- (1) If a registered holder or beneficial owner of securities, other than debt instruments, of a reporting issuer requests the reporting issuer's annual or interim MD&A, the reporting issuer must send a copy of the requested MD&A to the person or company that made the request, without charge, by the delivery deadline set out in subsection 4.6(3) for the annual financial statements or interim financial report to which the MD&A relates.
- (2) A reporting issuer is not required to send copies of any MD&A under subsection (1) that was filed more than two years before the issuer receives the request.

- (3) Subsection (1) does not apply if:
 - (a) the information required under that subsection has been disclosed in the financial statements to which the MD&A relates; or
 - (b) the issuer files separate financial statements of the equity investee for the periods referred to in subsection (2).

5.8 Disclosure Relating to Previously Disclosed Material Forward-Looking Information

- (1) **Application** - This section applies to material forward-looking information that is disclosed by a reporting issuer other than:
 - (a) forward-looking information contained in an oral statement; or

- (2) **Update** - A reporting issuer must discuss in its MD&A:
 - (a) events and circumstances that occurred during the period to which the MD&A relates that are reasonably likely to cause actual results to differ materially from material forward-looking information for a period that is not yet complete that the reporting issuer previously disclosed to the public; and
 - (b) the expected differences referred to in paragraph (a).

- (3) **Exemption** - Subsection (2) does not apply if the reporting issuer:
- (a) includes the information required by subsection (2) in a news release issued and filed by the reporting issuer before the filing of the MD&A referred to in subsection (2); and
 - (b) includes disclosure in the MD&A referred to in subsection (2) that:
 - (i) identifies the news release referred to in paragraph (a);

6.3 [Repealed]

PART 7 MATERIAL CHANGE REPORTS

7.1 Publication of Material Change

(1) Subject to subsection (2), if a material change occurs in the affairs of a reporting issuer, the reporting issuer must:

- (a) immediately issue and file a news release authorized by an executive officer disclosing the nature and substance of the change; and
- (b) as soon as practicable, and in any event within 10 days of the date on which the change occurs, file a Form 51-102F3 *Material Change Report* with respect to the material change.

(2) Subsection (1) does not apply if:

- (a) in the opinion of the reporting issuer, and if that opinion is arrived at in a reasonable manner, the disclosure required by subsection (1) would be unduly detrimental to the interests of the reporting issuer; or
- (b) the material change consists of a decision to implement a change made by senior management of the reporting issuer who believe that confirmation of the decision by the board of directors is probable, and senior management of the reporting issuer has no reason to believe that persons with knowledge of the material change have made use of that knowledge in purchasing or selling securities of the reporting issuer;

and the reporting issuer immediately files the report required under paragraph (1) (b) marked so as to indicate that it is confidential, together with written reasons for non-disclosure.

(3) [Repealed]

(4) [Repealed]

(5) If a report has been filed under subsection (2), the reporting issuer must advise the regulator or securities regulatory authority in writing if it believes the report should continue to remain confidential, within 10 days of the date of filing of the initial report and every 10 days thereafter until the material change is generally disclosed in the manner referred to in paragraph (1)(a), or, if the material change consists of a decision of the type referred to in paragraph (2)(b), until that decision has been rejected by the board of directors of the reporting issuer.

(6) Despite subsection (5), in Ontario, the reporting issuer must advise the securities regulatory authority.

(7) If a report has been filed under subsection (2), the reporting issuer must promptly generally disclose the material change in the manner referred to in subsection (1) upon the reporting issuer becoming aware, or having reasonable grounds to believe, that persons or companies are purchasing or selling securities of the reporting issuer with knowledge of the material change that has not been generally disclosed.

PART 8 BUSINESS ACQUISITION REPORT

8.1 Interpretation and Application

(1) In this Part:

“acquisition” includes an acquisition of an interest in a business that is consolidated for accounting purposes or accounted for by another method, such as the equity method;

“acquisition of related businesses” means the acquisition of two or more businesses if:

- (a) the businesses were under common control or management before the acquisitions were completed;
- (b) each acquisition was conditional upon the completion of each other acquisition; or
- (c) the acquisitions were contingent upon a single common event;

“business” includes an interest in an oil and gas property to which reserves, as defined in National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*, have been specifically attributed; and

“specified profit or loss” means profit or loss from continuing operations attributable to owners of the parent, adjusted to exclude income taxes.

(2) This Part does not apply to a transaction that is a reverse takeover.

8.2 Obligation to File a Business Acquisition Report and Filing Deadline

(1) If a reporting issuer completes a significant acquisition, as determined under section 8.3, it must file a business acquisition report within 75 days after the acquisition date.

(2) Despite subsection (1), if the most recently completed financial year of the acquired business ended 45 days or less before the acquisition date, a reporting issuer must file a business acquisition report:

- (a) within 90 days after the acquisition date, in the case of an issuer other than a venture issuer; or
- (b) within 120 days after the acquisition date, in the case of a venture issuer.

8.3 Determination of Significance

(1) **Significant Acquisitions** - Subject to subsection (3) and subsections 8.10(1) and 8.10(2), an acquisition of a business or related businesses is a significant acquisition:

- (a) for a reporting issuer that is not a venture issuer, if the acquisition satisfies any of the three significance tests set out in subsection (2); and
- (b) for a venture issuer, if the acquisition satisfies either of the significance tests set out in paragraphs (2)(a) or (b) if “20 percent” is read as “100 percent”.

(2) **Required Significance Tests** - For the purposes of subsection (1) and subject to subsections (4.1) and (4.2), the significance tests are:

- (a) **The Asset Test.** The reporting issuer’s proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer calculated using the audited annual financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed financial year of each that ended before the acquisition date.
- (b) **The Investment Test.** The reporting issuer’s consolidated investments in and advances to the business or related businesses as at the acquisition date exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed financial year of the reporting issuer ended before the acquisition date, excluding any investments in or advances to the business or related businesses as at that date.
- (c) **The Profit or Loss Test.** The reporting issuer’s proportionate share of the consolidated specified profit or loss of the business or related businesses exceeds 20 percent of the consolidated specified profit or loss of the reporting issuer calculated using the audited annual financial statements of each of the reporting issuer and the business or related businesses for the most recently completed financial year of each ended before the acquisition date.

(3) **Optional Significance Tests** - Despite subsection (1) and subject to subsections 8.10(1) and 8.10(2), if an acquisition of a business or related businesses is significant based on the significance tests in subsection (2):

- (a) a reporting issuer that is not a venture issuer may re-calculate the significance using the optional significance tests in subsection (4); and
- (b) a venture issuer may re-calculate the significance using the optional significance tests in paragraphs (4)(a) or (b) if “20 percent” is read as “100 percent”.

(4) For the purposes of subsection (3) and subject to subsections (4.1) and (4.2), the optional significance tests are:

(a) **The Asset Test.** The reporting issuer's proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer, calculated using the financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed interim period or financial year of each, without giving effect to the acquisition.

(b) **The Investment Test.** The reporting issuer's consolidated investments in and advances to the business or related businesses as at the acquisition date exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed interim period or financial year of the reporting issuer, excluding any investments in or advances to the business or related businesses as at that date.

(c) **The Profit or Loss Test.** The specified profit or loss calculated under the following subparagraph (i) exceeds 20 percent of the specified profit or loss calculated under the following subparagraph (ii):

(i) the reporting issuer's proportionate share of the consolidated specified profit or loss of the business or related businesses for the later of:

(A) the most recently completed financial year of the business or related businesses; or

(B) the 12 months ended on the last day of the most recently completed interim period of the business or related businesses;

(ii) the reporting issuer's consolidated specified profit or loss for the later of:

(A) the most recently completed financial year, without giving effect to the acquisition; or

(B) the 12 months ended on the last day of the most recently completed interim period of the reporting issuer, without giving effect to the acquisition.

(4.1) For the purposes of subsections (2) and (4), the reporting issuer must not remeasure its previously held equity interest in the business or related businesses.

(4.2) For the purposes of paragraphs (2)(b) and (4)(b), the reporting issuer's investments in and advances to the business or related businesses must include:

(a) the consideration transferred for the acquisition, measured in accordance with the issuer's GAAP;

(b) payments made in connection with the acquisition which do not constitute consideration transferred but which would not have been paid unless the acquisition had occurred; and

(c) contingent consideration for the acquisition measured in accordance with the issuer's GAAP.

(5) If an acquisition does not meet any of the significance tests under subsection (4), the acquisition is not a significant acquisition.

(6) Despite subsection (3), the significance of an acquisition of a business or related businesses may be re-calculated using financial statements for periods that ended after the acquisition date only if, after the acquisition date, the business or related businesses remained substantially intact and were not significantly reorganized, and no significant assets or liabilities were transferred to other entities.

(7) **Application of the Profit or Loss Test if a Loss Occurred** - For the purposes of paragraphs (2)(c) and (4)(c), if any of the reporting issuer, the business or the related businesses has incurred a loss, the significance test must be applied using the absolute value of the loss from continuing operations attributable to owners of the parent, adjusted to exclude income taxes.

(8) **Application of the Profit or Loss Test if Lower Than Average Profit or Loss for the Most Recent Year** - For the purposes of paragraph (2)(c) and clause (4)(c)(ii)(A), if the reporting issuer's consolidated specified profit or loss for the most recently completed financial year was lower by 20 percent or more than its average consolidated specified profit or loss for the three most recently completed financial years, the issuer may, subject to subsection (10), substitute the average consolidated specified profit or loss for the three most recently completed financial years in determining whether the significance test set out in paragraph (2)(c) or (4)(c) is satisfied.

(9) **Application of the Optional Profit or Loss Test if Lower Than Average Profit or Loss for the Most Recent Year** - For the purpose of clause (4)(c)(ii)(B) if the reporting issuer's consolidated specified profit or loss for the most recently completed 12-month period was lower by 20 percent or more than its average consolidated specified profit or loss for the three most recently completed 12-month periods, the issuer may, subject to subsection (10), substitute the average consolidated specified profit or loss for the three most recently completed 12-month periods in determining whether the significance test set out in paragraph (4)(c) is satisfied.

(10) **Lower than Average Profit or Loss of the Issuer if a Loss Occurred** - If the reporting issuer's consolidated specified profit or loss for either of the two earlier financial periods referred to in subsections (8) and (9) is a loss, the reporting issuer's specified profit or loss for that period is considered to be zero for the purposes of calculating the average consolidated specified profit or loss for the three financial periods.

(11) **Application of Significance Tests** - Multiple Investments in the Same Business - If a reporting issuer has made multiple investments in the same business, then for the purposes of applying subsections (2) and (4):

- (a) if the initial investment and one or more incremental investments were made during the same financial year, the investments must be aggregated and tested on a combined basis;

(b) if one or more incremental investments were made in a financial year subsequent to the financial year in which an initial or incremental investment was made and the initial or previous incremental investments are reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) on a combined basis to the incremental investments not reflected in audited financial statements of the reporting issuer previously filed; and

(c) if one or more incremental investments were made in a financial year subsequent to the financial year in which the initial investment was made and the initial investment is not reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) to the initial and incremental investments on a combined basis.

(11.1) Application of the Optional Profit or Loss Test based on Pro Forma Financial Information - For the purposes of calculating the optional profit or loss test under clause (4)(c)(ii)(A), a reporting issuer may use pro forma consolidated specified profit or loss for its most recently completed financial year that was included in a previously filed document if:

(a) the reporting issuer has made a significant acquisition of a business after its most recently completed financial year; and

(b) the previously filed document included:

(i) audited annual financial statements of that acquired business for the periods required by this Part; and

(ii) the pro forma financial information required by subsection 8.4(5) or (6).

(12) Application of Significance Tests - Related Businesses - In determining whether an acquisition of related businesses is a significant acquisition, related businesses acquired after the ending date of the most recently filed audited annual financial statements of the reporting issuer must be considered on a combined basis.

(13) Application of Significance Tests - Accounting Principles and Currency - For the purposes of calculating the significance tests in subsections (2) and (4), the amounts used for the business or related businesses must:

(a) subject to subsection (13.1), be based on the issuer's GAAP; and

(b) be translated into the same presentation currency as that used in the reporting issuer's financial statements.

(13.1) Application of Significance Tests - Exemption - Canadian GAAP Applicable to Private Enterprises - Paragraph 8.3(13)(a) does not apply to a venture issuer if:

(a) the financial statements for the business or related businesses referred to in subsections 8.3(2) and (4):

(i) are prepared in accordance with Canadian GAAP applicable to private enterprises; and

(ii) are prepared in a manner that consolidates any subsidiaries and accounts for significantly influenced investees and joint ventures using the equity method; and

(b) none of the accounting principles described in paragraphs 3.11(1)(a) through (e) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* were used to prepare financial statements for the business or related businesses referred to in subsections 8.3(2) and (4).

(14) Application of Significance Tests - Use of Unaudited Financial Statements - Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using unaudited financial statements of the business or related businesses that comply with section 3.11 of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* if the financial statements of the business or related businesses for the most recently completed financial year have not been audited.

(15) Application of Significance Tests - Use of Previous Audited Financial Statements - Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using the audited financial statements for the financial year immediately preceding the reporting issuer's most recently completed financial year if the reporting issuer has not been required to file, and has not filed, audited financial statements for its most recently completed financial year.

8.4 Financial Statement Disclosure for Significant Acquisitions

(1) **Comparative Annual Financial Statements** - If a reporting issuer is required to file a business acquisition report under section 8.2, subject to sections 8.6 through 8.11, the business acquisition report must include the following for each business or related businesses:

(a) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for the following periods:

(i) if the business has completed one financial year:

(A) the most recently completed financial year ended on or before the acquisition date; and

(B) the financial year immediately preceding the most recently completed financial year, if any; or

(ii) if the business has not completed one financial year, the financial period commencing on the date of formation and ending on a date not more than 45 days before the acquisition date;

(b) a statement of financial position as at the end of each of the periods specified in paragraph (a); and

(c) notes to the financial statements.

(2) **Audit** - The most recently completed financial period referred to in subsection (1) must be audited.

(3) **Interim Financial Report** - Subject to subsection (4) and sections 8.6 through 8.11, if a reporting issuer is required to include financial statements in a business acquisition report under subsection (1), the business acquisition report must include financial statements for:

- (a) the most recently completed interim period or other period that started the day after the date of the statement of financial position specified in paragraph (1)(b) and ended:
 - (i) in the case of an interim period, before the acquisition date; or
 - (ii) in the case of a period other than an interim period, after the interim period referred to in subparagraph (i) and on or before the acquisition date; and
- (b) a comparable period in the preceding financial year of the business.

(3.1) **Contents of Interim Financial Report - Canadian GAAP Applicable to Private Enterprises** - If a reporting issuer is required under subsection (3) to include an interim financial report in a business acquisition report and the financial statements for the business or related businesses acquired are prepared in accordance with Canadian GAAP applicable to private enterprises, as permitted under National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*, the interim financial report must include:

- (a) a balance sheet as at the end of the interim period and a balance sheet as at the end of the immediately preceding financial year, if any;
- (b) an income statement, a statement of retained earnings and a cash flow statement, all for the year-to-date interim period, and comparative financial information for the corresponding interim period in the immediately preceding financial year, if any; and
- (c) notes to the financial statements.

(4) **Earlier Financial Statements Permitted** - Despite subsection (3), the business acquisition report may include financial statements for a period ending not more than one interim period before the period referred to in subparagraph (3)(a)(i) if:

- (a) the business does not, or related businesses do not, constitute a material departure from the business or operations of the reporting issuer immediately before the acquisition; and
- (b) [Repealed];
- (c) either:
 - (i) the acquisition date is, and the reporting issuer files the business acquisition report, within the following time after the business's or related businesses' most recently completed interim period:

 - (B) 60 days, if the reporting issuer is a venture issuer; or

- (ii) the reporting issuer filed a document before the acquisition date that included financial statements for the business or related businesses that would have been required if the document were a prospectus, and those financial statements are for a period ending not more than one interim period before the interim period referred to in subparagraph (3)(a)(i).

(5) Pro Forma Financial Statements Required in a Business Acquisition Report - If a reporting issuer other than a venture issuer is required to include financial statements in a business acquisition report under subsection (1) or (3), the business acquisition report must include:

- (a) a pro forma statement of financial position of the reporting issuer:
 - (i) as at the date of the reporting issuer's most recent statement of financial position filed, that gives effect, as if they had taken place as at the date of the pro forma statement of financial position, to significant acquisitions that have been completed, but are not reflected in the reporting issuer's most recent statement of financial position for an annual or interim period; or
 - (ii) if the reporting issuer has not filed a statement of financial position for any annual or interim period, as at the date of the acquired business's most recent statement of financial position, that gives effect, as if they had taken place as at the date of the pro forma statement of financial position, to significant acquisitions that have been completed;
- (b) a pro forma income statement of the reporting issuer that gives effect to significant acquisitions completed since the beginning of the financial year referred to in clause (i)(A) or (ii)(A), as applicable, as if they had taken place at the beginning of that financial year, for each of the following financial periods:
 - (i) the reporting issuer's:
 - (A) most recently completed financial year for which it has filed financial statements; and
 - (B) interim period for which it has filed an interim financial report that started after the period in clause (A) and ended immediately before the acquisition date or, in the reporting issuer's discretion, after the acquisition date; or
 - (ii) if the reporting issuer has not filed a statement of comprehensive income for any annual or interim period, for the business's or related businesses":
 - (A) most recently completed financial year that ended before the acquisition date; and
 - (B) period for which financial statements are included in the business acquisition report under paragraph (3)(a); and
- (c) pro forma earnings per share based on the pro forma financial statements referred to in paragraph (b).

(6) Pro Forma Financial Statements based on Earlier Financial Statements Permitted - Despite paragraph (5)(a) and clauses (5)(b)(i)(B) and (5)(b)(ii)(B), if the reporting issuer relies on subsection (4), the business acquisition report may include:

- (a) a pro forma statement of financial position as at the date of the statement of financial position filed immediately before the reporting issuer's most recent statement of financial position filed; and
- (b) a pro forma income statement for the period ending not more than one interim period before the interim period referred to in clause (5)(b)(i)(B) or (5)(b)(ii)(B), as applicable.

(7) Preparation of Pro Forma Financial Statements - If a reporting issuer is required to include pro forma financial statements in a business acquisition report under subsection (5):

- (a) the reporting issuer must identify in the pro forma financial statements each significant acquisition, if the pro forma financial statements give effect to more than one significant acquisition;
- (b) the reporting issuer must include in the pro forma financial statements:
 - (i) adjustments attributable to each significant acquisition for which there are firm commitments and for which the complete financial effects are objectively determinable;
 - (ii) adjustments to conform amounts for the business or related businesses to the issuer's accounting policies; and
 - (iii) a description of the underlying assumptions on which the pro forma financial statements are prepared, cross-referenced to each related pro forma adjustment;
- (c) if the financial year-end of the business differs from the reporting issuer's year-end by more than 93 days, for the purpose of preparing the pro forma income statement for the reporting issuer's most recently completed financial year, the reporting issuer must construct an income statement of the business for a period of 12 consecutive months ending no more than 93 days before or after the reporting issuer's year-end, by adding the results for a subsequent interim period to a completed financial year of the business and deducting the comparable interim results for the immediately preceding year;
- (d) if a constructed income statement is required under paragraph (c), the pro forma financial statements must disclose the period covered by the constructed income statement on the face of the pro forma financial statements and must include a note stating that the financial statements of the business used to prepare the pro forma financial statements were prepared for the purpose of the pro forma financial statements and do not conform with the financial statements for the business included elsewhere in the business acquisition report;

(e) if a reporting issuer is required to prepare a pro forma income statement for an interim period required by paragraph (5)(b), and the pro forma income statement for the most recently completed financial year includes results of the business which are also included in the pro forma income statement for the interim period, the reporting issuer must disclose in a note to the pro forma financial statements the revenue, expenses and profit or loss from continuing operations included in each pro forma income statement for the overlapping period; and

(f) a constructed period referred to in paragraph (c) does not have to be audited.

(8) **Financial Statements of Related Businesses** - If a reporting issuer is required under subsection (1) to include financial statements for more than one business because the significant acquisition involves an acquisition of related businesses, the financial statements required under subsection (1) must be presented separately for each business, except for the periods during which the businesses have been under common control or management, in which case the reporting issuer may present the financial statements of the businesses on a combined basis.

8.5 [Repealed]

8.6 Exemption for Significant Acquisitions Accounted for Using the Equity Method

A reporting issuer is exempt from the requirements in section 8.4 if:

- (a) the acquisition is, or will be, of an equity investee;
- (b) the business acquisition report includes disclosure for the periods for which financial statements are otherwise required under subsection 8.4(1) that:
 - (i) summarizes financial information of the equity investee, including the aggregated amounts of assets, liabilities, revenue and profit or loss; and

 - (i) has been derived from audited financial statements of the equity investee; or
 - (ii) has been audited; and

8.7 [Repealed]

8.8 Exemption for Significant Acquisitions if Financial Year End Changed

If under section 8.4 a reporting issuer is required to provide financial statements for a business acquired and the business changed its financial year end during either of the financial years required to be included, the reporting issuer may include financial statements for the transition year in satisfaction of the financial statements for one of the years, provided that the transition year is at least nine months.

8.9 Exemption from Comparatives if Financial Statements Not Previously Prepared

A reporting issuer is not required to provide comparative information for an interim financial report required under subsection 8.4(3) for a business acquired if:

- (a) to a reasonable person it is impracticable to present prior-period information on a basis consistent with the most recently completed interim period of the acquired business;
- (b) the prior-period information that is available is presented; and
- (c) the notes to the interim financial report disclose the fact that the prior-period information has not been prepared on a basis consistent with the most recent interim financial information.

8.10 Acquisition of an Interest in an Oil and Gas Property

(1) **Asset Test** - Despite subsections 8.3(2) and 8.3(4), the asset tests in paragraphs 8.3(2)(a) and 8.3(4)(a) do not apply to an acquisition:

- (a) of a business that is an interest in an oil and gas property or related businesses that are interests in oil and gas properties; and
- (b) that is not of securities of another issuer, unless the vendor transferred the business referenced in paragraph (1)(a) to the other issuer and that other issuer:
 - (i) was created for the sole purpose of facilitating the acquisition; and
 - (ii) other than assets or operations related to the transferred business, has no:
 - (A) substantial assets; or
 - (B) operating history.

FORM 51-102F1
MANAGEMENT'S DISCUSSION & ANALYSIS

PART 1 GENERAL PROVISIONS

(a) What is MD&A?

MD&A is a narrative explanation, through the eyes of management, of how your company performed during the period covered by the financial statements, and of your company's financial condition and future prospects. MD&A complements and supplements your financial statements, but does not form part of your financial statements.

Your objective when preparing the MD&A should be to improve your company's overall financial disclosure by giving a balanced discussion of your company's financial performance and financial condition including, without limitation, such considerations as liquidity and capital resources - openly reporting bad news as well as good news. Your MD&A should:

- help current and prospective investors understand what the financial statements show and do not show;
- discuss material information that may not be fully reflected in the financial statements, such as contingent liabilities, defaults under debt, off-balance sheet financing arrangements, or other contractual obligations;
- discuss important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in the future; and
- provide information about the quality, and potential variability, of your company's profit or loss and cash flow, to assist investors in determining if past performance is indicative of future performance.

(b) Date of Information

In preparing the MD&A, you must take into account information available up to the date of the MD&A. If the date of the MD&A is not the date it is filed, you must ensure the disclosure in the MD&A is current so that it will not be misleading when it is filed.

(c) Use of "Company"

Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities.

(d) Explain Your Analysis

Explain the nature of, and reasons for, changes in your company's performance. Do not simply disclose the amount of change in a financial statement item from period to period. Avoid using boilerplate language. Your discussion should assist the reader to understand trends, events, transactions and expenditures.

(e) Focus on Material Information

Focus your MD&A on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material.

(f) What is Material?

Would a reasonable investor's decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material.

(g) Venture Issuers

If your company is a venture issuer, you have the option of meeting the requirement to provide interim MD&A under section 2.2 by instead providing quarterly highlights disclosure. Refer to Companion Policy 51-102CP for guidance on quarterly highlights.

If your company is a venture issuer without significant revenue from operations, in your MD&A including any quarterly highlights, focus your discussion and analysis of financial performance on expenditures and progress towards achieving your business objectives and milestones.

(h) Reverse Takeover Transactions

If an acquisition is a reverse takeover, the MD&A should be based on the reverse takeover acquirer's financial statements.

(i) [Repealed]

(j) Resource Issuers

If your company has mineral projects, your disclosure must comply with National Instrument 43-101 *Standards of Disclosure for Mineral Projects*, including the requirement that all scientific and technical disclosure be based on a technical report or other information prepared by or under the supervision of a qualified person.

If your company has oil and gas activities, your disclosure must comply with National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*.

(k) Numbering and Headings

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

(l) Omitting Information

You do not need to respond to any item in this Form that is inapplicable.

(m) Defined Terms

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of the local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP for further guidance.

This Form also uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. For further guidance, see subsections 1.4(7) and (8) of Companion Policy 51-102CP.

(n) Plain Language

Write the MD&A so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP for further guidance. If you use technical terms, explain them in a clear and concise manner.

(o) Available Prior Period Information

If you have not presented comparative financial information in your financial statements, in your MD&A you must provide prior period information relating to financial performance that is available.

(p) Use of “Financial Condition”

This Form uses the term “financial condition”. Financial condition reflects the overall health of the company and includes your company’s financial position (as shown on the statement of financial position) and other factors that may affect your company’s liquidity, capital resources and solvency.

PART 2 CONTENT OF MD&A**Item 1 Annual MD&A****1.1 Date**

Specify the date of your MD&A. The date of the MD&A must be no earlier than the date of the auditor’s report on the annual financial statements for your company’s most recently completed financial year.

1.2 Overall Performance

Provide an analysis of your company’s financial condition, financial performance and cash flows. Discuss known trends, demands, commitments, events or uncertainties that are reasonably likely to have an effect on your company’s business. Compare your company’s performance in the most recently completed financial year to the prior year’s performance. Your analysis should address at least the following:

- (b) other parts of your business if:
 - (i) they have a disproportionate effect on revenue, profit or loss or cash needs; or
 - (ii) there are any legal or other restrictions on the flow of funds from one part of your company’s business to another;

- (c) industry and economic factors affecting your company's performance;
- (d) why changes have occurred or expected changes have not occurred in your company's financial condition and financial performance; and
- (e) the effect of discontinued operations on current operations.

INSTRUCTIONS:

- (i) When explaining changes in your company's financial condition and results, include an analysis of the effect on your continuing operations of any acquisition, disposition, write-off, abandonment or other similar transaction.*
- (ii) A discussion of financial condition should include important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in the future.*
- (iii) Include information for a period longer than two financial years if it will help the reader to better understand a trend.*

1.3 Selected Annual Information

 - (d) total assets;

- (2) Discuss the factors that have caused period to period variations including discontinued operations, changes in accounting policies, significant acquisitions or dispositions and changes in the direction of your business, and any other information your company believes would enhance an understanding of, and would highlight trends in, financial position and financial performance.

INSTRUCTIONS:

- (ii) If the financial data provided was not prepared in accordance with the same accounting principles for all three years, focus the discussion on the important trends and risks that have affected the business.*

1.4 Discussion of Operations

Discuss your analysis of your company's operations for the most recently completed financial year, including:

- (c) cost of sales or gross profit;
- (d) for issuers that have significant projects that have not yet generated revenue, describe each project, including your company's plan for the project and the status of the project relative to that plan, and expenditures made and how these relate to anticipated timing and costs to take the project to the next stage of the project plan;
- (e) for resource issuers with producing mines or mines under development, identify any milestone, including, without limitation, mine expansion plans, productivity improvements, plans to develop a new deposit, or production decisions, and whether the milestone is based on a technical report filed under National Instrument 43-101 Standards of Disclosure for Mineral Projects;

Discuss the factors that have caused variations over the quarters necessary to understand general trends that have developed and the seasonality of the business.

INSTRUCTIONS:

- (i) *In the case of the annual MD&A, your most recently completed quarter is the quarter that ended on the last day of your most recently completed financial year.*
- (ii) *You do not have to provide information for a quarter prior to your company becoming a reporting issuer if your company has not prepared financial statements for those quarters.*

1.6 Liquidity

Provide an analysis of your company's liquidity, including:

- (a) its ability to generate sufficient amounts of cash and cash equivalents, in the short term and the long term, to maintain your company's capacity, to meet your company's planned growth or to fund development activities;

and how your company intends to cure the default or arrears or address the risk.

