

9.15 Release Notes

IRIS Version 9.15

Release Date: August 7, 2024

9.15 Release Notes Publication Date	Notes and Changes Made
August 7, 2024	Initial Release

About

IRIS Version 9.15 Release implemented 35 items. In addition to the changes detailed below, various enhancements and fixes to known defects were implemented to various IRIS Modules.

What's changed?

The highlights of what has changed in IRIS Version 9.15 release are noted below.

Note: Whether a user has access to the functionality, or enhancements outlined in these *9.15 Release Notes* will depend on the individual's security access and assigned permissions sets.

Infrastructure Functionality

- Reporting Facility obligation type *Submit Gas Fluid Analysis* is retired. This change is a result of the implementation of [Fluid Analysis Data Management \(FADM\)](#). Obligation type *Submit Gas Fluid Analysis on Reporting Facility* replaces obligation type *Submit Gas Fluid Analysis*.
- The *Well Completions Drainage Unit/Area* table now maintains Unit links when edits are made to *Tract History* and when new Tracts are added, fixing previous issues where these links disappeared.
- For all non-routine *Pipeline Reactivation Applications* an *Engineering Assessment* document is now a mandatory attachment type.
- On the new *Fluid Analysis Submission Detail Report* interface, the field labeled *Infrastructure* has been changed to *Facility ID* to improve clarity and user experience.
- Industry users can now perform advanced searches based on pipeline registry event types. This new search criterion has been added to the *Pipeline/Flowline Licence and Segment* searches.
- The approved *Waste Processing Facility Licence* downloadable PDF will now display the *Waste*

Streams approved and denied by the Ministry.

- The *Facility Licence Inventory Report* will now display the *Approved Waste Streams for Waste Processing Facilities*, in the *Approved Waste Streams* column.
- *Petrinex Non-Compliance* error group *NHG Valuation* is now active in IRIS. *Petrinex Non-Compliance* invoice logic is updated to include billable *NHG Valuation* errors from *Petrinex*. *Petrinex Non-Compliance Waiver* application process is amended to allow submission of waiver request for *NHG Valuation* error codes.
- New *Other Subsurface Operations* application under *Reservoir* category.
- New search functionality for *Other Subsurface Operations* application.
- New notifications for *Other Subsurface Operations* applications.
- New search function for Lithium in the drop-down menu for Project Type.
- New *Project Type* for Lithium (must have permissions: *I.INF.Projects.Maintain*, *I.INF.PRJ.Obligations.Notification*, *I.PRJ.Obligation.Submit*)
- New permissions added to permission sets: *I.INF.ReservoirApplications.Administrator* and *I.INF.ReservoirApplications.Applicant*.
- New *Audit Findings Obligation* introduced for Facilities and Pipelines.
- *Contact Us* link in Notifications updated to direct users to the IRIS home page (<https://www.saskatchewan.ca/iris>).
- *WFI Application Approved notification (Email and Online)* updated to the following message: 'Please follow the link for application details, as there may be regulatory conditions added as part of the approval of this application.'
- *Decision Notes* from the *Authorization – Abandonment (Approval)* screen added to the *Well Abandonment Application (Approved)* screen, *Submission* tab.
- *Pipeline Segment Summary Popup* Functionality is fixed. When selecting *View Full Details* within the *Segment Summary Popup* screen for any of the available tabs, IRIS will re-direct the user to the applicable *Segment information* screen (e.g. *Line Pipe Specs*, *Free-Standing Liner Specs*, *Spec Changes*, *Watercourse Crossings*).

Petroleum Tenure Module

- N/A

Energy and Resources Training Modules

Online Training courses for the Integrated Resources Information System (IRIS) can be found [here](#).

Security and Permission Sets

Industry

- No new Permission Sets added.
- Permissions added to existing Permissions Sets.

New Permissions within an EXISTING Permissions Set		
Existing Permission Sets	NEW Permissions ADDED **	Function
I.INF.ConfidentialPermanent.All.View	<ul style="list-style-type: none"> • Shared.AssociatedDocuments.ViewConfidential.AUDIT_FINDINGS 	<ul style="list-style-type: none"> • Ability to view confidential documents of type 'Audit Findings Obligation'.
I.INF.ReservoirApplications.Administrator	<ul style="list-style-type: none"> • WFI.Application.OTH_SUB_SRFC.Administrator.Industry • WFI.Application.OTH_SUB_SRFC.Applicant 	<ul style="list-style-type: none"> • Industry Administrator for 'Other Subsurface Operations Application'. • Permission to create 'Other Subsurface Operations Application'.
I.INF.ReservoirApplications.Applicant	<ul style="list-style-type: none"> • WFI.Application.OTH_SUB_SRFC.Applicant 	<ul style="list-style-type: none"> • Permission to create 'Other Subsurface Operations Application'.

****Note:** If a user is already assigned to the existing permission sets, they will automatically receive access to the new permissions.
