(3) For the purposes of this section, a person is not acting jointly or in concert with an offeror solely because there is an agreement, commitment or understanding that the person will tender securities under a take-over bid or an issuer bid, made by the offeror, that is not exempt from Part 2.

### 1.11 Determination of market price

- (1) In this Instrument:

  - (b) if a published market does not provide a closing price, but provides only the highest and lowest prices of securities traded on a particular day, the market price of the securities, at any date, is an amount equal to the average of the simple averages of the highest and lowest prices for each of the business days on which there were highest and lowest prices in the 20 business days preceding that date; and
  - (c) if there has been trading of securities in a published market for fewer than 10 of the 20 business days preceding the date as of which the market price of the securities is being determined, the market price is the average of the following prices established for each day of the 20 business days preceding that date:
    - (i) the average of the closing bid and ask prices for each day on which there was no trading; and
    - (ii) either the closing price of securities of the class for each day that there has been trading, if the published market provides a closing price, or the average of the highest and lowest prices of securities of that class for each day that there has been trading, if the published market provides only the highest and lowest prices of securities traded on a particular day.
- (2) If there is more than one published market for a security, the market price in paragraphs (1)(a), (b) and (c) must be determined as follows:
  - (a) if only one of the published markets is in Canada, the market price must be determined solely by reference to that market;
  - (b) if there is more than one published market in Canada, the market price must be determined solely by reference to the published market in Canada on which the greatest volume of trading in the particular class of securities occurred during the 20 business days preceding the date as of which the market price is being determined;
  - (c) if there is no published market in Canada, the market price must be determined solely by reference to the published market on which the greatest volume of trading in the particular class of securities occurred during the 20

business days preceding the date as of which the market price is being determined.

- (3) Despite subsections (1) and (2) for the purposes of section 4.1 and subsection 4.8(3), if an offeror acquires securities on a published market, the market price for those securities is the price of the last standard trading unit of securities of that class purchased, before the acquisition by the offeror, by a person who was not acting jointly or in concert with the offeror.

- (3) In this section, a variation in the terms of a bid does not constitute a change in information.
- (4) A notice of change must be in the form of Form 62-104F5 Notice of Change or Notice of Variation.

(b) the offeror must not take up securities deposited under the bid before 10 days after the date of the notice of variation.

(4) Subsections (1), (3) and (3.1) do not apply to a variation in the terms of a bid consisting solely of the waiver of a condition in the bid and any extension of the bid, other than an extension in respect of the mandatory 10-day extension period, resulting from the waiver where the consideration offered for the securities consists solely of cash, but in that case the offeror must promptly issue and file a news release announcing the waiver.

(5) An offeror must not make a variation in the terms of an issuer bid, other than a variation that is the waiver by the offeror of a condition that is specifically stated in the bid as being waivable at the sole option of the offeror, after the expiry of the period, including any extension of the period, during which the securities may be deposited under the bid.

(6) An offeror must not make a variation in the terms of a take-over bid, other than a variation to extend the time during which securities may be deposited under the bid or a variation to increase the consideration offered for the securities subject to the bid, after the offeror becomes obligated to take up securities deposited under the bid in accordance with section 2.32.1

### **Division 4 Offeror's Obligations**

#### **2.23 Consideration**

(1) If a take-over bid or an issuer bid is made, all holders of the same class of securities must be offered identical consideration.

(2) Subsection (1) does not prohibit an offeror from offering an identical choice of consideration to all holders of the same class of securities.

(3) If a variation in the terms of a take-over bid or an issuer bid before the expiry of the bid increases the value of the consideration offered for the securities subject to the bid, the offeror must pay that increased consideration to each person whose securities are taken up under the bid, whether or not the securities were taken up by the offeror before the variation of the bid.

**2.24 Prohibition against collateral agreements**

If a person makes or intends to make a take-over bid or an issuer bid, the person or any person acting jointly or in concert with that person must not enter into any collateral agreement, commitment or understanding that has the effect, directly or indirectly, of providing a security holder of the offeree issuer with consideration of greater value than that offered to the other security holders of the same class of securities.

**2.25 Collateral agreements exception**

- (1) Section 2.24 does not apply to an employment compensation arrangement, severance arrangement or other employment benefit arrangement that provides:
  - (a) an enhancement of employee benefits resulting from participation by the security holder of the offeree issuer in a group plan, other than an incentive plan, for employees of a successor to the business of the offeree issuer, if the benefits provided by the group plan are generally provided to employees of the successor to the business of the offeree issuer who hold positions of a similar nature to the position held by the security holder; or
  - (b) a benefit not described in paragraph (a) that is received solely in connection with the security holder's services as an employee, director or consultant of the offeree issuer, of an affiliated entity of the offeree issuer, or of a successor to the business of the offeree issuer, if:
    - (i) at the time the bid is publicly announced, the security holder and its associates beneficially own or exercise control or direction over less than 1% of the outstanding securities of each class of securities of the offeree issuer subject to the bid; or
    - (ii) an independent committee of directors of the offeree issuer, acting in good faith, has determined that:
      - (A) the value of the benefit, net of any offsetting costs to the security holder, is less than 5% of the amount referred to in paragraph 3(a); or
      - (B) the security holder is providing at least equivalent value in exchange for the benefit.
- (2) In order to rely on an exception under paragraph (1)(b) the following conditions must be satisfied:
  - (a) the benefit is not conferred for the purpose, in whole or in part, of increasing the amount of the consideration paid to the security holder for securities deposited under the bid or providing an incentive to deposit under the bid;
  - (b) the conferring of the benefit is not, by its terms, conditional on the security holder supporting the bid in any manner; and
  - (c) full particulars of the benefit are disclosed in the issuer bid circular or, in the case of a take-over bid, in the take-over bid circular or directors' circular.
- (3) In order to rely on an exception under subparagraph 1(b)(ii) the following conditions must be satisfied:

- (a) the security holder receiving the benefit has disclosed to the independent committee the amount of consideration that the security holder expects it will be beneficially entitled to receive under the terms of the bid in exchange for the securities beneficially owned by the security holder; and
  - (b) the determination of the independent committee under subparagraph 1(b)(ii) is disclosed in the issuer bid circular or, in the case of a take-over bid, in the take-over bid circular or directors' circular.
- (4) In this section, in determining the beneficial ownership of securities of a holder at a given date, any security or right or obligation permitting or requiring the security holder or any person acting jointly or in concert with the security holder, whether or not on conditions, to acquire a security, including an unissued security, of a particular class within 60 days by a single transaction or a series of linked transactions is deemed to be a security of a particular class.

