	1415-003086	Dubuc, Village of	Water Hydrants and Pump	Replace the water hydrant to allow flushing of line to remove sediment and the pump for the water system to run more efficiently.	Drinking Water	\$4,851.01	\$0.00	Yes
246	1819-004550	Duck Lake No. 463, RM of	Decommission Landfill at SW 01-46-01-W3	To complete a Phase II Environmental Site Assessment. During the initial investigation, a total of five boreholes advanced to a maximum depth of 12.2 m below grade level at the site in proximity to the historical waste pit. Engineering methods include soil sampling, monitoring well development, groundwater sampling, global positioning system, elevation survey, and sample handling and analysis. Completion of the project will include packing and clay capping.	Solid Waste	\$90,000.00	\$24,475.00	No
247	2021-005552	Duck Lake No. 463, RM of	Install 501 m of Chain Link Fence at MacDowall Transfer Station	Completion of fencing around existing transfer station and old landfill consists of installation of 501 m of chain link fence with barbed wire on top.	Solid Waste	\$26,472.22	\$26,472.22	Yes
248	1213-002360	Duck Lake No. 463, RM of	Lily Plain Road Upgrade	Widen and improve the existing road through the forest to haul heavy loads (winter haul) such as gravel.	Local Roads and Bridges	\$145,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
249	1516-003818	Duck Lake No. 463, RM of	Upgrade 5.6 km of Forest Haul Road	Buildup 5.6 km stretch of Forest Haul Road by widening road top from 5 m to 15 m, correcting side and back slopes, correcting road crown, mulching trees in new right-of-way and clay capping. Continuation of roadwork on road used for gravel hauling that will save 27 km one way in hauling distance.	Local Roads and Bridges	\$150,000.00	\$0.00	No
250	2021-005621	Duck Lake No. 463, RM of	Upgrade North Grid Road	Upgrade 500 m of road by raising grid and installing two culverts where the road is failing. Riprap, silt curtain and geo-textile installed. Top is 8.6 m and side slopes are 4:1.	Local Roads and Bridges	\$244,350.00	\$0.00	No
251	2021-005344	Duck Lake, Town of	Install New Control Panel and Overload Modules at Lift Station	Install a new control panel and overload modules at the sewer lift building to ensure essential wastewater services are provided to residents.	Wastewater	\$7,632.00	\$7,632.00	Yes
252	2021-005403	Duck Lake, Town of	Replace 36.58 m of North Elevator Road	9.14 m x 36.58 m of road was dug out and hauled away, 228.6 m of pit-run hauled in, geotextile laid and surface completed with gravel and tamped down.	Local Roads and Bridges	\$13,652.87	\$13,652.87	Yes
253	2021-005404	Duck Lake, Town of	South Front Street Hydrant Replacement	Replace existing hydrant on Front Street with a new hydrant to ensure the safety of the residents and to flush the water lines.	Drinking Water	\$6,014.71	\$6,014.71	Yes
254	2021-005405	Duck Lake, Town of	Replace Manhole on 2nd Street and 1st Avenue	Replace collapsed manhole at 2nd Street and 1st Avenue with new one to ensure functionality of wastewater system.	Wastewater	\$11,554.00	\$11,554.00	Yes
255	2021-005406	Duck Lake, Town of	Replace Water Line, Curb Stops, and Valve at 3rd Street and Victoria Avenue	Three curb stops, one valve, and a PVC water line measuring 156 m x 5.1 cm x 0.64 cm were installed to replace the non-functioning ones.	Drinking Water	\$24,044.50	\$24,044.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
256	2021-005407	Duck Lake, Town of	Replace Transducer in Water Treatment Plant	Replace transducer at water treatment plant to ensure the continuous supply of safe drinking water to residents.	Drinking Water	\$5,141.00	\$5,141.00	Yes
257	2021-005111	Dundurn, Town of	Upgrade 2.9 km of Heavy Haul Roads	Upgrade roads by crack-filling, paving or chip-sealing including removing the existing top, rebuild the base of the street, grade, and level to allow for water to flow, and top with gravel in preparation for final surface.	Local Roads and Bridges	\$156,138.00	\$156,138.00	Yes
258	2021-006047	Duval, Village of	Refurbish Community Hall Floor	Enhance the floor in the community hall by machine prepping the floor area and adding two coats of commercial grade sealer followed by a third matte finish coat.	Recreational Infrastructure	\$4,500.00	\$4,500.00	Yes
259	2021-006048	Duval, Village of	Replace Concrete Sidewalk in Front of Village Office	Remove and replace concrete sidewalk in front of the village office to provide a safe transition from the road to the office and postal boxes along east side of office.	Local Roads and Bridges	\$4,724.42	\$4,724.42	Yes
260	2021-006049	Duval, Village of	Replace Duval Rink Furnace	Replace the natural gas furnace at the skating rink.	Recreational Infrastructure	\$7,835.60	\$7,835.60	Yes
261	2021-006050	Duval, Village of	Construct Duval Hall Wind Shelter	Construct wind shelter as an addition and extension of the community hall in order increase the number and types of events hosted at the hall.	Recreational Infrastructure	\$10,225.56	\$10,225.56	Yes
262	2021-005462	Eagle Creek No. 376, RM of	Upgrade Bridge at SE 16-37-10-W3	Upgrade bridge located at SE 16-37-10-W3 by installing six new piles, and replacing sway braces, east stringer, flooring, railing, posts and wheel guards.	Local Roads and Bridges	\$97,520.00	\$97,520.00	Yes
263	2021-005463	Eagle Creek No. 376, RM of	Upgrade Range Road 3121	Upgrade Range Road 3121 so that it may be used year-round. The roadway will be widened and formed with clay base and gravel finish. It will include the installation of two (10 m x 600 mm) culverts.	Local Roads and Bridges	\$78,180.00	\$78,180.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
264	2122-006233	Eagle Creek No. 376, RM of	Upgrade 1.6 km of Haul Road on Range Road 3115	Building up low areas of road, lowering high spots on road and building up an area across a slough of 1.6 km.	Local Roads and Bridges	\$33,542.00	\$33,542.00	Yes
265	2122-006234	Eagle Creek No. 376, RM of	Upgrade 0.8 km of Spiney Hill Road	Buildup 91 m of Prairie Trail through a slough, increasing 1 m height and 6.7 m width plus 46 m at 0.3 m height, and a 450 mm x 1.6 mm x 9 m culvert hauling in pit run rock plus using materials from the immediate area.	Local Roads and Bridges	\$19,177.13	\$19,177.13	Yes
266	2021-005349	Earl Grey, Village of	Replace Four Curb Stops	Replace four curb stops that are not operational to allow to isolate or turn off and line repair.	Drinking Water	\$12,000.00	\$5,049.16	No
267	1920-005046	Eastend, Town of	Upgrade and Expand Water Treatment Plant	Upgrade the municipal water treatment plant. Construct source water wells, a raw water main, expand water plant building, install membrane treatment system, expand reservoir and all associated works.	Drinking Water	\$8,212,459.00	\$263,603.50	No
268	1920-005022	Eatononia, Town of	Develop an Asset Management Plan for Two Asset Classes	An engineer will be contracted to complete a condition assessment on the water and sewer lines in the community. A camera will be placed down the sewer lines to do a visual assessment. A condition assessment of the water lines will be done by reviewing historical replacements and costs, and discussion with town staff. The information will be recorded, and an asset management plan established.	Capacity Building	\$25,614.50	\$14,405.00	Yes
269	2021-006025	Eatononia, Town of	Replace 107 m Sewer Line on Main Street	Replace 107 m of 25.4 cm concrete sewer line. This project will ensure that there will no longer be any leaks and that all waste makes it successfully to the lagoon.	Wastewater	\$180,925.50	\$180,925.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
270	2021-005414	Ebenezer, Village of	Purchase and Installation of 25 Water Meters	This project is for installation of about 25 water meters to any households which did not currently have one as we are preparing for hookup to the Yorkville Public Utility Board water system.	Drinking Water	\$9,420.00	\$8,266.53	No
271	2021-005438	Ebenezer, Village of	Connect Water Treatment Plant with Yorkville Public Utility Board Water Line	Connect to the Yorkville Public Utility Board, to ensure safe drinking water for residents, by trenching in a water line from Fandrey Road to the Ebenezer water treatment plant, installing a 12,047-litre water storage tank and a meter on the line.	Drinking Water	\$69,654.63	\$69,654.63	Yes
272	2021-005415	Ebenezer, Village of	Install 12 Curb Stops on First and Second Avenues	Install 12 curb stops to the households on First and Second Avenue, which do not currently have one, enabling us to shut off water to any household during water leaks or nonpayment of utility bills.	Drinking Water	\$22,000.00	\$0.00	No
273	1920-005065	Edam, Village of	Re-pave 2,600 sq m of 1st Avenue from 1st Street to 2nd Street	Reshape the road to provide better water run-off. The road is 130 m x 20 m (approximately 2,600 sq m) and the work will involve supply, placing and compacting 150 mm of base, gravel topped with 50 mm of hot mix.	Local Roads and Bridges	\$82,605.80	\$82,605.80	Yes
274	1920-005066	Edam, Village of	Pave 3rd Street North Cul-de-sac	Prepare and pave the end of the 3rd Street North cul-de-sac, an area of approximately 1,400 sq m. This is a new area of the municipality and paving the street will provide a longer lasting road as well as proper drainage.	Local Roads and Bridges	\$52,138.13	\$52,138.13	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
275	2122-006133	Edam, Village of	Resurface 200 m of Main Street and intersection	Recap 3,675 sq m of Main Street from Railway to 2nd Avenue and intersection, including a 15 mm leveling lift and 40 mm of hot mix asphalt, excavate 840 sq m of intersection with 150 mm base and 50 mm hot mix asphalt, install manhole risers and 42 m of concrete swales.	Local Roads and Bridges	\$165,455.40	\$96,465.40	Yes
276	2122-006135	Edam, Village of	Resurface 200 m of Main Street from 2nd Avenue to 4th Avenue	Recap 3,400 sq m on Main Street driving lanes with 15 mm leveling lift and 40 mm lift of hot asphalt to provide a longer lasting street.	Local Roads and Bridges	\$69,377.00	\$68,952.20	Yes
277	2021-005419	Edenwold No. 158, RM of	Clay Cap 6.44 km of Grid Road 2190	Clay capping 6.44 km of Grid 2190 which is a connector and access route to Highway 33 and southeast Regina. This grid road is part of the over-dimensional route and is the boundary grid between the RM of Edenwold and the RM of Sherwood. This clay capping project will bring the road up to the standard required to handle the current high volume and projected volume of traffic that use this road since being designated as the over-dimensional route. A clay cap lift of 25.4 cm will be applied.	Local Roads and Bridges	\$690,273.97	\$277,800.00	No
278	1920-004631	Edenwold, Village of	Replace 4 m x 6.7 m Lift Station Building	Replace the 4 m x 6.7 m lift station building, and any electrical and other components to improve heating and efficiency of lift station equipment.	Wastewater	\$25,000.00	\$0.00	No
279	1920-004632	Edenwold, Village of	Install Back-up Power at Water Treatment Plant	Install new power back-up generator at water treatment plant, including connections, electrical, tapping into gas line and generator. Also includes T-junction upgrade at emergency operations centre.	Drinking Water	\$45,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
280	2021-005281	Elbow, Village of	Purchase Asset Management Software	The purchase and installation of asset management software will support the municipality's review of their tangible capital asset data as well as support the asset management plan.	Capacity Building	\$8,000.00	\$0.00	No
281	2021-005474	Elcapo No. 154, RM of	Upgrade to Township Road 164 and Range Road 2050	Reconstruct surface to the appropriate standard with a minimum of 0.3 m of prepared clay being added to the road surface to width of 7.6 m with a minimum of 3:1 side slope, along with any failing culverts being removed and replaced.	Local Roads and Bridges	\$428,342.13	\$209,703.60	Yes
282	2021-005387	Elfros, Village of	Upgrade Community Park	Improve the community park by demolishing the outdated unsafe play structure and completing ground preparation for installation of a new play structure. New play structure is constructed of molded plastic and metal weighing in at 1,050 kg. The safe use zone will be 10.4 m x 11 m.	Recreational Infrastructure	\$29,681.64	\$14,681.64	Yes
283	2021-006052	Elfros, Village of	Upgrade Community Hall	The Community Hall will receive several upgrades such as a new energy efficient furnace and central air conditioning to reduce energy consumption. There will be a reverse osmosis system installed in the kitchen to accommodate safe drinking water for hall users.	Recreational Infrastructure	\$29,820.30	\$29,820.30	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
284	1920-005012	Elmsthorpe No. 100, RM of	Rebuild 3.22 km of Road E 27, 34-12-23-W2 to Heavy Haul Standards	Rebuilding of an existing heavy haul road 3.22 km north of Avonlea. The road is a main access to Avonlea from the east, west and north due to highway weight restrictions. This road is used as the 334/339 alternate truck route. The road currently requires rehabilitation to correct the cross slope, clay capping and incorporating traffic gravel.	Local Roads and Bridges	\$433,681.80	\$96,290.10	Yes
285	1920-005064	Elrose, Town of	Add Third Cell to the Lagoon	A third cell will be built as an addition to the existing two cells in the lagoon. This cell measures 137 m by 119 m. The existing cell berms will also be built up with the excess soil and clay as well as using riprap. Lagoon capacity will be increased to service a population of 600.	Wastewater	\$203,893.56	\$5,872.40	Yes
286	2021-005265	Emerald No. 277, RM of	Reconstruct 5 km of Grid 639	Reclamation of 5 km of Grid 639, by pulverizing 0.5 m of the existing surface and packing the current material back in the road and graveling to increase estimated service life. The road has an 8.6 m top with a 4:1 slope.	Local Roads and Bridges	\$159,138.40	\$159,138.40	Yes
287	2021-005563	Enniskillen No. 3, RM of	Grade and Clay Cap 3.31 km Road Located at S 23-02-02-W2 and S 02-02-01-W2	These existing roads will be upgraded to extend their life. South of 23-02-02-W2 will have 11,000 cu m of clay added to the surface and S 02-02-01-W2 will have 12,000 cu m clay added to the surface. Any soft spots will be fixed prior to the start of the project and all culverts are to be replaced, as well as added if any need to be at the time of construction. Both projects are under the direct supervision of an engineer.	Local Roads and Bridges	\$380,859.01	\$118,649.25	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
288	2021-005564	Enniskillen No. 3, RM of	Clay Cap 4.8 km of Farm Access Road Located S 25 to 27-03-01-W2	The existing road will be upgraded to extend the life of a high traffic road. The road will have 22,592 cu m of clay added to the top, which will raise it 30 cm. Any soft spots are to be fixed prior to the start of the project and all culverts are to be replaced, as well, at the time of construction. Trees will be pushed along the road, if they do not meet the municipality's setback distances or are a sight problem.	Local Roads and Bridges	\$323,626.85	\$91,086.30	Yes
289	2021-005125	Enterprise No. 142, RM of	Reconstruct Sehn Road at E 02-18-27-W3	Reconstruct 1.6 km of Sehn Road by adding 5.06 cm of clay cap including adding gravel to the approaches on this strip of road.	Local Roads and Bridges	\$92,936.30	\$6,605.50	Yes
290	2122-006178	Ernfold, Village of	Construct New Cell and Perimeter Fencing at Landfill	Installation of a 30.5 m x 2.4 m perimeter containment fence, and construction of a new 378 cu m (18 m x 6 m x 3.5 m) waste cell.	Solid Waste	\$30,000.00	\$0.00	No
291	1920-004701	Estevan, City of	Replace 1,565 m of Water Main - Six Locations	Replace 1,565 m of water main on Veteran Crescent (300 m of 150 mm), Nicholson Road (915 m of 200 mm), and McCormick (350 m of 150 mm). The construction includes the removal of old water lines, the replacement of all services, the installation of new pipes, the cover of the class and the resurfacing of the street.	Drinking Water	\$4,385,000.00	\$637,518.71	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
292	1920-004702	Estevan, City of	Water Tower Rehabilitation	Upgrade water tower by completing a condition assessment. Projected work includes replacement of standpipe with a fill and dump line, hatches, bringing entrance up to code, replacing stressed metal, coating inside of tower with rubber solution and installation of cathodic protection. Increase in estimated life of approximately 60 years.	Drinking Water	\$2,500,000.00	\$51,302.58	No
293	2122-006236	Estevan, City of	Replace Churchill Paddling Pool	Remove the existing paddling pool and replace with a new 167.2 sq m paddling pool, complete with filtered circulated mechanical structure.	Recreational Infrastructure	\$200,000.00	\$40,105.41	No
294	2021-006121	Estevan, City of	Upgrade Pumps and Electrical at Smith Street Reservoir	Replace the main breaker, motor control centre, and old variable and constant speed motor drive. Also, replace the pumps with two variable speed motors and smaller pumps that would work in a lead lag situation to increase efficiency of the Smith Street Reservoir and make the facility more energy efficient.	Drinking Water	\$600,000.00	\$0.00	No
295	1920-004682	Eston, Town of	Rehabilitate 1,600 m of Sewer Line	Install 1,600 m of 200 mm x 4.5 mm CIPP cured polyester felt lining in deteriorating sewer lines on various blocks of 2nd Avenue, 3rd Avenue, 4th Avenue, and 5th Avenue. Camera work was done to determine the sewer lines that were most vulnerable and help set priorities.	Wastewater	\$614,335.00	\$143,909.01	Yes
296	2021-005464	Eston, Town of	Reline 835 m of Sewer Lines	Install approximately 420 m x 200 mm x 4.5 mm polyester felt liner (cured in place) and 425 m x 250 mm x 6 mm polyester felt liner. Work completed on 1st Street West from 1st Avenue to 5th Avenue. Camera final videos of the lines.	Wastewater	\$61,506.50	\$61,506.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
297	2021-005162	Etters Beach, Resort Village of	Extend Existing Boat Launch	Install an extension of precast concrete planks to the existing boat launch to provide a sufficient ramp for loading and offloading boats during periods of low water levels and to ensure the stability of the existing structure. Precast concrete is deemed to be an environmentally sound and durable material.	Tourism Infrastructure	\$7,937.40	\$7,937.40	Yes
298	2021-005686	Excel No. 71, RM of	Upgrades at Ormiston Community Hall	Upgrade the Ormiston Community Hall kitchen by increasing its size, installing new plumbing, and adding of new cupboards, flooring, drywall and stairs going into kitchen. This hall is used for many community events.	Recreational Infrastructure	\$12,304.50	\$12,304.50	Yes
299	2021-005687	Excel No. 71, RM of	Replace 15 Culverts	Replace 15 old cement culverts, damaged and collapsed culverts. This will include one 600 mm x 24 m, one 600 mm x 23 m, four 500 mm x 12 m, and nine 600 mm x 12 m culverts in various locations in the municipality.	Local Roads and Bridges	\$13,246.76	\$13,246.76	Yes
300	1617-004098	Excel No. 71, RM of	Upgrade Ormiston Sewer Lines	Upgrade the sewer lines in the Hamlet of Ormiston to standard pipe. Starting with a perimeter around the hamlet and will include any sewer lines that may need replacement along that corridor.	Wastewater	\$20,000.00	\$0.00	No
301	2021-005724	Excel No. 71, RM of	Install Fence and Signage at Dry Boro Cemetery	Replace the existing 805 m fence around Dry Boro Cemetery with a new three barbed-wire fence, a 2.75 m metal gate, and a 2 m x 1 m sign.	Cultural Infrastructure	\$10,000.00	\$0.00	No
302	2021-005725	Excel No. 71, RM of	Install Fence and Signage at Ukrainian Baptist Cemetery	Replace the existing 805 m fence around Ukrainian Baptist Cemetery with a new three barbed-wire fence, a 2.75 m metal gate, and a 2 m x 1 m sign.	Cultural Infrastructure	\$10,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
303	2021-005845	Excel No. 71, RM of	Replace 575 m of Sewer Line in Viceroy Between Dufferin Street and Curzon Street	Replace existing sewer lines with 575 m of 50 mm Poly Pipe sewer line between Dufferin Street and Curzon Street in the Hamlet of Viceroy.	Wastewater	\$30,000.00	\$0.00	No
304	2021-005760	Excelsior No. 166, RM of	Upgrade Bridge at NE 20-16-12-W3	Replace 15 m pre-stressed concrete stringer, girder, and bridge railings at NE 20-16-12-W3.	Local Roads and Bridges	\$147,061.85	\$147,061.85	Yes
305	2021-005888	Excelsior No. 166, RM of	Upgrade Bridge at E 11-17-11-W3	Replace piles and spacer blocks on the bridge as required per engineering inspection.	Local Roads and Bridges	\$33,335.96	\$33,335.96	Yes
306	2021-005889	Excelsior No. 166, RM of	Upgrade Bridge at E 03-17-11-W3	Replace piles, riprap, dirt and railings on the bridge as required by engineering inspection.	Local Roads and Bridges	\$37,249.94	\$37,249.94	Yes
307	2021-005890	Excelsior No. 166, RM of	Upgrade Bridge at N 10-19-13-W3	Replace bridge railings with two steel piles with C-Channel rail as required per engineering inspection.	Local Roads and Bridges	\$8,259.52	\$8,259.52	Yes
308	2021-005894	Excelsior No. 166, RM of	Upgrade Bridge at E 07-17-10-W3	Upgrade bridge by replacing six stringers and installing steel brackets to hold wheel guards 30 cm above deck. Costs for the project include labor and all material purchases.	Local Roads and Bridges	\$27,002.91	\$27,002.91	Yes
309	2021-005895	Excelsior No. 166, RM of	Pave Bridge at SE 24-16-13-W3	Pave 32.9 m x 7.2 m bridge with 80 mm thick asphalt. This is new pavement.	Local Roads and Bridges	\$15,538.54	\$15,538.54	Yes
310	2122-006216	Excelsior No. 166, RM of	Upgrade 12.8 km of Waldeck Road	Remix, shape, and pack 12.8 km of Range Road 3123 on Grid 628 north of Waldeck.	Local Roads and Bridges	\$172,858.00	\$85,368.00	Yes
311	1920-004681	Excelsior No. 166, RM of	Replace Bridge with Culverts at NW 16-16-12-W3	Replace old concrete bridge with a 3 m x 23 m culvert to extend useful life of road.	Local Roads and Bridges	\$30,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
312	2021-005671	Eyebrow No. 193, RM of	Replace Bridge at NE 18-19-01-W3	Bridge replacement consists of dismantling and disposing of existing 12 m timber bridge, installing a new precast-concrete substructure and superstructure which would include construction of approaches.	Local Roads and Bridges	\$755,945.48	\$79,690.70	Yes
313	1920-004926	Eyebrow, Village of	Improve Energy Efficiency of Community Rink	Install two energy efficient water heaters and a new furnace; retrofit three doors and upgrade exterior siding of the community rink to improve the energy efficiency of the structure.	Community Energy Systems	\$25,000.00	\$1,087.55	No
314	1415-003257	Eyebrow, Village of	Replace Sidewalks	Replace sidewalks by removing existing and pouring new to promote pedestrian traffic.	Local Roads and Bridges	\$12,000.00	\$0.00	No
315	1415-003258	Eyebrow, Village of	Village Office Energy Retrofit	Install new energy efficient furnace, water heater, windows, add additional insulation and siding on village office building to reduce energy use.	Community Energy Systems	\$10,000.00	\$0.00	No
316	1415-003259	Eyebrow, Village of	Village Shop Energy Upgrades	Increase energy efficiency of municipal shop by installing new energy efficient heater, windows and doors.	Community Energy Systems	\$7,000.00	\$0.00	No
317	1415-003261	Eyebrow, Village of	Install Four Culverts to Reduce Flooding	Replace and install four culverts to help with flooding to protect drinking water from cross-contamination.	Wastewater	\$8,000.00	\$0.00	No
318	1920-004790	Eyebrow, Village of	Decommission Landfill	Decommission the landfill site per plan submitted to the Ministry of Environment. The landfill is approximately 22,865 sq m and has been replaced by a transfer station.	Solid Waste	\$75,000.00	\$0.00	No
319	2021-005778	Fairlight, Village of	Replace Water Treatment Plant Filtration Systems	Construct and replace two greensand filtration systems in the water treatment plant. Costs include labor to engineer the filter packages as well as purchase of required materials.	Drinking Water	\$22,852.28	\$15,174.99	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
320	2021-005867	Fenwood, Village of	Install Reverse Osmosis Water Treatment Dispenser	Build a 2.4 m x 3.1 m shed and install a reverse osmosis water treatment system and water dispenser to provide drinking water to village residents.	Drinking Water	\$10,186.51	\$5,874.51	Yes
321	1516-003422	Fenwood, Village of	Install Two Curb Boxes and Two Hydrants	Install two curb boxes and two hydrants for cleaner water. Hydrants allow flushing of lines removing sediment and will be connected to drinking water lines.	Drinking Water	\$4,861.80	\$0.00	No
322	1516-003423	Fenwood, Village of	Install a Culvert on Queen Street North	Install a 0.61 m x 18 m culvert on Queen Street North to improve drainage and avoid major flooding of road.	Local Roads and Bridges	\$4,000.00	\$0.00	No
323	1516-003599	Fertile Belt No. 183, RM of	Construct Electrical Gates at Lagoon	Install electrical gates and transformer at entrance to monitor access to the lagoon.	Wastewater	\$36,640.56	\$1,890.00	Yes
324	2021-005553	Fertile Belt No. 183, RM of	Resurfacing 1.2 km of Pavement on Grid 637	Resurface 1.2 km of Grid 637 from the outskirts of Esterhazy going south. Includes applying a 50 mm pavement lift on a 9 m road top.	Local Roads and Bridges	\$140,000.00	\$0.00	No
325	1920-005053	Fertile Valley No. 285, RM of	Reconstruct North 6.5 km of Pump Station Road	Reconstruct 6.5 km of road by raising grade, correct crown, correct side slopes, widen from 7.32 m to 8.6 m and includes installation of six- 600 mm x 18 m x 1.6 mm and 31- 500 mm x 18 m x 1.6 mm culverts.	Local Roads and Bridges	\$613,095.60	\$292,750.15	Yes
326	2021-005110	Fish Creek No. 402, RM of	Upgrade 3.5 km of Grid Road 777 - Phase 4	Road upgrade on grid road 777 south of sections 13 and 14-41-27-W2. Project entails adding approximately 0.45 m lift of clay base on a 9 m wide road top for 3.5 km length.	Local Roads and Bridges	\$236,871.24	\$145,552.65	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
327	2021-005472	Flett's Springs No. 429, RM of	Upgrade Bridge at N 09-45-21-W2	Upgrade bridge by installing preservatives, sway bracing (wingwalls including backing planks, piles, rails), geotextile on embankments for slope protection, and repair and fill and reseed embankments. Costs for this project include engineering design as well as labour.	Local Roads and Bridges	\$116,991.67	\$11,782.67	Yes
328	2021-006085	Flett's Springs No. 429, RM of	Replace Bridge at E 12-44-21A-W2	Replace old pre-cast concrete bridge with a new 9 m single span bridge.	Local Roads and Bridges	\$627,597.66	\$533,823.73	Yes
329	1920-005072	Foam Lake No. 276, RM of	Develop Asset Management Plan	Hire engineering consultants to compile an asset register and asset management plan.	Capacity Building	\$21,478.00	\$16,848.00	Yes
330	2021-005985	Foam Lake No. 276, RM of	Upgrade Tuffnell Community Hall	Replace and upgrade the 25-year-old fluorescent lighting in the community hall to new LED lighting. Upgrade outside flashing of the hall to eliminate ongoing water damage to the building. The flashing measures 18.3 m x 30.5 m.	Recreational Infrastructure	\$9,992.94	\$0.00	No
331	1920-004924	Foam Lake, Town of	Pave 221 m of Pysden Drive	Pysden Drive paving will include removing old sections of asphalt pavement and replacing them with a new 76 mm lift of pavement on an area 221 m x 9.8 m. The new pavement will allow taxpayers to safely utilize this street.	Local Roads and Bridges	\$98,612.65	\$98,612.65	Yes
332	2021-006112	Foam Lake, Town of	Replace Water Line on Main Street	Replace the 170.7 m x 0.15 m water line along the 300 block of Main Street. Includes removal and replacement of pavement. This line services 19 locations.	Drinking Water	\$242,271.67	\$242,271.67	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
333	2021-006053	Fort Qu'Appelle, Town of	Replace Road at 8th Street and Bay Avenue South	Replace asphalt road at corner of 8th Street East and West and Bay Avenue South. Work includes excavating and grading the street to match the gutters, compacting subgrade, applying tack oil and installing 7.62 cm of hot mix asphalt. Total area worked on 8th Street East (48.6 m x 2.15 m and 53.54 m x 12.46 m) and Bay Avenue South (69.2 m x 2.92 m).	Local Roads and Bridges	\$53,710.20	\$53,710.20	Yes
334	2021-005810	Fort San, Resort Village of	Paving Various Streets and Walking Trail	Project involved paving with 5 cm compacted hot mix the walking trail from the campground to Gordon's subdivision (240 m x 1.8 m) and onward through Fort San (546 m x 1.8 m). Portions of Gordon subdivision were paved, and a portion of Lilac Grove repaved with 12.5 mm asphalt.	Local Roads and Bridges	\$81,005.20	\$0.00	No
335	2122-006162	Fosston, Village of	Install Three Hydrants	Install three new hydrants within the village. The expected outcome is maintaining high quality water delivery by enabling adequate flushing of the system. The hydrant system will remove sediment from the water lines. Sediment removal improves water quality by reducing turbidity.	Drinking Water	\$30,000.00	\$0.00	No
336	2021-005238	Fox Valley No. 171, RM of	Geo-Thermal Upgrade	Replace entire geo-thermal system including four-ton water furnace heat pump and air conditioner.	Community Energy Systems	\$19,015.39	\$19,015.39	Yes
337	2021-006057	Fox Valley No. 171, RM of	Replace Two Furnaces in the Skating Arena	Replace two non-functional furnaces in the skating arena.	Recreational Infrastructure	\$22,800.00	\$22,800.00	Yes
338	2021-006058	Fox Valley No. 171, RM of	Upgrade Lighting in the Skating Arena	Purchase and install 34 LED light fixtures and lights to replace the old ballasts and bulbs. The old lights were inefficient and took extended periods of time to light up.	Community Energy Systems	\$18,760.50	\$18,760.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
339	2021-006059	Fox Valley No. 171, RM of	Resurface the Sportsground - Four Ball Diamonds	Level and resurface the sportsground. Four ball diamonds measuring 11.15 sq m each were resurfaced with shale.	Recreational Infrastructure	\$33,584.16	\$33,584.16	Yes
340	1920-005011	Fox Valley, Village of	Construct New Curb and Road on 4th Street East	Pour and mold 149.4 m of new rounded curb on the east side of the street. Widen the existing street by 1.5 m along the same length as the new curb. Apply 10.16 cm of hot mix asphalt to the street. Construct a 149.4 m long sidewalk.	Local Roads and Bridges	\$130,023.26	\$130,023.26	Yes
341	2021-006067	Fox Valley, Village of	Replace 57.6 sq m of Sidewalk on Railway Avenue East	Replace 57.6 sq m of sidewalk on Railway Avenue East to extend the useful life of the walkway. The previous sidewalk was unsafe.	Local Roads and Bridges	\$7,440.00	\$7,440.00	Yes
342	2021-005246	Francis No. 127, RM of	Upgrade Morley Bridge at N 24-13-15-W2	Upgrade Morley Bridge located at N 24-13-15-W2 by enhancing the embankment, installing geo-cloth and riprap, replacing backing planks and installing additional timber preservative to ensure safety for public, capacity and to prolong the capital asset's useful life.	Local Roads and Bridges	\$127,200.00	\$127,200.00	Yes
343	2021-005292	Francis, Town of	Standalone Study - Engineering and Design to Correct Water Issues	Develop and submit a written plan completed by an independent third-party professional engineer on how to upgrade and operate the water works as per the requirements to address groundwater under direct influence of surface issues.	Drinking Water	\$5,141.75	\$3,228.00	Yes
344	2021-005605	Francis, Town of	Install 42.7 m Fence Around Fresh Water Spring	Remove old fence and install a new 42.7 m barbed wire fence with a gate around the freshwater spring that provides the town's water supply.	Drinking Water	\$3,154.00	\$3,154.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
345	2021-005788	Francis, Town of	Excavate Lagoon Dykes and Install New Valve	Work was done at the lagoon to upgrade lagoon operation by excavating dirt away from the divider dyke and other dykes and install a new valve between the cells.	Wastewater	\$8,122.50	\$8,122.50	Yes
346	2021-005790	Francis, Town of	Move Sewer Line on Campkin Street and Add New Residence	The sewer line on the south end of Campkin Street had to be moved to alleviate the sewer smell and to hook up to a new residence.	Wastewater	\$4,750.82	\$4,750.82	Yes
347	2021-005971	Francis, Town of	Energy Efficiency Upgrades in Firehall	Install two new energy-efficient furnaces, two new insulated steel walk-in doors, two new overhead doors with thermopane windows, and new LED lighting to reduce energy bills.	Community Energy Systems	\$16,710.00	\$16,710.00	Yes
348	2021-005950	Francis, Town of	Upgrade Water Treatment Plant	Upgrade water treatment plant by implementing a coagulant feed system upstream of filters, modify to a direct filtration system, install UV dissemination reactors, install potassium permanganate and sodium hypo-chlorate feed systems, replace flow meter on distribution pumping system, upgrade PLC, HMI and SCADA controls and increase storage capacity.	Drinking Water	\$142,000.00	\$0.00	No
349	2021-005150	Frenchman Butte No. 501, RM of	Pave 6.7 km of Township Road 540A with 80 mm of Asphalt	Pave 6.7 km of gravel road with 7.4 m top and 80 mm of asphalt on Township Road 540A from St. Walburg to RR 3232 to improve the condition of the road, improve safety for the traveling public, increase volume of traffic and to lengthen the lifespan of the road.	Local Roads and Bridges	\$3,803,636.72	\$648,916.04	Yes
350	2021-005410	Frobisher, Village of	Replace Furnace at Water Treatment Plant	Replace furnace in the water treatment plant to ensure the plant continues to function as required by maintaining a constant internal temperature.	Drinking Water	\$3,370.80	\$3,370.80	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
351	2021-005411	Frobisher, Village of	Flooring Replacement at Community Hall	The flooring in the community hall was dated and beginning to crumble. It was not feasible to repair it and so opted for a replacement. Costs include 268 m of timber and adhesives.	Recreational Infrastructure	\$8,436.01	\$8,436.01	Yes
352	2021-005412	Frobisher, Village of	Replace Furnace in Community Hall	Replace the furnace in the community hall to continue to hold annual events and have reliable heating.	Recreational Infrastructure	\$3,540.52	\$3,540.52	Yes
353	2021-005838	Frobisher, Village of	Develop Asset Management Plan	An engineering firm will be hired to obtain asset information, complete data collection, and develop an asset management plan and an asset management strategy.	Capacity Building	\$20,516.25	\$6,925.63	No
354	2021-005839	Frobisher, Village of	Rebuild Berm and Replace Fence at Village Dugout	Rebuild the berm and replace the fence at the village dugout. The area of the dugout is 36.6 m x 54.9 m for a total of 182.9 linear meters of fence plus a man gate. This dugout is a storm water retention pond in a low-lying area in the village with three culverts attached that transport water from other areas into it in case of flooding.	Wastewater	\$20,682.45	\$20,682.45	Yes
355	2021-005869	Frontier No. 19, RM of	Upgrade 3.22 km of Grid Road E of 23 and 26-01-20-W3	On 3.22 km of grid road south of Frontier, sub-grade stabilization work was completed by removing the road, adding gravel, compacting and adding a second layer of gravel.	Local Roads and Bridges	\$63,600.00	\$63,600.00	Yes
356	2021-005297	Frontier, Village of	Repave Multiple Roads in Village	Repave multiple roads within the village by excavating, planning, leveling and recovering with 5.08 cm of asphalt for a total of 213 m by 8.5 m.	Local Roads and Bridges	\$229,683.11	\$176,216.11	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
357	1718-004415	Garden River No. 490, RM of	Replacement of Meath Park Grid Bridge	Replacement of 60 year-old Meath Park Grid Bridge located on primary traffic gravel road that is the primary corridor for grain out of the RM of Garden River. The existing bridge has been reduced to secondary weights. The new bridge is the same size as the existing bridge, a three-span bridge 18 m long and 6 m wide.	Local Roads and Bridges	\$339,441.64	\$55,629.19	No
358	2021-005747	Garry No. 245, RM of	Upgrade Bridge at ESE 34-25-07-W2	Install preservatives in both abutment pile caps, install new abutment and wing piles, install knee braces and do some necessary tertiary work to address non-structural defects.	Local Roads and Bridges	\$93,804.70	\$93,804.70	Yes
