PUBLIC NOTICES/AVIS PUBLICS

The Agri-Food Act, 2004 [section 12]

THE CHICKEN MARKETING PLAN REGULATIONS – MARKET DEVELOPMENT PROGRAM

Order No. 72/13. The CHICKEN FARMERS OF SASKATCHEWAN Board, pursuant to the provisions of *The Chicken Marketing Plan Regulations* and *The Agri-Food Act, 2004*, hereby determines and orders as follows:

- 1 Federally-inspected processors who hold a Board-issued registration are eligible to participate in the Market Development Program.
- 2 Through this program, processors may request market development production on a per cycle basis by completing a market development commitment form approved by the Chicken Farmers of Canada (CFC); this form must be submitted to the Board office prior to the Board submitting their periodic allocation request to CFC.
- 3 Total market development production cannot exceed fourteen percent of Saskatchewan's domestic allocation of periodic quota.

4 If market development production requests exceed fourteen percent, processors shall resubmit their market development commitment forms based on market share.

5 In consultation with processors who are requesting market development production, for each production cycle the Board shall set the market development fee to be charged on each kilogram of market development production.

6 Market development fees shall be deducted from a producer's payment prior to a processor issuing that payment.

7 Once processor market development production requests have been confirmed, producers marketing their product to a requesting processor will receive a Market Development Production Request Form from the Board on which a producer officially requests a specific amount of market development production.

8 Producers receiving a Market Development Production Request Form have seven business days to submit the completed form to the Board.

9 Producer market development production requests shall be categorized according to the processor to whom a producer markets, with each category of requests ranked according to the ratio of a producer's market development request to his/her/its periodic quota allocation.

10 The allocation of each processor's market development production to producers shall be on the basis of the ratio determined in section 9, from lowest to highest, until the processor's market development commitment has been filled.

12 The maximum allowable request that a producer can make is equal to that producer's periodic quota allocation.

13 If producer requests are less than the processor's market development commitment, the processor will be given seven additional days to locate producers that would produce additional market development production; producers accepting increased market development production are required to resubmit to the Board updated market development forms within the seven days.

14 With respect to section 13, if a portion of processor-requested market development production remains unsubscribed, a new market development commitment form must be filed with CFC to signify the total amount that will be produced during the production cycle.

15 Market development production is not eligible for leasing.

16 During each cycle, producers are required to fill their market development production first, with subsequent production to be allotted towards their periodic allocation.

17 Processors are required to follow the CFC Market Development Policy.

18 This Order will remain in effect for a period no longer than ten years from the date this Order is approved by the Agri-Food Council.

Order No. 72/13 is made pursuant to clauses 7(a), (c) and (e), (aa) and (bb) and sub-clauses 7(y)(i) and (ii) of *The Chicken Marketing Plan Regulations* and shall be effective upon the date of this Order. By order of the Chicken Farmers of Saskatchewan.
