(1.1) Subject to subsections (1.2) and (1.3), for the purposes of blending ethanol with unleaded automotive gasoline fuel, at least 30% of the total ethanol to be used in blending by a distributor in the period commencing on April 1, 2015 and ending on March 31, 2020 must be ethanol from ethanol producers whose design capacity to produce ethanol is equal to or less than 25 million litres per year.

(1.2) Subsection (1.1) does not apply to a distributor that is also an ethanol producer if the distributor satisfies the minister that all or substantially all of the ethanol-blended fuel that it makes available for retail sale at its retail outlets is blended with the ethanol that it has produced.

(1.3) The minister may exempt a distributor from complying with subsection (1.1) for a period not exceeding one year if the distributor satisfies the minister that:

(b) the distributor is otherwise in compliance with these regulations.

(2) A distributor shall comply with *The Fuel Tax Act, 2000* when blending fuel.

(C) the date the ethanol-blended fuel became available for distribution in Saskatchewan;

(iii) with respect to each sale or disposition of ethanol-blended fuel by the distributor:

(A) except in the case of sales to consumers as defined in *The Fuel Tax Act, 2000*, the name and address of the person to whom the ethanol-blended fuel was sold or disposed of;