359	2122-006260	Garry No. 245, RM of	Replace Bridge at ENE 23-27-08-W2 with Two Culverts	Remove existing bridge at ENE 23-27-08-W2 and replace with approximately two 16 m x 2,200 mm x 2.8 mm steel culverts as per engineer recommendations.	Local Roads and Bridges	\$50,578.71	\$50,578.71	Yes
360	2021-005189	Gerald, Village of	Water Infrastructure Upgrades	Replacement of water lines from the current well to village residents for safe drinking water. Approximately 7 km of new PVC pipe is required. In addition to replacing the existing water lines, the village will be replacing ten curb stops and installing a back-up pump and generator for the well.	Drinking Water	\$150,000.00	\$0.00	No
361	2021-005578	Glaslyn, Village of	Resurfacing Roads in Village - 2020	Resurfacing of 1st Street East and 2nd Street East from Railway Avenue to 1st Avenue; 3rd Street East from Railway Avenue to Macaskill Avenue and 2nd Street West from 2nd Avenue to Macaskill Avenue. Existing pavement was removed, and gravel base added as required. Type 3 asphalt concrete placed.	Local Roads and Bridges	\$105,267.67	\$105,267.67	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
362	2021-005181	Glen Bain No. 105, RM of	Replace Three Culverts at SW 2-12-7-W3M	Replace three culverts (1,200 m x 25 m) to make low level crossing passable.	Local Roads and Bridges	\$115,439.38	\$30,467.83	Yes
363	2021-005862	Glen Mcpherson No. 46, RM of	Upgrade 0.7 km of Hillendale Road at NE 21-04-12-W3	Reconstruction of 0.7 km of Hillendale Road involves building up road elevation by 0.6 m to improve drainage and insert three 762 mm x 9 m culverts.	Local Roads and Bridges	\$26,440.02	\$7,017.60	Yes
364	2021-005863	Glen Mcpherson No. 46, RM of	Upgrade 0.8 km of Gravel Pit Road at NW 23-06-11-W3	Buildup 0.8 km of Gravel Pit Road to improve drainage by raising road 0.3 m, replacing one 1,500 mm x 15 m culvert, and installing two 900 mm x 14 m culverts and one 600 mm x 13 m culvert.	Local Roads and Bridges	\$24,643.84	\$23,966.40	Yes
365	2021-005733	Glenside No. 377, RM of	Upgrade Baljennie Road at SE 21-41-14-W3	Upgrade Baljennie Road as follows: remove 0.5 km section of deteriorated road, install approximately 15 rolls of geomat and 31 rolls of combi grid, then rebuild with new and existing dirt, clay, and gravel. The road is one of the main thoroughfares through the municipality and this work will extend the service life of the road.	Local Roads and Bridges	\$44,862.07	\$44,862.07	Yes
366	2122-006189	Glenside, Village of	Upgrade Electrical in Water Treatment Plant to 200 Amp Service	Upgrade electrical in water treatment plant to 200-amp service including service equipment, electrical panel, wire and breakers.	Drinking Water	\$3,316.46	\$3,316.46	Yes
367	2122-006197	Glenside, Village of	Water Plant Generator	Install back-up generator at water treatment plant, including cement pad for permanency and required wiring so residents will have water during long power outages. Upgrades to water treatment plant electrical for this was completed on IIP 2122-006189.	Drinking Water	\$21,995.02	\$11,072.02	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
368	2122-006335	Glenside, Village of	Resurface 600 m x 6 m of Railway Avenue	Resurface 600 m x 6 m of Railway Avenue by removing the pavement and remixing to correct the crown for proper drainage.	Local Roads and Bridges	\$9,983.80	\$9,983.80	Yes
369	2122-006237	Golden Prairie, Village of	Standalone Study - Landfill Decommission Assessment and Engineering	In preparation of decommissioning the landfill and converting it to a transfer station an engineering assessment had to be completed. Once complete, the process to decommission the landfill and construct a transfer station will begin.	Solid Waste	\$37,651.50	\$16,725.74	No
370	1516-003345	Good Lake No. 274, RM of	Decommission Landfill and Construct Transfer Station	Decommission two existing landfills getting close to capacity and construct a transfer station.	Solid Waste	\$205,000.00	\$10,848.50	No
371	1920-005073	Good Lake No. 274, RM of	Asset Management Program - Road Segmentation and Building Categorization	Hire consultant to assist with gathering data on roads, bridges and culverts; assisting with the policy development, asset management planning and strategies; updating asset registry; and training employees and counsellors.	Capacity Building	\$25,000.00	\$2,542.50	No
372	2021-005816	Good Lake No. 274, RM of	Widen Mayrand Bridge at NW 16-29-04-W2	Mayrand Bridge will be widened by 2.44 m on each side. Additional side piles will be added to widen the driving area. The side railing which has been deemed too low will be replaced.	Local Roads and Bridges	\$60,000.00	\$7,148.43	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
373	2122-006193	Good Lake No. 274, RM of	Construct a 1.2 km Biking/Walking Trail at Burgis Beach	Construct 1.2 km x 3.5 m walking and cycling paths by removing the top layer of sod and using clay for the base, followed by highway reject gravel that will be packed in place. Includes four sitting areas that will be constructed using poured concrete slabs, benches and covered garbage cans that will be attached to the slab, with trees planted on either side to provide safe and enjoyable biking/walking areas for the residents, seasonal owners, and visitors to the Hamlet of Burgis Beach.	Local Roads and Bridges	\$12,000.00	\$6,000.00	No
374	2021-005418	Goodeve, Village of	Decommission Landfill	Consult with an engineer to assist in closing and decommissioning the municipal landfill in accordance with the Saskatchewan Environmental Code. Including groundwater monitoring and environmental assessment. The landfill measures approximately 8,255.59 sq m.	Solid Waste	\$30,000.00	\$0.00	No
375	2021-005132	Goodwater, Village of	Purchase Asset Management Software	Purchase asset management software to catalogue and condition all village assets, and to develop an asset management plan. The plan will encompass future five- and 10-year financial plans for the maintenance and management of municipal owned assets. Risks and levels of service will be evaluated and will be factored into long term planning. Funding gaps will be identified between the current state of the infrastructure and the desired condition of all assets.	Capacity Building	\$1,325.00	\$1,325.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
376	2021-005691	Goodwater, Village of	Rebuild Access Road at ENE 20-05-13-W2	An access road measuring 1.6 km x 8.6 m will have the existing road surface removed, the base and sub-base built up and a sand seal coating placed on top. This project will improve access to the village and is being jointly completed with the RM of Lomond No. 37.	Local Roads and Bridges	\$350,000.00	\$0.00	No
377	2021-005408	Govan, Town of	Install 126 Water Meters	Purchase and install 126 remote reader water meters in all residences and businesses connected to the Town of Govan water distribution system. The objective is to help consumers be conscious of water usage and to encourage water conservation and responsible water consumption.	Drinking Water	\$87,495.10	\$87,495.10	Yes
378	1920-004821	Grand Coulee, Town of	Recreational Field Construction	Construct a 60 m x 42 m outdoor recreation field allowing for adult and youth sports, including soccer, football, field hockey and lacrosse. It will include an irrigation system and fencing.	Recreational Infrastructure	\$185,727.90	\$32,882.79	Yes
379	2021-005182	Grandview No. 349, RM of	Recap 3.2 km of Range Road 3202	Clay capping 3.2 km of Range Road 3202 with 19,878 cu m of clay to increase capacity and estimated service life.	Local Roads and Bridges	\$98,382.34	\$98,382.34	Yes
380	2021-005526	Grant No. 372, RM of	Construct 3.2 km of New Road at E of 9, 4-38-01-W3	Construct 3.2 km of main farm access road with an 8 m road top, and including a 600 mm x 19 m culvert, a 500 mm x 16 m culvert and two 400 mm x 16 m culverts. Used 2.4 cu m gravel, as well as culvert rock.	Local Roads and Bridges	\$43,198.96	\$43,198.96	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
381	1516-003836	Grant No. 372, RM of	Clay Cap 9.6 km Smuts Grid 767	Reconstruct 9.6 km of Smuts Grid 767 primary weight road which has been designated as a heavy haul road. Clay cap and upgrade the 4:1 shoulder slope, entire road surface, and narrowing the 10 m road surface to 9 m road surface.	Local Roads and Bridges	\$425,000.00	\$0.00	No
382	2021-005561	Grass Lake No. 381, RM of	Clay Cap 24 km of Grid 675, Range Road 3242	Clay cap grid roads by adding 0.3 m of clay. Flexamat was used to stop erosion. No culverts were replaced. Road construction was 8.6 m wide with a 30.76 m right of way.	Local Roads and Bridges	\$1,729,545.93	\$169,885.35	Yes
383	2021-006102	Gravelbourg No. 104, RM of	Replace Gingell Bridge at NW 35-11-04-W3	Replace timber bridge with a 13.7 m x 9.7 m clear span bridge constructed of concrete girders, steel pipe pile, and wooden back walls and wing walls. The main objective is having a safe, sound structure in place that will require very little annual repairs.	Local Roads and Bridges	\$467,689.64	\$161,532.70	Yes
384	2021-006027	Gravelbourg, Town of	Replace Arena Brine Headers	Replace two 30.5 m rink brine headers and two 19.8 m curling rink headers. The original brine headers are 15 cm steel pipes and have corroded. The new headers will be constructed of 15 cm PVC pipe with stainless steel nipples and be in shorter sections joined by flanges to ensure ease of future maintenance.	Recreational Infrastructure	\$98,224.43	\$97,714.01	No
385	2021-006029	Gravelbourg, Town of	Upgrade Gaiety Theatre Door	The Gaiety Theatre was not accessible to persons with disabilities. This project replaced the old door with a new door that is electric and accessible to persons with disabilities allowing all ages and abilities to see live performances and cultural events.	Cultural Infrastructure	\$15,231.14	\$15,231.14	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
386	2021-006030	Gravelbourg, Town of	Replace 515 Water Meters	Replace approximately 515 water meters throughout the town to ones with electronic readers that can be read remotely.	Drinking Water	\$90,000.00	\$16,933.09	No
387	2021-006031	Gravelbourg, Town of	Install Storm Sewer Pipe and Backfill Ditch	The town has an open ditch that takes storm water to the river. The Water Security Agency requires that this ditch be enclosed to mitigate the risk to land and to travelers along the highway. Plastic pipe (107 cm N12) will be installed, and the 1,500 m long open trench/ditch will be backfilled to grade.	Wastewater	\$600,000.00	\$147,859.18	No
388	2021-005266	Grayson No. 184, RM of	Reconstruct 4.8 km of Dubuc Grid	Reconstruct 4.8 km of grid road by replacing culverts and laying new clay cap to accommodate heavy haul traffic and provide a primary weight corridor for access to other communities. Work to be completed at W 23, 26 and 35-19-04-W2.	Local Roads and Bridges	\$367,336.22	\$19,209.68	Yes
389	2021-005840	Grayson, Village of	Pave Killaly Avenue from Railway Avenue to Saskatchewan Avenue and at Grayson Community Skating Rink	The village paved the last residential gravel road. Paving included 170 sq m of Killaly Avenue from Railway Avenue to Saskatchewan Avenue, as well as repaving in front of the Grayson Community Skating Rink. This project improved the local roads in the community including the accessibility of residents living on Killaly Avenue.	Local Roads and Bridges	\$93,997.26	\$91,507.58	Yes
390	1920-004703	Great Bend No. 405, RM of	Install Large Culverts at 13-40-09-W3 and 6-40-08-W3	Replace two (1,200 mm x 55 m and 1,200 mm x 36 m) culverts through Township Road 400A and Township Road 402. This will increase estimated service life.	Local Roads and Bridges	\$231,820.76	\$23,017.48	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
391	1920-004977	Green Lake, Northern Village of	Renovate Kitchen and Exterior of Community Hall	Renovate and expand the existing kitchen and address electrical issues in the community hall. Add a concrete deck that will allow the building to be accessible and will deal with water runoff draining under the building and construct a small outdoor gazebo. This project will provide a more accessible space with upgraded facilities meeting fire and electrical codes.	Recreational Infrastructure	\$155,972.40	\$60,000.00	Yes
392	1920-004978	Green Lake, Northern Village of	Replace Lighting in Community Arena and Municipal Shop	Replace incandescent lighting in both the community arena (45) and municipal shop (17) to LED, to decrease energy consumption and save costs.	Community Energy Systems	\$26,860.40	\$26,860.40	Yes
393	1920-004979	Green Lake, Northern Village of	Renovate Community Hall Washrooms to be Accessible to Persons with Disabilities	Remove both existing washrooms and a storage room in the community hall, replacing them with two large washrooms that are accessible to persons with disabilities. It features two stalls in each and all plumbing and electrical is replaced to have accessible washroom facilities that meet code and provide a better facility that can adequately handle the number of patrons for funerals, weddings and community events.	Recreational Infrastructure	\$47,832.50	\$47,832.50	Yes
394	1920-004975	Green Lake, Northern Village of	Renovate Tom Dooley Ball Diamonds	Replace all fencing at the two existing ball diamonds, replace spectator seating, replace two dugouts per field and re-gravel the road and parking area.	Recreational Infrastructure	\$80,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
395	1920-005060	Green Lake, Northern Village of	Green Lake Water Treatment Plant Solar Project	Install 56.98 kW full solar system inclusive of solar panel installation, racking, wiring, electrical permits, system drawings, SaskPower forms and commissioning, all required to install and operate a solar photovoltaic (PV) system. The system will be installed adjacent to the water treatment plant. The main objective is to reduce the cost of utilities related to water plant operations and to support a renewable resource for energy.	Community Energy Systems	\$150,000.00	\$0.00	No
396	1920-005054	Griffin No. 66, RM of	Construct 24 m x 46 m Shop Maximizing Energy Efficiency	Build a new 24 m x 46 m shop with five insulated steel overhead doors, a minimum of six walk through doors and a minimum of ten triple pane windows. It will have a cement floor with appropriate drains and in-floor heating. All windows and doors will comply with the most up-to-date energy efficient data, resulting in a building that is more energy efficient and that will house most of our equipment to reduce heating costs. This shop will replace obsolete shop.	Community Energy Systems	\$750,000.00	\$162,528.08	No
397	2021-005554	Gull Lake No. 139, RM of	Reconstructing 3.22 km of Steele Road	Reconstruct 3.22 km road by stripping it down and rebuilding with clay the road and shoulders to 7.5 m top.	Local Roads and Bridges	\$105,429.50	\$86,560.65	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
398	2021-005652	Gull Lake, Town of	Repave Roads and Upgrade Curb and Gutter	Recap 10.8 m x 84 m of 5th Street from Rutland Avenue to Prince Avenue, crack seal or recap 440.3 m x 10.3 m of Roger Aldag Avenue from 3rd Street to 6th Street, recap 595.8 m x approximately 10.7 m of Queens Avenue from 2nd Street to 6th Street, and recap intersection of Price Avenue and Grey Street. Also, upgrade 135 m of concrete rolled curb and gutters on Queens Avenue. Asphalt recap will be 50 mm thick. This project includes upgrades to subgrade, sub-base and base, as well as to the road top.	Local Roads and Bridges	\$467,849.98	\$467,849.98	Yes
399	2021-005318	Hafford, Town of	Upgrade 499 m of Town Streets	Upgrade four locations with grade pack and chip seal or grade pack and application of cold mix asphalt and cutback. On 200 block of 2nd Avenue West, approximately 110 m will be upgraded with 60 tonnes of cold mix placed and packed and both ends of road tac sealed and approximately 70 cu m of type 33 compaction gravel applied. On 1st Street West, 15 tonnes of cold mix will be placed and packed to approximately 10 cm thick on a 99 m length. South Avenue East will have a 93 m length upgraded with 60 tonnes of cold mix placed and packed and 1st Street East will have 197 m of road upgraded with type 33 compaction gravel and tac.	Local Roads and Bridges	\$60,646.35	\$60,646.35	Yes
400	1920-004936	Hague, Town of	Replace 180 m of Sewer Line, Two Manholes and 12 Connections	Excavate and replace 180 m of 200 mm sewer line, replace two manholes and 12 residential connections on 5th Street from Main Street to J. E. Friesen Avenue.	Wastewater	\$78,259.53	\$78,259.53	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
401	1920-004937	Hague, Town of	Replace 173 m of Sewer Line, Two Manholes and 16 Connections	Excavate one block of 5th Street from J.E. Friesen Avenue to Saskatchewan Avenue to replace 173 m of 200 mm sanitary sewer line, two manholes and 16 residential connections.	Wastewater	\$73,436.53	\$73,436.53	Yes
402	1920-004938	Hague, Town of	Replace 137 m of Sewer Line, Two Manholes and 11 Connections	Excavate one block of 5th Street from Saskatchewan Avenue to Diefenbaker Avenue to replace 137 m of 200 mm sanitary sewer line, two manholes and 11 residential connections as existing line has sags, breaks and beginning to fail.	Wastewater	\$65,245.88	\$65,245.88	Yes
403	2021-005903	Halbrite, Village of	Upgrade Water Treatment Plant Electrical Systems	Replace electrical in the water treatment plant, pump house and well three as the systems are outdated and inoperable. Upgrades will include an alarm for the water treatment plant as well as upgrades to three pressure tanks.	Drinking Water	\$26,500.00	\$5,808.69	No
404	2021-005907	Halbrite, Village of	Replace Two Pumps and Piping in Water Treatment Plant	Replace dated piping in the water treatment plant and install 45.7 m of new PVC piping. Replace the distribution pump and the discharge pump.	Drinking Water	\$12,179.86	\$12,179.86	Yes
405	2122-006310	Halbrite, Village of	Replace Water Meters and Water Meter Reading System	Replace 12 non-functional water meters and obtain a new meter reading system. This will ensure all water meters can be read accurately, quickly, and efficiently and usage issues can be determined and addressed in a timely fashion.	Drinking Water	\$14,931.00	\$14,931.00	Yes
406	2021-005904	Halbrite, Village of	Install Generator at Water Treatment Plant	Install a fixed gas generator as a power back-up in the water treatment plant, eliminating challenges with power outages.	Drinking Water	\$10,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
407	2021-005906	Halbrite, Village of	Build Lean-To for Water Treatment Plant Generator	Build a lean-to to house the water treatment plant back-up generator. Costs include materials: wood, tin, insulation and wiring, as well as labour. Lean-to will measure approximately 3 m x 6.1 m.	Drinking Water	\$7,000.00	\$0.00	No
408	2122-006181	Hanley, Town of	Replace 67 Water Meters and Install New Meter Reading System	Replace the existing meter reading system with a new cloud-based system as the current reading system will no longer be supported and replace 67 water meters.	Drinking Water	\$31,102.94	\$31,102.94	Yes
409	2021-005672	Harris No. 316, RM of	Upgrade Clayton Bridge at E 14-33-12-W3	Upgrade of pier piles and caps at Clayton Bridge at E 1/2 14-33-12-W3M, to ensure safe transportation for travelers and to help maintain the agriculture economy.	Local Roads and Bridges	\$575,000.00	\$0.00	No
410	1920-005078	Harris, Village of	Upgrade Manganese Filtration at Water Treatment Plant	Implementing a bio-filtration system into existing water treatment plant for the removal of manganese in the water as the current manganese levels are significantly high. The current water plant building may not be able to be configured for the extra equipment, so renovations or additions may be required as well as analysis of the current concrete for load bearing.	Drinking Water	\$300,000.00	\$0.00	No
411	2021-005721	Hart Butte No. 11, RM of	Rebuild and Clay Cap 4.8 km of Grid Road at N 07 to 09-01-26-W2	Rebuild and clay cap 4.8 km of grid road. Clay cap will be 30 cm thick, and the road will be widened by approximately 0.6 m.	Local Roads and Bridges	\$183,858.88	\$108,984.60	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
412	2021-005174	Hawarden, Village of	Rebuild Berm between Lagoon Cells	The project will rebuild the berm between the cells of the lagoon. The main objective of the project is to enhance the ability of the lagoon to treat wastewater. Riprap will be installed on the berm to protect it from future erosion, replace small culvert, some sewage lines and valves. Approximately 2,294 cu m of fill and concrete for riprap will be moved to rebuild the berm.	Wastewater	\$29,000.00	\$0.00	No
413	2021-005103	Hazel Dell No. 335, RM of	Replace Rockford Bridge with Culverts	Remove old Rockford Bridge and replace with two 2,300 mm x 17 m culverts.	Local Roads and Bridges	\$43,228.59	\$43,228.59	Yes
414	2021-005104	Hazel Dell No. 335, RM of	Replace Babchishin Bridge with a Culvert	Remove old Babchishin Bridge and replace with a 3,000 mm x 26 m culvert at E of SE 14-34-07-W2.	Local Roads and Bridges	\$68,244.94	\$68,244.94	Yes
415	2021-005105	Hazel Dell No. 335, RM of	Replace Bray Bridge with Culverts	Remove old Bray Bridge and replace with three 1,800 mm x 18 m culverts.	Local Roads and Bridges	\$43,009.94	\$43,009.94	Yes
416	2021-005106	Hazel Dell No. 335, RM of	Replace Chandler Bridge with a Culvert	Remove old Chandler Bridge and replace with one 2,000 mm x 17 m culvert.	Local Roads and Bridges	\$28,569.64	\$28,569.64	Yes
417	2021-005107	Hazel Dell No. 335, RM of	Replace Chornomitz Bridge with Culverts	Remove old Chornomitz Bridge and replace with two 2,200 mm x 24 m culverts	Local Roads and Bridges	\$71,408.20	\$71,408.20	Yes
418	2021-005108	Hazel Dell No. 335, RM of	Replace Pozniak Bridge with a Culvert	Remove old Pozniak Bridge and replace with one 3,000 mm x 26 m culvert.	Local Roads and Bridges	\$73,926.54	\$73,926.54	Yes
419	2021-006120	Hazenmore, Village of	Upgrade Office Building Lighting System to LED	Replace current lighting system in the village office with LED fixtures.	Community Energy Systems	\$2,234.69	\$2,234.69	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
420	2021-006119	Hazenmore, Village of	Upgrade Community Hall Lights and Doors	Complete upgrades on the community hall which will involve replacing the current interior lighting system to LED lighting and installing two new energy efficient commercial grade exterior doors. This will reduce the overall energy consumption of the building.	Community Energy Systems	\$4,550.00	\$0.00	No
421	2021-005812	Hazlet, Village of	Upgrade Lagoon Dikes	Rebuild dikes around No. 1 with 956 cu m of clay and compacted it to strengthen possible weak spots and overseeded to grass. Cell No. 2 will be rebuilt in 2021 with the same process.	Wastewater	\$19,010.00	\$19,010.00	Yes
422	2021-005327	Hepburn, Town of	Reline Sewers and Replace Manholes	Camera sewer lines to determine weak areas. Reline approximately 85 m of 20.32 cm diameter clay pipe with cured-in-place felt liner. Replace clay pipe service connection using 3 m x 10.2 cm PVC pipe. Replace and upgrade 21 manholes.	Wastewater	\$77,642.92	\$77,642.92	Yes
423	1920-004935	Hillsborough No. 132, RM of	Install 12 Solar Panels and 17 LED Lights for Shop	Installation of ground mounted 3.78 kW off grid solar system (12 panels or 25.08 sq m), and 17 LED lights for the municipal shop (222.97 sq m).	Community Energy Systems	\$46,502.93	\$46,502.93	Yes
424	1516-003353	Holdfast, Village of	Standalone Study - Predesign and Engineering of Water Plant	Complete predesign and engineering for installation of a water filtration system at water treatment plant as required by Water Security Agency.	Drinking Water	\$24,200.00	\$6,700.00	No
425	2122-006209	Holdfast, Village of	Replace 10 m of Water Line at 56 Railway Avenue	Replace 10 m of 19 mm pex line with curb stop, saddle connection and main. Costs include excavation as well as the stem and valve with valve box.	Drinking Water	\$4,722.30	\$4,722.30	Yes
426	2122-006210	Holdfast, Village of	Replace Seven Curb Stops	Replace seven non-functioning curb stops to gain accurate meter readings and to allow for maintenance of water lines.	Drinking Water	\$4,876.00	\$4,876.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
427	2122-006136	Holdfast, Village of	Install 10 kW Generator in Water Treatment Plant	Install a permanent 10 kW generator in the water treatment plant. There are regular power outages in Holdfast which results in boil water advisories.	Drinking Water	\$21,619.00	\$0.00	No
428	2021-005897	Hubbard, Village of	Replace Two Windows in Community Hall and Make Wheelchair Accessible	Replace two windows in the community hall to triple-pane metal clad windows. Install a 5.5 m expanded metal ramp to improve accessibility.	Recreational Infrastructure	\$9,397.96	\$9,397.96	Yes
429	1920-004787	Hudson Bay No. 394, RM of	Decommission McBride Lake Landfill	An Environmental Site Assessment (ESA) was completed and submitted to the Ministry of Environment. Following the ESA, a Corrective Action Plan was also completed that includes extensive cleanup and cover of waste cells, along with water and soil testing.	Solid Waste	\$200,000.00	\$0.00	No
430	1920-004788	Hudson Bay No. 394, RM of	Decommission Woody Lake Landfill	An Environmental Site Assessment (ESA) was completed and submitted to the Ministry of Environment. Following the ESA, a Corrective Action Plan was completed that includes extensive cleanup and cover of waste cells, along with water and soil testing.	Solid Waste	\$200,000.00	\$0.00	No
431	1920-004789	Hudson Bay No. 394, RM of	Decommission Reserve Landfill	An Environmental Site Assessment (ESA) was completed and submitted to the Ministry of Environment. Following the ESA, a Corrective Action Plan was completed that includes extensive cleanup and cover of waste cells, along with water and soil testing.	Solid Waste	\$200,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
432	1920-004992	Hudson Bay, Town of	Landfill Environmental Site Assessment and Leachate Collection and Disposal System	Complete an Environmental Site Assessment on the Hudson Bay solid waste landfill to satisfy requirements by the Ministry of Environment relating to groundwater, geological, hydrogeological and hydrological conditions. This project also includes the design and construction of a Leachate Collection and Disposal System with a leachate collection ditch measuring 11.6 m by 700 m.	Solid Waste	\$503,300.00	\$29,290.00	No
433	2021-005206	Humboldt No. 370, RM of	Clay Cap 3.2 km of Grid Road at 21-37-24-W2 and 16-37-24-W2	Clay capping 3.2 km of grid road by adding 30 cm of clay to road surface.	Local Roads and Bridges	\$153,833.82	\$153,833.82	Yes
434	2122-006228	Humboldt, City of	Rebuild and Pave 530 m of 16th Street and 100 m of 11th Avenue	Rebuild 530 m of 16th Street from 8th Avenue to 11th Avenue with geotextile, 200 mm sub-base and 240 mm base, resurface with a 100 mm layer of pavement. Rebuild 100 m of 11th Avenue from Centennial Crescent to 16th Street with geotextile, 200 mm sub-base and 240 mm base, resurface with a 75 mm layer of pavement.	Local Roads and Bridges	\$1,197,858.22	\$1,197,858.22	Yes
435	2122-006229	Humboldt, City of	Replace 840 m of Water Main on 16th Street and 8th Avenue	Replace 680 m of asbestos cement and cast-iron water main on 16th Street with a new 200 mm/250 mm PVC and HDPE water main, serving 52 households. Replace 160 m of cast iron water main on 8th Avenue with a new 200 mm PVC and HDPE water main which services a public school.	Drinking Water	\$190,599.68	\$190,599.68	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
436	2122-006149	Huron No. 223, RM of	Upgrade 0.4 km of Road and Hillside at SW 14-23-03-W3	Upgrade the road and hillside of a section of road approximately 0.4 km long. The hillside and road have been deteriorating/eroding. Utilize local dirt along with clay being hauled in and applying erosion techniques.	Local Roads and Bridges	\$145,109.25	\$84,903.90	Yes
437	2122-006172	Hyas, Village of	Replace Effluent Gate at Lagoon	Replace discharge valve on lagoon cell two at the Village of Hyas lagoon.	Wastewater	\$5,174.32	\$5,174.32	Yes
438	2122-006173	Hyas, Village of	Upgrade Village Office Energy Efficiency	Replace two windows with dual pane, low E PVC units, replace the main entrance door, and blow in an additional 150 mm of insulation in the attic adding to the existing 150 mm of insulation.	Community Energy Systems	\$3,493.17	\$3,493.17	Yes
439	2122-006174	Hyas, Village of	Upgrade Village Shop Overhead Door	Remove old wooden overhead door, frame in the opening, insulate and install six mil CGSB vapor barrier, and clad exterior with metal to match the existing cladding. Install 4.8 m x 4.3 m overhead steel insulated door, replace the bottom rubber bulb and the entire weather stripping on the exterior, and install new metal cladding to cover and protect any exposed wood on the exterior.	Community Energy Systems	\$2,752.93	\$2,752.93	Yes
440	1920-004987	Insinger No. 275, RM of	Standalone Study - Environmental Site Assessment and Plans for Landfill Closure	Complete an environmental site assessment with a qualified engineer and start preparing the landfill site closure plan. The assessment will include water sampling and testing of the wells to better understand what will be required to decommission the landfill. The landfill is approximately 4,047 sq m.	Solid Waste	\$234,604.96	\$136,302.75	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
441	1718-004406	Invergordon No. 430, RM of	Development of Official Community Plan and Zoning Bylaw in Support of Asset Management Planning	Hire a planning consultant to complete an Official Community Plan and Zoning Bylaw for the RM. These are a foundational pillar for the overall asset management plan. It will be one of the tools used to identify and plan for future requirements of various assets such as roads, culverts, bridges and equipment.	Capacity Building	\$45,000.00	\$11,458.65	No
442	2122-006127	Invergordon No. 430, RM of	Upgrade Yellow Creek Water Treatment Plant	Upgrade Yellow Creek water treatment plant including the following: upgrade electric system by replacing defective breakers and receptacles, and pump modules; upgrade plumbing system by replacing faulty valves or meters, installing new curb stop on a main line, and installing truck fill; and upgrade building by replacing vanity/sink, roofing, entrance door and tank cover.	Drinking Water	\$6,215.26	\$6,215.26	Yes
443	2122-006352	Invermay No. 305, RM of	Replace Four 1,200 mm Culverts at NW 18-33-09-W2	Replacing existing culverts with four new 1,200 mm x 23.5 m culverts at NW 18-33-09-W2 to extend the life of the road.	Local Roads and Bridges	\$52,316.11	\$41,649.58	Yes
444	2021-005190	Invermay, Village of	Replace 18 Water Meters with Touchread Meters	Replace 18 of 148 water meters with Touchread meters and purchase of a meter reader.	Drinking Water	\$9,885.64	\$9,885.64	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
445	2021-005224	Invermay, Village of	Replace 148 Water Line Curb Stops	Replace 148 curb stops. When water line repairs are done to a residence or business the entire line is shut down for the repairs due to curb stops that are no longer functioning. This results in a precautionary drinking water advisory being issued for an entire section of the village not just the one location where the work is done. This also has other costs incurred by additional water testing to rescind the advisory.	Drinking Water	\$43,173.64	\$0.00	No
446	1920-004616	Island View, Resort Village of	Install Public Walkway Access Stairs	Install stairs to improve accessibility and provide safe access for public to beach.	Tourism Infrastructure	\$8,000.00	\$7,265.24	No
447	2122-006353	Ituna, Town of	Replace Ituna Community Arena Building Shell	Replace the shell of the 40.8 m x 73.2 m x 6.1 m arena building structure. The inside of the arena will remain the same. Costs for the project include materials and construction.	Sport Infrastructure	\$967,620.56	\$150,824.81	No
448	1213-002753	Ituna, Town of	Upgrade Water Line and Resurface Pavement	Upgrade the waterline on 1st Street NE and replace pavement removed in the process to improve water pressure and reduce number of line breaks causing loss of water service to consumers.	Drinking Water	\$142,151.43	\$0.00	No
449	1819-004496	Jansen, Village of	Decommission Landfill at NW 31-32-19-W2	Decommission existing landfill cell 900 m x 200 m by removing unacceptable refuse, compacting and clay capping to the proper slope, dig test holes and add vent hole.	Solid Waste	\$150,000.00	\$6,665.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
450	2021-005145	Kamsack, Town of	Standalone Study - Broda Sportsplex Feasibility Assessment	Complete a feasibility study of the Broda Sportsplex. The study will include four separate deliverables: conduct a comprehensive structural, mechanical assessment of the facility; prepare a detailed plan for capital and maintenance; identify and prioritize immediate, short- and long-term capital renewal requirements; and provide recommendations and priorities based on a balance of critical need, moderate need and minimum need items.	Sport Infrastructure	\$16,875.00	\$0.00	No
451	2021-005429	Kelliher, Village of	Decommission Former Waste Disposal Grounds	Completion of an environmental site assessment on the village's inactive landfill, as well as development of a corrective action plan. Groundwater monitoring will also be required as per direction from the Ministry of Environment. The landfill itself measures 160 sq m while the property it occupies measures 0.023 sq km.	Solid Waste	\$65,000.00	\$22,635.00	No
452	2021-005298	Kenaston, Village of	Replace 11 Water Meters, 150 Curb Stops and 10 Main Valves	Replace six residential and five commercial water meters and 150 curb stops that were not replaced in the previous phase. Also, replace ten main shut-off valves for various sections of the community.	Drinking Water	\$103,045.60	\$19,104.35	No
453	1920-004818	Kendal, Village of	Upgrade Water Treatment Plant	Replace two pumps; install a bench, a test sink, three cabinets, two hatch covers, new pressure tanks and upgrade storage shed roof, as well as inside shed electrical system in the water treatment plant.	Drinking Water	\$23,051.93	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
454	2021-005745	Kennedy, Village of	Recap 777 m of Hilt Drive	Recap Hilt Drive from Railway Avenue to Main Street. Place a 5.08 cm cap of hot mix asphalt to restore the roadway and prolong the life expectancy of the road. The road measures 777 m x 7.62 m.	Local Roads and Bridges	\$188,627.53	\$129,128.38	Yes
455	2021-005218	Kenosee Lake, Village of	Build New Concrete Reservoir for Potable Water	A new concrete reservoir will be built to expand the potable water storage. The proposed reservoir will measure approximately 7.5 m x 7.5 m x 3.5 m with a storage capacity of 150 cu m. It may consist of a concrete beam in the roof supported by two end walls and an intermediate concrete column at mid-span, with a foundation slab on well-graded gravel or mud-slab.	Drinking Water	\$770,000.00	\$33,405.57	No
456	2122-006302	Kerrobert, Town of	Upgrade Water Main and Services on 500 Block Manitoba Avenue	Replace approximately 130 m of cast iron water main that was discovered to still be existing in the 500 block of Manitoba Avenue. The water main will be replaced using PVC pipe, and the water service replaced from the main to the property line with a new curb shut-off valve. After the water lines are upgraded, the roadway will be restored to current elevations using the clay sub-grade and prepared with a thin layer of gravel.	Drinking Water	\$88,919.65	\$88,919.65	Yes
457	1920-004823	Key West No. 70, RM of	Reconstruct 6.44 km of Dahinda Grid	Reconstruct 6.44 km of roadway on Dahinda Grid to height of 3:1 slope and a width of 7.6 m. This roadway acts as the Clearing the Path corridor and is the alternate route to Highway 334.	Local Roads and Bridges	\$45,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
