**62** Subject to section 63, no company incorporated, licensed or registered under an Act of the province regulating companies shall sell or keep open premises for retailing, dispensing or compounding poisons, drugs or medicines, as provided by this Act, or sell or attempt to sell any of the articles mentioned in schedule I unless:

(a) the majority of the stock in the company is owned by and registered in the names of Canadian citizens or other British subjects;

(b) a majority of its directors are duly registered as pharmaceutical chemists under this Act; and

(c) one of such directors personally manages and conducts the shop and has his certificate posted in a conspicuous position in the shop.

**95(1)** No pharmacist shall sell, except to a medical practitioner, veterinary surgeon or dentist or upon the prescription of a medical practitioner, veterinary surgeon or dentist, any of the articles or preparations thereof mentioned in schedule I....

(4) No person shall sell any of the articles or preparations thereof mentioned in schedules II and III to any person who is apparently under the age of eighteen years except on the written prescription of a medical practitioner, dentist or veterinary surgeon.

(5) No person shall sell any of the articles mentioned in schedule II to any person unknown to the seller unless such person is introduced by someone known to the seller, and on every sale of any such articles the person actually selling it shall, before delivery, make an entry in form D in a book, to be known as the "Poison Register"....

(7) No person shall sell by wholesale or retail any of the articles or preparations thereof mentioned in schedules II and III unless the package in which the article is contained is distinctly labelled with the name of the article and the word "Poison" and the package is also labelled with the name of the pharmacist by whom or the pharmacy in which the sale is made.

**96** No person shall make a misleading or false statement with respect to the sale or purchase of any of the articles or preparations thereof mentioned in the schedules.

**99** No pharmaceutical chemist, wholesaler or manager of a laboratory shall sell:

**100** The council may by resolution declare that an article named in the resolution be added to or included in or struck out or changed in any schedule or in any section of this Act and thereupon the association shall submit the resolution for the approval of the Lieutenant Governor in Council and, if his approval is given, the resolution and approval shall be advertised

in *The Saskatchewan Gazette*, and after the expiration of two months from the publication of the advertisement the article named in the resolution shall be so added, included, struck out or changed, as the case may require.

**105** Subsections (1) and (2) of section 95 do not apply with respect to the sale of any article or preparation mentioned in schedule I if the article or preparation is in a form not suitable for human use or the main panel of both the inner and outer label of the package containing the article or preparation are prominently printed with the words "For Veterinary Use Only" immediately following or preceding the proprietary or brand name, proper name or common name of the article or preparation in letters not less than one-half as large as the largest letters on the label, and it is sold by legally authorized persons.

**106** Nothing in this Act prevents a person not registered under this Act from selling or keeping for sale: ...

(d) a preparation listed in schedule IV.

**108(3)** In a prosecution where it is shown that a person has sold or otherwise disposed of or offered to sell or otherwise dispose of an article:

(b) the container of which is marked to indicate that the contents are or include any of those poisons; or

(c) that the person selling or disposing of the article has represented the article to be or contain any of those poisons;

it is not necessary for the prosecution to prove that the article is or contains such poison but the onus shall be on the accused to establish that the article is not and does not contain such poison.

**2** Schedules I, II, III and IV of *The Pharmacy Act* are set out in "Appendix I".

**3** At a meeting convened January 12, 1996 the Council of the Saskatchewan Pharmaceutical Association passed a resolution to change Schedules I, II, III and IV of *The Pharmacy Act* as specified in the resolution in "Appendix 2".

**BOARD ORDERS**

***The Assessment Management Agency Act***

Pursuant to section 12 of *The Assessment Management Agency Act*, the Board of Directors of the Saskatchewan Assessment Management Agency hereby amends the specific pages, in the Saskatchewan Industrial Assessment Manual, as indicated below, effective January 1, 1996:

Pages 72, 74, 75, 76, and 77 dated March, 1995 and page 79 dated November, 1994 shall be replaced by pages 72, 74, 75, 76, 77 and 79 dated May, 1996.

