Saskatchewan!

zebra mussels

Stop Aquatic Invasive Species

CLEAN + DRAIN + DRY YOUR BOAT

Aquatic invasive species such as zebra mussels and quagga mussels pose a serious threat to our waters and fish resources.

Whether returning home from out of province, coming to visit or moving between waters within the province make sure to:

CLEAN

and inspect watercraft and gear. Remove all visible plants, animals and mud. Rinse using high pressure, hot tap water 50°C (120°F).

DRAIN

all onboard water from watercraft, including the motor, livewell, bilge and bait buckets, and leave plugs out during transportation and storage.

DRY

your watercraft and all related gear for at least five days in the hot sun if rinsing is not available. Dispose of unwanted leeches, crayfish and worms in the trash and dump bait bucket water on land.

Remove the drain plug while transporting watercraft. It's the law!

To report invasive species, please contact the TIP line at SaskTel Cell #5555 or 1-800-667-7561

What's New For 2019

Reduced limits:

- Churchill River from Sluice Falls to Robertson Falls including Barker, Devil, McNichol and Otter Lakes:
 - ~ Walleye limit – 2
 - ~ Northern pike limit – 3
- Exner, Little Raspberry, Nipawin and Suffern Lakes:
 - ~ Stocked trout limit – 3 (only one may exceed 43 cm)
- Five Mile Dam and Loch Leven:
 - ~ Stocked trout limit – 2 (only one may exceed 43 cm)

Barbless hooks: No longer mandatory on Blackstrap, Bradwell, Brightwater, Broderick, Dellwood, Moosomin and Zelma reservoirs, as well as Fishing, Miracle and Madge lakes. This change will provide greater consistency on the regulated use of barbless hooks in the southern management zone (pages 12 to 14). Reduced limits on these waters remain in effect.

Canadian Armed Forces Veteran licence: In recognition of their service, Saskatchewan will provide free angling and hunting licences for veterans of the Canadian Armed Forces beginning in the 2019-2020 season. Licences will be subject to an initial verification process to confirm eligibility. Saskatchewan and Canadian resident Armed Forces veterans are eligible. For more information on this opportunity, including eligibility requirements, please visit saskatchewan.ca/fishing.

Proposed Changes for 2020

The following changes are proposed for the 2020-21 angling season:

- **Prohibiting the collection and the use of crayfish as bait** to prevent the introduction and spread of invasive crayfish, which can pose a significant threat to Saskatchewan waters.
- **Changing the special limits for Caddis and Fern lakes** to align with the alternative management for stock trout waters programs. The proposed change is a limit of three (3) stocked trout, with only one exceeding 43 cm. The use of barbless hooks will no longer be mandatory on Caddis Lake.
- **Discontinuation of the Saskatchewan Catch and Release Certificate Program** due to lack of participation.

These proposed changes are presented here for your review and comment. Please send your comments by mail to Fish, Wildlife and Lands Branch, Box 3003, Prince Albert, SK, S6V 6G1 or email to guide@gov.sk.ca by Sept. 1, 2019.

Purchase a Licence

Angling licences are available:

- Online: saskatchewan.ca/fishing.
- In-person: Ministry of Environment offices, select provincial parks or private issuers.
- By phone: 1-855-848-4773 (8 a.m. to 9 p.m.).

Please allow 10 business days for delivery.

If purchasing online, you will require an Automated Hunting, Angling and Trapping Licence (HAL) System account. If you have an existing account, use your HAL identification number or your previously registered secondary identification number. Do not create a second account. If you require assistance with your identification, call 1-855-848-4773 (8 a.m. to 9 p.m.).

Aquatic Invasive Species

Aquatic invasive species (AIS) are organisms that have the potential to cause environmental, recreational or economic harm when introduced into new waterways. Invasive mussels are of particular concern to our province, as they are established in Manitoba, Montana and North Dakota.

The Ministry of Environment works hard to prevent the introduction of AIS into Saskatchewan waters. Prevention efforts focus on education and awareness, monitoring of waterbodies, regulations, watercraft inspections for all high-risk watercraft entering our province and response planning for any potential AIS threats. Collaboration also takes place with ministry stakeholders, such as the provincial AIS task force.