## **2.26 Proportionate take up and payment**

- (1) If an issuer bid is made for less than all of the class of securities subject to the bid and a greater number of securities is deposited under the bid than the offeror is bound or willing to acquire under the bid, the offeror must take up and pay for the securities proportionately, disregarding fractions, according to the number of securities deposited by each security holder.
- (2) Subsection (1) does not prohibit an offeror from acquiring securities under the terms of an issuer bid that, if not acquired, would constitute less than a standard trading unit for the security holder.
- (3) Subsection (1) does not apply to securities deposited under the terms of an issuer bid by security holders who:
- (a) are entitled to elect a minimum price per security, within a range of prices, at which they are willing to sell their securities under the bid; and
  - (b) elect a minimum price which is higher than the price that the offeror pays for securities under the bid.

- (2) For the purposes of subsection (1), any securities acquired in a pre-bid transaction to which subsection 2.4(1) applies are deemed to have been deposited under the take-over bid by the person who was the seller in the pre-bid transaction.

## **2.27 Financing arrangements**

- (1) If a take-over bid or an issuer bid provides that the consideration for the securities deposited under the bid is to be paid in cash or partly in cash, the offeror must make adequate arrangements before the bid to ensure that the required funds are available to make full payment for the securities that the offeror has offered to acquire.

- (2) The financing arrangements required to be made under subsection (1) may be subject to conditions if, at the time the take-over bid or the issuer bid is commenced, the offeror reasonably believes the possibility to be remote that, if the conditions of the bid are satisfied or waived, the offeror will be unable to pay for the securities deposited under the bid due to a financing condition not being satisfied.

**Line 11. Guarantees** - If the registered firm is guaranteeing the liability of another party, the total amount of the guarantee must be included in the capital calculation. If the amount of a guarantee is included in the firm’s statement of financial position as a current liability and is reflected in line 4, do not include the amount of the guarantee on line 11.

**Line 12. Unresolved differences** - Any unresolved differences that could result in a loss from either firm or client assets must be included in the capital calculation. The examples below provide guidance as to how to calculate unresolved differences:

## **APPENDIX A TO NATIONAL INSTRUMENT 25-101 DESIGNATED RATING ORGANIZATIONS - PROVISIONS REQUIRED TO BE INCLUDED IN A DESIGNATED RATING ORGANIZATION'S CODE OF CONDUCT**

### **1. INTERPRETATION**

- 1.1 A term used in this code of conduct has the same meaning as in National Instrument 25-101 *Designated Rating Organizations* if used in that Instrument.

### **2. QUALITY AND INTEGRITY OF THE RATING PROCESS**

#### **A. Quality of the Rating Process**

##### **I - General Requirements**

- 2.1 A designated rating organization must adopt, implement and enforce procedures in its code of conduct to ensure that the credit ratings it issues are based on a thorough analysis of all information known to the designated rating organization that is relevant to its analysis according to its rating methodologies.
- 2.2 A designated rating organization must include a provision in its code of conduct that it will use only rating methodologies that are rigorous, systematic, continuous and subject to validation based on experience, including back-testing.

##### **II - Specific Provisions**

- 2.3 Each ratings employee involved in the preparation, review or issuance of a credit rating, action or report must use methodologies established by the designated rating organization. Each ratings employee must apply a given methodology in a consistent manner, as determined by the designated rating organization.

- 2.4 A credit rating must be assigned by the designated rating organization and not by an employee or agent of the designated rating organization.
- 2.5 A credit rating must reflect all information known, and believed to be relevant, to the designated rating organization, consistent with its published methodology. The designated rating organization will ensure that its ratings employees and agents have appropriate knowledge and experience for the duties assigned.
- 2.6 The designated rating organization, its ratings employees and its agents must take all reasonable steps to avoid issuing a credit rating, action or report that is false or misleading as to the general creditworthiness of a rated entity or rated securities.
- 2.7 The designated rating organization will ensure that it has and devotes sufficient resources to carry out high-quality credit assessments of all rated entities and rated securities. When deciding whether to rate or continue rating an entity or securities, the organization will assess whether it is able to devote sufficient personnel with sufficient skill sets to make a credible rating assessment, and whether its personnel are likely to have access to sufficient information needed in order make such an assessment. A designated rating organization will adopt all necessary measures so that the information it uses in assigning a rating is of sufficient quality to support a credible rating and is obtained from a source that a reasonable person would consider to be reliable.
- 2.8 The designated rating organization will appoint a senior manager, or establish a committee made up of one or more senior managers, with appropriate experience to review the feasibility of providing a credit rating for a structure that is significantly different from the structures the designated rating organization currently rates.
- 2.9 The designated rating organization will assess whether the methodologies and models used for determining credit ratings of a securitized product are appropriate when the risk characteristics of the assets underlying the structured finance product change significantly. If the quality of the available information is not satisfactory or if the complexity of a new type of structure, instrument or security should reasonably raise concerns about whether the designated rating organization can provide a credible rating, the designated rating organization will not issue or maintain a credit rating.
- 2.10 The designated rating organization will ensure continuity and regularity, and avoid conflicts of interest, in the rating process.

#### **B. Monitoring and Updating**

- 2.11 The designated rating organization will establish a committee to be responsible for implementing a rigorous and formal process for reviewing, on at least an annual basis, and making changes to the methodologies, models and key ratings assumptions it uses. This review will include consideration of the appropriateness of the designated rating organization's methodologies, models and key ratings assumptions if they are used or intended to be applied to new types of structures, instruments or securities. This process will be conducted independently of the business lines that are responsible for credit rating activities. The committee will report to its board of directors or the board of directors of a DRO affiliate that is a parent of the designated rating organization.

2.12 If a methodology, model or key ratings assumption used in a credit rating activity is changed, the designated rating organization will do each of the following:

- (a) promptly identify each credit rating likely to be affected if the credit rating were to be re-rated using the new methodology, model or key ratings assumption and, using the same means of communication the organization generally uses for the credit ratings, disclose the scope of credit ratings likely to be affected by the change in methodology, model or key ratings assumption;
- (b) promptly place each credit rating identified under subsection (a) under surveillance;
- (c) within six months of the change, review each credit rating identified under subsection (a) with respect to its accuracy;
- (d) re-rate a credit rating if, following the review required in subsection (c), the change, alone or combined with all other changes, affects the accuracy of the credit rating.

