Reset Form

Section 1: Contact Person Information

First Name: _____	Last Name: _____
Title: _____	Email Address: _____
Phone Number: _____	Mailing Address: _____

Section 2: Company Information

Full legal name of company: _____

Company address: _____

Operating name, if different than legal: _____

I confirm that a copy of the company's Certificate of Incorporation has been attached to this application.

City of company headquarters: _____

BA ID in IRIS (if applicable): _____

Please note that all commercially-sensitive information included in this CMPII Application Form will be treated as confidential by the Ministry of Energy and Resources.

Section 3: Eligible Project

An eligible project is defined in the *Critical Minerals Processing Investment Incentive Regulations* as:

- i) an aluminum processing, refining or smelting facility;
- ii) a cobalt processing or refining facility;
- iii) a copper processing or refining facility;
- iv) a gallium processing, refining, or purification facility;
- v) a helium processing or liquefaction facility;
- vi) a lithium processing or refining facility;
- vii) a magnesium processing or refining facility;
- viii) a natural graphite processing, refining or purification facility;
- ix) a nickel processing or refining facility;
- x) a rare earth elements processing, refining, or a magnet manufacturing facility; or
- xi) a zinc processing or refining facility.

These definitions apply to specific activities which add or create value by processing, transforming, and/or upgrading one of the qualifying materials mentioned above. Further information and examples of eligible projects can be found in the *CMPPII Policy Guidelines (August 2024)*. The following questions pertain to the proposed project being considered as eligible.

Name of proposed eligible project: _____

Location of proposed eligible project: _____

This application is being submitted for (if applicable, select more than one):

- A new development (greenfield)
- An expansion to an existing development/infrastructure (brownfield)
- A phased project (as defined within the *CMPPII Policy Guidelines (August 2024)*)

This application is being submitted for (if applicable, select more than one or leave blank):

Greenfield Projects (if applicable):

1a. In the case of a new development (greenfield), provide a detailed description of the proposed eligible project. This detailed description should include the proposed project's operational design and plan, and clearly identify how the proposed project satisfies the program's eligibility requirements.

This description should include, but is not limited to:

- Feedstock types and volumes;
- Design capacity and expected utilization;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

1b. Provide a detailed description of any enabling infrastructure required to support the proposed project's construction and operations. Clearly describe how the enabling infrastructure is related to the proposed eligible project.

This description should include, but is not limited to:

- Infrastructure types and sizes;
- Design capacity and expected utilization;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

Brownfield Projects (if applicable):

2a. In the case of an expansion to an existing facility (brownfield), provide a detailed description of the proposed eligible project. This detailed description should include the proposed project's operational design and plan, and clearly identify how the proposed project satisfies the program's eligibility requirements.

This description should include, but is not limited to:

- Feedstock types and volumes before and after the project;
- Design capacity and expected utilization before and after the project;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

2b. Provide a detailed description of any enabling infrastructure required to support the proposed project's construction and operations. Clearly describe how the enabling infrastructure is related to the proposed eligible project.

This description should include, but is not limited to:

- Infrastructure types and sizes;
- Design capacity and expected utilization;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

Phased Projects (if applicable):

3a. In the case of a project that will be constructed in two or more distinct phases, provide a detailed description of the proposed eligible project. This detailed description should include the proposed project's operational design and plan, and clearly identify how the proposed project satisfies the program's eligibility requirements.

This description should include, but is not limited to:

- Details regarding the distinct phases, including timelines;
- Feedstock types and volumes at each project phase;
- Design capacity and expected utilization before and after each project phase;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

3b. Provide a detailed description of any enabling infrastructure required to support the proposed project's construction and operation. Clearly describe how the enabling infrastructure is related to the proposed eligible project.

This description should include, but is not limited to:

- Infrastructure types and sizes;
- Design capacity and expected utilization;
- Process diagrams/block flow diagrams/schematics; and/or,
- Maps.

All Proposed Eligible Projects:

4. Describe any measurable environment benefits that are associated with your eligible project. For each measurable environmental benefit include the baseline metric along with the estimated improvement that will be reduced as a result of the proposed project. Some examples of environmental benefits include: a reduction in greenhouse gas (GHG) emissions; reduced electricity consumption, or a decreased land disturbance.

5. Describe (as appropriate) the certifications, licenses, and approvals obtained to date for the proposed project, and provide details on those left to obtain. Be specific with respect to named regulatory bodies and requirements of the referenced certification(s) as they apply to the proposed project.

6. Please provide a high-level construction timeline and/or details regarding the proposed project's stages.

7. If construction has not started on this project, what is required before project construction can begin (i.e., commercial agreements, land purchases, raising capital, FEED study, etc.)?

Section 4: Planned Eligible Costs

Eligible costs are defined in the *CMPII Policy Guidelines (August 2024)*. In order to meet the eligibility requirements for this program, a company must have eligible costs of at least CAD\$10 million.

1. Provide a detailed description and itemized breakdown for the proposed project's planned expenditures and the total estimated dollar amount of each eligible cost that may be claimed. Documents may be attached to supplement this description (i.e., financial modeling, budget calculations, project schedule, etc.). Please include both eligible and ineligible expenditure categories, as identified in Section 4 of the *CMPII Policy Guidelines (August 2024)*.

Section 5: Estimated Project Start & Completion Dates

Estimated project construction start date (MM/DD/YY): _____

Estimated project operational start date (MM/DD/YY): _____

Section 6: Declaration – Authorized Official of the Applicant Company Acknowledgements

Please check-off each box below before signing; failure to do so renders this application invalid.

	I declare that the planned eligible costs, as described in Section 4 of this application, are compliant and are for the purposes of carrying out the planned eligible project, with respect to the eligibility criteria defined in <i>The Critical Minerals Processing Investment Incentive Regulations</i> .
	I understand that the planned eligible costs, as described in Section 4 of this application, must be audited by an independent third party licensed Chartered Professional Accountant in order to be considered as eligible costs.
	I declare that this company currently holds an active business registration licence.
	I have read and fully understand the contents of the <i>CMPII Program Overview and Application Instructions</i> and the <i>CMPII Policy Guidelines (August 2024)</i> documents.
	I have read and agree with the above acknowledgements and certify that all statements and information furnished in this application are true, complete and correct to the best of my knowledge.
	I understand the Critical Mineral Processing Investment Incentive's program requirements and obligations as defined in the following: <ol style="list-style-type: none"> 1. <i>The Critical Minerals Processing Investment Incentive Regulations</i>; 2. The Financial Administration Act, 1993 – section 24.
	I understand the program requirements pertaining to sharing any reasonably requested corporate information and documentation, as may be required by the Government of Saskatchewan to determine program eligibility and/or qualifying royalty credits.
	I understand that any commercial agreements or partnership arrangements in place, regarding the proposed project, do not create obligations for the Government of Saskatchewan.
	I understand that my application to the Government of Saskatchewan is subject to public information requests, as per The Freedom of Information and Protection of Privacy Act .

The following must be signed by an individual with the authority to enter into an agreement with the Government of Saskatchewan. Note: This person may be different from the contact person listed in Section 1.