Watercraft entering the province from infected jurisdictions are at risk for transporting AIS. **All out-of-province watercraft, or watercraft that have traveled outside of Saskatchewan, may require an inspection. Boaters should call 1-800-567-4224 for inspection information.**

To prevent the spread of aquatic invasive species, it is unlawful to transport any watercraft in Saskatchewan with the drain plug in place.

License Fees and Requirements

Saskatchewan Resident	<i>All licences include GST (goods and services tax)</i>
Age 16 to 64	
- Annual (*auto renewal option available in HAL self-serve)	\$37.00
- Three-day (consecutive days - southern and central zones only)	\$19.00
- One-day (southern and central zones only)	\$13.00
Senior (65 and older) - no licence required.....	N/A
Canadian Armed Forces Veteran	Free
Youth (under 16) - no licence required	N/A
Canadian Resident	
Age 16 and older	
- Annual.....	\$75.00
- Three-day (consecutive days - southern and central zones only)	\$40.00
- One-day (southern and central zones only)	\$20.00
Canadian Armed Forces Veteran	Free
Youth (under 16) - no licence required	N/A
Non-Resident	
Age 16 and older	
- Annual.....	\$100.00
- Three-day (consecutive days - southern and central zones only)	\$50.00
- One-day (southern and central zones only)	\$25.00
Youth (under 16) - no licence required	N/A
Competitive Fishing Event Licence	Free

*Annual angling licences expire as specified on the licence

Saskatchewan resident: A person who is a Canadian resident with a principal residence in Saskatchewan and has lived in the province for three months immediately preceding the date of licence purchase, or is a regular member of the Canadian Armed Forces who was a Saskatchewan resident when recruited or deployed from the province.

Canadian resident: A person who has a principal residence in Canada and is a Canadian citizen or has lived in Canada for 12 months immediately preceding the date of licence purchase.

Non-resident: A person who is not a Saskatchewan or Canadian resident.

Senior: A Saskatchewan resident 65 years of age or older who produces proof of age and Saskatchewan residency does not require an angling licence. Out-of-province seniors require a licence.

Canadian Armed Forces Veteran: Saskatchewan and Canadian resident Armed Forces veterans. For further information on eligibility requirements, please visit saskatchewan.ca/angling.

Season Dates and General Limits

Season Dates

2019-20	Open	Close
Southern Zone	May 5, 2019	March 31, 2020
Central Zone	May 15, 2019	March 31, 2020
Northern Zone	May 25, 2019	April 15, 2020

**See pages 11 to 28 for alternate season dates for certain waters. For example, Lake of the Prairies opens on May 11, 2019.*

Catch Limits

General limits apply to most Saskatchewan public waters. Special limits on specific waters are listed on pages 10 to 28. Limit refers to the maximum number of fish you are allowed to retain or have in your possession. Anglers may possess no more than one limit of each fish species at any time. This includes fish that are eaten or given away for that particular day, as well as all fish that are at your camp, being transported by or for you, or fish that are in storage. To determine fish length, measure the fish's total length with its tail pinched (see page 31).

General Limits

Arctic grayling	2	only one may exceed 35 cm
Bigmouth buffalo	0	
Burbot	8	
Channel catfish	2	
Goldeye/mooneye	8	
Lake trout	3	only one may exceed 65 cm
Largemouth bass	2	
Northern pike	5	only one may exceed 75 cm
Perch	25	
Rock bass	6	
*Stocked trout	5	all species combined
Smallmouth bass	0	
Sturgeon	0	
Walleye/sauger/saugeye	4	only one may exceed 55 cm
Whitefish	8	

**Stocked trout species include brook, brown, rainbow, splake and tiger trout.*

or email **centre.inquiry@gov.sk.ca**

Summary of Saskatchewan Fishing REGULATIONS

Sport fishing in Saskatchewan is regulated by *The Fisheries Regulations* that are made pursuant to *The Fisheries Act (Saskatchewan), 1994*. **Below is a summary of the major regulations, which apply to all public waters in Saskatchewan (excluding Prince Albert National Park) and must be complied with at all times.** Complete copies of the Act and Regulations may be obtained from the Queen's Printer at qp.gov.sk.ca or by calling 1-800-226-7302.

