**2012-13
ANNUAL STATISTICAL REPORT**

Preface

This fiscal year 2012-13 report prepared by the Medical Services Branch, pursuant to Section 36 of *The Saskatchewan Medical Care Insurance Act*, is a statistical supplement to the Saskatchewan Ministry of Health Annual Report. It contains statistical data concerning the programs administered by the Medical Services Branch, including the Medical Services Plan (MSP), medical education and medical remuneration.

Highlights

Medical Services Plan

- The Medical Services Plan (MSP) provides coverage to Saskatchewan residents for a wide range of physician and optometrist services, and a limited range of dental services. The Plan also provides funding to support clinical services provided by residents and faculty at the College of Medicine, as well as a range of recruitment and retention initiatives. Payments by the Plan under its program areas (does not include administration costs) totalled \$756.8 million in 2012-13 (see page 5), an increase of \$21.1 million or 2.8 per cent over 2011-12.

- The Branch supports the Medical Education System at the College of Medicine with funding of \$52.0 million in 2012-13 (see page 5). The Medical Education System covers the following areas:

- academic and clinical services provided by faculty;
- undergraduate medical students stipends, post-graduate (including international medical graduates (IMGs)) and re-entry training; and,
- 401 post-graduate medical resident positions (see Table 33).

- MSP, through its Professional Review Committees, recovered \$506,900 in fee-for-service payments from 15 practitioners who were found to have incorrectly charged the Plan (Table 2).

- The number of claims processed and paid in 2012-13 totalled 8.0 million and increase 1.7 per cent from 2011-12 (Table 3).

- Benefits paid for insured services - provided by physicians, optometrists, and dentists - amounted to \$571.9 million, an increase of 5.2 per cent on a per capita basis (Table 8). Total expenditures (000's) by program area:

	2011-12	2012-13	Per Capita Change
Physicians	\$531,873	\$562,904	5.8 %
Optometrists	\$6,936	\$7,306	4.7 %
Dentists	\$1,735	\$1,732	-0.8 %

(see status of current agreements on page 58)

- Payments for out-of-province physician services totalled \$34.9 million (Table 11) up 1.4 per cent. Increased costs were mainly due to physician fee increases. Out-of-province hospital payments totalled \$84.7 million (Table 13a), down 0.4 per cent.

- Services outside Canada for patients with prior approval:

	2011-12	2012-13
Patients	77	66
Practitioner Costs	\$1,876,394	\$781,953
Hospital Costs	\$8,828,447	\$1,621,267
Total Costs	\$10,704,841	\$2,403,220

(Note that the number of patients receiving services in a year may not equal the number approved during the year. Reasons include patients not going or not receiving treatment in the same year or patients requiring on-going care over two or more years.)

- The number of active physicians (with their own MSP billing number) in Saskatchewan increased at year-end to 1,513 from 1,456 in 2011-12. Metro (Regina and Saskatoon) general practitioners (GP) increased by 16 (to 413), other urban general practitioners increased by 3 (to 182), and rural general practitioners decreased by 1 (to 217); specialists increased by 37 (to 701) (Table 20).

Average payments to active physicians (Table 25):

General Practitioners	\$280,200
Specialists	\$423,900
All Physicians	\$346,800

(see "Active" definition - page 12)

- Payments for the Specialist Emergency Coverage Program (SECP) and the Rural (GP) Emergency Coverage Programs totalled \$39.0 million (Table 27).
- Expenditures for physician services provided through non-fee-for-service payment arrangements (medical remuneration and alternate payments) totalled \$190.9 million (Table 28), an increase of 12.0 per cent.
- The per capita costs for physician services increased by 6.5 per cent to \$550 from \$516 in 2011-12 (Table 31).
- The Expenditure for Special Calls and Emergency has increased by 35.0 per cent from 7.7 million in 2011-12 to 10.5 million in 2012-13. This is mainly due to the increase in negotiated rates.