INSTRUCTIONS:

(i) *In discussing your company's ability to generate sufficient amounts of cash and cash equivalents you should describe sources of funding and the circumstances that could affect those sources that are reasonably likely to occur. Examples of circumstances that could affect liquidity are market or commodity price changes, economic downturns, defaults on guarantees and contractions of operations.*

(ii) *In discussing trends or expected fluctuations in your company's liquidity and liquidity risks associated with financial instruments you should discuss:*

(A) *provisions in debt, lease or other arrangements that could trigger an additional funding requirement or early payment. Examples of such situations are provisions linked to credit rating, profit or loss, cash flows or share price; and*

(B) *circumstances that could impair your company's ability to undertake transaction considered essential to operations. Examples of such circumstances are the inability to maintain investment grade credit rating, earnings per-share, cash flow or share price.*

(iv) *In discussing your company's statement of financial position conditions or profit or loss or cash flow items you should present a summary, in tabular form, of contractual obligations including payments due for each of the next five years and thereafter. The summary and table do not have to be provided if your company is a venture issuer. An example of a table that can be adapted to your company's particular circumstances follows:*

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 year	1 – 3 years	4 – 5 years	After 5 years
<i>Debt</i>					
<i>Finance Lease Obligations</i>					
<i>Operating Leases</i>					
<i>Purchase Obligations¹</i>

- (a) commitments for capital expenditures as of the date of your company's financial statements including:
 - (i) the amount, nature and purpose of these commitments;

 - (iii) expenditures not yet committed but required to maintain your company's capacity, to meet your company's planned growth or to fund development activities;
- (b) known trends or expected fluctuations in your company's capital resources, including expected changes in the mix and relative cost of these resources; and
- (c) sources of financing that your company has arranged but not yet used.

INSTRUCTIONS:

- (i) *Capital resources are financing resources available to your company and include debt, equity and any other financing arrangements that you reasonably consider will provide financial resources to your company.*

¹ 'Purchase Obligation' means an agreement to purchase goods or services that is enforceable and legally binding on your company that specifies all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction.

² 'Other Obligations' means other financial liabilities reflected on your company's statement of financial position.

(ii) *In discussing your company's commitments you should discuss any exploration and development, or research and development expenditures required to maintain properties or agreements in good standing.*

1.8 Off-Balance Sheet Arrangements

Discuss any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the financial performance or financial condition of your company including, without limitation, such considerations as liquidity and capital resources.

In your discussion of off-balance sheet arrangements you should discuss their business purpose and activities, their economic substance, risks associated with the arrangements, and the key terms and conditions associated with any commitments. Your discussion should include:

- (a) a description of the other contracting party(ies);
- (b) the effects of terminating the arrangement;
- (c) the amounts receivable or payable, revenue, expenses and cash flows resulting from the arrangement;
- (d) the nature and amounts of any other obligations or liabilities arising from the arrangement that could require your company to provide funding under the arrangement and the triggering events or circumstances that could cause them to arise; and
- (e) any known event, commitment, trend or uncertainty that may affect the availability or benefits of the arrangement (including any termination) and the course of action that management has taken, or proposes to take, in response to any such circumstances.

INSTRUCTIONS:

(i) *Off-balance sheet arrangements include any contractual arrangement with an entity not reported on a consolidated basis with your company, under which your company has:*

- (A) *any obligation under certain guarantee contracts;*
- (B) *a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for the assets;*
- (C) *any obligation under certain derivative instruments; or*
- (D) *any obligation held by your company in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to your company, or engages in leasing, hedging activities or, research and development services with your company.*

(ii) *Contingent liabilities arising out of litigation, arbitration or regulatory actions are not considered to be off-balance sheet arrangements.*

(iii) *Disclosure of off-balance sheet arrangements should cover the most recently completed financial year. However, the discussion should address changes from the previous year where such discussion is necessary to understand the disclosure.*

(iv) *The discussion need not repeat information provided in the notes to the financial statements if the discussion clearly cross-references to specific information in the relevant notes and integrates the substance of the notes into the discussion in a manner that explains the significance of the information not included in the MD&A.*

1.9 Transactions Between Related Parties

Discuss all transactions between related parties as defined by the issuer's GAAP.

INSTRUCTION:

In discussing your company's transactions between related parties, your discussion should include both qualitative and quantitative characteristics that are necessary for an understanding of the transactions' business purpose and economic substance. You should discuss:

- (A) the relationship and identify the related person or entities;*
- (B) the business purpose of the transaction;*
- (C) the recorded amount of the transaction and describe the measurement basis used; and*
- (D) any ongoing contractual or other commitments resulting from the transaction.*

1.10 Fourth Quarter

Discuss and analyze fourth quarter events or items that affected your company's financial condition, financial performance or cash flows, year-end and other adjustments, seasonal aspects of your company's business and dispositions of business segments. If your company has filed separate MD&A for its fourth quarter, you may satisfy this requirement by incorporating that MD&A by reference.

1.11 Proposed Transactions

Discuss the expected effect on financial condition, financial performance and cash flows of any proposed asset or business acquisition or disposition if your company's board of directors, or senior management who believe that confirmation of the decision by the board is probable, have decided to proceed with the transaction. Include the status of any required shareholder or regulatory approvals.

INSTRUCTION:

You do not have to disclose this information if, under section 7.1 of National Instrument 51-102, your company has filed a Form 51-102F3 Material Change Report regarding the transaction on a confidential basis and the report remains confidential.

1.12 Critical Accounting Estimates

If your company is not a venture issuer, provide an analysis of your company's critical accounting estimates. Your analysis should:

- (a) identify and describe each critical accounting estimate used by your company including:
 - (i) a description of the accounting estimate;
 - (ii) the methodology used in determining the critical accounting estimate;
 - (iii) the assumptions underlying the accounting estimate that relate to matters highly uncertain at the time the estimate was made;
 - (iv) any known trends, commitments, events or uncertainties that you reasonably believe will materially affect the methodology or the assumptions described; and
 - (v) if applicable, why the accounting estimate is reasonably likely to change from period to period and have a material impact on the financial presentation;
- (b) explain the significance of the accounting estimate to your company's financial position, changes in financial position and financial performance and identify the financial statement line items affected by the accounting estimate;
- (c) [Repealed];
- (d) discuss changes made to critical accounting estimates during the past two financial years including the reasons for the change and the quantitative effect on your company's overall financial performance and financial statement line items; and
- (e) identify the reportable segments of your company's business that the accounting estimate affects and discuss the accounting estimate on a reportable segment basis, if your company operates in more than one reportable segment.

INSTRUCTIONS:

- (i) *An accounting estimate is a critical accounting estimate only if:*
 - (A) *it requires your company to make assumptions about matters that are highly uncertain at the time the accounting estimate is made; and*
 - (B) *different estimates that your company could have used in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, would have a material impact on your company's financial condition, changes in financial condition or financial performance.*
- (ii) *As part of your description of each critical accounting estimate, in addition to qualitative disclosure, you should provide quantitative disclosure when quantitative information is reasonably available and would provide material information for investors. Similarly, in your discussion of assumptions underlying an accounting estimate that relates to matters highly uncertain at the time the estimate was made, you should provide quantitative disclosure when it is reasonably available and it would provide material information for investors. For example, quantitative information may include a sensitivity analysis or disclosure of the upper and lower ends of the range of estimates from which the recorded estimate was selected.*

1.13 Changes in Accounting Policies including Initial Adoption

Discuss and analyze any changes in your company's accounting policies, including:

- (a) for any accounting policies that you have adopted or expect to adopt subsequent to the end of your most recently completed financial year, including changes you have made or expect to make voluntarily and those due to a change in an accounting standard or a new accounting standard that you do not have to adopt until a future date, you should:
 - (i) describe the new standard, the date you are required to adopt it and, if determined, the date you plan to adopt it;
 - (ii) disclose the methods of adoption permitted by the accounting standard and the method you expect to use;
 - (iii) discuss the expected effect on your company's financial statements, or if applicable, state that you cannot reasonably estimate the effect; and
 - (iv) discuss the potential effect on your business, for example technical violations or default of debt covenants or changes in business practices; and
- (b) for any accounting policies that you have initially adopted during the most recently completed financial year, you should:
 - (i) describe the events or transactions that gave rise to the initial adoption of an accounting policy;
 - (ii) describe the accounting policy that has been adopted and the method of applying that policy;
 - (iii) discuss the effect resulting from the initial adoption of the accounting policy on your company's financial position, changes in financial position and financial performance;
 - (iv) if your company is permitted a choice among acceptable accounting policies:
 - (A) state that you made a choice among acceptable alternatives;
 - (B) identify the alternatives;
 - (C) describe why you made the choice that you did; and
 - (D) discuss the effect, where material, on your company's financial position, changes in financial position and financial performance under the alternatives not chosen; and
 - (v) if no accounting literature exists that covers the accounting for the events or transactions giving rise to your initial adoption of the accounting policy, explain your decision regarding which accounting policy to use and the method of applying that policy.

INSTRUCTION:

You do not have to present the discussion under paragraph 1.13(b) for the initial adoption of accounting policies resulting from the adoption of new accounting standards.

1.14 Financial Instruments and Other Instruments

For financial instruments and other instruments:

- (a) discuss the nature and extent of your company's use of, including relationships among, the instruments and the business purposes that they serve;
- (b) describe and analyze the risks associated with the instruments;
- (c) describe how you manage the risks in paragraph (b), including a discussion of the objectives, general strategies and instruments used to manage the risks, including any hedging activities;
- (d) disclose the financial statement classification and amounts of income, expenses, gains and losses associated with the instrument; and
- (e) discuss the significant assumptions made in determining the fair value of financial instruments, the total amount and financial statement classification of the change in fair value of financial instruments recognized in profit or loss for the period, and the total amount and financial statement classification of deferred or unrecognized gains and losses on financial instruments.

INSTRUCTIONS:

- (i) *"Other instruments" are instruments that may be settled by the delivery of non-financial assets. A commodity futures contract is an example of an instrument that may be settled by delivery of non-financial assets.*
- (ii) *Your discussion under paragraph 1.14(a) should enhance a reader's understanding of the significance of recognized and unrecognized instruments on your company's financial position, financial performance and cash flows. The information should also assist a reader in assessing the amounts, timing, and certainty of future cash flows associated with those instruments. Also discuss the relationship between liability and equity components of convertible debt instruments.*
- (iii) *For purposes of paragraph 1.14(c), if your company is exposed to significant price, credit or liquidity risks, consider providing a sensitivity analysis or tabular information to help readers assess the degree of exposure. For example, an analysis of the effect of a hypothetical change in the prevailing level of interest or currency rates on the fair value of financial instruments and future profit or loss and cash flows may be useful in describing your company's exposure to price risk.*
- (iv) *For purposes of paragraph 1.14(d), disclose and explain the revenue, expenses, gains and losses from hedging activities separately from other activities.*

1.15 Other MD&A Requirements

- (a) Your MD&A must disclose that additional information relating to your company, including your company's AIF if your company files an AIF, is on SEDAR at www.sedar.com;
- (b) Your MD&A must also provide the information required in the following sections of National Instrument 51-102, if applicable:
 - (i) Section 5.3 - Additional Disclosure for Venture Issuers without Significant Revenue;
 - (ii) Section 5.4 - Disclosure of Outstanding Share Data; and
 - (iii) Section 5.7 - Additional Disclosure for Reporting Issuers with Significant Equity Investees.

(c) Your MD&A must include the MD&A disclosure required by National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* and, as applicable, Form 52-109F1 *Certification of Annual Filings - Full Certificate*, Form 52-109F1R *Certification of Refiled Annual Filings*, or Form 52-109F1 AIF *Certification of Annual Filings in Connection with Voluntarily Filed AIF*.

Item 2 Interim MD&A

2.1 Date

Specify the date of your interim MD&A.

2.2 Interim MD&A

Interim MD&A must update your company's annual MD&A for all disclosure required by Item 1 except section 1.3. This disclosure must include:

- (a) a discussion of your analysis of:
 - (i) current quarter and year-to-date results including a comparison of financial performance to the corresponding periods in the previous year;
 - (i.i) a comparison of cash flows to the corresponding period in the previous year;
 - (ii) changes in financial performance and elements of profit or loss attributable to owners of the parent that are not related to ongoing business operations;
 - (iii) any seasonal aspects of your company's business that affect its financial position, financial performance or cash flows; and
- (b) a comparison of your company's interim financial condition to your company's financial condition as at the most recently completed financial year-end.

INSTRUCTION:

- (i) *If the first MD&A you file in this Form (your first MD&A) is an interim MD&A, you must provide all the disclosure called for in Item 1 in your first MD&A. Base the disclosure, except the disclosure for section 1.3, on your interim financial report. Since you do not have to update the disclosure required in section 1.3 in your interim MD&A, your first MD&A will provide disclosure under section 1.3 based on your annual financial statements. Your subsequent interim MD&A for that year will update your first interim MD&A.*
- (ii) *For the purposes of paragraph 2.2(b), you may assume the reader has access to your annual MD&A or your first MD&A. You do not have to duplicate the discussion and analysis of financial condition in your annual MD&A or your first MD&A. For example, if economic and industry factors are substantially unchanged you may make a statement to this effect.*
- (iii) *For the purposes of subparagraph 2.2(a)(i), you should generally give prominence to the current quarter.*
- (iv) *In discussing your company's statement of financial position conditions or profit or loss or cash flow items for an interim period, you do not have to present a summary, in tabular form, of all known contractual obligations contemplated under section 1.6. Instead, you should disclose material changes in the specified contractual obligations during the interim period.*

(v) *Interim MD&A prepared in accordance with Item 2 is not required for your company's fourth quarter as relevant fourth quarter content will be contained in your company's annual MD&A prepared in accordance with Item 1 (see section 1.10).*

(vi) *In your interim MD&A, update the summary of quarterly results in section 1.5 by providing summary information for the eight most recently completed quarters.*

(vii) *Your annual MD&A may not include all the information in Item 1 if you were a venture issuer as at the end of your last financial year. If you ceased to be a venture issuer during your interim period, you do not have to restate the MD&A you previously filed. Instead, provide the disclosure for the additional sections in Item 1 that you were exempt from as a venture issuer in the next interim MD&A you file. Base your disclosure for those sections on your interim financial report.*

2.2.1 Quarterly Highlights

If your company is a venture issuer, you have the option of meeting the requirement to provide interim MD&A under section 2.2 by instead providing a short discussion of all material information about your company's operations, liquidity and capital resources. Include in your discussion:

- an analysis of your company's financial condition, financial performance and cash flows and any significant factors that have caused period to period variations in those measures;
- known trends, risks or demands;
- major operating milestones;
- commitments, expected or unexpected events, or uncertainties that have materially affected your company's operations, liquidity and capital resources in the interim period or are reasonably likely to have a material effect going forward;
- any significant changes from disclosure previously made about how the company was going to use proceeds from any financing and an explanation of variances;
- any significant transactions between related parties that occurred in the interim period.

INSTRUCTIONS

(i) *If the first MD&A you file in this Form (your first MD&A) is an interim MD&A, you cannot use quarterly highlights. Rather, you must provide all the disclosure called for in Item 1 in your first MD&A. Base the disclosure, except the disclosure for section 1.3, on your interim financial report. Since you do not have to update the disclosure required in section 1.3 in your interim MD&A, your first MD&A will provide disclosure under section 1.3 based on your annual financial statements.*

(ii) *Provide a short, focused discussion that gives a balanced and accurate picture of the company's business activities during the interim period. The purpose of the quarterly highlights reporting is to provide a brief narrative update about the business activities, financial condition, financial performance and cash flow of the company. While summaries are to be clear and concise, they are subject to the normal prohibitions against false and misleading statements.*

(iii) *Quarterly highlights prepared in accordance with section 2.2.1 are not required for your company's fourth quarter as relevant fourth quarter content will be contained in your company's annual MD&A prepared in accordance with Item 1 (see section 1.10).*

(iv) *You must title your quarterly highlights 'Interim MD&A - Quarterly Highlights'.*

(v) *If there was a change to the company's accounting policies during the interim period, include a description of the material effects resulting from the change.*

2.2.2 Quarterly Highlights - Transition

Section 2.2.1 applies to an issuer in respect of a financial year beginning on or after July 1, 2015.

2.3 Other Interim MD&A Requirements

Your interim MD&A must include the interim MD&A disclosure required by National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* and, as applicable, Form 52-109F2 *Certification of Interim Filings - Full Certificate* or Form 52-109F2R *Certification of Refiled Interim Filings*.

FORM 51-102F2 ANNUAL INFORMATION FORM

PART 1 GENERAL PROVISIONS

(a) What is an AIF?

An AIF (annual information form) is required to be filed annually by certain companies under Part 6 of National Instrument 51-102. An AIF is a disclosure document intended to provide material information about your company and its business at a point in time in the context of its historical and possible future development. Your AIF describes your company, its operations and prospects, risks and other external factors that impact your company specifically.

This disclosure is supplemented throughout the year by subsequent continuous disclosure filings including news releases, material change reports, business acquisition reports, financial statements and management discussion and analysis.

(b) Date of Information

Unless otherwise specified in this Form, the information in your AIF must be presented as at the last day of your company's most recently completed financial year. If necessary, you must update the information in the AIF so it is not misleading when it is filed. For information presented as at any date other than the last day of your company's most recently completed financial year, specify the relevant date in the disclosure.

(c) Use of "Company"

Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities.

All references to “your company” in Items 4, 5, 6, 12, 13, 15 and 16 of this Form apply collectively to your company, your company’s subsidiaries, joint ventures to which your company is a party and entities in which your company has an investment accounted for by the equity method.

(d) Focus on Material Information

Focus your AIF on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material. However, you must disclose all corporate and individual cease trade orders, bankruptcies, penalties and sanctions in accordance with Item 10 and section 12.2 of this Form.

(e) What is Material?

Would a reasonable investor’s decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material.

(f) Incorporating Information by Reference

You may incorporate information required to be included in your AIF by reference to another document, other than a previous AIF. Clearly identify the referenced document or any excerpt of it that you incorporate into your AIF. Unless you have already filed the referenced document or excerpt, including any documents incorporated by reference into the document or excerpt, under your SEDAR profile, you must file it with your AIF. You must also disclose that the document is on SEDAR at www.sedar.com.

(g) Defined Terms

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of a local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP for further guidance.

This Form also uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. For further guidance, see subsections 1.4(7) and (8) of Companion Policy 51-102CP.

(h) Plain Language

Write the AIF so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP for further guidance. If you use technical terms, explain them in a clear and concise manner.

(i) Special Purpose Entities

If your company is a special purpose entity, you may have to modify the disclosure items in this Form to reflect the special purpose nature of your company’s business.

(j) Numbering and Headings

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

(k) Omitting Information

You do not need to respond to any item in this Form that is inapplicable and you may omit negative answers.

14.1 If action is to be taken on any matter to be submitted to the meeting of securityholders other than the approval of annual financial statements, briefly describe the substance of the matter, or related groups of matters, except to the extent described under the foregoing items, in sufficient detail to enable reasonable securityholders to form a reasoned judgment concerning the matter. Without limiting the generality of the foregoing, such matters include alterations of share capital, charter amendments, property acquisitions or dispositions, reverse takeovers, amalgamations, mergers, arrangements or reorganizations and other similar transactions.

14.2 If the action to be taken is in respect of a significant acquisition as determined under Part 8 of National Instrument 51-102 under which securities of the acquired business are being exchanged for the company's securities, or in respect of a restructuring transaction under which securities are to be changed, exchanged, issued or distributed, include disclosure for:

- (a) the company, if the company has not filed all documents required under National Instrument 51-102;
- (b) the business being acquired, if the matter is a significant acquisition;
- (c) each entity, other than the company, whose securities are being changed, exchanged, issued or distributed, if:

14.4 Section 14.2 does not apply to an information circular that is sent to holders of voting securities of a reporting issuer soliciting proxies otherwise than on behalf of management of the reporting issuer (a "dissident circular"), unless the sender of the dissident circular is proposing a significant acquisition or restructuring transaction involving the reporting issuer and the sender, under which securities of the sender, or an affiliate of the sender, are to be distributed or transferred to securityholders of the reporting issuer. However, a sender of a dissident circular shall include in the dissident circular the disclosure required by section 14.2 if the sender of the dissident circular is proposing a significant acquisition or restructuring transaction under which securities of the sender or securities of an affiliate of the sender are to be changed, exchanged, issued or distributed.

14.5 A company satisfies section 14.2 if it prepares an information circular in connection with a Qualifying Transaction, for a company that is a CPC, or in connection with a Reverse Take-Over (as Qualifying Transaction, CPC and Reverse Take-Over are defined in the TSX Venture Exchange policies) provided that the company complies with the policies and requirements of the TSX Venture Exchange in respect of that Qualifying Transaction or Reverse Take-Over.

INSTRUCTION:

For the purposes of section 14.2, a securityholder will not be considered to have an interest in an entity after an acquisition or restructuring transaction is completed if the securityholder will only hold a redeemable security that is immediately redeemed for cash.

1.3 Preparing the form

(1) All compensation to be included

- (a) When completing this form, the company must disclose all compensation paid, payable, awarded, granted, given, or otherwise provided, directly or indirectly, by the company, or a subsidiary of the company, to each NEO and director, in any capacity, including, for greater certainty, all plan and non-plan compensation, direct and indirect pay, remuneration, economic or financial award, reward, benefit, gift or perquisite paid, payable, awarded, granted, given, or otherwise provided to the NEO or director for services provided and for services to be provided, directly or indirectly, to the company or a subsidiary of the company.

(b) Despite paragraph (a), in respect of the Canada Pension Plan, similar government plans, and group life, health, hospitalization, medical reimbursement and relocation plans that do not discriminate in scope, terms or operation and are generally available to all salaried employees, the company is not required to disclose as compensation:

- (i) any contributions or premiums paid or payable by the company on behalf of an NEO, or of a director, under these plans; and
- (ii) any cash, securities, similar instruments or any other property received by an NEO, or by a director, under these plans.

(c) For greater certainty, the plans described in paragraph (b) include plans that provide for such benefits after retirement.

(d) If an item of compensation is not specifically mentioned or described in this form, it is to be disclosed in column (h) ("All other compensation") of the summary compensation table in section 3.1.

(2) Departures from format

(a) Although the required disclosure must be made in accordance with this form, the disclosure may:

- (i) omit a table, column of a table, or other prescribed information, if it does not apply; and
- (ii) add a table, column, or other information if:
 - (A) necessary to satisfy the objective in section 1.1; and
 - (B) to a reasonable person, the table, column, or other information does not detract from the prescribed information in the summary compensation table in section 3.1.

(b) Despite paragraph (a), a company must not add a column in the summary compensation table in section 3.1.

(3) Information for full financial year

If an NEO acted in that capacity for the company during part of the financial year for which disclosure is required in the summary compensation table, provide details of all of the compensation that the NEO received from the company for that financial year. This includes compensation the NEO earned in any other position with the company during the financial year.

Do not annualize compensation in a table for any part of a year when an NEO was not in the service of the company. Annualized compensation may be disclosed in a footnote.

(4) External management companies

(a) If one or more individuals acting as an NEO of the company are not employees of the company, disclose the names of those individuals.

(b) If an external management company employs or retains one or more individuals acting as NEOs or directors of the company and the company has entered into an understanding, arrangement or agreement with the external management company to provide executive management services to the company directly or indirectly, disclose any compensation that:

- (i) **Repealed.** 17 Feb 2012 SR 4/2012 s3.
- (ii) the external management company paid to the individual that is attributable to the services they provided to the company directly or indirectly.

(c) If an external management company provides the company's executive management services and also provides executive management services to another company, disclose the entire compensation the external management company paid to the individual acting as an NEO or director, or acting in a similar capacity, in connection with services the external management company provided to the company, or the parent or a subsidiary of the company. If the management company allocates the compensation paid to an NEO or director, disclose the basis or methodology used to allocate this compensation.

Commentary

An NEO may be employed by an external management company and provide services to the company under an understanding, arrangement or agreement. In this case, references in this form to the CEO or CFO are references to the individuals who performed similar functions to that of the CEO or CFO. They are generally the same individuals who signed and filed annual and interim certificates to comply with National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings.

(5) Director and NEO compensation

Disclose any compensation awarded to, earned by, paid to, or payable to each director and NEO, in any capacity with respect to the company. Compensation to directors and NEOs must include all compensation from the company and its subsidiaries.

Disclose any compensation awarded to, earned by, paid to, or payable to, an NEO, or director, in any capacity with respect to the company, by another person or company.

(6) Determining if an individual is an NEO

For the purpose of calculating total compensation awarded to, earned by, paid to, or payable to an individual under paragraph (c) of the definition of NEO:

- (a) use the total compensation that would be reported under column (i) of the summary compensation table required by section 3.1 for each executive officer, as if that executive officer were an NEO for the company's most recently completed financial year; and
- (b) exclude from the calculation:
 - (i) any compensation that would be reported under column (g) of the summary compensation table required by section 3.1;
 - (ii) any incremental payments, payables, and benefits to an executive officer that are triggered by, or result from, a scenario listed in section 6.1 that occurred during the most recently completed financial year; and
 - (iii) any cash compensation that relates to foreign assignments that is specifically intended to offset the impact of a higher cost of living in the foreign location, and is not otherwise related to the duties the executive officer performs for the company.

Commentary

The \$150,000 threshold in paragraph (c) of the definition of NEO only applies when determining who is an NEO in a company's most recently completed financial year. If an individual is an NEO in the most recently completed financial year, disclosure of compensation in prior years must be provided if otherwise required by this form even if total compensation in a prior year is less than \$150,000 in that year.

(7) Compensation to associates

Disclose any awards, earnings, payments, or payables to an associate of an NEO, or of a director, as a result of compensation awarded to, earned by, paid to, or payable to the NEO or the director, in any capacity with respect to the company.

(8) New reporting issuers

(a) Subject to paragraph (b) and subsection 3.1(1), disclose information in the summary compensation table for the three most recently completed financial years since the company became a reporting issuer.

(b) Do not provide information for a completed financial year if the company was not a reporting issuer at any time during the most recently completed financial year, unless the company became a reporting issuer as a result of a restructuring transaction.

(c) If the company was not a reporting issuer at any time during the most recently completed financial year and the company is completing the form because it is preparing a prospectus, discuss all significant elements of the compensation to be awarded to, earned by, paid to, or payable to NEOs of the company once it becomes a reporting issuer, to the extent this compensation has been determined.

(9) Currencies

Companies must report amounts required by this form in Canadian dollars or in the same currency that the company uses for its financial statements. A company must use the same currency in the tables in sections 3.1, 4.1, 4.2, 5.1, 5.2 and 7.1 of this form.

If compensation awarded to, earned by, paid to, or payable to an NEO was in a currency other than the currency reported in the prescribed tables of this form, state the currency in which compensation was awarded, earned, paid, or payable, disclose the currency exchange rate and describe the methodology used to translate the compensation into Canadian dollars or the currency that the company uses in its financial statements.

(10) Plain language

Information required to be disclosed under this form must be clear, concise, and presented in such a way that it provides a reasonable person an understanding of:

- (a) how decisions about NEO and director compensation are made; and
- (b) how specific NEO and director compensation relates to the overall stewardship and governance of the company.

Commentary

Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP Continuous Disclosure Obligations for further guidance.

ITEM 2 - COMPENSATION DISCUSSION AND ANALYSIS**2.1 Compensation discussion and analysis**

(1) Describe and explain all significant elements of compensation awarded to, earned by, paid to, or payable to NEOs for the most recently completed financial year. Include the following:

- (a) the objectives of any compensation program or strategy;
- (b) what the compensation program is designed to reward;
- (c) each element of compensation;
- (d) why the company chooses to pay each element;
- (e) how the company determines the amount (and, where applicable, the formula) for each element; and
- (f) how each element of compensation and the company's decisions about that element fit into the company's overall compensation objectives and affect decisions about other elements.

(2) If applicable, describe any new actions, decisions or policies that were made after the end of the most recently completed financial year that could affect a reasonable person's understanding of an NEO's compensation for the most recently completed financial year.

(3) If applicable, clearly state the benchmark and explain its components, including the companies included in the benchmark group and the selection criteria.

(4) If applicable, disclose performance goals or similar conditions that are based on objective, identifiable measures, such as the company's share price or earnings per share. If performance goals or similar conditions are subjective, the company may describe the performance goal or similar condition without providing specific measures.

If the company discloses performance goals or similar conditions that are non-GAAP financial measures, explain how the company calculates these performance goals or similar conditions from its financial statements.

Exemption

The company is not required to disclose performance goals or similar conditions in respect of specific quantitative or qualitative performance-related factors if a reasonable person would consider that disclosing them would seriously prejudice the company's interests.

For the purposes of this exemption, a company's interest's are not considered to be seriously prejudiced solely by disclosing performance goals or similar conditions if those goals or conditions are based on broad corporate-level financial performance metrics which include earnings per share, revenue growth, and earnings before interest, taxes, depreciation and amortization.

This exemption does not apply if it has publicly disclosed the performance goals or similar conditions.

If the company is relying on this exemption, state this fact and explain why disclosing the performance goals or similar conditions would seriously prejudice the company's interests.

If the company does not disclose specific performance goals or similar conditions, state what percentage of the NEO's total compensation relates to this undisclosed information and how difficult it could be for the NEO, or how likely it will be for the company, to achieve the undisclosed performance goal or similar condition.

(5) Disclose whether or not the board of directors, or a committee of the board, considered the implications of the risks associated with the company's compensation policies and practices. If the implications were considered, disclose the following:

- (a) the extent and nature of the board of directors' or committee's role in the risk oversight of the company's compensation policies and practices;
- (b) any practices the company uses to identify and mitigate compensation policies and practices that could encourage an NEO or individual at a principal business unit or division to take inappropriate or excessive risks;
- (c) any identified risks arising from the company's compensation policies and practices that are reasonably likely to have a material adverse effect on the company.