2.13 The designated rating organization will ensure that adequate personnel and financial resources are allocated to monitoring and updating its credit ratings. Except for ratings that clearly indicate they do not entail ongoing monitoring, once a rating is published the designated rating organization will monitor the rated entity's creditworthiness on an ongoing basis and, at least annually, update the rating. In addition, the designated rating organization must initiate a review of the accuracy of a rating upon becoming aware of any information that might reasonably be expected to result in a rating action (including termination of a rating), consistent with the applicable rating methodology and must promptly update the rating, as appropriate, based on the results of such review.

Subsequent monitoring will incorporate all cumulative experience obtained.

2.14 If the designated rating organization uses separate analytical teams for determining initial ratings and for subsequent monitoring, the organization will ensure each team has the requisite level of expertise and resources to perform their respective functions competently and in a timely manner.

2.15 If the designated rating organization discloses a credit rating to the public and subsequently discontinues the rating, the designated rating organization will disclose that the rating has been discontinued using the same means of communication as was used for the disclosure of the rating. If the designated rating organization discloses a rating only to its subscribers, if it discontinues the rating, the designated rating organization will disclose to each subscriber of that rating that the rating has been discontinued. In both cases, a subsequent publication by the designated rating organization of the discontinued rating will indicate the date the rating was last updated and disclose that the rating is no longer being updated and the reasons for the decision to discontinue the rating.

### **C. Integrity of the Rating Process**

2.16 The designated rating organization, its ratings employees and agents will comply with all applicable laws and regulations governing its activities.

2.17 The designated rating organization, its ratings employees and agents must deal fairly, honestly and in good faith with rated entities, investors, other market participants, and the public.

- 2.18 The designated rating organization will hold its ratings employees and agents to a high standard of integrity, and the designated rating organization will not employ an individual who a reasonable person would consider to be lacking in or have compromised integrity.
- 2.19 The designated rating organization and its ratings employees and agents will not, either implicitly or explicitly, give any assurance or guarantee of a particular rating prior to a rating assessment. The designated rating organization may develop prospective assessments if the assessment is to be used in a structured finance product or similar transaction.
- 2.20 A person or company listed below must not make a recommendation to a rated entity about the corporate or legal structure, assets, liabilities, or activities of the rated entity:
- (a) a designated rating organization;
  - (b) an affiliate or related entity of the designated rating organization;
  - (c) the ratings employees of any of the above.
- 2.21 The designated rating organization will instruct its employees and agents that, upon becoming aware that the organization, another employee or an affiliate, or an employee of an affiliate of the designated rating organization, is or has engaged in conduct that is illegal, unethical or contrary to the designated rating organization's code of conduct, the employee or agent must report that information immediately to the compliance officer. Upon receiving the information, the compliance officer will take appropriate action, as determined by the laws and regulations of the jurisdiction and the rules and guidelines set forth by the designated rating organization. The designated rating organization will not take or allow retaliation against the employee or agent by employees, agents, the designated rating organization itself or its affiliates.

#### **D. Governance Requirements**

- 2.22 The designated rating organization will not issue a credit rating unless a majority of its board of directors, or the board of directors of a DRO affiliate that is a parent of the designated rating organization, including its independent directors, have, what a reasonable person would consider, sufficient expertise in financial services to fully understand and properly oversee the business activities of the designated rating organization. If the designated rating organization issues a credit rating for a structured finance product, at least one independent member and one other member must have, what a reasonable person would consider to be, in-depth knowledge and experience at a senior level, regarding the securitized product.
- 2.23 The designated rating organization will not issue a credit rating if a member of its board of directors, or the board of directors of a DRO affiliate that is a parent of the designated rating organization, participated in any deliberation involving a specific rating in which the member has a financial interest in the outcome of the rating.
- 2.24 The designated rating organization will not compensate an independent member of its board of directors, or the board of directors of a DRO affiliate that is a parent of the designated rating organization, in a manner or in an amount that a reasonable person could conclude that the compensation is linked to the business performance of the designated rating organization or its affiliates. The organization will only compensate directors in a manner that preserves the independence of the director.

- 2.25 The board of directors of a designated rating organization or a DRO affiliate that is a parent of the designated rating organization must monitor the following:
- (a) the development of the credit rating policy and of the methodologies used by the designated rating organization in its credit rating activities;
  - (b) the effectiveness of any internal quality control system of the designated rating organization in relation to credit rating activities;
  - (c) the effectiveness of measures and procedures instituted to ensure that any conflicts of interest are identified and either eliminated or managed and disclosed, as appropriate;
  - (d) the compliance and governance processes, including the performance of the committee identified in section 2.11.
- 2.26 The designated rating organization will design reasonable administrative and accounting procedures, internal control mechanisms, procedures for risk assessment, and control and safeguard arrangements for information processing systems. The designated rating organization will implement and maintain decision-making procedures and organizational structures that clearly, and in a documented manner, specify reporting lines and allocate functions and responsibilities.
- 2.27 The designated rating organization will monitor and evaluate the adequacy and effectiveness of its administrative and accounting procedures, internal control mechanisms, procedures for risk assessment, and control and safeguard arrangements for information processing systems, established in accordance with securities legislation and the designated rating organization's code of conduct, and take any measures necessary to address any deficiencies.
- 2.28 The designated rating organization will not outsource activities if doing so impairs materially the effectiveness of the designated rating organization's internal controls or the ability of the securities regulatory authority to conduct compliance reviews of the designated rating organization's compliance with securities legislation or its code of conduct. The designated rating organization will not outsource the functions or duties of the designated rating organization's compliance officer.

### **3. INDEPENDENCE AND CONFLICTS OF INTEREST**

#### **A. General**

- 3.1 The designated rating organization will not refrain from taking a rating action based in whole or in part on the potential effect (economic or otherwise) of the action on the designated rating organization, a rated entity, an investor, or other market participant.
- 3.2 The designated rating organization and its employees will use care and professional judgment to remain independent and maintain the appearance of independence and objectivity.
- 3.3 The determination of a credit rating will be influenced only by factors relevant to the credit assessment.