458	2122-006243	Keys No. 303, RM of	Replace Newberg Bridge at E 07-33-12-W2	Replace the existing 12 m long bridge with a series of new steel culverts. The existing bridge is exceeding its service life and continues to deteriorate and must be replaced. The scope of the project will include dismantling and disposal of the existing structure; installation of two to three new steel culverts. The project is located over Stony Creek.	Local Roads and Bridges	\$385,156.29	\$84,851.55	Yes
459	2122-006244	Keys No. 303, RM of	Replace Main Haul Bridge with Culverts	Replace the existing 12 m bridge with a series of new steel culverts. The current bridge is deteriorating and is near the end of its service life. The scope of the project will include dismantling and disposal of the existing structure, and installation of new steel culverts. Depending on the engineer's recommendations and based on the 1:50 year Instantaneous Peak Flow of 28.4 cu m per second, there should be either two 2,600 mm culverts, or three 2,200 mm culverts installed.	Local Roads and Bridges	\$295,591.99	\$84,851.55	Yes
460	2021-005525	Kincaid, Village of	Upgrade Furnace at Fitness Centre	Upgrade existing furnace at the fitness centre to reduce operating costs and improve the quality of output.	Community Energy Systems	\$4,847.00	\$0.00	No
461	2021-005571	Kindersley No. 290, RM of	Reconstruct Dewar Lake Road South	Reconstruction included impacted road top being narrowed back to original 8.5 m. Rocks were picked, clay added where required and packed. Sides had topsoil replaced and grass replanted. Total length of construction was 3,218 m.	Local Roads and Bridges	\$152,640.00	\$152,640.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
462	2021-005572	Kindersley No. 290, RM of	Reconstruct Dewar Lake Road North	Reconstruction included impacted road top being narrowed back to original 8.5 m. Rocks were picked, clay added where required and packed. Sides had topsoil replaced and grass replanted. Total length of construction was 3,218 m.	Local Roads and Bridges	\$150,520.00	\$150,520.00	Yes
463	2021-005319	Kindersley, Town of	Reconstruct 388 m of 5th and 6th Streets West	Reconstruct 194 m x 12 m of 5th Street and 194 m x 12 m of 6th Street West by clay capping, packing, filling, and gravelling. Reconstructing base, curb, and gutter. Sub-base is 300 mm, base 150 mm, and asphalt thickness is 100 mm.	Local Roads and Bridges	\$814,478.83	\$814,478.83	Yes
464	2021-005593	Kindersley, Town of	Construct Pedestrian Walkway on Railway Avenue E and Colton Drive	Construct approximately 640 m of pedestrian walkway on Railway Avenue East (Ditson to Colton Drive) and Colton Drive (Railway Avenue East to 11th Avenue East).	Local Roads and Bridges	\$170,082.08	\$170,082.08	Yes
465	1920-005042	Kingsley No. 124, RM of	Recrown 14.4 km of Grid Road 709	Grid 709 recrowning and reshaping entails pulling clay from the roadside slopes to the road surface to re-establish crown. The existing road top will be reduced to the standard 8 m road from its current 12 m width. This project involves incorporation of gravel along the road length of 14.4 km.	Local Roads and Bridges	\$376,375.13	\$174,095.13	Yes
466	1819-004591	Kinistino No. 459, RM of	Complete Asset Management Plan	Work to implement an asset management plan, including various training seminars and workshops for staff and elected officials, hire temporary staff to assist in research and implementation, purchase asset management software, develop and implement condition assessment tools and data entry.	Capacity Building	\$8,764.40	\$8,764.40	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
467	2021-005547	Kinistino No. 459, RM of	Upgrade Bridge at E 19-47-21-W2	Replace cracked stringer on bridge. Upgrade pier piles and both abutments to mediate leaning toward the stream.	Local Roads and Bridges	\$40,000.00	\$30,952.00	No
468	2021-005548	Kinistino No. 459, RM of	Upgrade Bridge at E 01-47-22-W2	Upgrade stringer, pier piles and both abutments. This will mediate lean toward the stream and make the bridge safe for use.	Local Roads and Bridges	\$30,000.00	\$15,693.30	No
469	2021-005549	Kinistino No. 459, RM of	Upgrade Bridge at E 22-47-19-W2	Upgrade bridge stringer, pier piles and both abutments. This will mediate bridge leaning toward the stream and make the bridge safe for use.	Local Roads and Bridges	\$60,000.00	\$47,979.00	No
470	2021-005273	Kinistino, Town of	Milling and Repaving of 2,000 m of Local Roads	Based on recommendations from the engineer, the project would include a combination of recapping, milling, and recapping, and structural upgrades of approximately 2,000 m of roadway (23,150 sq m). Work to be completed on Dixon Avenue, Ruttle Avenue, Valley Drive and Cote Street.	Local Roads and Bridges	\$499,564.79	\$287,412.30	Yes
471	2021-005993	Kinley, Village of	Renovate Village Hall Ceiling	Remove plaster on ceiling (original to building, circa 1928) and replace with drywall, stippled and painted. The plaster had begun falling in large chunks making it impossible for the public to use the facility due safety concerns.	Recreational Infrastructure	\$6,342.65	\$6,342.65	Yes
472	2021-005994	Kinley, Village of	Install a Curb Stop	Installation of a curb stop to a new connection to the sewer line.	Wastewater	\$1,962.45	\$1,962.45	Yes
473	2021-005995	Kinley, Village of	Replace 255.11 sq m Roof on Village Hall	Remove the old roofing which was beginning to fail and replace with new underlay and metal roofing on the original section of the building. The roof measures approximately 255.11 sq m.	Recreational Infrastructure	\$22,583.08	\$22,583.08	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
474	2021-006113	Kipling, Town of	Upgrade of Main Lift Station Isolation Valve and Piping	Upgrade includes installation of isolation valve from the Town's main lift station to the lagoon system, upgrading 12.3 m of 1950 piping to stainless steel, and new check valves. The main lift station is the ultimate collection point for 510 properties before removing it out to the lagoon system.	Wastewater	\$100,700.00	\$0.00	No
475	2021-005956	Kisbey, Village of	Repave 403 m of Railway Avenue	Repave approximately 403 m of road on Railway Avenue from Main Street to Ross Street.	Local Roads and Bridges	\$106,530.00	\$106,530.00	Yes
476	2021-005343	Kivimaa-Moonlight Bay, Resort Village of	Extend Mattila Trail by 143 m	Extend Mattila Trail by 143 m x 20 m wide to accommodate a new subdivision. Costs include purchase and hauling of material and excavator work.	Local Roads and Bridges	\$8,832.98	\$8,832.98	Yes
477	2021-005498	Kyle, Town of	Resurface 200 Block of Centre Street	Resurface 215 m x 11 m of 200 block of Centre Street by milling the current surface and adding a liquid soil stabilizer, grading to crown the street properly to ensure water run-off and then packing. The milling will be done to a depth of 30.5 cm.	Local Roads and Bridges	\$34,292.22	\$34,292.22	Yes
478	2021-006114	Kyle, Town of	Replace Fluorescent Lights with LED Lighting in Shop	Replace fluorescent lights with 18 LED light fixtures in the town shop and change four exterior light fixtures to LED, with an estimated reduction in energy costs of 30 per cent.	Community Energy Systems	\$14,363.91	\$9,350.07	Yes
479	2021-006116	Kyle, Town of	Replace 34 m of Sewer Line on Francis Street	Replace 34 m of 200 mm sewer line on Francis Street.	Wastewater	\$5,765.25	\$5,765.25	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
480	2122-006169	Kyle, Town of	Line 461 m of Sewer	Line 461 m of 200 mm x 4.5 mm sewer pipe with polyester felt liner to extend useful life and reduce disturbance to roadway by digging up roads. Located on Railway Avenue from 2nd Street East to Francis Street, 2nd Street East from Railway Avenue to 1st Avenue, portion of 1st Street East from Railway Avenue to 1st Avenue, and portion of 2nd Street West from Railway Avenue to 1st Avenue.	Wastewater	\$121,444.20	\$121,444.20	Yes
481	1920-004711	Kyle, Town of	Upgrade Ditch Drainage	The town completed a Water Drainage Study to improve the water drainage off the streets into ditches and culvert system. A contractor will laser level each street and avenue ditch from top to bottom and grade away excess material to ensure even water drainage. Once the drainage is complete, the town will crown the streets to improve water drainage off the streets and into the ditches. A total of approximately 5,732 m will be worked on for this project.	Wastewater	\$50,739.00	\$0.00	No
482	2021-005359	La Ronge, Northern Town of	Purchase New Refuse Collection Truck	Purchase a new refuse collection truck with the following specs: Auto cat power arm, 10.7 cu m capacity, 1.8 m arm reach, dual side cleanout doors, ultra-high strength resistant steel 450 floor, 12-month warranty, five-year arm warranty, triple camera system (17.8 cm monitor) or equivalent.	Solid Waste	\$270,000.00	\$270,000.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
483	2021-005084	Lac Pelletier No. 107, RM of	Erosion Control at Lac Pelletier Lake	Implement erosion control to prevent further silting into Lac Pelletier Lake by closing the road, installing interim measures such as bio logs, netting and swales for erosion control until the permanent closure including swales and replanting back to prairie vegetation. This work is engineered and under the guidance of the Water Security Agency and will be completed after the spring run-off of 2020.	Disaster Mitigation	\$210,079.92	\$210,079.92	Yes
484	2021-005909	Lacadena No. 228, RM of	Tuberoise Landfill Closure	To remediate the Tuberoise Landfill. The work will be completed as indicated in an approved closure plan. It will include cover of any landfill waste, seeding of grass and installation of test holes. An environmental site assessment has already been completed on this landfill which measures 250 m x 60 m.	Solid Waste	\$25,000.00	\$0.00	No
485	2021-005910	Lacadena No. 228, RM of	Tyner Landfill Closure	Remediate the Tyner landfill. The work will be completed as indicated in a Ministry of Environment approved closure plan. It will include cover of any landfill waste, seeding of grass and installation of test holes for leachate monitoring. The landfill measures 115 x 140 m and has already had an environmental site assessment completed on it.	Solid Waste	\$15,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
486	2021-006026	Lacadena No. 228, RM of	Develop Official Community Plan and Zoning Bylaw	Hire a contractor to create an Official Community Plan (OCP) and Zoning Bylaw for the RM of Lacadena No. 228 in support of asset management. The OCP will guide economic development and maximize the use of existing infrastructure, allowing the municipality to plan infrastructure building, renewal and maintenance.	Capacity Building	\$40,000.00	\$0.00	No
487	2021-005811	Lafleche, Town of	Rehabilitate Lagoon	An area 76.2 m x 45.7 m will be dredged, and the material pumped to a designated area. A cutterhead will be used to dislodge the material. A hydraulic centrifugal pump will help provide the dislodging and lifting force to remove the material in a liquid slurry form and pump out accordingly. Removal of sediment will support the longevity and efficiency of the lagoon.	Wastewater	\$54,885.00	\$54,885.00	Yes
488	1516-003862	Lafleche, Town of	Replace 305 m of Sidewalk	Remove and replace approximately 61 m of deteriorated sidewalk each year for the next five years. Locations include 2nd Street West and 4th Avenue West; Main Street and 5th Avenue East; 1st Street East and 5th Avenue East; 2nd Street East and 4th Avenue East; 2nd Avenue West and Main Street.	Local Roads and Bridges	\$71,600.00	\$0.00	No
489	2021-005749	Lafleche, Town of	Resurface 3rd Avenue West	Resurface road by adding a layer of oil, then sand seal, followed by more oil and approximately 2.4 cm of cold mix will be applied to approximately 3,434 sq m of street on 3rd Avenue West between Main Street and 2nd Street West.	Local Roads and Bridges	\$11,500.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
490	2021-005750	Lafleche, Town of	Resurface 1st Street East	Resurface road by adding a layer of oil, then sand seal, followed by more oil and approximately 2.4 cm of cold mix will be applied to approximately 3,437 sq m of street surface on 1st Street East between 2nd Avenue East and 3rd Avenue East.	Local Roads and Bridges	\$8,800.00	\$0.00	No
491	2021-005751	Lafleche, Town of	Resurface 4th Avenue East	Resurface road by adding a layer of oil, then sand seal, followed by more oil and approximately 2.4 cm of cold mix will be applied to approximately 1,951 sq m of street surface on 4th Avenue East between Main Street and 1st Street East.	Local Roads and Bridges	\$6,400.00	\$0.00	No
492	2021-005752	Lafleche, Town of	Resurface 2nd Avenue East	Resurface road by adding a layer of oil, then sand seal, followed by more oil and approximately 2.4 cm of cold mix will be applied to approximately 3,437 sq m of street surface on 2nd Avenue East between 1st Street East and 3rd Street East.	Local Roads and Bridges	\$11,500.00	\$0.00	No
493	1516-003651	Laird No. 404, RM of	Development of an Asset Management Plan	Develop asset management plan with help of consultant. Includes development of asset register, budget breakdown for asset classes, complete expenditure templates, review levels of service and risk, purchase of asset management software, asset management training and a working session with council, ending with an asset management plan.	Capacity Building	\$125,000.00	\$22,380.28	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
494	1920-004898	Laird No. 404, RM of	Reconstruct Culverts on 1.6 km of Carmen Grid at N 33-42-05-W3	Replace two culverts on 1.6 km of Carmen Grid. Culverts are 900 mm x 1.6 mm x 22 m and 1,000 mm x 2.0 mm x 44 m corrugated steel pipe. The old culverts were removed, dirt was dug out, road raised, and two new culverts installed using clay from nearby dugout for clay capping and topped with gravel.	Local Roads and Bridges	\$14,002.13	\$14,002.13	Yes
495	2021-005846	Laird No. 404, RM of	Clay Cap 2 km of Carmen Grid at S 01-43-06-W3	Upgrade 2 km of Carmen Grid by working up road, shaping a new crown on road and building up road 0.5 m where creek runs under. Three new 900 mm x 2.0 mm x 19 m corrugated steel culverts will be replaced, and nine smaller HDPE plastic culverts will be used on approaches on the road.	Local Roads and Bridges	\$487,201.60	\$487,201.60	Yes
496	2021-005115	Laird, Village of	Develop Asset Management Plan	Work with a consultant to complete an asset management plan, including updating TCA Policy, updating and correcting our road maps, updating the data files and entering them into asset management software.	Capacity Building	\$49,845.25	\$49,845.25	Yes
497	2021-005609	Laird, Village of	Replace 54 m of Village Sidewalk at 226 Main Street	Replace 54 m x 1.8 m of village sidewalk at 226 Main Street.	Local Roads and Bridges	\$44,051.48	\$44,051.48	Yes
498	2021-005611	Laird, Village of	Water Treatment Plant Back-wash Diversion	Install new pump on existing line to divert water treatment plant back-wash from reverse osmosis system into local ditches with normal rainwater to lessen impact on municipal lagoon.	Wastewater	\$5,000.00	\$1,523.15	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
499	2021-005394	Lajord No. 128, RM of	Replace Wooden Bridge with Culverts at Wascana Creek	Replace existing two span timber bridge along Wascana Creek with culverts. Also, replace an old broken concrete spillway and update a crushed culvert on a Wascana tributary to allow for increased road limits and traffic. Install a total of two culverts (2,200 mm x 23 m x 2.8 mm) and reconstruct approximately 100 m x 8.6 m of road with clay and gravel with a three per cent crown and 3:1 side slope.	Local Roads and Bridges	\$247,146.61	\$247,146.61	Yes
500	2021-005239	Lake Johnston No. 102, RM of	Construct Broadband Tower	The construction of the broadband tower will deliver high speed internet access to most residents in the municipality. The tower is 15.24 m tall with a 1.52 m x 1.52 m x 1.52 m cement base. Costs include solar panels, solar charger, batteries, three outgoing radios, one incoming radio, a power network switch and network gear.	Broadband Connectivity	\$10,600.00	\$10,600.00	Yes
501	2021-005127	Lakeview No. 337, RM of	Clay Cap 6.4 km of Hendon Grid East	Clay cap and gravel 6.4 km of Clearing the Path Corridor roadway east of Hendon, SK. This roadway currently acts as a heavy haul road in a network of other heavy haul road systems. The upgrade will extend the life expectancy of the road and allow for better transportation of people, goods and services.	Local Roads and Bridges	\$97,567.52	\$97,567.52	Yes
502	2021-005137	Lakeview No. 337, RM of	Clay Cap 0.7 km of Viterra Road	Clay cap and gravel 0.7 km of Range Road 2131 south of Highway 5. This roadway acts as a heavy haul road that connects the highway to the newly constructed grain terminal on NE 14-34-13-W2. The upgrades extend the life expectancy of the road and allow for better transportation of people, goods and services to the grain terminal.	Local Roads and Bridges	\$175,493.68	\$72,839.47	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
503	2122-006246	Lakeview No. 337, RM of	Replace Division 6 Bridge with Three Large Culverts	Replace Division 6 timber bridge with three 2,400 mm x 14 m x 3.5 mm steel culverts. Bridge at SSE-04-36-15-W2.	Local Roads and Bridges	\$85,423.30	\$34,632.80	Yes
504	1819-004497	Lampman, Town of	Replace 15 Water Hydrants	Replace 15 hydrants in various locations throughout the town. Besides the use for fire, the hydrants are used to flush the waterline as well.	Drinking Water	\$109,487.09	\$40,548.63	Yes
505	2021-005299	Landis, Village of	Resurface 495 m of Main Street in Village	Resurface 495 m x 21 m of Main Street in the village. Old material will be removed and reused as base. Road will be leveled, and new gravel will be placed. Asphalt is subject to funding.	Local Roads and Bridges	\$243,667.00	\$0.00	No
506	2021-005300	Landis, Village of	Re-Bed 1,067 mm Greensand Filters and Media	Re-bed 1,067 mm greensand filters and install new filter media to remove impurities from well water as a treatment method for potable water. This will be an upgrade to current infrastructure maintaining the highest quality drinking water standards and will help lower costs in supplies and chemicals used to treat potable water.	Drinking Water	\$30,000.00	\$0.00	No
507	2021-005856	Langenburg No. 181, RM of	Enhance Marchwell North Culvert	Enhance a failing culvert through a main grid road with the least amount of impact on the road, right of way, main creek system and surrounding agriculture land. The process used for this project is to bore a new smooth wall culvert into the existing culvert as well as enhancing the walls of the creek/right of way on the inlet and outlet of the creek. Culvert measures approximately 2.13 m x 30.5 m.	Local Roads and Bridges	\$284,819.67	\$240,157.65	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
508	1415-003232	Lashburn, Town of	Upgrade Water Meters	Upgrade 430 water meters by adding a component that enables radio frequency with reverse flow protection to reduce water loss, promote water conservation and improve meter reading accuracy.	Drinking Water	\$111,865.08	\$0.00	No
509	2021-005417	Last Mountain Valley No. 250, RM of	Resurface 29.32 km of Road	Approximately 29.32 km of road top will be ground up with a road mulcher, going 15.24 to 20.32 cm deep into the road surface, grinding all rocks and incorporating more road building material, then packing and gravelling the road. This is an alternative to clay capping and will increase the life of the road and provide a safe travelling surface for vehicles and equipment.	Local Roads and Bridges	\$146,498.90	\$30,389.63	Yes
510	2021-005537	Leader, Town of	Replace 269 m Water Line on 1st Street East	Replace 269 m of water line with 150 mm PVC pipe on 400 Block of 7th Avenue East. This project includes excavation and removal of old line and supply and installation of new PVC pipe.	Drinking Water	\$183,993.92	\$183,993.92	Yes
511	2021-006037	Leader, Town of	Replace Main Compressor in the Arena	After the arena start-up in October 2020, the main compressor (Compressor # 2) had a catastrophic mechanical failure. Upon inspection, the compressor was deemed beyond repair. A new compressor will be ordered and installed to operate the arena and curling facility.	Recreational Infrastructure	\$44,838.00	\$44,838.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
512	2021-005160	Leader, Town of	Standalone Study - Solid Waste Management Study	The Town of Leader will contract an engineering firm to conduct a study of their landfill that will show the remaining life of the existing cell, potential to expand and form new cells, and to comply with the rules and regulations set out by the Saskatchewan Ministry of Environment. The town will use the information gathered in this project to determine the next step in solid waste management and plan for the town's future.	Solid Waste	\$27,955.00	\$0.00	No
513	2021-005740	Leask, Village of	Replace Isolation Valves and Water Lines	Replace 655 m of water line with 15.2 cm plastic pipe, replace 31 saddles, replace eight non-functioning isolation valves, and upgrade seven hydrants. These upgrades will ensure all residents have access to safe potable water.	Drinking Water	\$60,000.00	\$0.00	No
514	2021-005595	Lebret, Village of	Install New Pump and Upgrade a Well at Water Treatment Plant	The upgrade to the water well will increase the capacity of water treated and available for distribution. The new pump installation and well upgrades will meet the increased needs for 114 households. Well upgrades included mechanical rehabilitation procedures, jetting, air lift pumping and surging, and addressing the well casing and the intake screen to obtain a faster recharge of water.	Drinking Water	\$10,665.35	\$10,665.35	Yes
515	2021-005644	Lebret, Village of	Upgrade Lift Station	Increase the output of the existing lift station by cleaning the sump pit, installing a new stainless steel trash basket, installing a new control panel, and upgrading two pumps, fabricating, and installing a new manway hatch system and pump and basket retrieval system.	Wastewater	\$36,458.25	\$36,458.25	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
516	2021-005645	Lebret, Village of	Replace Main Steel Water Pipe in Water Treatment Plant	Increase the service capacity and extend the estimated useful life of the water treatment plant by replacing the main steel water pipe in the water treatment plant. 48 m of C900 150 mm PVC water piping, and 20 m of stainless steel piping was utilized for this project.	Drinking Water	\$5,964.26	\$5,964.26	Yes
517	1920-004964	Lemberg, Town of	Resurface 382 m of Road	167 m of 400 and 500 block Chickney Avenue will be reshaped and new 4-5 mm asphalt placed on top. Existing gravel streets will be shaped with 4-5 mm of asphalt placed on top as follows: 76 m of St. John St, 48 m of 400 block Assiniboia Avenue, and 91 m of 700 block Railway Avenue.	Local Roads and Bridges	\$49,987.87	\$49,987.87	Yes
518	1920-004965	Lemberg, Town of	Develop an Official Community Plan which includes Asset Management	The project includes the development of an Official Community Plan with associated Zoning Bylaw and Asset Management Plan with Appraised Asset Schedule to guide the current and future councils into the future by strengthening the community's ability to build capacity through long term infrastructure planning. This project will entail contracting an engineer and planner to develop these plans.	Capacity Building	\$93,289.95	\$11,774.42	No
519	2021-006008	Leoville, Village of	Enhance Sewer Force Main	Install a 10.16 cm force main from the sewer lift station to the lagoon. This will work alone or in conjunction with the existing 7.62 cm force main which alone is unable to manage the excess storm water from major rainfalls. The new force main will result in fewer service disruptions and increased ability to manage storm water.	Wastewater	\$144,110.59	\$144,110.59	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
520	1213-002757	Leroy, Town of	Construct Willow Subdivision roads/curb and gutter	New lot subdivision, road work and some curb/gutter construction completed in 10/11. 2013 sand sealing roads and completing curb/gutter to provide access to new subdivision.	Local Roads and Bridges	\$300,000.00	\$0.00	No
521	2021-006117	Liberty, Village of	Sewer Line Inspection and Replacement - 80 m on Henry Street	Investigation and replacement of 80 m of sewer lines with new PVC line and two or three manholes servicing residences at sites closest to the pump house. The replacement is required to remove existing blockages from old pipe deterioration clogging mainline. Located on Henry Street between Prairie Avenue and Railway Avenue.	Wastewater	\$56,000.00	\$0.00	No
522	1920-004949	Limerick, Village of	Resurface 198.12 m of Road on Arthur Avenue	The existing pavement on the north access road to Limerick, also known as Arthur Avenue, will be prepped and the base levelled so the structure is stabilized. The road measures 198.12 m x 5.92 m, over which a 50 mm layer of asphalt will be placed.	Local Roads and Bridges	\$38,196.60	\$34,448.94	Yes
523	2021-005376	Lintlaw, Village of	Upgrade Water Treatment Plant	Upgrade the water treatment plant disinfectant system to ensure safe levels of chemical usage to maintain potable water production. All relevant electrical systems, piping and well upgrades will be completed to install a UV system.	Drinking Water	\$136,500.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
524	2021-005099	Lipton No. 217, RM of	Clay Cap 16.5 km of Grid Road 639	The project will consist of an engineering review of the road base and carrying capacity, upgrading areas where the base does not meet carrying capacity, re-capping the existing road with 300 mm of clay compacted to 95 per cent proctor, upgrading drainage culverts and approaches leading from the fields and intersections of roads to meet all safety standards, and graveling the completed road top.	Local Roads and Bridges	\$1,866,044.55	\$137,478.84	Yes
525	2021-005957	Lipton, Village of	Upgrade Storm Drainage System	The storm sewers in Lipton were diverted to the lagoon cells causing overflow and sewer back-ups during heavy rainfall and winter melt. The village installed drainage to alleviate the water going to the lagoon by re-directing it to the natural runways. Costs for this project include purchase and installation of all associated materials and labour.	Wastewater	\$91,953.24	\$91,953.24	Yes
526	2021-005958	Lipton, Village of	Replace and Upgrade 17 Hydrants	Replace seven non-functioning hydrants and install 10 new hydrants.	Drinking Water	\$121,339.00	\$121,339.00	No
527	2122-006204	Livingston No. 331, RM of	Replace Musney Bridge at E 29-36-30-W1	Replace the current bridge with a single 3,000 mm x 3.5 mm x 17 m steel culvert.	Local Roads and Bridges	\$119,912.34	\$79,524.34	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
528	2021-005315	Lloydminster, City of	50 Avenue Timing and Coordination Improvements	Hardware upgrades, including camera, controller, connectivity, and detection upgrades, along 50 Avenue (Highway 17) in preparation for implementation of the Advanced Traffic Management (ATM) system to improve timing and coordination. This will be Phase II of the implementations of the system as Phase I consisted of 44 Street (Highway 16) which was completed in 2019 and became operational in 2020.	Local Roads and Bridges	\$340,525.00	\$44,839.35	Yes
529	2122-006192	Lloydminster, City of	Concrete Intersection Construction at 44 Street and 62 Avenue	Reconstruct the intersection of 44 Street and 62 Avenue. The existing surface works, i.e., asphalt concrete pavement, will need to be removed and the intersection reconstructed by repaving with 825 mm pavement, replacing with a ridged pavement structure to a depth of 260 mm. Coupled with this is the replacement of 150 m of water line, 75 m of wastewater line and 180 m of sanitary sewer mains. The scope of work includes the detailed design and construction of the PCCP intersection, and the underground servicing.	Local Roads and Bridges	\$3,315,805.60	\$835,822.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
530	2021-005316	Lloydminster, City of	Sanitary Sewer Main Replacement Program Phase 2	Phase II, in total three phases, will include the upsizing of sanitary sewer main infrastructure on 47 Avenue and 40 Street to reduce surcharging within the sanitary sewer trunk main system located along 36 Street. Replacement includes: 20 m of 200 mm PVC SDR-35; 210 m of 375 mm PVC SDR-35; and 101 m of 450 mm PVC SDR-35 pipe. Also included in this program, is the replacement of water and storm sewer mains and residential lot services.	Wastewater	\$1,461,384.00	\$0.00	Yes
531	2021-005128	Lomond No. 37, RM of	Replace Bridge Located at ENE 19-4-15-W2	The bridge located across Long Creek ENE 19-4-15-W2 will be replaced and will include upgrading the piles from wood to steel, along with the move to pre-cast concrete top. This will increase the vehicle capacity and weight limit, along with extending the service life of the bridge from five years to 100 years. The bridge measures 7.32 m x 36.6 m.	Local Roads and Bridges	\$768,722.20	\$127,990.80	Yes
532	2021-005092	Lone Tree No. 18, RM of	Upgrade 2.4 km of Road at SE 01-03-17-W3 Phase 1	The RM will be upgrading/rebuilding 2.4 km of road by increasing height up to 1 m so the road will no longer be damaged with flowing and flooding of water during spring runoff.	Local Roads and Bridges	\$54,750.00	\$9,161.16	No
533	2021-006086	Loon Lake No. 561, RM of	Replace 18 m Bridge at NW 24-58-21-W3	Replace three-span 18 m x 7.3 m wood deck bridge with a single-span 18 m x 7.3 m bridge with a wood sub-structure, concrete deck and wood railings.	Local Roads and Bridges	\$307,400.00	\$198,741.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
534	2021-005567	Loon Lake, Village of	Purchase and Install New Backup Generator for Water Treatment Plant	Purchase a genset diesel generator and install it at the water treatment plant to replace old generator. Old generator used natural gas and would not start up as required. Purpose of the generator is to keep water plant running during power outages and keep the lines pressurized to minimize boil water advisories.	Drinking Water	\$29,877.16	\$29,877.16	Yes
535	2021-005568	Loon Lake, Village of	Replace 12 Shut-off Valves on Water Main Lines	The Village will be replacing 12 of the 22 shut-off valves on the water main lines throughout the village. Two valves per year will be replaced. Most valves are not operational, so they remain on and are not able to be shut off effectively.	Drinking Water	\$132,000.00	\$17,497.17	No
536	2122-006280	Loon Lake, Village of	Replace Main Line to Water Treatment Plant	Replace the main water line leading from the main water well into the water treatment plant with 7.9 m x 10.16 cm x 9.5 mm stainless steel line to reduce any future line breaks. The new line will extend its life expectancy and reduce future costs associated with water line breaks.	Drinking Water	\$7,977.07	\$7,977.07	Yes
537	2122-006279	Loon Lake, Village of	Upgrade Drinking Water Data Management System	Upgrade meter reading program to allow reading of water meters, improve accuracy of readings and track usage and overages.	Drinking Water	\$10,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
538	2021-005380	Loreburn No. 254, RM of	Reconstruct 3 km of Paul Ganes Road from Highway 19 to Coulee	Reconstruct 3 km of grid road to provide the correct road top width for the 20 m municipal road right of way. New culverts will be placed at various locations throughout project to ensure proper drainage. Total number of culverts placed is 15: eleven 500 mm x 15 m, two 600 mm x 16 m, one 600 mm x 15 m and one 500 mm x 21 m.	Local Roads and Bridges	\$347,716.79	\$19,636.35	No
539	2021-005923	Lost River No. 313, RM of	Reconstruct 3.2 km of Grid Road at E 17 and 20-32-02-W3	Reconstruct Grid E 17 and 20-32-02-W3 by digging out existing gravel road and reconstructing 3.2 km of grid road in its place.	Local Roads and Bridges	\$366,890.00	\$7,016.56	No
540	1213-002651	Lost River No. 313, RM of	Cygnat Lake Road Clay Capping	Preserve the road through application of riprap and clay capping.	Local Roads and Bridges	\$71,000.00	\$0.00	No
541	2021-005101	Love, Village of	Relocate Water Treatment Plant Valves, Piping, Drain and Install Back-Up Generator	Relocate water treatment plant system control valves, piping and backwash drain from under the floor to above the floor of the plant building to ensure that all the controls are kept safe from flooding, corrosion and are made easily accessible to the operator. A back-up generator was also purchased and installed.	Drinking Water	\$19,500.00	\$0.00	No
542	2021-005351	Lucky Lake, Village of	Replace and Convert 160 Water Meters to Remote Reader Systems	This project will replace 160 water meters in village households, of which over 90 per cent have inefficient and/or failing water meters. The remote metering system will replace the current task where operations staff manually read water meters and office staff manually enter those readings into the utility billing system.	Drinking Water	\$130,000.00	\$4,395.19	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
543	2021-006035	Lumsden Beach, Resort Village of	Purchase and Install Children's Recreational Beach Equipment	Install on the waterfront beach two pieces of children's play equipment. One is for a slide and the other is for two sections of single post swings with four seats, one being a children's 'tot' seat. Both items are to replace existing equipment that no longer meets Canadian safety standards. These items will be added to teeter-totters and an 'igloo' climbing apparatus already in the children's play area.	Recreational Infrastructure	\$7,426.83	\$0.00	Yes
544	2021-005212	Luseland, Town of	Upgrade 7,700 sq m of Road	Upgrade roadbed failures by removing the 7,700 sq m broken asphalt and roadbed, hauling it away, replacing and packing the 7,700 sq m Type 33 base, covering with 7,700 sq m geotextile and sealing the tops to keep water from getting into the new road. The resulting areas will have 800 tons of 40 mm asphalt shim placed on top.	Local Roads and Bridges	\$287,699.24	\$191,137.56	Yes
545	1920-004819	Macklin, Town of	Repave Roads from Leader Street to Telegraph Street	Repave approximately 5 km of road in the southern half of the community including upgrades to sub-base and base materials, corrective drainage, and installation of 75 mm hot mix asphalt. This project will also correct water flow to protect property from runoff water.	Local Roads and Bridges	\$977,232.06	\$82,508.70	Yes
546	2122-006287	Macnutt, Village of	Replace Curb Stops and Hydrant	Replace three curb stops and one hydrant. The hydrants serve to flush sediment out of the water lines and will increase longevity of the water lines.	Drinking Water	\$4,400.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
547	2021-005770	Maidstone, Town of	Upgrade Maidstone Lift Station	Upgrading the current piping, valves, pumps, and associated components to increase the efficiency of the lift station. These improvements will increase the lift stations in-flow capability thereby decreasing the probability of a non-compliance incident. Finally, a diverting 'y', valves and remote monitoring system will be installed outside to allow for immediate response and improved access in an emergency.	Wastewater	\$3,035,000.00	\$0.00	No
548	2021-005301	Major, Village of	Upgrading 0.5 km of Sergeant Avenue	Upgrading approximately 18 m x 308 m of Sergeant Avenue through grinding down to the base, spreading new clay base and laying a new gravel top.	Local Roads and Bridges	\$20,000.00	\$7,735.00	No
549	2021-005692	Makwa, Village of	Upgrade Makwa District Bowling Alley/Curling Rink	Complete upgrades to the Makwa Bowling Alley/Curling Rink which will involve upgrading the current lighting system to LED lighting, adding a large new wheelchair accessible door, upgrading insulation around the heat ducts and vents, and rebuilding rink, stairwell walls and ceiling.	Recreational Infrastructure	\$54,920.72	\$54,920.72	Yes
550	2021-005830	Manitou Beach, Resort Village of	Replace Lagoon Liners and Install Riprap	Replace the deteriorating lagoon liner and install riprap along the perimeter of the lagoon walls to control erosion and keep the liner in place. The lagoon consists of two ponds. Secondary Pond: north side 300 m, east side 300 m, west side 225 m, south side 175 m. Primary Pond: north side 175 m, east side 175 m, west side 100 m, south side 200 m.	Wastewater	\$137,200.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
