What is the difference between Form A and Form B?

FORM A

- By using [Form A](#), your coverage will be automatically renewed each year as long as you continue to file your Income Tax and Benefit Return with Canada Revenue Agency and hold a valid Saskatchewan Health Card.

****PLEASE NOTE:**

- You will receive a letter the first time you apply.
- If you continue to be eligible year after year, you will not receive a letter each year. Your coverage will continue automatically and your pharmacy will be aware of your coverage.
- You will ONLY be notified by letter if there has been a change in your coverage.

FORM B

- If you do not file income tax or would rather submit your financial information annually, please complete [Form B](#) and contact the Drug Plan for additional assistance.
- By completing [Form B](#), you will be required to re-apply for coverage each year with supporting income documentation.
- In the fall, you will receive a renewal notice with the required form, details on any deadlines, contact information and instructions to renew your benefits.

For your convenience, the Drug Plan encourages you to complete [Form A](#), so you do not have to complete a form and submit income every year AND to ensure there is no lapse in coverage.

What if I have a power of attorney?

- If you are applying on behalf of a senior as their power of attorney, a copy of the power of attorney document must be included with the application form.
- If you are power of attorney for more than one applicant, a copy of the documents must be provided with each application form.

- Due to the variety of power of attorney documents, some may not be considered acceptable for the Canada Revenue Agency, such as power of attorney limited to a bank or financial institution. In these cases, the Drug Plan may request that you complete [Form B](#).
- If you have any questions, contact the Drug Plan and Extended Benefits Branch toll-free at 1-800-667-7581 or in Regina at 306-787-3317 OR by email to dpeb@health.gov.sk.ca.

My spouse and I should both be eligible for coverage. Do we each complete an application form?

- Yes. Each member of your household who is 65 years or older must complete a separate application form.
- Seniors' Drug Plan eligibility is based on your individual reported net income.
- There may be situations where one spouse will qualify and the other spouse will not qualify, based on age or income.

When can I apply?

- You can apply for the Seniors' Drug Plan coverage two months before you turn 65 years of age:
 - If you apply before your 65th birthday, your coverage begins the first day of the month that you turn 65.
 - If you apply after your 65th birthday, your coverage begins on the date a complete application and income documentation is received by the Drug Plan , if it meets eligibility requirements.
- You will receive a letter in the mail to inform you if you are or are not approved for coverage.

Once I apply, what is the effective date of coverage?

- The effective date is the date that a complete application with all required documentation is received in the Drug Plan.

How will I know if I qualify after I initially apply?

- You will receive a letter in the mail informing you if you do or do not have coverage under the Seniors' Drug Plan.
- The letter is for your records only; you are not required to show it to your pharmacist to receive your benefits. Your pharmacy will be aware of your coverage once they have submitted a prescription claim.

What if my income has changed?

- You may request a reassessment if your income has changed.
- If your income has changed, you are required to submit a request for a reassessment in writing including supporting income documentation. You may submit income information to:

Special Support Program – Client Services Unit
Drug Plan and Extended Benefits Branch
3475 Albert Street REGINA SK S4S 6X6
FAX: 306-787-8679
EMAIL: dpeb@health.gov.sk.ca

I have Special Support already, why do I have to fill out another application for the Drug Plan to get my income information from Canada Revenue Agency?

- The Seniors' Drug Plan and the [Special Support Program](#) are separate programs and use two different income lines from your income tax form to determine your coverage.
- The Seniors' Drug Plan is based on individual net income (Line 23600).
- The [Special Support Program](#) is based on TOTAL family income (Line 15000) and TOTAL family drug costs.
- It is required by the Canada Revenue Agency that each applicant sign a consent form in order to release income information to the Drug Plan for each specific program.