- 3.4 The designated rating organization will not allow its decision to assign a credit rating to a rated entity or rated securities to be affected by the existence of, or potential for, a business relationship between the designated rating organization or its affiliates and any other person or company including, for greater certainty, the rated entity, its affiliates or related entities.
- 3.5 The designated rating organization and its affiliates will keep separate, operationally and legally, their credit rating business and their rating employees from any ancillary services (including the provision of consultancy or advisory services) that may present conflicts of interest with their credit rating activities and will ensure that the provision of such services does not present conflicts of interest with their credit rating activities. The designated rating organization will define and publicly disclose what it considers, and does not consider, to be an ancillary service and identify those that are ancillary services. The designated rating organization will disclose in each ratings report any ancillary services provided to a rated entity, its affiliates or related entities.
- 3.6 The designated rating organization will not rate a person or company that is an affiliate or associate of the organization or a ratings employee. The designated rating organization must not assign a credit rating to a person or company if a ratings employee is an officer or director of the person or company, its affiliates or related entities.

**B. Procedures and Policies**

- 3.7 The designated rating organization will identify and eliminate or manage and publicly disclose any actual or potential conflicts of interest that may influence the opinions and analyses of ratings employees.
- 3.8 The designated rating organization will disclose the actual or potential conflicts of interest it identifies under section 3.7 in a complete, timely, clear, concise, specific and prominent manner.
- 3.9 The designated rating organization will disclose the general nature of its compensation arrangements with rated entities.
- (1) If the designated rating organization or an affiliate receives from a rated entity, an affiliate or a related entity compensation unrelated to its ratings service, such as compensation for ancillary services (as referred to in section 3.5), the designated rating organization will disclose the percentage that non-rating fees represent out of the total amount of fees received by the designated rating organization or its affiliate, as the case may be, from the rated entity, the affiliate or the related entity.
- (2) If the designated rating organization or its affiliates receives directly or indirectly 10 percent or more of its annual revenue from a particular rated entity or subscriber, including revenue received from an affiliate or related entity of the rated entity or subscriber, the organization will disclose that fact and identify the particular rated entity or subscriber.
- 3.10 A designated rating organization and its DRO employees and their associates must not trade a security, derivative or exchange contract if the organization's employee's or associate's interests in the trade conflict with their interests relating to a credit rating.

- 3.11 If a designated rating organization is subject to the oversight of a rated entity, or an affiliate or related entity of the rated entity, the designated rating organization will use different DRO employees to conduct the rating actions in respect of that entity than those involved in the oversight.

**C. Employee Independence**

- 3.12 Reporting lines for a ratings employee or DRO employees and their compensation arrangements will be structured to eliminate or manage actual and potential conflicts of interest.
- (1) The designated rating organization will not compensate or evaluate a ratings employee on the basis of the amount of revenue that the designated rating organization or its affiliates derives from rated entities that the ratings employee rates or with which the ratings employee regularly interacts.
- (2) The designated rating organization will conduct reviews of compensation policies and practices for its DRO employees within reasonable regular time periods to ensure that these policies and practices do not compromise the objectivity of the designated rating organization's rating process.
- 3.13 The designated rating organization will take reasonable steps to ensure that its ratings employees, and any agent who has responsibility for developing or approving procedures or methodologies used for determining credit ratings, do not initiate, or participate in, discussions or negotiations regarding fees or payments with any rated entity or its affiliates or related entities.
- 3.14 The designated rating organization will not permit a ratings employee to participate in or otherwise influence the determination of a credit rating if the ratings employee:
- (a) owns directly or indirectly securities, derivatives or exchange contracts of the rated entity, other than holdings through an investment fund;
  - (b) owns directly or indirectly securities, derivatives or exchange contracts of a rated entity or its related entities, the ownership of which causes or may reasonably be perceived as causing a conflict of interest;
  - (c) has had a recent employment, business or other relationship with the rated entity, its affiliates or related entities that causes or may reasonably be perceived as causing a conflict of interest; or
  - (d) has an associate who currently works for the rated entity, its affiliates or related entities.
- 3.15 The designated rating organization will not permit a ratings employee or an associate of such ratings employee to buy or sell or engage in any transaction involving a security, a derivative or an exchange contract based on a security issued, guaranteed, or otherwise supported by any person or company within such ratings employee's area of primary analytical responsibility, other than holdings through an investment fund.
- 3.16 The designated rating organization will not permit a ratings employee or an associate of such ratings employee to accept gifts, including entertainment, from anyone with whom the designated rating organization does business, other than items provided in the normal course of business if the aggregate value of all gifts received is nominal.

- 3.17 If a DRO employee of a designated rating organization becomes involved in any personal relationship that creates any actual or potential conflict of interest, the DRO employee must disclose the relationship to the designated rating organization's compliance officer. The designated rating organization will not issue a credit rating if a DRO employee has an actual or potential conflict of interest with a rated entity. If the credit rating has been issued, the designated rating organization will publicly disclose in a timely manner that the credit rating may be affected.
- 3.18 The designated rating organization will review the past work of any ratings employee that leaves the organization and joins a rated entity (or an affiliate or related entity of the rated entity) if:
- (a) the ratings employee has, within the last year, been involved in rating the rated entity; or
  - (b) the rated entity is a financial firm with which the ratings employee had, within the last year, significant dealings as part of his or her duties at the designated rating organization.

#### **4. RESPONSIBILITIES TO THE INVESTING PUBLIC AND ISSUERS**

##### **A. Transparency and Timeliness of Ratings Disclosure**

- 4.1 The designated rating organization will distribute in a timely manner its ratings decisions regarding the entities and securities it rates.
- 4.2 The designated rating organization will publicly disclose its policies for distributing ratings, ratings reports and updates.
- 4.3 Except for a rating it discloses only to the rated entity, a designated rating organization will disclose to the public, on a non-selective basis and free of charge, any ratings decision regarding rated entities that are reporting issuers or the securities of such issuers, as well as any subsequent decisions to discontinue such a rating, if the rating decision is based in whole or in part on material non-public information.
- 4.4 In each of its ratings reports, a designated rating organization will disclose the following:
- (a) when the rating was first released and when it was last updated;
  - (b) the principal methodology or methodology version that was used in determining the rating and where a description of that methodology can be found. If the rating is based on more than one methodology, or if a review of only the principal methodology might cause investors to overlook other important aspects of the rating, the designated rating organization must explain this fact in the ratings report, and include a discussion of how the different methodologies and other important aspects factored into the rating decision;
  - (c) the meaning of each rating category and the definition of default or recovery, and the time horizon the designated rating organization used when making a rating decision;