Dated at Regina, Saskatchewan, May 28, 1996.

Keith Carleton, Vice-Chairman,  
Bryan Hebb, Board Secretary,  
Saskatchewan Assessment Management Agency.

**STANDARDIZED WELL VALUES**

Standardized well assessment values are based on the typical equipment found at any given well site. The well models have been developed using actual assessment data on the SAMA database. The equipment values found earlier in this manual have been used to develop the model rates.

The wells are grouped into four geographic areas. The groupings duplicate the Saskatchewan Energy and Mines (SEM) regional boundaries.

The Weyburn (WE) area includes those municipalities west of the first and west of the second meridian.

The Swift Current (SC) area includes those municipalities west of the third meridian, from the Canada/ U.S. border to R.M. 261 inclusive.

The Kindersley (KD) area includes those municipalities west of the third meridian from R.M. 261 to R.M. 382 inclusive.

The North Battleford (NB) area includes those municipalities north of R.M. 382 and also includes the Northern Administration District.

The wells are grouped into three broad categories, namely, oil wells, gas wells, and miscellaneous wells.

Miscellaneous wells include air, water and gas injection wells, continuous steam injection wells, cyclic steam injection (huff and puff) wells, water source wells and salt water disposal wells. Each miscellaneous type of well has its own model.

**Valuation models**

Each well type has a base model value, plus additive values.

The base value includes (where applicable) the well head, building, meters, controls and header or manifold. Reported lengths and diameters will be used for flow lines. In the absence of a report, the average flow line length and diameter for the area, as stated in the model description, will be used.

For oil wells, the pumping equipment is estimated using the physical characteristics of the well, such as: crude type, depth, volume handled and whether it is a conventional or horizontal well. Those wells that are producing to a single well facility are considered to be tanked and those wells producing to a battery are considered to be flow lined.

For gas wells, single wellheads will be valued with one tubing string and dual wellheads will be valued with two tubing strings.

**New wells**

Until there is a full year's production from a newly drilled oil or gas well, a provisional assessment will be calculated.

In the first year of operation the pumping equipment assigned to an oil well will be the median size of the area. A gas well is valued as producing from the casing, with no down hole tubing installed in its first year of operation.

In the second year, the well assessment will be calculated from the appropriate model.

**Other facilities**

Only well sites are to be assessed using these standardized procedures. Any equipment at meter stations, header stations, batteries, compressor stations, injection plants, disposal plants, steam plants and all other plants will be inventoried and valued separately.

**Status changes**

Name changes, status changes and abandonments will be automatically read from the SEM data and used in the valuation of each well site. Qualifications dates, as already stated on page 56 of this manual, apply to standardized wells.

**MODELS**

The assessment at each site represents the typical assessment required to perform the specific function at that site. Actual inventories at a site may vary from the typical.

**DIRECTOR'S ORDER 1996-2*****The Fisheries Act (Saskatchewan), 1994***

## DESIGNATION OF COMMERCIAL FISHING LAKES, QUOTAS AND MESH SIZES

Pursuant to section 28 of *The Fisheries Regulations* being R.R.S. c.F-16.1 Reg 1 dated March 28, 1995 and made under the authority of *The Fisheries Act (Saskatchewan) 1994*, which powers have been delegated to me by the Minister responsible for that Act:

- (a) the waters listed in Column 1 of the Schedule are hereby designated for commercial fishing;
- (b) the minimum net mesh size for commercial fishing for each of the waters listed in Column 1 is designated in Column 2 of the Schedule;
- (c) i) the maximum quantity of certain species that may be taken by commercial fishing for each of the waters listed in Column 1 is designated in Columns 3, 4 and 5 of the Schedule;
  - ii) sauger shall be counted as walleye for purposes of quota determination;
  - iii) all quotas refer to the weight of fish in the round form unless otherwise indicated.
- (d) the maximum percentage of gamefish that may be included in the commercial catch for each of the waters listed in Column 1 is designated in Column 6 of the Schedule.