(6) Disclose whether or not an NEO or director is permitted to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

Commentary

1. *The information disclosed under section 2.1 will depend on the facts. Provide enough analysis to allow a reasonable person to understand the disclosure elsewhere in this form. Describe the significant principles underlying policies and explain the decisions relating to compensation provided to an NEO. Disclosure that merely describes the process for determining compensation or compensation already awarded, earned, paid, or payable is not adequate. The information contained in this section should give readers a sense of how compensation is tied to the NEO's performance. Avoid boilerplate language.*

2. *If the company's process for determining executive compensation is very simple, for example, the company relies solely on board discussion without any formal objectives, criteria and analysis, then make this clear in the discussion.*

3. *If the company used any benchmarking in determining compensation or any element of compensation, include the benchmark group and describe why the benchmark group and selection criteria are considered by the company to be relevant.*

4. *The following are examples of items that will usually be significant elements of disclosure concerning compensation:*

- *contractual or non-contractual arrangements, plans, process changes or any other matters that might cause the amounts disclosed for the most recently completed financial year to be misleading if used as an indicator of expected compensation levels in future periods;*
- *the process for determining perquisites and personal benefits;*
- *policies and decisions about the adjustment or recovery of awards, earnings, payments, or payables if the performance goal or similar condition on which they are based is restated or adjusted to reduce the award, earning, payment, or payable;*

- *the basis for selecting events that trigger payment for any arrangement that provides for payment at, following or in connection with any termination or change of control;*
- *any waiver or change to any specified performance goal or similar condition to payout for any amount, including whether the waiver or change applied to one or more specified NEOs or to all compensation subject to the performance goal or similar condition;*
- *whether the board of directors can exercise a discretion, either to award compensation absent attainment of the relevant performance goal or similar condition or to reduce or increase the size of any award or payout, including if they exercised discretion and whether it applied to one or more named executive officers;*
- *whether the company will be making any significant changes to its compensation policies and practices in the next financial year;*
- *the role of executive officers in determining executive compensation; and*
- *performance goals or similar conditions in respect of specific quantitative or qualitative performance-related factors for NEOs.*

5. *The following are examples of situations that could potentially encourage an executive officer to expose the company to inappropriate or excessive risks:*

- *compensation policies and practices at a principal business unit of the company or a subsidiary of the company that are structured significantly differently than others within the company;*
- *compensation policies and practices for certain executive officers that are structured significantly differently than other executive officers within the company;*
- *compensation policies and practices that do not include effective risk management and regulatory compliance as part of the performance metrics used in determining compensation;*
- *compensation policies and practices where the compensation expense to executive officers is a significant percentage of the company's revenue;*
- *compensation policies and practices that vary significantly from the overall compensation structure of the company;*
- *compensation policies and practices where incentive plan awards are awarded upon accomplishment of a task while the risk to the company from that task extends over a significantly longer period of time;*
- *compensation policies and practices that contain performance goals or similar conditions that are heavily weighed to short-term rather than long-term objectives;*
- *incentive plan awards that do not provide a maximum benefit or payout limit to executive officers.*

The examples above are not exhaustive and the situations to consider will vary depending upon the nature of the company's business and the company's compensation policies and practices.

2.2 Performance graph

- (a) This section does not apply to:
- (i) venture issuers;
 - (ii) companies that have distributed only debt securities or non-convertible, non-participating preferred securities to the public; and
 - (iii) companies that were not reporting issuers in any jurisdiction in Canada for at least 12 calendar months before the end of their most recently completed financial year, other than companies that became new reporting issuers as a result of a restructuring transaction.
- (b) Provide a line graph showing the company's cumulative total shareholder return over the five most recently completed financial years. Assume that \$100 was invested on the first day of the five-year period. If the company has been a reporting issuer for less than five years, use the period that the company has been a reporting issuer.

Compare this to the cumulative total return of at least one broad equity market index that, to a reasonable person, would be an appropriate reference point for the company's return. If the company is included in the S&P/TSX Composite Total Return Index, use that index. In all cases, assume that dividends are reinvested.

Discuss how the trend shown by this graph compares to the trend in the company's compensation to executive officers reported under this form over the same period.

Commentary

For section 2.2, companies may also include other relevant performance goals or similar conditions.

2.3 Share-based and option-based awards

Describe the process the company uses to grant share-based or option-based awards to executive officers. Include the role of the compensation committee and executive officers in setting or amending any equity incentive plan under which a share-based or option-based award is granted. State whether previous grants are taken into account when considering new grants.

2.4 Compensation governance

- (1) Describe any policies and practices adopted by the board of directors to determine the compensation for the company's directors and executive officers.
- (2) If the company has established a compensation committee:
- (a) disclose the name of each committee member and, in respect of each member, state whether or not the member is independent or not independent;
 - (b) disclose whether or not one or more of the committee members has any direct experience that is relevant to his or her responsibilities in executive compensation;

- (c) describe the skills and experience that enable the committee to make decisions on the suitability of the company's compensation policies and practices; and
 - (d) describe the responsibilities, powers and operation of the committee.
- (3) If a compensation consultant or advisor has, at any time since the company's most recently completed financial year, been retained to assist the board of directors or the compensation committee in determining compensation for any of the company's directors or executive officers:
- (a) state the name of the consultant or advisor and a summary of the mandate the consultant or advisor has been given;
 - (b) disclose when the consultant or advisor was originally retained; and
 - (c) if the consultant or advisor has provided any services to the company, or to its affiliated or subsidiary entities, or to any of its directors or members of management, other than or in addition to compensation services provided for any of the company's directors or executive officers:
 - (i) state this fact and briefly describe the nature of the work;
 - (ii) disclose whether the board of directors or compensation committee must pre-approve other services the consultant or advisor, or any of its affiliates, provides to the company at the request of management; and
 - (d) for each of the two most recently completed financial years, disclose:
 - (i) under the caption 'Executive Compensation-Related Fees', the aggregate fees billed by each consultant or advisor, or any of its affiliates, for services related to determining compensation for any of the company's directors and executive officers; and
 - (ii) under the caption 'All Other Fees', the aggregate fees billed for all other services provided by each consultant or advisor, or any of its affiliates, that are not reported under subparagraph (i) and include a description of the nature of the services comprising the fees disclosed under this category.

Commentary

For section 2.4, a director is independent if he or she would be independent within the meaning of section 1.4 of NI 52-110 Audit Committees.

ITEM 3 - SUMMARY COMPENSATION TABLE

3.1 Summary compensation table

(1) For each NEO in the most recently completed financial year, complete this table for each of the company's three most recently completed financial years that end on or after December 31, 2008.

Name and Principal Position (a)	Year (b)	Salary (\$) (c)	Share-based Awards (\$) (d)	Option-based Awards (\$) (e)	Non-equity incentive plan compensation (\$) (f)		Pension value (\$) (g)	All other compensation (\$) (h)	Total compensation (\$) (i)
					Annual incentive plans (f1)	Long-term incentive plans (f2)			
CEO	____ ____								
CFO	____ ____								
A	____ ____								
B	____ ____								
C	____ ____								

Commentary

Under subsection (1), a company is not required to disclose comparative period disclosure in accordance with the requirements of either Form 51-102F6 Statement of Executive Compensation, which came into force on March 30, 2004, as amended, or this form, in respect of a financial year ending before December 31, 2008.

(2) In column (c), include the dollar value of cash and non-cash base salary an NEO earned during a financial year covered in the table (a covered financial year). If the company cannot calculate the amount of salary earned in a financial year, disclose this in a footnote, along with the reason why it cannot be determined. Restate the salary figure the next time the company prepares this form, and explain what portion of the restated figure represents an amount that the company could not previously calculate.

- (3) In column (d), disclose the dollar amount based on the fair value of the award on the grant date for a covered financial year.
- (4) In column (e), disclose the dollar amount based on the fair value of the award on the grant date for a covered financial year. Include option-based awards both with or without tandem share appreciation rights.
- (5) For an award disclosed in column (d) or (e), in a narrative after the table:
 - (a) describe the methodology used to calculate the fair value of the award on the grant date, disclose the key assumptions and estimates used for each calculation, and explain why the company chose that methodology; and
 - (b) if the fair value of the award on the grant date is different from the fair value determined in accordance with IFRS 2 Share-based Payment (accounting fair value), state the amount of the difference and explain the reasons for the difference.

Commentary

1. *This commentary applies to subsections (3), (4) and (5).*
2. *The value disclosed in columns (d) and (e) of the summary compensation table should reflect what the company paid, made payable, awarded, granted, gave or otherwise provided as compensation on the grant date (fair value of the award) as set out in comment 3, below. This value might differ from the value reported in the issuer's financial statements.*
3. *While compensation practices vary, there are generally two approaches that boards of directors use when setting compensation. A board of directors may decide the value in securities of the company to be awarded or paid as compensation. Alternatively, a board of directors may decide the portion of the potential ownership of the company to be transferred as compensation. A fair value ascribed to the award will normally result from these approaches.*

A company may calculate this value either in accordance with a valuation methodology identified in IFRS 2 Share-based Payment or in accordance with another methodology set out in comment 5 below.
4. *In some cases, the fair value of the award disclosed in columns (d) and (e) might differ from the accounting fair value. For financial statement purposes, the accounting fair value amount is amortized over the service period to obtain an accounting cost (accounting compensation expense), adjusted at year end as required.*
5. *While the most commonly used methodologies for calculating the value of most types of awards are the Black-Scholes-Merton model and the binomial lattice model, companies may choose to use another valuation methodology if it produces a more meaningful and reasonable estimate of fair value.*
6. *The summary compensation table requires disclosure of an amount even if the accounting compensation expense is zero. The amount disclosed in the table should reflect the fair value of the award following the principles described under comments 2 and 3, above.*
7. *Column (d) includes common shares, restricted shares, restricted share units, deferred share units, phantom shares, phantom share units, common share equivalent units, stock, and similar instruments that do not have option-like features.*

(6) In column (e), include the incremental fair value if, at any time during the covered financial year, the company has adjusted, amended, cancelled, replaced or significantly modified the exercise price of options previously awarded to, earned by, paid to, or payable to, an NEO. The repricing or modification date must be determined in accordance with IFRS 2 Share-based Payment. The methodology used to calculate the incremental fair value must be the same methodology used to calculate the initial grant.

This requirement does not apply to any repricing that equally affects all holders of the class of securities underlying the options and that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction.

(7) Include a footnote to the table quantifying the incremental fair value of any adjusted, amended, cancelled, replaced or significantly modified options that are included in the table.

(8) In column (f), include the dollar value of all amounts earned for services performed during the covered financial year that are related to awards under non-equity incentive plans and all earnings on any such outstanding awards.

(a) If the relevant performance goal or similar condition was satisfied during a covered financial year (including for a single year in a plan with a multi-year performance goal or similar condition), report the amounts earned for that financial year, even if they are payable at a later date. The company is not required to report these amounts again in the summary compensation table when they are actually paid to an NEO.

(b) Include a footnote describing and quantifying all amounts earned on non-equity incentive plan compensation, whether they were paid during the financial year, were payable but deferred at the election of an NEO, or are payable by their terms at a later date.

(c) Include any discretionary cash awards, earnings, payments, or payables that were not based on pre-determined performance goals or similar conditions that were communicated to an NEO. Report any performance-based plan awards that include pre-determined performance goals or similar conditions in column (f).

(d) In column (f1), include annual non-equity incentive plan compensation, such as bonuses and discretionary amounts. For column (f1), annual non-equity incentive plan compensation relates only to a single financial year. In column (f2), include all non-equity incentive plan compensation related to a period longer than one year.

(9) In column (g), include all compensation relating to defined benefit or defined contribution plans. These include service costs and other compensatory items such as plan changes and earnings that are different from the estimated earnings for defined benefit plans and above-market earnings for defined contribution plans.

This disclosure relates to all plans that provide for the payment of pension plan benefits. Use the same amounts included in column (e) of the defined benefit plan table required by Item 5 for the covered financial year and the amounts included in column (c) of the defined contribution plan table as required by Item 5 for the covered financial year.

(10) In column (h), include all other compensation not reported in any other column of this table. Column (h) must include, but is not limited to:

(a) perquisites, including property or other personal benefits provided to an NEO that are not generally available to all employees, and that in aggregate are worth \$50,000 or more, or are worth 10% or more of an NEO's total salary for the financial year. Value these items on the basis of the aggregate incremental cost to the company and its subsidiaries. Describe in a footnote the methodology used for computing the aggregate incremental cost to the company.

State the type and amount of each perquisite the value of which exceeds 25% of the total value of perquisites reported for an NEO in a footnote to the table. Provide the footnote information for the most recently completed financial year only;

(b) other post-retirement benefits such as health insurance or life insurance after retirement;

(c) all "gross-ups" or other amounts reimbursed during the covered financial year for the payment of taxes;

(d) the incremental payments, payables, and benefits to an NEO that are triggered by, or result from, a scenario listed in section 6.1 that occurred before the end of the covered financial year;

(e) the dollar value of any insurance premiums paid or payable by, or on behalf of, the company during the covered financial year for personal insurance for an NEO if the estate of the NEO is the beneficiary;

(f) the dollar value of any dividends or other earnings paid or payable on share-based or option-based awards that were not factored into the fair value of the award on the grant date required to be reported in columns (d) and (e);

(g) any compensation cost for any security that the NEO bought from the company or its subsidiaries at a discount from the market price of the security (through deferral of salary, bonus or otherwise). Calculate this cost at the date of purchase and in accordance with IFRS 2 Share-based Payment; and

(h) above-market or preferential earnings on compensation that is deferred on a basis that is not tax exempt other than for defined contribution plans covered in the defined contribution plan table in Item 5. Above-market or preferential applies to non-registered plans and means a rate greater than the rate ordinarily paid by the company or its subsidiary on securities or other obligations having the same or similar features issued to third parties.

(i) any company contribution to a personal savings plan like a registered retirement savings plan made on behalf of the NEO.

Commentary

1. Generally, there will be no incremental payments, payables, and benefits that are triggered by, or result from, a scenario described in section 6.1 that occurred before the end of a covered financial year for compensation that has been reported in the summary compensation table for the most recently completed financial year or for a financial year before the most recently completed financial year.

If the vesting or payout of the previously reported compensation is accelerated, or a performance goal or similar condition in respect of the previously reported compensation is waived, as a result of a scenario described in section 6.1, the incremental payments, payables, and benefits should include the value of the accelerated benefit or of the waiver of the performance goal or similar condition.

2. Generally, an item is not a perquisite if it is integrally and directly related to the performance of an executive officer's duties. If something is necessary for a person to do his or her job, it is integrally and directly related to the job and is not a perquisite, even if it also provides some amount of personal benefit.

If the company concludes that an item is not integrally and directly related to performing the job, it may be a perquisite if the item provides an NEO with any direct or indirect personal benefit. If it does provide a personal benefit, the item is a perquisite, whether or not it is provided for a business reason or for the company's convenience, unless it is generally available on a non-discriminatory basis to all employees.

Companies must conduct their own analysis of whether a particular item is a perquisite. The following are examples of things that are often considered perquisites or personal benefits. This list is not exhaustive:

- Cars, car lease and car allowance;*
- Corporate aircraft or personal travel financed by the company;*
- Jewellery;*
- Clothing;*
- Artwork;*
- Housekeeping services;*
- Club membership;*
- Theatre tickets;*
- Financial assistance to provide education to children of executive officers;*
- Parking;*
- Personal financial or tax advice;*
- Security at personal residence or during personal travel; and*
- Reimbursements of taxes owed with respect to perquisites or other personal benefit.*

(11) In column (i), include the dollar value of total compensation for the covered financial year. For each NEO, this is the sum of the amounts reported in columns (c) through (h).

(12) Any deferred amounts must be included in the appropriate column for the covered financial year in which they are earned.

(13) If an NEO elected to exchange any compensation awarded to, earned by, paid to, or payable to the NEO in a covered financial year under a program that allows the NEO to receive awards, earnings, payments, or payables in another form, the compensation the NEO elected to exchange must be reported as compensation in the column appropriate for the form of compensation exchanged: Do not report it in the form in which it was or will be received by the NEO. State in a footnote the form of awards, earnings, payments, or payables substituted for the compensation the NEO elected to exchange.

3.2 Narrative discussion

Describe and explain any significant factors necessary to understand the information disclosed in the summary compensation table required by section 3.1.

Commentary

The significant factors described in section 3.2 will vary depending on the circumstances of each award but may include:

- *the significant terms of each NEO's employment agreement or arrangement;*
- *any repricing or other significant changes to the terms of any share-based or option-based award program during the most recently completed financial year; and*
- *the significant terms of any award reported in the summary compensation table, including a general description of the formula or criterion to be applied in determining the amounts payable and the vesting schedule. For example, if dividends will be paid on shares, state this, the applicable dividend rate and whether that rate is preferential.*

3.3 Repealed. 17 Feb 2012 SR 4/2012 s3.

3.4 Officers who also act as directors

If an NEO is also a director who receives compensation for services as a director, include that compensation in the summary compensation table and include a footnote explaining which amounts relate to the director role. Do not provide disclosure for that NEO under Item 7.

ITEM 4 - INCENTIVE PLAN AWARDS

4.1 Outstanding share-based awards and option-based awards

(1) Complete this table for each NEO for all awards outstanding at the end of the most recently completed financial year. This includes awards granted before the most recently completed financial year. For all awards in this table, disclose the awards that have been transferred at other than fair market value.

(2) In column (b), for each award, disclose the number of securities underlying unexercised options.

(3) In column (c), disclose the exercise or base price for each option under each award reported in column (b). If the option was granted in a different currency than that reported in the table, include a footnote describing the currency and the exercise or base price.

(4) In column (d), disclose the expiration date for each option under each award reported in column (b).

(5) In column (e), disclose the aggregate dollar amount of in-the-money unexercised options held at the end of the year. Calculate this amount based on the difference between the market value of the securities underlying the instruments at the end of the year, and the exercise or base price of the option.

(6) In column (f), disclose the total number of shares or units that have not vested.

(7) In column (g), disclose the aggregate market value or payout value of share-based awards that have not vested.

If the share-based award provides only for a single payout on vesting, calculate this value based on that payout.

If the share-based award provides for different payouts depending on the achievement of different performance goals or similar conditions, calculate this value based on the minimum payout. However, if the NEO achieved a performance goal or similar condition in a financial year covered by the share-based award that on vesting could provide for a payout greater than the minimum payout, calculate this value based on the payout expected as a result of the NEO achieving this performance goal or similar condition.

(8) In column (h), disclose the aggregate market value or payout value of vested share-based awards that have not yet been paid out or distributed.

4.2 Incentive plan awards - value vested or earned during the year

(1) Complete this table for each NEO for the most recently completed financial year.

(2) In column (b), disclose the aggregate dollar value that would have been realized if the options under the option-based award had been exercised on the vesting date. Compute the dollar value that would have been realized by determining the difference between the market price of the underlying securities at exercise and the exercise or base price of the options under the option-based award on the vesting date. Do not include the value of any related payment or other consideration provided (or to be provided) by the company to or on behalf of an NEO.

(3) In column (c), disclose the aggregate dollar value realized upon vesting of share-based awards. Compute the dollar value realized by multiplying the number of shares or units by the market value of the underlying shares on the vesting date. For any amount realized upon vesting for which receipt has been deferred, include a footnote that states the amount and the terms of the deferral.

4.3 Narrative discussion

Describe and explain the significant terms of all plan-based awards, including non-equity incentive plan awards, issued or vested, or under which options have been exercised, during the year, or outstanding at the year end, to the extent not already discussed under sections 2.1, 2.3 and 3.2. The company may aggregate information for different awards, if separate disclosure of each award is not necessary to communicate their significant terms.

Commentary

The items included in the narrative required by section 4.3 will vary depending on the terms of each plan, but may include:

- *the number of securities underlying each award or received on vesting or exercise;*
- *general descriptions of formulae or criteria that are used to determine amounts payable;*
- *exercise prices and expiry dates;*
- *dividend rates on share-based awards;*
- *whether awards are vested or unvested;*

- *performance goals or similar conditions, or other significant conditions;*
- *information on estimated future payouts for non-equity incentive plan awards (performance goals or similar conditions and maximum amounts); and*
- *the closing market price on the grant date, if the exercise or base price is less than the closing market price of the underlying security on the grant date.*

ITEM 5 - PENSION PLAN BENEFITS

5.1 Defined benefit plans table

(1) Complete this table for all pension plans that provide for payments or benefits at, following, or in connection with retirement, excluding defined contribution plans. For all disclosure in this table, use the same assumptions and methods used for financial statement reporting purposes under the accounting principles used to prepare the company's financial statements, as permitted by National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

(2) In columns (b) and (c), the disclosure must be as of the end of the company's most recently completed financial year. In columns (d) through (g), the disclosure must be as of the reporting date used in the company's audited annual financial statements for the most recently completed financial year.

(3) In column (b), disclose the number of years of service credited to an NEO under the plan. If the number of years of credited service in any plan is different from the NEO's number of actual years of service with the company, include a footnote that states the amount of the difference and any resulting benefit augmentation, such as the number of additional years the NEO received.

(4) In column (c), disclose:

(a) the annual lifetime benefit payable at the end of the most recently completed financial year in column (c1) based on years of credited service reported in column (b) and actual pensionable earnings as at the end of the most recently completed financial year. For purposes of this calculation, the company must assume that the NEO is eligible to receive payments or benefits at year end; and

(b) the annual lifetime benefit payable at age 65 in column (c2) based on years of credited service as of age 65 and actual pensionable earnings through the end of the most recently completed financial year, as per column (c1).

Commentary

For purposes of quantifying the annual lifetime benefit payable at the end of the most recently completed financial year in column (c1), the company may calculate the annual lifetime benefit payable as follows:

$$\begin{array}{l}
 \text{annual benefits payable at the} \\
 \text{presumed retirement age used} \\
 \text{to calculate the closing present} \\
 \text{value of the defined benefit} \\

(ADOPTION OF NATIONAL INSTRUMENTS)

S-42.2 REG 3

The company may calculate the annual lifetime benefit payable in accordance with another formula if the company reasonably believes that it produces a more meaningful calculation of the annual lifetime benefit payable at year end

(5) In column (d), disclose the present value of the defined benefit obligation at the start of the most recently completed financial year.

(6) In column (e), disclose the compensatory change in the present value of the defined benefit obligation for the most recently completed financial year. This includes service cost net of employee contributions plus plan changes and differences between actual and estimated earnings, and any additional changes that have retroactive impact, including, for greater certainty, a change in valuation assumptions as a consequence of an amendment to benefit terms.

Disclose the valuation method and all significant assumptions the company applied in quantifying the closing present value of the defined benefit obligation. The company may satisfy all or part of this disclosure by referring to the disclosure of assumptions in its financial statements, footnotes to the financial statements or discussion in its management's discussion and analysis.

(7) In column (f), disclose the non-compensatory changes in the present value of the defined benefit obligation for the company's most recently completed financial year. Include all items that are not compensatory, such as changes in assumptions other than those already included in column (e) because they were made as a consequence of an amendment to benefit terms, employee contributions and interest on the present value of the defined benefit obligation at the start of the most recently completed financial year.

(8) In column (g), disclose the present value of the defined benefit obligation at the end of the most recently completed financial year.

5.2 Defined contribution plans table

(1) Complete this table for all pension plans that provide for payments or benefits at, following or in connection with retirement, excluding defined benefit plans. For all disclosure in this table, use the same assumptions and methods used for financial statement reporting purposes under the accounting principles used to prepare the company's financial statements, as permitted by National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

Name	Accumulated Value at start of year	Compensatory	Accumulated value year at year end
	(\$)	(\$)	(\$)
(a)	(b)	(c)	(d)
CEO			
CFO			
A			
B			
C			

(2) In column (c), disclose the employer contribution and above-market or preferential earnings credited on employer and employee contributions. Above-market or preferential earnings applies to non-registered plans and means a rate greater than the rate ordinarily paid by the company or its subsidiary on securities or other obligations having the same or similar features issued to third parties.

(3) **Repealed.** 17 Feb 2012 SR 4/2012 s3.

(4) In column (d), disclose the accumulated value at the end of the most recently completed financial year.

1. *For pension plans that provide the maximum of:*

- (i) the value of a defined benefit pension; and
- (ii) *the accumulated value of a defined contribution pension, companies should disclose the global value of the pension plan in the defined benefit plans table under section 5.1.*

For pension plans that provide the sum of a defined benefit component and a defined contribution component, companies should disclose the respective components of the pension plan. The defined benefit component should be disclosed in the defined benefit plans table under section 5.1 and the defined contribution component should be disclosed in the defined contribution plans table under section 5.2.

2. *Any contributions by the company or a subsidiary of the company to a personal savings plan like a registered retirement savings plan made on behalf of the NEO must still be disclosed in column (h) of the summary compensation table, as required by paragraph 3.1(10)(i).*

5.3 Narrative discussion

Describe and explain for each retirement plan in which an NEO participates, any significant factors necessary to understand the information disclosed in the defined benefit plan table in section 5.1 and the defined contribution plan table in section 5.2.

Commentary

Significant factors described in the narrative required by section 5.3 will vary, but may include:

- the significant terms and conditions of payments and benefits available under the plan, including the plan's normal and early retirement payment, benefit formula, contribution formula, calculation of interest credited under the defined contribution plan and eligibility standards;*
- provisions for early retirement, if applicable, including the name of the NEO and the plan, the early retirement payment and benefit formula and eligibility standards. Early retirement means retirement before the normal retirement age as defined in the plan or otherwise available under the plan;*
- the specific elements of compensation (e.g., salary, bonus) included in applying the payment and benefit formula. If a company provides this information, identify each element separately; and*
- company policies on topics such as granting extra years of credited service, including an explanation of who these arrangements relate to and why they are considered appropriate.*

5.4 Deferred compensation plans

Describe the significant terms of any deferred compensation plan relating to each NEO, including:

- (a) the types of compensation that can be deferred and any limitations on the extent to which deferral is permitted (by percentage of compensation or otherwise);
- (b) significant terms of payouts, withdrawals and other distributions; and
- (c) measures for calculating interest or other earnings, how and when these measures may be changed, and whether an NEO or the company chose these measures. Quantify these measures wherever possible.

ITEM 6 - TERMINATION AND CHANGE OF CONTROL BENEFITS**6.1 Termination and change of control benefits**

(1) For each contract, agreement, plan or arrangement that provides for payments to an NEO at, following or in connection with any termination (whether voluntary, involuntary or constructive), resignation, retirement, a change in control of the company or a change in an NEO's responsibilities, describe, explain, and where appropriate, quantify the following items:

- (a) the circumstances that trigger payments or the provision of other benefits, including perquisites and pension plan benefits;
- (b) the estimated incremental payments, payables, and benefits that are triggered by, or result from, each circumstance, including timing, duration and who provides the payments and benefits;
- (c) how the payment and benefit levels are determined under the various circumstances that trigger payments or provision of benefits;
- (d) any significant conditions or obligations that apply to receiving payments or benefits. This includes but is not limited to, non-compete, non-solicitation, non-disparagement or confidentiality agreements. Include the term of these agreements and provisions for waiver or breach; and
- (e) any other significant factors for each written contract, agreement, plan or arrangement.

(2) Disclose the estimated incremental payments, payables, and benefits even if it is uncertain what amounts might be paid in given circumstances under the various plans and arrangements, assuming that the triggering event took place on the last business day of the company's most recently completed financial year. For valuing share-based awards or option-based awards, use the closing market price of the company's securities on that date.

If the company is unsure about the provision or amount of payments or benefits, make a reasonable estimate (or a reasonable estimate of the range of amounts) and disclose the significant assumptions underlying these estimates.

- (3) Despite subsection (1), the company is not required to disclose the following:
- (a) Perquisites and other personal benefits if the aggregate of this compensation is less than \$50,000. State the individual perquisites and personal benefits as required by paragraph 3.1(10)(a).
 - (b) Information about possible termination scenarios for an NEO whose employment terminated in the past year. The company must only disclose the consequences of the actual termination.
 - (c) Information in respect of a scenario described in subsection (1) if there will be no incremental payments, payables, and benefits that are triggered by, or result from, that scenario.

Commentary

- 1. Subsection (1) does not require the company to disclose notice of termination without cause, or compensation in lieu thereof, which are implied as a term of an employment contract under common law or civil law.*
- 2. Item 6 applies to changes of control regardless of whether the change of control results in termination of employment.*
- 3. Generally, there will be no incremental payments, payables, and benefits that are triggered by, or result from, a scenario described in subsection (1) for compensation that has been reported in the summary compensation table for the most recently completed financial year or for a financial year before the most recently completed financial year.*

If the vesting or payout of the previously reported compensation is accelerated, or a performance goal or similar condition in respect of the previously reported compensation is waived, as a result of a scenario described in subsection (1), the incremental payments, payables, and benefits should include the value of the accelerated benefit or of the waiver of the performance goal or similar condition.

- 4. A company may disclose estimated incremental payments, payables and benefits that are triggered by, or result from, a scenario described in subsection (1), in a tabular format.*

ITEM 7 - DIRECTOR COMPENSATION

7.1 Director compensation table

- (1) Complete this table for all amounts of compensation provided to the directors for the company's most recently completed financial year.
- (2) All forms of compensation must be included in this table.
- (3) Complete each column in the manner required for the corresponding column in the summary compensation table in section 3.1, in accordance with the requirements of Item 3, as supplemented by the commentary to Item 3, except as follows:
 - (a) In column (a), do not include a director who is also an NEO if his or her compensation for service as a director is fully reflected in the summary compensation table and elsewhere in this form. If an NEO is also a director who receives compensation for his or her services as a director, reflect the director compensation in the summary compensation table required by section 3.1 and provide a footnote to this table indicating that the relevant disclosure has been provided under section 3.4.