- (d) any attributes and limitations of the credit rating. If the rating involves a type of financial product presenting limited historical data (such as an innovative financial vehicle), the designated rating organization will disclose, in a prominent place, the limitations of the rating;
  - (e) all material sources, including the rated entity, its affiliates and related entities, that were used to prepare the credit rating and whether the credit rating has been disclosed to the rated entity or its related entities and amended following that disclosure before being issued.
- 4.5 In each of its ratings reports in respect of a structured finance product, a designated rating organization will disclose the following:
  - (a) all information about loss and cash-flow analysis it has performed or is relying upon and an indication of any expected change in the credit rating. The designated rating organization will also disclose the degree to which it analyzes how sensitive a rating of a structured finance product is to changes in the designated rating organization's underlying rating assumptions;
  - (b) the level of assessment the designated rating organization has performed concerning the due diligence processes carried out at the level of underlying financial instruments or other assets of structured finance products. The designated rating organization will also disclose whether it has undertaken any assessment of such due diligence processes or whether it has relied on a third-party assessment and how the outcome of such assessment impacts the credit rating.
- 4.6 If, to a reasonable person, the information required to be included in a ratings report under sections 4.4 and 4.5 would be disproportionate to the length of the ratings report, the designated rating organization will include a prominent reference to where such information can be easily accessed.
- 4.7 A designated rating organization will disclose on an ongoing basis information about all structured finance products submitted to it for its initial review or for a preliminary rating, including whether the issuer requested the designated rating organization to provide a final rating.
- 4.8 The designated rating organization will publicly disclose the methodologies, models and key rating assumptions (such as mathematical or correlation assumptions) it uses in its credit rating activities and any material modifications to such methodologies, models and key rating assumptions. This disclosure will include sufficient information about the designated rating organization's procedures, methodologies and assumptions (including financial statement adjustments that deviate materially from those contained in the issuer's published financial statements and a description of the rating committee process, if applicable) so that outside parties can understand how a rating was arrived at by the designated rating organization.
- 4.9 The designated rating organization will differentiate ratings of structured finance products from traditional corporate bond ratings through a different rating symbology. The designated rating organization will also disclose how this differentiation functions. The designated rating organization will clearly define a given rating symbol and apply it in a consistent manner for all types of securities to which that symbol is assigned.

- 4.10 The designated rating organization will assist investors in developing a greater understanding of what a credit rating is, and the limits to which credit ratings can be put to use in relation to a particular type of financial product that the designated rating organization rates. The designated rating organization will clearly indicate the attributes and limitations of each credit rating.
- 4.11 When issuing or revising a rating, the designated rating organization will provide in its press releases and public reports an explanation of the key elements underlying the rating opinion.
- 4.12 Before issuing or revising a rating, the designated rating organization will inform the issuer of the critical information and principal considerations upon which a rating will be based and afford the issuer an opportunity to clarify any likely factual misperceptions or other matters that the designated rating organization would wish to be made aware of in order to produce an accurate rating. The designated rating organization will duly evaluate the response.
- 4.13 Every year, the designated rating organization will publicly disclose data about the historical default rates of its rating categories and whether the default rates of these categories have changed over time. If the nature of the rating or other circumstances make a historical default rate inappropriate, statistically invalid, or otherwise likely to mislead the users of the rating, the designated rating organization will explain this. This information will include verifiable, quantifiable historical information about the performance of its rating opinions, organized and structured, and, where possible, standardized in such a way so as to assist investors in drawing performance comparisons between different designated rating organizations.
- 4.14 For each rating, the designated rating organization will disclose whether the rated entity and its related entities participated in the rating process and whether the designated rating organization had access to the accounts and other relevant internal documents of the rated entity or its related entities. Each rating not initiated at the request of the rated entity will be identified as such. The designated rating organization will also disclose its policies and procedures regarding unsolicited ratings.
- 4.15 The designated rating organization will fully and publicly disclose, in a timely fashion, any material modification to its methodologies, models, key ratings assumptions and significant systems, resources or procedures. Where a reasonable person would consider feasible and appropriate, disclosure of such material modifications will be made before they go into effect. The designated rating organization will carefully consider the various uses of credit ratings before modifying its methodologies, models, key ratings assumptions and significant systems, resources or procedures.

**B. The treatment of confidential information**

- 4.16 The designated rating organization and its DRO employees will take all reasonable measures to protect the confidential nature of information shared with them by rated entities under the terms of a confidentiality agreement or otherwise under a mutual understanding that the information is shared confidentially. Unless otherwise permitted by the confidentiality agreement or required by applicable laws, regulations or court orders, the designated rating organization and its DRO employees will not disclose confidential information.

- 4.17 The designated rating organization and its DRO employees will not use confidential information for any purpose except for their rating activities or in accordance with applicable legislation or a confidentiality agreement with the rated entity to which the information relates.
- 4.18 The designated rating organization and its DRO employees will take all reasonable measures to protect all property and records relating to credit rating activities and belonging to or in possession of the designated rating organization from fraud, theft or misuse.
- 4.19 A designated rating organization will ensure that its DRO employees do not engage in transactions in securities, derivatives or exchange contracts when they possess confidential information concerning the issuer of such security or to which the derivative or the exchange contract relates.
- 4.20 A designated rating organization will cause its DRO employees to familiarize themselves with the internal securities trading policies maintained by the designated rating organization and certify their compliance with such policies within reasonable regular time periods.
- 4.21 The designated rating organization and its DRO employees will not selectively disclose any non-public information about ratings or possible future rating actions of the designated rating organization, except to the issuer or its designated agents.
- 4.22 The designated rating organization and its DRO employees will not share confidential information entrusted to the designated rating organization with employees of any affiliate that is not a designated rating organization or a DRO affiliate. The designated rating organization and its DRO employees will not share confidential information within the designated rating organization, except as necessary in connection with the designated rating organization's credit rating functions.
- 4.23 A designated rating organization will ensure that its DRO employees do not use or share confidential information for the purpose of buying or selling or engaging in any transaction in any security, derivative or exchange contract based on a security issued, guaranteed, or otherwise supported by any person or company, or for any other purpose except the conduct of the designated rating organization's business.

PART 2 REQUIREMENTS APPLICABLE TO MARKETPLACE PARTICIPANTS

3 Risk Management and Supervisory Controls, Policies and Procedures

- (1) A marketplace participant must:

(ii) the entry of one or more orders that exceed pre-determined price or size parameters;

(b) ensure compliance with marketplace and regulatory requirements, including, for greater certainty:

  - (b) a derivative resulting from a bilateral or multilateral portfolio compression exercise;
  - (c) a derivative resulting from novation by a clearing agency.

