(2) In setting the mill rate pursuant to subsection 8(1), the board, in a year in which there is a new base date, shall adjust the mill rate obtained pursuant to subsection 8(4) so that the rural municipalities within the area of influence will raise, subject to subsections (3) and (4), in that year the same total tax revenues for municipal purposes from potash mine assessments that were raised in the preceding year:

(3) In a year in which a new base date takes effect, if new land and improvements are assessed to a potash mine property:

(a) the calculation for municipal potash tax sharing must include the new assessments; and

(b) the adjusted mill rate must be applied to the new assessments.

(4) If a potash mine is deemed to be a new mine in a year in which a new base date takes effect, then in that year:

(a) if the new mine’s area of influence overlaps with one or more existing areas of influence to create a new, expanded area of influence:

(i) the adjusted mill rate calculated in the existing areas of influence pursuant to subsection (2) is to be applied to the new mine’s potash mine assessments; and