551	2122-006235	Manitou Lake No. 442, RM of	Stabilize 380 m of Road Embankment on NE 24-46-27-W3	Upgrade 380 m of Range Road 3270 between NE 24-46-27W3 and NW 19-46-26W3 by improving side slopes and widening the road. The work includes approximately 20,000 cu m of borrow excavation to compacted embankment.	Local Roads and Bridges	\$500,000.00	\$153,357.27	No
552	2021-005597	Mankota No. 45, RM of	Rebuild Range Road 383 at W 27-04-08-W3	Reconstruct 1.2 km of Range Road 383, including the 14 m sub-base and 7 m road top, correct crown and slope to 3:1, install two 450 mm x 15 m culverts and two 600 mm x 18 m culverts.	Local Roads and Bridges	\$184,299.23	\$120,647.90	No
553	2021-005688	Mankota No. 45, RM of	Upgrade McCord Bridge North at SE 14-06-07-W3	Upgrade to bridge will include banding and shimming piles, replacing posts and railings, installing new riprap and scour planks to prevent erosion. Clean and haul new rocks for riprap both inlet and outlet.	Local Roads and Bridges	\$11,135.30	\$7,496.40	Yes
554	2122-006312	Mankota, Village of	Install Turbidity Instrumentation at Water Treatment Plant	Install and program on-line turbidity meters at the water treatment plant. These on-line meters will be more accurate and consistently measuring the turbidity of the water, ensuring clean drinking water.	Drinking Water	\$10,927.54	\$10,927.54	Yes
555	1516-004026	Mankota, Village of	Resurface 2nd Street	Rebuild 2nd Street. Remove the existing top, rebuild the base of the street, grade, and level to allow for water to flow, and top with gravel in preparation for final surface, chip sealing or sand sealing.	Local Roads and Bridges	\$10,000.00	\$0.00	No
556	2122-006226	Mankota, Village of	Replace 152.4 m of Water Lines - 1st Avenue	Remove 152.4 m of old cast iron water line and replace with new plastic water line. This project will eliminate the numerous water line breaks in that area and ensure clean drinking water is supplied to all customers.	Drinking Water	\$25,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
557	2021-005732	Manor, Village of	Water System Assessment and Upgrade	Complete an assessment of water system from the water source, treatment and distribution system. Based on recommendations, upgrade the water system by rehabilitation of filters, removal and replacement of filter media (all with corrected chemical composition that will work better), addition of various gauges, injectors, valves and sensors and preprogramming of the PLC (Programmable Logic Controller) in order to meet or exceed Canadian Drinking Water Standards and Saskatchewan Water Security Agency requirements. Water Security Agency requires this assessment.	Drinking Water	\$45,000.00	\$6,317.50	No
558	2021-005399	Maple Bush No. 224, RM of	Sand Seal Range Road 3073 from Highway 42 to Township Road 223	The existing pavement will be sprayed with a layer of oil, topped with sand seal and packed to strengthen the existing pavement for 2.41 km.	Local Roads and Bridges	\$120,000.00	\$0.00	No
559	2021-006018	Maple Creek, Town of	Construct New Swimming Facility	Replace the 41 year-old recreational centre with a new swimming facility using cast-in-place reinforced concrete. There will be a lap pool (12.5 m x 25 m) with diving stands and a leisure pool (8 m x 16 m) with jets and slide.	Recreational Infrastructure	\$2,900,000.00	\$206,229.94	No
560	2021-005203	Marcelin, Village of	Install New Filter and Media in Water Treatment Plant	Install new filter and zeolite media to reduce ammonia and replace media in greensand filters with upgraded greensand to remove manganese to comply with provincial standards.	Drinking Water	\$374,531.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
561	2021-005328	Marengo, Village of	Installation of Online Turbidity Meter	Installing an online turbidity meter at the Marengo water treatment plant. The meter will allow for continuous monitoring of turbidity effluent from the filters optimizing the water treatment plant. The installation of the meter ensures turbidity effluent is recorded accurately to confirm that the water meets Canadian Drinking Water Quality and provincial standards.	Drinking Water	\$11,815.17	\$11,815.17	Yes
562	2021-005926	Marengo, Village of	Install Baseboard Heaters in Marengo Skating Rink Shack	The village will be installing one electric baseboard heater in the main area of the ice rink shack, one electric baseboard heater in the bathroom and a thermostat for the building. The two new heaters plus the existing heater in the rink shack will be connected to the thermostat.	Recreational Infrastructure	\$1,157.52	\$1,157.52	Yes
563	2021-005543	Markinch, Village of	Install Four Curb Stops	Install four curb stops at various locations. New curb stops will promote water conservation and provide cleaner and safer water to residents. This project will help eliminate contamination or bacteria from entering homes.	Drinking Water	\$12,000.00	\$6,310.29	No
564	2021-005885	Markinch, Village of	Replace 457 m of Main Water Line	Replace 457 m of the main water line from deteriorating cast iron line to heavy PVC line. This water line connects the community well in the creek to the water distribution plant located in the village.	Drinking Water	\$38,900.73	\$26,257.12	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
565	2021-005960	Marquis No. 191, RM of	Reconstruct 5.6 km of Keeler Grid Road 643	Reconstruct 5.6 km of Keeler Grid 643 from Highway 42 South. This road provides a primary route linking Highway 42 (9-month primary) and Highway 1. The shoulders will be cut to 8 m wide road surface and side slopes 3:1. Topsoil will be stripped from side slope, soft spots dug out with new material placed and packed. Finished road surface will be graded and compact with additional gravel applied.	Local Roads and Bridges	\$200,000.00	\$0.00	No
566	1011-001891	Marquis, Village of	Replace Water Meters	Replace all existing water meters at 50 locations throughout the village to provide accurate and consistent data and promote water conservation.	Drinking Water	\$28,000.00	\$0.00	No
567	2021-005966	Marquis, Village of	Upgrade Electrical System at Sewage Lift Station	Upgrade electrical system at the sewage lift station to operate a three-phase power wastewater pump. Once the electrical system is upgraded, it can be used to power a back-up generator to reduce breaks in service in case of power outage. Costs for this project include all electrical components, labor and installation.	Wastewater	\$7,000.00	\$0.00	No
568	2021-005967	Marquis, Village of	Install Generator at Water Treatment Plant	Purchase and install a permanent generator at the water treatment plant to ensure continued operation during power outages. Ensuring continued power at the water treatment plant will eliminate the need to issue boil water advisories and the extra water testing required to make sure the water is fit for consumption.	Drinking Water	\$13,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
569	2021-005488	Marriott No. 317, RM of	Decommission Landfill and Construct Municipal Waste Collection Site	Decommission old landfill measuring 0.446 hectares and construct new waste transfer station measuring 35 m x 95 m. Decommissioning costs include ground restoration, final cover soil system and environmental site assessments (ground water testing and reporting to Ministry of Environment).	Solid Waste	\$102,661.61	\$102,661.61	No
570	2021-005583	Marsden, Village of	Upgrade Water Treatment Plant and Install New Water Main	Install new water main under Highway 40 between the water treatment plant and the village, allowing the existing water main to be decommissioned. Supply and install 75 m of 150 mm pipe by directional drilling. In addition, remove and replace mechanical distribution piping within the water treatment plant, install four VPDs to the existing distribution pumps and install a natural gas backup generator and transfer switch.	Drinking Water	\$279,829.77	\$82,973.00	Yes
571	2021-005584	Marsden, Village of	Replace 1,705 m of Water Lines	Many of the village's water lines are nearing or have exceeded their life expectancy and require replacement. A number of streets will be reverted to gravel with the current pavement being recycled in with the gravel. Approximately 1,705 m of water line will be replaced with 150 mm PVC lines with a 5.08 cm line off the main to the service connections.	Drinking Water	\$220,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
572	2122-006242	Marshall, Town of	Upgrade Community Rink	Upgrade the community rink by lifting the boards around the rink area and pouring asphalt to provide a more even surface for the natural ice. This will also enable the use of this building all year around for more events and activities than just for natural ice in the winter. Other improvements include upgrading the walkway between the dressing room and ice surface, upgrades inside the dressing room and replacing some plexiglass and player boxes.	Sport Infrastructure	\$81,201.73	\$65,000.00	Yes
573	2122-006211	Martensville, City of	Repave 6th Avenue South between 4th Street South and Fehr Crescent	Mill off existing asphalt. Reuse existing granular base and apply new 65 mm layer of asphalt over top for 3,150 sq m.	Local Roads and Bridges	\$105,320.91	\$87,900.00	Yes
574	2122-006212	Martensville, City of	Repave 8th Avenue South from 4th Street South to 1st Street South	Mill existing asphalt. Reuse granular base and apply new 65 mm layer of asphalt over top for a total area of 3,350 sq m. Once paving is complete new concrete traffic calming structures will be installed to help slow traffic upon entry into the school zone.	Local Roads and Bridges	\$123,960.05	\$117,700.00	Yes
575	2122-006213	Martensville, City of	Overlay Main Street from 2nd Avenue to 8th Avenue with Asphalt	A thin overlay of asphalt will be placed over top of the existing 8,100 sq m asphalt roadway to help extend its lifespan and improve the ride quality.	Local Roads and Bridges	\$204,736.94	\$158,700.00	Yes
576	2122-006214	Martensville, City of	Repave Baycroft Drive from 3rd Street North to 5th Street North	Mill existing asphalt. Reuse granular base and apply new 65 mm layer of asphalt over top for a total area of 3,350 sq m.	Local Roads and Bridges	\$100,531.30	\$95,700.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
577	2122-006215	Martensville, City of	Repave 6th Street North from Klassen Crescent to 8th Avenue North	Mill off existing asphalt. Reuse granular base and apply new 65 mm layer of asphalt over top for a total area of 3,400 sq m. Isolated areas on this section of roadway will need the granular base removed and replaced. Once paving is completed concrete traffic calming structures will be installed to help slow traffic upon entry into the school zone.	Local Roads and Bridges	\$132,720.88	\$117,300.00	Yes
578	2122-006165	Martin No. 122, RM of	Clay Cap 6.4 km of Grid Road 703 at 09, 10, 11, 12-15-32-W1	Clay cap 6.4 km of grid road including replacing nine 600 mm steel culverts and eight 500 mm steel culverts and upgrading ten approaches.	Local Roads and Bridges	\$488,156.16	\$127,309.05	Yes
579	2021-005422	Maryfield No. 91, RM of	Replace Green Bridge at N 35-10-30-W1	Remove and replace Bridge 130-10-35N. It is restricted by height and width as it is an old truss bridge. Replacing the current structure with a double lane bridge measuring 36 m long x 7.32-8.53 m wide that will have no weight restrictions. The bridge will be constructed using steel girders and bearings with a pre-cast deck and end diaphragm.	Local Roads and Bridges	\$1,365,334.10	\$19,456.20	Yes
580	1920-004996	Mayfield No. 406, RM of	Energy Upgrades in Two Municipal Buildings	Purchase and installation of energy efficient water heaters, windows, doors, upgraded insulation, and 13 LED lights in municipal office and house.	Community Energy Systems	\$16,452.98	\$16,452.98	Yes
581	1920-005004	Maymont, Village of	Construct Office for Waste Transfer Site	An office (shed) is required for staff at the waste transfer site. It will be a 2.44 m x 3.05 m wood, vinyl-sided shed with a wood burning stove for heat. It sits on skids on village property at the waste transfer site.	Solid Waste	\$1,428.42	\$1,363.70	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
582	2021-005326	McCraney No. 282, RM of	Reconstruct 5 km of Grid Road 653	Reconstruct 5 km x 8.6 m of Grid Road 653 by stripping, excavating and clay capping. Gravel will be incorporated into the refurbished road.	Local Roads and Bridges	\$150,000.00	\$0.00	No
583	2021-005930	McKillop No. 220, RM of	Restore Four Sections and Clay Cap One Section of Municipal Road	Enhance and upgrade the shoulders of four separate sections of municipal roads by fore sloping a total of approximately 1.61 km of road. Four locations include: NW 34-23-21-W2 and SW 03-24-21-W2; NE 35-23-22-W2 and NW 36-23-22-W2; SE 15-23-23-W2 and NE 10-23-23-W2; and NE 21-24-22-W2 and NW 22-24-22-W2. Also includes clay capping approximately 2.41 km of road located by S 27 and 28-24-22-W2.	Local Roads and Bridges	\$100,000.00	\$52,099.00	No
584	2122-006255	McKillop No. 220, RM of	Develop Sun Dale Drinking Water Fill Station	Install a drinking water fill station at the Sun Dale water treatment plant including vacuum breaker, expansion of water treatment facilities, an all-weather outdoor payment system and a distribution meter. Increasing capacity to supply drinking water to residents and ratepayers.	Drinking Water	\$79,500.00	\$0.00	No
585	2122-006256	McKillop No. 220, RM of	Upgrade 300 m of Road at Three Intersections	Upgrade 300 m of road at each of three intersections by roto-mixing the top layers with a soil stabilization product and water, then grading and packing the affected portions of road to extend the useful life of the roads and improve the quality of the road surface.	Local Roads and Bridges	\$53,180.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
586	1920-004984	McLean, Village of	Purchase and Install Triplex Greensand Filtration System and Water Treatment Building Expansion	Purchase and install a triplex greensand filtration system which will include three units of greensand filters. Installation of these filters includes expanding the current water treatment building to house these filters.	Drinking Water	\$266,143.00	\$0.00	No
587	2021-005624	McTaggart, Village of	Purchase Asset Management Software	Computer program purchased to support asset management recording and for policy template.	Capacity Building	\$2,650.00	\$2,650.00	Yes
588	1920-005075	Meadow Lake No. 588, RM of	Replace 2,400 mm Culvert on Range Road 3183	A large 2,400 mm diameter culvert washed out, cutting off residential access. Three steel culverts replaced the washed-out culvert. Two of them measure 900 mm and the third was 2,700 m x 20 m.	Local Roads and Bridges	\$135,559.25	\$135,559.25	Yes
589	2021-005806	Meadow Lake No. 588, RM of	Rebuild 30 m of Cabana Road and Install Culvert	The municipality will be rebuilding the Cabana Road and stabilizing the erosion caused by flooding. This project will involve installation of steel culverts measuring approximately 3500 mm x 40 m.	Local Roads and Bridges	\$1,107,996.17	\$987,416.32	Yes
590	2021-006106	Meadow Lake, City of	Rehabilitate 490 m of Streets and Mill and Pave 1,150 m of Streets	Complete approximately 490 m of full depth rehabilitation on 300 block 3rd Avenue West, 500 block 2nd Avenue West and 400 block 4th Street West. Complete approximately 1,150 m of milling and paving on 400 and 500 blocks Centre Street and Dunfield Crescent. Work to improve the condition of local roads and extend the useful life of existing assets.	Local Roads and Bridges	\$932,120.27	\$810,808.74	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
591	2021-005302	Medstead, Village of	Install 13 AVK Flushing Water Hydrants on Dead End Lines	Install 13 AVK Flushing hydrants on dead end lines, which includes excavation, installation, connecting parts and observation by water operators. Hydrants would alleviate the challenge of bi-annual and emergency flushing from residences located at the dead-end lines, improve water quality, and eliminate continuous sampling and testing costs due to discoloration and sediment in lines.	Drinking Water	\$50,000.00	\$0.00	No
592	1920-005015	Meeting Lake No. 466, RM of	Recap 100 m Road at SE 20-48-11-W3	Clay cap approximately 100 m of grid road with 1 m deep fill at the lowest part of the road.	Local Roads and Bridges	\$5,490.00	\$5,490.00	Yes
593	2021-005939	Meeting Lake No. 466, RM of	Upgrade Bridge at ESE 30-48-11-W3	Upgrade the bridge at ESE 30-48-11-W3 by replacing planks, braces, and shim piles on abutment 1 and 2, replace posts on handrail and install additional riprap to increase its useful life and avoid the further destruction and possible future road closure.	Local Roads and Bridges	\$5,035.00	\$5,035.00	Yes
594	1213-002510	Meeting Lake No. 466, RM of	Upgrades to Mayfair Disposal Landfill	Installing monitoring wells at the landfill location.	Solid Waste	\$50,000.00	\$0.00	No
595	2021-005467	Melfort, City of	Expand Asset Management Plan	Advance the asset management plan with enhanced lifecycle activity planning, condition assessment and data collection guidelines, risk framework development, and link of CGIS data to citywide data for transportation, sidewalks, water and sewer asset categories. Each asset profile will contain lifecycle strategies, events and risk frameworks, which will follow best practices and asset specific information.	Capacity Building	\$65,500.00	\$7,312.50	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
596	2122-006144	Melfort, City of	Replace 800 m of Sidewalk and Install Accessibility Ramps	The city will remove and replace 800 m of sidewalk and install accessibility ramps on Broadway Avenue North, MacLeod Avenue East, Burrows Avenue East, Manitoba Street, West Street and Crawford Avenue West. The sidewalk ramps will have rolled curb and gutters with 150 mm thick concrete catch basins.	Local Roads and Bridges	\$369,600.00	\$314,600.00	Yes
597	2122-006231	Melfort, City of	Upgrade 1.9 km of Windsor Park Walking Trail	Reshape and pave 1.9 km x 1.85 m of the Windsor Park Walking Trail with 50 mm of asphalt from Broadway Avenue South to Brunswick Avenue near Windsor Pond.	Local Roads and Bridges	\$62,468.00	\$50,129.00	Yes
598	1920-004688	Melville, City of	Rehabilitate 173 m of Sewer Line on 6th Avenue	Installation of Cured in Place Pipe (CIPP) sewer liner for 173 m of sewer pipe between Saskatchewan Street and Quebec Street on 6th Avenue. Designed with corrosion resistance for a minimum 50-year life.	Wastewater	\$25,330.75	\$25,330.75	Yes
599	1920-004689	Melville, City of	Rehabilitate 155 m of Sewer Line on Prince Edward Street	Installation of Cured in Place Pipe (CIPP) sewer liner in 155 m of sewer pipe between 8th Avenue and 10th Avenue on Prince Edward Street. 613	2021-005705	Mervin, Village of	Resurface 388 m of Wright Street	Upgrade 388 m of Wright Street by removing old road surface, adding product, and reshaping new surface to provide a safer commute for residents and extend the life of the road.	Local Roads and Bridges	\$33,854.15	\$33,854.15	Yes
614	2021-005091	Mervin, Village of	Extend Sewer Line by 92 m Between 1st Avenue and 2nd Avenue	Extend the 50 mm sewer line by 92 m from 2nd Avenue to 1st Avenue by putting in a new line and connecting to the existing line at 1st Avenue to continue out to the main line on Railway Avenue. This will improve the flow of sewage for the residences in that area.	Wastewater	\$5,613.63	\$0.00	No
615	2021-005834	Metinota, Resort Village of	Install One and Replace Eight Fire Hydrants	Replace eight hydrants and install one new hydrant. These hydrants serve to flush the drinking water lines.	Drinking Water	\$42,837.28	\$30,124.40	Yes
616	2021-005522	Midale, Town of	Upgrade Lift Station	Supply and install all new stainless-steel pipe and hardware throughout lift station, including all exterior piping. Supply and install new pump flush valve, isolation valves, new gate and check valves and new stainless steel pump retrieval chain/cable. Estimated total of 12.2 m x 10.2 cm of piping to be used.	Wastewater	\$45,392.38	\$32,576.98	Yes
617	2021-005979	Middle Lake, Village of	Repave 1.2 km of Municipal Streets	Repave 1.2 km x 7.2 m x 5.1 cm of village streets (First Street South, Second Street South, First Avenue South, and First Street North). Cost includes 902.21 tonnes of asphalt.	Local Roads and Bridges	\$137,800.00	\$103,161.00	Yes
618	1920-004751	Milden No. 286, RM of	Municipal Office Energy Efficiency Upgrades	Upgrades to the municipal office including replacing two old furnaces with one energy efficient model, installing energy efficient air conditioner and installation of new tin roof to enclose the building envelope.	Community Energy Systems	\$27,384.89	\$15,370.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
619	2021-005175	Milden, Village of	Village Office LED Light Upgrade	Upgrading the village office by changing 20 light fixtures and their corresponding ballasts to LED.	Community Energy Systems	\$746.98	\$746.98	Yes
620	2021-006070	Milden, Village of	Install 204 Water Meters	Install visual display touch-reader water meters in each residence in the village. There are 204 units to install.	Drinking Water	\$27,285.00	\$27,285.00	Yes
621	2021-005528	Milestone, Town of	Upgrade Distribution Pumps, Pipes and Reservoirs	Inspection of reservoirs to correct cracking, replace the feed line between the reservoirs, replace the distribution header pipes, feed pipes as well as the pipes that feed the reservoirs, replace existing pumps at the water treatment plant to ensure WSA compliance requirements and ensure a more effective delivery of water.	Drinking Water	\$397,578.22	\$397,578.22	Yes
622	2021-005369	Milton No. 292, RM of	Reconstruction of 16 km of Highway 317	Approximately 16 km of Highway 317 running through the RM is being reconstructed/rehabilitated to an appropriate grid road standard. There are a number of areas that need to be reconstructed due to the road being worn down to the base, while other areas will need minor construction work. Work is administered by the municipality with the Ministry of Highways and Infrastructure funding a portion.	Highways	\$2,653,391.00	\$117,533.70	No
623	2021-005116	Minton, Village of	Resurface 1st Street West Between Railway Avenue and 1st Avenue	Level the uneven surface of 167.6 m x 9.1 m of road and then sand seal the top as the street has a steep grade.	Local Roads and Bridges	\$20,000.00	\$0.00	No
624	2021-005836	Miry Creek No. 229, RM of	Reconstruct 6.4 km of Hospital Road	Mill, pack and reshape 6.4 km of Hospital Road located north of 23-19-21-W3, 24-19-20-W3, 19, 22 and 24-19-19-W3.	Local Roads and Bridges	\$114,480.00	\$114,480.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
625	2021-005799	Monet No. 257, RM of	Renovate Building for Library	Acquire and renovate a building in Elrose for the Elrose Branch of the Wheatland Regional Library. The Town of Elrose and the RM of Monet will continue to jointly manage the library. The renovations will include painting, flooring, new doors and minor interior renovations.	Cultural Infrastructure	\$40,151.87	\$40,151.87	Yes
626	2021-005800	Monet No. 257, RM of	Upgrade Heavy Haul Roads Throughout Municipality	Includes upgrading 46.6 km x 8.5 m of roads at seven locations throughout the municipality with potash combined with road gravel to firm up the roadbed and extend the life of the roads.	Local Roads and Bridges	\$84,126.27	\$84,126.27	Yes
627	2021-005441	Montmartre, Village of	Upgrade Maintenance Shop Energy Efficiency	Upgrade maintenance shop which includes upgrading insulation and tinning the interior, electrical, lighting, replace drive-in sliding doors with overhead doors, metal sheeting the exterior and installing radiant heat. The improvements will reduce the overall energy required to heat the building.	Community Energy Systems	\$79,922.17	\$79,922.17	Yes
628	2021-005980	Montmartre, Village of	Reconstruct 260 m of First Street	The existing road will be excavated to a depth of 400 mm, prep the subgrade, install a 4 x 4 combi-grid filter fabric, put in 350 mm of base gravel then 65 mm of asphalt pavement for 260 m.	Local Roads and Bridges	\$206,014.18	\$206,014.18	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
629	2122-006153	Montrose No. 315, RM of	Asset Management Framework and System Project	Hire a contractor to set up an asset management framework including AM GIS software, updated policy and strategy plan, and road map for recording of gravel applied to roads and road upgrades and culverts. Centralizing asset information in a database will provide valuable information for the strategic planning and clear direction for the RM to continue to move forward.	Capacity Building	\$82,000.00	\$9,360.00	No
630	2021-005469	Moose Jaw No. 161, RM of	Replace Boharm Bridge at NW 06-17-27-W2	Upgrade bridge based on the inspection report provided by engineer, including installation of new box culverts and riprap to keep road open. Road reconstruction will accommodate heavy haul traffic.	Local Roads and Bridges	\$355,558.89	\$285,481.81	Yes
631	1920-004956	Moose Jaw, City of	Replace 1,060 m of East Water Feeder Main - Phase 4	Replace 1,060 m of 450 mm cast iron water main on the east feeder with PVC pipe, between 200 mm and 600 mm. Starts at the High Service Reservoir in the Lyndale Golf Course and runs approximately 4.2 km, ending at the intersection of 1st Avenue SE and Lillooet Street. Funding is for completion of this feeder main between the Town and Country Mall and the High Service Reservoir.	Drinking Water	\$2,918,000.00	\$38,218.65	Yes
632	2021-006055	Moose Jaw, City of	Replace Churchill and Valley View Lift Stations	The Churchill and Valley View lift stations located on the northwest corner of the intersection of Winston Street and Wellesley Street have been in service for many years and are at the end of their life expectancies. These lift stations will be replaced with a single manhole style lift station structure that will service the entire area.	Wastewater	\$1,500,000.00	\$1,500,000.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
633	2122-006314	Moose Jaw, City of	Replace High Service Pumphouse	The new High Service pumphouse will replace the existing pump station in its entirety. The new facility will include six 125 hp pumps equipped with variable frequency drives, bridge crane, two natural gas fueled standby generators, process, and distribution piping, building mechanical system, and associated electrical and instrumentation with dedicated electrical room. A 20-year design horizon was considered to support the future growth of the city.	Drinking Water	\$15,000,000.00	\$2,035,000.00	No
634	1920-004719	Moose Jaw, City of	Capital Upgrade of Kinsmen Sportsplex	The project consists of replacing the upper built roof over the aquatic centre, replacing the dry line fire suppression piping in the arena, and completing several interior renovations to the change rooms, washrooms, and reception area to modernize them and make the facility more accessible and extend the estimated useful life of the facility.	Recreational Infrastructure	\$535,000.00	\$0.00	Yes
635	1920-004981	Moose Jaw, City of	Replace 3,200 m of Cast Iron Water Main - Phase 5	Installation of approximately 3,200 m of water main ranging in size from 150 mm to 400 mm on Stadacona Street East (Sixth Avenue NE to Tenth Avenue NE), Fairford Street East (Main Street to Second Avenue NE), High Street West (Main Street to Third Avenue NW) and Third Avenue NW (Oxford Street West to MacDonald Street). Includes associated fittings, valves and hydrants, replacement of non-copper water service lines, non-corrode sewer lines, corrugated steel pipe storm lines, catch basins and roadway restoration.	Drinking Water	\$5,800,000.00	\$0.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
636	1920-004943	Moose Mountain No. 63, RM of	Rebuild 9 km of Grid Road 603	Rebuild 9 km of road on the 603 Grid South from TWP RD 070 to north of TWP RD 075. This road runs from Highway 9 south to Highway 13. A 30 cm clay cap will be placed with the final road top width being 8.6 m with 4:1 side slope.	Local Roads and Bridges	\$572,660.53	\$211,102.20	Yes
637	2122-006185	Moosomin, Town of	Reline 114 m of Sewer Mains 2017	Line 114 m x 300 mm sewer main with 12 mm thick liner. Project costs include materials and labor to install the cured in-place pipe lining, as well as spot repairs to facilitate liner installation.	Wastewater	\$120,055.60	\$120,055.60	Yes
638	2122-006186	Moosomin, Town of	Reline 587 m of Sewer Mains 2020	Reline 484 m x 200 mm x 6 mm and 103 m x 250 mm x 6 mm of sewer lines on Mountain Street, Moose Street, Windover Avenue, Ogilvie Street, and Alberni Street. Project costs include material and labor to install the cured in-place pipe lining, as well as spot repairs to facilitate liner installation.	Wastewater	\$288,968.51	\$288,968.51	Yes
639	2122-006187	Moosomin, Town of	Reline 764 m of Sewer Mains 2019	Reline 659 m x 200 mm x 6 mm and 105 m x 300 mm x 6 mm of sewer lines. Project costs include camera inspection, material costs and labor to install the cured in-place pipe lining, as well as spot repairs to facilitate liner installation. Located on Mark Avenue, Broadway Avenue, Gertie Street, Dorchester Place, Ellice Street, McNaughton Street, Gordon Street, Birtle Street and Mountain Street.	Wastewater	\$573,551.29	\$573,551.29	Yes
640	2021-005208	Morris No. 312, RM of	Repaving 3.7 km of Grid 668	Repave 3.7 km of grid road by milling old asphalt mat, strengthening of road base and hot mix paving.	Local Roads and Bridges	\$1,597,735.40	\$127,573.30	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
641	2021-005267	Morse No. 165, RM of	Clay Cap 10.6 km of Grid 644 and Replace 19 Culverts	Clay cap 10.6 km with 300 mm new clay and replace 19 culverts on Grid 644 from the Town of Morse north to provide a route from the TransCanada Highway to the City of Saskatoon via the Riverhurst Ferry.	Local Roads and Bridges	\$665,149.42	\$182,202.75	Yes
642	2021-005470	Morse, Town of	Drill New Well at SE 09-17-08-W3	Drill a new 20.3 cm x 60 m well to increase the capacity of water available to the residents. Costs include, but are not limited to, drilling a test-hole, reaming and casing, all drive screens, stainless steel tailpipe, cement, polymer mud, pumping test, steel casing, SCH 80 PVC piping.	Drinking Water	\$152,542.55	\$130,183.70	Yes
643	1516-003608	Mossbank, Town of	Repave Three Streets	Upgrade Centennial Drive, 1st Avenue, and 5th Avenue by capping, shimming and rebuilding some areas to extend the useful life and provide a smoother surface for travel.	Local Roads and Bridges	\$250,000.00	\$0.00	No

645	1920-005076	Mountain View No. 318, RM of	Replace Bridge with Three Steel Culverts	The bridge was removed due to water flow and drainage issues. The bridge was replaced with three galvanized CSP culverts measuring 1,500 mm x 2.88 mm x 18 mm.	Local Roads and Bridges	\$14,747.82	\$14,747.82	Yes
646	2021-005195	Mountain View No. 318, RM of	Construct Transfer Station	Construct a transfer station site by levelling and gravelling the site area, construct a 28 m x 28 m perimeter fence, building ramps for vehicles to drive onto to dispose of waste and providing a building with power for the transfer station attendant.	Solid Waste	\$42,236.21	\$42,236.21	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
647	1920-005041	Muenster, Village of	Phillips Bay Extensions to Sewer Line	New Subdivision of Phillips Bay required sewer line services installed to service 14 residences. New sewer line ties into existing infrastructure. New line includes 122 m of sanitary sewer lines, 3.3 vertical m of sewer manholes, one manhole cover, 16 m of insulation and a connector to existing manhole and 70 m of culverts.	Wastewater	\$129,380.17	\$129,380.17	Yes
648	2021-005953	Neilburg, Village of	Rehabilitate Ball Place Road	Excavate 515 mm below grade, supply, and place geotextile; supply, place and compact 300 mm of sub-base aggregate; supply, place and compact 150 mm of base aggregate; supply, place and compact 65 mm of hot mix asphalt. Road is 10 m x 82.5 m and then becomes a cul-de-sac for an additional 27.5 m.	Local Roads and Bridges	\$167,149.95	\$167,149.95	Yes
649	2122-006296	Netherhill, Village of	Develop Asset Management Plan	Contracting an engineer to help develop an asset management plan.	Capacity Building	\$10,000.00	\$0.00	No
650	2021-005243	Neville, Village of	Resurface Gloucester Street	Reconstruct village streets starting with Gloucester Street with cold mix.	Local Roads and Bridges	\$13,568.00	\$13,568.00	Yes
651	2021-005658	Newcombe No. 260, RM of	Upgrade 1.6 km of Road at N 21-24-22-W3	Reconstruct 1.6 km of Clearing the Path Road including sub-base, base, geo-fabric, road top, clay cap and topped with road gravel, correct side slope, back slope and crown on road to enable heavy haul loads.	Local Roads and Bridges	\$600,000.00	\$0.00	No
652	2021-005375	Nipawin No. 487, RM of	Install a Floating Dock at Bushfield's Landing	Install 1.5 m x 9.8 m of plastic floating dock for public use at Bushfield's Landing. The actual dock was a donation.	Tourism Infrastructure	\$1,627.84	\$1,627.84	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
653	2021-005722	Nipawin No. 487, RM of	Develop Asset Management Plan	Hire an engineering firm to develop an asset management plan. This will provide a strategic plan for the community using the information and data collected and will consist of alignment with strategic community goals, establish customer (resident) and technical levels of service, assess future demand drivers and demand management strategy, risk, and consequence of asset failure (risk management), approach to infrastructure resiliency, operations and maintenance, renewal, rehabilitation and asset upgrades.	Capacity Building	\$200,000.00	\$89,827.54	No
654	2021-005761	Nipawin No. 487, RM of	Renovating the Inkster School Historical Building	Replace the fascia boards and install plexiglass windows, match the shingles and the roof line to keep the historical look through patching roof and replacing the current deteriorated shingles.	Cultural Infrastructure	\$6,095.00	\$6,095.00	Yes
655	2021-005879	Nipawin No. 487, RM of	Create Tourist Area at Smits Subdivision	Creating a tourist area including: a 2,000 sq m parking area; a 3,500 sq m parking area for boats and trailers (both parking areas are a gravel and sand base); construction of a covered outdoor eating area including installed BBQ and picnic tables; and a recreation area for activities such as volleyball court and/or play structures.	Tourism Infrastructure	\$40,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
656	2021-006092	Nipawin No. 487, RM of	Enhance Shoreline at Bushfield's Landing	Create a 50 m x 50 m parking area for tourists by leveling and graveling the area; upgrade the existing 3,000 m of road accessing the shoreline by reshaping the grade, installing a culvert and adding 0.8 km of ditching; create a 2.5 m x 400 m walking path to the shoreline by removing trees, installing geo-mat, riprap and graveling; upgrade the boat launch by extending two 3.6 m x 4.9 m x 0.15 m cement pads; and add a 3.6 m x 15.2 m wooden dock for aircraft.	Tourism Infrastructure	\$200,000.00	\$0.00	No
657	1920-005048	Nokomis, Town of	Replace 75 Curb Stops	Replace 75 curb stops throughout the community as most are over 40 years old and at the end of their service life. These replacements will help isolate for repair and ensure fewer boil water advisories.	Drinking Water	\$78,000.00	\$1,540.02	No
658	1920-004641	Nokomis, Town of	Install 150 New Water Meters	Replace 150 water meters in the residential houses.	Drinking Water	\$30,000.00	\$0.00	No
659	1920-005049	Nokomis, Town of	Replace 30 Water Main Valves	Replace 30 water main valves throughout the community as most are over 40 years old and failing. These replacements will help isolate for repair and ensure fewer boil water advisories.	Drinking Water	\$126,000.00	\$0.00	No
660	2021-005274	Norquay, Town of	Upgrade Norquay Curling Rink Roof	Insulating and sealing the curling rink roof with UV protectant spray foam to extend the life of the curling rink roof, along with preventing the roof from leaks and will reduce the operational costs of the curling rink and increase the life span of the curling rink.	Sport Infrastructure	\$36,094.00	\$36,094.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