(b) In column (b), include all fees awarded, earned, paid, or payable in cash for services as a director, including annual retainer fees, committee, chair, and meeting fees.

(c) In column (g), include all compensation paid, payable, awarded, granted, given, or otherwise provided, directly or indirectly, by the company, or a subsidiary of the company, to a director in any capacity, under any other arrangement. This includes, for greater certainty, all plan and non-plan compensation, direct and indirect pay, remuneration, economic or financial award, reward, benefit, gift or perquisite paid, payable, awarded, granted, given, or otherwise provided to the director for services provided, directly or indirectly, to the company or a subsidiary of the company. In a footnote to the table, disclose these amounts and describe the nature of the services provided by the director that are associated with these amounts.

(d) In column (g), include programs where the company agrees to make donations to one or more charitable institutions in a director's name, payable currently or upon a designated event such as the retirement or death of the director. Include a footnote to the table disclosing the total dollar amount payable under the program.

7.2 Narrative discussion

Describe and explain any factors necessary to understand the director compensation disclosed in section 7.1.

Commentary

Significant factors described in the narrative required by section 7.2 will vary, but may include:

- *disclosure for each director who served in that capacity for any part of the most recently completed financial year;*
- *standard compensation arrangements, such as fees for retainer, committee service, service as chair of the board or a committee, and meeting attendance;*
- *any compensation arrangements for a director that are different from the standard arrangements, including the name of the director and a description of the terms of the arrangement; and*
- *any matters discussed in the compensation discussion and analysis that do not apply to directors in the same way that they apply to NEOs such as practices for granting option-based awards.*

7.3 Share-based awards, option-based awards and non-equity incentive plan compensation

Provide the same disclosure for directors that is required under Item 4 for NEOs.

ITEM 8 - COMPANIES REPORTING IN THE UNITED STATES

8.1 Companies reporting in the United States

- (1) Except as provided in subsection (2), SEC issuers may satisfy the requirements of this form by providing the information they are required to disclose in the United States under Item 402 “Executive compensation” of Regulation S-K under the 1934 Act.
- (2) Subsection (1) does not apply to a company that, as a foreign private issuer, satisfies Item 402 of Regulation S-K by providing the information required by Items 6.B “Compensation” and 6.E.2 “Share Ownership” of Form 20-F under the 1934 Act.

ITEM 9 - EFFECTIVE DATE AND TRANSITION

9.1 Effective date

- (1) This form comes into force on December 31, 2008.
- (2) This form applies to a company in respect of a financial year ending on or after December 31, 2008.

9.2 Transition

- (1) The form entitled Form 51-102F6 *Statement of Executive Compensation*, which came into force on March 30, 2004, as amended:
 - (a) does not apply to a company in respect of a financial year ending on or after December 31, 2008, and
 - (b) for greater certainty, applies to a company that is required to prepare and file executive compensation disclosure because:
 - (i) the company is sending an information circular to a securityholder under paragraph 9.1(2)(a) of National Instrument 51-102 *Continuous Disclosure Obligations*, the information circular includes the disclosure required by Item 8 of Form 51-102F5, and the information circular is in respect of a financial year ending before December 31, 2008; or
 - (ii) the company is filing an AIF that includes the disclosure required by Item 8 of Form 51-102F5, in accordance with Item 18 of Form 51-102F2, and the AIF is in respect of a financial year ending before December 31, 2008.
- (2) A company that is required to prepare and file executive compensation disclosure for a reason set out in paragraph (1)(b) may satisfy that requirement by preparing and filing the disclosure required by this form.

Form 51-102F6V
Statement of Executive Compensation - Venture Issuers

ITEM 1 - GENERAL PROVISIONS**1.1 Objective**

All direct and indirect compensation provided to certain executive officers and directors for, or in connection with, services they have provided to the company or a subsidiary of the company must be disclosed in this form.

The objective of this disclosure is to communicate the compensation the company paid, made payable, awarded, granted, gave or otherwise provided to each named executive officer and director for the financial year, and the decision-making process relating to compensation. This disclosure will provide insight into executive compensation as a key aspect of the overall stewardship and governance of the company and will help investors understand how decisions about executive compensation are made.

A company's executive compensation disclosure under this form must satisfy this objective and subsections 9.3.1(1) or 11.6(1) of the Instrument.

While the objective of this disclosure is the same as the objective in section 1.1 of Form 51-102F6, this form is to be used by venture issuers only. Reporting issuers that are not venture issuers must complete Form 51-102F6.

1.2 Definitions

If a term is used in this form but is not defined in this section, refer to subsection 1.1(1) of the Instrument or to National Instrument 14-101 *Definitions*.

In this form,

“company” includes other types of business organizations such as partnerships, trusts and other unincorporated business entities;

“compensation securities” includes stock options, convertible securities, exchangeable securities and similar instruments including stock appreciation rights, deferred share units and restricted stock units granted or issued by the company or one of its subsidiaries for services provided or to be provided, directly or indirectly, to the company or any of its subsidiaries;

“external management company” includes a subsidiary, affiliate or associate of the external management company;

“named executive officer” or “NEO” means each of the following individuals:

- (a) each individual who, in respect of the company, during any part of the most recently completed financial year, served as chief executive officer, including an individual performing functions similar to a chief executive officer;
- (b) each individual who, in respect of the company, during any part of the most recently completed financial year, served as chief financial officer, including an individual performing functions similar to a chief financial officer;
- (c) in respect of the company and its subsidiaries, the most highly compensated executive officer other than the individuals identified in paragraphs (a) and (b) at the end of the most recently completed financial year whose total compensation was more than \$150,000, as determined in accordance with subsection 1.3(5), for that financial year;
- (d) each individual who would be a named executive officer under paragraph (c) but for the fact that the individual was not an executive officer of the company, and was not acting in a similar capacity, at the end of that financial year;

“plan” includes any plan, contract, authorization, or arrangement, whether or not set out in any formal document, where cash, compensation securities or any other property may be received, whether for one or more persons;

“underlying securities” means any securities issuable on conversion, exchange or exercise of compensation securities.

1.3 Preparing the form**(1) All compensation to be included**

(a) When completing this form, the company must disclose all compensation paid, payable, awarded, granted, given, or otherwise provided, directly or indirectly, by the company, or a subsidiary of the company, to each named executive officer and director, in any capacity, including, for greater certainty, all plan and non-plan compensation, direct and indirect pay, remuneration, economic or financial award, reward, benefit, gift or perquisite paid, payable, awarded, granted, given, or otherwise provided to the named executive officer or director for services provided and for services to be provided, directly or indirectly, to the company or a subsidiary of the company.

(b) If an item of compensation is not specifically mentioned or described in this form, disclose it in the column “Value of all other compensation” of the table in section 2.1.

Commentary

1. *Unless otherwise specified, information required to be disclosed under this form may be prepared in accordance with the accounting principles the company uses to prepare its financial statements, as permitted by National Instrument 52-107 Acceptable Accounting Principles and Auditing Standards.*

2. *The definition of “director” under securities legislation includes an individual who acts in a capacity similar to that of a director.*

(2) Departures from format

(a) Although the required disclosure must be made in accordance with this form, the disclosure may

(i) omit a table, column of a table, or other prescribed information, if it does not apply, and

(ii) add a table, column, or other information if

(A) necessary to satisfy the objective in section 1.1, and

(B) to a reasonable person, the table, column, or other information does not detract from the prescribed information in the table in section 2.1.

(b) Despite paragraph (a), a company must not add a column to the table in section 2.1.

(3) Information for full financial year

(a) If a named executive officer acted in that capacity for the company during part of a financial year for which disclosure is required in the table in section 2.1, provide details of all of the compensation that the named executive officer received from the company for that financial year. This includes compensation the named executive officer earned in any other position with the company during the financial year.

(b) Do not annualize compensation in a table for any part of a year when a named executive officer was not in the service of the company. Annualized compensation may be disclosed in a footnote.

(4) Director and named executive officer compensation

(a) Disclose any compensation awarded to, earned by, paid to, or payable to each director and named executive officer, in any capacity with respect to the company. Compensation to directors and named executive officers must include all compensation from the company and its subsidiaries.

(b) Disclose any compensation awarded to, earned by, paid to, or payable to, a named executive officer, or director, in any capacity with respect to the company, by another person or company.

(5) Determining if an individual is a named executive officer

For the purpose of calculating total compensation awarded to, earned by, paid to, or payable to an executive officer under paragraph (c) of the definition of named executive officer,

(a) use the total compensation that would be reported for that executive officer in the table in section 2.1, as if the executive officer were a named executive officer for the company's most recently completed financial year, and

(b) exclude any compensation disclosed in the column "Value of all other compensation" of the table in section 2.1.

Commentary

The \$150,000 threshold in paragraph (c) of the definition of named executive officer only applies when determining who is a named executive officer in a company's most recently completed financial year. If an individual is a named executive officer in the most recently completed financial year, disclosure of compensation in the prior years must be provided even if total compensation in a prior year is less than \$150,000.

(6) Compensation to associates

Disclose any awards, earnings, payments, or payables to an associate of a named executive officer, or of a director, as a result of compensation awarded to, earned by, paid to, or payable to the named executive officer or the director, in any capacity with respect to the company.

(7) Currencies

(a) Companies must report amounts required by this form in Canadian dollars or in the same currency that the company uses for its financial statements. A company must use the same currency in all of the tables of this form.

(b) If compensation awarded to, earned by, paid to, or payable to a named executive officer or director was in a currency other than the currency reported in the prescribed tables of this form, state the currency in which compensation was awarded, earned, paid, or payable, disclose the currency exchange rate and describe the methodology used to translate the compensation into Canadian dollars or the currency that the company uses in its financial statements.

(8) New reporting issuers

(a) A company is not required to provide information for a completed financial year if the company was not a reporting issuer at any time during the most recently completed financial year, unless the company became a reporting issuer as a result of a restructuring transaction.

(b) If the company was not a reporting issuer at any time during the most recently completed financial year and the company is completing this form because it is preparing a prospectus, discuss all significant elements of the compensation to be awarded to, earned by, paid to, or payable to named executive officers and directors of the company once it becomes a reporting issuer, to the extent this compensation has been determined.

(9) Plain language

Information required to be disclosed under this form must be clear, concise, and presented in such a way that it provides a person, applying reasonable effort, an understanding of

- (a) how decisions about named executive officer and director compensation are made, and
- (b) how specific named executive officer and director compensation relates to the overall stewardship and governance of the company.

Commentary

Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP Continuous Disclosure Obligations for further guidance.

ITEM 2 - DIRECTOR AND NAMED EXECUTIVE OFFICER COMPENSATION

2.1 Director and named executive officer compensation, excluding compensation securities

(1) Using the following table, disclose all compensation referred to in subsection 1.3(1) of this form for each of the two most recently completed financial years, other than compensation disclosed under section 2.3.

Commentary

For venture issuers, compensation includes payments, grants, awards, gifts and benefits including, but not limited to,

- *salaries,*
- *consulting fees,*
- *management fees,*
- *retainer fees,*
- *bonuses,*
- *committee and meeting fees,*
- *special assignment fees,*
- *pensions and employer paid RRSP contributions,*

- *perquisites such as*
 - *car, car lease, car allowance or car loan,*
 - *personal insurance,*
 - *parking,*
 - *accommodation, including use of vacation accommodation,*
 - *financial assistance,*
 - *club memberships,*
 - *use of corporate motor vehicle or aircraft,*
 - *reimbursement for tax on perquisites or other benefits, and*
 - *investment-related advice and expenses.*

Table of compensation excluding compensation securities							
Name and position	Year	Salary, consulting fee, retainer or commission (\$)	Bonus (\$)	Committee or meeting fees (\$)	Value of perquisites (\$)	Value of all other compensation (\$)	Total compensation (\$)

(2) In the table required under subsection (1), disclose compensation of each named executive officer first, followed by compensation of any director who is not a named executive officer.

(3) If the individual is a named executive officer and a director, state both positions in the column entitled "Name and position". In a footnote to the table, identify how much compensation the NEO received for each position.

(4) In the column entitled "Value of perquisites", include perquisites provided to an NEO or director that are not generally available to all employees and that, in aggregate, are greater than

- (a) \$15,000, if the NEO or director's total salary for the financial year is \$150,000 or less,
- (b) 10% of the NEO or director's salary for the financial year, if the NEO or director's total salary for the financial year is greater than \$150,000 but less than \$500,000, or
- (c) \$50,000, if the NEO or director's total salary for the financial year is \$500,000 or greater.

Value these items on the basis of the aggregate incremental cost to the company and its subsidiaries. Describe in a footnote the methodology used for computing the aggregate incremental cost to the company.

Provide a note to the table to disclose the nature of each perquisite provided that equals or exceeds 25% of the total value of perquisites provided to that named executive officer or director, and how the value of the perquisite was calculated, if it is not provided in cash.

Commentary

For the purposes of the column entitled “Value of perquisites”, an item is generally a perquisite if it is not integrally and directly related to the performance of the director or named executive officer’s duties. If something is necessary for a person to do his or her job, it is integrally and directly related to the job and is not a perquisite, even if it also provides some amount of personal benefit.

- (5) If non-cash compensation, other than compensation required to be disclosed in section 2.3, was provided or is payable, disclose the fair market value of the compensation at the time it was earned or, if it is not possible to calculate the fair market value, disclose that fact in a note to the table and the reasons why.
- (6) In the column entitled “Value of all other compensation”, include all of the following:
 - (a) any incremental payments, payables and benefits to a named executive officer or director that were triggered by, or resulted from, a scenario listed in subsection 2.5(2) that occurred before the end of the applicable financial year,
 - (b) all compensation relating to defined benefit or defined contribution plans including service costs and other compensatory items such as plan changes and earnings that are different from the estimated earnings for defined benefit plans and above market earnings for defined contribution plans.

Commentary

The disclosure of defined benefit or defined contribution plans relates to all plans that provide for the payment of pension plan benefits. Use the same amounts indicated in column (e) of the defined benefit plan table required by section 2.7 for the applicable financial year and the amounts included in column (c) of the defined contribution plan table required by section 2.7 for the applicable financial year.

- (7) Despite subsection (1), it is not necessary to disclose Canada Pension Plan, similar government plans and group life, health, hospitalization, medical reimbursement and relocation plans that do not discriminate in scope, terms or operation that are generally available to all salaried employees.
- (8) If a director or named executive officer has served in that capacity for only part of a year, indicate the number of months he or she has served; do not annualize the compensation.
- (9) Provide notes to the table to disclose each of the following for the most recently completed financial year only:
 - (a) compensation paid or payable by any person or company other than the company in respect of services provided to the company or its subsidiaries, including the identity of that other person or company;
 - (b) compensation paid or payable indirectly to the director or named executive officer and, in such case, the amount of compensation, to whom it is paid or payable and the relationship between the director or named executive officer and such other person or company;

(c) for the column entitled “Value of all other compensation”, the nature of each form of other compensation paid or payable that equals or exceeds 25% of the total value of other compensation paid or payable to that director or named executive officer, and how the value of such other compensation was calculated, if it is not paid or payable in cash.

2.2 External management companies

- (1) If one or more individuals acting as named executive officers of the company are not employees of the company, disclose the names of those individuals.
- (2) If an external management company employs or retains one or more individuals acting as named executive officers or directors of the company and the company has entered into an understanding, arrangement or agreement with the external management company to provide executive management services to the company, directly or indirectly, disclose any compensation that
 - (a) the company paid directly to an individual employed, or retained by the external management company, who is acting as a named executive officer or director of the company;
 - (b) the external management company paid to the individual that is attributable to the services they provided to the company, directly or indirectly.
- (3) If an external management company provides the company’s executive management services and also provides executive management services to another company, disclose the entire compensation the external management company paid to the individual acting as a named executive officer or director, or acting in a similar capacity, in connection with services the external management company provided to the company, or the parent or a subsidiary of the company. If the management company allocates the compensation paid to a named executive officer or director, disclose the basis or methodology used to allocate this compensation.

Commentary

A named executive officer may be employed by an external management company and provide services to the company under an understanding, arrangement or agreement. In this case, references in this form to the chief executive officer or chief financial officer are references to the individuals who performed similar functions to that of the chief executive officer or chief financial officer. They are typically the same individuals who signed and filed annual and interim certificates to comply with National Instrument 52-109 Certification of Disclosure in Issuers’ Annual and Interim Filings.

2.3 Stock options and other compensation securities

- (1) Using the following table, disclose all compensation securities granted or issued to each director and named executive officer by the company or one of its subsidiaries in the most recently completed financial year for services provided or to be provided, directly or indirectly, to the company or any of its subsidiaries.

(ADOPTION OF NATIONAL INSTRUMENTS)

Compensation Securities							
Name and position	Type of compensation security	Number of compensation securities, number of underlying securities, and percentage of class	Date of issue or grant	Issue, conversion or exercise price (\$)	Closing price of security or underlying security on date of grant (\$)	Closing price of security or underlying security at year end (\$)	Expiry date

- (2) Position the tables prescribed in subsections (1) and (4) directly after the table prescribed in section 2.1.
- (3) Provide notes to the table to disclose each of the following:
 - (a) the total amount of compensation securities, and underlying securities, held by each named executive officer or director on the last day of the most recently completed financial year end;
 - (b) any compensation security that has been re-priced, cancelled and replaced, had its term extended, or otherwise been materially modified, in the most recently completed financial year, including the original and modified terms, the effective date, the reason for the modification, and the name of the holder;
 - (c) any vesting provisions of the compensation securities;
 - (d) any restrictions or conditions for converting, exercising or exchanging the compensation securities.
- (4) Using the following table, disclose each exercise by a director or named executive officer of compensation securities during the most recently completed financial year.

[illegible]

- (5) For the tables prescribed in subsections (1) and (4), if the individual is a named executive officer and a director, state both positions in the columns entitled "Name and position".

Commentary

For the purposes of the column entitled "Total value on exercise date" multiply the number in the column entitled "Number of underlying securities exercised" by the number in the column entitled "Difference between exercise price and closing price on date of exercise".

2.4 Stock option plans and other incentive plans

- (1) Describe the material terms of each stock option plan, stock option agreement made outside of a stock option plan, plan providing for the grant of stock appreciation rights, deferred share units or restricted stock units and any other incentive plan or portion of a plan under which awards are granted.

Commentary

Examples of material terms are vesting provisions, maximum term of options granted, whether or not a stock option plan is a rolling plan, the maximum number or percentage of options that can be granted, method of settlement.

- (2) Indicate for each such plan or agreement whether it has previously been approved by shareholders and, if applicable, when it is next required to be approved.
- (3) Disclosure is not required of plans, such as shareholder rights plans, that involve issuance of securities to all securityholders.

2.5 Employment, consulting and management agreements

by:

(ii) the average net asset value of the investment fund for the financial year or interim period, obtained by:

(A) adding together the net asset values of the investment fund as at the close of business of the investment fund on each day during the financial year or interim period on which the net asset value of the investment fund has been calculated, and

(B) dividing the amount obtained under clause (A) by the number of days during the financial year or interim period on which the net asset value of the investment fund has been calculated; and

(b) multiplying the result obtained under paragraph (a) by 100.

(2) If any fees and expenses otherwise payable by an investment fund in a financial year or interim period were waived or otherwise absorbed by a member of the organization of the investment fund, the investment fund must disclose, in a note to the disclosure of its management expense ratio, details of:

(a) what the management expense ratio would have been without any waivers or absorptions;

(b) the length of time that the waiver or absorption is expected to continue;

(c) whether the waiver or absorption can be terminated at any time by the member of the organization of the investment fund; and

(d) any other arrangements concerning the waiver or absorption.

(3) Investment fund expenses rebated by a manager or an investment fund to a securityholder must not be deducted from total expenses of the investment fund in determining the management expense ratio of the investment fund.

- (4) An investment fund that has separate classes or series of securities must calculate a management expense ratio for each class or series, in the manner required by this section, modified as appropriate.
- (5) The management expense ratio of an investment fund for a financial period of less than or greater than twelve months must be annualized.
- (6) If an investment fund provides its management expense ratio to a service provider that will arrange for public dissemination of the management expense ratio:
 - (a) the investment fund must provide the management expense ratio calculated in accordance with this Part; and
 - (b) the requirement to provide note disclosure contained in subsection (2) does not apply if the investment fund indicates, as applicable, that fees have been waived, expenses have been absorbed, or that fees or expenses were paid directly by investors during the period for which the management expense ratio was calculated.

15.2 Fund of Funds Calculation

- (1) For the purposes of subparagraph 15.1(1)(a)(i), the total expenses for a financial year or interim period of an investment fund that invests in securities of other investment funds is equal to the sum of:
 - (a) the total expenses incurred by the investment fund that are for the period for which the calculation of the management expense ratio is made and that are attributable to its investment in each underlying investment fund, as calculated by:
 - (i) multiplying the total expenses of each underlying investment fund, excluding distributions if recognized as an expense, commissions and other portfolio transaction costs, before income taxes, for the financial year or interim period, by;
 - (ii) the average proportion of securities of the underlying investment fund held by the investment fund during the financial year or interim period, calculated by:
 - (A) adding together the proportion of securities of the underlying investment fund held by the investment fund on each day in the period; and
 - (B) dividing the amount obtained under clause (A) by the number of days in the period; and
 - (b) the total expenses of the investment fund, excluding distributions if recognized as an expense, commissions and other portfolio transaction costs, before income taxes, for the period.
- (2) An investment fund that has exposure to one or more other investment funds through the use of derivatives in a financial year or interim period must calculate its management expense ratio for the financial year or interim period in the manner described in subsection (1), treating each investment fund to which it has exposure as an “underlying investment fund” under subsection (1).

(3) Subsection (2) does not apply if the derivatives do not expose the investment fund to expenses that would be incurred by a direct investment in the relevant investment funds.

(4) Management fees rebated by an underlying fund to an investment fund that invests in the underlying fund must be deducted from total expenses of the underlying fund if the rebate is made for the purpose of avoiding duplication of fees between the two investment funds.

PART 16 ADDITIONAL FILING REQUIREMENTS

16.1 Application - This Part applies to an investment fund that is a reporting issuer.

16.2 Additional Filing Requirements - If an investment fund sends to its securityholders any disclosure document other than those required by this Instrument, the investment fund must file a copy of the document on the same date as, or as soon as practicable after, the date on which the document is sent to its securityholders.

16.3 Voting Results - An investment fund must, promptly following a meeting of securityholders at which a matter was submitted to a vote, file a report that discloses, for each matter voted upon:

- (b) if the vote was conducted by ballot, the number and percentage of votes cast, which includes votes cast in person and by proxy, for, against, or withheld from, each vote.

16.4 Filing of Material Contracts - An investment fund that is not subject to National Instrument 81-101 *Mutual Fund Prospectus Disclosure*, or securities legislation that imposes a similar requirement, must file a copy of any material contract of the investment fund not previously filed, or any amendment to any material contract of the investment fund not previously filed:

- (b) upon the execution of the material contract or amendment.

NATIONAL INSTRUMENT 81-106
INVESTMENT FUND CONTINUOUS DISCLOSUREFORM 81-106F1
CONTENTS OF ANNUAL AND INTERIM MANAGEMENT
REPORT OF FUND PERFORMANCE

PART A INSTRUCTIONS AND INTERPRETATION

Item 1 General

(a) The Form

The Form describes the disclosure required in an annual or interim management report of fund performance (MRFP) of an investment fund. Each item of the Form outlines disclosure or format requirements. Instructions to help you comply with these requirements are printed in *italic type*.

(b) Plain Language

An MRFP must state the required information concisely and in plain language (as defined in National Instrument 81-101 *Mutual Fund Prospectus Disclosure*). Refer to Part 1 of Companion Policy 81-106CP for a discussion concerning plain language and presentation.

When preparing an MRFP, respond as simply and directly as is reasonably possible and include only as much information as is necessary for readers to understand the matters for which you are providing disclosure.

(c) Format

Present the MRFP in a format that assists readability and comprehension. The Form generally does not mandate the use of a specific format to achieve these goals, except in the case of disclosure of financial highlights and past performance as required by Items 3 and 4 of each of Parts B and C of the Form; that disclosure must be presented in the format specified in the Form.

An MRFP must use the headings and sub-headings shown in the Form. Within this framework, investment funds are encouraged to use, as appropriate, tables, captions, bullet points or other organizational techniques that assist in presenting the required disclosure clearly and concisely. Disclosure provided in response to any item does not need to be repeated elsewhere. The interim MRFP must use the same headings as used in the annual MRFP.

The Form does not prohibit including information beyond what the Form requires. An investment fund may include artwork and educational material (as defined in National Instrument 81-101 *Mutual Fund Prospectus Disclosure*) in its annual and interim MRFP. However, an investment fund must take reasonable care to ensure that including such material does not obscure the required information and does not lengthen the MRFP excessively.

(d) Focus on Material Information

You do not need to disclose information that is not material. You do not need to respond to any item in this Form that is inapplicable and you may omit negative answers.

(e) What is Material?

Would a reasonable investor's decision to buy, sell or hold securities of an investment fund likely be influenced or changed if the information in question was omitted or misstated? If so, the information is material. In determining whether information is material, take into account both quantitative and qualitative factors.

(f) Terminology

All references to "net assets" or "net assets per security" in this Form are references to total equity or net assets attributable to securityholders determined in accordance with Canadian GAAP as presented in the financial statements of the investment fund.

Investment funds must use net assets as shown on the financial statements in the "The Fund's Net Assets per [Unit/Share]" table. All other calculations for the purposes of the MRFP must be made using net asset value.

Item 2 Management Discussion of Fund Performance

The management discussion of fund performance is an analysis and explanation that is designed to complement and supplement an investment fund's financial statements. The discussion is the equivalent to the corporate management discussion and analysis (MD&A) with specific modifications for investment funds. It provides the manager of an investment fund with the opportunity to discuss the investment fund's position and financial results for the relevant period. The discussion is intended to give a reader the ability to look at the investment fund through the eyes of management by providing both a historical and prospective analysis of the investment activities and operations of the investment fund. Coupled with the financial highlights, this information should enable readers to better assess the investment fund's performance and future prospects.

Focus the management discussion on material information about the performance of the investment fund, with particular emphasis on known material trends, commitments, events, risks or uncertainties that the manager reasonably expects to have a material effect on the investment fund's future performance or investment activities.

The description of the disclosure requirements is intentionally general. This Form contains a minimum number of specific instructions in order to allow, as well as encourage, investment funds to discuss their activities in the most appropriate manner and to tailor their comments to their individual circumstances.

**PART B CONTENT REQUIREMENTS FOR ANNUAL MANAGEMENT
REPORT OF FUND PERFORMANCE**

Item 1 First Page Disclosure

The first page of an annual MRFP must contain disclosure in substantially the following words:

"This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling [toll-free/collect call telephone number], by writing to us at [insert address] or by visiting our website at [insert address] or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure."

INSTRUCTION:

If the MRFP is bound with the financial statements of the investment fund, modify the first page wording appropriately.

Item 2 Management Discussion of Fund Performance

2.1 Investment Objective and Strategies

Disclose under the heading "Investment Objective and Strategies" a brief summary of the fundamental investment objective and strategies of the investment fund.

INSTRUCTION:

Disclosing the fundamental investment objective provides investors with a reference point for assessing the information contained in the MRFP. It must be a concise summary of the fundamental investment objective and strategies of the investment fund, and not merely copied from the prospectus.

2.2 Risk

Disclose under the heading "Risk" a discussion of how changes to the investment fund over the financial year affected the overall level of risk associated with an investment in the investment fund.

INSTRUCTION:

Ensure that the discussion is not merely a repeat of information contained in the prospectus of the investment fund, but rather a discussion that reflects any changes in risk level of the investment fund over the financial year.

Consider how the changes in the risks associated with an investment in the investment fund affect the suitability or investor risk tolerance stated in the prospectus or offering document. All investment funds should refer to Items 9 and 10 of Part B of Form 81-101F1 as if those sections applied to them.

2.3 Results of Operations

(1) Under the heading "Results of Operations" provide a summary of the results of operations of the investment fund for the financial year to which the MDFP pertains, including a discussion of:

- (a) any material changes in investments in specific portfolio assets and overall asset mix from the previous period;
- (b) how the composition and changes to the composition of the investment portfolio relate to the investment fund's fundamental investment objective and strategies or to changes in the economy, markets or unusual events;
- (c) unusual trends in redemptions or sales and the effect of these on the investment fund;
- (d) significant components and changes to the components of revenue and expenses;
- (e) risks, events, trends and commitments that had a material effect on past performance; and
- (f) unusual or infrequent events or transactions, economic changes and market conditions that affected performance.

(2) An investment fund that borrows money, other than immaterial operating overdrafts, must disclose:

- (a) the minimum and maximum amount borrowed during the period;
- (b) the percentage of net assets of the investment fund that the borrowing represented as of the end of the period;
- (c) how the borrowed money was used; and
- (d) the terms of the borrowing arrangements.

INSTRUCTION:

Explain the nature of and reasons for changes in your investment fund's performance. Do not simply disclose the amount of change in a financial statement item from period to period. Avoid the use of boilerplate language. Your discussion should assist the reader to understand the significant factors that have affected the performance of the investment fund.