Physician Remuneration

- In 2012-13, payments for fee-for-service in-province physicians, excluding the emergency coverage programs, totalled \$471.8 million (see page 6), an increase of 4.9 per cent from 2011-12.
- Non-fee-for-service funding arrangements for physician services represent a large and rapidly growing area of provincial health expenditures. In 2012-13, this sector accounted for about \$313.2 million, 0.9 per cent of Saskatchewan Ministry of Health's total expenditures on in-province physician services. The majority of expenditures are in areas of medical services associated with Regional Health Authority (RHA) operations (radiology, laboratory and emergency services) (see page 6).
- The number of claims processed and paid in 2010-11 totalled 8.3 million, a decrease of 8.8 per cent from 2009-10 (Table 3).
- The amount of new and continuing physician bursaries and grants increased from 197 to 185 in 2012-13 for a total commitment of \$4.9 million.

Restatement

- For comparative purposes, payment figures shown in the statistical data tables have been adjusted to include retroactive payments for services provided pursuant to the agreement with the Saskatchewan Medical Association.

¹ Includes Emergency Rural Coverage Program payments processed through the Claims System.

² These expenditures include payments to physicians only.

³ Includes Specialist Emergency Coverage Program payments, Family Physician Comprehensive Care Program, General Practitioner Specialist Program and Quality Initiative Program.

Notes:

- 1) There is a difference between MSP payments shown above and the total payments shown in the statistical tables. The difference is due to accounting adjustments (e.g. accrual accounting; the handling of payments to and from other provinces for claims processed under the reciprocal billing arrangement); certain recoveries; adjustments for retroactive payments; the handling of claims for medical and optometric services provided in community clinics and alternate payment projects, which are included in the statistical tables as if paid on a fee-for-service basis; and, the handling of optometric Supplementary Health Program claims.
- 2) MSP Out-Of-Province payments include physician, optometric, dental and hospital services.

¹ Expenditures in these areas are managed by other Branches of the Ministry of Health.

² These expenditures include payments to physicians only.

³ Includes non-fee-for-service rural emergency coverage payments and payments for travel expenses when general practitioners provide weekend relief.

Notes:

1) Ministry funding for physician services may not equal expenditures by RHAs.

2) Payments include lump sum retroactive payments made in the 2012-13 fiscal year pursuant to the agreement between the Ministry of Health and the Saskatchewan Medical Association.

Medical Services Plan Coverage Benefits

Eligibility for Benefits

The Medical Services Plan (MSP) provides coverage to Saskatchewan residents for a wide range of physician and optometrist services, and a limited range of dental services.

All residents of Saskatchewan, with a few exceptions (members of the Canadian Armed Forces, RCMP, inmates of Federal Penitentiaries) are eligible to receive benefits, with the sole requirement being residency and registration with the Health Registration Branch. No premiums are levied.

Subject to the exclusions detailed later in this section, the following services are insured:

Physician Services

Medical Services - The diagnosis and treatment by a physician of all medical disabilities and conditions.

Surgical Services - Surgical procedures by a physician including diagnosis, pre- and post-operative care and the services of physician surgical assistants when required.

Maternity Services - Care during pregnancy, delivery, and after care by a physician.

Anaesthesia - The administration of anaesthesia by a physician including:

- anaesthesia for diagnostic, surgical and other procedures;
- obstetrical anaesthesia;
- anaesthesia for pain management; and,
- all dental anaesthesia primarily for patients under 14 years.

Diagnostic Services

- out-of-hospital x-ray services, including interpretations, provided by a specialist in radiology. Breast screening mammographies for women 50 years of age and older are available and funded through the provincial Screening Program for Breast Cancer;
- an approved list of office-based laboratory services provided by a physician other than a pathologist; and,
- other diagnostic services provided by a physician.

Preventive Medical Services

- Immunization services where not available through any government or regional health authority;
- examination and report for adoptions for both child and parents;

- examination and report for persons becoming foster parents; and,
- a routine physical examination by a physician but not including an examination for the purpose of insurance, employment, vehicle seatbelt exemptions or at the request of a third party.