### Rounding of notional amount

3. A recognized trade repository must round, in accordance with the rounding conventions contained in Table 3, the notional amount of a derivative for which it makes transaction-level data available to the public in accordance with the Instrument and item 1 of this Appendix.

**Table 3**

| <b>Reported Notional Amount Leg 1 or 2</b> | <b>Rounded Notional Amount</b> |

| >\$100 billion                             | Round to nearest \$50 billion  |

### Capping of notional amount

4. If the rounded notional amount, as determined under item 3, of a derivative referred to in item 1 exceeds the capped rounded notional amount, in Canadian dollars, according to the asset class and maturity date less execution time stamp date set out in Table 4 for that derivative, a recognized trade repository must make available to the public the capped rounded notional amount for the derivative in place of the rounded notional amount.
5. When making transaction-level data for a derivative to which item 4 applies available to the public under subsection 39(3) of this Instrument and in accordance with this Appendix, a recognized trade repository must state that the notional amount for the derivative has been capped.
6. For each derivative referred to in item 1 for which the capped rounded notional amount is made available to the public, if the data to be made available to the public includes an option premium, the recognized trade repository must adjust the option premium in a manner that is consistent with and proportionate to the capping and rounding of the reported notional

amount of the transaction.

| <b>Asset Class</b> | <b>Maturity Date less<br/>Execution Time Stamp Date</b>                            | <b>Capped Rounded Notional<br/>Amount in Canadian Dollars</b> |
|--------------------|--|---|
| Interest Rate      | Less than or equal to two years (746 days)   | \$250 million   |
| Interest Rate      | Greater than two years (746 days) and less than or equal to ten years (3,668 days) | \$100 million   |
| Interest Rate      | Greater than ten years (3,668 days)  | \$50 million  |
| Credit             | All dates  | \$50 million  |
| Equity             | All dates  | \$50 million  |

**Timing**

7. Subject to items 2 through 6, a recognized trade repository must make the information contained in Table 1 available to the public 48 hours after the time reported in the execution timestamp field for the derivative.

**Instructions related to financial statement requirements and the disclosure of other financial information**

**What constitutes an issuer's first financial year** – The first financial year of an issuer commences on the date of its incorporation or organization and ends at the close of that financial year.

**What would be presented in an issuer's financial statements if the issuer has not completed a financial year** – The financial statements would include the financial statements listed in paragraphs 4.1(1)(a), (b), (c) and (e) [*Comparative annual financial statements and audit*] of National Instrument 51-102 *Continuous Disclosure Obligations* for the period from the date of the formation of the issuer to a date not more than 90 days before the date of this crowdfunding offering document. The financial statements would not include a comparative period.

**What financial years need to be audited or reviewed** – If an issuer is required to have an auditor's report or review report accompany its financial statements in accordance with subparagraph 3(c)(i) of this schedule, the financial statements for the most recent period and the comparative period, if any, are both required to be audited or are both required to be reviewed.

**Statement required in annual financial statements that have not been audited or reviewed** – Paragraph 3(i) of this schedule requires that if an issuer's annual financial statements are not accompanied by an auditor's report or a review report prepared by a public accountant, the financial statements must include a statement that discloses that fact. Consistent with the requirements set out in subparagraph 3(c)(i) of this schedule, an issuer's annual financial statements are not required to be audited or reviewed by a public accountant if the issuer has raised less than \$250,000 under one or more prospectus exemptions from the date of the formation of the issuer until 90 days before the date of this crowdfunding offering document.

**What financial reporting framework is identified in the financial statements, and any accompanying auditor's report or review report** – If an issuer's financial statements are prepared in accordance with Canadian GAAP for publicly accountable enterprises and include an unreserved statement of compliance with IFRS, the auditor's report or review report must refer to IFRS as the applicable financial reporting framework.

There are two options for referring to the financial reporting framework in the applicable financial statements and accompanying auditor's report or review report:

- (a) refer only to IFRS in the notes to the financial statements and in the auditor's report or review report, or
- (b) refer to both IFRS and Canadian GAAP in the notes to the financial statements and in the auditor's report or review report.

**Non-GAAP financial measures** – An issuer that intends to disclose non-GAAP financial measures in its crowdfunding offering document should refer to CSA guidance for a discussion of staff expectations concerning the use of these measures.

  - (i) if either of the fair market values is not readily determinable, any determination as to whether that fair market value exceeds the threshold for this exemption shall be made by the issuer's board of directors acting in good faith,
  - (ii) if the transaction is one in which the issuer or a wholly-owned subsidiary entity of the issuer combines with a related party, through an amalgamation, arrangement or otherwise, the subject matter of the transaction shall be deemed to be the securities of the related party held, at the time the transaction is agreed to, by persons other than the issuer or a wholly-owned subsidiary entity of the issuer, and the consideration for the transaction shall be deemed to be the consideration received by those persons,
  - (iii) if the transaction is one of two or more connected transactions that are related party transactions and would, without the exemption in this paragraph (a), require formal valuations under this Instrument, the fair market values for all of those transactions shall be aggregated in determining whether the tests for this exemption are met, and

(iv) if the assets involved in the transaction (the “initial transaction”) include warrants, options or other instruments providing for the possible future purchase of securities or other assets (the “future transaction”), the calculation of the fair market value for the initial transaction shall include the fair market value, as of the time the initial transaction is agreed to, of the maximum number of securities or other consideration that the issuer may be required to issue or pay in the future transaction,

- (v) the related party benefiting from the transaction pays for all of the costs and expenses resulting from the transaction.

**5.6 Minority Approval** – An issuer shall not carry out a related party transaction unless the issuer has obtained minority approval for the transaction under Part 8.