General Prohibitions

It is unlawful to:

- Sport fish without possessing a valid Saskatchewan angling licence unless the angler is under 16 years of age or a Saskatchewan resident senior;
- Fail to produce a licence upon request of a conservation officer or an RCMP officer;
- Assist or fish with individuals who are fishing for food pursuant to their Treaty or Aboriginal rights, unless the rights-bearing person(s) who when angling does not exceed the maximum number or size of fish permitted by angling under these regulations; or the accompanying person has a recognized Treaty or Aboriginal right to fish for food in Saskatchewan; or is a member of their immediate family (immediate family members include one's father, mother, grandfather, grandmother, brother, sister, child, spouse or common-law spouse);
- Possess fish taken for food by an individual under their Treaty or Aboriginal fishing rights, unless you are a member of their immediate family or have a Treaty or Aboriginal right to fish for food in Saskatchewan;
- Fish in closed waters or during a closed season;
- Take more fish than the limit specifies (limit includes fish stored or eaten for shore lunch);
- Take more than the Saskatchewan limit of fish on boundary waters with Alberta, Manitoba, the Northwest Territories and Prince Albert National Park, unless otherwise specified;
- Transport fish taken by angling that are skinless, cut or packaged so that the species, number and length cannot be determined;
- Fish with more than one line during open water season;
- Use more than four hooks on one line (a lure with a gang of hooks is considered one hook);
- Be more than 25 metres (27.3 yards) from your fishing line;
- Be in any place where your fishing line(s) are not visible at all times;
- Possess or use any spring-loaded gaff or spring-loaded hook;
- Use a dipnet except to land fish taken by angling;
- Use lights, firearms, chemicals, electric shockers or explosives to catch or kill fish;
- Take fish by snaring or snagging;
- Grapple or use only your hands to take or attempt to take fish;

- Use fish traps or nets to take fish, unless specifically licensed to do so;
- Fish within 23 metres (25 yards) downstream from any constructed dam or obstacle except where there is a ministry sign allowing fishing;
- Fish within 100 metres of any net, trap or fish holding device;
- Angle on the Saskatchewan portion of boundary waters without a valid Saskatchewan angling licence, unless otherwise specified;
- Sell, waste or barter fish taken by angling;
- Fail to stop a vehicle or boat when requested by an officer;
- Transport watercraft on a highway if the watercraft has a drainage hole in the lower hull or bilge that is blocked;
- Tamper with or take fish from a net, trap or holding device without the owner's permission; and
- Import into Saskatchewan or transport within Saskatchewan any live fish or live fish eggs.

Fishing with Bait

- Live fish may not be used as bait. Only baitfish that are dead and have been commercially frozen or preserved may be used;
- All frozen fish to be used as bait in Saskatchewan (including smelt) that originate from Ontario, Quebec, Indiana, Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania or Wisconsin and are known to harbour viral hemorrhagic septicemia (VHS) require proof that the fish are certified free of VHS;
- Live leeches or crayfish may not be imported into Saskatchewan. Only leeches and crayfish originating within Saskatchewan may be used as live bait. Canadian and non-resident anglers must provide proof (upon request) that their live bait was purchased in Saskatchewan;
- Frogs and salamanders may not be used as bait;
- The non-edible parts of a fish legally taken by angling, such as the eye, belly skin or internal organs, can be used as bait and the fish from which the parts were taken must be dead and included in your limit; and
- Earthworms or night crawlers may be imported and used as live bait. However, they must be shipped in a soil-free medium such as peat moss or shredded paper.

Ice Fishing

- Two lines may be used when ice fishing, but they must remain within 25 metres (27.3 yards) and in sight of the person who has set or is using them;
- Only gaffs with a J-hook end may be used to land fish while ice fishing, but they cannot be more than 1.5 metres (1.6 yards) long;
- Ice fishing shelters south of Highway 16 must be removed from the ice no later than March 15. Ice fishing shelters north of Highway 16 must be removed no later than March 31;
- Storing or leaving ice fishing shelters on Crown land or private land without the landowner's consent is not permitted; and
- Ice fishing shacks must have the owner's full name, address and phone number in legible letters at least 2.5 centimetres (1 inch) high on the outside of the shack.

