

# 2025 Saskatchewan Resident Big Game Draw Supplement

The 2025 Big Game Draw Supplement provides Saskatchewan resident hunters with information on the seasons and quotas for draw species, as well as advance notice of changes to this fall's Big Game Draw seasons.

Most qualified applicants for the 2024 Legacy pool were successfully drawn and the number of hunters moving from the Super A pool to Legacy pool remains low. The chances of eligible applicants being drawn in the Legacy pool are very good.

Please be aware of your pool status when completing your draw application and plan appropriately.

You are not required to apply to progress through the D, C and B pools – you will automatically advance. Once in A pool, you must apply to advance to Super A pool and apply each year after to retain it. If you miss applying, you will go back to A pool and remain there until you apply again.

If you do not wish to hunt but want to keep your pool status, apply for zone 99.

**Reminder - The 2025 Big Game Draw application period opens May 1 and closes on the last Thursday of May (May 29) at 4 p.m. Carefully review your application and submit it prior to the deadline. Changes to the application cannot be made after the deadline.**

Additional information regarding the application process, priority pools, wildlife management zone (WMZ) quotas and detailed application instructions can be found on the Government of Saskatchewan's online Hunting, Angling and Trapping Licence (HAL) system - [saskatchewanhal.ca](https://saskatchewanhal.ca).

If you need assistance submitting your application, please call ASPIRA customer service at 1-888-773-8450.

***Good luck to all applicants!***

## Our licence system is online!

Sign in or create an account on our Hunting, Angling and Trapping Licence System at [saskatchewanhal.ca](https://saskatchewanhal.ca) to purchase your licences.

NOTE

**The 2025 Saskatchewan Hunters Guide will be available online in early July and in print in August.**

## Licence information

All awarded Big Game Draw licences will be available to purchase through your HAL account beginning Aug. 1, 2025.

Licences will not be mailed to successful applicants.

If you are selected for a draw licence, you will not be allowed to purchase a regular licence for the same species.

General information about hunting and key hunting regulations can be found online in the Saskatchewan Hunters Guide.

# New for 2025

## Moose Opportunities

Wildlife managers remain concerned about declining moose populations in forest WMZs. This decline is consistent across western Canada with predation, overharvest, increased access and health-related factors leading to lower moose abundance. A University of Saskatchewan led research project is monitoring radio-collared cow moose in the eastern forest to understand factors influencing survival and habitat selection of moose. In February 2025, an aerial moose survey in WMZ 67 found moose abundance remains low. For 2025, regular moose seasons have been replaced by draw seasons in WMZs 55-69 in response to declining moose populations. A regular moose hunting opportunity remains in WMZs 70-76.

## Mule Deer Opportunities

Mule deer populations have declined across much of the province due to recent severe winters and ongoing drought conditions. As a result, several adjustments to mule deer hunting opportunities are being made to bring harvest into alignment with population objectives.

The first antlerless mule deer quota is being reduced to zero across most of the province, with the exception of WMZs 31-39, where winter and drought conditions have not been as severe and chronic wasting disease (CWD) is believed to remain at low prevalence. This will help protect the reproductive cohort and support population growth back to management objectives.

The draw either-sex mule deer quota is being reduced across most WMZs and will be converted to a buck-only licence in all WMZs where the antlerless mule deer quota has been reduced to zero to further protect the reproductive cohort.

The regular archery mule deer licence will also become buck-only in WMZs where there is no antlerless harvest opportunity but will remain as an either-sex opportunity

elsewhere. In the South Saskatchewan River Valley (WMZs 8-14E & 14W), where CWD rates are highest and where CWD, drought, and winter have had the most substantial impacts on populations, there will be no mule deer hunting opportunities until populations recover to a level that supports sustainable harvest.

## Elk Opportunities

Elk populations continue to support ample hunting opportunities across much of the province. Hunters are encouraged to take advantage of additional hunting opportunities, including increased quotas in select zones where population growth has occurred.

## SK Hunt and Fish Mobile App

The SK Hunt & Fish Mobile App provides essential fishing, hunting and wildlife information, and conveniently stores all your purchased licences.

The app is available in the Apple App Store and Google Play Store.

## Attention

**Any application containing ineligible hunters or false information will be investigated. Providing false information is an offence, which can result in fines and loss of hunting rights.**

# 2025 Saskatchewan Resident Big Game Draw checklist

Use this checklist to avoid common mistakes and ensure your application is submitted successfully. Improperly submitted applications may be rejected from the draw or have an undesirable result. Avoid disappointment and take time to read the information carefully.

Detailed instructions are available at [saskatchewanhal.ca](http://saskatchewanhal.ca) to ensure a trouble-free application process.

Apply early and review your applications for accuracy prior to the deadline. You can review and edit your applications in your HAL account at any time, as well as check your draw status.