Cancer Services - Services for the diagnosis and treatment of cancer, except when provided by physicians under contract with the Saskatchewan Cancer Agency.

Optometric Services

Coverage for routine eye examinations, partial examinations and tonometry by optometrists is limited to the following four categories of persons:

- those under the age of 18;
- Supplementary Health Program beneficiaries;
- recipients of Family Health Benefits Program; and,
- seniors (age 65+) receiving a Saskatchewan Income Plan supplement.

For eligible beneficiaries, the frequency of routine eye examinations to determine refractive error is limited to the following:

- for patients less than 18 years of age examinations are limited to one every 12 months (this coverage is provided by MSP);
- for patients 65 or older who qualify for one of the special programs listed above, examinations are limited to one every 12 months; and,
- for patients aged 18 to 64 who qualify for coverage under one of the special programs listed above, examinations are limited to one every 24 months.

The assessment of ocular urgencies and emergencies provided by an optometrist, for select diagnoses, became an insured service for all Saskatchewan beneficiaries effective April 1, 2006.

Dental Services

Services in connection with maxillofacial surgery required to treat a condition caused by an accident.

Certain services in connection with abnormalities of the mouth and surrounding structures.

Services for the orthodontic care of cleft palate upon referral to a dentist by a physician or another dentist.

Certain x-ray services when provided by a dentist who is a specialist in oral radiology.

Extraction of teeth medically required to provide:

- heart surgery;
- services for chronic renal disease;
- head and neck cancer services; and,
- services for total joint replacement by prosthesis where the beneficiary was referred to a dentist by a specialist in the appropriate surgical field and where prior approval from Medical Services Branch of the Ministry of Health was received.

Dental implants are covered in exceptional circumstances:

- tumours – including benign and malignant; and,
- congenital – including cleft palate and metabolic.

The referring specialist in oral maxillofacial surgery must request and receive prior approval from Medical Services Branch of the Ministry of Health.

Chiropractic Services

Supplementary Health Program beneficiaries, recipients of Family Health Benefits Program and seniors (age 65+) receiving a Saskatchewan Income Plan supplement are insured for a maximum of 12 chiropractic services per year. The Medical Services Branch pays for chiropractic x-ray services.

Out-of-Province Services

Most services insured in Saskatchewan are insured outside the province, but within Canada.

Physician Services

Services provided by physicians in other provinces except Quebec, are covered by a reciprocal billing arrangement. Saskatchewan beneficiaries are not normally billed for insured physician services provided in other provinces upon presentation of their Health Services Card except for certain services excluded from the reciprocal billing arrangement. In most cases, physicians bill the provincial health plan of the province in which the services are provided. The host plan then bills the home province of the patient for the services provided.

Non-emergency services provided outside of Canada are only insured with prior approval from the Medical Services Branch of the Ministry of Health.

Hospital Services

Hospital services provided to Saskatchewan beneficiaries in other provinces are covered by a reciprocal billing agreement. The hospital bills the provincial health plan of the province in which services are provided. The host plan then bills the home province of the patient for the services provided.

Emergency hospital services for persons travelling outside Canada are covered on the following basis: up to \$100 (Canadian) per day for in-patient services and up to \$50 (Canadian) for an out-patient visit. Non-emergency hospital services provided outside Canada are covered only if prior approval has been obtained from the Medical Services Branch of the Ministry of Health.

Exclusions

The Medical Services Plan does not insure the following services:

- health services received under other public programs including: *The Workers' Compensation Act*, federal Department of Veteran Affairs, *The Mental Health Services Act*;
- lab services by specialists in pathology;
- the cost of travel, accommodation and meals;
- advice by telephone except when provided by physicians to allied health personnel;
- surgery for cosmetic purposes;
- any mental or physical examination for the purpose of employment, insurance, judicial proceedings/ requirements, vehicle seatbelt exemptions or at the request of a third party;
- autopsy;
- ambulance services and other forms of transportation of patients;
- services provided by special duty nurses;
- services provided by chiropodists, podiatrists, naturopaths or osteopaths;
- services provided by chiropractor – coverage is limited to those beneficiaries covered under the Supplementary Health Program, Family Health, or Seniors Income Plan;
- dentistry, except as described under Insured Services - Dental Services;
- drugs and dressings;
- appliances (e.g. eyeglasses, artificial limbs);