2.4 Recent Developments

Under the heading "Recent Developments" discuss the developments affecting the investment fund, including:

- (a) known changes to the strategic position of the investment fund;
- (b) known material trends, commitments, events or uncertainties that might reasonably be expected to affect the investment fund;
- (c) changes to the manager or portfolio adviser, or change of control of the manager, of the investment fund;
- (d) the effects of any actual or planned reorganizations, mergers or similar transactions;
- (e) the estimated effects of changes in accounting policies adopted subsequent to year end; and
- (f) changes to the composition or members of the independent review committee of the investment fund.

INSTRUCTIONS:

(1) *Preparing the management discussion necessarily involves some degree of prediction or projection. The discussion must describe anticipated events, decisions, circumstances, opportunities and risks that management considers reasonably likely to materially impact performance. It must also describe management's vision, strategy and targets.*

(2) *There is no requirement to provide forward-looking information. If any forward-looking information is provided, it must contain a statement that the information is forward-looking, a description of the factors that may cause actual results to differ materially from the forward-looking information, your material assumptions and appropriate risk disclosure and cautionary language. You must also discuss any forward-looking information disclosed for a prior period which, in light of intervening events and absent further explanations, may be misleading.*

2.5 Related Party Transactions

Under the heading “Related Party Transactions” discuss any transactions involving related parties to the investment fund.

INSTRUCTIONS:

(1) *In determining who is a related party, investment funds should look to the Handbook. In addition, related parties include the manager and portfolio adviser (or their affiliates) and a broker or dealer related to any of the investment fund, its manager or portfolio adviser.*

(2) *When discussing related party transactions, include the identity of the related party, the relationship to the investment fund, the purpose of the transaction, the measurement basis used to determine the recorded amount and any ongoing commitments to the related party.*

(3) *Related party transactions include portfolio transactions with related parties of the investment fund. When discussing these transactions, include the dollar amount of commission, spread or any other fee that the investment fund paid to any related party in connection with a portfolio transaction.*

(4) *If the investment fund has an independent review committee, state whether the investment fund has relied on the positive recommendation or approval of the independent review committee to proceed with the transaction, and provide details of any conditions or parameters surrounding the transaction imposed by the independent review committee in its positive recommendation or approval.*

Item 3 Financial Highlights

3.1 Financial Highlights

(1) Provide selected financial highlights for the investment fund under the heading “Financial Highlights” in the form of the following tables, appropriately completed, and introduced using the following words:

“The following tables show selected key financial information about the Fund and are intended to help you understand the Fund’s financial performance for the past [insert number] years.

[An explanation of these differences can be found in the notes to the financial statements./This difference is due to [explain].]*

(2) *Management expense ratio is based on total expenses (excluding [distributions], commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.*

(3) *The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.*

(4) *The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.*

(2) **Repealed.** 29 Aug 2008 SR 72/2008 s6.

(3) Modify the table appropriately for corporate investment funds.

(4) Show the financial highlights individually for each class or series, if a multi-class fund.

(5) Provide per unit or per share amounts to the nearest cent, and provide percentage amounts to two decimal places.

(6) Except for net assets, net value and distributions, calculate per unit/share values on the basis of the weighted average number of unit/shares outstanding over the financial period.

(7) Provide the selected financial information required by this Item in chronological order for each of the five most recently completed financial years of the investment fund for which audited financial statements have been filed, with the information for the most recent financial year in the first column on the left of the table.

(7.1)(a) For financial years beginning before January 1, 2014, the financial highlights may be derived from the investment fund's financial statements prepared in accordance with subsection 2.6(1) of the Instrument.

(b) For financial periods beginning on or after January 1, 2014, derive the financial highlights from the investment fund's financial statements prepared in accordance with subsection 2.6(2) of the Instrument.

(c) Despite paragraph (a), in an annual MRFP for a financial year beginning on or after January 1, 2014, derive the financial highlights for the immediately preceding financial year from financial statements prepared in accordance with subsection 2.6(2) of the Instrument.

(d) If the financial highlights relate to financial periods beginning both before and on or after January 1, 2014, disclose, in a note to the table, the accounting principles applicable to each period.

(8) If the investment fund has merged with another investment fund, include in the table only the financial information of the continuing investment fund.

(9) Calculate the management expense ratio of the investment fund as required by Part 15 of the Instrument. Include a brief description of the method of calculating the management expense ratio in a note to the table.

(10) If the investment fund:

(a) changed, or proposes to change, the basis of the calculation of the management fees or of the other fees, charges or expenses that are charged to the investment fund; or

(b) introduces or proposes to introduce a new fee,

and if the change would have had an effect on the management expense ratio for the last completed financial year of the investment fund if the change had been in effect throughout that financial year, disclose the effect of the change on the management expense ratio in a note to the "Ratios and Supplemental Data" table.

(11) Do not include disclosure concerning portfolio turnover rate for a money market fund.

(12)(a) Calculate the trading expense ratio by dividing:

(i) the total commissions and other portfolio transaction costs disclosed in the statement of operations, by;

(ii) the same denominator used to calculate the management expense ratio.

(b) If an investment fund invests in securities of other investment funds, calculate the trading expense ratio using the methodology required for the calculation of the management expense ratio in section 15.2 of the Instrument, making reasonable assumptions or estimates when necessary.

(13) Provide the closing market price only if the investment fund is traded on an exchange.

INSTRUCTIONS:

(1) Calculate the investment fund's portfolio turnover rate by dividing the lesser of the amounts of the cost of purchases and proceeds of sales of portfolio securities for the financial year by the average of the value of the portfolio securities owned by the investment fund in the financial year. Calculate the monthly average by totalling the values of portfolio securities as at the beginning and end of the first month of the financial year and as at the end of each of the succeeding 11 months and dividing the sum by 13. Exclude from both numerator and denominator amounts relating to all portfolio securities having a remaining term to maturity on the date of acquisition by the investment fund of one year or less.

(2) Further to instruction (1), include:

(a) proceeds from a short sale in the value of the portfolio securities sold during the period;

(b) the cost of covering a short sale in the value of portfolio securities purchased during the period;

(c) premiums paid to purchase options in the value of portfolio securities purchased during the period; and

(d) premiums received from the sale of options in the value of the portfolio securities sold during the period.

(3) If the investment fund acquired the assets of another investment fund in exchange for its own shares during the financial year in a purchase-of-assets transaction, exclude from the calculation of portfolio turnover rate the value of securities acquired and sold to realign the fund's portfolio. Adjust the denominator of the portfolio turnover computation to reflect these excluded purchases and sales and disclose them in a footnote

3.2 Scholarship Plans

An investment fund that is a scholarship plan must comply with Item 3.1, except that the following table must replace "The Fund's Net Assets per [Unit/Share]" table and the "Ratios and Supplemental Data" table.

3.3 Management Fees

Disclose the basis for calculating the management fees paid by the investment fund and a breakdown of the services received in consideration of the management fees, as a percentage of management fees.

INSTRUCTION:

The disclosure must list the major services paid for out of the management fees, including portfolio adviser compensation, waived or absorbed expenses, trailing commissions and sales commissions, if applicable. Services may be grouped together so that commercially sensitive information, such as the specific compensation paid to a portfolio adviser or the manager's profit, is not determinable.

Item 4 Past Performance

4.1 General

- (1) In responding to the requirements of this Item, an investment fund must comply with sections 15.2, 15.3, 15.9, 15.10, 15.11 and 15.14 of National Instrument 81-102 *Investment Funds* as if those sections applied to the annual MRFP.
- (2) Despite the specific requirements of this Item, do not provide performance data for any period if the investment fund was not a reporting issuer at all times during the period.
- (3) Set out in the footnotes to the chart or table required by this Item the assumptions relevant to the calculation of the performance information, including any assumptions or estimates made in order to calculate the return on the short portfolio, if applicable. Include a statement of the significance of the assumption that distributions are reinvested for taxable investments.
- (4) In a general introduction to the "Past Performance" section, indicate, as applicable, that:
 - (a) the performance information shown assumes that all distributions made by the investment fund in the periods shown were reinvested in additional securities of the investment fund;
 - (b) the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
 - (c) how the investment fund has performed in the past does not necessarily indicate how it will perform in the future.
- (5) Use a linear scale for each axis of the bar chart required by this Item.
- (6) The x-axis must intersect the y-axis at 0 for the "Year-by-Year Returns" bar chart.

4.2 Year-by-Year Returns

- (1) Provide a bar chart, under the heading “Past Performance” and under the sub-heading “Year-by-Year Returns”, that shows, in chronological order with the most recent year on the right of the bar chart, the annual total return of the investment fund for the lesser of:
 - (a) each of the 10 most recently completed financial years; and
 - (b) each of the completed financial years in which the investment fund has been in existence and which the investment fund was a reporting issuer.
- (2) Provide an introduction to the bar chart that:
 - (a) indicates that the bar chart shows the investment fund’s annual performance for each of the years shown, and illustrates how the investment fund’s performance has changed from year to year; and
 - (b) indicates that the bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.
- (3) If the investment fund holds short portfolio positions, show separately the annual total return for both the long portfolio positions and the short portfolio positions in addition to the overall total return.

4.3 Annual Compound Returns

- (1) If the investment fund is not a money market fund, disclose, in the form of a table, under the sub-heading “Annual Compound Returns”:
 - (a) the investment fund’s past performance for the ten, five, three and one year periods ended on the last day of the investment fund’s financial year; and
 - (b) if the investment fund was a reporting issuer for more than one and less than 10 years, the investment fund’s past performance since the inception of the investment fund.
- (2) Include in the table, for the same periods for which the annual compound returns of the investment fund are provided, the historical annual compound total returns or changes of:
 - (a) one or more appropriate broad-based securities market indices; and
 - (b) at the option of the investment fund, one or more non-securities indices or narrowly-based market indices that reflect the market sectors in which the investment fund invests.
- (3) Include a brief description of the broad-based securities market index (or indices) and provide a discussion of the relative performance of the investment fund as compared to that index.
- (4) If the investment fund includes in the table an index that is different from the one included in the most recently filed MRFP, explain the reasons for the change and include the disclosure required by this Item for both the new and former indices.
- (5) Calculate the annual compound return in accordance with the requirements of Part 15 of National Instrument 81-102 *Investment Funds*.
- (6) If the investment fund holds short portfolio positions, show separately the annual compound returns for both the long and the short portfolio positions in addition to the overall annual compound returns.

INSTRUCTIONS:

- (1) An “appropriate broad-based securities market index” is one that:
 - (a) is administered by an organization that is not affiliated with any of the mutual fund, its manager, portfolio adviser or principal distributor, unless the index is widely recognized and used; and
 - (b) has been adjusted by its administrator to reflect the reinvestment of dividends on securities in the index or interest on debt.
- (2) It may be appropriate for an investment fund that invests in more than one type of security to compare its performance to more than one relevant index. For example, a balanced fund may wish to compare its performance to both a bond index and an equity index.
- (3) In addition to the appropriate broad-based securities market index, the investment fund may compare its performance to other financial or narrowly-based securities indices (or a blend of indices) that reflect the market sectors in which the investment fund invests or that provide useful comparatives to the performance of the investment fund. For example, an investment fund could compare its performance to an index that measured the performance of certain sectors of the stock market (e.g. communications companies, financial sector companies, etc.) or to a non-securities index, such as the Consumer Price Index, so long as the comparison is not misleading.

4.4 Scholarship Plans

An investment fund that is a scholarship plan must comply with this Item, except that year-by-year returns and annual compound returns must be calculated based on the scholarship plan’s total portfolio adjusted for cash flows.

Item 5 Summary of Investment Portfolio

- (1) Include, under the heading “Summary of Investment Portfolio”, a summary of the investment fund’s portfolio as at the end of the financial year of the investment fund to which the annual MRFP pertains.
- (2) The summary of investment portfolio:
 - (a) must break down the entire portfolio of the investment fund into appropriate subgroups, and must show the percentage of the aggregate net asset value of the investment fund constituted by each subgroup;
 - (b) must disclose the top 25 positions held by the investment fund, each expressed as a percentage of net asset value of the investment fund;
 - (c) must disclose long positions separately from short positions; and
 - (d) must disclose separately the total percentage of net asset value represented by the long positions and by the short positions.
- (3) Indicate that the summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund and a quarterly update is available.

INSTRUCTIONS:

- (1) The summary of investment portfolio is designed to give the reader an easily accessible snapshot of the portfolio of the investment fund as at the end of the financial year for which the annual MRFP pertains. As with the other components of the annual MRFP, care should be taken to ensure that the information in the summary of investment portfolio is presented in an easily accessible and understandable way.*
- (2) The Canadian securities regulatory authorities have not prescribed the names of the categories into which the portfolio should be broken down. An investment fund should use the most appropriate categories given the nature of the fund. If appropriate, an investment fund may use more than one breakdown, for instance showing the portfolio of the investment fund broken down according to security type, industry, geographical locations, etc.*
- (3) Instead of a table, the disclosure required by (2)(a) of this Item may be presented in the form of a pie chart.*
- (4) If the investment fund owns more than one class of securities of an issuer, those classes should be aggregated for the purposes of this Item, however, debt and equity securities of an issuer must not be aggregated.*
- (5) Portfolio assets other than securities should be aggregated if they have substantially similar investment risks and profiles. For instance, gold certificates should be aggregated, even if they are issued by different financial institutions.*
- (6) Treat cash and cash equivalents as one separate discrete category.*
- (7) In determining its holdings for purposes of the disclosure required by this Item, an investment fund should, for each long position in a derivative that is held by the investment fund for purposes other than hedging and for each index participation unit held by the investment fund, consider that it holds directly the underlying interest of that derivative or its proportionate share of the securities held by the issuer of the index participation unit.*
- (8) If an investment fund invests substantially all of its assets directly or indirectly (through the use of derivatives) in securities of one other fund, list only the 25 largest holdings of the other investment fund by percentage of net asset value of the other investment fund, as disclosed by the other investment fund as at the most recent quarter end.*
- (9) If the investment fund invests in other investment funds, include a statement to the effect that the prospectus and other information about the underlying investment funds are available on the internet at www.sedar.com.*
- (10) A labour sponsored or venture capital fund must disclose its top 25 positions, but is not required to express any of its venture investments as a percentage of the fund's net asset value if it complies with the conditions in Part 8 of the Instrument to be exempt from disclosing the individual current values of venture investments in its statement of investment portfolio.*

Form 45-106F1 Report of Exempt Distribution**A. General Instructions****1. Filing instructions**

An issuer or underwriter that is required to file a report of exempt distribution and pay the applicable fee must file the report and pay the fee as follows:

- In British Columbia – through BCSC eServices at <http://www.bcsc.bc.ca>.
- In Ontario - through the online e-form available at <http://www.osc.gov.on.ca>.
- In all other jurisdictions - through the System for Electronic Document Analysis and Retrieval (SEDAR) in accordance with National Instrument 13-101 *System for Electronic Document Analysis and Retrieval (SEDAR)* if required, or otherwise with the securities regulatory authority or regulator, as applicable, in the applicable jurisdictions at the addresses listed at the end of this form.

The issuer or underwriter must file the report in a jurisdiction of Canada if the distribution occurs in the jurisdiction. If a distribution is made in more than one jurisdiction of Canada, the issuer or underwriter may satisfy its obligation to file the report by completing a single report identifying all purchasers, and file the report in each jurisdiction of Canada in which the distribution occurs. Filing fees payable in a particular jurisdiction are not affected by identifying all purchasers in a single report.

In order to determine the applicable fee in a particular jurisdiction of Canada, consult the securities legislation of that jurisdiction.

2. Issuers located outside of Canada

If an issuer located outside of Canada determines that a distribution has taken place in a jurisdiction of Canada, include information about purchasers resident in that jurisdiction only.

3. Multiple distributions

An issuer may use one report for multiple distributions occurring within 10 days of each other, provided the report is filed on or before the 10th day following the first distribution date. However, an investment fund issuer that is relying on the exemptions set out in subsection 6.2(2) of NI 45-106 may file the report annually in accordance with that subsection.

4. References to purchaser

References to a purchaser in this form are to the beneficial owner of the securities.

However, if a trust company, trust corporation, or registered adviser described in paragraph (p) or (q) of the definition of “accredited investor” in section 1.1 of NI 45-106 has purchased the securities on behalf of a fully managed account, provide information about the trust company, trust corporation or registered adviser only; do not include information about the beneficial owner of the fully managed account.

5. References to issuer

References to “issuer” in this form include an investment fund issuer and a non-investment fund issuer, unless otherwise specified.

6. Investment fund issuers

If the issuer is an investment fund, complete Items 1-3, 6-8, 10, 11 and Schedule 1 of this form.

7. Mortgage investment entities

If the issuer is a mortgage investment entity, complete all applicable items of this form other than Item 6.

8. Language

The report must be filed in English or in French. In Québec, the issuer or underwriter must comply with linguistic rights and obligations prescribed by Québec law.

9. Currency

All dollar amounts in the report must be in Canadian dollars. If the distribution was made or any compensation was paid in connection with the distribution in a foreign currency, convert the currency to Canadian dollars using the daily noon exchange rate of the Bank of Canada on the distribution date. If the distribution date occurs on a date when the daily noon exchange rate of the Bank of Canada is not available, convert the currency to Canadian dollars using the most recent closing exchange rate of the Bank of Canada available before the distribution date. For investment funds in continuous distribution, convert the currency to Canadian dollars using the average daily noon exchange rate of the Bank of Canada for the distribution period covered by the report.

If the Bank of Canada no longer publishes a daily noon exchange rate and closing exchange rate, convert foreign currency using the daily single indicative exchange rate of the Bank of Canada in the same manner described in each of the three scenarios above.

If the distribution was not made in Canadian dollars, provide the foreign currency in Item 7(a) of the report.

10. Date of information in report

Unless otherwise indicated in this form, provide the information as of the distribution end date.

11. Date of formation

For the date of formation, provide the date on which the issuer was incorporated, continued or organized (formed). If the issuer resulted from an amalgamation, arrangement, merger or reorganization, provide the date of the most recent amalgamation, arrangement, merger or reorganization.

f) Summary of the distribution by jurisdiction and exemption

State the total dollar amount of securities distributed and the number of purchasers for each jurisdiction of Canada and foreign jurisdiction where a purchaser resides and for each exemption relied on in Canada for that distribution. However, if an issuer located outside of Canada completes a distribution in a jurisdiction of Canada, include distributions to purchasers resident in that jurisdiction of Canada only.

This table requires a separate line item for: (i) each jurisdiction where a purchaser resides, (ii) each exemption relied on in the jurisdiction where a purchaser resides, if a purchaser resides in a jurisdiction of Canada, and (iii) each exemption relied on in Canada, if a purchaser resides in a foreign jurisdiction.

For jurisdictions within Canada, state the province or territory, otherwise state the country.

Form 45-106F2
*Offering Memorandum for Non-Qualifying Issuers***

A. General Instructions

1. Draft the offering memorandum so that it is easy to read and understand. Be concise and use clear, plain language. Avoid technical terms. If technical terms are necessary, provide definitions.
2. Address the items required by the form in the order set out in the form. However, it is not necessary to provide disclosure about an item that does not apply.
3. The issuer may include additional information in the offering memorandum other than that specifically required by the form. An offering memorandum is generally not required to contain the level of detail and extent of disclosure required by a prospectus. Generally, this description should not exceed 2 pages. However, an offering memorandum must provide a prospective purchaser with sufficient information to make an informed investment decision.
4. The issuer may wrap the offering memorandum around a prospectus or similar document. However, all matters required to be disclosed by the offering memorandum must be addressed and the offering memorandum must provide a cross-reference to the page number or heading in the wrapped document where the relevant information is contained. The certificate to the offering memorandum must be modified to indicate that the offering memorandum, including the document around which it is wrapped, does not contain a misrepresentation.
5. It is an offence to make a misrepresentation in the offering memorandum. This applies both to information that is required by the form and to additional information that is provided. Include particulars of any material facts, which have not been disclosed under any of the Item numbers and for which failure to disclose would constitute a misrepresentation in the offering memorandum. Refer also to section 3.8(3) of Companion Policy 45-106CP for additional information.
6. When the term “related party” is used in this form, it refers to:
 - (a) a director, officer, promoter or control person of the issuer;
 - (b) in regard to a person referred to in (a), a child, parent, grandparent or sibling, or other relative living in the same residence;
 - (c) in regard to a person referred to in (a) or (b), his or her spouse or a person with whom he or she is living in a marriage-like relationship;
 - (d) an insider of the issuer;
 - (e) a company controlled by one or more individuals referred to in (a) to (d); and
 - (f) in the case of an insider, promoter or control person that is not an individual, any person that controls that insider, promoter or control person.

(If the issuer is not a reporting issuer, the reference to “insider” includes persons or companies who would be insiders of the issuer if that issuer were a reporting issuer.)

7. Disclosure is required in item 3.1 of compensation paid directly or indirectly by the issuer or a related party to a director, officer, promoter and/or principal holder if the issuer receives a direct benefit from such compensation paid.

8. Refer to National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (NI 43-101) when disclosing scientific or technical information for a mineral project of the issuer.

9. If an oil and gas issuer is disclosing information about its oil and gas activities, it must ensure that the information is disclosed in accordance with Part 4 and Part 5 of National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* (NI 51-101). Under section 5.3 of NI 51-101, disclosure of reserves or resources must be consistent with the reserves and resources terminology and categories set out in the Canadian Oil and Gas Evaluation Handbook. For the purposes of this instruction, references to reporting issuer in Part 4 and Part 5 of NI 51-101 will be deemed to include all issuers.

10. Securities legislation restricts what can be told to investors about the issuer’s intent to list or quote securities on an exchange or market. Refer to applicable securities legislation before making any such statements.

11. If an issuer uses this form in connection with a distribution under an exemption other than section 2.9 (*offering memorandum*) of National Instrument 45-106 *Prospectus and Registration Exemptions*, the issuer must modify the disclosure in item 11 to correctly describe the purchaser’s rights. If a purchaser does not have statutory or contractual rights of action in the event of a misrepresentation in the offering memorandum, that fact must be stated in bold on the face page.

12. During the course of a distribution of securities, any material forward-looking information disseminated must only be that which is set out in the offering memorandum. If an extract of FOFI, as defined in National Instrument 51-102 *Continuous Disclosure Obligations* (NI 51-102), is disseminated, the extract or summary must be reasonably balanced and have a cautionary note in boldface stating that the information presented is not complete and that complete FOFI is included in the offering memorandum.

B. Financial Statements - General

1. All financial statements, operating statements for an oil and gas property that is an acquired business or a business to be acquired, and summarized financial information as to the aggregated amounts of assets, liabilities, revenue and profit or loss of an acquired business or business to be acquired that is, or will be, an investment accounted for by the issuer using the equity method included in the offering memorandum must comply with National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*, regardless of whether the issuer is a reporting issuer or not.

Under National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*, financial statements are generally required to be prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises. An issuer using this form cannot use Canadian GAAP applicable to private enterprises, except, subject to the requirements of NI 52-107, certain issuers may use Canadian GAAP applicable to private enterprises for financial statements for a business referred to in C.1. An issuer that is not a reporting issuer may prepare acquisition statements in accordance with the requirements of NI 52-107 as if the issuer were a venture issuer as defined in NI 51-102. For the purposes of Form 45-106F2, the “applicable time” in the definition of a venture issuer is the acquisition date.

2. Include all financial statements required by these instructions in the offering memorandum immediately before the certificate page of the offering memorandum.
3. If the issuer has not completed one financial year or its first financial year end is less than 120 days from the date of the offering memorandum, include in the offering memorandum financial statements of the issuer consisting of:
 - (a) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for the period from inception to a date not more than 90 days before the date of the offering memorandum;
 - (b) a statement of financial position as at the end of the period referred to in paragraph (a); and
 - (c) notes to the financial statements.
4. If the issuer has completed one or more financial years, include in the offering memorandum annual financial statements of the issuer consisting of:
 - (a) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for:
 - (i) the most recently completed financial year that ended more than 120 days before the date of the offering memorandum; and
 - (ii) the financial year immediately preceding the financial year in clause (i), if any;
 - (b) a statement of financial position as at the end of each of the periods referred to in paragraph (a);
 - (c) a statement of financial position as at the beginning of the earliest comparative period for which financial statements that are included in the offering memorandum comply with IFRS in the case of an issuer that:
 - (i) discloses in its annual financial statements an unreserved statement of compliance with IFRS; and
 - (ii) does any of the following:
 - (A) applies an accounting policy retrospectively in its annual financial statements;
 - (B) makes a retrospective restatement of items in its annual financial statements;
 - (C) reclassifies items in its annual financial statements;
 - (d) in the case of an issuer's first IFRS financial statements as defined in NI 51-102, the opening IFRS statement of financial position at the date of transition to IFRS as defined in NI 51-102; and
 - (e) notes to the financial statements.

6. An issuer is not required to include the comparative financial information for the period in B.4.(a)(ii) in an offering memorandum if the issuer includes financial statements for a financial year ended less than 120 days before the date of the offering memorandum.

7. For an issuer that is not an investment fund, the term "interim period" has the meaning set out in NI 51-102. In most cases, an interim period is a period ending nine, six, or three months before the end of a financial year. For an issuer that is an investment fund, the term "interim period" has the meaning set out in National Instrument 81-106 *Investment Fund Continuous Disclosure* (NI 81-106).

8. The comparative financial information required under B.5(b) and (c) may be omitted if the issuer has not previously prepared financial statements in accordance with its current or, if applicable, its previous GAAP.
9. The financial statements required by B.3 and the financial statements of the most recently completed financial period referred to in B.4 must be audited. The financial statements required under B.5, B.6 and the comparative financial information required by B.4 may be unaudited; however, if any of those financial statements have been audited, the auditor's report must be included in the offering memorandum.
10. Refer to National Instrument 52-108 *Auditor Oversight* for requirements relating to reporting issuers and public accounting firms.
11. All unaudited financial statements and unaudited comparatives must be clearly labelled as unaudited.
12. If the offering memorandum does not contain audited financial statements for the issuer's most recently completed financial year, and if the distribution is ongoing, update the offering memorandum to include the annual audited financial statements and the accompanying auditor's report as soon as the issuer has approved the audited financial statements, but in any event no later than the 120th day following the financial year end.
13. The offering memorandum does not have to be updated to include interim financial reports for periods completed after the date that is 60 days before the date of the offering memorandum unless it is necessary to prevent the offering memorandum from containing a misrepresentation.
14. Forward looking information, as defined in NI 51-102, included in an offering memorandum must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in an offering memorandum must comply with Part 4B of NI 51-102. For an issuer that is not a reporting issuer, references to "reporting issuer" in section 4A.2, section 4A.3 and Part 4B of NI 51-102 should be read as references to an "issuer". Additional guidance may be found in the companion policy to NI 51-102.
15. If the issuer is a limited partnership, in addition to the financial statements required for the issuer, include in the offering memorandum the financial statements in accordance with Part B for the general partner and, if the limited partnership has active operations, for the limited partnership.
16. Despite section B.5, an issuer may include a comparative interim financial report of the issuer for the most recent interim period, if any, ended:

- (a) subsequent to the most recent financial year in respect of which annual financial statements of the issuer are included in the offering memorandum; and
- (b) more than 90 days before the date of the offering memorandum.

This section does not apply unless:

- (a) the comparative interim financial report is the first interim financial report required to be filed in the year of adopting IFRS, and the issuer is disclosing, for the first time, a statement of compliance with International Accounting Standard 34 Interim Financial Reporting;
- (b) the issuer is a reporting issuer in the local jurisdiction immediately before the date of the offering memorandum; and
- (c) the offering memorandum is dated before June 29, 2012.

C. Financial Statements - Business Acquisitions

1. If the issuer:

(a) has acquired a business during the past two years and the audited financial statements of the issuer included in the offering memorandum do not include the results of the acquired business for 9 consecutive months; or

(b) is proposing to acquire a business and the acquisition has progressed to a state where a reasonable person would believe that the likelihood of the acquisition being completed is high;

include the financial statements specified in C.4 for the business if either of the tests in C.2 is met, irrespective of how the issuer accounts, or will account, for the acquisition.

2. Include the financial statements specified in C.4 for a business referred to in C.1 if either:

(a) the issuer's proportionate share of the consolidated assets of the business exceeds 40% of the consolidated assets of the issuer calculated using the annual financial statements of each of the issuer and the business for the most recently completed financial year of each that ended before the acquisition date or, for a proposed acquisition, the date of the offering memorandum; or

(b) the issuer's consolidated investments in and advances to the business as at the acquisition date or the proposed date of acquisition exceeds 40% of the consolidated assets of the issuer, excluding any investments in or advances to the business, as at the last day of the issuer's most recently completed financial year that ended before the date of acquisition or the date of the offering memorandum for a proposed acquisition. For information about how to perform the investment test in this paragraph, please refer to subsections 8.3(4.1) and (4.2) of NI 51-102. Additional guidance may be found in the companion policy to NI 51-102.

3. If an issuer or a business has not yet completed a financial year, or its first financial year ended within 120 days of the offering memorandum date, use the financial statements referred to in B.3 to make the calculations in C.2.

4. If under C.2 you must include in an offering memorandum financial statements for a business, the financial statements must include:

(a) if the business has not completed one financial year or its first financial year end is less than 120 days from the date of the offering memorandum:

(i) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows:

(A) for the period from inception to a date not more than 90 days before the date of the offering memorandum; or

 - (D) notes to the financial statements.