Bow Fishing

- Bow fishing season is open from April 20 to March 31;
- A valid Saskatchewan angling licence is required;
- Bow fishing is permitted for carp and suckers only – the taking of game fish and bigmouth buffalo by bow and arrow is prohibited;
- No fish taken by bow fishing may be released or wasted, or abandoned on Crown or private land without the landowner's consent;
- Fish arrows must be attached to the bow or archer with a line strong enough to retrieve impaled fish; and
- A bow and arrow is defined as a firearm and cannot be used or possessed in:
 - ~ Provincial and regional parks or provincial recreation sites; or
 - ~ A federal migratory bird sanctuary (call Environment and Climate Change Canada at 306-836-2022 for further information).

Underwater Spear Fishing

- Anyone possessing a valid Saskatchewan angling licence may spear fish in Saskatchewan waters;
- Species limits are the same as those for hook and line angling;
- No fish taken by spear fishing may be released;
- Pneumatic guns may be used for spear fishing in Saskatchewan;
- No fish may be taken by underwater spear fishing unless the diver is submerged or swimming in the water;

- Spears shall be secured to the gun or the diver by a line not exceeding five metres (5.5 yards) and of sufficient strength to withstand the operating tension of the spear gun;
- The use of explosive charges or any gas other than air as a spear gun propellant are not permitted;
- All underwater spear fishers must display a scuba diver's flag while fishing; and
- No underwater spear fishing is allowed within 100 metres (109 yards) of a buoyed swimming area.

Don't Transfer Live Fish

Newly introduced fish species can harm the ecological balance of established fish communities. To prevent the spread of undesired fish species and fish disease:

- Do not move live fish or their eggs;
- Do not use live fish as bait;
- Do not import live fish; and
- Report anglers who are suspected of the above offences

Angling Infractions

Penalties under *The Fisheries Act* are fines to a maximum of \$100,000, imprisonment up to 12 months or both. For certain offences, violators may be issued a summary offence ticket with a voluntary payment option, while other more serious offences may require a court appearance. Automatic licence suspensions of one to five years have been implemented for serious offences, along with increased fines.

Management Zones and Special Regulations

Using Zone Regulation Information

Saskatchewan is divided into three management zones for angling regulation. All lakes intersected by the zone borders fall into the zone immediately north of the border. Look for the name of the waterbody you intend to fish on pages 11 to 28. **If the waterbody is listed, you must follow general regulations, as well as the special regulations listed. General regulations apply to all unlisted provincial waters, while special regulations are specific to certain bodies of water.**

New regulations for a specific waterbody have the waterbody's name in **red and an asterisk (*)** beside the name of the waterbody. A number-letter combination after the waterbody name is the location on the map provided on the zone page.

Catch-and-Release (CR) Waters

Zone	Species	Limit	Information
CR1	Arctic grayling	1	
	Lake trout	2	only one may exceed 65 cm
	Northern pike	3	only one may exceed 75 cm
	Walleye/sauger/saugeye	2	only one may exceed 55 cm
	For all other fish species limits, see pages 6 and 11 to 28.		
CR2	Arctic grayling	1	which cannot exceed 35 cm
	Lake trout	2	none may exceed 65 cm
	Northern pike	3	none may exceed 75 cm
	Walleye/sauger/saugeye	2	none may exceed 55 cm
	For all other fish species limits, see pages 6 and 11 to 28.		
CR3	Limit of one fish only per day which can be either an:		
	Arctic grayling	1	which cannot exceed 35 cm
	or Lake trout	1	which cannot exceed 65 cm
	or Northern pike	1	which cannot exceed 75 cm
	or Walleye/sauger/saugeye	1	which cannot exceed 55 cm
	For all other fish species limits, see pages 6 and 11 to 28.		

Barbless Hooks are Mandatory

Barbless hooks are mandatory on all catch-and-release waters in Saskatchewan, as well as Lake of the Prairies and Athapapuskow, Caddis and Tobin lakes.

Southern Zone - Special Regulations

2019-20 Season Dates: May 5, 2019 - March 31, 2020

See page 10 for catch-and-release (CR) water species limits.

Contact your local ministry office or the inquiry line at 1-800-567-4224 for clarification of all regulations.

Catch-and-Release Fishing

Catch-and-release fishing continues to increase in popularity in Saskatchewan. Results from the most recent survey of recreational fishing in Canada indicate that almost all anglers in Saskatchewan practice some form of catch-and-release. Therefore, it is important to follow best practices to limit injuries or death. Factors such as handling, hook placement and environmental conditions can influence post-release mortality.