**5.7 Exemptions from Minority Approval Requirement**

(1) Subject to subsections (2), (3), (4) and (5), section 5.6 does not apply to an issuer carrying out a related party transaction in any of the following circumstances if the exemption relied on, any formal valuation exemption relied on, and the facts supporting reliance on those exemptions are disclosed in the disclosure document, if any, for the transaction:

(iii) the issuer has one or more independent directors in respect of the transaction who are not employees of the issuer, and

(iv) at least two-thirds of the directors described in subparagraph (iii) approve the transaction,

(f) **Loan to Issuer, No Equity or Voting Component** –

(i) the transaction is a loan, or the creation of a credit facility, that is obtained by the issuer from a related party on reasonable commercial terms that are not less advantageous to the issuer than if the loan or credit facility were obtained from a person dealing at arm's length with the issuer, and the loan, or each advance under the credit facility, as the case may be, is not

(A) convertible, directly or indirectly, into equity or voting securities of the issuer or a subsidiary entity of the issuer, or otherwise participating in nature, or

- (i) an appraisal remedy is available to holders of the class of affected securities under the statute under which the issuer is organized or is governed as to corporate law matters, or
  - (ii) if an appraisal remedy referred to in subparagraph (i) is not available, holders of the class of affected securities are given an enforceable right that is substantially equivalent to the appraisal remedy provided for in section 190 of the CBCA and that is described in an information circular or other document sent to holders of that class of affected securities in connection with a meeting to approve the related party transaction, or, if there is no such meeting, in another document that is sent to those security holders not later than the time by which an information circular or other document would have been required to be sent to them if there had been a meeting.
- (2) Despite subparagraph (a)(iii) of section 5.5, if the transaction is one of two or more connected transactions that are related party transactions and would, without the exemptions in paragraphs (a) and (b) of subsection (1), require minority approval under this Instrument, the fair market values for all of those transactions shall be aggregated in determining whether the tests for those exemptions are met.
- (3) If the transaction is a material amendment to the terms of a security, or of a loan or credit facility to which the exemption in paragraph (f) of subsection (1) does not apply, the fair market value tests for the exemptions in paragraphs (a) and (b) of subsection (1) shall be applied to the whole transaction as amended, insofar as it involves interested parties, rather than just to the amendment, and, for this purpose, any addition of, or amendment to, a term involving a right to convert into or otherwise acquire equity or voting securities is deemed to be a material amendment.
- (4) Subparagraphs (a)(i), (iii) and (iv) of section 5.5 apply to paragraph (b) of subsection 5.7(1) with appropriate modifications.
- (5) If there are two or more classes of affected securities, paragraph (g) of subsection (1) applies only to a class of which the applicable interested parties beneficially own, in the aggregate, 90 per cent or more of the outstanding securities.

## PART 6 FORMAL VALUATIONS AND PRIOR VALUATIONS

### 6.1 Independence and Qualifications of Valuator

- (1) Every formal valuation required by this Instrument for a transaction shall be prepared by a valuator that is independent of all interested parties in the transaction and that has appropriate qualifications.
- (2) It is a question of fact as to whether a valuator is independent of an interested party or has appropriate qualifications.

(3) A valuator is not independent of an interested party in connection with a transaction if

- (a) the valuator is an associated or affiliated entity or issuer insider of the interested party,
- (b) except in the circumstances described in paragraph (e), the valuator acts as an adviser to the interested party in respect of the transaction, but for this purpose, a valuator that is retained by an issuer to prepare a formal valuation for an issuer bid is not, for that reason alone, considered to be an adviser to the interested party in respect of the transaction,
- (c) the compensation of the valuator depends in whole or in part on an agreement, arrangement or understanding that gives the valuator a financial incentive in respect of the conclusion reached in the formal valuation or the outcome of the transaction,
- (d) the valuator is
  - (i) a manager or co-manager of a soliciting dealer group for the transaction, or
  - (ii) a member of a soliciting dealer group for the transaction, if the valuator, in its capacity as a soliciting dealer, performs services beyond the customary soliciting dealer's function or receives more than the per security or per security holder fees payable to other members of the group,
- (e) the valuator is the external auditor of the issuer or of an interested party, unless the valuator will not be the external auditor of the issuer or of an interested party upon completion of the transaction and that fact is publicly disclosed at the time of or prior to the public disclosure of the results of the valuation, or
- (f) the valuator has a material financial interest in the completion of the transaction,

and for the purposes of this subsection, references to the valuator include any affiliated entity of the valuator.

(4) A valuator that is paid by one or more interested parties in a transaction, or paid jointly by the issuer and one or more interested parties in a transaction, to prepare a formal valuation for the transaction is not, by virtue of that fact alone, not independent.

**6.2 Disclosure Regarding Valuator** – An issuer or offeror required to obtain a formal valuation for a transaction shall include in the disclosure document for the transaction

- (a) a statement that the valuator has been determined to be qualified and independent,
- (b) a description of any past, present or anticipated relationship between the valuator and the issuer or an interested party that may be relevant to a perception of lack of independence,

- (c) a description of the compensation paid or to be paid to the valuator,
- (d) a description of any other factors relevant to a perceived lack of independence of the valuator,
- (e) the basis for determining that the valuator is qualified, and

- (b) the security holder that tendered the securities to the bid was not

    - (B) a collateral benefit, or
    - (C) consideration for securities of a class of equity securities of the issuer if the issuer had more than one outstanding class of equity securities, unless that consideration was not greater than the entitlement of the general body of holders in Canada of every other class of equity securities of the issuer in relation to the voting and financial participating interests in the issuer represented by the respective securities,

- (c) the business combination is being effected by the offeror that made the bid, or an affiliated entity of that offeror, and is in respect of the securities of the same class for which the bid was made and that were not acquired in the bid,
- (d) the business combination is completed no later than 120 days after the date of expiry of the bid,
- (e) the consideration per security that the holders of affected securities would be entitled to receive in the business combination is at least equal in value to and is in the same form as the consideration that the tendering security holders were entitled to receive in the bid, and
- (f) the disclosure document for the bid
  - (i) disclosed that if the offeror acquired securities under the bid, the offeror intended to acquire the remainder of the securities under a statutory right of acquisition or under a business combination that would satisfy the conditions in paragraphs (d) and (e),
  - (ii) contained a summary of a formal valuation of the securities in accordance with the applicable provisions of Part 6, or contained the valuation in its entirety, if the offeror in the bid was subject to and not exempt from the requirement to obtain a formal valuation,
  - (iii) stated that the business combination would be subject to minority approval,
  - (iv) disclosed the number of votes attached to the securities that, to the knowledge of the issuer after reasonable inquiry, would be required to be excluded in determining whether minority approval for the business combination had been obtained,
  - (v) identified the holders of securities specified in subparagraph (iv) and set out their individual holdings,
  - (vi) identified each class of securities the holders of which would be entitled to vote separately as a class on the business combination,
  - (vii) described the expected tax consequences of both the bid and the business combination if, at the time the bid was made, the tax consequences arising from the business combination
    - (A) were reasonably foreseeable to the offeror, and
    - (B) were reasonably expected to be different from the tax consequences of tendering to the bid, and
  - (viii) disclosed that the tax consequences of the bid and the business combination may be different if, at the time the bid was made, the offeror could not reasonably foresee the tax consequences arising from the business combination.