- routine eye examinations by physicians – coverage is limited to those beneficiaries who would be covered under the optometric program (see page 7);
- electrolysis;
- dental anaesthesia provided in conjunction with an insured service where the patient is 14 years or over;
- reversals of sterilization;
- implantation of penile prosthesis;
- thermal ablation of obviously benign skin lesions;
- injection of asymptomatic varicose veins; and,
- non-medically required circumcisions.

Methods of Payment

MSP makes payment for insured services by the following methods:

- fee-for-service billing by practitioners or professional corporations based on negotiated fee schedules; and,
- salary, contractual or sessional payment arrangements funded through Regional Health Authority Boards.

The Primary Health Services Branch provides a global system of payment for the operation of four community clinics.

Practitioners may choose to practice entirely outside MSP, in which case the services provided by that practitioner are uninsured.

Professional Review

Joint Professional Review Committees have been formed with the various professional associations and licensing bodies to evaluate the billing patterns of practitioners. These committees are empowered to order the recovery of payments that have been inappropriately billed by practitioners (see Table 2).

Statistical Figures and Tables

Introductory Notes

General - The following tables are based upon MSP payments made during 2012-13 on a fee-for-service and non-fee-for-service basis for medical, optometric and dental services provided to Saskatchewan beneficiaries. Any work stoppages in the health care system may affect utilization and earnings data presented in this report.

A global system of payment for medical and optometric services is used for four community clinics in the province; however, services are recorded on the same basis as fee-for-service items (shadow billing). Many alternate payment projects, including primary health care projects, have their services recorded on the same basis as fee-for-service items (shadow billing). For statistical purposes, all shadow-billing data is reported in this document.

Most tables include data, where noted, on services provided to Saskatchewan residents by practitioners outside the province. Tables 12, 14a and 14b are the only tables that present Saskatchewan physician and hospital data for services provided to out-of-province beneficiaries. Tables 13a, 13b, 14a and 14b are the only tables that show data related to the hospital reciprocal billing system.

The statistical tables exclude data on services paid by MSP to physicians and optometrists on behalf of Saskatchewan Government Insurance. The tables also exclude payments made through the Specialist Emergency Coverage Program with the exception of Table 27.

Data Limitations – Numbers of certain services or service groupings may differ from year to year as a result of bundling/unbundling or restructuring fee codes through Payment Schedule changes. Beginning in 2004-05 time of day, age and pediatric premiums are no longer counted as individual services. The level of compliance with shadow billing for other than fee-for-service methods of payment can impact the data presented in this report.

Date of Payment - Statistics are based upon the date the service was paid, as opposed to the date the service was provided. Statistics for the fiscal year 2012-13 include some services provided in 2011-12. Fiscal years typically consist of 26 pay runs; however, the 2007-08 fiscal year included an additional pay run.

Payment Adjustments - The difference between MSP payments shown in the Statement of Expenditures, page 5, and the total payments shown in the statistical tables is due to accounting adjustments (e.g. accrual accounting; the handling of payments to and from other provinces for claims processed under the reciprocal billing arrangement);

certain recoveries, adjustments for retroactive payments; the handling of medical and optometric services provided in community clinics and funded on a global basis through the Primary Health Services Branch; the handling of claims for medical services provided in alternate payment projects; and the payment for medical services through other non-fee-for-service remuneration arrangements. Statistical tables have not been adjusted for recoveries resulting from professional review activities (see Table 2).

Payments to Locum Tenens - Where a physician acts as the principal for a locum tenens physician who is not fully licensed by the College of Physicians and Surgeons of Saskatchewan, payments for services provided by the locum are made to the principal, unless the locum is granted a conditional, provisional or long-term locum license by the College.