661	2021-005502	Norquay, Town of	Install Pitless Adaptors at Two Water Wells	Install two pitless adaptor units at the water wells. This will ensure safe measures while working on the water pumps and eliminating a hazardous space.	Drinking Water	\$27,970.84	\$27,970.84	Yes
662	2021-005565	Norquay, Town of	Double Chip Seal 10,000 sq m of Road	Double chip seal 10,000 sq m of road. Locations to be completed: 1st, 2nd and 4th Street West, 2nd Avenue Southeast, 2nd and 3rd Street East, and road allowance Old Highway 49.	Local Roads and Bridges	\$67,734.00	\$67,734.00	Yes
663	2122-006227	North Battleford No. 437, RM of	Upgrade Road Base on 5.6 km of Road	Incorporate base stabilization agent into 5.6 km of roadway to prolong the life of the road and eliminate the need for annual dust control. When cured, the solution will harden the road top.	Local Roads and Bridges	\$193,026.40	\$193,026.40	Yes
664	1920-004929	North Battleford, City of	Replace 5,000 Water Meters	Replace approximately 5,000 water meters currently in operation with auto read units and move to a modern electronic metering system that keeps better record of water used and helps provide more information to manage water breaks and improve customer service.	Drinking Water	\$2,500,000.00	\$1,740,680.73	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
665	1920-004930	North Battleford, City of	Standalone Study – Alternative Energy – Recreation Facilities and Wastewater Treatment Plant – Phase 1 Feasibility Study	The city is moving forward with a feasibility study to look at using alternative energy sources to reduce greenhouse gas emissions and overall power consumption at major City facilities within North Battleford. This may include renewable energy infrastructure such as solar panels, co-generation, food waste converter and others. Energy upgrade installation at recreation facilities and the city's wastewater treatment plant beginning in 2021, resulting in the reduction in the use of power sources that are greenhouse gas intensive.	Community Energy Systems	\$117,634.00	\$0.00	No
666	2021-005284	North Grove, Resort Village of	Paving Deer Ridge Drive	Paved 145 m x 16 m of Deer Ridge Drive by applying oil and then pavement over top.	Local Roads and Bridges	\$12,091.96	\$12,091.96	Yes
667	2021-005204	North Portal, Village of	Renovate and Upgrade Community Centre	Renovation and upgrade of the 279 sq m Community Centre will improve the accessibility, capacity and future sustainability of North Portal's only meeting hall and recreation centre. Accessibility will improve with better concrete ramps to all doorways. Outdoor recreation surface for winter skating and summer racquet sports and basketball will expand from 232 sq m to 465 sq m and aging siding, roofing, flooring and septic will be replaced.	Recreational Infrastructure	\$150,000.00	\$0.00	No
668	2021-005666	North Qu'Appelle No. 187, RM of	Replace Bridge at 19-21-14-W2 with Low Level Crossing	Remove 6.1 m x 7 m wooden bridge built in 1965 and replace with a rock ford crossing/low level crossing to provide infrastructure for modern day farm equipment.	Local Roads and Bridges	\$49,820.00	\$49,820.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
669	2122-006258	North Qu'Appelle No. 187, RM of	Upgrade Lakeview Crescent Road	Build up the road base on an existing road that services the residents of the Hamlet of Taylor Beach. Includes adding approximately 0.3 m of road base along a section of a gravel-based road approximately 91.4 m long.	Local Roads and Bridges	\$6,800.00	\$0.00	No
670	2122-006183	North Qu'Appelle No. 187, RM of	Pave 500 m of Pasqua Lake Road	Overlay approximately 500 m x 6.5 m of Pasqua Lake Road with 50 mm hot mix asphalt, including upgrades to low areas. Area resurfacing is from 222 Pasqua Lake Road going west to 278 Pasqua Lake Road.	Local Roads and Bridges	\$63,560.25	\$63,560.25	Yes
671	2122-006184	North Qu'Appelle No. 187, RM of	Fog Seal 1 km of Pasqua Lake Road	Fog seal emulsion overlay on approximately 1 km x 6.5 m of Pasqua Lake Road. Treated area is from 442 Pasqua Lake Road west to 524 Pasqua Lake Road.	Local Roads and Bridges	\$10,335.00	\$10,335.00	Yes
672	2021-005148	Odessa, Village of	Addition of a Pitched Tin Roof to the Odessa Community Centre	The addition of a 394 sq m pitched tin roof on the Odessa Community Centre will make the building more energy and cost efficient by adding an extra layer of insulation and will also increase the life of the building.	Recreational Infrastructure	\$124,329.71	\$82,505.91	Yes
673	0910-001742	Ogema, Town of	Sewage Lagoon Expansion	This project involves expanding the existing lagoon to accommodate the increase in the Town's population and prevent the possibility of leakage.	Wastewater	\$1,941,296.99	\$80,136.00	No
674	2021-005912	Ogema, Town of	Upgrade Approximately 1,700 m of Wastewater Lines	Reline approximately 1,700 m of sewer lines by installing 200 mm x 4.5 mm polyester felt liner. Relining the existing wastewater lines will extend the useful life of the lines and this procedure, including the use of a camera video to assess the current state, avoids digging up the paved streets.	Wastewater	\$440,000.00	\$9,429.40	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
675	2021-005139	Old Post No. 43, RM of	Replace Bridge with Three Culverts at N of NW 31-05-02-W3	The old bridge will be removed and replaced with culverts. Entire area to be dug out to hardpan, a clay base will be put down, geotextile, a second clay layer, install three 2,400 mm x 16 m culverts then back-fill with granular material, compact, add more clay to top of culverts, install riprap, then road gravel to correct crown on road.	Local Roads and Bridges	\$103,390.60	\$103,390.60	Yes
676	1920-004955	Orkney No. 244, RM of	Upgrade 4.41 km of Grain Millers Road	Rebuild 4.41 km of Grain Millers Road by widening the road to allow for trucks and making it usable all year round. Existing roadway material is not acceptable; therefore, the top 300 mm of subgrade will be replaced with clay cap, topsoil will be stripped approximately 150 mm, gravel applied, and riprap installed.	Local Roads and Bridges	\$1,043,598.00	\$730,000.00	Yes
677	1920-005055	Orkney No. 244, RM of	Upgrade 6.4 km of Protz Memorial Road	Upgrade road by scraping off existing gravel and hauling clay from borrow pit/hill to place approximately 20.3 cm to 30.5 cm of clay on top of existing road. Road measures approximately 9.1 m in width for an estimated 6.4 km starting at junction of Highway 10 and Protz Memorial Road going west 6.4 km on Protz Road to approximately Jaroslaw Trail. Also, includes shaping road surface, removing large rocks and replacing gravel (approximately 600 yards gravel per 1.6 km).	Local Roads and Bridges	\$976,692.41	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
678	1920-005059	Osage, Village of	Construct a New Dugout to Hold Surface Water	The main objective of this project is to construct a new dugout to store water in preparation for treatment. The new dugout will hold a few years' worth of water once it is filled from spring runoff. Measurements of the new dugout are as follows: depth 20 m, bottom: 49.3 m long by 15.5 m wide, top: 81 m long by 29 m wide.	Drinking Water	\$13,843.60	\$8,613.00	Yes
679	2021-006074	Osler, Town of	Upgrade North Park Playground	North Park upgrade will include the purchase and installation of an all ages and abilities playground that would include structures for persons with disabilities.	Recreational Infrastructure	\$143,045.00	\$98,343.85	No
680	1920-004802	Outlook, Town of	Stormwater Outfall Rehabilitation - Sky Trail Corridor	Relocate the outfall above the failure plane, landscape the existing channel to rebuild what was already washed away and develop erosion control measures such as geo-fabric and riprap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$200,000.00	\$0.00	No
681	1920-004803	Outlook, Town of	Stormwater Outfall Rehabilitation - River Avenue	Relocate the 200 m outfall above the River Avenue failure plane, landscape the existing channel to rebuild what was already washed away and develop erosion control measures such as geo-fabric and riprap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$250,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
682	1920-004804	Outlook, Town of	Stormwater Outfall Rehabilitation - Regional Park	Relocate the 640 m outfall above the Regional Park failure plane, landscape the existing channel to rebuild what was already washed away and develop erosion control measures such as geo-fabric and riprap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$500,000.00	\$0.00	No
683	2021-005714	Paddockwood No. 520, RM of	Upgrade Stroh Bridge at N 17-53-25-W2	Install supplementary backing planks and scour planks on left hand- and right-hand sides of abutment 1 and 2 and replace guard rail and wheel guard.	Local Roads and Bridges	\$14,734.00	\$14,734.00	Yes
684	2021-005715	Paddockwood No. 520, RM of	Upgrade Forest Gate Bridge at N 20-53-25-W2	The frost pushed the northwest corner of the bridge 15.24 cm to 30.48 cm. This project entails rebuilding the entire west end of the bridge, removing west span, driving eight new piles in abutment, replacing cap, installing Deadman anchors, pile ties, new backing planks and cleats, as well as rebuilding the right- and left-hand sides (with new piles and backing planks).	Local Roads and Bridges	\$42,400.00	\$42,400.00	Yes
685	2021-005716	Paddockwood No. 520, RM of	Upgrade Corriveau Bridge	This bridge upgrade is to ensure access to a residential/agricultural yard site. The upgrade involves installation of piles adjacent to the internal and external wing piles on the left-hand side of abutment one. The approach rail on the right-hand side of abutment two will be replaced.	Local Roads and Bridges	\$11,925.00	\$11,925.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
686	2021-005850	Paddockwood No. 520, RM of	Install Combi Grid to 3.63 km of Forest Gate Road	Raise 3.63 km of road and installation of 48 rolls of combi grid, 4.11 km of clay, and 0.55 km of gravel. The road will be raised 40.64 to 45.72 cm. This section of road is imperative for gravel hauling from the newly developed gravel pit. The combi grid will stabilize the road and the raise will elevate it above the water line in low lying areas.	Local Roads and Bridges	\$145,488.17	\$0.00	No
687	2021-005886	Paddockwood No. 520, RM of	Upgrade and Lift 5.63 km of Gravel Pit Access Road	Brush mulch, raise road by 15.24 to 45.72 cm, and combi grid installation on a total of 5.63 km of road. Upgrading this road will aid in accessing the newly developed gravel pit.	Local Roads and Bridges	\$105,575.00	\$0.00	No
688	1516-003541	Pangman, Village of	Replace Curb Stops	Replace curb stops which are no longer able to be shut off (10-15).	Drinking Water	\$6,000.00	\$0.00	No
689	1920-004705	Pangman, Village of	Replace Five 150 mm Main Water Valves	Replace five 150 mm main water valves.	Drinking Water	\$15,606.11	\$0.00	Yes
690	2021-005545	Paradise Hill, Village of	Construct Roadway in New Subdivision	Construct a new subdivision to accommodate future growth within the village. CCBF to cover the cost of the roadwork, site preparation, and engineering under the Local Roads and Bridges project category.	Local Roads and Bridges	\$366,422.74	\$228,451.93	Yes
691	2021-005329	Parkdale No. 498, RM of	Reconstruct Canyon Road at NW 07-49-16-W3 and SE 18-49-16-W3	Reconstruction consisting of the installation of culverts, including two 1,200 mm x 17.5 m culverts, three 900 mm x 4.8 m culverts, and two 600 mm x 5.7 m culverts. Road repaired after culvert installation by regrading using 95 m of gravel.	Local Roads and Bridges	\$110,233.97	\$110,233.97	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
692	2021-005330	Parkdale No. 498, RM of	Reconstruct Range Road 3172	Installation of three culverts (450 mm x 5.1 m) located along Range Road 3172 at NE 03-50-17-W3 and SE 22-50-17-W3. The road was repaired after culvert installation by regrading using 54 m of gravel.	Local Roads and Bridges	\$14,421.06	\$14,421.06	Yes
693	2122-006316	Parkdale No. 498, RM of	Replace Russell Coulee Culvert	Replace one 2,700 mm x 0.029 km culvert, as it is beginning to rust. Any further erosion will compromise the stability and strength of the culvert as well as the grid road above it. The culvert is in a coulee with developed agriculture land surrounding it and allows the Jackfish Creek and surrounding run-off to flow through.	Local Roads and Bridges	\$181,500.00	\$0.00	No
694	1920-004807	Parkside, Village of	Insulate Village Shop Walls	Insulate the 9.14 m x 12.19 m village shop with fiberglass insulation to improve the building's energy efficiency.	Community Energy Systems	\$6,929.07	\$6,929.07	Yes
695	1920-004997	Parkside, Village of	Install 185 m New Chain Link Fence Around Two Ball Diamonds	Replace the existing fence around two ball diamonds with 185 m of new chain link fence with heights of 1.23 m and 1.54 m to improve the ball diamonds, attracting more events and users.	Sport Infrastructure	\$16,581.20	\$10,000.00	Yes
696	1920-004988	Parkside, Village of	Install Back-up Generator at Heritage Centre	Install a new back-up gas operated generator, plumbing in the gas, and all required electrical work for Heritage Centre to enable continued programming during power outages.	Recreational Infrastructure	\$9,012.44	\$0.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
697	2021-005475	Paynton No. 470, RM of	Replace Paynton Recreation Centre Boiler	The RM and Village municipal offices along with the Paynton Library and Recreation Centre are all housed in the old Paynton School. For the last three years the boiler has been failing, leaving the building very cool during the winter months. Replacing old boiler with complete boiler system including boiler, circulation pump, fill station, piping, expansion tank, heating panels, pumps and thermostats and planking in boiler room.	Community Energy Systems	\$60,265.08	\$58,275.08	Yes
698	2021-005303	Paynton, Village of	Construct Water Well	Drill a new well, trench to water treatment plant, well hook-up and associated plumbing for a reliable source of water to supply the residents of Paynton.	Drinking Water	\$55,512.98	\$55,512.98	Yes
699	1920-004675	Pebble Baye, Resort Village of	Upgrade Beach Area with Swimming Dock	Purchase and install a 2.9 m x 2.3 m swimming dock, complete with ladder, and add 70 130 mm x 230 mm swimming buoys complete with 76 m of 19 mm connecting rope in beach area for enjoyment and safety.	Tourism Infrastructure	\$15,000.00	\$2,226.00	No
700	1718-004308	Pebble Baye, Resort Village of	Upgrade Marina	Upgrade marina to make it safer by replacing stairs and walkways. Also, creating slips that will accommodate larger boats and pontoon boats.	Tourism Infrastructure	\$15,000.00	\$0.00	No
701	2021-005764	Pelican Pointe, Resort Village of	Extend Length of the Boat Launch	Extend the boat launch by 2.4 m into the water. Extending the length of the boat launch will enable anyone using the launch safe access to Last Mountain Lake and will accommodate low water levels. Costs for this project include purchase, delivery and installation of cement pads.	Tourism Infrastructure	\$3,097.00	\$3,097.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
702	2122-006224	Pelly, Village of	Install Generator at Lift Station	Install an energy efficient natural gas generator at the sewage lift station. The generator will ensure the lift station pumps continue to function in event of power outage. The current generator is portable and requires manual maintenance by the foreman and this upgrade will eliminate this requirement. Costs include all associated materials required for install, labor, and a 2.4 m x 2.4 m x 15.2 cm concrete pad to situate generator on. A gas line to the generator will also be installed.	Wastewater	\$42,334.96	\$0.00	No
703	1920-004780	Pennant, Village of	Decommission Landfill at NW 14-18-17-W3	Complete an Environmental Site Assessment to detect any leaching and air quality as the required final step for decommissioning the landfill.	Solid Waste	\$27,000.00	\$24,291.00	No
704	1415-003298	Pennant, Village of	Pave 0.3 km of Road	Paved 0.3 km of village streets due to deterioration. Mulched existing pavement on Standard Street and applied 7.6 cm hot mix for a smoother harder surface. Applied 7.6 cm hot mix on gravel on Saskatchewan Avenue.	Local Roads and Bridges	\$131,609.00	\$0.00	No
705	2021-005234	Pense No. 160, RM of	Replace Bridge with Five 1,800 mm x 18 m Culverts	Replace an aging wooden structure bridge north of NW 24-16-22-W2 with five 1,800 mm x 2.8 mm x 18 m galvanized CSP culverts to provide increased safety and visibility for ratepayers and extend the useful life of the structure and road.	Local Roads and Bridges	\$231,408.96	\$215,807.40	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
706	2021-005697	Pense, Town of	Complete Upgrades to Community Hall	Complete energy upgrades to the community town hall to reduce operational costs which involve removing the old siding, upstairs windows and main entrance door and replacing with seven new energy efficient triple pane windows, installing 1.5-inch XPS insulation, steel siding, soffit and fascia and a new exterior door. Measurements of walls requiring siding are as follows: north wall 22.3 m x 4.3 m; south wall 22.3 m x 3 m; east walls 11 m x 4.3 m and 4.9 m x 3 m; and west walls 11 m x 4.3 m and 4.9 m x 3 m.	Community Energy Systems	\$63,610.34	\$43,610.34	Yes
707	2021-005794	Pense, Town of	Develop Asset Management Plan	The Town will conduct condition assessment and modeling of the Town's water, sewer, storm water management and transportation infrastructure. The assessment will include a review of the operation of each system, identification of priority maintenance, planning and growth projections and priorities and short-, medium-, and long-term planning. Costs associated with this project are for hiring an engineer.	Capacity Building	\$49,998.49	\$9,998.49	Yes
708	2122-006151	Pense, Town of	Replace 240 Water Meters	Upgrade and replace 240 water meters within the municipality. The new meters will have increased accuracy and offer operational efficiencies related to the meter reading process. Upgraded technology provides enhanced customer service and access to timely, reliable and accurate data.	Drinking Water	\$175,819.00	\$175,819.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
709	2021-005489	Perdue No. 346, RM of	Replace Kinley Bridge at E 13-36-10-W3	Remove old timber bridge and construct a 48 m x 7.315 m steel structure with concrete decking.	Local Roads and Bridges	\$740,622.00	\$251,100.85	Yes
710	2021-005579	Perdue, Village of	Upgrade Filter at Water Treatment Plant	Upgrade 1524 mm x 1829 mm filter at the water treatment plant. This will include replacement of the manganese greensand.	Drinking Water	\$20,625.90	\$20,625.90	Yes
711	2122-006269	Piapot No. 110, RM of	Upgrade Wilson Bridge at NW 07-12-23-W3	The upgrade will see structural defects addressed, including patching of the main abutment walls and pier, the concrete bridge approaches on abutments one and two will be replaced, the embankments and all four corners of structure on abutment one and two reconstructed, and the upper portion of the bridge and hand railing will be patched.	Local Roads and Bridges	\$65,004.50	\$65,004.50	Yes
712	2122-006288	Piapot No. 110, RM of	Upgrade Low Level Crossing at SE 05-12-22-W3	The upgrade of this low-level crossing will see approaches on each side replaced, with additional concrete and rebar added to the base to ensure a firm foundation. The foundation would receive additional (10 cm) concrete preventing cracking and damage to vehicle tires. Upgrades to this low-level crossing will result in safer travel and increase the life span of existing infrastructure.	Local Roads and Bridges	\$28,447.75	\$28,447.75	Yes
713	2021-005451	Pierceland, Village of	Complete Renovations on Josie Britton Centre (Community Centre)	Complete upgrades on the Josie Britton Community Centre which involves a new roof, T-bar ceiling, painting walls, installing drywall, new weather stripping on doors, new flooring including baseboards and carpets, and new lighting system to LED lighting.	Recreational Infrastructure	\$118,438.45	\$118,438.45	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
714	2021-005452	Pierceland, Village of	Purchase and Replace 20 Water Meters	Replace twenty 1.91 cm water meters.	Drinking Water	\$5,500.95	\$5,500.95	Yes
715	2021-005453	Pierceland, Village of	Upgrade Road on 2nd Avenue South	The existing road will be excavated and replaced with 96.52 cm of compacted clay with woven 90.72 kg grab geotextile fabric in between clay and base gravel. It will be covered with 17.78 cm of compacted base gravel and topped with 1.91 cm of road gravel.	Local Roads and Bridges	\$16,854.00	\$16,854.00	Yes
716	2021-005454	Pierceland, Village of	Upgrade Road on 3rd Avenue South	Excavate 30 m x 7.6 m of existing road and place 96.52 cm of compacted clay on top, with woven 90.72 kg grab geotextile fabric in between clay and base gravel, then topped with 25.4 cm of compacted road gravel.	Local Roads and Bridges	\$28,007.06	\$28,007.06	Yes
717	2021-005455	Pierceland, Village of	Install New Playground Equipment at Neil Currie Park	Excavate 0.3 m of sand base and install a 9.9 m x 8.6 m playground structure at Neil Currie Park.	Recreational Infrastructure	\$18,352.84	\$18,352.84	Yes
718	2021-005456	Pierceland, Village of	Develop a 305 m x 6 m Walking Trail	Construct a 305 m x 6 m walking trail in the village.	Local Roads and Bridges	\$3,185.61	\$3,185.61	Yes
719	2021-005457	Pierceland, Village of	Energy Efficiency Upgrades in Village Office	Includes upgrading high efficiency furnace along with associated duct revisions, installing a high efficiency electric water heater, installing a new thermostat and carbon monoxide detector, and replacing lighting with LED lighting in both the village office and in the community center.	Community Energy Systems	\$12,540.46	\$12,540.46	Yes
720	2122-006222	Pilger, Village of	Upgrade Two Furnaces in Recreation Centre	Replace two old furnaces in the recreation centre to more energy efficient furnaces.	Community Energy Systems	\$14,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
721	2021-005352	Pilger, Village of	Complete Upgrades to Pilger Public Library	Pilger Public Library/Village Office had its siding replaced with storm vinyl siding, soffits and fascia upgrades, and insulation added to reduce the building's heating costs and to save energy. The building measures approximately 6.7 m x 8.5 m.	Community Energy Systems	\$9,576.04	\$9,576.04	Yes
722	2021-005293	Pilot Butte, Town of	Standalone Study - Pilot Butte Recreation Centre Drainage and Design	Hire consultants to identify solution and design project for the current eavestrough and storm water management system for the Pilot Butte Recreation Centre. The current system cannot safely manage the storm water and is a concern for the senior complex, library and people entering the recreation centre.	Wastewater	\$157,654.62	\$100,000.00	No
723	2122-006164	Pinto Creek No. 75, RM of	Replace Bridge at S 18-07-08-W3	Replace a timber 12.2 m x 7.32 m bridge that was built in 1966 with four 2,000 mm steel culverts. This bridge is located on a main farm access road.	Local Roads and Bridges	\$227,469.88	\$113,181.55	Yes
724	1213-002685	Pittville No. 169, RM of	Reconstruction of Verlo Hill Road	Improve grade on 4.6 km of Verlo Hill Road to provide a safer road.	Local Roads and Bridges	\$271,327.50	\$57,310.85	Yes
725	1516-003763	Pittville No. 169, RM of	Upgrade 3.2 km of Class 4 Road	Improve alignment and elevation changes on 3.2 km of Class 4 road through the valley to improve driver safety.	Local Roads and Bridges	\$329,709.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
726	2021-005490	Pleasant Valley No. 288, RM of	Upgrade Range Road 3184	Rebuild/upgrade 8 km x 8.5 m of municipal road. The ditches were cleaned out and deepened for the length of the upgrade. The road surface, side slopes, ditches and back slopes were bladed smooth. Gravel was incorporated in the top 100 mm of the subgrade and topped with traffic gravel. Side slopes were constructed at 3:1 and the back slopes from 5:1 with a maximum slope of 3:1. A total of 17 culverts were placed (one 914 mm x 15 m, one 609 mm x 15 m, eight 406 mm x 15 m, one 609 mm x 15 m and six 304 mm x 7.6 m).	Local Roads and Bridges	\$381,664.77	\$141,152.29	Yes
727	1920-004809	Pleasantdale No. 398, RM of	LeRoy REACT Landfill Site Capital Portion	Construction of a new regional landfill site located at SW 31-35-21-W2 with a design life capacity of over 65 years. This landfill will replace the previous landfill which was at capacity. The new landfill measures 0.323 square km, including a scale/processing area, engineered garbage cells, two run-off ponds, one leachate pond, and 12.19 m tall netting installed around cells 1 and 2 for litter containment.	Solid Waste	\$92,380.00	\$82,310.58	Yes
728	2122-006182	Pleasantdale No. 398, RM of	Replace Robb's Bridge NE 24-42-18-W2	Replace wooden 6 m bridge with bridge built similar to existing with new wood piles, wood stringers, wood deck and bridge railing. New bridge will have eight piles and 13 stringers instead of standard seven piles and 11 stringers.	Local Roads and Bridges	\$127,650.00	\$70,000.00	Yes
729	2021-005353	Pleasantdale, Village of	Upgrade to Energy Efficient Furnace at Municipal Office	Upgrade furnace in the municipal office to a down-flow furnace, 96 per cent efficient. Includes ductwork to adapt to existing plenum, gas line and venting per gas code, and replacement of the chimney liner.	Community Energy Systems	\$6,739.08	\$6,739.08	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
730	2021-005878	Pleasantdale, Village of	Install Back-Up Generator for the Water Treatment Plant	Purchase and install a fixed back-up generator for the municipal water treatment plant. Having a back-up generator will ensure the ratepayers will always have water if there is a power outage. The generator will also reduce the number of precautionary drinking water advisories due to power outages.	Drinking Water	\$25,961.02	\$18,688.02	Yes
731	2021-005945	Plenty, Village of	Install 104 m of Water Line to Loop System	Install 104 m of 150 mm PVC water line from 1st Street and Saskatchewan Avenue to 2nd Street to allow looping of water line to prevent the water from sitting stagnant in the line instead of circulating.	Drinking Water	\$24,795.24	\$24,795.24	Yes
732	2021-005757	Plenty, Village of	Upgrade Four Energy Efficient Windows in Municipal Office	Replace four windows in the municipal office with new energy efficient ones to reduce energy usage and save on energy bills each year.	Community Energy Systems	\$6,000.00	\$0.00	No
733	2021-005758	Plenty, Village of	Upgrade Seven Light Fixtures to Energy Efficient in Municipal Office	Upgrade seven light fixtures in the municipal office with new energy efficient LED strip fixtures.	Community Energy Systems	\$1,300.00	\$0.00	No
734	2021-005944	Plenty, Village of	Upgrade Overhead Doors on Shop and Fire Hall with Energy Efficient Units	Install two new overhead insulated doors with openers on the current 178 sq m shop/fire hall.	Community Energy Systems	\$6,500.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
735	2021-005598	Ponass Lake No. 367, RM of	Resurface 5.25 km of St. Front Grid, Range Road 2160 Between Grid Road 756 and Township Road 394	Resurface 5.25 km by 7.5 m of Range Road 2160 with 36,225 sq m of road reclamation mulch. The road was reshaped, and 22 mm of crushed gravel was applied to the road top.	Local Roads and Bridges	\$102,624.73	\$70,312.02	Yes
736	2021-005735	Ponass Lake No. 367, RM of	Clay Cap 1 km of Township Road 390 – Mile No. 415	Clay cap and reshape the ditch of a portion of Township Road 390 between Range Road 2131 and Range Road 2132. The project will include stripping the clay out of the ditch and clay capping the road. The road and ditch will be reshaped and packed. New gravel will then be laid. This project will extend the useful life of this portion of road.	Local Roads and Bridges	\$10,017.00	\$10,017.00	Yes
737	2021-005924	Ponass Lake No. 367, RM of	Clay Cap 12 km of Grid Road 756	Clay cap and reshape the ditch of a 12 km portion of Grid Road 756 (primary weight corridor) between Highway 35 and Range Road 2145. The project will include stripping the clay out of the ditch and clay capping the road. The road and ditch will be reshaped and packed. New gravel will then be laid. This project will extend the useful life of this heavy haul road.	Local Roads and Bridges	\$786,543.96	\$95,158.96	Yes
738	2021-005917	Ponteix, Town of	Replace Two Retention Pumps and Two Greensand Filters in Water Plant	Upgrade two retention pumps for raw water tanks to filters and replace two 2.4 m x 2.4 m x 2.4 m greensand filters to provide more reliable source of water to customers in a safe manner.	Drinking Water	\$90,592.85	\$90,592.85	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
739	2021-005918	Ponteix, Town of	Pave 4th Street West	Road was upgraded to a paved street from an oiled surface. Paving was 6.4 m x 1,508 m with 1.18 cm of hot mix asphalt.	Local Roads and Bridges	\$182,369.82	\$182,369.82	Yes
740	1516-003684	Ponteix, Town of	Installation of Rink Solar Panel	Install a solar panel at the skating rink to reduce energy costs and to help reduce greenhouse gas emissions. Costs include design, location and construction of all associated works.	Community Energy Systems	\$70,000.00	\$0.00	No
741	1920-005032	Poplar Valley No. 12, RM of	Enhance Structural Stability of Bridge at NE 31-01-30-W2	To enhance structural stability of the bridge: dig out abutment two, pull piles under the cap, and brace with iron; install scouring planks at abutments one and two and wings; band and shim piles; and bolt two piers' caps.	Local Roads and Bridges	\$21,332.50	\$21,332.50	Yes
742	2021-005241	Porcupine Plain, Town of	Dig New Well with Pitless Adapter	Dig new well and includes pitless adapter, motor, submersible cables, electrical, casing and applicable trenching.	Drinking Water	\$92,031.69	\$92,031.69	Yes
743	2021-005401	Prairie Rose No. 309, RM of	Decommission Jansen Landfill at NW 31-32-19-W2	Decommission existing landfill cell 900 m x 200 m by removing unacceptable refuse, compacting and clay capping to the proper slope, dig test holes and add vent hole. This landfill was replaced with a transfer station. Village of Jansen has split costs on this providing \$150,000.00 with \$62,083.35 from CCBF.	Solid Waste	\$150,000.00	\$6,665.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
744	1920-004839	Preeceville, Town of	Upgrade Lift Station Building, Electrical and Controls	The upgrades to the town's lift station will involve replacing all the electrical and control equipment; replacing the platform, railing and stairs; upgrading the building exterior; installing a HVAC system, energy efficient lighting and fire alarm system; and replacing the wet well access hatch and ladder. The electrical and building upgrades will extend the service life of the lift station and ensure it can continue to serve the town's current and future needs.	Wastewater	\$326,857.56	\$303,816.80	Yes
745	2021-005183	Prince Albert No. 461, RM of	Reconstruct 2.4 km of Russtan Road	Reconstruct an additional 2.4 km of Russtan Road down to sub-grade, including removing culverts, surplus rock and other material. Rebuild with new material, including culverts, reforming road top, side and back slopes, repacking and all required backfill. This roadway is for heavy hauling of farm commodities.	Local Roads and Bridges	\$291,854.48	\$291,854.48	Yes
746	1617-004155	Prince Albert No. 461, RM of	Develop Asset Management Plan	Preparation and implementation of an asset management plan including gap assessment, risk assessment and level of service provided. Purchase and set-up of software, attend NAMS training and train two staff for implementation and development of plan.	Capacity Building	\$100,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
747	2021-005283	Prince Albert, City of	Construct 2,860 m of West Hill Trunk Sewer Main – Stage 1	Installation of a new trunk sewer main starting at the hospital on 10th Avenue West and going east down 18th Street West to 5A Avenue West and then down 17th Street West to 3rd Avenue East, and then north to 15th Street East and finally east again to 6th Avenue East. Total length is 2,860 m. This is for construction of Stage 1 – the existing 15th Street West (8th to 2nd West) sewer trunk. The new trunk main will capture the flow from the West Hill and any future developments.	Wastewater	\$3,972,879.20	\$171,224.34	Yes
748	2021-006006	Prince Albert, City of	Construct New Raw Water Pump House	Construction of a new raw water pumping facility with an approximate building size of 12.8 m x 27.4 m. The new pumping facility will have a below-grade structure and foundations will extend to an approximate depth of 15.8 m below ground surface. There will be installation of a fish screen system involving a traveling screen for fish and debris management complete with a fish return system. Also includes sand management and ice management systems. The pump room will include three raw water pumps.	Drinking Water	\$18,900,000.00	\$8,569,616.69	No
749	2122-006315	Prince Albert, City of	Marquis Road West Extension – Roadway Construction	Construction of 1,320 m of Marquis Road West from 7th Avenue to 10th Avenue will serve as a new arterial for the West Hill area. The construction of the new arterial is recommended to increase the traffic capacity and includes concrete curbs and medians, pedestrian pathway, street lighting and the first lift of paving of the roadway.	Local Roads and Bridges	\$2,700,000.00	\$1,667,525.99	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
750	2021-005413	Punnichy, Village of	Replace Four Hydrants	The hydrant replacement project will involve excavating, removing old hydrants and valves, installing four new hydrants and valves, backfilling and laying gravel for levelling the area around each hydrant. The new equipment will improve service capacity and provide quality output of water in four sections of the village.	Drinking Water	\$49,490.00	\$9,416.44	No
751	1516-003370	Punnichy, Village of	Replace 20 Water Shut Off Valves	Replace 20 curb stops with drains to control turning the water off and on therefore conserving water, and to be able to collect outstanding utility arrears.	Drinking Water	\$24,255.00	\$0.00	No
752	2021-005667	Qu'Appelle, Town of	Replace 150 m of Water Main on Jarvis Street	Replace approximately 150 m of 150 mm water main and 15 service connections, and complete roadway rehabilitation.	Drinking Water	\$125,080.00	\$125,080.00	Yes
753	2021-006068	Qu'Appelle, Town of	Replace 150 m of Sewer Main on Jarvis Street	Replace approximately 150 m of 200 mm sewer main and 15 service connections, and complete roadway rehabilitation.	Wastewater	\$125,080.00	\$125,080.00	Yes
754	2021-005170	Rama, Village of	Repave 484 m of Louis Avenue	Repaving 484 m of paved road on Louis Avenue by shaving the top layer by 5 to 10 cm. New asphalt will be layered over top.	Local Roads and Bridges	\$71,358.03	\$34,865.54	Yes
755	2021-005476	Raymore, Town of	Waterline Extension from 1st Avenue to Railway Avenue	Extension of the waterline under the CN track to extend water service to the south side of the municipality towards Railway Avenue. Installation of a 200 mm x 1,075 m HDPE water main, a 150 mm x 225 m HDPE water main, and associated hydrants and valves.	Drinking Water	\$250,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
756	2021-005620	Reciprocity No. 32, RM of	Reconstruct 7 km of Highway 318 and Highway 361	Reconstruction and jurisdictional transfer of portions of provincial highway. Reconstruction to widen the subgrade to an 8.6 m top paved width which includes; clearing and grubbing, removal and replacement of culverts, common excavation, roto-mixing the existing paved area (depth 150 mm), adding a 200 mm to 300 mm sub-base course, 150 mm granular base course, adding 80 mm asphalt concrete pavement, topsoil placement and line painting.	Local Roads and Bridges	\$6,284,018.91	\$150,865.20	Yes
757	2021-005221	Redberry No. 435, RM of	Construction of 0.8 km of Haul Road at E 09-44-09-W3	Reconstruct 0.8 km of road to upgrade for gravel haul by using about 40,000 cu m of clay to raise the road by 0.75 m, widen the road top by 2 m and incorporate 150 cu m of gravel into top 25.4 cm, and replace one 45 mm culvert.	Local Roads and Bridges	\$296,995.00	\$0.00	No