Proper Tools for Effective Catch-and-Release

- Needle nose pliers, hemostats or special hook-removing devices; line cutters for deeply hooked fish; landing net or cradle; wet cloth glove and camera (if taking a picture).
- Landing nets or cradles should be constructed with non-abrasive, knotless materials such as rubber or tangle-free coated nylon. Cradles are recommended for larger fish such as pike.

Angling Techniques for Effective Catch-and-Release

- Land the fish as quickly as possible to avoid fish exhaustion. The tackle used should match the size of the fish targeted; avoid intentionally using light tackle to prolong the catch.
- Catch-and-release fishing in depths greater than nine metres (30 feet) should be avoided, as most Saskatchewan fish species are unable to rapidly adjust to the changes in water pressure as they are pulled towards the surface, resulting in greater mortality of released fish.
- Venting of distended swim bladders, or fizzing, is discouraged as it can cause stress and has the potential to harm other internal organs.
- Use unscented artificial lures rather than bait or other organic materials (e.g. dough balls, corn) to minimize deep hooking of fish.
- Limit your angling during periods of extreme heat or cold, as extreme temperatures can contribute to post-release mortality.

Fish and Wildlife Development Fund

Donations can be made to the Fish and Wildlife Development Fund (FWDF) through HAL to help maintain Saskatchewan's fish and wildlife populations. Contributions can be directed to the FWDF's fish enhancement and/or wildlife development programs. Monies directed to fish enhancement will be used for priority fisheries programs, such as upgrading the aging infrastructure at the province's fish culture station.

Fish Handling Techniques for Effective Catch-and-Release

- Minimizing air exposure is one of the most important factors in limiting post-release mortality. Ideally, fish should be released without removing them from the water.
- Single, barbless and/or circle hooks can help reduce handling time and air exposure.
- Handle the fish as quickly (under 30 seconds) and as little as possible. Use a wet cloth glove or wet hand to prevent damage to the fish's protective mucus coating.
- Once a fish is landed, be careful not to let it flop around as this can lead to injuries.
- Do not hold or support a fish's weight by the gills, gill cover or eyes. If a fish must be held, hold it in a horizontal position, with one hand placed under the forward belly area and the other hand gently around the tail area. This will help minimize damage to the fish's spine and internal organs.
- If a fish is hooked in a vital area such as the gullet, gill or eye, consider keeping the fish if regulations allow, as post-release survival of these fish is greatly reduced.
- If you must release a deeply hooked fish, consider cutting the line close to the hook and follow proper release techniques.
- Hold a fish horizontal in the water until it is fully revived and swims away on its own. Move the fish in an S-shaped pattern to run water through its gills.
- If you must release fish that have been retained in a livewell, proper management of your livewell is crucial. Stress from prolonged confinement and low dissolved oxygen levels from overcrowding and/or warm water can result in higher mortality rates. Limit the number of fish in a livewell to 0.1 kg of fish per litre of water, or roughly one pound of fish per gallon of water. Limiting retention time in a livewell can also help reduce stress and improve post-release mortality.
- If a fish is bleeding or cannot be revived, count that fish towards your limit if regulations allow.

Weigh Your Fish With a Ruler

Fish can be harmed when weighed. To protect your fish, take a length measurement. With this chart, you can quickly determine the approximate weight of your fish if you know its length.

TOTAL LENGTH		APPROXIMATE WEIGHT, KG				
cm	in	Perch	Grayling	Walleye	Lake Trout	Pike
20	7.80	0.11	0.08	0.06	0.06	0.07
28	10.9	0.31	0.22	0.18	0.17	0.18
36	14.0	0.67	0.46	0.41	0.37	0.36
44	17.2	1.25	0.85	0.79	0.72	0.64
52	20.3		1.41	1.36	1.24	1.04
60	23.4		2.18	2.16	1.98	1.56
68	26.5			3.24	2.98	2.23
76	30.0			4.65	4.29	3.06
84	32.8			6.44	5.94	4.07
92	35.9				8.00	5.28
100	39.0				10.50	6.70
120	46.8				19.03	11.28
140	54.6					17.51

How to Measure a Fish

Lay the fish on its side, with the mouth closed and the tail lobes pressed together. Measure the length in a straight line along a flat surface from the tip of the nose to the end of the tail.

