|--------------|----------------------|--------|----------|---------------------|
| | | | | |
| | | | | |

¹This amount is the municipality’s estimate of the total eligible and ineligible project costs. If other municipalities are involved in this project, indicate only the portion of the total project costs that relate to your municipality.

²CCBF Funding is the amount of the municipality’s CCBF allocation that the municipality requests to be provided for this project and cannot exceed the amount of eligible project costs. Consider maximizing eligible costs within the available CCBF allocation under one project to minimize the administrative burden of submitting several IIPs, if/where possible.

Are other municipalities contributing to this project? Yes No

If yes, attach a list of municipalities and the amount of their contribution. List Attached

Part 3 – Outcomes

Each of the 19 eligible project categories support one of three national program objectives:

- Productivity and Economic Growth
- Clean Environment
- Strong Cities and Communities

Consider the potential benefits and outcomes for your project:

- Step 1. Select the eligible project category that you identified on page 1.
- Step 2. Review the national program objective associated with that category.
- Step 3. Select at least one applicable outcome from the list provided.

Your project must be able to support at least one outcome and one output, and your IIP will be assessed based on this.

Once your project is reported as complete, an outcomes report will be sent to you to report on the specific benefits and outcomes achieved. This information will become part of an overall outcomes report that the province submits to the federal government.

Part 4 – Asset Management

Is the project aligned with the long-term plans of your organization? Yes No
(E.g. Asset Management Plan, Capital Plan and/or Community Plan)

If yes, describe how. If no, explain why not.

Part 5 – Housing (If Applicable)

Required for municipalities with a 2021 Census Population of 30, 000 or more.

Is your municipality required to complete a Housing Needs Assessment under CCBF according to the Municipal Funding Agreement? Yes No

If No, your municipality is not required to fill in **Part 5 – Housing** of this IIP form.

If yes, please provide a link to the completed HNA on the municipal website as per the Municipal Funding Agreement.

Does this project address any of the housing pressures relating to infrastructure needs identified in your Housing Needs Assessment? Yes No

If yes, provide the key infrastructure-related housing pressures this project intends to address (examples in guide). This information will become part of a project-level housing report that the province must submit to the federal government. If no, explain why not.

Provide expected housing outcomes from the completion of the project (examples in guide). Once your project is reported as complete, a housing outcomes report will be sent to you to report on the specific benefits and outcomes achieved. This information will become part of an overall housing outcomes report that the province must submit to the federal government.

Provide expected housing outputs/indicators from the completion of the project. Once your project is reported as complete, a housing outcomes report will be sent to you to report on the specific outputs achieved. This information will become part of an overall housing outcomes report that the province must submit to the federal government.

Number of new housing units enabled* Count (# assets)

Number of affordable** housing units enabled or preserved*** Count (# assets)

* **“Units Enabled”** means the number of new housing units constructed or the estimated capacity to increase housing starts resulting from the CCBF infrastructure investment, whether directly or indirectly.

** **“Affordable Housing”** means a dwelling unit where the cost of shelter, including rent and utilities, is a maximum of 30 per cent of before-tax household income. The household income is defined as 80 per cent or less of the Area Median Household Income (AMHI) for the metropolitan area or rural region of the Participating Municipality

*** **“Units Preserved”** means the number of existing housing units impacted by the CCBF investment to preserve existing service at risk from failing systems or to increase reliability and access to drinking water, wastewater, stormwater, or solid waste systems.