758	2021-005491	Redburn No. 130, RM of	Upgrade Museum Road at NW 24-14-22-W2	Upgrade 1,066 m of Museum Road by stripping and replacing topsoil, packing 0.3 m of clay on top to form 8 m road top, and reshaping ditches to 3:1 side.	Local Roads and Bridges	\$100,592.57	\$100,592.57	Yes
759	1718-004339	Regina Beach, Town of	Drainage System Improvements	Construct/reconstruct culverts and ditches in multiple locations and install 1,000 m of storm sewer line along 16th Street East south of Highway 54.	Wastewater	\$542,332.23	\$7,869.46	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
760	1920-005014	Regina, City of	Asset Management Reporting and Planning	State of the Infrastructure Report 2020 will document the City of Regina's current infrastructure portfolio, asset condition and funding challenges when planning for sustainable service delivery. The expected project outcome is to provide administration and council a holistic view of the City's corporate infrastructure portfolio and help to make informed investment decisions to achieve the City's mission to provide reliable and sustainable services. The project identifies long-term investment needs not only for renewal and replacement but for all activities within the assets' lifecycle.	Capacity Building	\$150,000.00	\$44,965.67	No
761	1920-005018	Regina, City of	Redevelopment of the Former Regent Par 3 Golf Course into a Community Recreation Hub	The redevelopment will include the construction of the following recreation elements set within the existing mature tree canopy of the previous golf course, adjacent to the existing Regent Outdoor Pool, basketball courts and Wheat City Kinsmen Arena: accessible playground (1,330 sq m), spray pad (387 sq m), multi-use sports field (60 m by 100 m), toboggan hill (1,950 sq m), off-leash dog park (3,770 sq m), picnic area (2,900 sq m), multi-use pathways and a 9-12 hole disc golf facility.	Recreational Infrastructure	\$2,700,000.00	\$2,262,133.63	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
762	1920-005036	Regina, City of	Reconstruct 8,435 m of Street Infrastructure	Under the Street Infrastructure, Bridge Infrastructure and Residential Road Renewal programs, the City plans to improve 35 km of road infrastructure in 2020, of which 8,435 m will be funded through CCBF. The scope of the 17 projects being undertaken are localized road failure repair, reconstruction of road surface and resurfacing, sidewalks, curbs, and gutter, catch basin/manhole rebuilds, water main replacements, signal lights, bike lanes, accessibility and landscaping. The projects are determined based on set levels of service and safety for driving public. The objective is to maintain the transportation network in fair to good condition and have an extended life cycle.	Local Roads and Bridges	\$17,085,201.00	\$11,211,154.54	Yes
763	1920-005017	Regina, City of	Redevelopment of the Maple Leaf Pool	The redevelopment will include the construction of a new 250-person bather load municipal pool (500 sq m) along with change room/washroom, staff, storage and mechanical spaces.	Recreational Infrastructure	\$5,380,000.00	\$0.00	No
764	2021-005931	Reno No. 51, RM of	Upgrade Stetar Bridge at NNW 22-03-27-W3	Upgrade Stetar Bridge by installing seven piles in abutment 1 and 2, pier 1 and 2, installing RR 1 pile cap and replacing stringer seven in span one.	Local Roads and Bridges	\$71,530.62	\$71,530.62	Yes
765	2021-005940	Reno No. 51, RM of	Upgrade Schmidt Bridge at SW 29-04-26-W3	Schmidt Bridge will be upgraded by installing five piles in abutment 1, 10 piles in pier 1 and 2, 10 piles in pier 3 and 4, and replacing pier 4 cap.	Local Roads and Bridges	\$56,319.39	\$51,499.38	Yes
766	2122-006194	Reno No. 51, RM of	Upgrade 4.7 km of Nashlyn Grid at 12-04-27-W3	Shape, pack and remix 4.7 km of Nashlyn Grid Road to provide a better all-weather road.	Local Roads and Bridges	\$101,757.35	\$46,194.02	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
767	2122-006195	Reno No. 51, RM of	Upgrade Caton Bridge at NW 36-04-24-W3	Install new wood stringers and deck on Caton Bridge.	Local Roads and Bridges	\$38,955.00	\$19,477.50	Yes
768	2122-006196	Reno No. 51, RM of	Upgrade Sanderson Bridge at NW 12-04-27-W3	Upgrades include banding abutment 1 and 2 piles, replace abutment one left hand wing rails, and replace deteriorating posts, blocks and wheel guard on Sanderson Bridge.	Local Roads and Bridges	\$8,522.40	\$3,281.45	Yes
769	2021-005471	Rhein, Village of	Decommission Landfill	Decommission the 0.01258 sq km landfill. Costs for the project include an environmental study, project management and reporting, labour and equipment for testing, analytical reporting, groundwater monitoring, as well as the final reclamation stages of the landfill.	Solid Waste	\$85,000.00	\$31,118.65	No
770	2021-005392	Richard, Village of	Installation of Pathway Lighting	Installation of pathway lighting to allow for the safety of activity of residents and visitors using sidewalks and street paths after dark. Three streetlights will be situated in expanded areas.	Local Roads and Bridges	\$9,759.22	\$0.00	No
771	1920-004970	Richmond, Village of	Install Generator and Replace Six Flow Meters at Water Treatment Plant	Install generator to provide residents with water during power outage and to ensure higher quality drinking water standards with fewer disruptions. Replace six flow meters to ensure accurate reporting to the Water Security Agency and proper treatment of water.	Drinking Water	\$25,560.00	\$2,267.90	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
772	2122-006265	Richmond, Village of	Upgrade and Bring Water Well No. 3 Online	Bring an existing well online as a backup water source by upgrading electrical and mechanical features. This will consist of removal and replacement of the submersible pump controller, replacing cables and auto control relay, installing new electrical panel and starter box, and installing a new control box, stainless steel spool and check valve.	Drinking Water	\$8,917.54	\$8,917.54	Yes
773	2122-006266	Richmond, Village of	Replace 21.1 m x 1.2 m of Sidewalk	Replace 21.1 m x 1.2 m of sidewalks that are deteriorating as well as sidewalks needing to be replaced that were dug up from curb stop replacements. Located on Barsness Street, Main Street and Railway Avenue.	Local Roads and Bridges	\$5,240.64	\$5,240.64	Yes
774	2021-005220	Ridgedale, Village of	Replace Seven Culverts	Project includes replacing culverts at multiple locations throughout the village. A total of seven culverts placed varying between 300 mm and 500 mm diameter.	Local Roads and Bridges	\$9,011.00	\$0.00	No
775	2021-005511	Riverhurst, Village of	Replace Village Square Roof	Replace 697.7 sq m Village Square Roof, which houses the village office, library, wellness clinic and museum. The museum and library make up 36 per cent of space in the building.	Cultural Infrastructure	\$21,475.85	\$21,475.85	Yes
776	1920-004742	Riverside No. 168, RM of	Clay Cap 8 km of Road at 4, 5, 6-16-17-W3 and 5, 6-16-16-W3	Rebuild surface portion of 5 km of road along 04, 05, 06-16-17-W3, and 05, 06-16-16-W3 and then gravel and clay cap.	Local Roads and Bridges	\$203,656.80	\$203,656.80	Yes
777	1920-004782	Rocanville, Town of	Build Retention Pond	Build a retention pond for water overflow to relieve surface tension in times of heavy rain in the low-lying areas. The pond will measure 110 m x 75 m x 25 m and the water can irrigate the nearby golf course.	Wastewater	\$225,000.00	\$6,448.66	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
778	1920-004784	Rocanville, Town of	Join Railway Avenue and Fort Street Water Lines	Connect two existing water lines located at Railway Avenue and Fort Street with a 500 m PVC water line measuring 10.16 cm diameter to create a closed loop. One hydrant will also be installed on the corner of the two streets.	Drinking Water	\$85,149.82	\$85,149.82	Yes
779	2021-005377	Roche Percee, Village of	Resurface Road and Replace Culverts at Souris Street and Highway 39 Connector	Resurface road and replace culvert at Souris Street and Highway 39 connector. Reconstruct 602 m x 16 m of Centre Street by roto-mixing existing asphalt, reshaping crown, compacting existing material and applying a dust suppressant. Culvert was upgraded to two 1,200 x 2.8 mm x 4 m and two 1,200 mm x 2.8 mm x 5 m with couplers. The height of the road, base and sub-base did not change. The road (approximately 11,200 sq m) will be resurfaced with single chip seal.	Local Roads and Bridges	\$75,000.00	\$0.00	No
780	1920-005043	Rockglen, Town of	Replace Balon Pump House	Replacement of the existing Balon pumphouse including all internal elements such as the electrical, heating and plumbing water lines that have deteriorated with age. The new structure will measure 4.88 m x 6.10 m x 2.44 m and approximately 12.19 m of 5.08 cm plastic piping will be used, along with all connections such as elbows and valves. A new furnace, two electric pumps and motors, and one chlorine meter will be replaced. The new building will also be insulated with spray-on insulation.	Drinking Water	\$50,243.20	\$358.40	Yes
781	2021-005588	Rodgers No. 133, RM of	Upgrade to Grid Road at S 29-13-03-W3	Upgrade to grid road by adding dirt and gravel to 1.5 km x 7.3 m of roadway. The road was raised approximately 457 mm.	Local Roads and Bridges	\$10,000.00	\$10,000.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
782	2021-005213	Rose Valley, Town of	Install Energy Recovery Ventilator in Water Treatment Plant	An energy (heat) recovery ventilator unit will be installed in the water treatment plant to improve air quality and reduce corrosion of treatment and distribution equipment. The original water treatment plant design did not include the energy recovery ventilation system and lack of adequate ventilation in the winter has resulted in corrosive gas build-up damaging electrical system components and piping.	Drinking Water	\$8,608.80	\$8,608.80	Yes
783	2021-005214	Rose Valley, Town of	Construct a Bulk Water Filling Station at the Water Treatment Plant	Construct a bulk water filling station at the water treatment plant with new construction of a truck fill and associated pumping, back-flow prevention, and metering. The bulk water filling station allows delivery of potable water to rural users. The filling station extends water system capacity to serve up to 25 new households.	Drinking Water	\$26,806.47	\$13,403.23	Yes
784	2021-005222	Rose Valley, Town of	Replace 14 Hydrants throughout the Town	Replacement of 14 hydrants over a ten-year span. The 14 hydrants were originally installed in 1962 and will be replaced with new hydrants including gate valves, couplers, and piping. The water line system is flushed in early spring and late fall using the hydrant system to remove sediment from water lines. Sediment removal improves water quality by reducing turbidity and eliminating degradation of taste and odor.	Drinking Water	\$135,000.00	\$26,849.80	No
785	2021-005925	Rosedale No. 283, RM of	Replace Culvert at WNW 18-30-03-W3	Replace the large diameter culvert situated in a rural class 4 road. The proposed culvert is corrugated steel pipe measuring 40 m x 2.4 m x 3.5 mm.	Local Roads and Bridges	\$210,001.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
786	1920-004852	Rosetown, Town of	Mill and Repave 666 m of Flankage Street	In accordance with the town's street paving rehabilitation program, approximately 666 m x 10.97 m x 50 mm of 1st Street East and 2nd Street East will be milled and repaved over a period spanning four years starting in 2020.	Local Roads and Bridges	\$393,436.40	\$314,178.70	Yes
787	2021-005996	Rosthern No. 403, RM of	Upgrade 0.4 km of Nichlawa Road at N 32-41-02-W3	Raise 0.4 km of road by 0.6 m and reduce road top width from 8 m to 6.8 m, correct crown and add road gravel.	Local Roads and Bridges	\$48,000.00	\$0.00	No
788	2021-005997	Rosthern No. 403, RM of	Upgrade 0.3 km of Bergthal Road at W 28-42-02-W3	Raise 0.3 km of road by 0.6 m and reduce road top width from 8 m to 6.8 m, correct crown and add road gravel.	Local Roads and Bridges	\$47,000.00	\$0.00	No
789	2021-005998	Rosthern No. 403, RM of	Upgrade 3.2 km of Cul De Sac North Road at W 26 and 35-41-02-W3	Upgrade 3.2 km of road, using potash to strengthen and road gravel, correct crown and narrow from 8 m to 6.8 m road top.	Local Roads and Bridges	\$50,000.00	\$0.00	No
790	2021-005999	Rosthern No. 403, RM of	Clay Cap 0.6 km of Adamiwka Road at W 31-42-03-W3	Apply clay cap and gravel to 0.6 km of Adamiwka Road with an 8.6 m road top width.	Local Roads and Bridges	\$47,500.00	\$0.00	No
791	2021-006000	Rosthern No. 403, RM of	Reconstruct 2.1 km of Road South of Landfill at W 27 and 34-41-03-W3	Reconstruct 2.1 km of road south of landfill by correcting side slopes and back slopes placing clay capping topped with gravel.	Local Roads and Bridges	\$100,000.00	\$0.00	No
792	2021-006002	Rosthern No. 403, RM of	Clay Cap 0.3 km of Seager Wheeler Road along E 15,10 and 03-43A-03-W3	Clay cap and gravel 0.3 km along 4.8 km stretch of grid road, raise areas by 0.6 m and narrow road from 8.9 m to 8 m.	Local Roads and Bridges	\$80,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
793	2021-006001	Rosthern No. 403, RM of	Clay Cap 2.7 km of East Blumenthal Road at S 34-40-03-W3	Clay cap and gravel 2.7 km of East Blumenthal Road and narrow road top width from 10 m to 7.4 m.	Local Roads and Bridges	\$100,000.00	\$0.00	No
794	2021-006009	Rosthern, Town of	Reline 290 m of Sanitary Sewer Main	Approximately 290 m of 30 mm sanitary sewer main located on Railway Avenue from Highway 312 to 3rd Street, which has deteriorated, will be relined with 4.5 mm polyester felt liner. Using this method will be more efficient than the traditional method of an open trench replacement and will save the road surface from being dug up.	Wastewater	\$88,086.00	\$66,400.00	Yes
795	2021-005320	Rosthern, Town of	Upgrade Sewage Lagoon Aeration System, Phases one and two	Upgrade the sewage lagoon aeration system consisting of Phase one, replacing the existing aeration equipment in the treatment pond (cell No. one) with float-sink lateral assemblies and floating lateral assemblies which consists of aeration header piping, feeder piping, diffusers, valves and fittings and all associated works, and Phase two which consists of installing a baffle curtain in cell No. one and an air supply (blower motor) and building to house the blower motors, mechanical and electrical works.	Wastewater	\$1,223,918.00	\$0.00	No
796	2021-005503	Rouleau, Town of	Resurface 100 Block of Main Street	Resurface 100 block of Main Street. Work will include lift of asphalt on 170 m of road.	Local Roads and Bridges	\$642,000.00	\$0.00	No
797	2021-005591	Round Hill No. 467, RM of	Replace Bridge at SE 20-48-15-W3	Replace bridge with three 3 m x 20.5 m culverts and raise road by 1.2 m.	Local Roads and Bridges	\$190,800.00	\$132,071.85	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
798	2021-005748	Round Hill No. 467, RM of	Replace Bridge at NE 03-46-15-W3	The bridge was removed and replaced with three (914 mm x 20 m) culverts to allow for a greater weight capacity. The road top was raised by 1.2 m by adding clay base material, 25 mm road crush, and then 25 mm traffic gravel.	Local Roads and Bridges	\$195,476.72	\$28,900.80	Yes
799	2021-005589	Round Valley No. 410, RM of	Reconstruct 1.6 km Rose Mary Grid	Reconstruction of 1.6 km x 7.32 m of Rosemary Grid consisted of adding clay and gravel and adding two approach culverts (three 600 mm x 6 m). The height of the road was built up by 0.6 m.	Local Roads and Bridges	\$128,458.75	\$128,458.75	Yes
800	2021-005590	Round Valley No. 410, RM of	Replace Andanac Bridge with Culverts at NE 14-40-22-W3	Remove the existing bridge and replace it with three 2,700 mm x 33 m culverts. The current bridge needs major repairs, and it is more cost effective to change it to a culvert.	Local Roads and Bridges	\$123,102.70	\$49,688.60	Yes
801	2122-006264	Ruddell, Village of	Community Hall Heating Upgrade	Upgrading the community hall furnace with an energy efficient unit.	Community Energy Systems	\$8,500.00	\$0.00	No
802	2021-006072	Rush Lake, Village of	Asset Management Policy, Strategy and Plan Development	Participate in a regional work program designed to assist with the creation of an asset management policy, strategy, and plan. Will help the village to be in line with the asset management benchmarks and help to actively manage the assets the village has.	Capacity Building	\$4,500.00	\$4,500.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
803	2021-006073	Rush Lake, Village of	Upgrade 58 Lights in Community Hall and Rink to LED	Install ten 1.2 m, nine 2.4 m and 24 high bay lights in the rink and seven T-bar, six pot lights and two 1.2 m lights in the community hall to reduce the cost and demand of power for the facilities, reducing greenhouse emissions. LED lights will also enhance the building and providing more light in the skating and curling areas of the rink and a brighter atmosphere at the hall.	Community Energy Systems	\$13,129.83	\$13,129.83	Yes
804	2122-006217	Saltcoats No. 213, RM of	Reconstruct and Clay Cap 4.4 km of Clearing the Path Alternate Truck Route Township Road 230	This alternate truck route has seen an increase in truck traffic because of the weight restriction on Highway 15. This project will clay cap 4.4 km of road with 20 cm to 30 cm of clay. Road top width will be widened to 8 m.	Local Roads and Bridges	\$600,000.00	\$0.00	No
805	2021-005172	Saltcoats, Town of	Repave 1.34 km of Crescent Lake Road	Repave 1.34 km of Crescent Lake Road from Allan Avenue to Commercial Street by grinding up old pavement, repacking the base and applying fresh asphalt on top to extend service life of the road.	Local Roads and Bridges	\$107,322.88	\$107,322.88	Yes
806	1415-003264	Saltcoats, Town of	Water Meter Installation	Install water meters at all buildings with water service.	Drinking Water	\$140,591.78	\$0.00	Yes
807	1920-004639	Sarnia No. 221, RM of	Clay Cap 3.2 km of Eldora Beach Road	Clay cap 3.2 km of highly travelled Eldora Beach Road with two resorts at the end of it.	Local Roads and Bridges	\$91,196.01	\$91,196.01	Yes
808	2122-006306	Sarnia No. 221, RM of	Recap 1.6 km of Beach Road	Recap 1.6 km of municipal road leading to four resorts with 20.3 cm clay cap. Costs include construction and materials such as dirt and gravel.	Local Roads and Bridges	\$45,462.50	\$45,462.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
809	2122-006293	Sarnia No. 221, RM of	Upgrade Furnace in Municipal Office	Replace old furnace with a high efficiency furnace complete with side wall venting, sheet metal alterations and chimney reduction.	Community Energy Systems	\$7,000.00	\$0.00	No
810	2021-005179	Saskatchewan Beach, Resort Village of	Upgrade 11.6 km of Gravel Roads Within Municipality	Upgrade to 11.6 km of grid roads in village by adding to the subbase, adding a sufficient layer of gravel, and reshaping for proper drainage.	Local Roads and Bridges	\$102,000.00	\$21,128.11	No
811	1415-003287	Saskatoon, City of	Construct Water Treatment Plant Pump Bay P2565	Design and construction of new pump bay, high efficiency pumps, new electrical and control network to transfer filtered water from the main plant to Avenue H reservoir expansion and ultraviolet disinfection units. Additional work includes soil remediation, structural inspections and increased electrical and control works.	Drinking Water	\$44,030,500.00	\$13,034,995.50	No
812	2021-005968	Saskatoon, City of	Replace 4,625 m of Water Main, 19 Lead Service Lines and Rebuild Streets, Sidewalk and Curbs Associated with Water Line Work	Project includes replacement of 4,625 m of old 150 mm water mains with 200 mm to 250 mm mains and replacing 21-19 mm lead service lines, rebuilding 20,130 m of streets, 2,400 sq m of sidewalk and 1,685 m of curbs associated with water line replacement.	Drinking Water	\$11,955,881.00	\$1,973,371.89	Yes
813	2021-005969	Saskatoon, City of	Re-line 26,308 m of Sanitary Sewer and 3,531 m of Wastewater Line	Re-line 13,190 m and 13,118 m of 200 mm to 300 mm sanitary sewer line and re-line 2,580 m and 951 m of 200 mm to 750 mm storm sewer line.	Wastewater	\$6,500,000.00	\$242,696.54	No
814	2021-005094	Sasman No. 336, RM of	Clay Cap Correction Line at N 32-34-11-W2	Clay cap 3.22 km of municipal road using approximately 21,331 cu m of clay.	Local Roads and Bridges	\$154,805.22	\$154,805.22	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
815	2021-006091	Sceptre, Village of	Replace Fire Hydrant at 201 Prince Street	Replace existing inoperable fire hydrant with a whole new fire hydrant system to provide better water system flushing and additional fire protection.	Drinking Water	\$12,511.01	\$10,217.86	Yes
816	2122-006175	Sceptre, Village of	Landfill – Solid Waste Asset Management	As part of the Village of Sceptre’s asset management plan, contract consulting engineer services to provide a solid waste management plan. The project would determine the remaining airspace at the landfill, gather and review information regarding waste management at the village, provide waste management alternatives, and options and recommendations for the transitioning and decommissioning of the landfill.	Capacity Building	\$18,045.00	\$11,543.62	Yes
817	2021-005309	Scott No. 98, RM of	Upgrade Bridge at E 34-12-16-W2	Upgrade bridge, including banding piles, adding piles, replacing clear wing wall planks to avoid road closure.	Local Roads and Bridges	\$99,088.81	\$82,745.55	Yes
818	2021-005962	Scott, Town of	Replace Five Water Shut-Off Valves	Replace five residential water shut-off valves which have failed. Replacement of these valves ensures ability to isolate water for timely repairs.	Drinking Water	\$5,000.00	\$1,784.51	No
819	2021-005963	Scott, Town of	Upgrade Water Treatment Plant Exterior and Pump	Upgrade water treatment plant by replacing the wood siding of the building with metal siding (9.8 m x 9.1 m) and replacing one main pump.	Drinking Water	\$6,878.82	\$6,878.82	No
820	2021-005964	Scott, Town of	Upgrade Lift Station Pump	Replace and upgrade one pump inside the lift station.	Wastewater	\$6,323.60	\$6,323.60	Yes
821	1819-004603	Semans, Village of	Grind Asphalt and Chip Seal 5,086 sq m of Streets	Asphalt grinding, grading to reshape street, packing, chip sealing and final street sweeping on 5,086 sq m of streets. Streets include 1st Avenue and 2nd Avenue.	Local Roads and Bridges	\$91,285.10	\$91,285.10	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
822	2021-005288	Senlac No. 411, RM of	Upgrade Grid Road 675	Upgrade includes applying type 117 double chip seal coat to 9 m road top for 9.2 km of road from Township 420 to Township 430.	Local Roads and Bridges	\$560,000.00	\$0.00	No
823	2021-005384	Senlac, Village of	Upgrade Water Treatment System	Upgrade the well water treatment system to address turbidity issues and maintain continuity of clean water supply for village residents. Costs for the project will include all associated engineering costs, labour and materials. Currently, the village is in the process of discussing a reverse osmosis system but will be finalized with engineer.	Drinking Water	\$50,000.00	\$0.00	No
824	1920-004649	Shamrock No. 134, RM of	Upgrade 2.4 km of Road at 14-13-05-W3	Clay cap 2.4 km of grid road and raise intersection where it joins Highway 58.	Local Roads and Bridges	\$71,587.01	\$3,176.21	Yes
825	2021-005492	Shamrock No. 134, RM of	Upgrade 2.41 km of Grid Road from 58 Highway - Phase 2	Clay cap an additional 2.41 km of grid road south of S 1/2 15 and SW 14-13-05-W3 with 0.3 m of clay. This road is a direct route from Highway 58 to Highway 363 and saves 12.87 km of travel. This road provides access to the Village of Shamrock. Raising and reshaping the road will increase the service life of the road, providing better sight lines increasing safety for motorists.	Local Roads and Bridges	\$62,032.68	\$5,360.35	Yes
826	2021-006054	Shamrock, Village of	Replacing Iron Manganese Filtration Unit	Install a FMG40A, 113 l iron manganese greensand filter with a 25 mm metered control valve and a 0.4 m x 1.6 m fiberglass tank with hiflo distribution.	Drinking Water	\$3,655.03	\$3,655.03	Yes
827	1920-004913	Shamrock, Village of	Replace Two Chlorine Pumps in Village Water System	Replace two chlorine pumps in the water system to improve the safety and quality of water in the community.	Drinking Water	\$3,205.49	\$0.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
828	2021-006089	Shaunavon, Town of	Recap 672 m and Slurry Seal 600 m of Streets	Recapping approximately 6,414 sq m (672 m) of streets in town as well as 6,405 sq m (600 m) of crack fill and slurry seal to help extend the life span of streets. Recap locations include portions of Center Street, 7th Avenue, 6th Avenue and 5th Avenue. Slurry seal locations include portions of 2nd Street West, 8th Avenue, 3rd Street East and 5th Street East.	Local Roads and Bridges	\$275,883.86	\$245,815.58	Yes
829	2122-006200	Sheho, Village of	Upgrade Water Treatment Plant	Replace two pumps including all associated electrical, valves, and fittings, and re-bed filters to provide safe drinking water and reduce problems arising with water testing finding high manganese levels.	Drinking Water	\$25,892.39	\$10,801.39	Yes
830	2122-006220	Sheho, Village of	Upgrade Lagoon Line to Cistern and Supply Line	Excavate and remove existing line, cut, and remove concrete, fuse, tie new line into existing line, backfill and compact; jackhammer floor and replace 130 mm supply line and reconstruct concrete floor at lagoon. To prevent overflow and leakage into drinking water from cistern.	Wastewater	\$13,401.10	\$13,401.10	Yes
831	2021-005355	Shell Lake, Village of	Reconstruct 1st Avenue	Reconstruct 155 m x 20 m of road by excavating road material to base and reshaping, then chip seal will be applied.	Local Roads and Bridges	\$51,675.00	\$51,675.00	Yes
832	2021-006036	Shellbrook No. 493, RM of	Improve Energy Efficiency of Municipal Shop	Remove and replace old furnace in the municipal shop. Install radiant heater, insulate walls with spray foam and fire-resistant paint. The old furnace is not energy efficient. The paint is required to prevent UV lighting from disintegrating the spray foam.	Community Energy Systems	\$22,525.00	\$22,525.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
833	2122-006201	Shellbrook No. 493, RM of	Upgrade 3.7 km of Grid Road 788	Upgrade 3.68 km of grid 788. Project includes clay capping and changes to the base and sub-base. A portion of this road overlaps with Sturgeon Lake First Nation land.	Local Roads and Bridges	\$394,079.28	\$149,039.64	Yes
834	2122-006250	Shellbrook No. 493, RM of	Standalone Study - Engineering and Design for Road West of 27-49-03-W3	Hire an engineer to complete design requirements for upgrading 1 km of heavy haul road located west of 27-49-03-W3.	Local Roads and Bridges	\$6,890.00	\$6,890.00	No
835	2122-006249	Shellbrook No. 493, RM of	Upgrade 1 km Road West of 27-49-03-W3 with Geotextile	Upgrade 1 km of heavy haul road located W of 27-49-03-W3 by installing approximately 90 m x 4 m of geotextile.	Local Roads and Bridges	\$10,000.00	\$0.00	No
836	1213-002690	Shellbrook, Town of	Asset Management Planning	Conducting asset management planning to provide council and rate payers of Shellbrook with a long-term plan on infrastructure renewal.	Capacity Building	\$102,652.05	\$3,801.00	Yes
837	1819-004594	Shellbrook, Town of	Rehabilitate 632.9 m of Sanitary Sewer	Re-lining 200 mm old clay sanitary sewer lines with a fiberglass sock that is cured in place. Distance to be re-lined in 2019 is 632.9 m. This will extend the useful life of the sewer lines by 25 years.	Wastewater	\$400,000.00	\$173,092.97	No
838	2122-006206	Shellbrook, Town of	Reline Sanitary Sewer Lines	Reline old clay sanitary sewer lines with cured in place ASTM F1216 lining to extend the pipes life span for up to 40 years. There are approximately 42 sections of pipe requiring relining. All lines will require video inspection prior to relining.	Wastewater	\$1,500,000.00	\$0.00	No
839	2122-006152	Silton, Village of	Replace Roof on 286 sq m Community Hall	Replace the roof on the 286 sq m community hall with metal to significantly increase longevity.	Recreational Infrastructure	\$23,075.70	\$13,452.61	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
840	1920-005069	Silverwood No. 123, RM of	Replace Bridge at SW 06-15-03-W2	The existing bridge will be removed, and a new bridge installed. The old bridge is made from wood timber piles and will be replaced with pipe piles or geotextile reinforced soil abutments. It is a three-span bridge.	Local Roads and Bridges	\$587,795.72	\$182,249.11	Yes
841	2021-005707	Simpson, Village of	Upgrade Water Treatment Plant	Install UV sterilizer array in the water treatment plant to disinfect the water to reduce high ammonia levels. Costs include labour as well as all associated valves, control panels, PVC manifolds, stainless steel connections, outlet fittings, spare UV lamps and back-up power supply. Chloramines will be used for secondary disinfection.	Drinking Water	\$76,221.87	\$54,951.75	Yes
842	2021-005632	Sintaluta, Town of	Dig New Water Supply Well	Dig new 21.3 m deep well and install 12.7 cm PVC well casing with stainless steel screens. Install pump, drop pipe, check valve, power supply cable, 5.1 cm polyethylene water line and isolation valve from new well to existing raw water line, and all necessary electrical installation from new well to the well control panel.	Drinking Water	\$46,805.04	\$40,927.58	Yes
843	1516-003659	Sliding Hills No. 273, RM of	Clay Cap 3.2 km Mazeppa Grid	Reconstruct Mazeppa Grid by clay capping 3.2 km of road to create a firm and solid traveling surface that is safer for trucks hauling heavy loads and provide a more direct route. This road serves as a strategic alternate route to Highway 9.	Local Roads and Bridges	\$200,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
844	2021-005423	Sliding Hills No. 273, RM of	Clay Cap 3.22 km of Mazeppa Grid Road	The continuation of the Mazeppa Clay Cap Project will allow an additional 3.22 km of road top 45 cm clay capping which will address the worn and eroded existing road surface. The Mazeppa Grid is a significant haul route which leads directly to Highway 9 from the center of the municipality.	Local Roads and Bridges	\$200,000.00	\$0.00	No
845	2122-006254	Smeaton, Village of	Drainage Upgrade and Culvert Installation	Upgrade and create drainage to channel excess water from low lying areas by installing approximately seventeen culverts to allow water flow. Culvert quantities and measurements are: one 4 m x 300 mm, five 5 m x 300 mm, nine 6 m x 300 mm, one 5 m x 400 mm, and one 6m x 400 m.	Wastewater	\$28,000.00	\$0.00	No
846	2021-006095	Smiley, Village of	Upgrade Plumbing and Electrical at Water Treatment Plant	Upgrades to water treatment plant involve the installation of a new control panel, surge protector, pump control panel, UV light treatment, electrical upgrades, plumbing and tank removal and replacement, and possibly new distribution pumps, will reduce ongoing boil water advisories.	Drinking Water	\$20,000.00	\$0.00	No
847	2021-005678	Snipe Lake No. 259, RM of	Eston and District Landfill Upgrades	This will include the completion of a landfill operation and waste management plan, and purchase and installation of a new landfill scale, which will involve, but is not limited to, surveyed landfill site plan, landscaping upgrades, computer hardware/software for scale system and electrical upgrades.	Solid Waste	\$136,243.56	\$11,917.78	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
848	2021-006093	Snipe Lake No. 259, RM of	Municipal Building Energy Efficiency Upgrades	Installation of energy efficient upgrades including replacement of main office doors as well as basement upgrades including outside wall framing, insulation, vapor barrier, and LED energy efficient lighting which will contribute to an overall reduction of energy usage and greenhouse gas emissions.	Community Energy Systems	\$35,000.00	\$28,792.00	No
849	2021-005599	Souris Valley No. 7, RM of	Upgrade Energy Efficiency of Municipal Office	Install energy efficient furnace, air conditioner, triple pane windows and metal exterior door in municipal office.	Community Energy Systems	\$39,798.23	\$39,798.23	Yes
850	2021-005155	South Qu'Appelle No. 157, RM of	Clay Cap and Upgrade 6.44 km of Township Road 190	Clay cap and upgrade 6.44 km of Township Road 190. Clay cap and upgrade any vertical curves, preliminary testing of three proposed borrow sources, topographic survey, detailed design drawing and specifications, tendering and engineering services during the construction. This will improve safety factor to meet or exceed the Transportation Association of Canada Standards for sight lines and stopping sight distance.	Local Roads and Bridges	\$629,355.00	\$10,600.00	No
851	2021-005529	Southey, Town of	Repave Streets in Town	Apply asphalt emulsion to all municipal streets to improve the pavement and increase estimated service life of the roads.	Local Roads and Bridges	\$35,013.29	\$35,013.29	Yes
852	2021-005530	Southey, Town of	Upgrade Water Treatment Plant	The water treatment plant's 24.5 cm cast iron distribution pipes will be replaced with 24.5 cm stainless steel pipes. Upgrades will be made to the control panels. These upgrades will improve the distribution of drinking water to town residents.	Drinking Water	\$43,407.00	\$43,407.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
853	2122-006190	Speers, Village of	Upgrade Filter Assemblies at Water Treatment Plant	Replace 0.9 m x 1.8 m greensand and backwash filter assembly in water treatment plant.	Drinking Water	\$15,522.82	\$0.00	No
854	2122-006191	Speers, Village of	Replace Three Pumps in Water Treatment Plant	Upgrade three pumps used for water and chemicals at water plant.	Drinking Water	\$6,716.45	\$0.00	No
855	2021-005934	Speers, Village of	Replace Fire Hall Door with Insulated Door	The replacement of the non-insulated wood fire hall door with an insulated steel door will reduce the overall energy consumption of the fire hall.	Community Energy Systems	\$4,698.00	\$0.00	No
856	2021-005600	Spiritwood No. 496, RM of	Replace Aube Bridge at SW 16-50-11-W3	Replace original bridge structure with an entirely new structure. The new bridge span is 7.3 m x 6.0 m. A clay base and gravel were then used to reconstruct the road.	Local Roads and Bridges	\$116,600.00	\$116,600.00	Yes
857	2021-005601	Spiritwood No. 496, RM of	Replace Bueker Bridge at NNE 33-52-11-W3	Remove the existing bridge and replace with a new bridge on a main farm access road over the Big River. The wooden bridge is approximately 12 m long from abutment one to abutment 2.	Local Roads and Bridges	\$192,390.00	\$192,390.00	Yes
858	2021-005602	Spiritwood No. 496, RM of	Upgrade Backing Planks on Witchekan Bridge	Remove the rotten wooden backing planks at abutment 1 and 2 and replace with galvanized steel sheet railing. The abutments to the bridge were failing creating large sink holes due to the rotting planks.	Local Roads and Bridges	\$29,680.00	\$29,680.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
859	2021-005435	Spiritwood, Town of	Reconstruct Approximately 787.5 sq m of Sidewalk on Main Street	The town will reconstruct approximately 787.54 sq m of sidewalk over a period of three years. The concrete to surface the sidewalks will be approximately 12.7 cm thick with a 30.48 cm curb. Work to be completed on Main Street from Railway Avenue to 3rd Avenue and north of RCMP on 3rd Avenue.	Local Roads and Bridges	\$137,680.22	\$69,946.22	No
860	2021-005577	Spiritwood, Town of	Upgrade Sewer Line in Five Areas	Upgrade five areas of sewer main that were identified in poor condition through camera inspection. A few areas will be upgraded by sewer relining and others by joint and/or pipe replacement.	Wastewater	\$190,000.00	\$109,341.65	No
861	2021-006020	Springside, Town of	Repave 175 m of Main Street from Springs Avenue to Willis Avenue	Excavate surface failures affecting the base, correct the street base and apply a 25 mm layer of hot mix asphalt for a total distance of 175 m.	Local Roads and Bridges	\$26,276.00	\$26,276.00	Yes
862	2021-006021	Springside, Town of	Repave 100 m of Railway Avenue from Seaton Street to Highway 47	Excavate surface failures affecting the base, correct the street base and apply a 25 mm layer of hot mix asphalt for a total distance of 100 m.	Local Roads and Bridges	\$29,096.90	\$29,096.90	Yes