To Convert:

- Centimetres to Inches = multiply by 0.39
- Inches to Centimetres = multiply by 2.54
- Kilograms to Pounds = multiply by 2.21
- Pounds to Kilograms = multiply by 0.45

Fish of Saskatchewan

Arctic grayling - Purple iridescence on sides, large dorsal fin. Average size: 0.5 kg (1.1 lb).

Bigmouth buffalo - Large mouth at tip of snout with no barbels present. Large scales on body with soft-rayed fins. Average size: 3 to 6 kg (6.6 to 13.23 lb).

Brook trout - Sides have white and red spots surrounded by blue haloes. Average size: 0.5 to 1 kg (1.1 to 2.2 lb).

Brown trout - Tail square, not forked, light brown with black and rusty spots. Average size: 1 to 2.5 kg (2.2 to 5.5 lb).

Bullhead (brown & black) - Tail square, not forked, four pairs of barbels present. Average size: Less than 1 kg (2.2 lb).

Burbot - Head flattened, single barbel below mouth. Average size: 1 to 1.5 kg (2.2 to 3.3 lb).

Carp - Large heavy scales on body, two pairs of barbels at edge of mouth. Average size: 1 to 5 kg (2.2 to 11 lb).

Channel catfish - Tail deeply forked, four pairs of barbels present. Average size: 1 to 2 kg (2.2 to 4.4 lb).

Goldeye - Silver to dark blue in colour with large, bright yellow eyes. Leading edge of dorsal fin above anal fin. Average size: Less than 0.5 kg (1.1 lb).

Lake trout - Deeply forked tail fin, colour is dark grey-green with light spots. Average size: 1 to 2.5 kg (2.2 to 5.5 lb).

Lake whitefish - Small head, nose overhangs lower jaw, silvery in colour. Average size: 0.5 to 1.5 kg (1.1 to 3.3 lb).

Largemouth bass - Large head and mouth, spiny dorsal fin. Average size: 0.5 to 1.5 kg (1.1 to 3.3 lb).

Mooneye - Similar in appearance to goldeye, but with leading edge of dorsal fin ahead of anal fin. Average size: less than 0.5 kg (1.1 lb).

Northern pike - Body long and torpedo shaped, large mouth with many sharp teeth. Average size: 1 to 2.5 kg (2.2 to 5.5 lb).

Rainbow trout - Mature fish have a pink/red band on each side. Average size: 0.5 to 2 kg (1.1 to 4.4 lb).

Rock bass - Body is deep and narrow, eyes are red/orange in colour. Average size: less than 0.5 kg (1.1 lb).

Sauger - No white lobe on lower tail fin, dorsal fin with black spots. Average size: less than 0.5 kg (1.1 lb).

Splake (Lake trout hybrid) - Body greenish in colour, with yellowish spots and heavy body. Average size: 1 to 2 kg (2.2 to 4.4 lb).

Smallmouth bass - Colour may vary from green to olive with dark vertical bars along the side. Spiny dorsal fin. Average size: 1.35 kg (2.98 lb).

Lake sturgeon - Shark-like tail fin. Pointed snout with four barbels. Average size: 3 to 10 kg (6.6 to 22 lb).

Tiger trout (Brook trout/Brown trout hybrid) - Yellow/brown in colour, worm-shaped mark on sides. Average size: 0.5 to 1 kg (1.1 to 2.2 lb).

Walleye - White mark on lower lobe of tail fin, spiny dorsal fin. Average size: 0.5 to 1.5 kg (1.1 to 3.3 lb).

Yellow perch - Golden colour with black bars, spiny dorsal fin. Average size: 0.2 to 0.5 kg (0.44 to 1.1 lb).

Going fishing? Remember your licence.

Did you know that 30 per cent of all angling licence revenue goes into the Fish and Wildlife Development Fund to help manage our fisheries resources?

Contact our confidential, 24-hour Turn In Poachers (TIP) service if you notice someone fishing in closed spawning areas, exceeding the limit or using illegal gear. All reports are investigated.

Call SaskTel Cell, the toll-free number or submit a report online.