Refer to Instruction B.7 for the meaning of “interim period”

5. The information for the most recently completed financial period referred to in C.4(b)(i) must be audited and accompanied by an auditor's report. The financial statements required under C.4(a), C.4(b)(ii) and the comparative financial information required by C.4(b)(i) may be unaudited; however, if those financial statements or comparative financial information have been audited, the auditor's report must be included in the offering memorandum.

6. If the offering memorandum does not contain audited financial statements for a business referred to in C.1 for the business's most recently completed financial year that ended before the acquisition date and the distribution is ongoing, update the offering memorandum to include those financial statements accompanied by an auditor's report when they are available, but in any event no later than the date 120 days following the year-end.

7. The term "business" should be evaluated in light of the facts and circumstances involved. Generally, a separate entity or a subsidiary or division of an entity is a business and, in certain circumstances, a lesser component of an entity may also constitute a business, whether or not the subject of the acquisition previously prepared financial statements. The subject of an acquisition should be considered a business where there is, or the issuer expects there will be, continuity of operations. The issuer should consider:

- (a) whether the nature of the revenue producing activity or potential revenue producing activity will remain generally the same after the acquisition; and
- (b) whether any of the physical facilities, employees, marketing systems, sales forces, customers, operating rights, production techniques or trade names are acquired by the issuer instead of remaining with the vendor after the acquisition.

8. If a transaction or a proposed transaction for which the likelihood of the transaction being completed is high has been or will be a reverse take-over as defined in NI 51-102, include financial statements for the legal subsidiary in the offering memorandum in accordance with Part A. The legal parent is considered to be the business acquired. C.1 may also require financial statements of the legal parent.

9. An issuer satisfies the requirements in C.4 if the issuer includes in the offering memorandum the financial statements required in a business acquisition report under NI 51-102.

D. Financial Statement - Exemptions

1. An issuer will satisfy the financial statement requirements of this form if it includes the financial statements required by securities legislation for a prospectus.

2. Notwithstanding the requirements in section 3.3(1)(a)(i) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*, an auditor's report that accompanies financial statements of an issuer or a business contained in an offering memorandum of a non-reporting issuer may express a qualification of opinion relating to inventory if:

- (a) the issuer includes in the offering memorandum a statement of financial position that is for a date that is subsequent to the date to which the qualification relates; and
- (b) the statement of financial position referred to in paragraph (a) is accompanied by an auditor's report that does not express a qualification of opinion relating to closing inventory; and
- (c) the issuer has not previously filed financial statements for the same entity accompanied by an auditor's report for a prior year that expressed a qualification of opinion relating to inventory.

 - (i) summarizes information as to the aggregated amounts of assets, liabilities, revenue and profit or loss of the business; and
 - (ii) describes the issuer's proportionate interest in the business and any contingent issuance of securities by the business that might significantly affect the issuer's share of profit or loss;
- (b) the financial information provided under D.3(a) for the most recently completed financial year has been audited, or has been derived from audited financial statements of the business; and
- (c) the offering memorandum discloses that:
 - (i) the financial information provided under D.3(a) for any completed financial year has been audited, or identifies the audited financial statements from which the financial information provided under D.3(a) has been derived; and
 - (ii) the audit opinion with respect to the financial information or financial statements referred to in D.3(c)(i) was an unmodified opinion.

4. Financial statements relating to the acquisition or proposed acquisition of a business that is an interest in an oil and gas property are not required to be included in an offering memorandum if the acquisition is significant based only on the asset test or:

- (a) the issuer is unable to provide the financial statements in respect of the significant acquisition otherwise required because those financial statements do not exist or the issuer does not have access to those financial statements;
- (b) the acquisition was not or will not be a reverse take-over, as defined in NI 51-102; and
- (c) [Repealed]
- (d) the offering memorandum contains alternative disclosure for the business which includes:
 - (i) an operating statement for the business or related businesses for each of the financial periods for which financial statements would, but for this section, be required under C.4 prepared in accordance with subsection 3.11(5) of National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*. The operating statement for the most recently completed financial period referred to in C.4(b)(i) must be audited;
 - (ii) a description of the property or properties and the interest acquired by the issuer;

- (iii) information with respect to the estimated reserves and related future net revenue attributable to the business, the material assumptions used in preparing the estimates and the identity and relationship to the issuer or to the seller of the person who prepared the estimates;
- (iv) actual production volumes of the property for the most recently completed year; and
- (v) estimated production volumes of the property for the first year reflected in the estimate disclosed under D.4(d)(iv).

5. Financial statements for a business that is an interest in an oil and gas property, or for the acquisition or proposed acquisition by an issuer of a property, are not required to be audited if during the 12 months preceding the acquisition date or the proposed acquisition date, the daily average production of the property on a barrel of oil equivalent basis (with gas converted to oil in the ratio of six thousand cubic feet of gas being the equivalent of one barrel of oil) is less than 20 % of the total daily average production of the seller for the same or similar periods and:

- (i) despite reasonable efforts during the purchase negotiations, the issuer was prohibited from including in the purchase agreement the rights to obtain an audited operating statement of the property;
- (ii) the purchase agreement includes representations and warranties by the seller that the amounts presented in the operating statement agree to the seller's books and records; and
- (iii) the offering memorandum discloses:
 - 1. that the issuer was unable to obtain an audited operating statement;
 - 2. the reasons for that inability;
 - 3. the fact that the purchase agreement includes the representations and warranties referred to in D.5(ii); and
 - 4. that the results presented in the operating statements may have been materially different if the statements had been audited.

**Instructions for Completing
Form 45-106F3
*Offering Memorandum for Qualifying Issuers***

A. General Instructions

1. Only a “qualifying issuer” may use this form.
2. An issuer using this form to draft an offering memorandum must incorporate by reference certain parts of its existing continuous disclosure base. An issuer that does not want to do this must use Form 45-106F2 *Offering Memorandum for Non-Qualifying Issuers*.
3. Draft the offering memorandum so that it is easy to read and understand. Be concise and use clear, plain language. Avoid technical terms. If technical terms are necessary, provide definitions.
4. Address the items required by the form in the order set out in the form. However, it is not necessary to provide disclosure about an item that does not apply.
5. The issuer may include additional information in the offering memorandum other than that specifically required by the form. The offering memorandum is generally not required to contain the level of detail and extent of disclosure required by a prospectus. However, an offering memorandum must provide a prospective purchaser with sufficient information to make an informed investment decision.
6. The issuer may wrap the offering memorandum around a prospectus or similar document. However, all matters required to be disclosed by the offering memorandum must be addressed and the offering memorandum must provide a cross-reference to the page number or heading in the wrapped document where the relevant information is contained. The certificate to the offering memorandum must be modified to indicate that the offering memorandum, including the document around which it is wrapped, does not contain a misrepresentation.
7. It is an offence to make a misrepresentation in the offering memorandum. This applies both to information that is required by the form and to additional information that is provided. Include particulars of any material facts, which have not been disclosed under any of the Item numbers and for which failure to disclose would constitute a misrepresentation in the offering memorandum. Refer also to section 3.8(3) of Companion Policy 45-106CP for additional information.
8. Refer to National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (NI 43-101) when disclosing scientific or technical information for a mineral project of the issuer.
9. If an oil and gas issuer is disclosing information about its oil and gas activities, it must ensure that the information is disclosed in accordance with Part 4 and Part 5 of National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* (NI 51-101). Under section 5.3 of NI 51-101, disclosure of reserves or resources must be consistent with the reserves and resources terminology and categories set out in the Canadian Oil and Gas Evaluation Handbook. For the purposes of this instruction, references to reporting issuer in Part 4 and Part 5 of NI 51-101 will be deemed to include all issuers.

10. Securities legislation restricts what can be told to investors about the issuer's intent to list or quote securities on an exchange or market. Refer to applicable securities legislation before making any such statements.

11. If an issuer uses this form in connection with a distribution under an exemption other than section 2.9 (*offering memorandum*) of National Instrument 45-106 *Prospectus and Registration Exemptions*, the issuer must modify the disclosure in item 12 to correctly describe the purchaser's rights. If a purchaser does not have statutory or contractual rights of action in the event of a misrepresentation in the offering memorandum, that fact must be stated in bold on the face page.

12. During the course of a distribution of securities, any material forward-looking information disseminated must only be that which is set out in the offering memorandum. If an extract of FOFI, as defined in NI 51-102 *Continuous Disclosure Obligations* (NI 51-102), is disseminated, the extract or summary must be reasonably balanced and have a cautionary note in boldface stating that the information presented is not complete and that complete FOFI is included in the offering memorandum.

B. Financial Statements

1. All financial statements incorporated by reference into the offering memorandum must comply with NI 51-102 and National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards*.

2. Forward-looking information included in an offering memorandum must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in an offering memorandum must comply with Part 4B of NI 51-102. Additional guidance may be found in the companion policy to NI 51-102.

C. Required Updates to the Offering Memorandum

1. If the offering memorandum does not incorporate by reference the issuer's AIF, and audited financial statements for its most recently completed financial year, update the offering memorandum for any financial statements that are required to be filed prior to the distribution to incorporate by reference the documents as soon as the documents are filed on SEDAR.

2. Except for documents referred to in C.1, the offering memorandum does not have to be updated to incorporate by reference interim financial reports or other documents referred to in D.1 unless it is necessary to do so to prevent the offering memorandum from containing a misrepresentation.

D. Information about the Issuer

1. *Existing Documents Incorporated by Reference* - In addition to any other document that an issuer may choose to incorporate by reference, the issuer must incorporate the following documents:

- (a) the issuer's AIF for the issuer's most recently completed financial year for which annual financial statements are either required to be filed or have been filed;
- (b) material change reports, except confidential material change reports, filed since the end of the financial year in respect of which the issuer's AIF is filed;

- (d) the comparative financial statements, together with the accompanying auditor's report, for the issuer's most recently completed financial year for which annual financial statements are required to be filed or have been filed;
- (e) if, before the offering memorandum is filed, financial information about the issuer for a financial period more recent than the period for which financial statements are required under D.1(c) and (d) is publicly disseminated by, or on behalf of, the issuer through news release or otherwise, the content of the news release or public communication;
- (f) management's discussion and analysis (MD&A) as required under NI 51-102 for the period specified in D.1(c) and D.1(d);
- (g) each business acquisition report required to be filed under NI 51-102 for acquisitions completed since the beginning of the financial year in respect of which the issuer's AIF is filed, unless the issuer incorporated the business acquisition report by reference into its AIF for its most recently completed financial year for which annual financial statements are either required to be filed or have been filed, or incorporated at least 9 months of the acquired business or related businesses operations into the issuer's most recent audited financial statements;
- (h) any information circular filed by the issuer since the beginning of the financial year in respect of which the issuer's most recent AIF is filed, other than an information circular prepared in connection with an annual general meeting if the issuer has filed and incorporated by reference an information circular for a subsequent annual general meeting;
- (i) if the issuer has oil and gas activities, as defined in National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*, the most recent Form 51-101F1, Form 51-101F2 and Form 51-101F3, filed by an SEC issuer, unless:
 - (i) the issuer's current AIF is in the form of Form 51-102F2; or
 - (ii) the issuer is otherwise exempted from the requirements of NI 51-101;
- (j) any other disclosure document which the issuer has filed pursuant to an undertaking to a provincial and territorial securities regulatory authority or regulator since the beginning of the financial year in respect of which the issuer's most recent AIF is filed; and
- (k) any other disclosure document of the type listed above that the issuer has filed pursuant to an exemption from any requirement under securities legislation since the beginning of the financial year in respect of which the issuer's most recent AIF is filed.

2. *Mineral Property* - If a material part of the funds available as a result of the distribution is to be expended on a particular mineral property and if the issuer's most recent AIF does not contain the disclosure required under section 5.4 of Form 51-102F2 for the property or that disclosure is inadequate or incorrect due to changes, disclose the information required under section 5.4 of Form 51-102F2.

An issuer may incorporate any additional document provided that the document is available for viewing on the SEDAR website and that, on request by a purchaser, the issuer provides a copy of the document to the purchaser, without charge.

You are buying Exempt Market Securities

They are called *exempt market securities* because two parts of securities law do not apply to them. If an issuer wants to sell *exempt market securities* to you:

- the issuer does not have to give you a prospectus (a document that describes the investment in detail and gives you some legal protections), and
- the securities do not have to be sold by an investment dealer registered with a securities regulatory authority or regulator.

There are restrictions on your ability to resell *exempt market securities*. *Exempt market securities* are more risky than other securities.

You will receive an offering memorandum Read the offering memorandum carefully because it has important information about the issuer and its securities. Keep the offering memorandum because you have rights based on it. Talk to a lawyer for details about these rights.

You will not receive advice [*Instruction: Delete if sold by registrant*]

You will not get professional advice about whether the investment is suitable for you. But you can still seek that advice from a registered adviser or registered dealer. In Manitoba, Northwest Territories, Nunavut, Prince Edward Island and Yukon to qualify as an eligible investor, you may be required to obtain that advice.

The securities you are buying are not listed [*Instruction: Delete if securities are listed or quoted*]

The securities you are buying are not listed on any stock exchange, and they may never be listed. You may never be able to sell these securities.

The issuer of your securities is a non-reporting issuer [*Instruction: Delete if issuer is reporting*]

A *non-reporting issuer* does not have to publish financial information or notify the public of changes in its business. You may not receive ongoing information about this issuer.

For more information on the exempt market, call your local securities regulatory authority or regulator. [*Instruction: Insert the name, telephone number and website address of the securities regulatory authority or regulator in the jurisdiction in which you are selling these securities.*]

Guidance

Refer to paragraph 2.1(3)(g) of NI 45-106 which provides that the subscription price must be lower than the market price if there is a published market for the securities. If there is no published market, either the subscription price must be lower than the fair value of the securities or insiders are not permitted to increase their proportionate interest in the issuer through the rights offering.

14. Expiry of offer

State the following in bold:

“When does the offer expire?”

Provide the date and time that the offer expires.

Guidance

Refer to paragraph 2.1(6)(b) of NI 45-106 which provides that the prospectus exemption is not available where the exercise period for the rights is less than 21 days or more than 90 days after the day the rights offering notice is sent to security holders.

PART 3 USE OF AVAILABLE FUNDS

18. Available funds

Using the following table, disclose the available funds after the rights offering. If you plan to combine additional sources of funding with the offering proceeds to achieve your principal capital-raising purpose, provide details about each additional source of funding.

If there is no minimum offering or stand-by commitment, or if the minimum offering or stand-by commitment represents less than 75% of the rights offering, include threshold disclosure if only 15%, 50% or 75% of the entire offering is taken up.

Disclose the amount of working capital deficiency, if any, of the issuer as of the most recent month end. If the available funds will not eliminate the working capital deficiency, state how you intend to eliminate or manage the deficiency. If there has been a significant change in the working capital since the most recently audited annual financial statements, explain those changes.

Guidance

We would consider a significant change to include a change in the working capital that results in material uncertainty regarding the issuer’s going concern assumption, or a change in the working capital balance from positive to deficiency or vice versa.

“How will we use the available funds?”

Using the following table, provide a detailed breakdown of how you will use the available funds. Describe in reasonable detail each of the principal purposes, with approximate amounts.

Instructions:

- If the issuer has significant short-term liquidity requirements, discuss, for each threshold amount (i.e., 15%, 50% and 75%), the impact, if any, of raising that amount on its liquidity, operations, capital resources and solvency. Short-term liquidity requirements include non-discretionary expenditures for general corporate purposes and overhead expenses, significant short-term capital or contractual commitments, and expenditures required to achieve stated business objectives.*

When discussing the impact of raising each threshold amount on your liquidity, operations, capital resources and solvency, include all of the following in the discussion:

- which expenditures will take priority at each threshold, and what effect this allocation would have on your operations and business objectives and milestones;
- the risks of defaulting on payments as they become due, and what effect the defaults would have on your operations;
- an analysis of your ability to generate sufficient amounts of cash and cash equivalents from other sources, the circumstances that could affect those sources and management's assumptions in conducting this analysis.

State the minimum amount required to meet the short-term liquidity requirements. In the event that the available funds could be less than the amount required to meet the short-term liquidity requirements, describe how management plans to discharge its liabilities as they become due. Include the assumptions management used in its plans.

If the available funds could be insufficient to cover the issuer's short-term liquidity requirements and overhead expenses for the next 12 months, include management's assessment of the issuer's ability to continue as a going concern. If there are material uncertainties that cast significant doubt upon the issuer's ability to continue as a going concern, state this fact in bold.

2. *If you will use more than 10% of available funds to reduce or retire indebtedness and the indebtedness was incurred within the two preceding years, describe the principal purposes for which the indebtedness was used. If the creditor is an insider, associate or affiliate of the issuer, identify the creditor and the nature of the relationship to the issuer and disclose the outstanding amount owed.*
3. *If you will use more than 10% of available funds to acquire assets, describe the assets. If known, disclose the particulars of the purchase price being paid for or being allocated to the assets or categories of assets, including intangible assets. If the vendor of the asset is an insider, associate or affiliate of the issuer, identify the vendor and nature of the relationship to the issuer, and disclose the method used to determine the purchase price.*
4. *If any of the available funds will be paid to an insider, associate or affiliate of the issuer, disclose in a note to the use of available funds table in item 19 the name of the insider, associate or affiliate, the relationship to the issuer, and the amount to be paid.*
5. *If you will use more than 10% of available funds for research and development of products or services,*
 - a. describe the timing and stage of research and development that management anticipates will be reached using the funds,*
 - b. describe the major components of the proposed programs you will use the available funds for, including an estimate of anticipated costs,*
 - c. state if you are conducting your own research and development, are subcontracting out the research and development or are using a combination of those methods, and*
 - d. describe the additional steps required to reach commercial production and an estimate of costs and timing.*
6. *If you may reallocate available funds, include the following statement:*
"We intend to spend the available funds as stated. We will reallocate funds only for sound business reasons."

20. How long will the available funds last?

State the following in bold:

“How long will the available funds last?”

Explain how long management anticipates the available funds will last. If you do not have adequate funds to cover anticipated expenses for the next 12 months, state the sources of financing that the issuer has arranged but not yet used. Also, provide an analysis of the issuer’s ability to generate sufficient amounts of cash and cash equivalents in the short term and the long term to maintain capacity, and to meet planned growth or to fund development activities. You should describe sources of funding and circumstances that could affect those sources that are reasonably likely to occur. If this results in material uncertainties that cast significant doubt upon the issuer’s ability to continue as a going concern, disclose this fact.

If you expect the available funds to last for more than 12 months, state this expectation.

PART 4 INSIDER PARTICIPATION

21. Intention of insiders

State the following in bold:

“Will insiders be participating?”

Provide the answer. If “yes”, provide details of insiders’ intentions to exercise their rights, to the extent known to the issuer after reasonable inquiry.

22. Holders of at least 10% before and after the rights offering

State the following in bold:

“Who are the holders of 10% or more of our securities before and after the rights offering?”

Provide this information in the following tabular form, to the extent known to the issuer after reasonable inquiry:

Name	Holdings before the offering	Holdings after the offering
[Name of security holder]	[State the number or amount of securities held and the percentage of security holdings this represents]	[State the number or amount of securities held and the percentage of security holdings this represents]

PART 5 DILUTION

23. Dilution

State the following in bold:

“If you do not exercise your rights, by how much will your security holdings be diluted?”

Provide a percentage in the rights offering circular and state the assumptions used, as appropriate.

- (b) securities held by a specified firm registrant in its capacity as an underwriter in the course of a distribution are considered not to be securities that the specified firm registrant holds, has the power to direct the voting of, or has direct or indirect beneficial ownership of.

- (3) Subsection (2) does not apply to a distribution:

- (a) For a distribution that is made entirely in Canada, the calculation shall be based on the aggregate dollar value of securities distributed in Canada or the aggregate agents' fees relating to the distribution in Canada, and the aggregate dollar value of the distribution underwritten, or aggregate dollar value of agents' fees received, by the independent underwriter in Canada.
- (b) For a distribution that is made partly in Canada of securities of an issuer that is not a foreign issuer, the calculation shall be based on the aggregate dollar value of securities distributed in Canada and outside of Canada or the aggregate agents' fees relating to the distribution in Canada and outside of Canada, and the aggregate dollar value of the distribution underwritten, or aggregate dollar value of agents' fees received, by the independent underwriter in Canada and outside of Canada.
- (c) For a distribution that is made partly in Canada by a foreign issuer and that is not exempt from the requirements of subsection 2.1(2) by subsection 2.1(3) or by section 3.2, the calculation shall be based on the dollar value of securities distributed in Canada or the agents' fees relating to the distribution paid or payable in Canada, and the dollar value of the distribution underwritten, or aggregate dollar value of agents' fees received, by the independent underwriter in Canada.

5.2 Evidence of Exemption - Without limiting the manner in which an exemption under section 5.1 may be evidenced, the issuance by the regulator of a receipt for a prospectus or an amendment to a prospectus is evidence of the granting of the exemption if:

- (a) the person or company that sought the exemption has delivered to the regulator, on or before the date that the preliminary prospectus or an amendment to the preliminary prospectus was filed, a letter or memorandum describing the matters relating to the exemption and indicating why consideration should be given to the granting of the exemption; and
- (b) the regulator has not sent written notice to the contrary to the person or company that sought the exemption before, or concurrent with, the issuance of the receipt.

PART XLV
[Clause 2(ss)]

NATIONAL INSTRUMENT 81-107
INDEPENDENT REVIEW COMMITTEE FOR INVESTMENT FUNDS

Introduction

This National Instrument (the Instrument) contains both rules and accompanying commentary on those rules. The Canadian Securities Administrators (the CSA or we), have made these rules under authority granted by the securities legislation of their jurisdiction.

The commentary may explain the implications of a rule, offer examples or indicate different ways to comply with a rule. It may expand on a particular subject without being exhaustive. The commentary is not legally binding, but it does reflect the views of the CSA. Commentary always appears in italic type and, outside of this introduction, is titled 'Commentary'.

PART 1 DEFINITIONS AND APPLICATION

1.1 Investment funds subject to Instrument

- (1) This Instrument applies to an investment fund that is a reporting issuer.
- (2) In Québec, this Instrument does not apply to a reporting issuer organized under:
 - (a) an Act to establish the Fonds de solidarité des travailleurs du Québec (F.T.Q.) R.S.Q., chapter F-3.2.1;
 - (b) an Act to establish Fondation, le Fonds de développement de la Confédération des syndicats nationaux pour la coopération et l'emploi (R.S.Q., chapter F-3.1.2); and
 - (c) an Act constituting Capital régional et coopératif Desjardins (R.S.Q., chapter C-6.1).

Commentary

1 This Instrument applies to all publicly offered mutual funds and non-redeemable investment funds. Investment funds subject to this Instrument include:

- *labour sponsored or venture capital funds;*
- *scholarship plans;*
- *mutual funds and closed-end funds listed and posted for trading on a stock exchange or quoted on an over-the-counter market; and*
- *investment funds not governed by National Instrument 81-102 Investment Funds (NI 81-102).*

2 This Instrument does not regulate mutual funds that are not reporting issuers (commonly referred to as pooled funds), for example, mutual funds that sell securities to the public only under capital raising exemptions in securities legislation.

1.2 Definition of conflict of interest matter

In this Instrument, “**a conflict of interest matter**” means:

- (a) a situation where a reasonable person would consider a manager, or an entity related to the manager, to have an interest that may conflict with the manager’s ability to act in good faith and in the best interests of the investment fund; or
- (b) a conflict of interest or self-dealing provision listed in Appendix A that restricts or prohibits an investment fund, a manager or an entity related to the manager from proceeding with a proposed action.

Commentary

1 Section 5.1 of this Instrument requires that a manager refer all conflict of interest matters to the independent review committee (IRC).

2 The CSA do not consider the “reasonable person” test described in clause (a) to capture inconsequential matters. It is expected that, among the factors the manager will look to for guidance to identify conflict of interest matters caught by this Instrument will be industry best practices. The CSA expect, however, each manager to consider the nature of its investment fund operations when making its decisions about which conflict of interest matters it faces for the funds it manages.

3 The types of conflicts of interest faced by the portfolio manager or portfolio adviser (or sub-adviser) or any other entity related to the manager this Instrument captures relate to the decisions made on behalf of the investment fund that may affect or influence the manager’s ability to make decisions in good faith and in the best interests of the investment fund. This Instrument is not intended to capture the conflicts of interest at the service provider level generally.

The CSA expect the manager to consider whether a particular portfolio manager or portfolio adviser or any other ‘entity related to the manager’ would have any conflicts of interest falling within the definition.

For example, clause (a) might, depending on the circumstances, capture these conflicts of the portfolio manager or portfolio adviser:

- *portfolio management processes for the investment fund, including allocation of investments among a family of investment funds; and*
- *trading practices for the investment fund, including negotiating soft dollar arrangements with dealers with whom the adviser places portfolio transactions for the investment fund.*

4 The CSA contemplate that an “entity related to the manager” will have its own policies and procedures to address any conflicts of interest in its operations. It is expected the manager will make reasonable inquiries of these policies and procedures. The conflicts of interest facing these entities, including any third party portfolio manager or portfolio adviser, may affect, or be perceived to affect, the manager’s ability to make decisions in the best interests of the investment fund. The manager is expected to refer such conflicts to the IRC under this Instrument.

5 For greater certainty, clause (b) requires that a “conflict of interest matter” includes any course of action that the investment fund, the manager or an entity related to the manager would otherwise be restricted or prohibited from proceeding with because of a conflict of interest or self-dealing prohibition in securities legislation. These include the types of transactions described under subsection 5.2(1) of this Instrument.

1.3 Definition of entity related to the manager

In this Instrument, “**entity related to the manager**” means:

- (a) a person or company that can direct or materially affect the direction of the management and policies of the manager or the investment fund, other than as a member of the independent review committee; or
- (b) an associate, affiliate, partner, director, officer or subsidiary of the manager or of a person or company referred to in paragraph (a).

Commentary

1 The CSA consider an ‘entity related to the manager’ in clause (a) to include:

- the portfolio manager or portfolio adviser (or sub-adviser) of the investment fund, including any third party portfolio manager or portfolio adviser;*
- the administrator of a scholarship plan; and*
- any person or company that can materially direct or affect the manager’s management or policies, including through contractual agreements or ownership of voting securities.*

1.4 Definition of independent

(1) In this Instrument, a member of the independent review committee is “**independent**” if the member has no material relationship with the manager, the investment fund, or an entity related to the manager.

(2) For the purposes of subsection (1), a material relationship means a relationship which could reasonably be perceived to interfere with the member’s judgment regarding a conflict of interest matter.

Commentary

1 Under subsection 3.7(3), all members of the IRC must be independent of the manager, the investment fund and entities related to the manager. The CSA believe that all members must be independent because the principal function of the IRC is to review activities and transactions that involve inherent conflicts of interest between an investment fund and its manager. Given this role, it is important that the members of the IRC are free from conflicting loyalties.

2 While the members of the IRC should not themselves be subject to inherent conflicts or divided loyalties, the CSA recognize that there may be inherent conflicts relating to inter-fund issues where a single IRC acts for a family of investment funds. In those cases, this Instrument requires members to conduct themselves in accordance with their written charter and in accordance with the standard of care set out in this Instrument.

The CSA do not consider the IRC’s ability to set its own reasonable compensation to be a material relationship with the manager or investment fund under subsection 1.4(1).

3 A material relationship referred to in subsection 1.4(1) may include an ownership, commercial, charitable, industrial, banking, consulting, legal, accounting or familial relationship. The CSA expect managers and IRC members to consider both past and current relationships when determining whether a material relationship exists.

For example, depending on the circumstances, the following individuals may be independent under section 1.4:

- an independent member of an existing advisory board or IRC of an investment fund;*
- an independent member or former independent member of the board of directors, or of a special committee of the board of directors, of an investment fund;*
- a former independent member of the board of directors, or special committee of the board of directors, of the manager;*
- an individual appointed as a trustee for an investment fund; and*
- an independent member of the board of directors, or of a special committee of the board of directors, of a registered trust company that acts as trustee for an investment fund.*

By way of further example, the CSA consider it unlikely that the following individuals would be independent under section 1.4:

- a person who is or has recently been an employee or executive officer of the manager or investment fund; and*
- a person whose immediate family member is or has recently been an executive officer of the manager or investment fund.*

The CSA also consider that it would be rare that a member of the board of directors, or special committee of the board of directors, of a manager could be “independent” within the meaning of this Instrument. One such example of when a member of the board of directors of a manager could be “independent” may be owner-operated investment funds, sold exclusively to defined groups of investors, such as members of a trade or professional association or co-operative organization, who directly or indirectly, own the manager. In the case of these investment funds, the CSA view the interests of the independent members of the board of directors of the manager and investors as aligned.

1.5 Definition of inter-fund self-dealing investment prohibitions

In this Instrument, “**inter-fund self-dealing investment prohibitions**” means the provisions listed in Appendix B that prohibit:

- (a) a portfolio manager from knowingly causing any investment portfolio managed by it to purchase or sell; or
- (b) an investment fund from purchasing or selling;

the securities of an issuer from or to the account of a responsible person, an associate of a responsible person or the portfolio manager.