Retroactive Payments - From time to time, MSP is required to make payments retroactively to practitioners, pursuant to agreements with the respective professional associations. Lump sum retroactive payments to physicians in 2011-12 are included (or excluded) in tables as footnoted. Payments made in 2011-12 were adjusted and lump sum retroactive payments were removed from 2011-12 and added in 2009-10 and 2010-11 payments respectively where applicable and footnoted. Any such payments, whether included or excluded from the data tables, are included in the expenditure tables on pages 5 and 6.

Optometric Services under Supplementary Health - Changes to the optometric programs in 1992 resulted in a shift in payment responsibility for some services to the Supplementary Health Program. For statistical purposes, however, optometric data for services paid under both MSP and the Supplementary Health Program is reported in this document.

Definitions of Service Groupings (Tables 7 to 10, 15 and Figure 2)

Service groupings are based on CIHI's (Canadian Institute for Health Information) national grouping system categories.

- (a) **Consultations** - a consultation is the referral of a patient by one physician to another for examination, diagnosis, and a written report. The patient may return to the referring physician for treatment or receive treatment from the consultant.
- (b) **Major Assessments** - a major (complete or initial) assessment comprises a full history review, an examination of all parts or systems, a complete record and advice to the patient, and may include a detailed

examination of one or more parts or systems. A major assessment may be provided to new or former patients. Chronic disease management visits and eye examinations by physicians are included here.

- (c) **Other Assessments** - Other assessments are visits that comprise history review, history of the presenting complaint, and an examination of the affected parts, regions or systems. Follow-up assessments, well-baby care provided in the office, visits to special care homes and continuous personal attendance are included in this classification.
- (d) **Psychotherapy/Counselling** - Includes treatment interview, group therapy, and counselling (including healthy lifestyle/health education counselling).
- (e) **Hospital Care** - Physician services provided in a hospital on a visit per day basis including newborn care in hospital and including attendant and supportive care. Hospital visits covered by a composite payment such as hospital care following surgery are not included.
- (f) **Special Calls and Emergency** - Includes surcharge payments made in association with visits or other services provided by physicians when specially called to attend a patient on a priority basis; follow-up house calls not specially called; special calls for additional patients seen; and any non-system-generated out-of-hours premiums.
- (g) **Major Surgery** - All 42-day surgical procedures excluding those falling in the Obstetrics classification. The "day" classification refers to the number of days of post-operative care included in the procedural fee.
- (h) **Minor Surgery** - All 0 and 10-day surgical procedures excluding those falling in the Obstetrics classification.
- (i) **Surgical Assistance** - Services of physicians as required to assist the surgeon at an operation. Includes assistant standby.
- (j) **Obstetrics** - Includes hospital stay, abortions, caesarian sections, but excludes gynaecological surgery, and pre- and post-natal visits. Fetal monitoring and transfusions are included here.
- (k) **Anaesthesia** - All anaesthetic procedures, pain management and pain clinic services are included in this category (see page 7).
- (l) **Diagnostic Radiology** - All out-of-hospital technical procedures and interpretations by specialists in radiology.
- (m) **Laboratory Services** - All common office laboratory services provided by a physician other than a pathologist.
- (n) **Other Diagnostic and Therapeutic Procedures** - All types of diagnostic procedures, allergy tests, ultrasound, professional interpretations of procedures, biopsies, therapeutic procedures, injections, Papanicolaou smears, and resuscitation and intensive care.
- (o) **Special and Miscellaneous Services** - Medical examinations for adoptions, for rape victims, for follow-up cancer report; examinations and certifications of mental ill health; immunizations where not elsewhere available; intralesional injections; rural emergency coverage payments; advice to physicians or allied health personnel via telecommunications; and any other services not elsewhere classified.
- (p) **Services by Optometrists** - Includes eye examinations to determine the refractive state of the eye, partial examinations, tonometry testing and assessments of ocular urgencies and emergencies when provided by an optometrist.
- (q) **Dental Services** - Includes certain insured services provided by dentists, i.e. oral surgery, or orthodontic services for care of cleft palate, and the extraction of teeth necessary to be performed before the provision of certain surgical procedures. Includes coverage of dental implants, in exceptional circumstances, where prior approval from Medical Services Branch of the Ministry of Health was received.