**Transmission of documents outside of SEDAR+**

3 Unless a decision made under securities legislation provides for filing or delivery through SEDAR+, a person or company must not file or deliver the following through SEDAR+:

- 4(1)** Before a person or company transmits a document through SEDAR+ for the first time, the person or company must file a profile by transmitting it through SEDAR+.
- (2)** If information contained in a profile becomes inaccurate, the person or company must file an updated profile with the accurate information by transmitting it through SEDAR+ at the earlier of
- (a) the next time the person or company transmits a document through SEDAR+ after the date on which the person or company knew or reasonably should have known that the information contained in the profile is inaccurate, and
  - (b) 10 days after the date on which the person or company knew or reasonably should have known that the information contained in the profile is inaccurate.

**Payment of fees**

- 5(1)** At the time that a person or company transmits a document through SEDAR+, a person or company must pay through SEDAR+

(3) For the purposes of subsection (1), if the person or company is transmitting through SEDAR+ a document to which Multilateral Instrument 11-102 *Passport System* does not apply, the principal regulator is the securities regulatory authority or regulator that would be the principal regulator if Part 3 of Multilateral Instrument 11-102 *Passport System* applied.

#### **Temporary hardship exemption**

6(1) If technical difficulties prevent a person or company from transmitting a document through SEDAR+ within the time required or permitted under securities legislation, the person or company may file the document with or deliver the document to the securities regulatory authority or regulator outside of SEDAR+ no later than 2 business days after the date on or by which the person or company was required or permitted to file the document with, or deliver the document to, the securities regulatory authority or regulator.

**(2)** In British Columbia, subsection (1) does not apply.

(2) If a derivatives party instructs a derivatives firm, or an individual acting on behalf of a derivatives firm, to transact in a derivative and, in the derivatives firm's reasonable opinion, following the instruction would result in a transaction or derivative that is not suitable for the derivatives party, the derivatives firm must inform the derivatives party in writing of the derivatives firm's opinion and must not transact in the derivative unless the derivatives party, after being informed, instructs the derivatives firm to proceed with the transaction.

**Permitted referral arrangements**

- (f) any other information that a reasonable derivatives party would consider important in evaluating the referral arrangement.
- (2) If there is a change to the information set out in subsection (1), the derivatives firm must ensure that written disclosure of that change is provided to each derivatives party affected by the change as soon as possible and no later than the 30th day before the date on which a referral fee is next paid or received.

  - (k) in the case of a derivatives firm that holds or has access to derivatives party assets, a general description of the manner in which the assets are held, used or are invested by the derivatives firm and a description of the risks and benefits to the counterparty arising from the derivatives firm holding or having access to use or invest the derivatives party assets in that manner.
- (3) A derivatives firm must deliver the information required under subsection (1) to the derivatives party in writing before the derivatives firm does either of the following:
- (a) first transacts in a derivative with, for or on behalf of the derivatives party;
  - (b) first advises the derivatives party in respect of a derivative.
- (4) If there is a significant change in respect of the information delivered to a derivatives party under subsection (1) or (2), the derivatives firm must take reasonable steps to notify the derivatives party of the change in a timely manner and, if possible, before the derivatives firm next does either of the following:
- (a) transacts in a derivative with, for or on behalf of the derivatives party;
  - (b) advises the derivatives party in respect of a derivative.
- (5) A derivatives firm must not impose any new fee or other charge in respect of an account of a derivatives party, or increase the amount of any fee or other charge in respect of an account of a derivatives party, unless written notice of the new or increased fee or charge is provided to the derivatives party at least 60 days before the date on which the imposition or increase becomes effective.
- (6) Subsections (1) to (4) do not apply to a derivatives dealer in respect of a derivatives party for whom the derivatives dealer transacts in a derivative only as directed by a derivatives adviser acting for the derivatives party.
- (7) A derivatives dealer referred to in subsection (6) must deliver the information referred to in paragraphs (2)(a) to (g) to the derivatives party in writing before the derivatives dealer first transacts in a derivative for the derivatives party.

**Pre-transaction disclosure**

- 20.(1)** Before transacting in a type of derivative with, for or on behalf of a derivatives party for the first time, a derivatives dealer must deliver each of the following to the derivatives party:
- (a) a general description of the type of derivatives and services related to derivatives that the derivatives firm offers;
  - (b) a document designed to reasonably enable the derivatives party to assess each of the following:
    - (i) the types of risks that a derivatives party should consider when making a decision relating to types of derivatives that the derivatives dealer offers, including, for greater certainty, the material risks relating to the type of derivatives transacted and the derivatives party's potential exposure under the type of derivatives;

- (ii) the material characteristics of the type of derivative, including, for greater certainty, the material economic terms and the rights and obligations of the counterparties to the type of derivative;
- (c) the following statement, or a statement in writing that is substantially similar:

*“A characteristic of many derivatives is that you are only required to deposit funds that correspond to a portion of your total potential obligations when entering into the derivative. However, your profits or losses from the derivative are based on changes in the total value of the derivative. This means the leverage characteristic magnifies the profit or loss under a derivative, and losses can greatly exceed the amount of funds deposited. We may require you to deposit additional funds to cover your obligations under a derivative as the value of the derivative changes. If you fail to deposit these funds, we may close out your position without warning. You should understand all of your obligations under a derivative, including your obligations if the value of the derivative declines.*

*Using borrowed money to finance a derivatives transaction involves greater risk than using cash resources only. If you borrow money, your responsibility to repay the loan and pay interest as required by its terms remains the same even if the value of the derivative declines.”*

- (2) Before transacting in a derivative with, for or on behalf of a derivatives party, a derivatives dealer must advise the derivatives party of all of the following:
  - (a) any material risks or material characteristics that are materially different from the risks or characteristics described in the disclosure required under subsection (1);
  - (b) if applicable, the price of the derivative to be transacted and the most recent valuation;
  - (c) any compensation or other incentive payable by the derivatives party relating to the derivative or the transaction.

#### **Valuation reporting**

**21.(1)** On each business day, a derivatives dealer must make available to a derivatives party a valuation for each derivative that it has transacted with, for or on behalf of the derivatives party and with respect to which obligations remain outstanding on that day.
