

2022 Waste Management Trash Talk

Beverage containers

More than **490 billion** beverage containers were recycled at SARCAN, which is 85 per cent of all beverage containers sold in Saskatchewan that year!

490
billion
recycled

Electronics

More than **1,750 tonnes** of waste electronics were collected and recycled. That's about the same weight as 49 fully loaded semi-trailer trucks!

Used oil

More than **15 million litres** of used oil and **1.6 million oil filters** were recycled – enough to approximately fill 279 average backyard swimming pools!

Paper and packaging

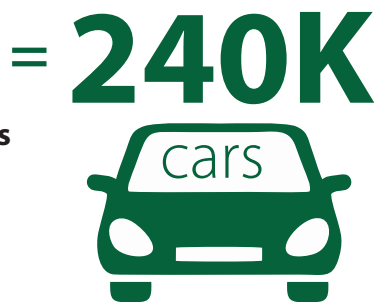

More than **37,350 tonnes** of printed paper and packaging materials were recycled. That's equal to about 1,000,000 books!

= 1 Million
books

Tires

More than **963,000 tires** were collected. That's enough tires for more than 240,000 cars!

Grain bags

More than **1,000 tonnes** of grain bags were collected. That's similar in weight to 37 large combines!

= 37
combines

Batteries

More than **100 tonnes** of single use and rechargeable batteries were collected. That's similar in weight to about 157 fully grown cows!

= 157

Paint

More than **335,000 litres** of paint were collected and diverted from landfills and more than **134 tonnes** of paint containers were collected and recycled. You could fill roughly 11 grain bins!

Way to go, Saskatchewan!