Categories of Practitioners (Tables 15, 18 to 26, 31, 32 and 34)

I. Physicians

- (a) **General Practitioner** - A physician registered with the College of Physicians and Surgeons of Saskatchewan whose name does not appear on the specialist listing mentioned in (b) below. Includes physicians who while not Canadian or foreign certified specialists, limit their practice to specific specialty areas.
- (i) **Metro** - A general practitioner who practises in Regina or Saskatoon.
 - (ii) **Urban** - A general practitioner who practises in a locality having 10,000 or more residents other than in Regina or Saskatoon.
 - (iii) **Rural** - A general practitioner who practises in a locality having fewer than 10,000 residents.
 - (iv) **Association** - A general practitioner who maintains patients' medical records with one or more other physicians.
 - (v) **Solo** - A general practitioner who is not working in association with another physician.
- (b) **Specialist** - A Canadian certified physician listed by the College of Physicians and Surgeons of Saskatchewan is eligible to receive MSP payments at specialist rates. As of April 1, 2001, a foreign certified physician listed by the College of Physicians and Surgeons is eligible to receive MSP payments at foreign certified specialist (FCS) rates (visits at designated FCS rates and procedures at general practitioner rates). As of April 1, 2004, a foreign certified physician is eligible to receive MSP payments at specialist rates for both visits and procedures. If a physician becomes a certified specialist during the year, only those services provided after certification are included with specialist services.

Note: Psychiatrists are included with Internists, Medical Geneticists with Paediatricians, and Pathologists with Diagnostic Radiologists.

II. Optometrist - A practitioner registered by the Saskatchewan Association of Optometrists.

III. Dentist - A practitioner registered by the College of Dental Surgeons of Saskatchewan.

Note: Definition of Active Physician - Physicians receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year. General Practitioners are categorized in the group in which they earned the most income if they practised in various clinics or locations throughout the year.

Average Annual Per Cent Change 2008-09 to 2012-13.....	5.27	3.91	3.46	0.50

¹ All physician, optometric and dental insured services are included. Includes payments for rural emergency coverage but excludes payments for specialist emergency coverage.

² 2010-11 cost per capita figures have been adjusted for program coverage and covered population to allow for comparison to the previous year. The total per cent change in per capita costs is equal to the per cent change due to fee increases multiplied by the per cent change due to utilization increases.

³ Lump sum payments in lieu of retroactive amendments to Payment Schedules made to dentists and surgeons in 2009-10 are included. Lump sum payments made in 2011-12 for retroactive amendments to the physician Payment Schedule have been allocated to 2009-10 and 2010-11.

⁴ Fee schedule increases are based on theoretical values of fee and new items increases.

⁵ The change in utilization may be affected by changes in data capture for physicians participating in or switching to non-fee-for-service arrangements.

¹ All physician, optometric and dental insured services are included. Includes payments for rural assessed, including adjustments resulting from verification programs. The In-Province number is net of time of day, paediatric and age premiums, which are system generated, and any lump sum retroactive payments to practitioners.

² The dollar amounts are recoveries resulting from the correction of payments as revealed by special studies by the MSP and Professional Review Committees.

³ The dollar amounts are recoveries for the cost of health services collected under the authority of The Department of Health Act.

Notes:

- 1) More than one of the same high cost procedure can occur during a single hospitalization.
- 2) Payments for high cost procedures performed during inpatient hospitalizations will include the authorized per diem rate of the hospital when the cost of the procedure is not all-inclusive.
- 3) Although all Cochlear Implants are performed in Alberta, payment for the device itself is made to the United States.
- 4) Data for hospitalizations in Flin Flon and Benito (Manitoba) are not included.
- 5) Payments for services in the United States have been adjusted to reflect their value in Canadian funds.
- 6) Out-of-Country was previously referred to as Special Out-Of-Country.

