Part 5 - AUTHORIZATION & REGULATORY REQUIREMENTS

Below are the most common program authorizations and regulatory requirements needed. Please attach all supporting documents when applying.

Authorization to Construct (not required for the forage seeding BMPs) – registered landowner authorization granting permission to the applicant to develop a project. Improvements on provincial Crown land including fences or any beneficial changes, including maintenance, require approval from Lands Branch prior to development.

Environmentally Sensitive Areas - It is the responsibility of the applicant to determine if a project is located in an environmentally sensitive area. These areas may be critical habitat for species at risk or protected lands for wildlife habitat. Any private or Crown land, federally designated as critical habitat under the *Species at Risk Act* for a listed species at risk, requires project approval prior to commencing work. The relevant BMPs are Native Rangeland Grazing Management, Riparian Grazing Management and Invasive Plant Biocontrol and Targeted Grazing. Projects located in environmentally-sensitive areas may have special requirements. To determine if your project is on critical habitat land, please call the Agriculture Knowledge Centre at 1-866-457-2377.