863	2021-006022	Springside, Town of	Repave 220 m of Adams Street from Collins to Barbour	Excavate surface failures affecting the base, correct the street base and apply a 25 mm layer of hot mix asphalt for a total distance of 220 m.	Local Roads and Bridges	\$30,000.00	\$30,000.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
864	2021-006023	Springside, Town of	Repave 185 m of Railway Avenue, Main Street and Intersection of Collins Avenue and Davies Street	Excavate surface failures affecting the base, correct the street base and apply a 25 mm layer of hot mix asphalt for a total distance of 185 m. Work to be completed on Railway Avenue from Turner Street to Sharman Street, the intersection of Collins Avenue and Davies Street, and Main Street from Taylor Avenue to Springs Avenue.	Local Roads and Bridges	\$64,057.30	\$64,057.30	Yes
865	2021-006024	Springside, Town of	Install a Natural Gas Boiler at the Springside Community Centre	Install an Ultra 310 Natural Gas Boiler at the Springside Community Centre. This boiler supplies the in-floor heating for the lobby and dressing rooms.	Community Energy Systems	\$29,510.71	\$29,510.71	Yes
866	2021-006051	Springside, Town of	Upgrade Zamboni Room and Two Dressing Rooms in Rink	Renovate two dressing rooms by upgrading the vapor barrier and insulation factor in attic space, increasing ventilation, adding humidity fans in the ceiling, upgrading water lines from copper to pex, upgrading ceiling from drywall to wood. Upgrade the Zamboni room by installing an 80,000 BTU high efficiency two stage gas furnace to reduce overall energy consumption by an estimated 10 per cent per month.	Sport Infrastructure	\$23,906.75	\$23,906.75	Yes
867	2122-006297	Springside, Town of	Chip Sealing Program 2021	6,503 sq m of streets in the town will be chip sealed. Pavement will be sprayed with a coat of hot liquid asphalt mixed with 30 per cent water to the existing surface of a prepared base; a washed chip aggregate will be spread using a chip spreader; finally, a pneumatic roller will compact the aggregate into the asphalt.	Local Roads and Bridges	\$74,200.00	\$64,404.66	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
868	2021-006033	St. Brieux, Town of	Upgrade Road Base on Railway Avenue and Park Place	Two areas on Railway Avenue and on Park Place had 0.9 m of material removed and replaced with base gravel and Geotech lining in preparation for future paving. Total area worked on measures 198.4 m x 20.1 m.	Local Roads and Bridges	\$16,536.00	\$16,536.00	Yes
869	2021-005372	St. Gregor, Village of	Construct Retention Pond	Manage storm water by constructing a 42.7 m x 45.7 m x 4.9 m retention pond with the capacity to hold millions of gallons of storm water. 182.9 m x 15.24 cm DR17 HDPE piping will be used to be able to transport this water to a hydrant.	Wastewater	\$44,538.95	\$41,837.85	Yes
870	1819-004605	St. Louis No. 431, RM of	Update Zoning Bylaw and Official Community Plan for Asset Management Plan	Update Zoning Bylaw and develop an Official Community Plan to better address current and future development and assist with asset management plan.	Capacity Building	\$30,000.00	\$1,550.00	No
871	1819-004604	St. Louis No. 431, RM of	Asset Management Plan	Hire professional to complete a condition assessment, create the asset management plan and upgrade to full public works software complete with training for foreman and office staff.	Capacity Building	\$100,000.00	\$0.00	No
872	2122-006202	St. Louis, Village of	Municipal Street and Sidewalk Upgrades (2021)	Remove broken asphalt, prepare area and re-surface approximately 240 sq m of municipal street with 38 mm asphalt that has deteriorated due to water drainage damage and age at various locations within municipality. Remove and replace approximately 120 sq m of municipal concrete sidewalk.	Local Roads and Bridges	\$24,274.00	\$24,274.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
873	2021-005130	St. Peter No. 369, RM of	LeRoy REACT Landfill Site Capital Portion	Construction of a new regional landfill site located at SW 31-35-21-W2 with a design life capacity of over 65 years. This landfill will replace the previous landfill which was at capacity. The new landfill measures 0.323 square km, including a scale/processing area, engineered garbage cells, two run-off ponds, one leachate pond, and 12.19 m tall netting installed around cells 1 and 2 for litter containment.	Solid Waste	\$119,815.00	\$119,815.00	Yes
874	1920-004759	St. Walburg, Town of	Repave 100 m of 1st Avenue	Repave 100 m of 1st Avenue between 1st Street West and 2nd Street West with 60 mm of hot mix asphalt.	Local Roads and Bridges	\$20,415.60	\$20,415.60	Yes
875	2021-005524	Stanley No. 215, RM of	Upgrade Bridge at E 17-24-07-W2	Upgrade bridge at E 17-24-07-W2 by shimming seven piles, remediating piles at abutment two and undertaking preservative treatment.	Local Roads and Bridges	\$25,670.00	\$25,670.00	Yes
876	0910-001479	Stanley No. 215, RM of	Clay Cap Grid 618	To build or rebuild grid-link highway to highway.	Local Roads and Bridges	\$800,000.00	\$0.00	No
877	2021-006010	Star City No. 428, RM of	Clay Cap 5.6 km of Grid Road at NNE 8, N 9, 10, 11-45-18-W2	Clay will be applied to 5.6 km of grid road to cover protruding rocks and a gravel base placed on top of road to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$600,000.00	\$27,081.00	Yes
878	2021-006011	Star City No. 428, RM of	Clay Cap 7.24 km of Grid Road at E 13, 24, 25, 36 and NE 12-45-17-W2	Clay will be applied to 7.24 km of grid road to cover protruding rocks and a gravel base placed on top to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$600,000.00	\$27,081.00	Yes
879	2021-005249	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSE 13-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
880	2021-005250	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSW 13-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
881	2021-005251	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSW 14-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
882	2021-005252	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSE 26-43-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
883	2021-005253	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSW 26-43-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
884	2021-005254	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSE 27-43-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
885	2021-005255	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSW 27-43-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road. Local Roads and Bridges	\$29,000.00	\$0.00	No
887	2021-005257	Star City No. 428, RM of	Clay Cap 0.8 km Road at SSE 27-43-18-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	No
888	2021-005275	Star City, Town of	Replace Four Hydrants and Four Valves	Replace four water hydrants with ones that have increased capacity, improving current hydrant capacity. Four street valves will be replaced along with the hydrants.	Drinking Water	\$49,230.28	\$49,230.28	No
889	2021-006064	Stewart Valley, Village of	Upgrade Lagoon	Install 60 m x 150 mm DR 17 HDPE pipe and two new 150 mm stainless steel knife gate valves.	Wastewater	\$35,510.00	\$12,140.84	Yes
890	1011-001795	Stewart Valley, Village of	New Well and Well House Renovations	Dig a new well and trench it to the well house to increase the water capacity. Upgrade the well house as required as well as with new pump and filtration system to increase the quality of the water to accommodate an increase in residents.	Drinking Water	\$83,314.41	\$0.00	No
891	1920-004640	Stockholm, Village of	Install Energy Efficient Furnace and Water Heaters at Communiplex	To replace furnace and two water heaters in Zamboni room at Reg Banga Memorial Communiplex with energy efficient equipment.	Community Energy Systems	\$7,806.53	\$7,806.53	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
892	2021-005540	Stockholm, Village of	Standalone Study - Stockholm Landfill Solid Waste Management Plan	Hire an engineer to prepare a Solid Waste Management Plan detailing the remaining life of the current cell. The plan will include an assessment of the current cell, environmental impact assessment and a pre-design report for expansions/new landfill.	Solid Waste	\$130,000.00	\$0.00	No
893	1516-004001	Stony Rapids, Northern Hamlet of	Build New Community Center	Build new Recreational and Municipal Office Complex for recreational activities such as floor hockey, volleyball, dances, carnivals, elder activities, social events and municipal offices.	Recreational Infrastructure	\$2,500,000.00	\$0.00	No
894	2021-005342	Storthoaks No. 31, RM of	Upgrade 2.5 km of Road at S 02 and 03-05-31-W1	Upgrade 2.5 km x 12 m road to main farm access standard with slopes of 3:1. Clay was used for the road top, three sets of three 600 mm x 6 m culverts were installed.	Local Roads and Bridges	\$170,660.00	\$126,527.40	Yes
895	2021-005356	Storthoaks, Village of	Construct an Insulated 3.65 m x 4.88 m Building at the Well	Construct an insulated 3.65 m x 4.88 m building on site at the Village Water Well. At present there is no building at the well. The expected outcome will be less repairs to be done to the well (especially over winter months) as the infrastructure will no longer be exposed to all outdoor elements and if repairs are required, they will be done in better working conditions.	Drinking Water	\$13,328.17	\$13,328.17	Yes
896	2021-005683	Storthoaks, Village of	Install 140 m of 32 mm Water Line on Sixth Street West	Install 140 m of 32 mm water line at 6th Street West and Railway Avenue for a new house moved into the village.	Drinking Water	\$3,152.10	\$3,152.10	Yes
897	2021-005684	Storthoaks, Village of	Replace 5.2 m x 3.4 m of Sidewalk on Centre Street	Replace 5.2 m x 3.4 m of sidewalk to a depth of 200 mm on Centre Street.	Local Roads and Bridges	\$5,810.00	\$5,810.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
898	2021-005681	Storthoaks, Village of	Install New Culvert on 1st Street West	Installation of a new culvert (1.6 mm x 500 mm x 12 m) across 1st Street West, due to water collection staying on the road and causing more road maintenance. With a culvert installed, the water (rain and snow) runoff will no longer sit and deteriorate the street surface.	Local Roads and Bridges	\$1,500.00	\$0.00	No
899	2021-005682	Storthoaks, Village of	Sand Seal Pavement on Centre Street	Sand seal 20 m x 12 m of Centre Street to extend the service life of the road.	Local Roads and Bridges	\$20,000.00	\$0.00	No
900	2021-005685	Storthoaks, Village of	Replace Culverts on Chicoine Avenue and 1st Street East	Remove and replace two 500 mm x 1.6 mm x 12 m culverts on Chicoine Avenue and 1st Street East to improve drainage on the roads.	Local Roads and Bridges	\$3,000.00	\$0.00	No
901	1920-004687	Stoughton, Town of	Replace 8,800 m of Main Water Supply Line and Upgrade Water System	Replace 8,800 m of 150 mm PVC or 200 mm HDPE main water line and appurtenances and construct new well, pumphouse, including pump, piping, main connection and electrical. Also, conduct rehabilitation on existing wells and decommission pump well four.	Drinking Water	\$2,067,000.00	\$0.00	No
902	1920-004966	Strasbourg, Town of	Replacement of Water Main, Hydrants, Curb Stops and Street Repaving	Replace 160 m of water main on the 200 block of Blackstock Street, including the replacement of two hydrants, two water valves, 16 curb stops and 16 water and sewer connections to individual residences. After replacement, the street will be repaved with 1,000 sq m of asphalt.	Drinking Water	\$162,508.63	\$54,288.96	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
903	1617-004059	Sturgis, Town of	Construct New Water Lines	Extend water lines to service lots for planned new home construction in two locations, at the end of Margaret Street West and at the end of Olds Street North. Required due to a shortage of serviced lots in the town and need to provide quality drinking water to the property line.	Drinking Water	\$22,500.00	\$0.00	No
904	1617-004081	Sturgis, Town of	Construct New Sewer Lines	Extend sewer lines to service lots for planned new home construction in two locations, at the end of Margaret Street West and at the end of Olds Street North. Required due to a shortage of serviced lots in the town and need to provide quality sewer services to the property line.	Wastewater	\$22,500.00	\$0.00	No
905	2021-005858	Sunset Cove, Resort Village of	Repave 36 m x 18 m Tennis Court	The existing asphalt will be excavated, ground, and utilized as a base, then a new 50 mm base layer of asphalt will be placed over top on the 36 m x 18 m tennis court.	Recreational Infrastructure	\$20,407.18	\$13,599.15	Yes
906	2021-005726	Sutton No. 103, RM of	Complete Condition Assessment of Municipal Infrastructure	Hire an engineering firm to complete condition assessments of all municipal infrastructure and create a system of rating information for those assets to determine their current value, annual maintenance costs, and life cycle costs. This project will provide assessments of the following assets: buildings and equipment; roads and culverts; water and wastewater systems.	Capacity Building	\$24,979.99	\$24,979.99	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
907	1415-003268	Swift Current, City of	Asset Management Initiative	Implementation of city-wide asset management initiative with a goal to develop a system to maintain all city assets to maximize lifespan and service level, and includes the completion of an infrastructure gap assessment, development of state of infrastructure report, the development of an asset management plan and corresponding asset management policy, assessment and modification of long-term planning practices, the development of a condition and risk assessment framework, and implementation of GIS software and decision-support software tool.	Capacity Building	\$1,365,000.00	\$128.90	No
908	1920-004857	Swift Current, City of	Electrical System Upgrade - 2019 and 2020	Upgrade electrical system in the lane between 1st Avenue NW and Central Avenue NW between Herbert Street and Cheadle Street, and the lane between 1st Avenue NW and Central Avenue NW between Cheadle Street and N Railway Street W. Includes renewal of wood poles, transformers, and conductors along with system primary voltage conversion from five kV to 25 kV.	Community Energy Systems	\$1,139,246.19	\$487,278.96	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
909	1920-005061	Swift Current, City of	Rehabilitate Chaplin Street Bridge	Rehabilitate Chaplin Street Bridge (53.6 m length x 17.3 m width) including engineering, detailed design of rehabilitation work and tender package. Scope of construction work includes remove and replace expansion joints, rehabilitation of existing concrete abutments, piers, barriers and deck, and replace asphalt concrete pavement surface.	Local Roads and Bridges	\$410,874.81	\$75,813.96	Yes
910	1920-004856	Swift Current, City of	Upgrade North Hill Reservoir and Pumphouse	Construction of an additional wet well and installation of larger pumps and other associated works to increase available flows to the northwest and northeast areas of the city to improve service and meet increased demand.	Drinking Water	\$2,700,000.00	\$0.00	No
911	1920-004858	Swift Current, City of	Rehabilitate 525 m of 11th Avenue NW	Resurface 525 m (11,400 sq m) covering four lanes of 11th Avenue NW between North Service Road to Chaplin Street with 50 mm of pavement, replace 1,850 m of curb and gutter and concrete medians with geometric improvements to accommodate turning, and install traffic signals at South Service Road West and Highway 1 on ramp.	Local Roads and Bridges	\$1,600,000.00	\$0.00	Yes
912	2021-005117	Tantallon, Village of	Repaving 399.8 m of Main Street	Repave 399.8 m x 6.72 to 9.2 m of Main Street with 76 mm asphalt that includes scarifying and shaping subgrade, compacting subgrade and adjusting sewer manholes.	Local Roads and Bridges	\$257,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
913	2021-005331	Terrell No. 101, RM of	Reconstruct Ormiston Road	Reconstruct 4 km of road with clay capping and gravel to a surface that is 3.5 km by 9 m to accommodate primary weight traffic on 713 Grid and 717 Grid. Includes removal of 28 and install of 30 culverts, and installation of riprap, silt fence, erosion control blanket and geotextile fabric.	Local Roads and Bridges	\$350,000.00	\$0.00	No
914	2021-005555	The Gap No. 39, RM of	Recap 800 m of Range Road 200	Repave 800 m of Range Road 200 includes: widening the road surface from 7.3 m to 8 m; deep patching severely rutted/soft areas; reducing approximately 0.6 m of a horizontal curve height to improve sightlines; clay capping 300 mm to 450 mm road surface with sourced clay; spreading gravel on the clay capped road surface; and sowing grass seed on the side slopes of the road. Also, replacing an adjacent fence line to allow road widening. Range Road 200 is part of a haul route, and the road widening will allow for increased safety for road users, particularly when meeting trucks on the road. Alterations to the road's elevation will allow for increased visibility. Clay capping the roadbed will extend the road's service life and allow for intensive hauling of aggregate.	Local Roads and Bridges	\$87,888.70	\$87,888.70	Yes
915	2122-006262	Theodore, Village of	Drill New Well	Drill a new 15.2 cm x 45.7 m well with PVC casing and stainless-steel screens. Costs include installation of a pitless adaptor, pump kit, flow meter, decommissioning of old well and depth measuring device. A pipe will also run from the new well to the pump house. This new well will result in better quality raw water for treatment.	Drinking Water	\$54,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
916	2021-005080	Thode, Resort Village of	Chip Seal 430 m of Summerfeldt Drive	Chip seal 430 m of Summerfeldt Drive by applying a layer of gravel compacted with pneumatic roller and application of heavy layer of HF 250 road oil applied on approximately 32,190 sq m of roadway.	Local Roads and Bridges	\$30,395.50	\$30,395.50	Yes
917	2021-005081	Thode, Resort Village of	Chip Seal 400 m of Pelican Pass	Chip seal approximately 400 m of Pelican Pass by applying layer of chip gravel, applying heavy layer of road oil, and compacting together with a pneumatic roller.	Local Roads and Bridges	\$30,395.50	\$30,395.50	Yes
918	2021-006040	Three Lakes No. 400, RM of	Upgrade 1.7 km of Grid Road 777	Reconstruct 1.7 km of primary grid road that is badly dished, rough, has protruding rocks and soft spots in the road surface due to heavy traffic wear. The upgrade will reduce the grades on two hills and add new clay capping which will result in better site lines and an improved driving surface.	Local Roads and Bridges	\$191,475.84	\$95,737.92	Yes
919	1516-004027	Tisdale, Town of	Replace 3,850 m of Existing Water Lines and Install Water Lines in New Subdivision	Replacing approximately 3,850 m of water lines that are failing, plus addition of new lines that are added to the system for new subdivisions to ensure clean drinking water.	Drinking Water	\$1,796,391.18	\$369,012.18	No
920	2122-006240	Tobin Lake, Resort Village of	Add Retaining Wall to Beach Shoreline	Install approximately 70 cement blocks weighing 1,588 kg running perpendicular to the beach shore to stop further erosion to the shoreline. Each block measures approximately 6.4 cm x 12.7 cm x 6.4 cm. Adding this retaining wall to the beach will ensure sand is not washed away by the waves. Beach is used by public including those from outside the community.	Tourism Infrastructure	\$30,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
921	2021-005378	Togo, Village of	Upgrade Lagoon Access Road	Upgrade the lagoon access road as currently the only access is through a field and can only occur prior to planting or after crop harvest with no winter access at this time. The upgrade will be to build up 76.2 m road with a 20 m width with available soil, clay, topped with road gravel, create a ditch and install a 600 mm x 24 m culvert.	Local Roads and Bridges	\$50,000.00	\$0.00	No
922	2021-005512	Tompkins, Village of	Replace Water Plant Distribution Header and Pipes	Replace the existing distribution header, backwash line and valves and check lines. Replace the steel piping leading to the distribution header with 12.2 m of new 10.2 cm and 15.2 cm stainless steel piping. These upgrades will ensure that water supply for the village remains safe and consistent.	Drinking Water	\$53,908.31	\$32,061.31	Yes
923	2021-005817	Torch River No. 488, RM of	Upgrade Paschke Bridge at ENE 32-52-15-W2	A new steel bridge span will be placed over the existing wood span which has started to deteriorate to an unsafe level. The new steel span will continue to allow for safer travel of all vehicle configurations over an important road system. The bridge is a single-span steel deck design measuring 7.3 m x 15.2 m.	Local Roads and Bridges	\$200,000.00	\$90,239.50	No
924	2021-005818	Torch River No. 488, RM of	Expand Garrick Landfill	The current landfill cell is reaching capacity. New cells will be excavated to ensure capacity is sufficient for all municipal residents. The new main cell will measure 75 m x 80 m x 2 m and the new leachate pond will measure 157 m x 36 m x 3 m.	Solid Waste	\$272,945.35	\$272,945.35	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
925	2021-005709	Torquay, Village of	Upgrade Lift Station	Upgrades at the lift station include: clean out the pit for work to be done, installing a pump lifting handle, float switch bracket, vent pipe materials, isolation of inflows to the lift station, removal of pump retrieval system and installation of new one, pipe upgrade to stainless steel, upgrade to stainless steel ladder and upgrade to aluminum man-way hatch.	Wastewater	\$56,221.40	\$56,221.40	Yes
926	2021-005827	Touchwood No. 248, RM of	Install Culvert at E 27-27-17-W2	Install galvanized steel culverts on Grid Road 640 to mitigate flooding. Costs include excavating, purchase of 18 culverts, couplers, riprap installation, geotextile under riprap, gravel for culvert bedding and removal of existing culvert.	Local Roads and Bridges	\$15,381.29	\$15,381.29	Yes
927	2021-005828	Touchwood No. 248, RM of	Upgrade Serath Road Access to Highway 6	Buildup Serath Road approach leading to Highway 6 with clay and gravel to improve access.	Local Roads and Bridges	\$21,173.25	\$20,219.50	Yes
928	1819-004437	Tramping Lake No. 380, RM of	Reconstruct 6.5 km of Mitzel Road	Clay cap 6.5 km of Mitzel Road surface and reshape the road ensuring a proper 4:1 side slope in the ditches. This will help accommodate increased levels of grain and gravel traffic accessing Highways 21 and 14.	Local Roads and Bridges	\$0.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
929	1920-004967	Tramping Lake No. 380, RM of	Upgrade 6 km of Revenue Grid	Upgrade approximately 6 km of road south of 02 to 05-38-22-W3, which requires resurfacing and reshaping due to its age and the increased levels of grain and gravel traffic accessing Highway No. 21. Failures have developed on the road surface and the shoulders are failing and unstable. The work shall consist of mixing and compacting the existing subgrade to the required grade, cross section, and density. Additional materials will be incorporated during the surface mixing to enhance the finished product.	Local Roads and Bridges	\$300,000.00	\$0.00	No
930	2122-006275	Tramping Lake, Village of	Replace Lift Station Pump	Replace grinder pump in the sewage lift station.	Wastewater	\$1,829.85	\$1,829.85	Yes
931	2122-006277	Tramping Lake, Village of	Replace 10 Water Shut-off Valves	Replace 10 water shut off-valves that are currently not operational.	Drinking Water	\$20,000.00	\$11,788.24	No
932	1920-004990	Tugaske, Village of	Line Approximately 2100 m of Sewer Main	Flush and camera 2,100 m of sewer main lines and line with fiberglass to extend the useful life of the sewer main.	Wastewater	\$68,539.58	\$17,080.45	Yes
933	1920-004951	Tullymet No. 216, RM of	Clay Cap 4.82 km of Lipton Grid Road	Clay cap 4.82 km of road on a major grid. Due to heavy trucks hauling, a permanent upgrade is required for this road. The thickness of the clay cap is 0.3556 m. Road is 10.36 m wide.	Local Roads and Bridges	\$158,456.75	\$12,010.00	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
934	2021-005493	Turtle River No. 469, RM of	Upgrade to Intersection at Range Road 3200 at Township Road 490	Upgrade to intersection including fill material to widen the turning lane as it is mainly travelled by semi/fluid haulers. The corner was expanded in width and two 10 mm lifts of asphalt were applied for 50 m on Rural Road 3200 and onto Township Road 490 in both directions to make a smooth transition and seam with the pavement on it.	Local Roads and Bridges	\$1,010,503.79	\$54,600.00	Yes
935	2021-005494	Turtle River No. 469, RM of	Clay Cap and Culvert Replacement on 4.98 km of Range Road 3200	Clay cap 4.98 km of grid road and replace culverts. Approximately 38,800 cu m of clay, 63,000 cu m of earth, 1,750 cu m of 1.9 cm – 5.0 cm of gravel was used to give the road a 25 cm lift. Culverts used were 500 mm x 123 m, 600 mm x 18 m, 800 mm x 21 m.	Local Roads and Bridges	\$784,870.46	\$94,580.40	Yes
936	2021-005136	Turtle View, Resort Village of	Upgrade 2.74 km of Grid 697 and install a 500 mm x 18.5 m Culvert	Upgrade about 2.74 km of Grid 697 by rehabilitating the road surface including excavation and restoration to the substrata in some locations, and by replacing one 500 mm x 18.5 m culvert and the substrata around the culvert. A subsurface water collection system may be established to provide long-term removal of excess substrata water and asphalt will be replaced in this area.	Local Roads and Bridges	\$81,300.00	\$480.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
937	2021-005965	Unity, Town of	Repave Town Roads	Install woven geo-textiles in the roads within the town to solve ground water issues and strengthen the base to extend the useful life of the roads. The scope of the project includes Asphalt removal and disposal (22,931 sq m); wick drains and mirafi geo-textiles (25,305 sq m); asphalt concrete pav-ment - 35 mm (22,105 sq m) and 50 mm (22,105 sq m). Locations include portions of 1st Avenue West, 4th Avenue East, 2nd Avenue West and 5th Avenue West.	Local Roads and Bridges	\$3,167,778.02	\$0.00	No
938	1516-003928	Usborne No. 310, RM of	Resurface 22 km PG 668 HH - Phase 2	Upgrade 22 km of road by resurfacing to heavy haul standards, widening the road top, and on two sections of the road widening and/or strengthening subgrade. This will divert truck traffic from gravel roads to a dust-free road. PG 668 connects three communities, two potash mines and a large aggregate reserve.	Local Roads and Bridges	\$4,500,000.00	\$17,982.00	No
939	2021-005626	Val Marie, Village of	Sewer Relining Project on Centre Street	Reline approximately 11.6 m of 10.16 cm clay sewer line connection.	Wastewater	\$8,870.00	\$8,870.00	Yes
940	2122-006329	Valparaiso, Village of	Upgrade Street and Pathway Lighting	Adding one new standard permanent streetlight at pump house location and adding an arm with LED streetlight on two existing power poles to provide improved illumination of streets and pathways for village residents.	Local Roads and Bridges	\$7,500.00	\$0.00	No
941	1516-003615	Vanguard, Village of	Replace Water Meters	Replacing water meters with pro-read meters throughout the Village of Vanguard to ensure a more efficient water system and promote water conservation.	Drinking Water	\$21,567.26	\$2,273.23	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
942	2021-006043	Vanguard, Village of	Resurface 236 m of Pavement on Dominion Street and Saskatchewan Avenue	All pavement cracks will be sealed to keep moisture out, then a rubberized slurry seal will be used to cover the road surface to keep the road from deteriorating. This will provide an enhanced driving surface and extend the life of the asset. This will cover 4,942 sq m on Dominion Street and 1,508 sq m on Saskatchewan Avenue (160 m and 76 m respectively).	Local Roads and Bridges	\$32,542.00	\$32,542.00	Yes
943	1516-003616	Vanguard, Village of	Replace Water Main and Hydrant on Armada Street	Replacing 152.4 m water main and 13 service connections with C900 water main and the hydrant at the south end of Armada Street to ensure a more efficient, potable water system for village residents.	Drinking Water	\$87,000.00	\$0.00	No
944	2021-006012	Vanscoy No. 345, RM of	Upgrade 10.5 km of Range Road 72	Upgrade 10.5 km of farm access road to heavy haul road specifications to assist in the smooth flow of agricultural traffic throughout the municipality. Project includes upgrading existing low level summer access road, constructing portion of road allowance where currently no road exists and clay capping road to heavy haul standards.	Local Roads and Bridges	\$600,000.00	\$261,546.00	No
945	0708-000724	Vanscoy No. 345, RM of	Haul Road Reconstruction	Reconstruct 3.2 km of road to accommodate heavy hauls - road was not designed to carry large volumes of heavy truck traffic. Completion will accommodate heavier hauls which will reduce required trips.	Local Roads and Bridges	\$1,200,000.00	\$0.00	No
946	2021-005646	Vanscoy, Village of	Resurface 2nd Avenue and 2nd Street	Resurface 1,700 sq m of roads by removing existing asphalt and applying compact hot mix asphalt.	Local Roads and Bridges	\$97,301.98	\$97,301.98	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
947	1920-004831	Vibank, Village of	Test and Replace 21 Valves and 21 Hydrants	Locate, replace, retrofit, and refurbish 21 valves and 21 hydrants throughout the village to prevent water line breaks and boil water advisories.	Drinking Water	\$252,000.00	\$41,094.72	No
948	2021-005131	Viscount No. 341, RM of	LeRoy REACT Landfill Site Capital Portion	Construction of a new regional landfill site located at SW 31-35-21-W2 with a design life capacity of over 65 years. This landfill will replace the previous landfill which was at capacity. The new landfill measures 0.323 square km, including a scale/processing area, engineered garbage cells, two run-off ponds, one leachate pond, and 12.19 m tall netting installed around cells 1 and 2 for litter containment.	Solid Waste	\$52,390.00	\$52,390.00	Yes
949	2021-005634	Vonda, Town of	Install New Hydrants and Valves on Buffer Avenue	Install two new hydrants, new valve, and curb stop. Costs include purchase of materials, concrete, piping, and excavation. One hydrant and its valve were also replaced.	Drinking Water	\$41,494.69	\$41,494.69	Yes
950	2021-005635	Vonda, Town of	Install Energy Efficient Overhead Doors on the Storage Building	The municipal storage shed store's municipal equipment and the overhead doors were replaced with insulated doors to decrease energy usage. Costs include labor, remotes, photo-eyes, two windows, 21 sq m high-lift doors, and four 4.9 m x 4.3 m x 4.4 cm doors.	Community Energy Systems	\$16,764.92	\$16,764.92	Yes
951	2021-005636	Vonda, Town of	Replace 91 m of Water Line on Lerew Street	Replace 91 m of water line on Lerew Street from 2.54 cm to 3.81 cm lines to increase premises served and increase connections to drinking water. Also installed new curb valve.	Drinking Water	\$4,171.10	\$4,171.10	Yes
952	2021-005637	Vonda, Town of	Replace Water Main Valve on Lerew Street	Replace 15.24 cm water main valve on Lerew Street to increase premises served.	Drinking Water	\$7,637.50	\$7,637.50	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
953	2021-005638	Vonda, Town of	Replace Sewer Line on Second Street	Replace 30.5 m of sewer line on Second Street with 10.2 cm PVC pipes.	Wastewater	\$5,007.76	\$5,007.76	Yes
954	2021-005639	Vonda, Town of	Install Four New Hydrants	Install three new hydrants on Seventh Street and one new hydrant on Sixth Street to increase premises served with potable water.	Drinking Water	\$6,675.00	\$6,675.00	Yes
955	2021-005640	Vonda, Town of	Asphalt and Chip Seal Lerew Street and Buffer Avenue	Asphalt and double chip seal Lerew Street. Double chip seal Buffer Avenue from Main Street to 3rd Street.	Local Roads and Bridges	\$49,710.00	\$49,710.00	Yes
956	2021-005641	Vonda, Town of	Rebuild a Section of Lerew Street and Add a New Approach	Rebuild a section of Lerew Street with an approach to increase the vehicle capacity and load limits. The approach measures approximately 24.4 m. Constructed with fill gravel, sand, rock, base and rock chips.	Local Roads and Bridges	\$59,880.00	\$59,880.00	Yes
957	2021-005276	Wadena, Town of	Replace Pump at Main Sewage Lift Station	Replace the aging pump at the main sewage lift station with a new upgraded pump for improved safety and lift efficiency. This pump is necessary infrastructure to move wastewater 7 km to the sewage lagoon.	Wastewater	\$13,784.00	\$13,784.00	Yes
958	2021-005772	Wadena, Town of	Upgrade Water Meter Read Centre	Upgrade the water meter read centre by replacing meter reader with a new read centre that is compatible with the existing radio frequency read meters as well as new cellular read technology. This will result in operational savings for municipality as it will reduce travel time required for meter readings while also increasing accuracy of readings.	Drinking Water	\$24,146.79	\$24,146.79	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
959	2021-005773	Wadena, Town of	Replace Two Pumps at Kennedy Sewage Lift Station	Replace two pumps at the Kennedy sewage lift station for improved safety and better lift efficiency.	Wastewater	\$12,219.15	\$12,219.15	Yes
960	2021-005774	Wadena, Town of	Replace Well 6 Pump	Replace an aging pump at Well 6 with a new upgraded 7.5 hp 15.24 cm pump for improved efficiency in delivering raw water to the water treatment plant.	Drinking Water	\$11,637.17	\$11,637.17	Yes
961	2021-005775	Wadena, Town of	Upgrade Lagoon Force Main	Upgrade the force main to the sewage lagoon by replacing 91.4 m x 25.4 cm of existing HDPE force main. This will improve effluent dispersal into cell one and reduce pressure on the main lift station pumps.	Wastewater	\$76,035.00	\$72,610.00	Yes
962	2021-005776	Wadena, Town of	Upgrade Generator at Main Sewage Lift Station	Upgrade the manually operated natural gas drive engine generator at the Main Sewage Lift Station to an automatic generator to reduce breaks in service during power outages.	Wastewater	\$77,853.86	\$33,803.86	Yes
963	2021-005777	Wadena, Town of	Replace Ten Water Main Valves	Replace ten water main valves for improved isolation of the distribution system to enable directional line flushing. This will allow for better water quality and more controlled mitigation of water loss to residents if a break occurs.	Drinking Water	\$68,461.00	\$68,461.00	Yes
964	2122-006322	Wadena, Town of	Replace Well 4 Pump	Replace an aging pump at Well 4 with a new 7.5 hp 15.24 cm pump for improved efficiency to deliver raw water to the water treatment plant.	Drinking Water	\$11,785.98	\$11,785.98	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
965	2122-006325	Wadena, Town of	Install Emergency Lighting in Recreation Centre	Install 24 double-head LED emergency lights and two exit lights down the service tunnels near the ice surface of the recreation centre. Costs for the project include necessary electrical permits, four double-head battery packs, in addition to other material costs and installation. These upgrades will ensure the facility adheres to required fire codes and allow increased users to access the services there.	Recreational Infrastructure	\$8,162.00	\$8,162.00	Yes
966	2122-006328	Wadena, Town of	Replace Four Hydrants	Replace four hydrants with a modern style of hydrant. These hydrants are currently non-functioning. There will be full body replacement as well as standpipe and valving being replaced. This will enable the town to properly flush water mains for improved water quality.	Drinking Water	\$18,947.50	\$18,947.50	Yes
967	2122-006327	Wadena, Town of	Lagoon Force Main Connections	Install a service port to provide access to the lagoon force main to clean and alleviate blockages on the discharge main. This upgrade will improve the life expectancy of the main.	Wastewater	\$28,875.00	\$0.00	No
968	2021-005481	Wakaw Lake, Resort Village of	Pave Byng Avenue - 2019	Paving length was 250 m with a 30 mm overlay of asphalt.	Local Roads and Bridges	\$90,790.59	\$31,177.03	Yes
969	2021-005533	Wakaw, Town of	Upgrade 200 m of 2nd Street North	Grind the existing asphalt surface, grade the surface, and then apply a layer of chip sealing to the surface and pack with a pad foot packer on approximate width of 20 m and length is approximately 200 m.	Local Roads and Bridges	\$9,446.25	\$9,446.25	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