² MSP internally assigned code for the identification of a specific condition which is grouped within a general category in the I.C.D.

^f Rate per 1,000 female beneficiaries.

Notes:

- 1) MSP records only one diagnosis of symptoms per claim even though the patient may have more than one condition.
- 2) Comparison to the previous years' Annual Statistical Reports would be affected by the time of day, age and pediatric premiums which are no longer counted as individual services.
- 3) For comparative purposes, payment figures in this table have been adjusted to exclude retroactive payments for services provided in previous years, pursuant to the agreement with the Saskatchewan Medical Association.

¹ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

² The size of practice is the number of discrete beneficiaries on whose behalf a claim was paid during the year.

³ A patient contact represents each time a physician saw a patient regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.

⁴ Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

⁵ Licensed physicians, as of the last day of the fiscal year, includes temporary licensed locum physicians but excludes educational locums and medical residents.

Notes:

1) Earnings, size of practice and patient contacts may reflect an upward bias as a result of physicians sponsoring locums.

2) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians, may be affected by the extent of shadow billing.

¹ Represents gross payments by the Medical Services Plan from which the physicians must pay overhead costs which may be high in specialties such as Radiology and Pathology. The MSP payments should not be taken to represent total professional income since the physicians may receive payments from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Includes payments for the rural emergency coverage program but excludes payments for the specialist coverage program. For comparative purposes, payment figures in this table have been adjusted to exclude retroactive payments for services provided in previous years, pursuant to the agreement with the Saskatchewan Medical Association.

² Physicians resident in Saskatchewan at the end of the year and having their own MSP billing number.

³ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

⁴ Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

¹ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year. Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

² Represents gross payments by the MSP from which the physicians must pay overhead costs which may be high in specialties such as Radiology and Pathology. The MSP payment should not be taken to represent total professional income since physicians may receive payment from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Payments for the specialist coverage program are excluded.

³ For comparative purposes, payment figures in this table have been adjusted to include retroactive payments for services provided in previous years, pursuant to the agreement with the Saskatchewan Medical Association.

Notes:

- 1) Earnings may reflect an upward bias as a result of physicians sponsoring locums.
- 2) Laboratory services provided by Pathologists are now the responsibility of Regional Health Authorities. As a result, Pathologists' fee-for-service payments are minimal.
- 3) Both the increases in the number of active physicians and the decreases in the average payments may have been influenced by the locum billing number policy changes.
- 4) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians and average payments per physician, may be affected by the extent of shadow billing.

¹ Physicians are grouped as follows:

- Medical Specialists include Paediatricians, Internists, Neurologists, Cardiologists, Psychiatrists, Dermatologists, Physiatrists, and Medical Geneticists.
- Surgical Specialists include General Surgeons, Thoracic Surgeons, Orthopaedic Surgeons, Plastic and Reconstructive Surgeons, Neurological Surgeons, Obstetricians and Gynaecologists, Urological Surgeons, Ophthalmologists and Otolaryngologists.
- Technical Specialists include Anaesthetists, Pathologists and Diagnostic Radiologists.

² Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan at the end of the year. Earnings may reflect an upward bias as a result of physicians sponsoring locums. Payments for the specialist coverage program are excluded.

³ Includes physicians who practise out of teaching institutions. Average payments may reflect a downward bias as a result.

⁴ Licensed Physicians are all physicians on the Medical Care Insurance Physician Registry except for those we know are retired. Locums are included even though they do not have their own billing number. Educational locums, residents and interns are typically excluded.

** Not shown, to preserve confidentiality.

Note:

- 1) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians and average payments per physician, may be affected by the extent of shadow billing. ¹ Physicians resident in Saskatchewan at the end of the year and having their own MSP billing number. Physicians may be counted in more than one Regional Health Authority but the provincial total is a discrete count.

² General Practitioners with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

³ The size of practice is the number of discrete beneficiaries on whose behalf a claim was paid during the year.