DATED at Regina, Saskatchewan, May 24, 1996.

Ed Dean,  
A/Director of Fisheries,  
Saskatchewan Environment and  
Resource Management.

## SCHEDULE

1996-97

COMMERCIAL FISHING LAKES,  
QUOTAS AND MESH SIZES

## NOTES:

- Any water not listed in the Schedule is not available for commercial fishing unless designated for commercial fishing by the Director of Fisheries.
- All waters listed in the Schedule remain closed to commercial fishing until opened by an officer pursuant to section 29 of *The Fisheries Regulations*.
- "**Gamefish**" means pike, walleye, sauger and lake trout. Gamefish tolerance percentage calculations are made by dividing 100 times the weight of gamefish by the combined weight of gamefish plus whitefish.
- "**(r)**" following a lake name indicates fish marketing restrictions, pursuant to section 61 and Table 8, of *The Fisheries Regulations*.
- "**(pulse)**" below a lake coordinate indicates a pulse fishing lake. Pulse fishing quotas may be taken only every second year.
- To convert delivered weights to round weights for quota purposes, dressed fish weights are to be multiplied by 1.2 and headless dressed weights are to be multiplied by 1.4

**66** L'Assemblée ne peut ordonner la remise totale ou partielle des dépôts relatifs aux projets de loi d'intérêt privé, sauf recommandation du comité chargé d'étudier le projet en question ou si celui-ci est retiré ou rejeté ou encore n'est pas rapporté. Les dépenses réelles sont déduites du dépôt avant de le remettre.

**68(1)** Toutes les pétitions introductives de projets de loi d'intérêt privé à l'adresse de la Législature nécessitent un avis qui expose clairement la nature et l'objet de la demande et qui est signé par les requérants et en leur nom, avec mention de l'adresse des signataires. Les avis qui visent des travaux proposés font état de leur site; ceux qui visent une loi de constitution en société font état du nom de la société.

(2) Les avis sont publiés, avant le dépôt de la pétition auprès du greffier de l'Assemblée conformément au paragraphe 64(1), dans deux numéros consécutifs de *la Gazette de la Saskatchewan* ainsi que dans quatre numéros consécutifs d'un journal anglais diffusé dans la région touchée.

(3) Sont déposées auprès du greffier de l'Assemblée, outre la pétition et le projet de loi, copie de l'avis ainsi qu'une déclaration solennelle qui atteste les diverses publications de l'annonce.

**69(2)** Si une formule-type de projet de loi a été adoptée, les projets de loi portant constitution des sociétés sont rédigés selon cette formule, dont les exemplaires sont disponibles chez le greffier de l'Assemblée. Les dispositions de ces projets de loi qui ne se conforment pas à la formule-type sont indiquées et imprimées entre crochets.

**72** Une copie conforme de l'accord est annexée aux projets de loi portant ratification d'un accord, qui sont déposés auprès du greffier de l'Assemblée.

#### DÉCISION EN COMITÉ

Dans les cas où la proposition de projet de loi prévoit que les biens devant être utilisés ou occupés par le requérant soient exempts d'impôts, que ce soit dans leur ensemble ou partiellement, le requérant devra déposer au bureau du greffier de l'Assemblée en plus de sa pétition, une déclaration par écrit des autorités municipales locales où se trouvent les biens en question approuvant l'objet des dispositions de la proposition de projet de loi qui prévoit l'exemption d'impôts.

Le nom du député qui présentera la pétition et le projet de loi doit être fourni au greffier de l'Assemblée lors du dépôt de la pétition. Il est entendu que le député en question ne peut être un membre du Cabinet.

Gwenn Ronyk,  
Greffier de l'Assemblée législative  
Bureau 239, Édifice législatif  
Regina, Sask. S4S 0B3.