1.6 Definition of manager

In this Instrument, “**manager**” means a person or company that directs the business, operations and affairs of an investment fund.

Commentary

1 *The CSA are of the view that the term “manager” should be interpreted broadly.*

The term “manager” is intended to include a group of members on the board of an investment fund or the general partner of an investment fund organized as a limited partnership, where it acts in the capacity of ‘manager’/decision-maker.

2 *The CSA have, in connection with prospectus reviews, on occasion encountered investment funds structured in unusual ways. The CSA may examine an investment fund if it seems that it was structured to avoid the operation of this Instrument.*

1.7 Definition of standing instruction

In this Instrument, “**standing instruction**” means a written approval or recommendation from the independent review committee that permits the manager to proceed with a proposed action under section 5.2 or 5.3 on an ongoing basis.

PART 2 FUNCTIONS OF THE MANAGER

2.1 Manager standard of care

A manager in exercising its powers and discharging its duties related to the management of the investment fund must:

- (a) act honestly and in good faith, and in the best interests of the investment fund; and
- (b) exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Commentary

1 *This section introduces a required standard of care for managers in certain jurisdictions and is intended to create a uniform standard of care provision for managers of investment funds subject to this Instrument.*

2.2 Manager to have written policies and procedures

(1) Before proceeding with a conflict of interest matter or any other matter that securities legislation requires the manager to refer to the independent review committee, the manager must:

- (a) establish written policies and procedures that it must follow on that matter or on that type of matter, having regard to its duties under securities legislation; and
- (b) refer the policies and procedures to the independent review committee for its review and input.

(2) In establishing the written policies and procedures described in subsection (1), the manager must consider the input of the independent review committee, if any.

(3) The manager may revise its policies and procedures if it provides the independent review committee with a written description of any significant changes for the independent review committee’s review and input before implementing the revisions.

Commentary

1 Section 2.2 contemplates that a manager should identify for each investment fund the conflict of interest matters it expects will arise and that will be required to be referred to the IRC under section 5.1, and review its policies and procedures for those matters with the IRC.

Section 2.2 further requires the manager to establish policies and procedures for other matters it expects will arise and that will be required by securities legislation to be referred to the IRC, for example, certain reorganizations and transfers of assets between related mutual funds under Part 5 of NI 81-102.

2 A manager is expected to establish policies and procedures that are consistent with its obligations to the investment fund under securities legislation to make decisions in the best interests of the fund. Clause (1)(a) is intended to reinforce this obligation.

A manager that manages more than one investment fund may establish policies and procedures for an action or category of actions for all of the investment funds it manages. Alternatively, the manager may establish separate policies and procedures for the action or category of actions for each of its investment funds, or groups of its investment funds.

However structured, the CSA expect the written policies and procedures the manager establishes to be designed to prevent any violations by the manager and the investment fund of securities legislation in the areas that this Instrument addresses, and to detect and promptly correct any violations that occur.

3 A manager is expected to follow the policies and procedures established under this section. In referring a matter to the IRC under section 5.1, the CSA expect the manager to inform the IRC whether its proposed action follows its written policies and procedures on the matter.

If an unanticipated conflict of interest matter arises for which the manager does not have a policy and procedure, the CSA expect the manager to bring the matter and its proposed action to the IRC for its review and input at the time the matter is referred to the IRC.

4 Small investment fund families may require fewer written policies and procedures than large fund complexes that, for example, have conflicts of interest as a result of affiliations with other financial service firms.

2.3 Manager to maintain records

A manager must maintain a record of any activity that is subject to the review of the independent review committee, including:

- (a) a copy of the policies and procedures that address the matter;
- (b) minutes of its meetings, if any; and
- (c) copies of materials, including any written reports, provided to the independent review committee.

Commentary

1 This section is intended to assist the CSA in determining whether the manager is adhering to this Instrument, and in identifying weaknesses in the manager's policies and procedures if violations do occur. The CSA expect managers to keep records in accordance with existing best practices.

2 A manager is expected under this section to keep minutes only of any material discussions it has at meetings with the IRC or internally on matters subject to the review of the IRC.

The CSA do not view this section or this Instrument as preventing the IRC and manager from sharing record keeping and maintaining joint records of IRC and manager meetings.

3 The CSA expect a manager to keep records of the actions it takes in respect of a matter referred to the IRC. This includes any otherwise restricted or prohibited transactions described in subsection 5.2(1) for which the manager requires the IRC's approval under Part 6 of this Instrument or under Part 4 of NI 81-102.

2.4 Manager to provide assistance

(1) When a manager refers to the independent review committee a conflict of interest matter or any other matter that securities legislation requires it to refer, or refers its policies and procedures related to such matters, the manager must:

(a) provide the independent review committee with information sufficient for the independent review committee to properly carry out its responsibilities, including:

- (i) a description of the facts and circumstances giving rise to the matter;
- (ii) the manager's policies and procedures;
- (iii) the manager's proposed course of action, if applicable; and
- (iv) all further information the independent review committee reasonably requests;

(b) make its officers who are knowledgeable about the matter available to attend meetings of the independent review committee or respond to inquiries of the independent review committee about the matter; and

(c) provide the independent review committee with any other assistance it reasonably requests in its review of the matter.

(2) A manager must not prevent or attempt to prevent the independent review committee, or a member of the independent review committee, from communicating with the securities regulatory authority or regulator.

PART 3 INDEPENDENT REVIEW COMMITTEE**3.1 Independent review committee for an investment fund**

An investment fund must have an independent review committee.

Commentary

1 A manager is expected to establish an IRC using a structure that is appropriate for the investment funds it manages, having regard to the expected workload of that committee. For example, a manager may establish one IRC for each of the investment funds it manages, for several of its investment funds or for all of its investment funds.

2 This Instrument does not prevent investment funds from sharing an IRC with investment funds managed by another manager. This Instrument also does not prevent a third party from offering IRCs for investment funds. Managers of smaller families of investment funds may find these to be cost-effective ways to establish IRCs for their investment funds.

3.2 Initial appointments

The manager must appoint each member of an investment fund's first independent review committee.

3.3 Vacancies and reappointments

(1) An independent review committee must fill a vacancy on the independent review committee as soon as practicable.

(2) A member whose term has expired, or will soon expire, may be reappointed by the other members of the independent review committee.

(3) In filling a vacancy on the independent review committee or reappointing a member of the independent review committee, the independent review committee must consider the manager's recommendations, if any.

(4) A member may not be reappointed for a term or terms of office that, if served, would result in the member serving on the independent review committee for longer than 6 years, unless the manager agrees to the reappointment.

(5) If, for any reason, an independent review committee has no members, the manager must appoint a member to fill each vacancy as soon as practicable.

Commentary

1 Consistent with the manager's role to appoint the first members of an IRC, if at any time the IRC has no members, the manager will also appoint the replacement members. The CSA anticipate that the circumstances contemplated in subsection (5) will occur rarely, such as in the event of a change of manager or change in control of the manager. In these circumstances, managers should consider their timely disclosure obligations under securities legislation.

2 The manager may suggest candidates and may provide assistance to the IRC in the selection and recruitment process when a vacancy arises. Subsection (3) requires the IRC to consider the manager's recommendation, if any, when filling a vacancy or reappointing a member of the IRC.

The CSA believe that allowing the IRC to select its own members and decide the term a member can serve will foster independent-minded committees that will be focussed on the best interests of the investment fund. The CSA also consider the members of the IRC to be best-positioned to judge the manner in which a prospective member can contribute to the effectiveness of the IRC.

3 The maximum term limit of 6 years specified in subsection (4) for a member to serve on an investment fund's IRC is intended to enhance the independence and effectiveness of the IRC. An IRC may reappoint a member beyond the maximum term, but only with the agreement of the manager.

3.4 Term of office

The term of office of a member of an independent review committee must be not less than 1 year and not more than 3 years, and must be set by the manager or the independent review committee, as the case may be, at the time the member is appointed.

Commentary

1 To ensure continuity and continued independence from the manager, the CSA recommend that the terms of all IRC members be staggered.

3.5 Nominating criteria

Before a member of the independent review committee is appointed, the manager or the independent review committee, as the case may be, must consider:

- (a) the competencies and skills the independent review committee, as a whole, should possess;
- (b) the competencies and skills of each other member of the independent review committee; and
- (c) the competencies and skills the prospective member would bring to the independent review committee.

Commentary

1 Section 3.5 sets out the criteria the manager and the IRC must consider before appointing a member of the IRC. Subject to these requirements, the manager and the IRC may establish nominating criteria in addition to those set out in this section.

3.6 Written charter

- (1) The independent review committee must adopt a written charter that includes its mandate, responsibilities and functions, and the policies and procedures it will follow when performing its functions.
- (2) If the independent review committee and the manager agree in writing that the independent review committee will perform functions other than those prescribed by securities legislation, the charter must include a description of the functions that are the subject of the agreement.
- (3) In adopting the charter, the independent review committee must consider the manager's recommendations, if any.

Commentary

1 *The CSA expect the written charter to set out the necessary policies and procedures to ensure the IRC performs its role adequately and effectively and in compliance with this Instrument. An IRC acting for more than one investment fund may choose to establish a separate charter for each fund. Alternatively, an IRC may choose to establish one charter for all of the investment funds it oversees or groups of investment funds.*

2 *The IRC should consider the specific matters subject to its review when developing the policies and procedures to be set out in its charter.*

3 *Without discussing all of the policies and procedures that may be set out in the written charter, the CSA expect that the written charter will include the following:*

- *policies and procedures the IRC must follow when reviewing conflict of interest matters, criteria for the IRC to consider in setting its compensation and expenses and the compensation and expenses of any advisors employed by the IRC,*
- *a policy relating to IRC member ownership of securities of the investment fund, manager or in any person or company that provides services to the investment fund or the manager,*
- *policies and procedures that describe how a member of the IRC is to conduct himself or herself when he or she faces a conflict of interest, or could be perceived to face a conflict of interest, with respect to a matter being considered or to be considered by the IRC,*
- *policies and procedures that describe how the IRC is to interact with any existing advisory board or board of directors of the investment fund and the manager, and*
- *policies and procedures that describe how any subcommittee of the IRC to which has been delegated any of the functions of the IRC, is to report to the IRC.*

4 *The manager and the IRC may agree that the IRC will perform functions in addition to those prescribed by this Instrument and elsewhere in securities legislation. This Instrument does not preclude those arrangements, nor does this Instrument regulate those arrangements.*

3.7 Composition

- (1) An independent review committee must have at least three members.
- (2) The size of the independent review committee is to be determined by the manager, with a view to facilitating effective decision-making, and may only be changed by the manager.
- (3) Every independent review committee member must be independent.
- (4) An independent review committee must appoint a member as Chair.
- (5) The Chair of an independent review committee is responsible for managing the mandate, and responsibilities and functions, of the independent review committee.

Commentary

1 To ensure its effectiveness, a manager should consider the workload of the IRC when determining its size. The CSA expect that the manager will seek the input of the IRC prior to changing the size of the IRC.

2 The CSA anticipate that the Chair of the IRC will lead IRC meetings, foster communication among IRC members, and ensure the IRC carries out its responsibilities in a timely and effective manner.

The CSA expect the IRC Chair will be the primary person to interact with the manager on issues relating to the investment fund. An IRC Chair and the manager may agree to have regular communication as a way for the IRC Chair to keep informed of the operations of the investment fund between meetings, and of any significant events relating to the investment fund.

3 The requirement that all members of the IRC be independent does not preclude the IRC from consulting with others who can help the members understand matters that are beyond their specific expertise, or help them understand industry practices or trends, for example.

3.8 Compensation

(1) The manager may set the initial compensation and expenses of an independent review committee that is appointed under section 3.2 or subsection 3.3(5).

(2) Subject to subsection (1), the independent review committee must set reasonable compensation and proper expenses for its members.

(3) When setting its compensation and expenses under subsection (2), the independent review committee must consider:

- (a) the independent review committee's most recent assessment of its compensation under clause 4.2(2)(b); and
- (b) the manager's recommendations, if any.

Commentary

1 This section permits the manager to determine the amount and type of compensation and expenses the IRC members will initially receive. To avoid undue influence from the manager, subsection (2) requires that, subsequent to the initial setting of compensation and other than in the unusual circumstance described in subsection 3.3(5), members of the IRC have the sole authority for determining their compensation. The Instrument permits the manager to recommend to the members of the IRC the amount and type of compensation to be paid, and requires the IRC to consider that recommendation.

2 The CSA expect the IRC and the manager to decide the IRC's compensation in a manner consistent with good governance practices. Among the factors the IRC and the manager should consider when determining the appropriate level of compensation are the following:

- *the number, nature and complexity of the investment funds and the fund families for which the IRC acts;*
- *the nature and extent of the workload of each member of the IRC, including the commitment of time and energy that is expected from each member;*
- *industry best practices, including industry averages and surveys on IRC compensation; and*
- *the best interests of the investment fund.*

3 The CSA expect that the IRC and the manager will discuss any instance where the IRC disagrees with the manager's recommendations under clause (3)(b), in an attempt to reach an agreement that is satisfactory to both the IRC and the manager.

3.9 Standard of care

(1) Every member of an independent review committee, in exercising his or her powers and discharging his or her duties related to the investment fund, and, for greater certainty, not to any other person, as a member of the independent review committee must:

- (a) act honestly and in good faith, with a view to the best interests of the investment fund; and
- (b) exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

(2) Every member of an independent review committee must comply with this Instrument and the written charter of the independent review committee required under section 3.6.

(3) A member of the independent review committee does not breach clause (1)(b), if the member exercised the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances, including reliance in good faith on:

- (a) a report or certification represented as full and true to the independent review committee by the manager or an entity related to the manager; or
- (b) a report of a person whose profession lends credibility to a statement made by the person.

(4) A member of the independent review committee has complied with his or her duties under clause (1)(a) if the member has relied in good faith on:

- (a) a report or certification represented as full and true to the independent review committee by the manager or an entity related to the manager; or
- (b) a report of a person whose profession lends credibility to a statement made by the person.

Commentary

1 The standard of care for IRC members under this section is consistent with the special relationship between the IRC and the investment fund.

The CSA consider the role of the members of the IRC to be similar to corporate directors, though with a much more limited mandate, and therefore we would expect any defences available to corporate directors to also be available to IRC members.

2 The CSA consider the best interests of the investment fund referred to in clause(1)(a) to generally be consistent with the interests of the securityholders in the investment fund as a whole.

3 It is not the intention of the CSA to create a duty of care on the part of the IRC to any other person under clause (1)(b).

3.10 Ceasing to be a member

- (1) An individual ceases to be a member of an independent review committee when:
 - (a) the investment fund terminates;
 - (b) the manager of the investment fund changes, unless the new manager is an affiliate of the former manager; or
 - (c) there is a change of control of the manager of the investment fund.
- (2) An individual ceases to be a member of an independent review committee if:
 - (a) the individual resigns;
 - (b) the individual's term of office expires and the member is not reappointed;
 - (c) a majority of the other members of the independent review committee vote to remove the individual; or
 - (d) a majority of the securityholders of the investment fund vote to remove the individual at a special meeting called for that purpose by the manager.
- (3) An individual ceases to be a member of the independent review committee if the individual is:
 - (a) no longer independent within the meaning of section 1.4 and the cause of the member's non-independence is not temporary for which the member can recuse himself or herself;
 - (b) of unsound mind and has been so found by a court in Canada or elsewhere;
 - (c) bankrupt;
 - (d) prohibited from acting as a director or officer of any issuer in Canada;
 - (e) subject to any penalties or sanctions made by a court relating to provincial and territorial securities legislation; or
 - (f) a party to a settlement agreement with a provincial or territorial securities regulatory authority.
- (4) If an individual ceases to be a member of the independent review committee due to a circumstance described in subsection (2), the manager must, as soon as practicable, notify the securities regulatory authority or regulator of the date and the reason the individual ceased to be a member.
- (5) The notification referred to in subsection (4) is satisfied if it is made to the investment fund's principal regulator.
- (6) The notice of a meeting of securityholders of an investment fund called to consider the removal of a member under clause (2)(d) must comply with the notice requirements set out in section 5.4 of *National Instrument 81-102 Investment Funds*.
- (7) For any member of the independent review committee who receives notice or otherwise learns of a meeting of securityholders called to consider the removal of the member under clause (2)(d):
 - (a) the member may submit to the manager a written statement giving reasons for opposing the removal; and

- (b) the manager must, as soon as practicable, send a copy of the statement referred to in clause (a) to every securityholder entitled to receive notice of the meeting and to the member unless the statement is included in or attached to the notice documents required by subsection (6).

Commentary

1 *The CSA do not anticipate that the securityholder vote contemplated in clause 3.10(2)(d) will be routine. When a manager calls a meeting of securityholders to consider the removal of a member, subsection (7) requires that the member will have an opportunity to respond to the manager's notice.*

2 *In the circumstances described in clauses 3.10(1)(b) and (c), all members of the IRC will cease to be members. This does not preclude the new manager from reappointing the former members of the IRC under subsection 3.3(5).*

3 *Clause 3.10(3)(a) is meant to exclude a situation where a member may face, or be perceived to face, a conflict of interest with respect to a specific conflict of interest matter the IRC is considering.*

3.11 Authority

- (1) An independent review committee has authority to:
- (a) request information it determines useful or necessary from the manager and its officers to carry out its duties;
 - (b) engage independent counsel and other advisors it determines useful or necessary to carry out its duties;
 - (c) set reasonable compensation and proper expenses for any independent counsel and other advisors engaged by the independent review committee; and
 - (d) delegate to a subcommittee of at least three members of the independent review committee any of its functions, except the removal of a member under clause 3.10(2)(c).
- (2) If the independent review committee delegates to a subcommittee under clause (1)(d) any of its functions, the subcommittee must report on its activities to the independent review committee at least annually.
- (3) Despite any other provision in this Instrument, an independent review committee may communicate directly with the securities regulatory authority or regulator with respect to any matter.

Commentary

1 *The CSA recognize that utilizing the manager's staff and industry experts may be important to help the members of the IRC deal with matters that are beyond the level of their expertise, or help them understand different practices among investment funds.*

While this Instrument does not require legal counsel or other advisers for the IRC to be independent of the manager or the investment fund, there may be instances when the members of the IRC believe they need access to counsel or advisers who are free from conflicting loyalties. Clause (1)(b) gives the IRC the discretion and authority to hire independent legal counsel and other advisers. The CSA expect that the IRC will use independent advisers selectively and only to assist, not replace, IRC decision-making. The CSA do not anticipate that IRCs will routinely use external counsel and other advisers.

2 Clause (1)(d) is intended to allow an IRC of more than three members to delegate any of its functions, except the removal of an IRC member, to a subcommittee of at least three members. The CSA expect in such instances that the written charter of the IRC will include a defined mandate and reporting requirements for any subcommittee.

The CSA do not consider delegation by the IRC of a function to a subcommittee to absolve the IRC from its responsibility for the function.

3 Subsection (3) specifies that the IRC may inform the securities regulatory authority or regulator of any concerns or issues that it may not otherwise be required to report. For example, the IRC may be concerned if very few matters have been referred by the manager for review, or it may have found, or have reasonable grounds to suspect, a breach of securities legislation has occurred. However, the IRC has no obligation to report matters other than those prescribed by this Instrument or elsewhere in securities legislation.

4 The CSA do not consider that this section or this Instrument prevents the manager from communicating with the securities regulatory authorities with respect to any matter.

3.12 Decisions

(1) A decision by the independent review committee on a conflict of interest matter or any other matter that securities legislation requires the independent review committee to review requires the agreement of a majority of the independent review committee's members.

(2) If, for any reason, an independent review committee has two members, a decision by the independent review committee must be unanimous.

(3) An independent review committee with one member may not make a decision.

Commentary

1 This section requires a decision of the members of the IRC to represent the majority. Should the IRC find itself with two members, subsection (2) permits the IRC to continue to make decisions on conflict of interest matters provided the remaining two members agree.

3.13 Fees and expenses to be paid by the investment fund

The investment fund must pay from the assets of its fund all reasonable costs and expenses reasonably incurred in the compliance of this Instrument.

Commentary

1 A manager is expected to allocate the costs associated with the IRC on an equitable and reasonable basis amongst the investment funds for which the IRC acts.

This Instrument does not prohibit a manager from reimbursing the investment fund for any of the costs associated with compliance with this Instrument. It is expected that the prospectus will disclose whether or not the manager will reimburse the investment fund.

2 The CSA do not expect costs that the manager or investment fund would ordinarily incur in the operation of the investment fund without the presence of the IRC (for example, rent) to be charged to the investment fund under this section. Among the costs the CSA expect will be charged to the investment fund under this section are the following:

- the compensation and expenses payable to the members of the IRC and to any independent counsel and other advisers employed by the IRC;*
- the costs of the orientation and continuing education of the members of the IRC; and*
- the costs and expenses associated with a special meeting of securityholders called by the manager to remove a member or members of the IRC.*

3.14 Indemnification and insurance

- (1) In this section, “**member**” means:
 - (a) a member of the independent review committee;
 - (b) a former member of the independent review committee; and
 - (c) the heirs, executors, administrators or other legal representatives of the estate of an individual in clause (a) or (b).
- (2) An investment fund and manager may indemnify a member against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by the person in respect of any civil, criminal, administrative, investigative or other proceeding in which the member is involved because of being or having been a member.
- (3) An investment fund and manager may advance moneys to a member for the costs, charges and expenses of a proceeding referred to in subsection (2). The member must repay the moneys if the member does not fulfill the conditions of subsection (4).
- (4) An investment fund and manager may not indemnify a member under subsection (2) unless:
 - (a) the member acted honestly and in good faith, with a view to the best interests of the investment fund; and
 - (b) in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, the member had reasonable grounds for believing that the individual’s conduct was lawful.
- (5) Despite subsection (2), a member referred to in that subsection is entitled to an indemnity from the investment fund in respect of all costs, charges and expenses reasonably incurred by the member in connection with the defence of any civil, criminal, administrative, investigative or other proceeding to which the member is subject because of the member’s association with the investment fund as described in subsection (2), if the member seeking indemnity:
 - (a) was not judged by the court or other competent authority to have committed any fault or omitted to do anything that ought to have been done; and
 - (b) fulfills the conditions set out in subsection (4).

- (6) An investment fund and manager may purchase and maintain insurance for the benefit of any member referred to in subsection (2) against any liability incurred by the member in his or her capacity as a member.

Commentary

1 This Instrument requires that members of an IRC be accountable for their actions. At the same time, this section does not prevent an investment fund or a manager from limiting a member's financial exposure through insurance and indemnification.

2 This section permits an investment fund and the manager to indemnify and purchase insurance coverage for the members of the IRC on terms comparable to those applicable to directors of corporations. The broad goals underlying the indemnity provisions are to allow for reimbursement for reasonable good faith behaviour, thereby discouraging the hindsight application of perfection to the IRC's actions.

Under this section, the investment fund is required to indemnify an IRC member who has been sued and has successfully defended the action, subject to certain conditions. If the IRC member does not defend the action successfully, the investment fund and manager may indemnify the member in certain circumstances. The intention of indemnity is to encourage responsible behaviour yet still permit enough leeway to attract strong candidates.

The two conditions which must be satisfied in either instance under this section for an IRC member to be indemnified are:

- the IRC member must have acted in a manner consistent with his or her fiduciary duty with respect to the action or matter for which the IRC member is seeking the indemnification; and*
- the IRC member must have had reasonable grounds for believing that his or her conduct was lawful.*

The CSA expect any such coverage to be on reasonable commercial terms.

3 It is open to members of the IRC to negotiate contractual indemnities with the manager and the investment fund provided the protection is permissible under this section.

3.15 Orientation and continuing education

- (1) The manager and independent review committee must provide orientation consisting of educational or informational programs that enable a new independent review committee member to understand:

- (a) the role of the independent review committee and its members collectively; and
- (b) the role of the individual member.

- (2) The manager may provide a member of the independent review committee with educational or informational programs, as the manager considers useful or necessary, that enable the member to understand the nature and operation of the manager's and investment fund's businesses.

- (3) The independent review committee may reasonably supplement the educational and informational programs provided to its members under this section.

Commentary

1 The CSA expect members of the IRC to regularly participate in educational or informational programs that may be useful to the members in understanding and fulfilling their duties.

Section 3.15 sets out only the minimum educational programs that a manager and IRC are expected to provide for members of the IRC. Educational activities could include presentations, seminars or discussion groups conducted by:

- personnel of the investment fund or manager,*
- outside experts,*
- industry groups,*
- representatives of the investment fund's various service providers, and*
- educational organizations and institutions.*

2 The CSA expect a discussion of a member's role referred to in paragraph (1)(b) to include a reference to the commitment of time and energy that is expected from the member.

PART 4 FUNCTIONS OF INDEPENDENT REVIEW COMMITTEE**4.1 Review of matters referred by manager**

(1) The independent review committee must review and provide its decision under section 5.2 or under section 5.3 to the manager on a conflict of interest matter that the manager refers to the independent review committee for review.

(2) The independent review committee must perform any other function required by securities legislation.

(3) The independent review committee has the authority to choose whether to deliberate and decide on a matter referred to in subsections (1) and (2) in the absence of the manager, any representative of the manager and any entity related to the manager.

(4) Despite subsection (3), an independent review committee must hold at least one meeting annually at which the manager, any representative of the manager or any entity related to the manager are not in attendance.

(5) The independent review committee has no power, authority or responsibility for the operation of the investment fund or the manager except as provided in this section.

Commentary

1 The Instrument requires the IRC only to consider matters referred to it by the manager that involve or may be perceived to involve a conflict of interest for the manager between its own interests and its duty to manage an investment fund.

Securities legislation also requires the IRC to consider other matters. For example, a change in a mutual fund's auditor and certain reorganizations and transfers of assets between related mutual funds under Part 5 of NI 81-102 require the review and prior approval of the IRC for the manager to proceed.

2 The manager and the IRC may agree that the IRC will perform functions in addition to those prescribed by this Instrument and elsewhere in securities legislation. This Instrument does not preclude those arrangements, nor does this Instrument regulate those arrangements.

3 Subsection (3) permits the IRC to decide who, other than IRC members, may attend any IRC meeting other than the meeting referred to in subsection (4). Subsection (3) also does not preclude the IRC from receiving oral or written submissions from the manager or from holding meetings with representatives of the manager or an entity related to the manager or any other person not independent under this Instrument. The CSA believe utilizing the manager's staff and industry experts may be important to help the members of the IRC understand matters that are beyond their specific expertise, or to help them understand different practices among investment funds.

4 The requirement that the IRC hold at least one meeting without anyone else present (including management of the investment fund) is intended to give the members of the IRC an opportunity to speak freely about any sensitive issues, including any concerns about the manager.

The CSA are of the view that subsection (4) is satisfied if the IRC holds a portion of any meeting annually without the presence of the manager, any representative of the manager or any entity related to the manager.

4.2 Regular assessments

(1) At least annually, the independent review committee must review and assess the adequacy and effectiveness of:

- (a) the manager's written policies and procedures required under section 2.2;
- (b) any standing instruction it has provided to the manager under section 5.4;
- (c) the manager's and the investment fund's compliance with any conditions imposed by the independent review committee in a recommendation or approval it has provided to the manager; and
- (d) any subcommittee to which the independent review committee has delegated, under clause 3.11(1)(d), any of its functions.

(2) At least annually, the independent review committee must review and assess:

- (a) the independence of its members; and
- (b) the compensation of its members.

(3) At least annually, the independent review committee must review and assess its effectiveness as a committee, as well as the effectiveness and contribution of each of its members.

(4) The review by the independent review committee required under subsection (3) must include a consideration of:

- (a) the independent review committee's written charter referred to in section 3.6;
- (b) the competencies and knowledge each member is expected to bring to the independent review committee;

- (c) the level of complexity of the issues reasonably expected to be raised by members in connection with the matters under review by the independent review committee; and
- (d) the ability of each member to contribute the necessary time required to serve effectively on the independent review committee.

Commentary

1 Section 4.2 sets out the minimum assessments the independent review committee must perform. Subject to these requirements, the IRC may establish a process for (and determine the frequency of) additional assessments as it sees fit.

2 The annual self-assessment by the IRC should improve performance by strengthening each member's understanding of his or her role and fostering better communication and greater cohesiveness among members.

3 When evaluating individual performance, it is expected that the IRC consider factors such as the member's attendance and participation in meetings, continuing education activities and industry knowledge. The manager may also provide IRC members with feedback which the IRC may consider.

It is expected the self-assessment should focus on both substantive and procedural aspects of the IRC's operations. When evaluating the IRC's structure and effectiveness, the IRC should consider factors such as the following:

- *the frequency of meetings;*
- *the substance of meeting agendas;*
- *the policies and procedures that the manager has established to refer matters to the IRC;*
- *the usefulness of the materials provided to the members of the IRC;*
- *the collective experience and background of the members of the IRC;*
- *the number of funds the IRC oversees; and*
- *the amount and form of compensation the members receive from an individual investment fund and in aggregate from the fund family.*

4 The CSA expect the members of an IRC to respond appropriately to address any weaknesses found in a self-assessment. For example, it may be necessary to improve the IRC members' continuing education, recommend ways to improve the quality and sufficiency of the information provided to them, or recommend to the manager decreasing the number of investment funds under the IRC's oversight.

In rare circumstances, the IRC may consider removing a member of the IRC as contemplated under clause 3.10(2)(c) as a result of the self-assessment.