⁴ A patient contact represents each time a practitioner saw a patient regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.

Notes:

- 1) Earnings, size of practice and patient contacts may reflect an upward bias as a result of physicians sponsoring locums. Payments for the rural emergency coverage program are included.
- 2) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians and average payments per physician, may be affected by the extent of shadow billing.
- 3) For comparative purposes, payment figures in this table have been adjusted to exclude retroactive payments for services provided in previous years, pursuant to the agreement with the Saskatchewan Medical Association.
- 4) See "Data Limitations" on page 10.

Recruitment and Retention Initiatives

- Physician Recruitment Strategy – Receives \$3.5 million in annualized funding, and includes the following initiatives: The Physician Recruitment Agency of Saskatchewan (saskdocs) and the Saskatchewan International Physician Practice Assessment Program.
- Specialist Recruitment and Retention Program – A \$2.0 million fund, jointly managed by the Saskatchewan Medical Association, Regional Health Authorities and the Ministry of Health in a tripartite committee, is used to fund three programs: 1) *The Specialist Residency Bursary Program* offers up to 15 bursaries of \$25,000 to fund residents in specialty training at the University of Saskatchewan for a maximum of three years. These bursaries require a return-of-service commitment of one year for each year of funding received; 2) *The Specialist Recruitment Incentive* provides up to 15 grants of \$30,000 to eligible specialists who establish a practice in Saskatchewan for a minimum of 36 months; and, 3) *The Specialist Physician Enhancement Training Program* funds practising specialists to obtain additional training. This program provides six grants of up to \$80,000 per year for a maximum of two years, and requires a return-of-service commitment of two months for each month of funding received. Candidates must have practised in Saskatchewan for two years to be eligible.
- Specialist Emergency Coverage Program – This program is jointly managed by the Saskatchewan Medical Association, Regional Health Authorities and the Ministry of Health in a tripartite committee. The primary objective of the Program is to meet the emergency needs of new or unassigned patients requiring specialty care and to ensure fair compensation for specialists who are available to provide coverage as part of an established call rotation (see Table 27).
- Long Service Retention Program – This program is intended to recognize physicians who provide 10 or more years of service to the province.
- Committee on Rural and Regional Practice - A \$3.14 million fund, jointly managed by the Saskatchewan Medical Association and the Ministry of Health, which funds a variety of programs including: 1) Rural Practice Establishment Grant Programs – Grants of \$25,000 are available to physicians who establish new practices in rural Saskatchewan for a minimum of 18 months. Eligible communities are those that have a population of 10,000 or less that can support two or more physicians in a group or shared call arrangement; 2) Regional Practice Establishment (RPEG) Program – Grants of \$10,000 are available to eligible family physicians who establish a practice for a minimum of 18 months in a regional centre; 3) Family Medicine Residency Bursary Program – Bursaries of \$25,000 per year to fund family medicine residents in exchange for a rural return-of-service commitment; 4) Rural Practice Enhancement Training – This program provides funding to practicing rural physicians and assistance to residents wishing to take specialized training in an area of demand in rural Saskatchewan. A return-of-service commitment is required; 5) Locum Service Program – This program, operated by the Saskatchewan Medical Association and managed by the Committee on Rural and Regional Practice, provides coverage while physicians take vacation, education, or other leave; 6) Rural Emergency Care – Continuing Medical Education Program – This program provides funds to rural physicians for certification and re-certification of skills in emergency care and risk management such as Advanced Cardiac Life Support. Full costs of Canadian tuition and a portion of travel and accommodation expenses (to a maximum of \$250) may be reimbursed. Eligible physicians must have 12 months of practice in rural Saskatchewan. A return of service commitment is expected; 7) Rural Travel Assistance Program – This program provides reimbursement of travel costs from rural physicians who have to travel to another rural community to provide service; and, 8) Rural Extended Leave Program – This program supports physicians in rural practice who want to upgrade their skills and knowledge in areas such as obstetrics or anesthesia, by reimbursing educational costs and foregone practice income for up to six weeks.