970	2021-005534	Wakaw, Town of	Upgrade 148 m of Water Main Along Highway 2	Upgrade 148 m of water main line with 130 m of 200 mm DR11 HDPE water main and 18 m of 150 mm DR11 HDPE water main running from the intersection of Main Street to the intersection of 1st Street South in Wakaw along Highway 2.	Drinking Water	\$105,000.00	\$97,988.87	Yes
971	2021-006078	Wakaw, Town of	Upgrade 142 m of Sewer Main Along Highway 2	Upgrade 142 m of sewer main line with 130 m of 300 mm DR11 HDPE sewer main and 12 m of 200 mm DR35 PVC sewer main running from the intersection of Main Street to the intersection of 1st Street South in Wakaw along Highway 2.	Wastewater	\$195,000.00	\$182,000.00	Yes
972	1516-003574	Waldeck, Village of	Upgrade and Pave Streets	Build or rebuild base, stabilize road structure including crown, and pave or recap with 50 mm to 65 mm hot mix asphalt on four streets.	Local Roads and Bridges	\$162,681.26	\$27,566.78	No
973	2021-005792	Waldheim, Town of	Upgrade Sewer Mains and Build New Retention Pond	Upgrading 200 mm sewer lines in various locations throughout the town. Replaced 336 m of lines and relined some pipes with a fiberglass/ epoxy composite. A new retention pond measuring 35 m x 92 m x 4 m was constructed as well. Costs included videoing the sewer lines prior to upgrade/replacement.	Wastewater	\$216,499.70	\$216,499.70	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
974	2021-005793	Waldheim, Town of	Upgrade Water Lines and Install One Hydrant	Upgrades to approximately 800 m x 150 mm water line, two valves, one hydrant and approximately 250 m x 50 mm water lines in various locations throughout the town. Waterworks permits have been obtained for installation of the following: 50 mm and 150 mm PVC water lines for the looping of 2nd Street South; on SE 21-42-05-W3 installation of 137 m x 150 mm HDPE water line and 102 m x 150 mm and 62 m x 50 mm water distribution mains; and, along 2nd Street South and 3rd Avenue 140 m x 150 mm PVC water line, one hydrant and two valves.	Drinking Water	\$379,097.43	\$379,097.43	Yes
975	2122-006261	Waldron, Village of	Upgrade Waldron Hall Building	Upgrade Waldron Hall by improving building envelope, insulation, and siding and replacing one door. The structure is 255 sq m. The main objective is to extend the life of an important community asset.	Recreational Infrastructure	\$13,000.00	\$0.00	No
976	2021-005199	Walpole No. 92, RM of	Reconstruct 6 km of Ryerson Road and Hebert Road	Clay cap 6 km of road in two different locations in the municipality. A total of 15 culverts were used for 2.8 km of Ryerson Road (five 500 mm x 8 m, five 600 mm x 8 m, and five 400 mm x 9 m) and 11 for 3.2 km of Hebert Road (seven 500 mm x 8 m, and four 400 mm x 9 m).	Local Roads and Bridges	\$546,431.79	\$141,169.50	Yes
977	2021-005295	Wapella, Town of	Upgrade 16 Water Main Valves	Replace four main water valves and any associated valves each year for four years to prevent water leaks which are costly, time consuming, and inconvenient to the residents.	Drinking Water	\$106,000.00	\$9,752.55	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
978	1920-004647	Waseca, Village of	Upgrade First Street West - Railway Avenue to First Avenue West	Upgrade 1st Street West by removing 0.5 m of road depth and rebuilding it by laying matting, and replacing clay and gravel surface on 150 m by 17 m.	Local Roads and Bridges	\$53,500.00	\$2,421.41	No
979	2021-006084	Waseca, Village of	Standalone Study - Engineer and Design Replacement of 826 m of Lagoon Main Line	Complete engineer design for a 150 mm low pressure sewer main to replace existing main lines, for future construction costs and estimates for projects. This new main wastewater line will see the replacement of the deteriorating current 50 mm and 100 mm lines with a new 150 mm diameter line running the length of 826 m.	Wastewater	\$24,550.00	\$0.00	No
980	1920-004953	Watrous, Town of	Construct Well No. 7 and Supply Line	Construct new raw water supply and pipeline to connect to existing water supply infrastructure. Costs include: a hydrogeological study, construction of a new 87.17 m deep water well with 73.5 m of 305 mm casing and 13.7 m of 254 mm stainless steel 25 slot wire-wrapped well screen, construction of a 4.27 m x 4.27 m x 2.44 m building over a 2.5 m x 3.5 m deep precast concrete manhole and associated mechanical, and installation of a 380 m 200 mm HDPE DR 13.5 raw water supply line.	Drinking Water	\$515,570.54	\$211,937.54	Yes
981	1920-004912	Watson, Town of	Replace Water Service Lines	Replace 200 copper water service lines with 75 mm poly pipe. Each service line measures 25 m to 30 m long.	Drinking Water	\$350,000.00	\$111,559.70	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
982	2021-005200	Waverley No. 44, RM of	Replace Bridge with Culverts at Two Locations	Replace bridge with culverts at two different locations. E 11-05-05-W3 consisted of three culverts (1,600 mm x 2.8 m) and NE 31-04-06-W3 consisted of two culverts (1,600 mm x 2.8 m).	Local Roads and Bridges	\$117,000.00	\$72,180.70	No
983	2021-005785	Wawken No. 93, RM of	Develop Asset Management Plan	Hire engineering firm to complete an asset management plan for the municipality. Costs include GIS system set-up, condition assessments and report preparation.	Capacity Building	\$29,980.02	\$29,980.02	Yes
984	2122-006295	Wawken No. 93, RM of	Construct 0.8 km Access Road	Construct a 0.8 km seasonal access road with 20.1 m right of way. Includes surveying and registering the road, hiring a construction company, fence removal and potential culverts if needed.	Local Roads and Bridges	\$200,000.00	\$7,720.65	No
985	2122-006225	Webb, Village of	Rehabilitate Recycling and Garbage Bin Site	Rebuild the road at the site as well as the pad where the recycling and garbage bins are placed. The construction will entail packing 19 cu m of one and half inch minus aggregate, then finishing with 38 cu m of three-quarter inch gravel crush. Improving the access to this site will be a great benefit to the residents as they will participate in the recycling program.	Solid Waste	\$2,500.00	\$1,546.54	No
986	2021-005097	Wee Too Beach, Resort Village of	Replace Wee Too Beach Boat Dock and Swim Buoys	Upgrade beach facilities by replacing the Wee Too Beach boat dock with one that measures 1.22 m wide x 17.07 m long and purchasing 20 swim buoys to replace the current buoys that do not meet current safety regulations.	Tourism Infrastructure	\$15,000.00	\$497.67	No
987	2021-006016	Wee Too Beach, Resort Village of	Install New Playground Play Structure	Replaced old, end of life play structure with a new safe structure for residents.	Recreational Infrastructure	\$15,198.28	\$15,198.28	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
988	2021-005935	Weekes, Village of	Replace Culverts Throughout the Village	Install 18 culverts to replace dated ones that were broken and sinking.	Local Roads and Bridges	\$10,483.23	\$10,483.23	Yes
989	2021-005663	Weirdale, Village of	Replace 13 Culverts	Replace 13 aging culverts with new galvanized steel culverts. On Railway Avenue: seven 38 cm x 18.3 m culverts, three 30.5 cm x 18.3 m culverts, and one 61 cm x 18.3 m culvert. On 1st Street East: one 30.5 cm x 6.1 m culvert in the alley. On 2nd Street East: one 30.5 cm x 6.1 m culvert in the driveway. The rusted culverts will be removed with an excavator and gravel will be used in trench to create a base for the new culverts.	Wastewater	\$19,993.79	\$19,993.79	Yes
990	2021-005676	Weirdale, Village of	Upgrade Village Well House and Pump House	Upgrades to the exterior and interior of the well house which includes siding the exterior (18.3 m) with 0.9 m x 2.4 m tin, four outside corners and finishing around the door, and installing 0.95 cm plywood on the interior. Upgrades to the water treatment plant pumphouse includes siding the exterior (22.25 m) with 0.9 m x 0.2 m tin, five outside corners, one inside corner and finishing around the door. Upgrades will extend useful life and decrease energy usage.	Drinking Water	\$6,100.00	\$0.00	No
991	2021-005184	Wellington No. 97, RM of	Replace Culvert at WNW 01-12-15-W2	Replace timber box culvert with three 1,200 mm x 18 m x 1.2 m culverts to allow for a 10 tonnes weight limit.	Local Roads and Bridges	\$36,320.59	\$36,320.59	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
992	2021-005916	Wellington No. 97, RM of	Replace Culvert at NW 01-10-15-W2	Culvert replacement consisted of three 6 m x 750 mm plastic culverts. Clay was added and packed in around the new culverts up to the surface of the roads. New reclaimed gravel was added to the top of the road and riprap placed around the ends of the culverts.	Local Roads and Bridges	\$15,295.88	\$15,295.88	Yes
993	2122-006154	Wellington No. 97, RM of	Replace Bridge with Three Culverts at SSW 16-12-13-W2	Replace the bridge at this location with three 900 mm x 18.3 m culverts. The bridge structure creates access issues as agriculture equipment is too large to pass over this bridge. This is the only viable access point to land now being farmed and hayed. The old bridge, made with creosote timber, will be removed and disposed of at an approved facility.	Local Roads and Bridges	\$37,300.35	\$37,300.35	Yes
994	2122-006155	Wellington No. 97, RM of	Replace Bridge with Three Culverts at WNW 14-11-14-W2	Replace bridge with three 1,060 mm x 18.3 m culverts as the bridge structure is failing and has been restricted to a 20 tonne weight limit. The old bridge, constructed with creosote timber, will be removed and disposed of in an approved facility, and then replaced with culverts.	Local Roads and Bridges	\$36,711.54	\$36,711.54	Yes
995	2122-006278	Wellington No. 97, RM of	Replace Bridge at SSW 29-12-15-W2 with Culverts	Remove timber bridge and dispose of the hazardous material in the appropriate facility. Bridge will be replaced with four steel 900 mm x 18 m culverts. Improves life expectancy and safety of bridge.	Local Roads and Bridges	\$37,646.25	\$32,673.98	Yes
996	2021-005180	West End, Resort Village of	Install Street Lights in Subdivision	Install three streetlights on north side of lake front subdivision.	Local Roads and Bridges	\$15,855.00	\$9,715.28	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
997	2021-005826	Weyakwin, Northern Hamlet of	Upgrade from Propane to Natural Gas and Replace Furnaces in Mochikun Hall	Change from propane to natural gas and replace the old furnaces in the Mochikun Hall which would allow the community to host events.	Community Energy Systems	\$77,068.68	\$0.00	No
998	1920-004775	Weyburn, City of	Construct Weyburn Recreation and Cultural Centre	Construct an 8,327 sq m multi-purpose facility consisting of art gallery, pottery studio, multi-purpose rooms, indoor track, simulator room, multi-use synthetic turf field, children's play space, and a 60.96 m x 25.91 m outdoor multi-purpose ice surface and sport court to provide important healthy accessible opportunities to the community and visitors.	Recreational Infrastructure	\$25,000,000.00	\$1,324,509.50	Yes
999	2021-005402	Wheatlands No. 163, RM of	Replace Bridge with Culverts at SW 06-16-01-W3 and NW 31-16-01-W3	Replace existing wooden bridge structure with four 2,400 mm x 26 m culverts, and construct a new road 8 m x 40 m.	Local Roads and Bridges	\$200,000.00	\$0.00	No
1000	1920-004783	Whiska Creek No. 106, RM of	Replace Bridge at SE 07-12-12-W3 with Two Culverts	Replace the bridge structure located at SE 07-12-12-W3 with two 20 m corrugated steel culverts 1,800 mm x 3.5 mm.	Local Roads and Bridges	\$60,663.42	\$60,663.42	Yes
1001	2122-006282	Whiska Creek No. 106, RM of	Upgrade 3.2 km of Range Road 3101	Upgrade 3.2 km of road in two separate locations by ripping up road top, pulling material from the shoulders of the road, and new material will be incorporated, packed down to re-establish the road base and crown, and layer of road gravel will be placed on the driving surface to complete the rehabilitation.	Local Roads and Bridges	\$76,818.88	\$76,818.88	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1002	2021-005424	White City, Town of	Multi-Use Pathway Network Improvement Project 2020-2024	This Multi-Use Pathway Network Improvement project will address the multi-use pathway gaps and enhance pedestrian accessibility/mobility on existing arterial and collector streets that lack adequate infrastructure to support the pedestrian friendly environment of the Town of White City. Approximately 2,716 m of pathways will be constructed in five areas of the pathway system with an average width of 1.5 m and thickness as follows: 150 mm compact subgrade, 100 mm granular base, 50 mm HMAAC geotextile.	Local Roads and Bridges	\$692,103.56	\$97,572.08	No
1003	2021-005425	White City, Town of	Install 400 mm Water Main on White City Drive	As part of the long-term planning of the community, the town has completed the design for installation of a new 2,200 m x 400 mm water main along White City Drive from Gregory Avenue to Betteridge Road to service new growth and enhance the existing water distribution system. It will have three hydrants and two interconnections with the existing water distribution system.	Drinking Water	\$3,038,625.00	\$0.00	No
1004	2021-005531	White Fox, Village of	Upgrade Sewage Pump System	Replace two sewage pumps to increase capacity and efficiency. The current pumps are undersized and past their service life. A new tin-sided building measuring 7.32 m x 7.32 m will be built with installation of an emergency power generator to address outages resulting from extreme weather events.	Wastewater	\$100,000.00	\$21,263.76	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1005	1920-005031	White Valley No. 49, RM of	Replace Bridge at NW 21-06-22-W3	This project includes construction of a three span 36 m x 8.53 m precast concrete and steel bridge along Grid 706 over the Frenchman River in NW 21-6-22 W3. The existing bridge must be dismantled, and a temporary detour bridge installed.	Local Roads and Bridges	\$1,322,376.19	\$205,850.70	Yes
1006	2021-006123	Whitewood, Town of	Pave 2,220 m of Streets at Ten Locations	Prepare road base and pave approximately 2,220 m (12,000 sq m) of streets within the town as the pavement has failed and the streets are back to gravel in many areas.	Local Roads and Bridges	\$343,523.10	\$343,523.10	Yes
1007	2021-005948	Wilcox, Village of	Replace Two Sewer Pumps at Lift Station	Replacing two sewer pumps at sewer lift station as old pumps are outdated and no longer efficient.	Wastewater	\$36,215.96	\$36,215.96	Yes
1008	2021-005173	Wilkie, Town of	Relining 880 m of Storm Sewers on 7th Avenue	Storm water relining program with Phase 1 beginning on 7th Avenue from Highway 14 West to 5th Street East. There will be 880 m of storm sewer, in sizes ranging from 350 mm to 750 mm, relined to extend the life of the storm water assets (estimated increase in useful life is 40 years) and increase the system performance. Size, age, and material of construction varies, with most of the storm mains being pre-cast concrete barrels, constructed between 1970 and 1982.	Wastewater	\$309,163.06	\$24,090.32	Yes
1009	2021-005629	Wilkie, Town of	Reline 847 m of Storm Sewers - Phase Two	Reline approximately 847 m of storm sewers on 3rd Avenue, 6th Avenue, 6.5 Avenue and 4th Street West, with cured in place lining. Sewer lines are concrete and vary from 300 mm to 600 mm in diameter. Estimated increase in useful life is 40 years.	Wastewater	\$360,000.00	\$0.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1010	2021-005495	Willow Bunch No. 42, RM of	Rebuild 402.3 m of Rasmussen Road	This road rehabilitation of 402.3 m x 6.1 m is required due to flooding. It will entail surface excavation and replacement on the west shoulder, installation of 20 m of 500 mm culverts, replacing and installing 475 sq m of riprap, installation of 1,895 sq m of geo-textile fabric, 140 cu m of gravel, clay capping and shoulder widening by 5,500 cu m, and borrow pit landscape restoration of 3,564 cu m. Costs include engineering services.	Local Roads and Bridges	\$142,597.94	\$116,319.61	Yes
1011	2021-005796	Willow Bunch, Town of	Pave Streets in Village	The project consisted of repaving 187 m x 11.2 m of Avenue D and 220 m x 9.2 m of Avenue H with asphalt.	Local Roads and Bridges	\$81,270.20	\$81,270.20	Yes
1012	2021-005447	Willow Creek No. 458, RM of	Replace Two Culverts at NNE and NNW 24-47-18-W2	Replace a 1500 mm x 21 m CSP culvert and a 1500 mm x 18 m CSP culvert to maintain the integrity of Grid 789 (Coxby Road). This will involve various heavy equipment to dig out the old culverts and install the new culverts to the proper standard.	Local Roads and Bridges	\$28,000.00	\$13,681.26	No
1013	2122-006129	Willow Creek No. 458, RM of	Upgrade Eden Bridge at ENE 13-47-17-W2	Upgrade three primary abutment piles and 12 pier piles and replace missing or severely damaged pier planking and bridge decking. Install two wingwall piles and restore the embankment and armor with riprap.	Local Roads and Bridges	\$380,000.00	\$9,227.30	No
1014	2122-006130	Willow Creek No. 458, RM of	Upgrade Fairy Glen Bridge at ESE 03-47-18-W2	Upgrade three primary abutment piles, upgrade 18 pier piles, and replace missing or severely damaged pier planking and six stringers. Additionally, restore four wing wall piles and embankments and armor with riprap.	Local Roads and Bridges	\$597,300.00	\$1,272.00	No

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1015	2122-006131	Willow Creek No. 458, RM of	Upgrade Norwood Bridge at NNE 34-45-16-W2	Upgrade five pier piles and replace missing or severely damaged pier planking.	Local Roads and Bridges	\$161,300.00	\$13,780.00	No
1016	1415-003099	Willow Creek No. 458, RM of	Replace Bridge with Culvert - ENE 13-48-17-W2	Replace timber bridge with a 3,000 mm x 3.5 mm x 14 m culvert and build up road to keep road open and allow access to heavier truck traffic and school buses.	Local Roads and Bridges	\$22,000.00	\$0.00	No
1017	2021-005391	Willowdale No. 153, RM of	Upgrade Township Road 162	Upgrade 2.4 km of Township Road 162, 1.6 km west and 0.8 km east of Range Road 2020, by scarifying existing roadway, removal of vegetation along road edge, replacing culverts as needed, building up roadway to form an approximately 0.3 m clay cap that will be compacted. The ditch slopes will be reshaped.	Local Roads and Bridges	\$101,000.00	\$58,025.00	Yes
1018	2122-006317	Willowdale No. 153, RM of	Upgrade Range Road 2015 at E 18-16-01-W2	Upgrade 1.6 km of Range Road 2015. Scarify existing roadway, remove vegetation along road edge, remove and re-install culverts as needed, build up existing roadway as needed to form an approximate 3.7 m clay cap to be compacted, and ditch slopes reshaped to regulation. The objective of this work is to provide safe transportation, prolong the existing lifespan of the road and increase load capabilities.	Local Roads and Bridges	\$286,080.00	\$0.00	No
1019	2021-005717	Wilton No. 472, RM of	Upgrade 11 km of Range Road 3273	Upgrade of Range Road 3273 from Township Road 472 to Township Road 462 by adding 11 km x 8.5 m of hot mix bituminous surface to give the pavement a lift of 60 mm.	Local Roads and Bridges	\$1,701,682.75	\$498,148.20	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1020	2021-005718	Wilton No. 472, RM of	Overlay Pavement 1.6 km of Grid Road 675 from Highway 303 to TWP 500	Repave 1.6 km of road with 60 mm pavement on a 9.5 m road top to extend service life of the road.	Local Roads and Bridges	\$258,533.93	\$96,811.20	Yes
1021	2122-006270	Wiseton, Village of	Install Hydrant for Flushing Water System	Install new hydrant to flush water system to remove sediment from drinking water.	Drinking Water	\$24,425.66	\$24,425.66	Yes
1022	2021-005427	Wolseley No. 155, RM of	Replace Tyre Bridge at E 10-19-08-W2	Removal of a 1930s concrete arch bridge and replacement with a triple clear span bridge across the Qu'Appelle River. This important bridge serves as a link between two municipalities and is an important corridor for the movement of agriculture commodities and general transportation. The RM of McLeod and the RM of Wolseley jointly own this bridge.	Local Roads and Bridges	\$1,931,425.70	\$161,854.20	Yes
1023	2021-005409	Wolseley, Town of	Wolseley Sportsplex Accessibility Project	Install a platform lift to allow wheelchair and improve mobility accessibility to the sportsplex facility, which will consist of the construction of a 32.5 sq m building addition and installation of a vertical platform lift to the southeast corner of the Wolseley Sportsplex Recreational Facility.	Recreational Infrastructure	\$133,441.44	\$104,141.44	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1024	2021-005699	Wolseley, Town of	Repave Poplar Street Between Gordon Street Crossing and Oak Street	The existing cold mix asphalt will be scarified, and the material will be reshaped and compacted. Manholes and valves will be adjusted to the appropriate grade. The base will be prepared, primed and asphalt pavement will be placed at 75 mm compacted thickness. Edges will be cleaned and trimmed. Total area is approximately 2,290 sq m (approximately 330 m distance).	Local Roads and Bridges	\$81,024.28	\$81,024.28	Yes
1025	2021-005700	Wolseley, Town of	Repave Multiple Streets in Village - 2018	Repaving Sherbrooke Street, Garden Street, Ouimet Street, the intersection of Garnet and Front Street, and Varennes Street. The existing cold mix asphalt pavement will be scarified. The scarified material will be reshaped and compacted. Manholes and valves will be adjusted to the appropriate grade. The base will be primed, and asphalt pavement will be placed at 70 mm compacted thickness. Edges will be cleaned and trimmed. Total area is approximately 2,890 sq m for a total distance of 465 m.	Local Roads and Bridges	\$144,922.14	\$144,922.14	Yes
1026	2122-006132	Wolverine No. 340, RM of	Upgrade 6.4 km of Road at N 9,10,11,12 - 36-23-W2	Reconstruct the driving surface of 6.4 km of grid road by contracting with a company that has a 2.5 m mulcher with the capability to crush rock to a depth of 0.4 m. Gravel and clay will be incorporated with shaping to correct the crown, then traffic gravel applied to road top in order to extend the life of the driving surface.	Local Roads and Bridges	\$110,081.95	\$110,081.95	Yes

Ref No.	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1027	2021-005786	Wood River No. 74, RM of	Upgrade Bridge at ENE 08-09-05-W3	Install nine new piles in front of two abutments. The same abutments will require new caps and corbels, as well as 22 new piles in front of the east side. The upgrades made to the substructure will increase the service life of the bridge.	Local Roads and Bridges	\$114,485.41	\$52,766.00	Yes
1028	2021-005112	Yellow Grass, Town of	Replace 220 Water Meters	Install new water meters in all households and businesses in Yellow Grass and purchase compatible radio programming. The system will allow readings to be sent in automatically for billing purposes and will also detect leaks, resulting in decreased water consumption.	Drinking Water	\$130,000.00	\$0.00	No
1029	1920-005019	Yorkton, City of	Darlington Street and Mayhew Avenue Reconstruction	The Darlington and Mayhew Reconstruction Project includes roundabout intersection and lighted pathways. Also road reconstruction, including new storm sewer and weeping tile and sidewalk, curb and gutter replacement, on Mayhew Avenue from Morrison Drive South to Darlington Street and Darlington Street from Mayhew Avenue to Dracup Avenue.	Local Roads and Bridges	\$4,504,128.90	\$1,306,757.90	Yes
1030	2021-005627	Young, Village of	Upgrade Swimming Pool	Upgrade aging 9.8 m x 22.6 m swimming pool by excavating deteriorating pool walls, replacing damaged portions with back-fill material, installing new walls/frames, weeping tile, sump pumps, sono tubes, replacing old liner, installing new mesh cover, deck anchors, ladders, diving boards, replacing skimmer lines and landscaping/fencing the area.	Recreational Infrastructure	\$185,650.65	\$104,754.60	Yes

1031	1920-004920	Zenon Park, Village of	Upgrade Valve and Pipes at Water Treatment Plant	Install new 150 mm underground valve, 12 m of 150 mm stainless steel pipe and 6 m of PVC pipe to allow for isolation of water during treatment process.	Drinking Water	\$39,299.50	\$39,299.50	Yes
1032	1920-004921	Zenon Park, Village of	Rebuild and Upgrade Lift Station	The lift station will have electrical upgrades and parts replaced as follows: two new stools, two 10.16 cm HDL check valves, two 10.16 cm plug valves, two upper guide holders, a new 10.16 cm stainless pipe and four new 5.1 cm stainless guide pipes, and 22 m galvanized chain and connector.	Wastewater	\$31,925.08	\$31,925.08	Yes
1033	1920-004922	Zenon Park, Village of	Replace Water Hydrant on 1st Street North and 2nd Avenue West	Hydrant removal and replacement on 1st Street North and 2nd Avenue West.	Drinking Water	\$10,658.50	\$10,658.50	Yes
Total Projects: 1033						\$389,552,176.63	\$104,457,907.04	

Projects Adjustments 2021 – Received Subsequent to 2020-2021 Audit

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
1	1920-004841	Allan, Town of	Reconstruct 600 m of Alpine Avenue, Maple Drive and Sylvite Crescent	Reconstruct 600 m of streets by removing fractured pavement and frost boils; adding clay, stabilizer, and chemicals, clay-clapping the roadways; and adding gravel, crushed rock in preparation for future seal coat.	Local Roads and Bridges	\$180,000.00	\$152,905.44	No
2	1920-004838	Arm River No. 252, RM of	Reconstruct and Clay Cap 3.2 km of Grid 747	Reconstruct and clay cap 3.2 km of road on a primary grid by adding clay material to correct the side slopes and narrow the road top to the primary grid standard width and slope. It will include sub-cutting unsuitable material and adding geotextile prior to the addition of suitable clay material to the design grade height. The aging drainage infrastructure will be replaced with new corrugated steel pipes. The road top will have gravel incorporated into the top 75 mm prior to the placement of road gravel.	Local Roads and Bridges	\$268,684.30	\$15,083.22	Yes
3	1314-002811	Blaine Lake No. 434, RM of	Radouga Creek Upgrade	Enhance water flow through the Radouga Creek system by upgrading culvert capacity to prevent flooding of roads.	Local Roads and Bridges	\$204,711.53	\$16,819.40	No
4	0708-001169	Buchanan No. 304, RM of	Upgrade Four Bridges	Upgrade four existing bridges within the municipality at ESE 19-32-04-W2; NNW 19-32-04-W2; NNW 35-31-04-W2; NNE 24-31-04-W2.	Local Roads and Bridges	\$100,474.20	\$5,627.48	No

5	1617-004072	Fleming, Town of	Upgrade Lane to an All-Weather Road	Upgrade a lane to an all-weather road for a new subdivision, including initial excavation, installation of construction matting, placement of pea gravel for a solid roadbed, new culvert, and top with pit run gravel to complete.	Local Roads and Bridges	\$7,620.00	\$7,620.00	Yes
6	2021-005095	Flin Flon, Boundary Area	Works and Operations Garage Energy Efficiency Upgrade	Upgrade of a newly acquired Works and Operations Garage (1,662 sq m) designed for the consolidation of operations to a single space. Upgrade all aspects of energy efficiency including furnace, additional insulation, energy efficient windows and doors, including overhead doors and energy efficient lighting.	Community Energy Systems	\$567,370.53	\$89,882.85	Yes
7	1920-004827	Golden West No. 95, RM of	Reconstruct 4.6 km of Grid Road	Reconstruct 4.6 km x 30.48 m of grid road located at S 01, 02, 03-11-07-W2.	Local Roads and Bridges	\$387,965.63	\$17,474.55	Yes
8	2021-005174	Hawarden, Village of	Rebuild Berm between Lagoon Cells	The project will rebuild the berm between the cells of the lagoon. The main objective of the project is to enhance the ability of the lagoon to treat wastewater. Riprap will be installed on the berm to protect it from future erosion, replace small culvert, some sewage lines and valves. Approximately 2,294 cubic meters of fill and concrete for riprap will be moved to rebuild the berm.	Wastewater	\$29,000.00	\$9,199.46	No
9	2021-005231	Lashburn, Town of	Overlay 40 mm Asphalt on 1,250 m of Highway 16 Service Road	Add a 40 mm asphalt overlay on 1,250 m of Highway 16 Service Road from 6th Street West to 4th Street East. Consists of milling the existing roadway surface, miscellaneous roadway patching, levelling course and asphalt pavement overlay.	Local Roads and Bridges	\$232,079.94	\$59,029.15	Yes

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
10	2021-005417	Last Mountain Valley No. 250, RM of	Resurface 29.32 km of Road	Approximately 29.32 km of road top will be ground up with a road mulcher, going 15.24 to 20.32 cm deep into the road surface, grinding all rocks and incorporating more road building material, then packing and gravelling the road. This is an alternative to clay capping and will increase the life of the road and provide a safe travelling surface for vehicles and equipment.	Local Roads and Bridges	\$146,498.90	\$87,200.32	Yes
11	2021-005506	Leask, Village of	Install 20.4 kW Solar Panel Array on Well House	Includes site preparation (completed by municipality), upgrades to power, water pressure transmitter, bi-directional meter, installation of 56 solar modules, inverters, combiners and all associated electrical to provide a 20.4 kW system.	Community Energy Systems	\$62,646.00	\$64,865.79	Yes
12	1920-004965	Lemberg, Town of	Develop an Official Community Plan which includes Asset Management	The project includes the development of an Official Community Plan with associated Zoning Bylaw and Asset Management Plan with Appraised Asset Schedule to guide the current and future councils into the future by strengthening the community's ability to build capacity through long term infrastructure planning. This project will entail contracting an engineer and planner to develop these plans.	Capacity Building	\$93,289.95	\$11,437.50	No

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
13	2021-006035	Lumsden Beach, Resort Village	Purchase and Install Children's Recreational Beach Equipment	Install on the waterfront beach two pieces of children's play equipment. One is for a slide and the other is for two sections of single post swings with four seats, one being a children's 'tot' seat. Both items are to replace existing equipment that no longer meets Canadian safety standards. These items will be added to teeter-totters and an 'igloo' climbing apparatus already in the children's play area.	Recreational Infrastructure	\$7,426.83	\$600.50	Yes
14	1011-001891	Marquis, Village of	Replace Water Meters	Replace all existing water meters at 50 locations throughout the village to provide accurate and consistent data and promote water conservation.	Drinking Water	\$28,000.00	\$7,586.45	No
15	2021-005336	Mayfield No. 406, RM of	Replace Culverts at 14 Locations in Division 2	Purchase and installation of culverts at 14 locations throughout Division 2 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$61,734.10	\$18,697.98	Yes
16	2021-005337	Mayfield No. 406, RM of	Replace Culverts at 8 Locations in Division 1	Purchase and installation of culverts at eight locations throughout Division 1 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$48,591.47	\$10,684.56	Yes
17	2021-005338	Mayfield No. 406, RM of	Replace Culverts at 10 Locations in Division 3	Purchase and installation of culverts at 10 locations throughout Division 3 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$52,972.67	\$46,655.10	Yes
18	2021-005339	Mayfield No. 406, RM of	Replace Culverts at 9 Locations in Division 4	Purchase and installation of culverts at nine locations throughout Division 4 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$50,781.89	\$50,781.89	Yes
19	2021-005340	Mayfield No. 406, RM of	Replace Culverts at 9 Locations in Division 5	Purchase and installation of culverts in nine locations throughout Division 5 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$50,782.07	\$50,782.07	Yes

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
20	2021-005341	Mayfield No. 406, RM of	Replace Culverts at 18 Locations in Division 6	Purchase and installation of culverts in 18 locations throughout Division 6 of the RM to increase service of the roads and life of the infrastructure.	Local Roads and Bridges	\$70,495.70	\$70,495.70	Yes
21	2021-005437	Naicam, Town of	Resurfacing 205.85 m of 1st Avenue North and Intersections	Resurfacing 205.85 m of the 200 Block of 1st Avenue North and intersections which are a heavy haul route. Includes removal of existing surfacing, installation of 10 cm asphalt surfacing, swales and seal coat ensuring continuous use and decreased time to travel.	Local Roads and Bridges	\$303,588.60	\$39,693.05	Yes
22	2021-005850	Paddockwood No. 520, RM of	Install Combi Grid to 3.63 km of Forest Gate Road	Raise 3.63 km of road and installation of 48 rolls of combi grid, 4.11 km of clay, and 0.55 km of gravel. The road will be raised 40.64 to 45.72 cm. This section of road is imperative for gravel hauling from the newly developed gravel pit. The combi grid will stabilize the road and the raise will elevate it above the water line in low lying areas.	Local Roads and Bridges	\$145,488.17	\$75,389.75	No
23	2021-005617	Quinton, Village of	Community Hall Renovations and Energy Efficiency Upgrades	Community Hall renovations and upgrades to lighting, water heater, furnace and hall kitchen window.	Community Energy Systems	\$4,899.14	\$4,899.14	No
24	0708-001026	Quinton, Village of	Touchwood Hills Regional Landfill	Enhance regional waste disposal to cover costs of decommissioning the former landfill site, along with the setup cost of building a waste transfer site to haul garbage to the regional landfill site.	Solid Waste	\$34,200.00	\$505.00	No

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
25	2021-005657	Quinton, Village of	Waterworks Distribution Upgrades	This project provides upgrades on the water distribution system main lines, hydrants, shut-off valves, and pumps which are vital to the continuous uninterrupted supply of safe quality water to consumers. The hydrant replacement and new hydrants will ensure the system can be cleaned to maintain the safe water quality and flush the main lines. The shut-off valves will enhance protection and property safety to customers, who either are disconnected or away from their property. The main lines and upgrades will extend service life.	Drinking Water	\$10,795.74	\$3,278.74	Yes
26	2021-005616	Quinton, Village of	Waterworks System Assessment and Upgrades	Complete waterworks assessment, replace pumps at well one and well 2, replace filters, replace three pressure tanks, replace pump at water treatment plant and all associated plumbing and fixtures.	Drinking Water	\$33,377.55	\$33,377.55	Yes
27	0708-001028	Radisson, Town of	Lagoon Expansion	Expansion would include the excavation of a new cell adjacent to or across the road from the existing cells. The new cell would be equal in size to the two existing cells. It would include an equalizer line between it and the other holding waste cell. Any excess soil would be used to line the west and south sides of the primary waste cell. <i>(Reversal of expenditure previously allowed as the IIP is now withdrawn)</i>	Wastewater	\$0.00	(\$20,291.44)	N/A

Ref #	Project ID	Ultimate Recipient	Eligible Project Name	Eligible Project Description	Eligible Project Category	Total Project Cost	CCBF Funding Spent in 2021	Completed (Yes or No)
28	1920-005061	Swift Current, City of	Rehabilitate Chaplin Street Bridge	Rehabilitate Chaplin Street Bridge (53.6 m length x 17.3 m width) including engineering, detailed design of rehabilitation work and tender package. Scope of construction work includes remove and replace expansion joints, rehabilitation of existing concrete abutments, piers, barriers, and deck, and replace asphalt concrete pavement surface.	Local Roads and Bridges	\$1,600,000.00	\$722.91	Yes
29	1920-004895	Tecumseh No. 65, RM of	Construct 4.83 km of Road and Install 12 Culverts	Construction of 4.83 km of road will provide local access to properties along Range Road 2084 between Highway 33 to Township 100, and into the RM of Golden West No. 95. This project extends the 1.61 km of road that previously existed to provide straight access north from Highway 33 which completes the traffic corridor from Highway 13 straight north to the RM of Golden West No. 95. The road is 30.48 m wide and will have 12 steel culverts measuring 600 mm x 8 m x 2 mm.	Local Roads and Bridges	\$836,570.98	\$100,367.80	Yes
Total: 29 Projects						\$5,620,045.89	\$1,031,371.91	
						Interest Reported	(\$2,883.38)	
						Grand Total	\$1,028,488.53