4.3 Reporting to the manager

The independent review committee must as soon as practicable deliver to the manager a written report of the results of an assessment under subsections 4.2(1) and (2) that includes:

- (a) a description of each instance of a breach of any of the manager's policies or procedures of which the independent review committee is aware, or that it has reason to believe has occurred;

- (b) a description of each instance of a breach of a condition imposed by the independent review committee in a recommendation or approval it has provided to the manager, of which the independent review committee is aware, or that it has reason to believe has occurred; and
- (c) recommendations for any changes the independent review committee considers should be made to the manager's policies and procedures.

4.4 Reporting to securityholders

(1) An independent review committee must prepare, for each financial year of the investment fund and no later than the date the investment fund files its annual financial statements, a report to securityholders of the investment fund that describes the independent review committee and its activities for the financial year and includes:

- (a) the name of each member of the independent review committee at the date of the report, with:
 - (i) the member's length of service on the independent review committee;
 - (ii) the name of any other fund family on whose independent review committee the member serves; and
 - (iii) if applicable, a description of any relationship that may cause a reasonable person to question the member's independence and the basis upon which the independent review committee determined that the member is independent;
- (b) the percentage of securities of each class or series of voting or equity securities beneficially owned, directly or indirectly, in aggregate, by all the members of the independent review committee of the investment fund:
 - (i) in the investment fund if the aggregate level of ownership exceeds 10%;
 - (ii) in the manager; or
 - (iii) in any person or company that provides services to the investment fund or the manager;
- (c) the identity of the Chair of the independent review committee;
- (d) any changes in the composition or membership of the independent review committee during the period;
- (e) the aggregate compensation paid to the independent review committee and any indemnities paid to members of the independent review committee by the investment fund during the period;
- (f) a description of the process and criteria used by the independent review committee to determine the appropriate level of compensation of its members and any instance when, in setting the compensation and expenses of its members, the independent review committee did not follow the recommendation of the manager, including:
 - (i) a summary of the manager's recommendation; and
 - (ii) the independent review committee's reasons for not following the recommendation;

- (g) if known, a description of each instance when the manager acted in a conflict of interest matter referred to the independent review committee for which the independent review committee did not give a positive recommendation, including:
 - (i) a summary of the recommendation; and
 - (ii) if known, the manager's reasons for proceeding without following the recommendation of the independent review committee and the result of proceeding;
- (h) if known, a description of each instance when the manager acted in a conflict of interest matter but did not meet a condition imposed by the independent review committee in its recommendation or approval, including:
 - (i) the nature of the condition;
 - (ii) if known, the manager's reasons for not meeting the condition;
 - (iii) whether the independent review committee is of the view that the manager has taken, or proposes to take, appropriate action to deal with the matter; and
 - (iv) a brief summary of any recommendations and approvals the manager relied upon during the period.
- (2) The report required under subsection (1) must, as soon as practicable:
 - (a) be sent by the investment fund, without charge, to a securityholder of the investment fund, upon the securityholder's request;
 - (b) be made available and prominently displayed by the manager on the investment fund's, investment fund family's or manager's website, if it has a website;
 - (c) be filed by the investment fund with the securities regulatory authority or regulator; and
 - (d) be delivered by the independent review committee to the manager.

Commentary

1 The report to be filed with the securities regulatory authorities should be filed on the SEDAR group profile number of the investment fund as a continuous disclosure document. The CSA expect that the investment fund will pay any reasonable costs associated with the filing of the report.

2 It is expected the report will be displayed in an easily visible location on the home page of the website of the investment fund, the investment fund family or the manager, as applicable. The CSA expect the report to remain on the website at least until the posting of the next report.

3 The disclosure required in subclause (1)(a)(iii) is expected to be provided only in instances where a member could reasonably be perceived to not be 'independent' under this Instrument.

4.5 Reporting to securities regulatory authorities

(1) If the independent review committee is aware of an instance where the manager acted in a conflict of interest matter under subsection 5.2(1) but did not comply with a condition or conditions imposed by securities legislation or the independent review committee in its approval, the independent review committee must, as soon as practicable, notify in writing the securities regulatory authority or regulator.

(2) The notification referred to in subsection (1) is satisfied if it is made to the investment fund's principal regulator.

Commentary

1 Subsection (1) captures a breach of a condition imposed for an otherwise prohibited or restricted transaction described in subsection 5.2(1), for which the manager has acted under Part 6 of this Instrument or under Part 4 of NI 81-102. This includes a breach of a condition imposed by the IRC as part of its approval (including a standing instruction), or, for example, any conditions imposed for inter-fund trading under section 6.1 of this Instrument or section 4.3 of NI 81-102, for transactions in securities of related issuers under section 6.2 of this Instrument, and for purchases of securities underwritten by related underwriters under section 4.1 of NI 81-102.

The CSA consider that a breach of a condition imposed by securities legislation (including this Instrument) or by the IRC in a transaction described in subsection 5.2(1) will result in the transaction having been made in contravention of securities legislation. In such instances, the securities regulatory authorities may consider taking various actions, including requiring the manager to unwind the transaction and pay any costs associated with doing so.

2 The CSA expect that the IRC will include in its notification the steps the manager proposes to take, or has taken, to remedy the breach, if known.

3 Notification under this section is not intended to be a mechanism to resolve disputes between an IRC and a manager, or to raise inconsequential matters with the securities regulatory authorities.

4 The CSA do not view this section or this Instrument as preventing the manager from communicating with the securities regulatory authorities with respect to any matter.

4.6 Independent review committee to maintain records

An independent review committee must maintain records, including:

- (a) a copy of its current written charter;
- (b) minutes of its meetings;
- (c) copies of any materials and written reports provided to it;
- (d) copies of materials and written reports prepared by it; and
- (e) the decisions it makes.

Commentary

1 Section 4.6 sets out the minimum requirements regarding the record keeping by an IRC. The CSA expect IRCs to keep records in accordance with existing best practices.

2 The IRC is expected under clause (b) to keep minutes only of any material discussions it has at meetings with the manager or internally on matters subject to its review.

The CSA do not view this section or this Instrument as preventing the IRC and manager from sharing record keeping and maintaining joint records of IRC and manager meetings.

3 The CSA expect the IRC to keep records of any actions it takes in respect of a matter referred to it, in particular any transaction otherwise prohibited or restricted by securities legislation, as described in subsection 5.2(1), for which the manager has sought the approval of the IRC.

PART 5 CONFLICT OF INTEREST MATTERS

5.1 Manager to refer conflict of interest matters to independent review committee

(1) Subject to section 5.4, when a conflict of interest matter arises, and before taking any action in the matter, the manager must:

(a) determine what action it proposes to take in respect of the matter, having regard to:

(i) its duties under securities legislation; and

(ii) its written policies and procedures on the matter; and

(b) refer the matter, along with its proposed action, to the independent review committee for its review and decision.

(2) If a manager must hold a meeting of securityholders to obtain securityholder approval before taking an action in a conflict of interest matter, the manager must include a summary of the independent review committee's decision under subsection (1) in the notice of the meeting.

Commentary

1 Section 5.1 recognizes that a manager may not be able to objectively determine whether it is acting in the best interests of the investment fund when it has a conflict of interest. This section requires managers to refer all conflict of interest matters – not just those subject to prohibitions or restrictions under securities legislation – to the IRC so that an independent perspective can be brought to bear on the manager's proposed action.

A decision tree for different types of conflict of interest matters is set out in Appendix A to the Commentary.

While the CSA expect the IRC to bring a high degree of rigour and sceptical objectivity to its review of conflict of interest matters, the CSA do not consider it the role of the IRC to second-guess the investment or business decisions of a manager or an entity related to the manager.

2 Section 5.1 sets out how the manager must proceed when faced with a conflict of interest matter.

Referring proposed actions involving conflict of interest matters to the IRC for its review is not considered by the CSA to detract from the manager's obligations to the investment fund under securities legislation to make decisions in the best interests of the fund. Subclause (a)(i) is intended to reinforce this obligation.

3 In referring a matter to the IRC, a manager is expected to inform the IRC whether its proposed action follows its written policies and procedures on the matter under section 2.2.

If an unanticipated conflict of interest matter arises for which the manager does not have an existing written policy and procedure, the CSA expect the manager to bring the matter and its proposed action to the IRC for its review and input at the time the matter is referred to the IRC.

4 There may be matters that are subject to a securityholder vote that also involve a "conflict of interest matter" under this Instrument. For example, increases in the charges of the manager to the mutual fund will be a conflict of interest matter as well as a matter subject to a securityholder vote under Part 5 of National Instrument 81-102 Investment Funds. For these matters, subsection (2) requires a manager to refer the matter first to the IRC before seeking the approval of securityholders, and to include a summary of the IRC's decision in the written notice to securityholders.

5.2 Matters requiring independent review committee approval

(1) A manager may not proceed with a proposed action under section 5.1 without the approval of the independent review committee if the action is:

- (a) an inter-fund trade as described in subsection 6.1(2) of this Instrument or a transaction as described in subsection 4.2(1) of National Instrument 81-102 *Investment Funds*;
- (b) a transaction in securities of an issuer as described in subsection 6.2(1) of this Instrument; or
- (c) an investment in a class of securities of an issuer underwritten by an entity related to the manager as described in subsection 4.1(1) of National Instrument 81-102 *Investment Funds*.

(2) An independent review committee must not approve an action unless it has determined, after reasonable inquiry, that the action:

- (a) is proposed by the manager free from any influence by an entity related to the manager and without taking into account any consideration relevant to an entity related to the manager;
- (b) represents the business judgment of the manager uninfluenced by considerations other than the best interests of the investment fund;
- (c) is in compliance with the manager's written policies and procedures relating to the action; and
- (d) achieves a fair and reasonable result for the investment fund.

Commentary

1 For the transactions described in subsection (1), provided the manager receives the IRC's approval under this section, and satisfies the additional conditions imposed under the applicable sections of Part 6 of this Instrument or Part 4 of NI 81-102, the manager will be permitted to proceed with the action without obtaining regulatory exemptive relief.

The IRC may give its approval for certain actions or categories of actions in the form of a standing instruction as described in section 5.4. If no standing instruction is in effect, the manager is required to seek the IRC's approval prior to proceeding with any action set out in subsection (1). An IRC may consider as guidance any conditions in prior exemptive relief orders, waivers or approvals obtained from the securities regulatory authorities when contemplating the appropriate terms and conditions in its approval.

2 If the IRC does not approve a proposed action described in subsection (1), the manager is not permitted to proceed without obtaining exemptive relief from the securities regulatory authorities. The CSA consider it in the best interests of the investment fund, and ultimately investors, for the IRC to be able to stop any proposed action which does not meet the test in subsection (2).

3 The CSA would usually expect that, before the IRC approves a proposed action described in subsection (1), it will have requested from the manager or others a report or certification to assist in its determination that the test in subsection (2) has been met.

4 The CSA expect that the manager will discuss with the IRC any instance where the IRC does not approve a proposed action, so that an alternative action satisfactory to both the manager and the IRC can be found, if possible.

5 The CSA consider that the ability of the manager to seek the removal of a member or members of the IRC under clause 3.10(2)(d) sufficiently addresses any concern that a manager may have about an IRC's ongoing refusal to approve matters.

5.3 Matters subject to independent review committee recommendation

(1) Before a manager may proceed with a proposed action under section 5.1 other than those set out in subsection 5.2(1):

(a) the independent review committee must provide a recommendation to the manager as to whether, in the committee's opinion after reasonable inquiry, the proposed action achieves a fair and reasonable result for the investment fund; and

(b) the manager must consider the recommendation of the independent review committee.

(2) If the manager decides to proceed with an action in a conflict of interest matter that, in the opinion of the independent review committee after reasonable inquiry, does not achieve a fair and reasonable result for the investment fund under clause (1)(a), the manager must notify in writing the independent review committee before proceeding with the proposed action.

- (3) Upon receiving the notification described in subsection (2), the independent review committee may require the manager to notify securityholders of the investment fund of the manager's decision.
- (4) A notification to securityholders under subsection (3) must:
- (a) sufficiently describe the proposed action of the manager, the recommendation of the independent review committee and the manager's reasons for proceeding;
 - (b) state the date of the proposed implementation of the action; and
 - (c) be sent by the manager to each securityholder of the investment fund at least 30 days before the effective date of the proposed action.
- (5) The investment fund must, as soon as practicable, file the notification referred to in subsection (4) with the securities regulatory authority or regulator upon the notice being sent to securityholders.

Commentary

1 This section captures all conflict of interest matters a manager encounters other than those listed in subsection 5.2(1). This includes conflict of interest matters prohibited or restricted by securities legislation not specified in subsection 5.2(1), and a manager's business and commercial decisions made on behalf of the investment fund that may be motivated, or be perceived to be motivated, by the manager's own interests rather than the best interests of the investment fund. Examples include:

- increasing charges to the investment fund for costs incurred by the manager in operating the fund;*
- correcting material errors made by the manager in administering the investment fund;*
- negotiating soft dollar arrangements with dealers with whom the manager places portfolio transactions for the investment fund; and*
- choosing to bring services in-house over using third-party service providers.*

The CSA expect that, in seeking guidance in identifying conflict of interest matters caught by this Instrument, among the factors the manager will look to for guidance to identify conflict of interest matters will be industry best practices. However, the CSA also acknowledge that each manager will need to consider the nature of its investment fund operations in determining a conflict of interest matter.

2 The CSA expect the IRC's recommendation to state a positive or negative response as to whether they view the proposed action as achieving a fair and reasonable result for the investment fund.

3 For a proposed action in a conflict of interest matter under this section that is prohibited or restricted by securities legislation (but not specified in subsection 5.2(1)), a manager will still need to seek exemptive relief from the securities regulatory authorities.

4 Subsection (2) recognizes that, in exceptional circumstances, the manager may decide to proceed with a proposed course of action despite a negative recommendation from the IRC. In such instances, subsection (2) requires the manager to notify the IRC before proceeding with the action. If the IRC determines that the proposed action is sufficiently important to warrant notice to securityholders in the investment fund, the IRC has the authority to require the manager to give such notification before proceeding with the action.

The CSA anticipate that the situation of a manager proceeding with a conflict of interest matter, despite a negative recommendation by the IRC, will occur infrequently.

5 The notification referred to in subsection (5) should be filed on the SEDAR group profile number of the investment fund as a continuous disclosure document.

5.4 Standing instructions by the independent review committee

(1) Despite section 5.1, the manager is not required to refer a conflict of interest matter nor its proposed action to the independent review committee if the manager complies with the terms of a standing instruction that is in effect.

(2) For any action for which the independent review committee has provided a standing instruction, at the time of the independent review committee's regular assessment described in subsection 4.2(1):

- (a) the manager must provide a written report to the independent review committee describing each instance that it acted in reliance on a standing instruction; and
- (b) the independent review committee must:
 - (i) review and assess the adequacy and effectiveness of the manager's written policies and procedures on the matter or on that type of matter with respect to all actions permitted by each standing instruction;
 - (ii) review and assess the manager's and investment fund's compliance with any conditions imposed by it in each standing instruction;
 - (iii) reaffirm or amend each standing instruction;
 - (iv) establish new standing instructions, if necessary; and
 - (v) advise the manager in writing of all changes to the standing instructions.

(3) A manager may continue to rely on a standing instruction under subsection (1) until such time as the independent review committee notifies the manager that the standing instruction has been amended or is no longer in effect.

Commentary

1 Section 5.4 recognizes that there are certain actions or categories of actions of the manager for which it may be appropriate for the IRC to choose to provide a standing instruction. For example, this may include a manager's ongoing voting of proxies on securities held by the investment fund when the manager has a business relationship with the issuer of the securities, or, a manager's decision to engage in inter-fund trading.

2 *The CSA expect that, before providing or continuing a standing instruction to the manager for an action or category of actions, the IRC will have:*

- *reviewed the manager's written policies and procedures with respect to the action or category of actions;*
- *requested from the manager or other persons a report or certification to assist in deciding whether to give its approval or recommendation for the action or category of actions under subsection 5.2(1) or 5.3(1), as the case may be;*
- *considered whether a standing instruction for the particular action or category of actions is appropriate for the investment fund; and*
- *established very clear terms and conditions surrounding the standing instruction for the action or category of actions.*

An IRC may consider including in any standing instruction any terms or conditions in prior exemptive relief orders, waivers or approvals obtained from the securities regulatory authorities.

3 *As part of the IRC's review under subclause (2)(b)(ii), the IRC is expected to be mindful of its reporting obligation under section 4.5 of this Instrument, which includes notifying the securities regulatory authorities of any instance where the manager, in proceeding with an action, did not meet a condition imposed by the IRC in its approval (this includes a standing instruction).*

4 *This section is intended to improve the flexibility and timeliness of the manager's decisions concerning a proposed course of action in a conflict of interest matter.*

PART 6 EXEMPTED TRANSACTIONS

6.1 Inter-fund trades

(1) In this section:

(a) **“current market price of the security”** means:

(i) if the security is an exchange-traded security or a foreign exchange-traded security:

(A) the closing sale price on the day of the transaction as reported on the exchange upon which the security is listed or the quotation trade reporting system upon which the security is quoted;

(B) if there are no reported transactions for the day of the transaction, the average of the highest current bid and lowest current ask for the security as displayed on the exchange upon which the security is listed or the quotation trade reporting system upon which the security is quoted; or

(C) if the closing sale price on the day of the transaction is outside of the closing bid and closing ask, the average of the highest current bid and lowest current ask for the security as displayed on the exchange upon which the security is listed or the quotation trade reporting system upon which the security is quoted; or

(ii) for all other securities, the average of the highest current bid and lowest current ask determined on the basis of reasonable inquiry;

(b) “**market integrity requirements**” means:

- (i) if the security is an exchange-traded security, the purchase or sale:
 - (A) is printed on a marketplace that executes trades of the security; and
 - (B) complies with the market conduct and display requirements of the marketplace, its regulation services provider and securities regulatory authorities;
- (ii) if the security is a foreign exchange-traded security, the purchase or sale complies with the requirements that govern transparency and trading of foreign exchange-traded securities on the foreign exchange or foreign quotation and trade reporting system; or
- (iii) for all other securities, the purchase or sale is through a dealer, if the purchase or sale is required to be reported by a registered dealer under applicable securities legislation.

(2) The portfolio manager of an investment fund may purchase a security of any issuer from, or sell a security of any issuer to, another investment fund managed by the same manager or an affiliate of the manager, if, at the time of the transaction:

- (a) the investment fund is purchasing from, or selling to, another investment fund to which this Instrument applies;
- (b) the independent review committee has approved the transaction under subsection 5.2(2);
- (c) the bid and ask price of the security is readily available;
- (d) the investment fund receives no consideration and the only cost for the trade is the nominal cost incurred by the investment fund to print or otherwise display the trade;
- (e) the transaction is executed at the current market price of the security;
- (f) the transaction is subject to market integrity requirements; and
- (g) the investment fund keeps written records, including:
 - (i) a record of each purchase and sale of securities;
 - (ii) the parties to the trade; and
 - (iii) the terms of the purchase or sale;

for five years after the end of the fiscal year in which the trade occurred, the most recent two years in a reasonably accessible place.

(3) The provisions of National Instrument 21-101 *Marketplace Operation*, and Part 6 and Part 8 of National Instrument 23-101 *Trading Rules*, do not apply to a portfolio manager or portfolio adviser of an investment fund, or an investment fund, with respect to a purchase or sale of a security referred to in subsection (2) if the purchase or sale is made in accordance with that subsection.

(4) The inter-fund self-dealing investment prohibitions do not apply to a portfolio manager or portfolio adviser of an investment fund, or an investment fund, with respect to a purchase or sale of a security referred to in subsection (2) if the purchase or sale is made in accordance with that subsection.

(5) The dealer registration requirement does not apply to a portfolio manager of an investment fund, with respect to a purchase or sale of a security referred to in subsection (2) if the purchase or sale is made in accordance with that subsection.

(6) In subsection (5), “**dealer registration requirement**” has the meaning ascribed to that term in National Instrument 14-101 *Definitions*.

Commentary

1 The term ‘inter-fund self-dealing investment prohibitions’ is defined in section 1.5 of this Instrument. It is intended to capture the prohibitions in the securities legislation and certain regulations of each securities regulatory authority regarding inter-fund trades.

2 This section is intended to exempt investment funds from the prohibitions in the securities legislation and certain regulations that preclude inter-fund trades. It is not intended to apply to securities issued by an investment fund that are purchased by another fund within the same fund family.

The CSA are of the view that this section applies to inter-fund trades between fund families of the same manager provided the purchase or sale is made in accordance with subsection (2).

3 This section is also intended to provide a portfolio manager with a dealer registration exemption, where necessary, for inter-fund trades made in accordance with this section, but will not apply to any other activities of the portfolio manager. The exemption is based on compliance with this Instrument and the limitation of its application to prospectus-qualified investment funds. The CSA note that the Registration Reform project may re-examine this exemption.

4 This section sets out the minimum conditions for inter-fund trades to proceed without regulatory exemptive relief. An IRC may consider including in any approval any terms or conditions in prior exemptive relief orders, waivers or approvals obtained from the securities regulatory authorities.

5 This section does not specify the policies and procedures that a manager must have to effect inter-fund trades. However, the CSA expect the manager’s policies to include factors or criteria for:

- allocating securities purchased for or sold by two or more investment funds managed by the manager; and*
- ensuring that the terms of purchase or sale will be no less beneficial to the investment fund than those generally available to other market participants in arm’s-length transactions.*

6 The CSA expect that the IRC may give its approval in the form of a standing instruction under section 5.4, to give the manager greater flexibility to take advantage of perceived market opportunity.

7 Clause (2)(c) requires that the market quotations for the transactions be transparent. The CSA expect that if the price information is publicly available from a marketplace, newspaper or through a data vendor, for example, this will be the price. If the price is not publicly available, the CSA expect the investment fund to obtain at least one quote from an independent, arm's-length purchaser or seller, immediately before the purchase or sale.

8 The CSA consider the requirement in clause (2)(f) to be a way to facilitate price discovery and integrity. The CSA believe this is essential to well-functioning and efficient capital markets. Subclause (1)(b)(iii) is intended to capture, for corporate debt securities, the requirement, if applicable, to report the trade to CanPx, and for illiquid securities, the requirement, if applicable, to report the trade to the Canadian Unlisted Board (CUB).

9 Clause (2)(g) sets out the minimum expectations regarding the records an investment fund must keep of its inter-fund trades made in reliance on this section. The records should be detailed, and sufficient to establish a proper audit trail of the transactions.

6.2 Transactions in securities of related issuers

(1) An investment fund may make or hold an investment in the security of an issuer related to it, its manager, or an entity related to the manager, if:

- (a) at the time that the investment is made:
 - (i) the independent review committee has approved the investment under subsection 5.2(2); and
 - (ii) the purchase is made on an exchange on which the securities of the issuer are listed and traded; and
- (b) no later than the time the investment fund files its annual financial statements, the manager of the investment fund files with the securities regulatory authority or regulator the particulars of the investment.

(2) The investment fund conflict of interest investment restrictions do not apply to an investment fund with respect to an investment referred to in subsection (1) if the investment is made in accordance with that subsection.

(3) In subsection (2), “**investment fund conflict of interest investment restrictions**” has the meaning ascribed to that term in National Instrument 81-102 *Investment Funds*.

(4) **Repealed.** 2 Oct 2009 SR 81/2009 s15.

Commentary

1 This section is intended to relieve investment funds in Québec, and mutual funds elsewhere in Canada, from the prohibitions in the securities legislation of each securities regulatory authority that preclude investments in securities of related issuers.

2 This section sets out the minimum conditions for purchases to proceed without regulatory exemptive relief. An IRC may consider including in any approval any terms or conditions in prior exemptive relief orders, waivers or approvals obtained from the securities regulatory authorities.

The CSA expect that the IRC may give its approval in the form of a standing instruction as described in section 5.4 to allow the manager greater flexibility in its decisions.

3 This section contemplates that the manager will comply with the applicable reporting requirements under securities legislation for each purchase. The filing referred to in clause (1)(b) should be filed on the SEDAR group profile number of the investment fund, as a continuous disclosure document.

4 If an IRC gives its approval for the investment fund to purchase securities of an issuer described in this section, and then subsequently withdraws its approval for additional purchases, the CSA will not consider the continued holding of the securities to be subject to clause 1.2(b) of the Instrument. However, we will expect the manager to consider whether continuing to hold those securities is a conflict of interest matter that clause 1.2(a) of the Instrument would require the manager to refer to the IRC.

PART 7 EXEMPTIONS

7.1 Exemptions

(1) The securities regulatory authority or regulator may grant an exemption from this Instrument, in whole or in part, subject to such conditions or restrictions as may be imposed in the exemption.

(2) Despite subsection (1), in Ontario only the regulator may grant such an exemption.

7.2 Existing exemptions, waivers or approvals

Any exemption, waiver or approval under a provision of securities legislation that was effective before this Instrument came into force and that deals with the matters that this Instrument regulates, will expire one year after this Instrument comes into force.

Commentary

1 The CSA have, in a number of jurisdictions, granted exemptions and waivers from the conflict of interest and self-dealing provisions in securities legislation to permit the manager and/or the investment fund to make investments not otherwise permitted by securities legislation. Some of those exemptions and waivers contained sunset provisions that provided for the expiry of the exemption or waiver upon the coming into force of legislation or a CSA policy or rule that effectively provides for fund governance.

For greater certainty, the CSA note that the coming into force of section 7.2 of this Instrument will effectively cause all exemptions and waivers that deal with the matters regulated by this Instrument - not just those exemptions and waivers that deal with the matters under subsection 5.2(1) - to expire one year after its coming into force whether or not they contained a sunset provision.

PART 8 EFFECTIVE DATE**8.1 Effective date**

This Instrument comes into force on November 1, 2006.

8.2 Transition

(1) Despite section 8.1, this Instrument does not apply to an investment fund until the earlier of:

(a) the date on which the manager provides to the securities regulatory authority or regulator the notification referred to in subsection (4); and

(b) the date one year after this Instrument comes into force.

(2) Despite subsection (1), six months from the date this Instrument comes into force the manager must appoint the first members of the independent review committee under section 3.2 in compliance with this Instrument.

(3) Despite section 4.4, the independent review committee's first report to securityholders must be completed by the 120th day after the end of the first financial year of the investment fund to which this Instrument applies.

(4) A manager of an investment fund must notify the securities regulatory authority or regulator in writing if it intends to comply with this Instrument prior to the expiration of the transition period under subsection (1).

(5) The notification referred to in subsection (4) is satisfied if the notification is made to the investment fund's principal regulator.

Commentary

1 Section 8.2 is intended to address transitional concerns.

The CSA expect that all investment funds will be compliant with this Instrument following the expiry of the transition period under subsection 8.2(1), twelve months after the Instrument is in force. For an investment fund established after the expiry of the transition period, it is expected that the investment fund will be compliant with this Instrument before any purchase order for securities of the investment fund is accepted.

2 Subsection 8.2(2) allows a manager an extra six months from the date this Instrument is in force to appoint the initial members of the IRC.

While a six-month transition period exists for the appointment of IRC members, the CSA strongly encourage a timely appointment of the IRC by the manager so that within the twelve month transitional period there is sufficient time for the IRC to adopt its charter, to review the manager's policies and procedures, and to review (subject to manager referral) any existing conflict of interest matters.

The transition period is also intended to give the manager sufficient time to refer existing and new conflict of interest matters to the IRC for its review and determination.

3 The CSA anticipate a manager or investment fund may wish to rely on the Instrument before the expiry of the transition period so that it may proceed with IRC approval for an otherwise prohibited or restricted transaction in securities legislation described in subsection 5.2(1). This may not occur unless there is complete compliance with the Instrument. Subsection (4) is intended to assist the CSA in knowing which managers of investment funds are proceeding in this manner before the expiry of the transition period.

4 For investment funds established before the expiry of the transition period, the CSA expect the manager to establish policies and procedures on any conflict of interest matters (if they do not already have them), and to refer to the IRC these policies and procedures and any decisions related to such matters prior to the end of the transition period.

5 The CSA do not consider a manager's organization of an investment fund (such as the initial setting of fees or the initial choice of service providers) to be subject to IRC review, unless the manager's decisions give rise to a conflict of interest concerning the manager's obligations to existing investment funds within the manager's fund family. However, the CSA expect the manager will establish policies and procedures for any conflict of interest matters arising from the investment fund's organization or otherwise, and refer to the IRC these policies and procedures and any decisions related to such matters.

It is anticipated that the manager will wish to engage the IRC early in the establishment of the investment fund to ensure the IRC is adequately informed of potential new conflicts of interest.

6 An investment fund, whether established before or after the date this Instrument comes into force, has a total transition period of up to twelve months from the date the Instrument comes into force to comply with the Instrument. Only if the manager of an investment fund intends to comply with the Instrument in its entirety before the expiry of the transition period is the notice in subsection (4) required.

7 It is expected that investment funds will incorporate any new disclosure obligations arising out of this Instrument as part of their annual prospectus renewal or continuous disclosure filing following the expiry of the transition period.

8 The CSA do not consider the expenses incurred by existing investment funds in establishing an IRC under this Instrument to be caught by section 5.1 of NI 81-102. We do not view section 5.1 as intending to capture the costs associated with compliance by an investment fund with new regulatory requirements.