## Make sure you are eligible to apply

- At the time of application, all listed hunters must meet residency and age requirements, comply with firearm safety/hunter education regulations and not be suspended from hunting in Saskatchewan. It is unlawful to apply for a licence without firearm safety/hunter education training. If anyone on your application is found to be ineligible, the application will be rejected from the draw.
- Each person may submit only one application for each species type. If a person submits more than one application for the same species type, each application will be rejected from the draw. The exception is mule deer, as either-sex mule deer and antlerless mule deer are considered separate species types for the Big Game Draw and hunters may submit one application for each species type. Youth hunters may submit a youth draw application and an antlerless mule deer application.
- Any applications containing false information will be rejected from the draw. Providing false information is an offence under *The Wildlife Regulations*.

## Obtain group member information

- If applying as a group, the HAL number and date of birth for each group member must be included in the application.
- Group members with valid email addresses on their HAL accounts will receive notification emails.

## Confirm your pool status

- Make sure you know the pool status of each group member on your application. Your application will be placed into the priority pool of the group member with the lowest pool status.
- You can view your pool status through your HAL account by visiting the My Account section. If there are any issues with your pool status, contact the ministry's Inquiry Centre at 1-800-567-4224 or [centre.inquiry@gov.sk.ca](mailto:centre.inquiry@gov.sk.ca).

## Complete your application

- Review the application guide at [saskatchewanhal.ca](http://saskatchewanhal.ca) for detailed instructions on how to submit.
- **You may submit your applications anytime between May 1 and the last Thursday of May (May 29) at 4 p.m. Apply early to resolve any problems you may encounter.**
- Select your hunt choices carefully. You may select up to six choices in order of preference. The system will consider your choices in the order listed on the application.
- All applications are reviewed for eligibility and pool status before the Big Game Draw. If there are any issues with your application, contact the ministry's Inquiry Centre at 1-800-567-4224 or [centre.inquiry@gov.sk.ca](mailto:centre.inquiry@gov.sk.ca).

## Review your application(s) before the deadline

- It's a good idea to review your application prior to the deadline to confirm that all information is correct.
- Big Game Draw applications can be changed at any time before the application period closes. Only the individual who submitted the application can change zone choices and/or group members. These changes can be made on the group leader's HAL account.
- Other members of the group can view, not edit, the application.
- Once the draw period closes, no further applications will be accepted and changes cannot be made to submitted applications.

## Confirm your draw results

- Draw results will be available in June. Pronghorn draw results will be available in July.
- Once the draw is completed, your application results will be available through your HAL account.
- You are responsible for checking your draw results.
- Notification emails will be sent with your draw results, but successful email delivery cannot be guaranteed. Do not assume you are not drawn if you do not receive an email notification.

## Purchasing your licence

- If drawn, you may purchase your licence through your HAL account beginning Aug. 1.
- Successful applicants will move to the D pool the following year, regardless of whether you purchase the draw licence you are awarded. Applicants are not eligible to purchase a regular licence for the same species.

## Declining a Big Game Draw licence

- Hunters who were successfully drawn for:
  - ~ three Big Game Draw licences may decline one draw licence of their choice;
  - ~ four Big Game Draw licences may decline one or two draw licences of their choice; or
  - ~ five Big Game Draw licences may decline up to three draw licences of their choice.
- Eligible applicants who decline a licence will have their pool status reinstated for that species. Declined licences will not be reallocated.
- You must send an email to the Ministry of Environment at [centre.inquiry@gov.sk.ca](mailto:centre.inquiry@gov.sk.ca) by July 31 to provide written notice of your intention to decline your draw licence.
- For more information on declining a Big Game Draw licence, contact the ministry's Inquiry Centre at 1-800-567-4224 or [centre.inquiry@gov.sk.ca](mailto:centre.inquiry@gov.sk.ca).

## Update your HAL account!

Please keep your personal information (name, mailing address) up-to-date and provide us with your email address. The ministry uses email to communicate important information with hunting clients, including Big Game Draw results, hunter harvest surveys and upcoming licence sales dates.

Any application containing ineligible hunters or false information will be rejected from the draw and investigated. Providing false information is an offence, which can result in fines and loss of hunting rights.

## Attention hunters

**The 2025 draw will open on May 1 and close on the last Thursday of May (May 29) at 4 p.m.** Apply early so you have enough time to complete your application. Draw results will be available in June. Check your HAL account for updates.

### NOTE

**Your hunting licence and seals must be carried with you at all times while hunting.**

# Draw seasons

Hunting is allowed in wildlife management units (WMU) and national wildlife areas within a wildlife management zone (WMZ) open for big game. The exception is Fort à La Corne WMU and the St. Denis National Wildlife Research Area. Only the provincial parks and recreation sites listed below are open to hunting. Proposed new season dates, open wildlife management zones or open zone combinations are indicated in **bold and red**.

**The 2025 Saskatchewan Resident Big Game Draw opens May 1 and closes on the last Thursday of May (May 29) at 4 p.m.**

## Hunter harvest surveys are mandatory

Hunter harvest surveys are important for managing game in Saskatchewan. They provide valuable information for quota and season setting for the upcoming year. Visit [saskatchewanhal.ca](https://saskatchewanhal.ca) for more information, including completion deadlines.
